Harris, Harmon. (See Burt and Harris.)						
Harris, Jesse J., Beren, and A. A. Prior, assignors of one-half to T. Reid, Cleveland, Ohio. Nut-tapping machine	812,422	Feb. 13	1831	401-2	120	1938
Harris, Leo. (See Lovejoy, George W., assignor.)						
Harris, Louis J., New York, N. Y. Observation-trolley-car railway	810,646	Jan. 23	4166	861	120	1032
Harris, William D., Philadelphia, Pa. Current-tap	809,183	Jan. 2	1101	239	120	242
Harrison, Amos, assignor of one-fourth to R. H. Walch, Chicago, Ill. Vapor-generator	810,486	Jan. 23	3862	792	120	982
Harrison, Amos, assignor of one-fourth to R. H. Walch, Chicago, Ill. Low-pressure heating system	812,926	Feb. 20	2807	618	120	2187
Harrison, Edward F., Philadelphia, Pa. Magnesium flash-lamp	813,143	Feb. 20	3265	717	120	2287
Harrison, Frank G., and A. C. Jacoby, assignors to W. R. Harrison, Massillon, Ohio. Fodder-cutter	810,204	Jan. 16	3218	666	120	786
Harrison, J. H. (See Collins, Horatio E., assignor.)						
Harrison, William. (See Menges, Albert C., assignor.)						
Harrison, William P., Cincinnati, Ohio. Oil-stove	811,635	Feb. 6	205	44	120	1530
Harrison, Williamson B. (See Harrison and Jacoby, assignors.)						
Harrover, Robert M., Washington, D. C. Bottle-crate	813,609	Feb. 27	4353	958	120	2580
Harsch, Otto, Swissvale, Pa. Ice-crusher	813,140	Feb. 20	3266	718	120	2288
Hart, Harry, Milwaukee, Wis. Strap-loop	809,681	Jan. 9	2175	450	120	510
Hart, Harry S., and W. Yost, assignors to Rodger Ballast Car Company, Chicago, Ill. Dump-car	811,717	Feb. 6	344	76	120	1562
Hart, J. E. (See Hart, William L., assignor.)						
Hart, John W., La Harpe, Kans. Self-igniting match-safe	813,967	Feb. 27	4876	1078	120	2691
Hart, Mat B. (See Lenthook and Hart.)						
Hart, William E., Greathead, Kans. Fly-screen	810,534	Jan. 23	3952	813	120	984
Hart, William L., assignor of one-half to J. E. Hart, Mansfield, Mo. Churn-dasher	808,743	Jan. 2	247	53	120	57
Hartley, Sherman. (See McIntyre, Robert D., assignor.)						
Hartmann, Edward V., *et al.* (See Trudeau, Jules M. M., assignor.) (Reissue.)						
Hartnett, George H., *et al.* (See Trudeau, Jules M. M., assignor.) (Reissue.)						
Hartgraves, Ella E., Wyndmere, N. D. Valve	808,654	Jan. 2	68	15	120	17
Hartley, James M., Washington, D. C. Hair-pin	813,741	Feb. 13	2445	536	120	2062
Hartley, Robert H., Pittsburg, Pa. Toy or display device	813,651	Feb. 13	2279	496	120	2026
Hartman, Frank O., Mansfield, Ohio. Electric-circuit breaker	810,751	Jan. 23	4360	904-5	120	1072
Hartness, Noble W., Toledo, Ohio, assignor of one-half to G. W. Burkhart, Detroit, Mich. Glass-blowing machine	813,289	Feb. 20	3525	777-8	120	2342
Harton, Pembroke D. (See Randall, Alfred H., Jr., assignor.)						
Harvey, George H. (See Spear and Harvey.)						
Harvey, George H., Cleveland, assignor, by mesne assignments, to Brownsville Glass Company, Brownsville, Pa. Glass-drawing machine	813,290	Feb. 20	3530	778	120	2343
Harvey, George H., Cleveland, assignor, by mesne assignments, to Brownsville Glass Company, Brownsville, Pa. Glass-drawing machine	813,291	Feb. 20	3531	778	120	2343
Harvey, Urban, U. S. Revenue-Cutter Service. Hydraulic hoist	808,655	Jan. 2	69	15	120	17

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Haskin, William J. (See Buckland, Edward S., assignor.)						
Hasley, Thomas R., Houghton, Mich. Railway-tie	809,682	Jan. 9	2176	450	120	510
Haslinger, Anton, Allegheny, Pa. Extinguisher	809,055	Jan. 2	855	181	120	189
Haslup, Dodson, Grafton, W. Va. Hub for car-wheels	813,418	Feb. 27	3801	834	120	2458
Hatch, Arthur F. (See Golden, Edward B., assignor.)						
Hatch, Frank E., Winnipeg, Canada. Hoof mixture	811,718	Feb. 6	346	.....	120	1563
Hatfield, Harry, *et al.* (See Branson, Tilghman E., assignor.)						
Hatfield, James I., Douglas, Ga. Spout for gathering turpentine	812,682	Feb. 13	2281	496	120	2028
Hatfield, James I., assignor of one-half to J. H. Dent, Douglas, Ga. Spout for collecting crude turpentine	810,782	Jan. 23	4368	905	120	1074
Hatfield, Wallace O., Syracuse, N. Y., assignor of one-third to T. C. Griffin. Spike-protector for shoe-spikes	810,753	Jan. 23	4358	905	120	1074
Hattery, Jeremiah L., San Bernardino, Cal. Trousers-press	812,742	Feb. 13	2446	537	120	2063
Haughton, Frank A., Schenectady, N. Y. Means for superheating steam	809,612	Jan. 9	2037	423	120	479
Haughton, Frank A., Schenectady, N. Y. Steam generator and superheater	809,683	Jan. 9	2177	451	120	510
Hausmann, Ernst, Cologne, Germany. Crucible-furnace	811,219	Jan. 30	5306	1109	120	1312
Haussmann, Wilhelm, Barmen, Germany. Shuttle for ribbon-looms	809,564	Jan. 9	1929	401	120	457
Haven, Rutherford C. (See Hippisley, William H., assignor.) (Reissue.)						
Haverfield, Joseph L., assignor to Mayfield Mfg. Co., Mayfield, Ky. Press-operating device	813,292	Feb. 20	3533	779	120	2343
Hawkes, Charles W., Chicago, Ill. Steam-boiler	809,503	Jan. 9	1817	374	120	434
Hawkins, Cyrus, Camden, N. J., assignor to Hawkins Wilson Company. Press for printing and embossing	813,888	Feb. 27	4728	1045-6	120	2662
Hawkins, John C., Loudonville, Ohio. Hub	810,754	Jan. 23	4360	905	120	1074
Hawkins Wilson Company. (See Hawkins, Cyrus, assignor.)						
Hawley, Charles G. (See Holderness and Hawley.)						
Hawley, Charles G., and H. O. Holderness, Chicago, Ill. Selective signaling system	813,419	Feb. 27	3802	834-5	120	2458
Hawley, Sylvester S., Centralia, Ill. Multiple-bolt mechanism	809,184	Jan. 2	1103	229	120	243
Hay, George A. (See Draper and Hay.)						
Hayden, James T., assignor to Crane Company, Chicago, Ill. Spring-disk valve	813,555	Feb. 27	4082	894	120	2523
Haydock, James, *et al.* (See Richardson, Abraham, assignor.)						
Haydock, James, *et al.* (See Richardson and Jones, assignors.)						
Hayes, Dennis H., Adrian, Mich. Magazine for fence-looms	811,500	Jan. 30	5812	1217	120	1419
Hayes, Frederick W., Detroit, Mich. Eraser-holder	809,056	Jan. 2	856	181	120	189
Hayford, Eugene S., Boston, Mass. Refilled-bottle detector and identity-destroyer	810,647	Jan. 23	4170	862	120	1032
Haynes, Frederick M., Buffalo, N. Y. Curtain-stretcher	809,684	Jan. 9	2180	451	120	512
Haynes, Justin H., and W. D. Engle, assignors to Dolores Refining Company, Denver, Colo. Treating ores	808,839	Jan. 2	420	.....	120	93
Haynes, William L., Ambridge, Pa. Spacing mechanism	810,648	Jan. 23	4171	862	120	1032
Haynie, James W., Fairburn, Ga. Cotton-chopper	809,109	Jan. 2	979	202	120	216
Hays, Edward F., trustee. (See Hays, Harry J., assignor.)						
Hays, Harry J., assignor to E. F. Hays, trustee, Pittsburg, Pa. Apparatus for forming sheet and plate glass	813,794	Feb. 27	4527	1000	120	2618
Hayward, Judson, New York, N. Y. Hoisting and conveying apparatus	811,144	Jan. 30	5150	1077	120	1277
Haywood, Daniel H., New York, N. Y., assignor to W. B. Wadsworth, Plainfield, N. J. Cut-off socket	808,656	Jan. 2	72	15	120	18
Hazard, Henry T., Los Angeles, Cal., assignor of one-half to A. Hobercht, Ensada, Mexico. Means to replenish the air-chambers of pumps with air	812,423	Feb. 13	1833	402	120	1939
Hazlewood, George W., and H. C. Robinson, Mineral Wells, Tex. Hitching device	813,045	Feb. 20	3039	669	120	2237
Heald, Alfred, Philadelphia, Pa. Loom for weaving pile fabrics	813,968	Feb. 27	4878	1078	120	2691
Heald, James N. (See Morgan and Heald.)						
Heald Machine Company. (See Morgan and Heald, assignors.)						
Heap, Henry, *et al.* (See Richardson, Abraham, assignor.)						
Heap, Henry, *et al.* (See Richardson and Jones, assignors.)						
Heap, Joseph, *et al.* (See Richardson, Abraham, assignor.)						
Heap, Joseph, *et al.* (See Richardson and Jones, assignors.)						
Heap, Robert S., Burnley, and G. Grey, Cornholme, England. Self-acting mule and twiner	813,969	Feb. 27	4880	1078-9	120	2692
Heard, C. E. (See Farleigh, George M., assignor.)						
Heard, George M. D., Worcester, Mass. Ratchet-brace	810,409	Jan. 23	3697	761	120	925
Heart, Charles, assignor to Heart Metal Wheel and Gear Company, Alexandria, Ind. Wheel	810,649	Jan. 23	4175	862	120	1033
Heart, Charles, assignor to Heart Metal Wheel and Gear Company, Alexandria, Ind. Wheel-fally	810,860	Jan. 23	4556	948	120	1116
Heart Metal Wheel and Gear Company. (See Heart, Charles, assignor.)						
Heberling, John, Rochester, N. Y. Dumping-wagon	811,719	Feb. 6	347	77	120	1563
Heckert, William. (See Wheeler and Heckert.)						
Hedemann, Christian J., Honolulu, Hawaii. Liquid-weighing machine	812,846	Feb. 20	2853	580-1	120	2152
Hedgeland, Frederick W., Chicago, Ill. Self-playing mechanism for instruments	809,556	Jan. 9	1930	401	120	457
Hedges, William H., Kansas City, Kans. Portable fireproof vault	810,961	Jan. 23	4557	949	120	1117
Healy, Patrick, and J. Keers, New York, N. Y. Tool for spreading the tubes of water-tube boilers	808,920	Jan. 2	589	130	120	139
Healy, Patrick, and J. Keers, Brooklyn, N. Y. Tool for holding fire-bricks of water-tube boilers	811,844	Feb. 6	589	129	120	1609
Heane, George W., Cleveland, Ohio. Blank stamping or impressing machine	809,891	Jan. 9	1983	412	120	467
Heap, August J., *et al.* (See Reinschmidt, Frank, assignor.)						
Heffner, John L., Peoria, Ill. Couch	810,939	Jan. 30	4781	991	120	1198
Hegg, Nels, Harmony, Minn. Horseshoe-calk	810,755	Jan. 23	4361	906	120	1074
Heggie, David, McKeesport, assignor to National Tube Company, Pittsburg, Pa. Socket-welding apparatus	808,657	Jan. 2	74	16	120	18
Heid, Clara C., Juneau, Alaska. Letter-file	812,653	Feb. 13	2282	496	120	2029
Heidenkamp, Joseph, Springdale, Pa. Apparatus for making wire-glass	812,994	Feb. 20	2942	648	120	2216
Heidorn, Hugo, Hamburg, Germany. Apparatus for firing incandescent mantles	812,743	Feb. 13	2447	537	120	2063
Heinisch, Joseph, Topeka, Kans. Signal-lamp	813,700	Feb. 27	4354	905	120	2580
Heinrich, Heinrich, assignor of one-half to D. D. A. Outcalt, Spotswood, N. J. Explosion-engine	810,535	Jan. 23	3963	813-14	120	985
Heinrich, John, J. Schmidt, and C. L. Etheridge, Kansas City, Mo. Fraud-preventive mechanism for cigar-vending machines	811,395	Jan. 30	5633	1179	120	1383
Heinrich, John, J. Schmidt, and C. L. Etheridge, Kansas City, Mo. Mechanism for feeding cigars in vending-machines	811,396	Jan. 30	5637	1180	120	1383
Heinrich, John, J. Schmidt, Kansas City, and C. L. Etheridge, St. Louis, Mo. Coin-controlled vending-machine	811,501	Jan. 30	5815	1217-18	120	1419
Heintz, Otto L., Buffalo, N. Y. Enameled ornament	808,744	Jan. 2	246	54	120	57
Heist, Charles N. (See Burkholder, Isaac R., assignor.)						
Heitz-Boyer, Maurice G., Paris, France. Vehicle-wheel	812,583	Feb. 13	2115	469-4	120	1997
Helfrich, Michael D. (See Winter, Charles F., assignor.)						
Hellmuth, Charles, New York, N. Y. Combined knife, fork, can-opener, and saw	812,434	Feb. 13	1834	402	120	1939

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drf'g.	Official Gazette. Vol.	Official Gazette. Page.
Hellström, Carl D., Nyfors, Sweden. Liner for centrifugal liquid-separators	809,685	Jan. 9	2181	451–2	120	512
Hellwig, Albert A., Gloversville, N. Y. Skin-stretching machine	813,293	Feb. 20	3534	779	120	2344
Helmig, Katie C., *et al.* (See Turney, Edgar E., assignor.)						
Hemleb, Martin, Elizabeth, N. J., assignor to Singer Manufacturing Company. Sewing-machine feed and loop-taker actuating mechanism	809,566	Jan. 9	1932	401	120	458
Hemleb, Martin, Elizabeth, N. J., assignor to Singer Manufacturing Company. Feed-regulating device for sewing-machines	809,945	Jan. 16	2676	552	120	673
Hemmick, Roland J. (See Read, William E., assignor.)						
Henckel, Gustave A., East Orange, N. J. Tableware and like articles	809,567	Jan. 9	1934	402	120	458
Henderson, James. (See Peake and Henderson.)						
Henderson, James A., St. Louis, Mo. Show-case corner	810,410	Jan. 23	3699	762	120	925
Henderson, Leo, Peoria, Ill. Hydrocarbon-gas generator	811,845	Feb. 6	592	129	120	1610
Henderson, Thomas D., Chicago, Ill. Railway-rail stay	808,921	Jan. 2	592	130	120	130
Henderson, William G., and J. W. Weiss, Oil City, Pa. Cooker	812,564	Feb. 13	2118	464	120	1998
Hendley, Martha G., Mayfield, Ky. Iron-heater	810,650	Jan. 23	4177	863	120	1034
Hendricks, John J. (See Loudon and Hendricks.)						
Henke, Christian B. E., and G. A. H. Schulte, Bremen, Germany. Manufacture of bottle-envelops	809,299	Jan. 9	1383	281	120	340
Henn, Edwin C., Cleveland, Ohio. Binding-post	813,093	Feb. 20	3138	687	120	2259
Henner, Joseph F., Haines, Oreg. Car-brake	813,880	Feb. 27	4732	1046	120	2663
Hennicke, Charles A., assignor to Pratt & Letchworth Company, Buffalo, N. Y. Spring-gear for vehicles	809,946	Jan. 16	2678	553	120	674
Henningsen, George, Kimballton, Iowa, assignor to Henningsen & Jensen. Mold-forming mechanism	809,504	Jan. 9	1820	375	120	434
Henningsen & Jensen. (See Henningsen, George, assignor.)						
Henricks Novelty Company. (See Wynn, Robert E., assignor.)						
Henry, George J., Jr., assignor of one-half to Pelton Water Wheel Company, San Francisco, Cal. Hydraulic support for deflecting nozzles	810,756	Jan. 23	4361	906	120	1075
Henry, Joseph L., Rochester, N. Y. Thill-coupling	814,005	Feb. 27	4956	1097–8	120	2706
Henry R. Worthington. (See Grace, John F., assignor.)						
Henry R. Worthington. (See Ray, Frederick, assignor.)						
Henry Vogt Machine Company. (See Thurstenson, Soren, assignor.)						
Henry, William K., assignor to P. & F. Corbin, New Britain, Conn. Door check and closer	810,411	Jan. 23	3700	762	120	926
Hensel, Harry C., Chicago, Ill. Type-distributing mechanism	810,206	Jan. 16	3219	667	120	786
Hensley, Charles H. (See Louise and Hensley.)						
Hensley, John, Huntington, Ind. Trolley-wheel	812,847	Feb. 20	2654	581	120	2152
Hensley, Joseph B., Beeville, Tex. Rail-joint	810,757	Jan. 23	4363	906	120	1075
Henson, William M., Kansas City, Mo. Kitchen-cabinet	811,918	Feb. 6	738	161	120	1641
Hepke, Alexander, and K. Diener, Berlin, Germany. Switch-plug with electrical fuse	809,300	Jan. 9	1384	281	120	340
Hepke, Alexander, and K. Diener, Berlin, Germany. Electric multiple-fuse plug	809,301	Jan. 9	1386	281	120	340
Heppe, Bernhard. (See Ward, George, assignor.)						
Herblin, William L. (See Mettenheimer and Herblin.)						
Hercules Safety Clasp Company. (See Steinberg, Isaac, assignor.)						
Herder, Charles G., Blanchester, Ohio. Display-rack	811,720	Feb. 6	349	77	120	1564
Herman, Reinhold, Crafton, Pa., assignor to General Electric Company. Rain-guard for signals	809,800	Jan. 9	2387	494	120	557
Hermanson, Gustaf A., Chicago, assignor to J. Munton, Maywood, Ill. Car-coupling	812,927	Feb. 20	2809	619	120	2188
Hermedorf, Max, assignor to F. Krupp Aktiengesellschaft, Essen-on-the-Ruhr, Germany. Lever-actuated wedge breech-block	809,801	Jan. 9	2388	494	120	558
Herndon, Florence E., Dallas, Tex. Bathing-hat	809,947	Jan. 16	2680	553	120	674
Hero Fruit Jar Company. (See Sagee, Charles W., assignor.)						
Herold, John, Detroit, Mich. Target	811,636	Feb. 6	206	44	120	1530
Herr, John, Port Huron, Mich. Package	809,948	Jan. 16	2681	553	120	675
Herr, Joseph, Gibsonburg, Ohio. Shade-roller and curtain-pole support	810,142	Jan. 16	3091	636	120	760
Herr, Shirl, Lebanon, Ind. Clover-seed-recleaning process	813,880	Feb. 27	4735	1047	120	2663
Herrick, Austin T., Bradford, Pa. Pipe-coupling	808,922	Jan. 2	594	130	120	130
Herrick, Austin T., Bradford, Pa. Pipe-coupling	808,923	Jan. 2	595	131	120	130
Herrick, Austin T., Bradford, Pa. Leak-stop	813,891	Feb. 27	4736	1047	120	2664
Herrington, Florence L., New York, N. Y., and H. Knight, Jersey City, N. J., assignors to International Cigar Machinery Company, New York, N. Y. Wrapper-transferring mechanism	808,745	Jan. 2	249	54	120	57
Herrington, Jacob, assignor of one-half to J. De Phillippi, Houston, Tex. Bottle-closure	809,258	Jan. 2	1300	265	120	286
Herrmann, Gustav H., Schweidnitz, Germany. Flash-light cartridge	811,780	Feb. 6	455	98	120	1584
Herrmann, John, and C. Schwaner, Charlottesville, Va. Wire-stretcher	809,949	Jan. 16	2683	554	120	675
Herrmann, Oscar, Brown Station, N. Y. Foot-release valve for pneumatic actions for organs and pianos	812,995	Feb. 20	2944	648	120	2217
Hervey, Oscar H., trustee. (See Stanley, George P., assignor.)						
Hertzig, Fred G., New Philadelphia, Ohio. Post-hole auger	812,744	Feb. 13	2448	537	120	2063
Hervey, Ben E., Spokane, Wash. Automobile	812,129	Feb. 6	1183	259	120	1730
Hess, Max, New York, N. Y. Jewelry-display device	812,203	Feb. 13	1397	304	120	1844
Hessig, Edward, West Hoboken, N. J. Tension device for looms	808,558	Jan. 2	76	16	120	19
Hessig, Edward, West Hoboken, N. J. Shuttle	811,721	Feb. 6	351	73	120	1564
Hessog, Leo F., St. Louis, Mo. Ax-handle wedge	811,502	Jan. 30	5220	1218	120	1420
Hess, Charles F., Scranton, Pa. Coin separating, counting, and stacking device	811,559	Feb. 6	41	9–10	120	1493
Hess, John M., Grundy Center, Iowa. Fertilizer-distributer	813,556	Feb. 27	4063	895–6	120	2624
Hessberger, Johannes, assignor to Badische Anilin & Soda Fabrik, Ludwighafen-on-the-Rhine, Germany. Regulation of electric currents which feed electric arcs	812,038	Feb. 6	1020	222	120	1696
Hesser, Otto, Cannstatt, Germany. Machine for making paper bags	813,207	Feb. 20	3366	740–2	120	2306
Hesser, Otto, Cannstatt, Germany. Conveying mechanism for paper-bag machines	813,208	Feb. 20	3373	743	120	2309
Hester, James K., Rhinecliff, N. Y. Attachment for ladders	809,057	Jan. 2	857	182	120	189
Hetherington, John P., Logansport, Ind. Transformer cut-out	809,302	Jan. 9	1387	281–3	120	341
Hettwer, Alois J. (See Loewen, Wilhelm, assignor.)						
Hewitt, David, Homewood, Pa. Rail-joint	812,039	Feb. 6	1021	223	120	1696
Heyl, Henry R. (See Kinsley and Heyl.)						
Heyl & Patterson. (See Acklin, Alfred M., assignor.)						
Heyl & Patterson. (See Patterson and Robb, assignors.)						
Heyl & Patterson. (See Whan, William E., assignor.)						
Heye, John J., assignor of one-half to M. V. Brennahan, Lynn, Mass. Sole-molding machine	810,940	Jan. 30	4763	991–2	120	1194
Heysinger, Isaac W., Philadelphia, Pa. Locking device for motor-cars, automobiles, and the like	810,206	Jan. 16	3220	667	120	786
Heysinger, Isaac W., and A. Latshaw, Philadelphia, Pa.; said Heysinger assignor to said Latshaw. Scale-markings for rules, &c.	809,950	Jan. 16	2684	554	120	675
Heywood, Silas L., Minneapolis, Minn. Variable-speed mechanism	809,802	Jan. 9	2389	494–5	120	558
Hibbard, Charles and W., assignors to Hibbard Gas Engine Co., Sandyhill, N. Y. Vaporizer	811,397	Jan. 30	5442	1181	120	1384

Hibbard Gas Engine Co. (See Hibbard, Charles and W., assignors.)						
Hibbard, Paul W., Jefferson, Wis. Bob-sleigh	813,420	Feb. 27	3808	835	120	2459
Hibbard, Warren. (See Hibbard, Charles and W.)						
Hicks, John W. (See Kyle and Hicks.)						
Hidden, Charles P., Baltimore, Md. Perpetual calendar	811,846	Feb. 6	593	129	120	1610
Hielscher, John W., and W. F. Standley, Kniman, Ind. Wrench	813,892	Feb. 27	4738	1047	120	2664
Hiers, J. Lawton. (See Edenfield, Dempsey S., assignor.)						
Higgins, Charles S., New York, N. Y., assignor to Instructing and Manufacturing Company, of New York. Mixing apparatus	811,145	Jan. 30	5153	1077	120	1278
Higgins, Elmer E., St. Paul, Minn. Device for leading animals from burning buildings	813,496	Feb. 27	3961	868–9	120	2496
Higgins, Patrick J., New Vienna, Ohio. Checkrein	810,336	Jan. 16	3503	722	120	848
Higgins, Peter K. (See Foster and Higgins.)						
Higgins, Robert B., St. Louis, Mo. Trolley-replacer	811,919	Feb. 6	740	162	120	1641
Hight, Clarence A. (See Pfeiffer, Emil C., assignor.)						
Higman, William J., Denver, Colo. Non-refillable bottle	813,421	Feb. 27	3808	835	120	2459
Hildebrand, Henry W., Denver, Colo. Automatically-operating fire-extinguisher	811,221	Jan. 30	5309	1110	120	1312
Hildebrandt, Charles T., assignor of one-half to E. W. Brooks, Chicago, Ill. Multiple-piston explosive-engine	811,220	Jan. 30	5307	1110	120	1312
Hildreth, Warnie W. (See Webb and Hildreth.)						
Hilger, George M., Chicago, Ill. Vacuum-trap	812,130	Feb. 6	1184	259–60	120	1730
Hill, Alexander M., *et al.* (See Finch, George P., assignor.)						
Hill, Austin M., Rockville Center, N. Y. Button-holder	810,758	Jan. 23	4364	906	120	1075
Hill, Christian C., deceased; C. B. Hill, executrix, assignor to Steel Ball Company, Chicago, Ill. Pumping apparatus	812,266	Feb. 13	1534	334–5	120	1875
Hill, Clothilde B., executrix. (See Hill, Christian C.)						
Hill, Ebenezer, Norwalk, Conn. Valve for compound air-compressors	810,759	Jan. 23	4365	907	120	1076
Hill, Edgar C., Columbus, Ohio. Jar-closure	810,760	Jan. 23	4368	907	120	1076
Hill, George A., Chicago, Ill. Alarm	811,061	Jan. 30	4977	1039	120	1242
Hill, Hugh, assignor to Hill Standard Manufacturing Company, Anderson, Ind. Self-propelled vehicle	813,422	Feb. 27	3812	836	120	2460
Hill, Hugh, assignor to Hill Standard Manufacturing Company, Anderson, Ind. Mechanism for connecting vehicle-wheels to axles	813,423	Feb. 27	3813	836	120	2460
Hill, Hugh, assignor to Hill Standard Manufacturing Company, Anderson, Ind. Vehicle-axle mechanism	813,424	Feb. 27	3814	836	120	2461
Hill, James B., Findlay, Ohio. Mold for drain or sewer pipes	810,276	Jan. 16	3378	669	120	820
Hill, James F., Norwalk, Ohio. Oil-cellar for journal-boxes	811,637	Feb. 6	207	44	120	1530
Hill, John L., assignor to F. C. Bagley, Jackson, Mich. Inhaler and exhaler	813,425	Feb. 27	3815	836	120	2461
Hill, John R. (See Smith, Burgess, assignor.)						
Hill, John R., Washington, D. C. Transfer-press	813,795	Feb. 27	4530	1000–2	120	2618
Hill, Samuel M., Sunnyside, Wash. Tool for removing sickle-bars	811,293	Jan. 30	5454	1137	120	1344
Hill Standard Manufacturing Company. (See Hill, Hugh, assignor.)						
Hill, Sylvanus L. (See Derby, Harold R., assignor.)						
Hill, Thomas G., Portland, Oreg. Giant swing	812,996	Feb. 20	2947	640	120	2217
Hill, William H., Calhoun, Ky. Hame	813,294	Feb. 20	3538	780	120	2344
Hillabrandt, Lucian, Johnstown, N. Y. Gun-sight	810,761	Jan. 23	4369	907	120	1076
Hiller, Peter, Foley, Minn. Folding stove	811,294	Jan. 30	5455	1137	120	1345
Hillhouse, Percy A., Busby, Scotland. Photographic mask	810,143	Jan. 16	3092	638	120	761
Hilliker, George L., assignor to Alrite Duplicating Supply Company, Chicago, Ill. Attachment for cutting stencils	813,094	Feb. 20	3140	688	120	2280
Hills, Walbie, Kansas City, Kans. Adjustable track or trolley-wire	813,295	Feb. 20	3540	780	120	2345
Himburg, John A., Troy, Ala. Motor-chair	812,997	Feb. 20	2949	640	120	2218
Hinaman, Louis H., Port Jervis, N. Y., assignor of three-fourths to T. Hinaman, Kellam, Pa. Mail-pouch fastener	809,058	Jan. 2	858	182	120	190
Hinaman, Louis H., Port Jervis, N. Y., assignor of one-fourth to T. Hinaman, Kellam, Pa. Toy pistol	809,059	Jan. 2	860	182	120	190
Hinaman, Titus. (See Hinaman, Louis H., assignor.)						
Hinchman, Charles R., Cleveland, Ohio. Safety locking device for cranes	812,565	Feb. 13	2119	464–5	120	1998
Hinchman, George N., and H. Schroeder, assignors to Standard Adding Machine Company, St. Louis, Mo. Adding-machine	811,920	Feb. 6	742	162–9	120	1641
Hinchman, James B., Denver, Colo. Concrete building construction	811,560	Feb. 6	47	10	120	1495
Hinds, Ervin P., New York, and G. E. Payne, Long Island City, N. Y. Refrigerator-car	813,970	Feb. 27	4980	1079	120	2692
Hinds, James, Paris, Ill. Fence	813,971	Feb. 27	4983	1071	120	2693
Hinklein, Johannes, Frankfort-on-the-Main, assignor to Firm of Maschinenhandlung von Max Stern & Co., Frankfort-on-the-Main, Bockenheim, Germany. Plow for bookbinders	812,998	Feb. 20	2950	650	120	2218
Hinkley, John W., Watertown, Mass. Cream-separator	809,442	Jan. 9	1697	349	120	406
Hinkson, Frank B., Newcastle, assignor of two-thirds to J. M. and J. J. Flannery, Pittsburg, Pa. Treating hides	810,144	Jan. 16	3093	638–9	120	761
Hinsch, Gustave L., assignor of one-half to C. A. Fossedman and C. C. Hohnsbehn, Waverly, Iowa. Wheel	810,337	Jan. 16	3504	723	120	849
Hintlian, Seth H., Providence, R. I. Nut-tapping machine	810,054	Jan. 16	2926	600	120	727
Hippisley, William H., deceased, assignor to R. C. Haven, Trenton, N. J. Garment-hook. (Reissue)	12,451	Feb. 13	2558	563	120	2087
Hipwood, George, Laconia, N. H. Fender for cars and other vehicles	810,762	Jan. 23	4370	907–8	120	1077
Hipwood, George, Laconia, N. H. Fender for cars and other vehicles	810,763	Jan. 23	4373	908	120	1077
Hird, James W., Beaton, Wis. Fastening device for vehicle end-gates	812,341	Feb. 13	1672	398	120	1906
Hirsch, Charles C., Tripp, S. D. Window-screen	812,654	Feb. 13	2282	496–7	120	2020
Hiscock, Charles O., Valparaiso, Ind. Filing-case	813,180	Feb. 20	3268	718	120	2288
Hise, Nelson, and H. G. De Buren, New York, N. Y., assignors to Elevator Securities Company. Traction apparatus	810,941	Jan. 30	4769	992	120	1196
Hist, John, Orange township, Cuyahoga county, Ohio. Potato-digger	808,746	Jan. 2	252	54	120	58
Hist, John, Solon, Ohio. Potato-digger	809,259	Jan. 2	1302	265	120	286
Hist, John, Solon, Ohio. Potato-digger	809,260	Jan. 2	1302	265	120	287
Hitchcock, Samuel R., St. Louis, Mo. Combination churn and cream-whipper	813,497	Feb. 27	3964	869	120	2496
Hix, Albert E. (See Astley, Raymond E., assignor.)						
Hixon, Peter B., Chicago, Ill. Shoe-polishing stand	808,988	Jan. 2	726	158	120	161
Hixson, Charles T., Ringwood, Okla. Ter. Traction-engine tender	810,145	Jan. 16	3094	639	120	761
Hixson, Hiram D., Hillsboro, Iowa. Weighing-machine	813,972	Feb. 27	4984	1080	120	2693
Hixson, John W., St. Joseph, Mo. Fly-paper holder	809,951	Jan. 16	2967	584	120	676
Hobart, Franklin G., Beloit, Wis., assignor to Fairbanks Morse & Company, Chicago, Ill. Valve for gas-producers	809,261	Jan. 2	1304	265	120	287
Hobbs, Elbert R., Lamar, Colo. Ringer for telephones and the like	809,060	Jan. 2	861	183	120	191
Hobbs, John O., Chicago, Ill. Shaft and clutch mechanism	810,412	Jan. 23	3701	762	120	926
Hobbs, Willis F., assignor to Bridgeport Hardware Manufacturing Company, Bridgeport, Conn. Nail-puller	809,803	Jan. 9	2392	495	120	559
Hobbs, Willis F., assignor to Bridgeport Hardware Manufacturing Company, Bridgeport, Conn. Container-punch	809,804	Jan. 9	2393	495	120	559

Hof, David C., and C. F. Ladwig, Nora Springs, Iowa. Portable grain-elevator	809,373	Jan. 9	1539	313	120	373
Hofbauer, Frank X., West Orange, N. J. Electric generator for bicycles	810,651	Jan. 23	4178	863	120	1034
Hoffa, Charles W., Garrett, Pa. Medicine-glass	809,952	Jan. 16	2688	555	120	676
Hoffman, Frank C., Somerville, N. J. Rail-bond for steam and electric railways	812,040	Feb. 6	1022	223	120	1606
Hoffman Manufacturing Company. (See Hoffman, Ross J., assignor.)						
Hoffman, Paul W., Albany, N. Y. Skirt-supporter	811,638	Feb. 6	209	44	120	1530
Hoffman, Ross J., assignor to Hoffman Manufacturing Company, Bradford, Pa. System for pumping oil-wells	809,805	Jan. 9	2394	496	120	559
Hoffman, Ross J., assignor to Hoffman Manufacturing Company, Bradford, Pa. Producing oil from oil-wells	809,806	Jan. 9	2396	496	120	560
Hoffmann, Jacob J., Jersey City, N. J. Display-tray	812,999	Feb. 20	2951	650	120	2218
Hoffmann, Philip J., Pittsburg, Pa. Horseshoe	811,398	Jan. 30	5645	1181	120	1385
Hoffsümmer, Ignaz, Düren, Germany. Manufacturing photographic papers	812,204	Feb. 13	1399	.....	120	1844
Hofmann, Fritz, Elberfeld, Germany, assignor to Farbenfabriken of Elberfeld Co., New York, N. Y. Beta-substituted ester of diamidoglycerin and making same	808,747	Jan. 2	253	.....	120	58
Hofmann, Fritz, Elberfeld, Germany, assignor to Farbenfabriken of Elberfeld Co., New York, N. Y. Benzoyl chlorid derivative of beta-ethylitetramethyldiaminoglycerin	808,748	Jan. 2	255	.....	120	58
Hofmann, Ottokar, Argentine, Kans., assignor to United Zinc and Chemical Company, Kansas City, Mo. Roasting-furnace	809,953	Jan. 16	2689	555	120	676
Hofstatter, William J., Toledo, Ohio. Safety coupling-section for air-brake pipes	810,862	Jan. 23	4560	949-50	120	1117
Hofstatter, William J., Toledo, Ohio. Coupling-section for train air-pipes	810,863	Jan. 23	4565	950	120	1118
Hogan, Eli, Portland, Oreg. Coil-spring	810,146	Jan. 16	3097	630	120	782
Hogue, James C., Winfield, Tex. Churn-cover	812,566	Feb. 13	2122	465	120	1990
Hohlfeld, Herman L., Philadelphia, Pa. Hammock	810,942	Jan. 30	4770	992	120	1196
Hohlfeld, Herman L., Philadelphia, Pa. Loop for hammocks	811,922	Feb. 6	777	169	120	1647
Hohnbach, Robert, Jr., and W. Leitel, Joliet, Ill. Dough dividing and sealing machine	809,443	Jan. 9	1609	349	120	406
Hohnebehn, Claus C., *et al.* (See Hinsch, Gustave L., assignor.)						
Holden, Arthur P. (See Marston and Holden.)						
Holden, Ezra C. and H. Des Moines, Iowa. Earth-anchor	809,374	Jan. 9	1543	313	120	374
Holden, Harry. (See Holden, Ezra C. and H.)						
Holden, Jonas H. (See Warren and Holden.)						
Holden, Thomas F., *et al.* (See Tincher, Timothy S., assignor.)						
Holderness, Herbert O. (See Hawley and Holderness.)						
Holderness, Herbert O., and C. G. Hawley, assignors to Readable Signal Company, Chicago, Ill. Signaling system	813,426	Feb. 27	3816	837	120	2461
Holgate, George H., Philadelphia, Pa. Carburetor	813,726	Feb. 27	4535	1002-3	120	2619
Holladay, Brian, Richmond, Va. Nursery-bottle	813,894	Feb. 27	4740	1048	120	2664
Holland, Charles E. (See Holland, Charles L., assignor.)						
Holland, Charles L., assignor of one-half to C. E. Holland, Boston, Mass. Holder and handle for safety-razors	808,650	Jan. 2	78	17	120	19
Hollander, William H., Evansville, Ind. Dough-raiser	811,781	Feb. 6	456	99	120	1585
Holley, Carl H., *et al.* (See McPhaill, Hugh, assignor.)						
Hollinghead, Edward H., and C. P. Jennings, Bradford, Pa. Pipe-cutter	810,764	Jan. 23	4375	908	120	1078
Hollingworth, Edward. (See Crowther and Sykes, assignors.)						
Hollingworth, Edward, Doberer, England, assignor to Crompton & Knowles Loom Works. Loom for wire fabrics or gauze	811,847	Feb. 6	594	129	120	1610
Hollis, Henry L., Chicago, Ill. Filtering system	808,924	Jan. 2	596	131	120	131
Holloway, Henry C., Gilroy, assignor of one-half to W. De Hart, Watsonville, Cal. Internal-combustion engine	809,614	Jan. 9	2040	424	120	480
Hollyday, Virginia M., Baltimore, Md. Attachment for chairs	810,277	Jan. 16	3379	699	120	821
Holm, Lars N., Bryant, S. D. Band-cutter and feeder	813,000	Feb. 20	2953	650-1	120	2218
Holman, John W., *et al.* (See Miller, Ernest H., assignor.)						
Holman, John W. (See Miller and Rota, assignors.)						
Holman, Robert C., Hamilton, Ohio. Engine-valve	810,055	Jan. 16	2927	609	120	728
Holmer, Lars Ljuksama, Sweden. Support for sliding doors	808,749	Jan. 2	256	55	120	59
Holmes, Frank T., Brooklyn, assignor of one-half to Huntley Manufacturing Company, Silvercreek, N. Y. Coffee-roasting machine	812,268	Feb. 13	1540	335-6	120	1877
Holmes, Susan M. P., administratrix. (See Parrish, Frances E.)						
Holmes, Thomas E., assignor of one-half to Davy Brothers Limited, Sheffield, England. Steam hydraulic intensifier	813,269	Feb. 20	3374	743-4	120	2309
Holmgren, Per F., New York, N. Y. Turbine-engine	811,639	Feb. 6	210	45	120	1530
Holmsbak, Frank J., Oakland, Iowa. Music-leaf turner	810,943	Jan. 30	4772	993	120	1196
Holsberg, Dean A., assignor of one-half to F. Cheek, San Jose, Cal. Street and station indicator	813,395	Feb. 27	4742	1048	120	2665
Holstein, William, Chicago, Ill. Independent steam-heat radiator	808,925	Jan. 2	600	131	120	122
Holt, Charles H., Brockton, Mass. Shoe-rack tag	813,001	Feb. 20	2957	651	120	2220
Holt, Frank A., Holyoke, Mass. Means for holding spools and sewing-machine bobbins	809,308	Jan. 9	1362	288	120	341
Holt, George, Spicer, Minn. Oar-lock	813,396	Feb. 27	4744	1048	120	2665
Holtshausen, Franz, Nossen, Germany. Decorticator	812,041	Feb. 6	1023	223	120	1606
Holzer, Hans, Frankfort-on-the-Main, Germany. Turning switch with lighted handle for electric lines	810,536	Jan. 23	3956	814	120	985
Holzmann, Michael, *et al.* (See Darley, John W., Jr., assignor.)						
Holzmark, Albert J. (See Lee, Charles A., assignor.)						
Homan, William C., and F. T. Williams, assignors to Edward Miller & Company, Meriden, Conn. Gas-burner	811,399	Jan. 30	5646	1181	120	1385

Hopkins, Archibald E. (See Fellows and Hopkins.)						
Hopkins, Charles L., Albany, N. Y., assignor to Curtain Supply Company, Newark, N. J. Curtain-fixture	810,278	Jan. 16	3380	700	120	821
Hopkins, Charles L., Albany, N. Y., assignor to Curtain Supply Company, Newark, N. J. Shade-fixture	810,279	Jan. 16	3383	700	120	821
Hopkins, Heber A., West Roxbury, Mass. Garment-fastener	810,537	Jan. 23	3957	814	120	985
Hopkins, J. S., *et al.* (See Smith, Harry F., assignor.)						
Hopkins, James M., Chicago, Ill. Car-truck	809,505	Jan. 9	1822	375	120	435
Hopkins, James M., Chicago, Ill. Railway-car truck	811,062	Jan. 30	4979	1039	120	1242
Hopkins, James M., Chicago, Ill. Railway-car truck	813,797	Feb. 27	4538	1003	120	2630
Hopkins, Louis J., Torrington, Conn. Pad-holder	809,615	Jan. 9	2042	424	120	480
Hopkinson, John E., West Drayton, England. Elastic tire	810,944	Jan. 30	4774	993	120	1197
Hopper, Henry S., Detroit, Mich. Apparatus for the manufacture of toothpicks	808,841	Jan. 2	423	93	120	94
Horel, Francis R. (See Hunter, William F., assignor.)						
Horine, Edmund E., Nicholasville, assignor of one-half to R. H. Welch, Lexington, Ky. Fiber-scutcher	810,280	Jan. 16	3384	700-1	120	822
Hornby, John, New York, N. Y. Gage for ivory-nut saws	813,002	Feb. 20	2958	651-2	120	2220
Hornby, Frank, Liverpool, England. Toy or educational device	810,148	Jan. 16	3099	640	120	782
Horne, Joseph A., assignor to Yale & Towne Manufacturing Company, Stamford, Conn. Trunk-lock	810,147	Jan. 16	3098	640	120	782
Horne, Thomas H. (See Taylor, Alfred, assignor.)						
Horne, William T., Hillsboro, Tex. Cow, calf, and colt weaner	812,342	Feb. 13	1673	368	120	1907
Horner, William A. (See Horner and Landis, assignors.)						
Horner, William C., assignor to C. P. McDougall, Indianapolis, Ind. Tilting bin and cover	812,343	Feb. 13	1674	368	120	1907
Horner, William M., and B. F. Landis, Columbus, assignors of one-third to W. A. Horner, Steubenville, Ohio. Rail-joint	810,208	Jan. 16	3226	668	120	788
Horning, Walter R., assignor to Williams Telephone & Supply Company, Cleveland, Ohio. Annunciator	811,063	Jan. 30	4980	1039	120	1242
Horsfall, Arthur E., Halifax, England. Apparatus for ascertaining errors in the alinement of shafting and for like purposes	813,003	Feb. 20	2960	652	120	2220
Horst, George C., assignor to J. A. Jeffrey, Columbus, Ohio. Conveyer	810,149	Jan. 16	3100	640	120	762
Horton, Edwin H., Pontiac, Mich. Rafter-gage	809,666	Jan. 9	2185	452	120	512
Horton, George R., San Diego, Cal., assignor of one-half to E. L. Nicholson, Seattle, Wash. Endless propeller for boats	813,648	Feb. 27	4354	934-5	120	2559
Horton, Peter D. (See Rohiting and Horton.)						
Horton, Robert E., assignor to D. L. Mott, Utica, N. Y. Water-level-gaging instrument	812,269	Feb. 13	1542	336	120	1677
Hoskins Company. (See Marsh, Albert L., assignor.)						
Hoskins, William, Lexington, Ill. Granulating aluminium	812,498	Feb. 13	1969	431	120	1966
Hosmer, Elwood B., and W. N. Dietrich, Montreal, Canada. Electrical safety device	813,397	Feb. 20	3542	780-1	120	2345
Hostler, James M. (See Clements and Hostler.)						
Hostetler, Irvin O., Cedar Orchard, Nebr. Wheel for traction-engines	810,457	Jan. 23	3855	792	120	943
Hotchkiss, John F., Dubuque, Iowa. Trammel	812,095	Feb. 20	3142	668	120	2280
Hough, Benjamin B., assignor of one-half to A. Forbes, Philadelphia, Pa. Printing-machine	813,702	Feb. 27	4350	969-60	120	2582
Howe, Sidney V. (See Ivey and McDonald, assignors.)						
Howeling, Paul A., Riverton, assignor to Curtain Supply Company, Newark, N. J. Curtain-fixture	810,281	Jan. 16	3387	701	120	822
Howes, Henry A., Bridgeport, Conn. Recoil-check for vehicles	810,282	Jan. 16	3389	701	120	823
Howes, Henry A., Bridgeport, Conn. Liquid-indicator	813,096	Feb. 20	3143	668	120	2281
House, Warren D. (See Bradshaw, Harry, assignor.)						
Houser, John O., Pittsburg, Pa. Attachment for musical instruments	811,295	Jan. 30	5456	1137	120	1345
Houston, Isaac W., H. C. Burns, and A. Van Voorhees, Marshall, Mich. Safety attachment for gages	809,110	Jan. 2	980	202	120	216
Houston, Wiley E., Santa Ana, Cal. Motor-controller	812,791	Feb. 13	2339	488	120	2062
House, Leon J., Port Marion, Pa. Refractory wall for glass-tanks	811,223	Jan. 30	5315	1111	120	1314
Hovey, Frank W., Independence, Iowa. Manure-spreader	810,413	Jan. 23	3704	763	120	927
How, Benjamin V. Weston, assignor to Arbecam Nautical Instrument Co., Boston, Mass. Compass-indicating apparatus	810,896	Jan. 23	4576	953	120	1120
Howard, Aaron H., Saline, Mich. Headstone and grave-marker	809,616	Jan. 9	2042	424	120	480
Howard, Clarence H., St. Louis, Mo. Locomotive-tender frame	811,561	Feb. 6	49	11	120	1466
Howard, Clarence H., St. Louis, Mo. Railway motor-car	813,427	Feb. 27	3823	837	120	2462
Howard, Henry A., Sherburne, N. Y. Mill	809,667	Jan. 9	2188	452	120	513
Howard, Henry M. (See Merrill and Howard.)						
Howard, James, Millvale, assignor of one-half to J. I. Allshouse, Stanton, and N. N. Barthouse, Baxter, Pa. Horseshoe	809,668	Jan. 9	2189	453	120	513
Howard, Kirk R., Chicago, Ill. Gas-meter	813,007	Feb. 20	3144	669	120	2281
Howard, Oscar, assignor of one-half to R. Robertson, Wheeling, W. Va. Book and job chase	812 426	Feb. 13	1836	408	120	1939
Howarth, Ella, *et al.* (See Howarth and McKinlay, assignors.)						
Howarth, Fred A., Johnstown, and J. J. McKinlay, Amsterdam, assignors to said McKinlay, F. D. Oliver, L. K. Maylender, and E. Howarth, Johnstown, N. Y. Railway-switch	812,205	Feb. 13	1400	304	120	1844
Howe, Charles F. (See Roberts, Henry P., assignor.)						
Howe, James H., St. Louis, Mo. Magazine display-easel	813,426	Feb. 27	3824	837	120	2462
Howe, John, St. Joseph, Mo. Pneumatic bell-ringer	811,400	Jan. 30	5647	1182	120	1385
Howland, Ephraim, Pontiac, Mich. Loading, conveying, and dumping device	811,923	Feb. 6	779	170	120	1647
Howland, Matthew M., Providence, R. I. Wrench	811,224	Jan. 30	5315	1111	120	1315
Howland, Matthew M., assignor of one-half to W. W. Dunnell, Providence, R. I. Pneumatic spring for vehicles	811,296	Jan. 30	5456	1138	120	1345
Howser, Benjamin H., Mount Eden, Ky. Adjustable support	812,344	Feb. 13	1675	369	120	1907
Hoyt, William H., *et al.* (See McCarl, Joseph C., assignor.)						
Hoyt, William H., and W. J. Gaven, Bridgeport, Conn., assignors to Burt Company, Hackensack, N. J. Manufacture of sound-records	808,842	Jan. 2	426	94	120	94

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention	No.	Date.	Monthly volume.		Official Gazette.	
			Spec.	Dr'g.	Vol.	Page.
Hoyt, William H., and W. J. Gaven, Bridgeport, Conn., assignors to Burt Company, Hackensack, N. J. Manufacturing sound-records	808,843	Jan. 2	427	94	120	96
Hoyt, William H., and W. J. Gaven, Bridgeport, Conn., assignors to Burt Company, Hackensack, N. J. Sound-record tablet	809,263	Jan. 2	1307	266	120	288
Hoyt, William H., and W. J. Gaven, Bridgeport, Conn., assignors to Burt Company, Hackensack, N. J. Sieve	810,652	Jan. 23	4180	863	120	1034
Hronish, Louis J., Geddes, S. D. Hoof-trimmer	813,298	Feb. 20	3545	781	120	2346
Hubbard, Arthur R., Bermondsey, and R. Flay, county of Middlesex, England. Cooking-range	812,746	Feb. 13	2451	538	120	2064
Hubbard, Arthur R., Bermondsey, and R. Flay, county of Middlesex, England. Fire-pot and grate therefor	812,747	Feb. 13	2452	538	120	2064
Hubbard, Fred M., and C. E. Taylor, Chicago, Ill., assignors, by mesne assignments, to National Coal Dump Car Company, Rapid City, S. D. Dumping-car	808,750	Jan. 2	257	55-6	120	59
Hubbard, Frederick J., assignor to W. E. Pardridge and H. Blackwell, Detroit, Mich. Folding bed	813,004	Feb. 20	2962	652-3	120	2220
Hubbard, Ira B. (See Ward, Henry D., assignor.)						
Hubbell, Octave E., Monroe, La. Overshoe-retainer	813,897	Feb. 27	4745	1049	120	2665
Huber Account Register Company. (See Huber, John F., assignor.)						
Huber, Alfred F., Chicago, Ill. Excavating-machine	809,689	Jan. 9	2190	453-4	120	513
Huber, Emil, Detroit, Mich. Transmission-gearing	812,345	Feb. 13	1677	369	120	1906
Huber, Frederick K., Celina, Tex. Mortising-tool	809,954	Jan. 16	2691	555	120	676
Huber-Hodgman Printing Press Company. (See Hall, Bicknell, assignor.)						
Huber, John F., Lockport, assignor to Huber Account Register Company, Buffalo, N. Y. File	812,132	Feb. 6	1188	260	120	1731
Huber, Sigmund V., Pittsburg, Pa. Straightening-table	808,751	Jan. 2	261	56	120	60
Hubert, Gustav, Baraboo, Wis. Leaf-turner	811,225	Jan. 30	5320	1112	120	1315
Hudson, Bertram S., Castleton, N. Y. Device for measuring the thickness of paper	812,042	Feb. 6	1023	223-4	120	1697
Huebel, Otto H., Jersey City, N. J. Device for applying powder to the person	811,924	Feb. 6	781	170-1	120	1648
Hug, Daniel, assignor to J. T. Lund, Denver, Colo. Water-wheel	813,299	Feb. 20	3546	781	120	2346
Hughes, Edwin T., Gladstone, assignor of three-fourths to V. J. O'Brien, W. Z. Kinney, and J. M. Rogers, Silverton, Colo. Air-brake	811,064	Jan. 30	4982	1040	120	1243
Hughes, Frederick G. (See Stout and Hughes.)						
Hughes, Henry and R., Mount Vernon, N. Y. Device for dressing stone	813,210	Feb. 20	3377	744	120	2310
Hughes, Robert. (See Hughes, Henry and R.)						
Hughs, George G., Fort Worth, Tex. Wood-conveyer	808,926	Jan. 2	601	132	120	132
Huglin, Oscar E. (See Eriksson, Erik, assignor.)						
Hull, Foster J. (See Dement and Hull.)						
Hull, Scott H. (See Kellerman, William L., assignor.)						
Hull, Wolcott A., New York, N. Y. Filter	813,429	Feb. 27	3827	838	120	2462
Hullerman, William, Independence, Iowa. Shaft and pole coupling for vehicles	813,703	Feb. 27	4362	961	120	2582
Hullings, Charles W., assignor of one-half to J. W. Thatcher, Philadelphia, Pa. Steam-boiler fire-box	811,401	Jan. 30	5649	1182	120	1386
Hülsmeyer, Christian, Düsseldorf, Germany. Wireless transmitting and receiving mechanism for electric waves	810,150	Jan. 16	3102	640-1	120	763
Hult, Charles, Minneapolis, Minn. Paper-pressing attachment for recording instruments	813,005	Feb. 20	2965	653	120	2221
Hume, Edward C. (See Towers and Harrington, assignors.)						
Humphreys, William J., Elmwood, Ill. Truss-bridge	809,264	Jan. 2	1308	266	120	288
Hunn, Howard G., New York, N. Y. Adjusting-screw for revolving chairs	808,927	Jan. 2	603	132	120	133
Hunt, Alonzo B., *et al.* (See De Lay, Charles, assignor.)						
Hunt, Charles W., West New Brighton, N. Y. Friction device for brakes and clutches	811,562	Feb. 6	50	11	120	1495
Hunt, Frank P. (See Peterson, Per A., assignor.)						
Hunt, Helm, Ferris & Company. (See Ferris, Henry L., assignor.)						
Hunt, James H., Massillon, Ohio. Razor-blade holder	809,690	Jan. 9	2192	454	120	514
Hunter, William A., Terre Haute, Ind. Storm-top	810,151	Jan. 16	3105	641	120	763
Hunter, William F., assignor of one-half to F. R. Horsl, Arcata, Cal. Propeller	813,430	Feb. 27	3829	838	120	2463
Huntley Manufacturing Company. (See Hobnes, Frank T., assignor.)						
Huntoon, Charles F., assignor to Chicago Railway Equipment Company, Chicago, Ill. Brake-beam	813,704	Feb. 27	4364	961	120	2583
Huntoon, Charles F., assignor to Chicago Railway Equipment Company, Chicago, Ill. Brake-beam	813,705	Feb. 27	4365	961-2	120	2583
Huntoon, Charles F., assignor to Chicago Railway Equipment Company, Chicago, Ill. Brake-beam	813,706	Feb. 27	4366	962	120	2583
Huntoon, Charles F., assignor to Chicago Railway Equipment Company, Chicago, Ill. Brake-beam	813,798	Feb. 27	4540	1003	120	2630
Hunnse, Otto, St. Louis, Mo. Vehicle-axle	808,844	Jan. 2	426	94	120	96
Hunsinger, George, New York, N. Y. Reclining-chair	813,799	Feb. 27	4541	1004	120	2631
Hurd, William, Warren, Ind., and W. Wright, Franklin, Pa. Frame for pumping powers	810,945	Jan. 30	4775	993	120	1197
Hurlburt, Lansing W. (See Hurlburt, Samuel W., assignor.)						
Hurlburt, Samuel W., assignor of one-half to L. W. Hurlburt, Creston, Iowa. Clothes-pin basket	809,568	Jan. 9	1935	402	120	458
Hurst, Charles M., Rawlins, Wyo. Railway switch and signal mechanism	810,867	Jan. 23	4578	953	120	1121
Hurst, Charles M., Rawlins, Wyo. Switch and signal track trip	810,868	Jan. 23	4580	954	120	1121
Hurst, Timothy C., New York, N. Y. Amusement device	812,843	Feb. 20	2655	551-2	120	2153
Hussey, Alfred E., Chicago, Ill. Soldering compound	812,494	Feb. 13	1980	.....	120	1966
Huston, Benjamin F. (See Ahara and Huston.)						
Hutchins, Arthur W., Providence, R. I. Mechanical movement	808,926	Jan. 2	604	132	120	133
Hutchinson, Edson L. (See Moore and Hutchinson.)						
Hutchinson, Edson L., Honolulu, Hawaii. Dental clamp	811,848	Feb. 6	596	130	120	1610
Hutchinson, Edson L., Honolulu, Hawaii. Teeth-separator	811,849	Feb. 6	597	130	120	1611
Hutchinson, William P. (See Weston, Milton T., assignor.)						
Hutchison, Robert B., Wilkinsburg, Pa. Surface-cleaning machine	813,557	Feb. 27	4088	896	120	2524
Hutton, Robert S. (See Bottomley, Hutton, and Paget.)						
Hyatt, John W., Newark, N. J., assignor to F. S. Warmoth, Lawrence, La. Disintegrating-machine	813,300	Feb. 20	3547	782	120	2346
Hyatt Roller Bearing Company. (See Lockwood, Charles S., assignor.)						
Hyatt, Samuel W., Mount Vernon, Ohio. Gas-burner	810,653	Jan. 23	4181	864	120	1034
Hyde, Elmer A., Vinton, Iowa. Window-sash holder	811,402	Jan. 30	5651	1183	120	1386
Hyde, Frank S., Riverside, Cal. Steam-engine	813,201	Feb. 20	3549	782	120	2347
Hydro-Press Manufacturing Company. (See Rivers, Julian H., assignor.)						
Hyzer, Lee P. (See Fine and Hyzer.)						
Ideal Concrete Machinery Company. (See Borst, Frank A., assignor.)						
Ihmsen, John P., New York, N. Y. Lacquer or varnish	811,863	Feb. 6	53	.....	120	1496
Ihrig, Frank, *et al.* (See Kemper, Otto, assignor.)						
Ilg, William J. (See Lorenz, Alexander, assignor.)						
Illingworth, John, Newark, N. J. Ingot-casting machine	810,654	Jan. 23	4182	864	120	1035

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume.		Official Gazette.	
			Spec.	Dr'g.	Vol.	Page.
Illinois Sewing Machine Company *et al.* (See Baurmann, Gustav, assignor.)						
Improved Paper Machinery Company. (See Parker, Howard, assignor.)						
Imrie, Andrew D., Ferney, S. D. Folding egg-crate	810,283	Jan. 16	3391	701-2	120	834
Indiana Manufacturing Company. (See Nethery, Joseph W., assignor.)						
Industrial Development Company. (See Goodspeed, Arthur B., assignor.)						
Ingalls, Charles N. P., Lynn, Mass. Door check or fastener	809,062	Jan. 2	864	183	120	191
Ingersoll-Sergeant Drill Company. (See Cooper, John, assignor.)						
Ingersoll-Sergeant Drill Company. (See Gibson, Arthur H., assignor.)						
Ingersoll-Sergeant Drill Company. (See Prellwitz, William, assignor.)						
Ingersoll-Sergeant Drill Company. (See Taylor, Albert H., assignor.)						
Inglis, Alexander, Indianapolis, Ind. Motor-vehicle	811,403	Jan. 30	5652	1183	120	1386
Inman, Harry A., Amsterdam, N. Y. Box-covering machine	810,414	Jan. 23	3705	763-4	120	927
Instructing and Manufacturing Company. (See Higgins, Charles S., assignor.)						
Insull, Samuel. (See Ball, Henry P., assignor.)						
Interlocking Fence Company. (See Elwell and Grimm, assignors.)						
International Cigar Machinery Company. (See Herrington and Knight, assignors.)						
International Cigar Machinery Company. (See Luckett, William S., assignor.)						
International Cigar Machinery Company. (See Tyberg, Olaf, assignor.)						
International Harvester Company. (See Latimer, John W., assignor.)						
International Register Company. (See McCormick and Morrison, assignors.)						
International Silver Co. (See Kintz, Robert R., assignor.)						
International Steam Pump Company. (See Woodford, Bronson C., assignor.)						
Ippers, John W., assignor to A. H. Walker, trustee, New York, N. Y. Photomechanical printing	809,955	Jan. 16	2693	555	120	677
Ippers, John W., assignor to A. H. Walker, trustee, New York, N. Y. Photomechanical printing	812,495	Feb. 13	1962	431	120	1966
Ippers, John W., assignor to A. H. Walker, trustee, New York, N. Y. Photography	812,748	Feb. 13	2453	538-9	120	2064
Ireland, A. Bertsell, Greene, N. Y. Casein-picker	810,655	Jan. 23	4184	864	120	1035
Iroquois Machine Company. (See Tucker, Zechariah R., assignor.)						
Irwin, Herbert E., Galesburg, Ill. Resilient heel and sole	812,496	Feb. 13	1967	432	120	1966
Isaacs, John D., Oakland, and J. B. Speed, Berkeley, assignors to Rifled Pipe Company, San Francisco, Cal. Helically-rifled fluid pipe-line	808,752	Jan. 2	262	57	120	60
Isham, William, and F. E. Miller, Ionia, Mich. Road-culvert	809,304	Jan. 9	1393	283	120	342
Isler, Max H. (See Bally and Isler.)						
Isreal, Joseph. (See McKeown, James, assignor.)						
Iverson, Michael S., New York, N. Y. Floating elevator or lighter	812,206	Feb. 13	1401	304-5	120	1844
Iveson, Albert E., Gainsborough, and A. R. Wilson, Brighton, England; said Wilson assignor to said Iveson. Comminuting-machine	812,749	Feb. 13	2457	539	120	2065
Ivey, Romulus L., and R. D. McDonald, assignors of one-third to S. V. Hough, De Land, Fla. Turpentine-box-cutting machine	809,444	Jan. 9	1700	349-51	120	407
Ivory, James W., Philadelphia, Pa. Dental-instrument holder	812,567	Feb. 13	2122	465	120	1999
Iwanami, Takao, and M. R. Woodward, Washington, D. C. Diving apparatus	813,431	Feb. 27	3830	838-9	120	2463
J. B. Colt Company. (See Goodyear, Nelson, assignor.)						
J. H. Bunnell and Company. (See Zundel, Gustave A., assignor.)						
Jack, Alexander G. M. (See Hadfield and Jack.)						
Jackson, Alexander M., Schenectady, N. Y., assignor to General Electric Company. Vapor electric apparatus	808,753	Jan. 2	263	57	120	60
Jackson, Hugh H., Lebanon, Tenn. Quilting-frame	813,707	Feb. 27	4367	962	120	2584
Jackson, Isaac, Glossop, England. Fastening device	811,925	Feb. 6	782	171	120	1648
Jackson, James O. (See Petery and Jackson.)						
Jackson, John P., Orleans, Ind. Attachment to spectacles	811,564	Feb. 6	54	11	120	1496
Jackson, Peter H., San Francisco, Cal. Ventilator for basements and the like	809,617	Jan. 9	2043	424	120	481
Jackson, William J., San Francisco, Cal. Applying heat for the treatment of ores and metalliferous sands	808,754	Jan. 2	264	.....	120	61
Jacobs, Charles C., assignor to Jacobs' Steel Excavator Company, Amboy, Ill. Excavating-machine. (Reissue)	12,441	Jan. 30	5882	1233-4	120	1434
Jacobs, Frederick A., Jamaica, N. Y. Drain-valve for hydrant-pipes	809,063	Jan. 2	866	184	120	191
Jacobs, George W. (See Warner and Jacobs.)						
Jacobs, Jacob, New York, N. Y. Bracing for vault-lights, floors, &c.	808,660	Jan. 2	78	17	120	19
Jacobs, John P., Coalinga, Cal. Drilling-machine	813,211	Feb. 20	3379	744-5	120	2310
Jacobs, John S., Dallas, Tex. Embroidering attachment for sewing-machines	811,146	Jan. 30	5155	1078	120	1278
Jacobs' Steel Excavator Company. (See Jacobs, Charles C., assignor.) (Reissue.)						
Jacobson, Henry D., Atlantic, Iowa. Perforating-machine	808,661	Jan. 2	79	17	120	19
Jacoby, Albert C. (See Harrison and Jacoby.)						
Jacoby, Medwin L., Canton, Ohio. Horse-blanket pin	809,691	Jan. 9	2193	454	120	514
Jacques, Frank W., Victor, Colo. Ore-sorting belt	812,270	Feb. 13	1544	336-7	120	1878
Jacques, John S., Dorchester, Mass. Pneumatic despatch-tube system	812,271	Feb. 13	1546	337-8	120	1878
Jacques, John S., Dorchester, Mass. Pneumatic despatch-tube system	812,792	Feb. 13	2540	568-9	120	2082
Jaeger, Alexander, Philadelphia, Pa. Removable head for barrels	809,918	Jan. 9	2607	537	120	606
Jaeger, Charles H., New York, N. Y. Amusement device	809,956	Jan. 16	2697	556	120	677
Jaeger, Christian. (See Schnetti, Jaeger, and Waisleben.)						
Jaeger, Ferdinand, New York, N. Y. Copying apparatus	811,065	Jan. 30	4983	1040	120	1242
Jagenberg, Ferdinand E., Düsseldorf, Germany. Copying-press	809,375	Jan. 9	1544	312-14	120	374
Jagenberg, Ferdinand E., Düsseldorf, Germany. Contrivance for covering cardboard, sheet metal, wood, &c., with paper, &c.	813,708	Feb. 27	4368	963	120	2584
Jäger, Carl, Rock Island, Ill., assignor to Rock Island Battery Company. Electrical battery	806,755	Jan. 2	265	57	120	61
Jahn, Frederick L. (See Watson and Jahn.)						
Jahnke, Rudolph G., assignor of one-half to J. Beneke, Cincinnati, Ohio. Nut-lock	812,497	Feb. 13	1969	433	120	1967
Jakobsen, Herman G. (See Meigs and Jakobsen.)						
Jakobsen, Herman G. (See Meigs, Jakobsen, and Sullivan.)						
James B. Clow & Sons. (See Rice, Frank L., assignor.)						
James, Henry F., Franklin, Pa. Gearing	811,147	Jan. 30	5157	1078	120	1278
James, John R. (See Reeves, Frederick W., assignor.)						
James, Joseph, Baltimore, Md. Composition for cleaning lithographic stones	813,709	Feb. 27	4369	.....	120	2584
James, Thomas, Braddock, Pa. Drill-chuck	813,151	Feb. 20	3209	718	120	2238
James, Thomas J., R. McAlister, and W. S. Byram, Missoula, Mont. Surgical table	812,133	Feb. 6	1191	261	120	1732
James, Thomas L. (See James, Walter W. and T. L.)						
James, Walter W. and T. L., Rawles Springs, Miss. Apparatus for distilling wood and obtaining therefrom the different by-products	813,202	Feb. 20	3554	788	120	2347
James, Willard C., Cucamonga, Cal. Combined heater and folding furniture	813,268	Feb. 20	3718	813	120	2351
Janes, William D., Saginaw, assignor to Quaker Shade Roller Company, Bay City, Mich. Shade-roller						
Janner, Salvator, La Chaux-de-Fonds, Switzerland. Watch	812,134	Feb. 6	1192	261	120	1732
Janowitz, Myer, assignor to R. Janowitz, Sioux City, Iowa. Steam-boiler	813,432	Feb. 27	3834	839	120	2464
	811,066	Jan. 30	4984	1040	120	1243

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drfs.	Official Gazette. Vol.	Official Gazette. Page.
Janowitz, Rose. (See Janowitz, Myer, assignor.)						
Janssen, Henry, assignor to Textile Machine Works, Wyomissing, Pa. Braiding-machine	810,086	Jan. 16	2930	610	120	729
Janssens, Antoine, St. Nicolas, Belgium. Wharf or landing-stage	813,046	Feb. 20	3040	669	120	2337
Japp, Henry, New York, assignor to S. Pearson and Son, Inc., Long Island City, N. Y. Apparatus for erecting tunnels	811,404	Jan. 30	5653	1183–4	120	1396
Jaques, William, Royersford, Pa. Flue-cleaner for stoves and ranges	811,503	Jan. 30	5821	1216	120	1420
Jaquet, Charles, Strassburg-Königshofen, Germany. Mixing-machine	812,849	Feb. 20	2657	582	120	2153
Jarck, Eduard. (See Müller and Jarck.)						
Jarman, Alfred J., assignor to Paragon Photo-Chemical Company, New York, N. Y. Printing-frame	812,426	Feb. 13	1837	408	120	1940
Jarman, Edward C. (See Harris and Jarman.)						
Jarvis, Edgar B., Toronto, Canada. Reinforced concrete	811,926	Feb. 6	783	171	120	1648
Jarvis, Edgar B., Toronto, Canada. Reinforced truss for concrete	811,927	Feb. 6	784	171	120	1649
Jarvis, Edgar B., Toronto, Canada. Reinforcing-truss for concrete	813,303	Feb. 20	3556	783	120	2348
Jarvis, George W., Townsend, Mont. Shovel-guard	810,488	Jan. 23	3856	792	120	963
Jeanmaire, Paul, and H. Schmid, Mülhausen, Germany, assignors to Arnold Print Works, North Adams, Mass. Printing fabrics	808,987	Jan. 2	730		120	161
Jefferis, Richard W., Camden, N. J., assignor to Merritt & Company. Metal locker	810,415	Jan. 23	3709	764–5	120	928
Jefferis, Richard W., Camden, N. J., assignor to Merritt & Company. Panel for metal lockers	810,946	Jan. 30	4776	993–4	120	1197
Jefferis, Richard W., Camden, N. J., assignor to Merritt & Company. Locking device for metal lockers	810,947	Jan. 30	4777	994	120	1197
Jeffery, Thomas B. (See Symmonds, Robert, Jr., assignor.)						
Jeffrey, Joseph A. (See Bucher, Bertram H., assignor.)						
Jeffrey, Joseph A. (See Dufour, Albert Q., assignor.)						
Jeffrey, Joseph A. (See Horst, George C., assignor.)						
Jeffrey, Joseph A. (See Lynch, George E., assignor.)						
Jeffrey, Joseph A. (See Merrill, Edwin R., assignor.)						
Jeffrey, Joseph A. (See Murphy, Daniel R., assignor.)						
Jeffrey, Joseph A. (See Palmros, Alexander, assignor.)						
Jeffrey, Joseph A. (See Sessions, Frank L., assignor.)						
Jeffrey, Joseph A. (See Slocum, John C., assignor.)						
Jeffrey, Joseph A. (See Steckel, Archibald W. F., assignor.)						
Jeffrey, Joseph A. (See Webster, Alfred J., assignor.)						
Jeffrey, Joseph A. (See Willson, Freeman R., Jr., assignor.)						
Jelks, Edwin B., Quitman, Ga. Spatula and cork-extractor	810,538	Jan. 23	3958	815	120	985
Jelliffe, Alfred, St. Louis, Mo. Sample-display case	809,445	Jan. 9	1704	351	120	408
Jenkins, Charles F. (See Thomas and Jenkins.)						
Jenkins, Richard I., assignor of one-tenth to B. F. Marsh, Lewistown, Mont. Miner's lamp safety-shield	809,111	Jan. 2	961	203	120	217
Jennings, Archer B., Yalesville, Conn. Draw-knife	813,152	Feb. 20	3270	719	120	2288
Jennings, Charles P. (See Hollingshead and Jennings.)						
Jerald, Samuel E., Waterloo, Iowa. Pneumatic sulky	811,723	Feb. 6	353	78	120	1565
Jerkins, William L., Moultrie, Ga. Medicine-spoon	808,845	Jan. 2	428	94	120	95
Jesseman, John F., Lynn, Mass. Buffing-machine	811,504	Jan. 30	5823	1219	120	1421
Jewett, Eugene C., Eaglegrove, Iowa. Spade	809,807	Jan. 9	2397	496	120	560
Jigouse, Paul, Vanves, France. Electric motor	811,405	Jan. 30	5654	1184	120	1397
Jobborn, Arthur, assignor to M. Jobborn, Hamilton, Canada. Scale	810,539	Jan. 23	3959	815	120	985
Jobborn, Moses. (See Jobborn, Arthur, assignor.)						
Jobes, Lawrence U., Cincinnati, Ohio. Pneumatic motor	809,919	Jan. 9	2609	537–8	120	607
Jobes, Lawrence U., Cincinnati, assignor to Baldwin Company, Hamilton, Ohio. Mechanical musical-instrument player	810,057	Jan. 16	3932	610–11	120	729
Johanesson, Hemming, assignor to Aktiebolaget L. M. Ericsson & Co., Stockholm, Sweden. Relay	813,710	Feb. 27	4370	963	120	2584
Johansen, Jacob, and E. A. Fedick, Hamburg, N. Y. Potato-digger	810,765	Jan. 23	4377	909	120	1078
John Good Cordage Co. (See Good, John, assignor.)						
John, Hugo, Erfurt, Germany. Driving mechanism	810,766	Jan. 23	4379	909–10	120	1079
John, Martha E., Portsmouth, Va. Car-fender	813,498	Feb. 27	3965	869–70	120	2497
John, S. A., *et al.* (See Barth, Albert, assignor.)						
Johnson, Charles B., assignor of one-half to J. W. Stiefel, St. Paul, Minn. Fur-sewing-machine attachment	809,265	Jan. 2	1310	266	120	286
Johnson, Adolph, Battlecreek, Mich. Roller-chain for conveyers	812,686	Feb. 13	2288	497	120	2029
Johnson, Alfred W., New Brunswick, N. J. Meat-cutter	810,767	Jan. 23	4382	910–11	120	1080
Johnson, Allen A., Central Falls, R. I., assignor to Kip-Armstrong Company, New York, N. Y. Warp stop-motion for looms	813,304	Feb. 20	3557	783	120	2346
Johnson, Alvin S., assignor of one-fourth to F. J. Moore, Minneapolis, Minn. Safety starting device for gas-engines	811,928	Feb. 6	785	172	120	1649
Johnson, Annie M., and D. H. Rowe, Oakland, Cal. Window-cleaner	813,800	Feb. 27	4543	1004	120	2621
Johnson, Bascom. (See Rhodes, Byron F., assignor.)						
Johnson, Charles, Cortland, N. Y. Fertiliser-distributer	809,808	Jan. 9	2398	497	120	560
Johnson, Charles, assignor to Cortland Implement Company, Cortland, N. Y. Fertiliser-distributer	813,711	Feb. 27	4371	963–5	120	2585
Johnson, Charles J., and W. B. Porter, Minneapolis, Minn. Compo-board machine	808,756	Jan. 2	298	57–8	120	61
Johnson, Charles K., Florence, S. C. Fertilizer-distributer	810,768	Jan. 23	4387	911	120	1081
Johnson, Edward G. (See Johnson, Martin M. and E. G.)						
Johnson, Edward H. (See Lang, Johan G. V., assignor.)						
Johnson, Frank G., Elkader, Iowa. Valve-gear	813,433	Feb. 27	3536	840	120	2465
Johnson, Fred, *et al.* (See Beck, William, assignor.)						
Johnson, Frederick G., Hartford, Conn. Calculator	809,446	Jan. 9	1705	351–2	120	408
Johnson, Henry, assignor to Cadillac Cabinet Company, Detroit, Mich. Desk-table	809,276	Jan. 9	1545	314	120	374
Johnson, Isabella J., Cokedale, Mont. Garment-supporter	811,825	Jan. 30	5825	1219	120	1421
Johnson, James H., and H. Meyer, Fort Recovery, Ohio. Mold	808,849	Jan. 2	439	95	120	95
Johnson, Jeremiah P., Detroit, Mich. Corner construction for carriage-bodies	812,207	Feb. 13	1405	305	120	1846
Johnson, John, Overland Park, assignor to Country Hydrant Company, St. Louis, Mo. Automatic water-supply system	808,662	Jan. 2	80	18	120	20
Johnson, John, Overland Park, assignor to Country Hydrant Company, St. Louis, Mo. Automatic water-supply system	813,558	Feb. 27	4080	887	120	2525
Johnson, John A., Chicago, Ill. Gage for use of carpenters and joiners in fitting doors	810,459	Jan. 23	3956	792	120	963
Johnson, John A., Wheatfield, Ind. Building-block	812,498	Feb 13	1999	432	120	1967
Johnson, John B., Mount Vernon, S. D. Railway-tie	813,006	Feb. 20	2987	654	120	2222
Johnson, John E., Ishpeming, Mich. Marine vessel	809,654	Jan. 2	867	184	120	192
Johnson, John F., Chester, Pa. Explosive-engine	809,185	Jan. 2	1104	230	120	243
Johnson, Lewis M., East Providence, R. I. Fishing-float	812,153	Feb. 20	3271	719	120	2289
Johnson, Louis A. B., Philadelphia, Pa. Plunger-lubricator	809,509	Jan. 9	2400	497–8	120	560

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drfs.	Official Gazette. Vol.	Official Gazette. Page.
Johnson, Martin M., Greenville, Ohio. Game-table	811,148	Jan. 30	5157	1078	120	1379
Johnson, Martin M. and E. G., Malta, Ill. Corn-husker	811,067	Jan. 30	4985	1040	120	1343
Johnson, Moses E., Pittsburg, Pa. Wire basket	813,460	Feb. 27	3988	870	120	2497
Johnson, Ole, Cedarhouse, Wash. Penholder	809,622	Jan. 9	2194	454–5	120	514
Johnson, Oliver J., Wheeling, W. Va. Feed mechanism for metal sheets	810,132	Jan. 16	3106	641–2	120	784
Johnson, Oliver W., Cleveland, Ohio. Stamp-affixing machine	809,569	Jan. 9	1938	409–3	120	458
Johnson, Robert, Goin, Tenn. Mill-pick	813,212	Feb. 20	3380	745	120	2310
Johnson, Thomas C., assignor to Winchester Repeating Arms Co., New Haven, Conn. Firearm	813,801	Feb. 27	4544	1004	120	2621
Johnson, Thomas C., assignor to Winchester Repeating Arms Co., New Haven, Conn. Firearm	813,802	Feb. 27	4545	1005	120	2622
Johnson, Wallace B., assignor to Fairbanks, Morse & Company, Chicago, Ill. Conveyer	811,149	Jan. 30	5159	1078	120	1379
Johnson, Warren S., Milwaukee, Wis. Steam-generator	813,098	Feb. 20	3146	669	120	2261
Johnson, Warren S., Milwaukee, Wis. Motor-propelled vehicle	813,213	Feb. 20	3381	744–7	120	2311
Johnson, Wilber H., Cumberland, Md. Supply and exhaust valve mechanism for motors	813,305	Feb. 20	3562	784	120	2349
Johnson, William C. (See McMillan, Johnson, and Collord.)						
Johnson, William M., Detroit, Mich. Shaft carrier and tug	811,850	Feb. 6	598	130	120	1611
Johnston, Allen, Ottumwa, Iowa. Manufacture of hollow metallic balls from sheet metal	812,135	Feb. 6	1193	261	120	1732
Johnston, Edward A., Sterling, Ill. Hay-loader	812,788	Feb. 13	2543	549	120	2083
Johnston, Frank J., Sacramento, Cal. Decoy	812,490	Feb. 13	1970	433	120	1967
Johnston, Gray W., New York, N. Y. Mechanical movement	809,693	Jan. 9	2195	455	120	515
Johnston, Gray W., and A. H. Ackermann, New York, N. Y. Automatic block-signal system for electric railways	813,898	Feb. 27	4746	1049	120	2665
Johnston, William O., and P. J. Foley, Chicago, Ill. Sash-lifting apparatus for greenhouses	811,506	Jan. 30	5827	1220	120	1421
Johnston, William W., and W. T. Watts, Doniphan, Mo. Type-writer cabinet	810,416	Jan. 23	3712	765	120	928
Jokesch, Victor, Karlin-Prague, and J. Petřík, assignors of one-third to R. Butta, Prague, Austria-Hungary. Automatic switch for electric railways	813,154	Feb. 20	3272	719	120	2289
Jolly, Charles L., assignor of one-half to S. Sherwood, Salinas, Cal. Beet-harvester	809,694	Jan. 9	2197	455	120	515
Jones, Andrew A., Cincinnati, Ohio. Sash-holder	812,136	Feb. 6	1195	262	120	1733
Jones, Arthur C. (See Smith, William F., assignor.)						
Jones, Benjamin H., St. Louis, Mo. Corner-fastening for beds	809,447	Jan. 9	1709	352	120	409
Jones, Dora, New York, N. Y. Condiment-holder	813,649	Feb. 27	4257	935	120	2560
Jones, Edward M., St. Louis, Mo. Railway-track-grading machine	811,929	Feb. 6	787	172–3	120	1649
Jones, Edwin C., Woodstock, Canada. Inhaler	810,760	Jan. 23	4389	911	120	1081
Jones, Ernest S. (See Green, George F., assignor.)						
Jones, Frederick W., Santa Paula, assignor to E. North and E. Double, Los Angeles, Cal. Underreamer	809,570	Jan. 9	1942	403	120	459
Jones, Harry F. (See Smith and Jones.)						
Jones, Harry S. and W. G., Chicago, Ill. Leaf-flexing machine	810,540	Jan. 23	3962	815–17	120	986
Jones, Howard S. (See Kelley, William V. D., assignor.)						
Jones, John A., Mitchell, Mont. Gate-hinge	808,757	Jan. 2	269	58	120	62
Jones, Leon V. (See Thomas, Albion W., assignor.)						
Jones, Llewellyn W., Sewickley, Pa. Strainer	813,434	Feb. 27	3837	840	120	2465
Jones, Lora, Newton, Kans., assignor to De Long Hook and Eye Company, Philadelphia, Pa. Hook	809,065	Jan. 2	866	184	120	192
Jones, Thomas S., *et al.* (See Richardson, Abraham, assignor.)						
Jones, Thomas S. (See Richardson and Jones.)						
Jones, Walter C., Chicago, Ill., assignor to Garton-Daniels Company, Keokuk, Iowa. Lightning-arrester	811,226	Jan. 30	5322	1112	120	1316
Jones, William O. (See Jones, Harry S. and W. G.)						
Joors, Alphonse, Forest, near Brussels, and A. Mercenier, Brussels, Belgium. Telemeter	810,541	Jan. 23	3960	817	120	987
Jordan, Fred B., Winchester, Mass. Temporary binder	810,338	Jan. 16	3505	723	120	849
Jost, John F. W., Philadelphia, Pa. Incandescent gas-lamp	809,810	Jan. 9	2403	498	120	561
Joy Horn Manufacturing Company. (See Joy, Joseph F., assignor.)						
Joy, Joseph F., assignor to Joy Horn Manufacturing Company, Monongahela, Pa. Lubricator for cars	813,214	Feb. 20	3386	747	120	2311
Joyal, Dolphis, Lowell, Mass. Lamp-burner	809,112	Jan. 2	963	203	120	217
Joyce, Charles, *et al.* (See Beck, William, assignor.)						
Joyce, James M., Edgerton, Wis. Chain	809,113	Jan. 2	964	203	120	217
Joyce, William H., *et al.* (See Kelly, Alonso, assignor.)						
Judge, Henry A., Washington, D. C. Telephone system	809,186	Jan. 2	1109	230	120	245
Juengst, Charles A., Croton Falls, N. Y. Stapling-machine	813,215	Feb. 20	3390	747–8	120	2312
Juhl, Claus A., Chicago, Ill. Hoist or elevator	809,066	Jan. 2	869	184	120	192
Julhe, Jean B. I. A., St. Mandé, France. Construction of ships' hulls	812,656	Feb. 13	2287	497	120	2030
Juppet, Pierre, Paris, France. Device for rendering bottles non-refillable	809,811	Jan. 9	2405	498	120	562
Jurt, Grace. (See Atkinson, Adrianne O., assignor.)						
Kadel, Dottie, Powder Springs, Ga. Mixer and kneader	810,417	Jan. 23	3713	765	120	929
Kahl, Louis C., assignor to Waterbury Machine Company, Waterbury, Conn. Carrier mechanism	808,758	Jan. 2	270	58	120	62
Kahlenberg, William R., Two Rivers, Wis. Exhaust-muffler	810,542	Jan. 23	3970	818	120	988
Kahlenberg, William R., Two Rivers, Wis. Crank	812,208	Feb. 13	1408	306	120	1846
Kahn, Julius, assignor to Trussed Concrete Steel Company, Detroit, Mich. Combined steel and concrete beam	813,803	Feb. 27	4546	1005	120	2622
Kahn, Solomon, Cadillac, Mich. Adjustable bracket	809,448	Jan. 9	1710	352	120	409
Kakao-Compagnie Theodor Reichardt Gesellschaft mit Beschränkter Haftung. (See Neumann, Friedrich E. F., assignor.)						
Kalisch, Frederick, assignor of one-eighth to G. D. Kluegel, St. Louis, Mo. Automatic air-brake apparatus for automobiles	811,507	Jan. 30	5828	1220	120	1422
Kallscher, Georg, Frankfort-on-the-Main, Germany, assignor to Cassella Color Company, New York, N. Y. Red azo dye and making same	813,155	Feb. 20	3273		120	2289
Kallitsch, Hugo J. (See Lindner and Kallitsch.)						
Kallwoda, Irene, Sopron, Austria-Hungary. Crochet-work button	811,734	Feb. 6	354	78	120	1565
Kampfe, Frederick. (See Kampfe, Otto and F.)						
Kampfe, Frederick, New York, N. Y. Razor-strop	812,568	Feb. 13	2124	466	120	1999
Kampfe, Otto and F., New York, N. Y. Razor-strop	809,114	Jan. 2	965	203	120	218
Kane, Peter W., Mason City, Iowa. Variable-speed gear	810,058	Jan. 16	3884	611	120	780
Karibo, Mabel H., San Louis Obispo, Cal. Book-strap	812,216	Feb. 20	2304	746	120	2313

Kleinschmidt, Edward E., assignor to F. Kleinschmidt, New York, N. Y. Facsimile-telegraph	812,142	Feb. 6	1208	285–7	120	1735
Kleinschmidt, Frederick. (See Kleinschmidt, Edward E., assignor.)						
Klemm, William J., Chicago, Ill. Window	813,716	Feb. 27	4381	986–7	120	2586
Klemme, Julius L., Quincy, Ill. Heater	809,507	Jan. 9	1824	376	120	435
Klenk, Gottlieb, assignor to Clipper Plow Company, Defiance, Ohio. Metal box	813,976	Feb. 27	4869	1081	120	2694
Klepetko, Frank, New York, N. Y. Roasting-furnace	811,643	Feb. 6	216	46	120	1582
Klie, Joseph G. (See Schreiber and Klie.)						
Kline, David C., assignor to Pritchard-Strong Company, Rochester, N. Y. Burner device for tubular lanterns	808,930	Jan. 2	607	133	120	134
Kline, David C., Rochester, N. Y., assignor to Pritchard Manufacturing Company. Lantern	809,508	Jan. 9	1826	376	120	435
Kline, Harvey Z., assignor of one-half to A. F. Van Ostram, Indianapolis, Ind. Machine for making artificial stone	811,300	Jan. 30	5465	1139–40	120	1346
Kline, Rudolph D., Streator, Ill. Core-extracting device	811,301	Jan. 30	5467	1140	120	1347
Kline, Rudolph D., Streator, Ill. Plant-excavator	813,717	Feb. 27	4384	987	120	2587
Klingenberg, John, Kipling, Mich. Gun-sight	810,156	Jan. 16	3115	643	120	765
Klint, Axel A. C., Holton, Kans. Milk-strainer	809,115	Jan. 2	987	204	120	218
Kloman, Theodore W., New York, assignor of one-half to G. Lucas, Brooklyn, N. Y. Transposer for musical instruments	810,949	Jan. 30	4779	995	120	1198
Kluegel, Geo. D. (See Kalisch, Frederick, assignor.)						
Knapp, Louis H., Parkersburg, W. Va. Mold for casting center-hung sash-weights	812,935	Feb. 20	2826	623	120	2192
Knapp, Stefan, Detroit, Mich. Fire-pot and grate	809,701	Jan. 9	2208	457	120	517
Knecht, Wilhelm, Stuttgart, Germany. Nail-supplying device for shoe-nailing machines	813,310	Feb. 20	3583	786	120	2353
Knisely, Daniel W., assignor to Drury-Knisely Manufacturing Company, Dayton, Ohio. Labeling-machine	812,936	Feb. 20	2827	624–5	120	2193
Knose, Isaac A. (See Fowler, Lewis D., assignor.)						
Knouper, George M., New York, N. Y. Filter	811,151	Jan. 30	5163	1079	120	1280
Knietsch, Rudolf, Ludwigshafen-on-the-Rhine, Germany, assignor, by mesne assignments, to General Chemical Company. Making sulfuric anhydrid	809,450	Jan. 9	1712	353	120	409
Knight, Fred E., Troy, Pa. Traction-wheel	812,502	Feb. 13	1975	433–4	120	1968
Knight, Harry. (See Herrington and Knight.)						
Knight, Herbert L., and B. W. Sweet, assignors to Williams-Abbott Electric Company, Cleveland, Ohio. Adjustable support for telephones	809,379	Jan. 9	1565	319	120	377
Knight, James S., and M. B. Russ, Kansas City, Mo. Barrel-opener	809,380	Jan. 9	1566	319	120	378
Knight, William B., Bellefontaine, Ohio. Device for splicing T-rails	813,157	Feb. 20	3276	720	120	2260
Knipe, Oliver C., Norristown, Pa., assignor to Pressed Steel Manufacturing Company. Ball-bearing caster	811,152	Jan. 30	5165	1079	120	1281
Knoblock, A. J. (See Stewart, Robert A., assignor.)						
Knoke, Herman A., Chicago, Ill. Clamp	810,543	Jan. 23	3971	818	120	968
Knollenberg, William E., and J. A. Frey, St. Louis, Mo. Non-refillable bottle	812,751	Feb. 13	2462	540	120	2065
Knoop, John H. W., Philadelphia, Pa. Attachment for linotype-machines	808,981	Jan. 2	606	133	120	134
Knorr, Georg, Britz, near Berlin, Germany. Distributing-valve for air-brakes	812,752	Feb. 13	2463	540–1	120	2066
Knowles, Samuel E., San Francisco, Cal. Trolling-spoon	813,718	Feb. 27	4385	987	120	2587
Knox, Charles B. (See Hallock, Arthur T., assignor.)						
Knox, Samuel L. G., Milwaukee, assignor to Bucyrus Company, South Milwaukee, Wis. Traversing mechanism	811,230	Jan. 30	5329	1113.	120	1317
Knox, Samuel L. G., Milwaukee, and W. Ferris, assignors to Bucyrus Company, South Milwaukee, Wis. Hoisting apparatus	808,990	Jan. 2	735	159	120	162
Knudson, Adolphus A., New York, assignor of one-half to F. H. Clark, Brooklyn, N. Y. Insulating attachment for electric fixtures	812,797	Feb. 13	2549	560	120	2085
Knudsvig, Knud H., Buxton, N. D. Belt-guide	811,302	Jan. 30	5468	1140	120	1347
Knupp, Jacob C., and J. G. Greene, Warren, Pa. Sand-reel	810,490	Jan. 23	3958	798	120	964
Kay, Richard, Brooklyn, N. Y. Knife	813,009	Feb. 20	2972	655	120	2222
Koblizek, Vincenz, Salmthal, Austria-Hungary. Tachometer or speed-indicator	812,987	Feb. 20	2833	625	120	2194
Koch, James W., Reynolds, Pa. Nut-lock	812,439	Feb. 13	1842	404	120	1941
Koch, Walter E., Pittsburg, Pa. Treating molten matte	808,849	Jan. 2	436	96	120	97
Kochmann, Carl, and J. Kaufmann, Berlin, Germany. Rendering materials or articles resistant to water and chemicals	813,218	Feb. 20	3366	.....	120	2614
Koehler, Casper, Canyon City, Oreg. Hay-stacker	813,719	Feb. 27	4387	988	120	2587
Koehler, Charles, Toledo, Ohio. Hat-display rack	810,421	Jan. 23	3721	767	120	920
Koehler, Henry L., Deer Park, Ky. Adjustable curved type and cylinder	811,727	Feb. 6	366	70	120	1565
Koehler, Henry L., Deer Park, Ky. Interchangeable curved type and plate	811,776	Feb. 6	460	97	120	1584
Koeper, Charles C. (See Kelley, Wilbur S., assignor.)						
Koerter, Henry, assignor to Crane Company, Chicago, Ill. Tapping-machine	813,559	Feb. 27	4092	907–8	120	2525
Kohn, Morris, New York, N. Y. Coin collecting and carrying device	810,668	Jan. 23	4185	865	120	1036
Kolby, Nicolaus, assignor to H. Detmer, Chicago, Ill. Harp	812,200	Feb. 13	1407	306	120	1846
Kolbe, Hugo, Vienna, Austria-Hungary, and P. Askenasy, Nuremberg, Germany. Producing circulation in electrolytic processes	809,116	Jan. 2	988	204	120	218
Kollmar, Robert, Newark, N. J. Jewelry-catch	808,760	Jan. 2	273	59	120	62
Kones, Peter, Castlewood, S. D. Wrench	810,667	Jan. 23	4188	865	120	1035
König, Albert, assignor to Firm of C. Zeiss, Jena, Germany. Angle-measuring instrument	811,777	Feb. 6	461	98	120	1584
König, Rudolf, Gelsenkirchen, Germany. Titration apparatus	813,977	Feb. 27	4390	1082	120	2694
Koons, John H., Huntington Mills, Pa. Outside dry-earth closet	811,412	Jan. 30	5670	1188	120	1389
Koons, Joseph K., Montgomery, Pa. Bolt-machine	811,411	Jan. 30	5664	1187–8	120	1388
Koons, Frederick W., assignor to J. W. Douglass, trustee, Philadelphia, Pa. Apparatus for treating and roasting waste materials	812,266	Feb. 20	3732	818	120	2332
Koorie, Hanna, Paterson, N. J. Clothes-line pulley	809,515	Jan. 9	2411	500	120	563
Kopke, Ernst, Honolulu, Hawaii. Pot-machine	809,571	Jan. 9	1946	402–4	120	440
Kops, Daniel, New York, N. Y. Apparel-corset	813,205	Feb. 27	4546	1006–8	120	2622
Korns, Clarence C., Johnstown, Pa., assignor to Lorain Steel Company. Machine for forming sand cores	812,262	Feb. 20	3660	583	120	2154
Körting, Ernst. (See Schuette and Körting.)						
Kosse, James W., Washington Court-House, assignor to Ohio Manufacturing Company, Upper Sandusky, Ohio. Traction-engine	808,189	Jan. 2	1115	232–3	120	246
Kosse, Worthy, assignor of one-half to F. H. Quincy, Salina, Kans. Carbureter for gas-engines	812,783	Feb. 13	2465	541	120	2066
Kotzen, Alexander, assignor of one-half to A. M. Barotky, Chicago, Ill. Pipe-cutter	812,210	Feb. 13	1409	308–7	120	1947
Kovács, Kamerich. (See Bathory and Kovács.)						
Kozma, Joseph, Newark, N. J. Eyeglasses and spectacles	809,703	Jan. 9	2209	457	120	518
Kozow, Arthur B. (See Schloss, Daniel B., assignor.)						
Krämer, George J., London, England, and E. Ellis, Geneva, Switzerland. Table	809,708	Jan. 9	2210	458	120	518
Kraft, Clarence H., and L. W. Foster, Findlay, Ohio. Well-pulling machine	809,190	Jan. 2	1118	233	120	247
Krag, Erik L., Chicago, Ill., assignor to Krag Imperial Cabinet Company. Cabinet	810,644	Jan. 23	3974	818	120	969
Krag, Erik L., Chicago, Ill., assignor to Krag Imperial Cabinet Company. Metallic cabinet	810,645	Jan. 23	3975	819	120	969

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Krag Imperial Cabinet Company. (See Krag, Erik L., assignor.)						
Krahn, Abraham, Langdon, N. D. Draft-equalizer	813,502	Feb. 27	3989	871	120	2497
Kralund, John, New York, N. Y. Rule attachment	811,070	Jan. 30	4998	1043	120	1245
Kramer, Allington H., Monte Vista, Colo. Machine for digging beets	813,978	Feb. 27	4391	1083	120	2694
Kramer, Arthur R., and O. P. Britt, Uniontown, Pa. Self-lubricating trolley-wheel	810,157	Jan. 16	3117	644	120	766
Krämer, Friedrich, assignor to Firm of H. Wilke, Grüne, near Iserlohn, Germany. Hook for chains	812,388	Feb. 20	3726	819	120	2282
Kramer, Peter R., and G. E. Wilcox, Stillwater, Minn. Band-cutter and feeder	811,982	Feb. 6	794	174–6	120	1651
Kranz, William G., Sharon, Pa., assignor to National Malleable Castings Company, Cleveland, Ohio. Furnace-charging apparatus	810,396	Jan. 16	3386	702	120	824
Kratz, J. L., *et al.* (See Barth, Albert, assignor.)						
Krebs, Charles E., *et al.* (See De France, Murry A., assignor.)						
Kreft, Franz L., Glauchau, Germany. Numerator for sewing-machines	812,099	Feb. 20	3146	669	120	2282
Kreiling, George, Chicago, Ill. Press for printing upon metal	810,980	Jan. 30	4781	995	120	1198
Kreitzer, Joseph, assignor of one-half to T. J. Schon, Superior, Wis. Fifth-wheel	810,546	Jan. 23	3976	819	120	969
Krepa, Charles, Chicago, Ill. Mail-transferring device	808,982	Jan. 2	609	133	120	134
Krippendorf-Dittmann Company. (See Lautenschlager, William F., assignor.)						
Krohn, Emil H. F., Hamburg, Germany. Lock	811,511	Jan. 30	5837	1222	120	1423
Kron, Georg, Malmo, Sweden. Apparatus for binding in the toes of footwear	810,773	Jan. 23	4400	912–13	120	1083
Kronhols, Erich. (See Schmidt and Kronhols.)						
Krueger, Amandus M., Belleville, Tex. Musical instrument	812,049	Feb. 6	1040	226	120	1700
Krusel, August H., Schenectady, N. Y., assignor to General Electric Company. Elastic-fluid turbine	809,816	Jan. 9	2411	500	120	563
Krupp Aktiengesellschaft, Fried. (See Abendroth, Louis, assignor.)						
Krupp Aktiengesellschaft, Fried. (See Erdmenger, Victor, assignor.)						
Krupp Aktiengesellschaft, Fried. (See Hermsdorf, Max, assignor.)						
Krupp Aktiengesellschaft, Fried. (See Lauber, Otto, assignor.)						
Krupp Aktiengesellschaft, Fried. (See Lauber and Stock, assignors.)						
Krupp Aktiengesellschaft, Fried. (See Lauber and Thiele, assignors.)						
Krupp Aktiengesellschaft, Fried. (See Mayer, Wilhelm, assignor.)						
Krupp, Fried. (See Mothes, Georg, assignor.)						
Kuckuck, Ernst B. B., Charlottenburg, Germany. Tie-preserving cylinder-car	808,761	Jan. 2	274	59	120	62
Kugel, John, Chicago, Ill. Protective attachment for infants' high chairs	811,933	Feb. 6	796	176	120	1651
Kugel, Max, Wiesdorf, near Cologne, Germany, assignor to Farbenfabriken of Elberfeld Co., New York, N. Y. Yellow anthracene dye	808,762	Jan. 2	276	.....	120	62
Kummerow, Adolph, assignor to Aluminum Manufacturing Company, Two Rivers, Wis. Decorative process	813,720	Feb. 27	4389	988	120	2588
Kundtz, Theodor, Lakewood, Ohio. Cabinet-work for sewing-machine tables	809,980	Jan. 16	2708	588	120	679
Kunst, John, *et al.* (See Landait, Dewis, assignor.)						
Kuns, Constantin, Vienna, Austria-Hungary. Automatic discharge for washing apparatus	812,211	Feb. 13	1412	307	120	1846
Kunzler, Nicholas A., Braddock, Pa. Window-lock	812,060	Feb. 6	1041	227	120	1701
Kurtz, Albert B., Connellsville, Pa. Hose-supporter	811,413	Jan. 30	5672	1188	120	1390
Kurzwernhart, Adalbert, Zuckmantel, near Teplitz, Austria-Hungary. Siemens regenerative furnace	809,067	Jan. 2	871	185	120	198
Kuttowait Butter Cutter Company. (See Carter, Edwin K., assignor.)						
Kyle, Henry J., Tipton, Ind. Motor-plow	809,704	Jan. 9	2212	458–9	120	518
Kyle, Joseph W., and J. W. Hicks, assignors of one-third to G. G. Bennett, Chicago, Ill. Double-acting explosive-engine	809,451	Jan. 9	1714	353–4	120	409
Kyllonen, Erik, Enterprise, N. D. Threshing-machine	810,774	Jan. 23	4403	913	120	1084
L. C. Chase & Company. (See Kinder, Arthur H., assignor.)						
L. E. Knott Apparatus Company *et al.* (See Wynne, Philip H., assignor.)						
L. S. Starrett Co. (See Baltzer and Starrett, assignors.)						
L. S. Starrett Company. (See Starrett and Adell, assignors.)						
L'Hommedieu, Arthur W., assignor to C. F. L'Hommedieu, Chicago, Ill. Electroplating apparatus	809,309	Jan. 9	1410	306	120	345
L'Hommedieu, Charles F. (See L'Hommedieu, Arthur W., assignor.)						
La Duke, Edward J., and I. G. O'Harra, Seattle, Wash. Combination-tool	809,191	Jan. 2	1121	233	120	247
La Francis, Anthony, Newark, N. J. Drill holder and gage	811,414	Jan. 30	5673	1189	120	1390
La Sor, William A., Rahway, N. J., and C. M. Smith, New York, N. Y. Paper-slitting device for folding-machines. (Reissue)	12,486	Feb. 20	3751	828–4	120	2339
La Tour, William N., *et al.* (See Thompson, John M., assignor.)						
Lachman, Laurence S., New York, N. Y. Hub	811,303	Jan. 30	5469	1140	120	1347
Lacon, Charles S. (See Pennepacker and Lacon.)						
Ladd, James B., Wayne, Pa. Speed-varying mechanism	813,651	Feb. 27	4369	985–6	120	2600
Ladd, William C., Mendota, Ill. Check-loop	808,850	Jan. 2	437	96	120	97
Ladwig, Charles F. (See Hof and Ladwig.)						
Lafever, Minard, Battlecreek, Mich., and W. Gregory, Minneapolis, Minn. Traction-wheel	809,366	Jan. 2	1312	267	120	269
Laforêt, Jean, Etoile, France, assignor to A. B. Strange, New York, N. Y. Shuttle-brake. (Reissue)	12,488	Jan. 2	1288	271	120	268
Lagergren, John E., New York, N. Y. Trolley-pole	811,183	Jan. 30	5186	1079	120	1281
Lagonda Manufacturing Co. (See Rayner, Edwin B., assignor.)						
Laird, William H. (See Trupp, Bernhard, assignor.)						
Lally, John E., Frankfort, Kans. Horse-evener	810,267	Jan. 16	2997	708	120	825
Lamacchia, Otto, Bridgeport, Conn. Safety-catch	812,436	Feb. 27	3648	843	120	2402
Lambert, Asher, Newark, N. J. Automatic holdfast for electric-hoister drums	808,763	Jan. 2	276	60	120	62
Lambert, Gustaf, Charlottenburg, Germany. Telephone system for central stations	812,500	Feb. 27	4095	998	120	2626
Lambert, William C., *et al.* (See Lees, Wesley, assignor.)						
Lambert, William T., *et al.* (See Spies, Peter H. F., assignor.)						
Lambie, Charles K., Los Angeles, Cal. Concrete-block mold and block	813,721	Feb. 27	4390	989–9	120	2588
Lamerton, William E. (See Ramsley and Lamerton.)						
Lamme, Benjamin G., Pittsburg, Pa., assignor to Westinghouse Electric & Manufacturing Company. Alternating-current motor	811,221	Jan. 30	5320	1113–14	120	1317
Lamme, Benjamin G., Pittsburg, Pa., assignor to Westinghouse Electric & Manufacturing Company. Single-phase alternating-current motor	811,644	Feb. 6	218	46	120	1533
Lamplough, Frederick, Willesden, England. Radiator, steam-condenser, and the like	811,853	Feb. 6	608	131–2	120	1612
Lampton, Theodore A. (See Stevens, John J., assignor.)						
Lamson Consolidated Store Service Company. (See Fordyce, Edmond A., assignor.)						
Lamson, Franklin S., assignor to Cosmos Construction Company, Washington, D. C. Air-heating system	809,206	Jan. 9	1469	324–5	120	343
Lamun, John A. (See Angle, Wallace W., assignor.)						
Lanagan, Henry J., Clinton, Iowa. Reclining-chair	812,661	Feb. 6	1042	227	120	1701
Lancaster, George W., Petersburg, Va. Railway-crossing	813,511	Feb. 20	3684	797	120	2333
Lancaster, John P., assignor of one-fourth to W. M. Friedman, Cincinnati, Ohio. Railway-tie	809,981	Jan. 16	2712	588	120	680

Name, residence, and invention.	No.	Date.	Monthly volume.		Official Gazette.	
			Spec.	Dr'g.	Vol.	Page.
Lancaster, Samuel C., Jackson, Tenn. Dumping-vehicle	808,991	Jan. 2	738	159-60	120	163
Lanchester, Frederick W., Edgbaston, Birmingham, England. Motor-car	809,809	Jan. 9	1827	377	120	436
Landes, Dewis, assignor of one-half to J. Kunst and E. McKenna, San Francisco, Cal. Pipe-coupling	813,437	Feb. 27	3846	842	120	2468
Landes, John, Jr., New York, N. Y. Car-fender	812,671	Feb. 13	2120	498-7	120	2001
Landers, Frary & Clark. (See Paquette, John B., assignor.)						
Landis, Benjamin F. (See Horner and Landis.)						
Landis, Harry, Richmond, Ind. Stove-leg caster	813,438	Feb. 27	3847	842	120	2468
Landis, Israel L., Chicago, Ill. Machine for molding hollow walls	809,482	Jan. 9	1719	354-5	120	411
Landis Machine Company. (See Pedersen, Christian, assignor.)						
Landis Machine Company. (See Whipple, Joel N., assignor.)						
Landon, Asa E., Canton, Pa., assignor to American Sales Book Company, Elmira, N. Y. Holder for sales-pads	812,658	Feb. 13	2289	498	120	2030
Landon Cement Product Company. (See Landon, Charles A., assignor.)						
Landon, Charles A., Findlay, assignor to Landon Cement Product Company, Tiffin, Ohio. Mold	812,439	Feb. 27	3846	843	120	2468
Landrum, Tom J., Louisville, Ky. Paper box or carton	812,212	Feb. 13	1413	307	120	1848
Lane, George. (See Lane, William J. and G.)						
Lane, George, Poughkeepsie, N. Y. Engine-valve	810,422	Jan. 23	3723	767	120	931
Lane, Henry D., administrator. (See Whitney, Isaac.)						
Lane, Oscar A., Adrian, Mich. Wrench and analogous article	809,992	Jan. 16	2713	558-9	120	680
Lane, William J. and G., Poughkeepsie, N. Y. Water-level regulator	809,510	Jan. 9	1529	377	120	436
Lang, Abram, Eden, N. Y. Rubber horseshoe	808,933	Jan. 2	611	133	120	135
Lang, Carl H., Chicago, Ill. Piano-hammer extractor	813,503	Feb. 13	1976	434	120	1968
Lang, Edward M., Jr. (See Lovejoy, Marcellus C., assignor.)						
Lang, Edward M., Jr., Portland, Me. Wire-finishing tool	812,754	Feb. 13	2466	541	120	2086
Lang, Johan G. V., assignor of one-half to E. H. Johnson, London, England. Regulation of electric motors	811,415	Jan. 30	5674	1189	120	1360
Lang, Jules, and A. Fischer, Chicago, Ill. Vehicle-tire	811,232	Jan. 30	5333	1114	120	1318
Langé, Gabriel, Paris, France. Machine for producing printed railway-tickets	810,158	Jan. 16	3118	644-5	120	706
Langfitt, John W., Adel, Iowa. Road-grader	813,010	Feb. 20	2973	655	120	2222
Langford, John B. (See Seal, John W., assignor.)						
Langguth, Charles, Chicago, Ill. Hook and eye	810,775	Jan. 23	4404	913	120	1084
Lanham, Colonel W., Stanford, Ky. Corn-planter	812,775	Feb. 13	2498	541-2	120	2086
Lanigan, Oscar J., Chicago, Ill. Soldering-flux	809,281	Jan. 9	1566		120	378
Lapeyrade, Pierre A. J., Paris, France. Dynamo-electric machine	811,154	Jan. 30	5160	1060	120	1281
Lapisse, Emile, Elbeuf, France. Protecting device for pneumatic tires	813,900	Feb. 27	4752	1049	120	2057
Laporte, Frank, St. Louis, Mo. Self-locking seal	813,219	Feb. 20	3360	749	120	2314
Lapp, John, *et al.* (See Seyhers, Frank, assignor.)						
Lardinois, John B., assignor of one-half to G. Pierre, Brussels, Wis. Safety-gate for draw-bridges	809,817	Jan. 9	2113	800-1	120	563
Large, Preston T., North Tonawanda, N. Y. Metallic railway-tie	811,782	Feb. 6	457	98	120	1585
Larkin, Maurice D., Dayton, Ohio. Valve	810,961	Jan. 30	4783	995	120	1199
Larsen, Louis J. C., assignor of one-half to A. Rauh, New York, N. Y. Liquid forcing or pumping device	812,052	Feb. 6	1044	227	120	1701
Larsh, John M., assignor of one-half to S. D. Kiger, Indianapolis, Ind. Bulletin for mail-boxes	808,784	Jan. 2	279	61	120	64
Lassiter, Sam D., Mullins, S. C. Plow and cultivator	813,722	Feb. 27	4391	989	120	2668
Latimer, R. R. (See Latimer, William E., assignor.)						
Latimer, John W., Chicago, Ill., assignor to International Harvester Company. Hay-loader	812,213	Feb. 13	1414	307-9	120	1848
Latimer, William E., assignor to E. R. Latimer, Utica, N. Y. Tufting-machine	809,572	Jan. 9	1947	404	120	461
Latour, Marius C. A., Paris, France, assignor to General Electric Company. Alternating-current machine	811,304	Jan. 30	5471	1141	120	1348
Latshaw, Allen. (See Heydinger and Latshaw.)						
Lauber, Albert, New York, N. Y. Register	811,416	Jan. 30	5678	1189	120	1360
Lauber, Otto, assignor to F. Krupp Aktiengesellschaft, Essen-on-the-Ruhr, Germany. Means of securing shields to portable guns	809,520	Jan. 9	2418	502	120	565
Lauber, Otto, assignor to F. Krupp Aktiengesellschaft, Essen-on-the-Ruhr, Germany. Recoil-gun	809,521	Jan. 9	2419	503	120	565
Lauber, Otto, and F. Stock, assignor to F. Krupp Aktiengesellschaft, Essen-on-the-Ruhr, Germany. Elevating and sighting attachment for guns	809,518	Jan. 9	2414	501	120	564
Lauber, Otto, and F. Stock, assignors to F. Krupp Aktiengesellschaft, Essen-on-the-Ruhr, Germany. Elevating mechanism and sighting device for guns	813,979	Feb. 27	4803	1082-3	120	2205
Lauber, Otto, Essen-on-the-Ruhr, and M. Thiele, Borbeck, near Essen-on-the-Ruhr, assignors to F. Krupp Aktiengesellschaft, Essen-on-the-Ruhr, Germany. Device for securing the gun-barrels or the cradles of portable guns in the traveling position	809,519	Jan. 9	2416	502	120	564
Laubscher, Alexander, assignor to Wheeler & Wilson Manufacturing Company, Bridgeport, Conn. Ruffling mechanism for sewing-machines	809,922	Jan. 9	2617	540-1	120	609
Lauzon, Christa, Arnaville, Ill. Dress-form	813,652	Feb. 27	4262	957	120	2561
Lawrence, George, Visalia, Cal. Safety system for railways	812,573	Feb. 13	2128	457	120	2001
Lawrenceberger, William F., assignor of one-half to Krippendorf-Dittmann Company, Cincinnati, Ohio. Cementing-machine	810,373	Jan. 16	3680	736-7	120	905
Lazo, Edward. (See Pieve and Lazo.)						
Lazzel, Claude C., Pittsburg, Pa. Silvering-machine	813,980	Feb. 27	4805	1084-5	120	2205
Leaman, Charles W., Halifax, Canada. Repairing device for vehicles	809,192	Jan. 2	1123	234	120	248
Leavey, Henry C., West Superior, Wis., assignor to Mills Novelty Company, Chicago, Ill. Stamping-press	811,723	Feb. 6	430	98-102	120	1585
Law, Fred A., Hartford, Conn. Carburetter	813,633	Feb. 27	4263	957	120	2561
Law, Harrison O. (See Law, Samuel H., H. O., and Samuel H., Jr.)						
Law, Samuel H., H. O., and Samuel H., Jr., New York, N. Y. Handle attachment for bowling-balls	812,214	Feb. 13	1418	309	120	1849
Lawhead, Thomas B. (See Stockberry and Lawhead.)						
Lawhon, Lemord A., Malden, S. C. Renewing-machine	809,307	Jan. 9	1404	285	120	344
Lawrence, Elvin F. (See Lawrence, John H., assignor.)						
Lawrence, George R. (See Miller and Lawrence.)						
Lawrence, John H., assignor of one-half to E. F. Lawrence, Sterling, Ill. Door-hanger	812,345	Feb. 13	1690	389	120	1909
Lawrence, John H., assignor of one-half to E. F. Lawrence, Sterling, Ill. Door-hanger	813,347	Feb. 13	1693	370	120	1909
Lawrence, John H., assignor of one-half to E. F. Lawrence, Sterling, Ill. Hasp-fastener	813,348	Feb. 13	1693	370	120	1909
Lawrence Manufacturing Co. (See Beuroth, Leonhard, assignor.)						
Lawry, Edwards A., Pittsburg, Pa. Article of chewing-gum	810,210	Jan. 16	3234	689	120	789
Lawson, Hotel and Car Company. (See King, John W., assignor.)						
Lawson, Isaac, New York, N. Y. Extensible handle	808,988	Jan. 2	749	160	120	163
Lawton, Charles H., Northfield, Mass. Holder for rotary tool-operating machines	809,522	Jan. 9	2620	808	120	865
Lawton, De Lee A., and L. L. Withey, Rome, N. Y. Pin holding and delivery device	810,923	Jan. 30	4787	996	120	1200
Lay, Henry M., Chicago, Ill. Trestle	810,776	Jan. 23	4405	913-14	120	1084

Name, residence, and invention.	No.	Date.	Monthly volume.		Official Gazette.	
			Spec.	Dr'g.	Vol.	Page.
Layman, George R., Lincoln, Ill. Elevator	809,117	Jan. 2	989	204	120	218
Laynor, Roger C., Milridge, Md. Ladder	813,961	Feb. 27	4899	1085	120	2668
Layton, Stephen D., Westport, Ind. Voting-machine	812,938	Feb. 20	3234	636-6	120	2184
Lazarus, Henry E., assignor of one-half to I. A. Levinson, Chicago, Ill. Bottle-stopper	808,934	Jan. 2	613	134	120	135
Le Brocq, Richard F., Etna, N. J., assignor of one-half to J. P. Niemann, New York, N. Y. Station-indicator	809,267	Jan. 2	1316	267	120	289
Le Favre, George A., Orangeburg, N. Y. Railway	811,855	Feb. 6	607	133	120	1613
Le May, Marcus M., Leighton, Ala. Wrench	810,288	Jan. 16	3398	703	120	825
Le Moen, Axel R., assignor to Nelson & Le Moen, Chicago, Ill. Apparatus for applying tires to wheels	811,936	Feb. 6	804	177	120	1653
Le Pontois, Leon J., New Rochelle, N. Y., assignor to Poly-Phase Ignition System Company. Sparking ignition system	809,268	Jan. 2	1217	267-8	120	290
Le Pontois, Leon J., New Rochelle, N. Y., assignor to Poly-Phase Ignition System Company. High-tension current distributer for internal-combustion engines	809,453	Jan. 9	1721	355	120	411
Le Sueur, Phillip, Los Angeles, Cal. Seed-planter	812,278	Feb. 13	1557	340	120	1881
Lea, Arthur C. (See Scott and Steinhoff, assignors.)						
Lea-Degen Pump Company. (See Lea and Degen, assignors.)						
Lea, Edward S., and J. Degen, assignors, by mesne assignments, to Lea-Degen Pump Company, Trenton, N. J. Automatic packing	811,934	Feb. 6	799	176	120	1652
Lea, Edward S., and J. Degen, assignors, by mesne assignments, to Lea-Degen Pump Company, Trenton, N. J. Bearing	812,786	Feb. 13	2471	542	120	2087
Leahy, Louis K., Los Angeles, Cal. Injector-burner	811,935	Feb. 6	801	176	120	1652
Lease, Lyman G., Warren, assignor of one-half to C. A. Elicker, Cleveland, Ohio. Wire-stay	812,053	Feb. 6	1045	228	120	1702
Leasure, William C. (See Gooch and Leasure.)						
Leathers, George H., Howard, Pa. Packing-case	810,080	Jan. 16	2936	611	120	780
Leavitt Automatic Stop Motion Company. (See Mansell, Arthur D., assignor.)						
Leavitt, Charles, St. Johnsville, N. Y. Wagon-body	811,155	Jan. 30	5173	1080	120	1282
Leblanc, Adolphe D., Montreal, Canada. Head for carpenters' braces	811,305	Jan. 30	5473	1141	120	1346
Leblanc, Maxime, Montreal, Canada. Stair-marking tool	811,233	Jan. 30	5335	1114	120	1316
Leckenby, James T., Hamilton, Canada. Machine for trimming the corners of boxes	809,306	Jan. 9	1406	286	120	344
Lecompte, Louis, Chicago, Ill. Combined railway draw-head and air coupling	809,705	Jan. 9	2214	458-60	120	518
Ledgerwood, Frank, Greenfield, Iowa. Obstetrical instrument	812,349	Feb. 13	1684	370	120	1909
Ledwinka, Joseph, Detroit, Mich., assignor of one-half to C. Erg, Cleveland, Ohio. Wheel structure	808,765	Jan. 2	280	61	120	64
Lee, Charles A., assignor of one-half to A. J. Holsmark, Kansas City, Kans. Pneumatic-cushion wheel	810,061	Jan. 16	2933	612	120	730
Lee Electric Insole Company. (See Lee, Frank B., assignor.)						
Lee, Frank B., Buffalo, assignor to Lee Electric Insole Company, New York, N. Y. Foot-arch supporter	811,512	Jan. 30	5838	1232	120	1424
Lee, James E., Grand Haven, Mich. Printer's register-book	808,663	Jan. 2	83	18	120	20
Lee, John, Philadelphia, Pa. Tinning or coating metal sheets with tin or other metallic coatings	811,854	Feb. 6	605	132	120	1612
Lee, Thomas, Home City, Ohio. Sheet-metal building structure	808,664	Jan. 2	84	19	120	20
Lee, Thomas, Home City, Ohio. Window-locking means	809,382	Jan. 9	1569	319	120	378
Lee, William A., Jr., New York, N. Y. Gill-box	813,654	Feb. 27	4266	938	120	2562
Lee, Willis L., St. Louis, Mo. Adjustable time-limit stamp	808,992	Jan. 2	741	160	120	164
Lee, Willis L., St. Louis, Mo. Combined punch and time-stamp	808,994	Jan. 2	742	160-1	120	164
Leech, Monroe S., Chicago, Ill. Burial-casket	809,573	Jan. 9	1950	404	120	461
Leeper, John F., Alton, Ill. Corn-harvester	812,215	Feb. 13	1420	309	120	1849
Leetch, John, *et al.* (See Tincher, Timothy S., assignor.)						
Lefever, Charles F. and D. M., Syracuse, N. Y. Single-trigger mechanism for double-barrel guns	810,871	Jan. 23	4584	954	120	1122
Lefever, Daniel M. (See Lefever, Charles F. and D. M.)						
Leffort, William M., assignor of one-half to E. Alsley, Providence, R. I. Spring-hub for vehicles	812,143	Feb. 6	1230	267	120	1741
Lehigh Oil and Waste Saving Company. (See Dutcher, Edward H., assignor.)						
Lehmann, Ernst P., Brandenburg-on-the-Havel, Germany. Joint for sheet metal and the like	808,766	Jan. 2	281	61	120	64
Lehmann, Friedrich A., Berlin, Germany. Rail-crossing	813,387	Feb. 20	3726	819	120	2363
Lehr, Edwin E., Wilkinsburg, Pa., assignor to Westinghouse Electric & Manufacturing Company. Electrical measuring instrument	811,645	Feb. 6	219	47	120	1533
Leighty, John R., Cumberland, Md. Anticreeping device	809,193	Jan. 2	1124	234	120	248
Leinen, Franz, Kleingstein, Germany. Collar for draft-animals	812,430	Feb. 13	1843	404	120	1941
Leisure, Charles H. (See Myers, William F., assignor.)						
Leitel, William. (See Hohnbach and Leitel.)						
Lembeck, Arthur J. L., and N. B. Hart, Walla Walla, Wash. Shaft-coupling	810,777	Jan. 23	4405	914	120	1085
Lemieux, Leon, Patterson, N. J. Weaving	809,118	Jan. 2	991	206	120	219
Lemley, Parrmace O., F. Elkior, and C. W. Grant, Urbana, Ill.; said Elkior and Grant assignors to said Lemley. Molding-machine	813,901	Feb. 27	4753	1030	120	2357
Lemp, Hermann, Lynn, Mass., assignor to General Electric Company. Automobile	812,573	Feb. 13	2123	457	120	2001
Lenhart, Moses, Chariton, Iowa. Adjustable wagon-box	812,054	Feb. 6	1046	228	120	1702
Lentz, Hugo, Berlin, Germany. Reversing-brake for turbine-engines	811,856	Feb. 6	609	133	120	1613
Lentz, Hugo, Berlin, Germany. Turbine-driven locomotive	812,277	Feb. 13	1595	340	120	1881
Lentz, Hugo, Berlin, Germany. Nozzle for turbine-engines	813,806	Feb. 27	4580	1006	120	2622
Leonard, Joseph T., Sedalia, Mo. Hanger for sifters and screens	811,857	Feb. 6	610	133	120	1613
Leonard, Wilbur A., assignor, by mesne assignments, to Geometric Tool Company, New Haven, Conn. Collapsible tap	810,289	Jan. 16	3400	703-4	120	825
Leonhardt Wagon Manufacturing Company. (See Leonhardt, William, assignor.)						
Leonhardt, William, assignor to Leonhardt Wagon Manufacturing Company, Baltimore, Md. Dumping coal-wagon	810,953	Jan. 30	4790	996	120	1200
Leonhart, Rudolph, San Anselmo, Cal. Level	813,581	Feb. 27	4267	958	120	2363
Leppert, William, Tappenamo City, assignor to C. Anderton, Jr., Dayton, Ohio. Wagon	810,572	Jan. 23	4587	955	120	1122
Lesser, Blanca, New York, N. Y. Hat-fastening	813,902	Feb. 27	4755	1030	120	2358
Lesser, Joseph M. (See Wilson, Albert B., assignor.)						
Lestrd, Phillip H., Attleboro Falls, assignor to T. I. Smith Co., North Attleboro, Mass. Bracelet	809,619	Jan. 9	2069	426	120	482
Leuchs, Maximilian J. C., New York, N. Y. Finger-curette	808,119	Jan. 2	993	205	120	219
Lenz, Georg, Berlin, Germany. Device for unshipping endless traveling ropes from their pulleys	809,833	Jan. 9	2633	803	120	866
Leutheuser, Fred W., assignor to Mossah-Younker Company, Chicago, Ill. Air-valve for radiators	813,911	Feb. 20	2976	665	120	2224
Levak, John, Lemont Furnace, Pa. Spragging device for coal and pit cars	810,778	Jan. 23	4406	914	120	1085
Levak, John, Lemont Furnace, Pa. Door-actuating mechanism for cars	813,807	Feb. 27	4581	1006	120	2622
Levalley, Christopher W., Milwaukee, Wis. Conveyor	813,787	Feb. 13	2472	548	120	2087
Levett, Louis, New York, N. Y. Anode	813,048	Feb. 20	3042	670	120	2286

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Levin, David R., and G. E. Sundstrom, Chicago, Ill.; said Sundstrom assignor to said Levin. Sheet-metal receptacle	811,728	Feb. 6	359	79	120	1566
Levinson, Charles, New York, N. Y. Electric railway	809,120	Jan. 2	993	205	120	219
Levinson, Isaac A. (See Lazarus, Henry E., assignor.)						
Lewin, Simon, Schlesberg, near Berlin, and A. Blumenthal, Berlin, Germany. Manufacturing artificial tails from fur	810,159	Jan. 16	3121	645	120	766
Lewis, Allen A., Hamilton, Iowa. Retaining-stall for calves	809,923	Jan. 9	2621	541	120	610
Lewis, Harry W. (See Arnold, George T., assignor.)						
Lewis, Robert S., *et al.* (See Menck, Andrew B., assignor.)						
Lewis, Theodore G., assignor to Buffalo Dental Manufacturing Company, Buffalo, N. Y. Handle for dental floats	808,935	Jan. 2	614	134	120	136
Lewis, Wilfred, Philadelphia, Pa. Saw-drive	812,853	Feb. 20	2661	583	120	2154
Lewis, William H. (See McSpadden, Wilkie, and Lewis.)						
Lewy, Julius, Frankfort-on-the-Main, Germany. Illuminant	809,121	Jan. 2	995	.....	120	219
Libby, Sam H., East Orange, N. J., assignor to Sprague Electric Company. Brake	812,758	Feb. 13	2473	542	120	2068
Liberman, Bernard, Philadelphia, Pa. Cigar-branding machine	811,071	Jan. 30	4994	1042	120	1245
Liberty Manufacturing Company. (See McIntosh, Ross S., assignor.)						
Lichtenstein, David, Chicago, Ill. Composition of matter	809,068	Jan. 2	873	.....	120	193
Liddell, William, Brooklyn, N. Y., assignor to Continental Paper Bag Company. Paper-bag machine	814,006	Feb. 27	4958	1098-9	120	2707
Lidgerwood Manufacturing Company. (See Covell, Harry N., assignor.)						
Lidgerwood Manufacturing Company. (See Tribken, Charles W., assignor.)						
Lidka, Otto F., and G. Seymour, Ypsilanti, Mich. Fence-post	809,824	Jan. 9	2424	503	120	566
Lieb, Robert C., assignor to J. E. Annis, Chattanooga, Tenn. Fireproof metal window	811,072	Jan. 30	4996	1043	120	1245
Lieen, Nils M., Langhei, Minn. Interlocking clevis	809,511	Jan. 9	1829	378	120	436
Lieske, Frank, Marquette, assignor of one-half to J. J. Moriarty, Hudson, Mich. Hen's nest	811,156	Jan. 30	5176	1081	120	1283
Liesmann, Louis, assignor of two-fifths to F. Welch and W. F. Carter, Dixon, Mo. Railway stock-guard	813,220	Feb. 20	3400	749	120	2314
Light, Samuel E. (See Weaver, Isaac D., assignor.)						
Lincoln, Frederick H., Philadelphia, Pa. Gear-casing	808,995	Jan. 2	744	161	120	164
Lind, Gustaf A. L., New Dorchester, Mass. Rotary engine	810,062	Jan. 16	2040	612	120	731
Lindemann, Robert, Osnabrück, Germany. Duplex smelting-furnace	810,063	Jan. 16	2041	612	120	731
Lindenberg, Frank H., assignor to Columbus Brass Company, Columbus, Ohio. Closet-tank	811,937	Feb. 6	808	177	120	1654
Linder, Fritz, Sr. (See Egersdörfer, Fritz, assignor.)						
Lindgren, Alexus C., Moline, Ill., assignor to Moline Plow Company. Wheeled plow	810,779	Jan. 23	4410	914-15	120	1085
Lindgren, Bror J., New York, N. Y., assignor to E. W. Bliss Company. Perforating-machine	813,049	Feb. 20	3043	670-1	120	2238
Lindhard, Povl T., New York, N. Y. Grinding-mill	813,903	Feb. 27	4756	1050	120	2668
Lindner, Henry E., and H. J. Kaltinich, Hartford, Conn. Match-box	813,503	Feb. 27	3971	871	120	2498
Lindquist, Edward W. (See Baggaley, Allan, and Lindquist.)						
Lindquist, Frederick. (See Edbrooke and Lindquist.)						
Lindsay, George B. (See Pearson and Lindsay.)						
Lindsay, Benjamin F., Mansfield, Ohio. Bed-spring	812,939	Feb. 20	2637	626	120	2196
Lindsey, Harry C., Kansas City, Mo. Head-block	808,955	Jan. 2	85	19	120	21
Lindström, Karl A., Vesterås, Sweden. Electric alternating-current machine	809,706	Jan. 9	2216	460	120	519
Lingenfelter, Frank D., Patrick, Wyo. Running-gear	810,160	Jan. 16	3122	646	120	767
Linke, Hans, New York, N. Y. Piston-rod-moving device	813,158	Feb. 20	3277	720	120	2290
Linkins, Charles. (See Geraci, Ignatius, assignor.)						
Linn, John B., Schenectady, N. Y., assignor to General Electric Company. Pneumatic train-control system	809,707	Jan. 9	2218	460-1	120	519
Linnig, Charles E., Peru, Ill. Protector for spectacles	809,194	Jan. 2	1126	234	120	248
Linotype and Machinery. (See North, Thomas M., assignor.)						
Linscott, William D., Piedmont, S. D. Cattle-guard	810,064	Jan. 16	2043	612-13	120	731
Linthicum, Charles W., assignor to G. S. Linthicum, Baltimore, Md. Protector for boots and shoes	808,666	Jan. 2	87	19	120	21
Linthicum, George S. (See Linthicum, Charles W., assignor.)						
Lintner, O. W. (See McMasmon, John J., assignor.)						
Linton, Ernest O., Marion, assignor, by mesne assignments, to Syphonic Measure Tank Company, Sheboygan, Wis. Measuring appliance and compressor for liquids. (Reissue)	12,430	Jan. 23	4656	970	120	1126
Linton, John S., New York, N. Y. Saw-gage	812,574	Feb. 13	2135	492	120	2002
Linton, Jules J., Montclair, N. J. Photographic plate and film lifter	808,986	Jan. 2	615	134	120	136
Linville, Stephen A. M., Concordia, Kans. Floor-scraper	812,055	Feb. 6	1048	226	120	1702
Lippincott, Arthur, St. Louis, Mo. Journal-bearing	809,708	Jan. 9	2223	461	120	521
Lippincott, Arthur, St. Louis, Mo. Journal-box lid	813,804	Feb. 27	3972	871-2	120	2498
Lippincott, Arthur, assignor of one-half to H. W. Wolff, St. Louis, Mo. Roof-carline	811,073	Jan. 30	4999	1044	120	1246
Lipsett, Ormond M., Westpoint, N. Y. Machine for assembling cartridge-clips	810,065	Jan. 16	2042	613-14	120	732
Lipsett, Ormond M., Westpoint, N. Y. Cartridge-clip	810,161	Jan. 16	3123	646	120	767
Lipsett, Ormond M., Westpoint, N. Y. Apparatus for jumping and vaulting	811,417	Jan. 30	5051	1190	120	1391
Lister, Frank. (See Springer and Lister.)						
Little, Charles H., Chicago, Ill. Flow	812,056	Feb. 6	1050	226	120	1702
Little, Henry O., assignor to Ontario Fruit Package Company, (Limited,) Ingersoll, Canada. Veneer-bending machine	813,854	Feb. 20	3983	894	120	2154
Little, Joseph W., Westpoint, Miss. Seed-planter	812,057	Feb. 6	1050	229	120	1706
Llewellyn, Thomas, Tremont, Ill. Wire-fence fabric. (Reissue)	12,434	Jan. 9	2626	542	120	611
Livengood, Winfield S., assignor to Smith & Sons Mfg. Co., Kansas City, Mo. Baling-press	808,996	Jan. 2	746	161-2	120	164
Lloyd, Thomas J., Norfolk, Va. Trunk	809,709	Jan. 9	2225	461	120	521
Lönnström, Fredrik, assignor to Aktiebolaget Separator, Stockholm, Sweden. Milk-separator	812,895	Feb. 20	2668	586	120	2156
Lobb, Benjamin F., Cherry Gardens, South Australia, Australia. Boot and shoe cleaning and polishing machine	813,804	Feb. 27	4789	1051	120	2668
Lobdell, John, Bridgeport, Conn. Bobbin-tray	809,195	Jan. 2	1127	234-5	120	248
Lobdell, John C., Norwood, Ohio. Compensator for solutions	808,997	Jan. 2	748	163	120	165
Lobl, William J., assignor to Stanley Electric Manufacturing Company, Pittsfield, Mass.	809,825	Jan. 9	2425	504	120	566
Locke Worm Gear Engineer Company. (See Corby, Edward P., assignor.)						
Locke Worm Gearing Company. (See Watts, Arthur S., assignor.)						
Lockhart, Samuel C., Salem, Mass., assignor to Locke Regulator Company, Kittery, Me.	812,379	Feb. 13	1861	341	120	1881
Locke Worm Gear Company. (See Locke, Mechanical C., assignor.)						
Lockie, Thomas C., Kingsland, Ind. Bee-hive	808,667	Jan. 2	88	20	120	21
Lockwood, Charles E., and G. A. Luts, New York, N. Y. Primary battery	812,804	Feb. 13	1979	434	120	1999

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Lockwood, Charles E., and G. A. Luts, New York, N. Y. Primary battery	812,805	Feb. 13	1979	434	120	1999
Lockwood, Charles S., Newark, assignor to Hyatt Roller Bearing Company, Harrison, N. J. Automobile-wheel bearing	813,905	Feb. 27	4761	1051	120	2669
Lodge & Shipley Machine Tool Company. (See Lodge and Chard, assignors.)						
Lodge, William, and N. D. Chard, assignors to Lodge & Shipley Machine Tool Company, Cincinnati, Ohio. Follower-rest for lathes	809,513	Jan. 9	1832	378-9	120	437
Loetscher, Christian, Dubuque, Iowa. Manufacturing siding	808,998	Jan. 2	749	163	120	165
Loew, Charles H. (See Stahl, Max, assignor.)						
Loew, Charles H., Lakewood, Ohio. Pasteurizing beer	808,666	Jan. 2	89	20	120	21
Loew, Charles H., Lakewood, Ohio. Bottle-rinser	812,940	Feb. 20	2639	626-7	120	2195
Loew, Charles H., Lakewood, Ohio. Machine for cleaning bottles	813,013	Feb. 20	2978	696	120	2224
Loew, Charles H., Cleveland, Ohio. Bottle-cleaning machine	813,100	Feb. 20	3153	660	120	2263
Loew, Charles H., and H. G. Miller, assignors to Loew Supply & Manufacturing Company, Cleveland, Ohio. Bottle-washing machine	809,514	Jan. 9	1833	379	120	437
Loew Supply & Manufacturing Company. (See Loew and Miller, assignors.)						
Loew Supply & Manufacturing Company. (See Miller, Henry G., assignor.)						
Loewen, Wilhelm, Glatz, assignor to A. J. Hettwer, Landeck, Germany. Toothpick-holder	810,954	Jan. 30	4791	996	120	1201
Loewenstein, Maximilian, assignor of two-thirds to J. Stork, Brussels, Belgium, and M. Kind, New York, N. Y. Self-regulating air-pump	813,982	Feb. 27	4900	1085	120	2696
Logan, Elmer E., Larned, Kans. Grain-handling apparatus	811,938	Feb. 6	809	178	120	1654
Lohmann, Augustus W., Sr., Chattanooga, Tenn., and J. Pruis, Chicago, Ill. Closed conduit for electric railways	813,101	Feb. 20	3159	661	120	2265
Lohse, Carl, Liége, Belgium. Hammerless drop-down gun	810,162	Jan. 16	3124	646-7	120	767
Loker, Albert C., Kansas City, Mo. Stop-watch	809,196	Jan. 2	1129	235	120	249
Lombard, Nathaniel, Worcester, Mass. Gate mechanism for turbines	812,806	Feb. 13	1980	435	120	1999
Long & Allstatter Co. (See Macbeth, Charles E., assignor.)						
"Long Arm" System Company. (See Cowles, William B., assignor.)						
Long, Arthur D., assignor of one-half to G. Dietz, Fairfield, Iowa. Copy-holder	809,310	Jan. 9	1412	287	120	345
Long, George A., assignor to Gray Telephone Pay Station Company, Hartford, Conn. Telephone toll apparatus	810,491	Jan. 23	3990	793	120	964
Long, George W., Lindsay, Ind. Ter. Self-fastening cotton-marker	809,197	Jan. 2	1131	235	120	249
Long, Timothy, Cleveland, Ohio. Merry-go-round	813,159	Feb. 20	3278	720	120	2290
Long, Walter Z. (See Eakins, Herbert W., assignor.)						
Long, Williard O., Mansfield, Ohio. Horseshoe-calk and fastener	813,655	Feb. 27	4268	938	120	2562
Longenecker, Ralph, administrator. (See Schmerts, Edmund C.) (Reissue.)						
Longstreth Wallace M., Terra Alta, W. Va. Catamantal sack	813,221	Feb. 20	3401	749	120	2315
Longwell, Henry E., Pittsburg, and F. Hodgkinson, Edgewood Park, Pa., assignors to Westinghouse Machine Company. Packing	813,723	Feb. 27	4303	969	120	2589
Loomis, Kvarts G. (See Wildman and Loomis.)						
Loomis, George P., Schenectady, N. Y. Automatic match-making machine	808,767	Jan. 2	283	62-3	120	64
Looe, Wesley, assignor of three-fourths to E. V. Lorig and W. C. Lambert, South Omaha, Nebr. Railway-signal	812,941	Feb. 20	2842	627	120	2196
Lorain Steel Company. (See Korns, Clarence C., assignor.)						
Lorain Steel Company. (See McFeaters, George H., assignor.)						
Lorain Steel Company. (See Prior, Ernest B., assignor.)						
Loreman, James F., Crisfield, Md. Dredge	813,222	Feb. 20	3402	750	120	2315
Loreman, James F., Crisfield, Md. Spike-puller	813,223	Feb. 20	3403	750	120	2315
Lorenz, Victor. (See Lorenz, Wladimir and V.)						
Lorenz, Wladimir and V., Budapest, Austria-Hungary. Power-transmitter	810,780	Jan. 23	4414	916	120	1086
Lorentzen, John, Duluth, Minn. Coin-controlled scale	809,198	Jan. 2	1132	235-6	120	249
Lorentzen, John, Duluth, Minn. Weighing-scale	809,826	Jan. 9	2426	504	120	567
Lorenz, Alexander, assignor of one-half to W. J. Ilig, San Antonio, Tex. Hay-press	813,013	Feb. 20	2981	656	120	2226
Lorig, Emanuel V., *et al.* (See Looe, Wesley, assignor.)						
Lorimer, George W., Piqua, Ohio. Power-controlling lever	812,216	Feb. 13	1422	310	120	1859
Lorimer, John H., Philadelphia, Pa. Drying-machine	811,306	Jan. 30	5474	1141	120	1348
Lorimer, John H., Philadelphia, Pa. Drying and conditioning machine	811,307	Jan. 30	5475	1141	120	1349
Lorimer, John H., Philadelphia, Pa. Vehicle-wheel tire	811,646	Feb. 6	221	47	120	1532
Lorsch, Gideon D., New York, N. Y., assignor to Standard Oiled Clothing Company. Hat	812,659	Feb. 13	2280	498	120	2030
Loryea, Milton I., Spokane, Wash. Camera attachment	813,906	Feb. 27	4553	1006-7	120	2622
Loss, Henrik V., Philadelphia, Pa. Upsetting metal	812,866	Feb. 20	2670	585	120	2158
Lotterhand, Jason C., New York, N. Y. Combined adding and type-writing machine	811,157	Jan. 30	5177	1081-3	120	1283
Lotz, Augustus, San Francisco, Cal., assignor to American Can Company, Jersey City, N. J. Automatic square-can heading and crimping machine	812,857	Feb. 20	2671	585-7	120	2157
Lotz, Augustus, San Francisco, Cal., assignor to American Can Company, Jersey City, N. J. Automatic round-can heading and crimping machine	812,858	Feb. 20	2675	587-9	120	2157
Loudon, Milton H., Kansas City, Mo. Electrical railway signaling system	809,515	Jan. 9	1836	379	120	437
Loudon, William, and J. J. Hendricks, Seattle, Wash. Feed-water mechanism	811,930	Feb. 6	811	178	120	1654
Loudon, William A., Chicago, Ill. Wheel-tire	812,739	Feb. 13	2475	543	120	2068
Lougee, Amanda M., Boston, Mass. Fireproof wire	809,211	Jan. 9	1413	287	120	346
Lougee, Amanda M., Boston, Mass. Making fireproof conductors	809,212	Jan. 9	1414	287	120	346
Lougee, Amanda M., Boston, Mass. Protected conductor	809,213	Jan. 9	1419	287	120	346
Loughman, Michael J., New York, N. Y. Flanged-joint casing for heat-insulating pipes	809,963	Jan. 16	2715	599	120	681
Louiso, George P., and C. H. Hensley, assignors to said Louiso and J. L. Vermillion, Anderson, Ind. Computing cheese-cutter	812,980	Feb. 13	1982	441	120	1982
Love, Andrew J., St. Louis, Mich. Block-molding machine	811,647	Feb. 6	222	47-8	120	1534
Love, Gustav A., Cokato, Minn. Brake for bicycles	813,908	Feb. 27	4763	1052	120	2669
Lovegrove, Thomas G., assignor to M. A. Wood, Philadelphia, Pa. Adjustable mirror-support	812,880	Feb. 13	2291	466	120	2031
Lovejoy, George W., assignor of one-half to L. Harris, Tehachapi, Cal. Means for lubricating wheels	811,858	Feb. 6	611	123	120	1613
Lovejoy, Marcellus C., assignor to E. M. Lang, Jr., Portland, Me. Coiling-machine	809,200	Jan. 2	1221	268	120	291
Lovett, James L., New London, Pa. Doweling-machine	809,069	Jan. 2	875	186	120	198
Low, Abbot A., Hezekiah, N. Y. Hydrocarbon-motor	812,880	Feb. 20	2980	691	120	2189
Lowe, David T., Pana, Ill. Corn-harvester	812,678	Feb. 13	2126	466-9	120	2030
Lowe, Leon P., San Francisco, Cal. Cleansing manufactured gases	809,362	Jan. 9	1570	319	120	378
Lowe, Leon P., San Francisco, Cal. Combined gas washer and scrubber	812,717	Feb. 13	1426	310	120	1860
Lowe, Leon P., San Francisco, Cal. Gas-purifier	812,718	Feb. 13	1434	310	120	1860
Lowenhaupt, James F., Woodhaven, N. Y. Embossing-machine	812,850	Feb. 20	2676	589-91	120	2158
Lowry, James P. (See Klenk and Lowry.)						
Lowry, Walter F., Mattinsville, Tenn. Fireplace and grate blower	813,805	Feb. 27	3973	872	120	2499
Lubin, Siegmund. (See Weimer, Orville T., assignor.)						
Lucas, George. (See Klemaas, Theodore W., assignor.)						
Lucas, George, Passaic, N. J. Conveyer	809,827	Jan. 9	2429	504-5	120	567
Lucas, William H., Newark, Ohio. Maul	809,199	Jan. 2	1125	233	120	248
Luce, Edward T., assignor to Edward F. Luce & Company, Inc., Chicago, Ill. Car-door hanger	813,724	Feb. 27	4305	970	120	2669

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume		Official Gazette.	
			Spec.	Dr'g.	Vol.	Page.
Lees, George D., New Orleans, La. Device for loading sugar-cane	810,260	Jan. 16	3402	704	120	836
Leuthenand, Louis R., and H. W. Newton, Boston, Mass. Cushion-tread and the like for boots and shoes	809,964	Jan. 16	2717	559	120	681
Leuzinback, Harry, assignor to W. H. Kelly, San Francisco, Cal. Apparatus for producing perfect combustion in furnaces	810,163	Jan. 16	3126	647	120	767
Lockett, William S., East Orange, N. J., assignor to International Cigar Machinery Company, New York, N. Y. Cigar-machine	809,384	Jan. 9	1571	320	120	378
Lockett, William S., East Orange, N. J., assignor to International Cigar Machinery Company, New York, N. Y. Feeding mechanism	812,219	Feb. 13	1426	311	120	1851
Lockett, William S., East Orange, N. J., assignor to International Cigar Machinery Company, New York, N. Y. Feeding mechanism	812,220	Feb. 13	1430	311-12	120	1852
Lockhaupt, Lawrence J., St. Louis, Mo. Carriage-curtain fastener	812,681	Feb. 13	2282	469	120	2031
Lodewick, Humbert. (See Lodewick, Tonie and H.)						
Lodewick, Tonie and H., Irving, Ill. Whip-holder	811,308	Jan. 30	5478	1142	120	1349
Ludewig, William H., Rock Island, Ill. Surgical operating-engine	812,507	Feb. 13	1982	435-6	120	1970
Ludington, Frank J., Waterbury, Conn. Appliance for cutting off and creasing cigarettes	808,851	Jan. 2	437	97	120	97
Ludolph, Frank J., Rochester, N. Y. Trolley device	808,852	Jan. 2	443	98	120	99
Lühne, Johann, Aix-la-Chapelle, Germany. Apparatus for vaporizing liquid combustibles	809,200	Jan. 2	1137	236	120	250
Lui, Nathan, New York, N. Y. Folding bed and cabinet	809,710	Jan. 9	2226	462	120	521
Lum, Walter H., Chicago, Ill. Hat-tip-rubbing machine	811,309	Jan. 30	5479	1142	120	1349
Lumley, William, Chicago, Ill. Card-index drawer	809,314	Jan. 9	1423	288	120	347
Lund, Andreas, Christiania, Norway. Means for regulating turbines	810,955	Jan. 30	4791	996-7	120	1201
Lund, Christian, Wausau, Wis. Plant-support	812,942	Feb. 20	2845	628	120	2196
Lund, John T. (See Hug, Daniel, assignor.)						
Lumey, William D., Denison, Iowa. Snow-shovel	813,983	Feb. 27	4903	1085	120	2697
Luquire, Wiley H., Birmingham, Ala. Hitching-post	808,999	Jan. 2	751	162	120	165
Lutke Manufacturing Co. (See Lutke, Robert G., assignor.)						
Lutke, Robert G., assignor to Lutke Manufacturing Co., Portland, Oreg. Show-case	810,956	Jan. 30	4795	997	120	1202
Lution, William J., Paterson, N. J. Loom	812,508	Feb. 13	1985	436	120	1971
Lutz, Alexander, assignor to United States Sanitary and Utility Sewage Disposal Company, New York, N. Y. Receiving-basin	809,201	Jan. 2	1130	237	120	250
Lutz, George A. (See Lockwood and Lutz.)						
Lutzmer, Maximilian A., assignor to Gesellschaft für Industrielle Feuerungsanlagen m. b. H., Berlin, Germany. Air-feeding device for furnaces	813,102	Feb. 20	3161	691	120	2266
Lyle, Robert W., New York, N. Y., assignor to W. J. Lyle, South River, N. J. System and means for drying and burning clay products	812,509	Feb. 13	1987	436-7	120	1971
Lyle, William J. (See Lyle, Robert W., assignor.)						
Lyman, Dwight G., Omaha, Nebr. Carrier	813,160	Feb. 20	3278	721	120	2290
Lynch, George E., assignor to J. A. Jeffrey, Columbus, Ohio. Switch	813,506	Feb. 27	3975	873	120	2496
Lynch, Jasper. (See Thomas and Lynch.)						
Lynch, Patrick H., New York, N. Y. Pump	813,051	Feb. 20	3052	671	120	2241
Lynch, Thomas, Jefferson, Iowa. Tip for rocking-chairs	810,957	Jan. 30	4796	997	120	1202
Lyndon, Lamar, assignor to General Storage Battery Company, New York, N. Y. End-cell switch	810,958	Jan. 30	4798	998	120	1202
Lyons, William H., West Orange, N. J. Hat-sizing machine	813,656	Feb. 27	4270	938-9	120	2562
Lystne, Andrew O., Eagle Lake, Minn. Fishing device	809,965	Jan. 16	2718	559	120	681
Lytton, Jarard W., Portsmouth, Va. Apparatus for discharging liquids in vacuo	809,385	Jan. 9	1574	320	120	379
M. Garland Company. (See Garland, Michael, assignor.)						
M. J. Daly and Sons. (See Daly, Edmund J., assignor.)						
Maag, Edward L., Clarksburg, Ohio. Mold	811,310	Jan. 30	5481	1142-3	120	1350
Maag, George, assignor to XXth Century Heating and Ventilating Company, Akron, Ohio. Furnace-radiator	813,507	Feb. 27	3978	873	120	2499
MacKaye, Harold S., Yonkers, N. Y., assignor, by mesne assignments, to Elevator Securities Company. Elevator	811,513	Jan. 30	5830	1223	120	1424
MacKenzie, George W., Ben Avon, Pa. Blotting-ruler	811,311	Jan. 30	5483	1143	120	1350
MacLean, James. (See Tuttle and MacLean.)						
MacLeod, Alexander. (See Hall and MacLeod.)						
MacNutt, Archibald H. (See Clevenger, Joshua D., assignor.)						
Macarthy, Henry, assignor to American Can Company, New York, N. Y. Sheet-metal can	811,648	Feb. 6	223	48	120	1534
Macarthy, Henry, assignor to American Can Company, New York, N. Y. Sheet-metal humidor	811,729	Feb. 6	360	80	120	1566
Macbeth, Charles E., assignor to Long & Allstatter Co., Hamilton, Ohio. Punch or shears	812,878	Feb. 13	2141	469	120	2003
MacauBum, James, St. Louis, Mo. Book-support	809,315	Jan. 9	1424	288	120	347
Macchiarina, Charles R., Waltham, Mass. Tablet-board	808,998	Jan. 2	92	21	120	22
Macfie, Daniel, Edinburgh, Scotland. Dry meter for gas, air, and like fluids	813,312	Feb. 20	3587	787	120	2353
Macfie, Frank J. (See Macfie and Macfie.)						
Macfie, Henry Eustace. (See Gray, Sylvester P., assignor.)						
Mack, Ernest U., Florence, S. C., assignor to Crown Cork and Seal Company, Baltimore, Md. Bottling-machine	813,562	Feb. 27	4098	899	120	2527
Macnall, B. F., et al. (See Casalis, Secondo L., assignor.)						
Mackay, William E. S., South Yarra, Victoria, Australia. Door for lifts	810,873	Jan. 23	4589	965	120	1123
Mackenzie, Alexander W., and J. Ross, assignors of one-third to J. Gill, Edinburgh, Scotland. Dumb-bell	812,144	Feb. 6	1232	267-8	120	1742
Maskin, John W., assignor to C. T. Drake, Chicago, Ill. Conveyer	809,316	Jan. 9	1425	288-9	120	347
Macnaughton, Joseph, Edinburgh, Scotland. Paper-making apparatus for separating sand, metal, and other impurities from pulp	813,984	Feb. 27	4904	1086	120	2697
Macomber, Andrew S., South Portland, Me. Car-signal	808,937	Jan. 2	617	134	120	138
Macomber, Joshua O., assignor of one-half to F. G. Munser, Bakersfield, Cal. Egg-carrier	811,158	Jan. 30	5187	1083	120	1265
Madigan, Patrick J., Chicago, Ill. Combined door-lock and indicator for carriers used in pneumatic tubes	808,768	Jan. 2	291	63	120	68
Magnin, Charles A., Brooklyn, N. Y. Machine for sealing and stamping envelops	813,985	Feb. 27	4905	1086-7	120	2697
Magoun, Warren P., Boston, Mass. Base-ball-game apparatus	811,180	Jan. 30	5188	1084	120	1266
Maguire, Thomas R., assignor to Bucyrus Company, South Milwaukee, Wis. Traversing [illegible]	809,454	Jan. 9	1723	356	120	412
Mahoney, Thomas J., Montreal, Canada. Machine for use in packing biscuits	812,221	Feb. 13	1434	312-13	120	1853
Mahoney, Thomas R., Brunswick, Maine. Combined envelop and letter-paper	810,853	Jan. 23	4189	885	120	1096
Mahoney, Thomas R., Brunswick, Maine. Combined envelop and letter-paper	813,725	Feb. 27	4366	970	120	2360
Maier, Albert, Orleans, France. Lifting and separating wheel	810,668	Jan. 16	3046	614	120	782
Maier, Frederick, Jr., Auburn, N. Y., assignor, by mesne assignments, to American Electric Heating Company. Electric heater for vehicles	813,062	Feb. 20	3088	672	120	2241
Mainwaring, William F., Washington, D. C. Bottle-stopper	812,688	Feb. 6	1053	239	120	1709
Mair, Robert, Montreal, Canada, assignor to Canadian Rand Company. Turbine	809,711	Jan. 9	2220	462	120	520
Maire, Emile, Minneapolis, Minn. Rubber for ribbons, &c.	811,415	Jan. 30	5363	1198	120	1352
Maire, Emile, Minneapolis, Minn. Snow-removing apparatus	813,089	Feb. 20	3289	971	120	2240

Mansfield, Thomas L., Washington, Pa. Speed-regulating device	812,579	Feb. 13	2145	470	120	2004
Manson, Roy C., Chicago, Ill. Springwork	811,234	Jan. 30	5338	1115	120	1319
Manuel, Ralph W., Minneapolis, Minn. Device for teaching penmanship	809,712	Jan. 9	2230	462	120	523
Manwaring, George A., Bayonne, N. J., assignor to American Graphophone Company, Washington, D. C. Graphophone-reproducer	811,568	Feb. 6	66	13	120	1499
Manzel Brothers Co. (See Manzel, Charles W., assignor.)						
Manzel, Charles W., Buffalo, N. Y., assignor, by mesne assignments, to Manzel Brothers Co. Rotary valve	811,225	Jan. 30	5330	1115	120	1319
Marble, George W., Chicago, Ill. Power-transmission device	808,769	Jan. 2	293	63-4	120	66
Marchand, John G., Buffalo, N. Y. Shoe	812,053	Feb. 20	3070	672	120	2246
Marcounet, Georges, Paris, France. Apparatus for producing gas	813,726	Feb. 27	4367	970	120	2360
Marcotte, Thomas, Magog, Canada. Steam-trap	810,423	Jan. 23	3724	767	120	931
Marcucci, Umberto G., East Oakland, Cal. Rail-joint	812,059	Feb. 6	1054	239	120	1703
Marcuse, Isaac J., Richmond, Va., assignor to American Can Company, New York, N. Y. Sheet-metal can	810,211	Jan. 16	3234	669	120	789
Marcuse, Isaac J., Richmond, Va., assignor to American Can Company, New York, N. Y. Sheet-metal can	811,649	Feb. 6	225	48	120	1534
Marcuse, Isaac J., assignor to R. A. Patterson Tobacco Co., Richmond, Va. Sheet-metal pocket-box	812,175	Feb. 6	1309	286	120	1756
Marine Iron Works. (See Bates, Douglass, and Nourse, assignors.)						
Markey, Bernard, Hays, Kans. Wire-stretcher	810,659	Jan. 23	4191	886	120	1037
Markey, John J., Anderson, Ind. Annealing-box	812,943	Feb. 20	2846	628	120	2197
Markham Air Ride Company. (See Polley, David F., assignor.)						
Markkula, Matt, and A. Rantala, Fort Bragg, Cal. Free-running wheel	810,896	Jan. 23	4651	999	120	1135
Markus, Harris, Manchester, England. Machine for coating fabrics with finely-comminuted materials	813,564	Feb. 27	4101	899	120	2527
Marmon, Howard C., assignor to Nordyke & Marmon Company, Indianapolis, Ind. Oil system	810,989	Jan. 30	4808	998	120	1203
Maroha, Charles F., Milwaukee, Wis. Wheel	813,565	Feb. 27	4102	899	120	2527
Marquardt, John A., Asheville, N. C. Adjustable fly-screen	813,727	Feb. 27	4400	970	120	2361
Marquis, Henry O., Superior, Pa. Switch-throwing mechanism	812,581	Feb. 13	2151	471	120	2005
Marr, Robert A., et al. (See Birmingham, John P., assignor.)						
Marsh, Albert, London, England. Registering or indicating device for turnstiles	809,826	Jan. 9	2431	505	120	566
Marsh, Albert L., Lake Bluff, assignor to Hoskins Company, Chicago, Ill. Electric resistance element	811,859	Feb. 6	613	124	120	1614
Marsh, B. F. (See Jenkins, Richard L., assignor.)						
Marsh, Clarence T., assignor of one-half to L. H. Weisseder, Cincinnati, Ohio. Ascertaining the origin of coloring-matters present in distilled liquors	813,728	Feb. 27	4401	.....	120	2501
Marsh, Edwin T., Rochester, N. Y. Mail-box	812,692	Feb. 13	2293	499	120	2031
Marsh, Elon A., assignor to Greenaway Company, Detroit, Mich. Steam-trap	811,420	Jan. 30	5687	1190	120	1362
Marsh, Harry, Hamilton, Canada. Machine for cutting cotton-wicking into lengths and bundling the same	813,441	Feb. 27	3851	844	120	2489
Marsh, Horace S., Reading, England. Boiler-setting and blocks therefor	808,853	Jan. 2	445	98	120	99
Marsh, Howard E., Palms, assignor of one-half to W. P. Wagy, Los Angeles, Cal. Briquetting-press	811,860	Feb. 6	614	124	120	1614
Marsh, Howard E., assignor of one-half to W. P. Wagy, Los Angeles, Cal. Briquet-machine	813,657	Feb. 27	4271	930-40	120	2563
Marsh, Hugh M., Chicago, Ill. Lifting-jack	811,731	Feb. 6	364	80	120	1567
Marsh, Hugh M., Chicago, Ill. Lifting-jack	812,580	Feb. 13	2150	471	120	2004
Marshall, George, Fremont, Nebr. Steam-boiler	809,517	Jan. 9	1840	380	120	438
Marshall, George, Fremont, Nebr. Marine boiler	809,518	Jan. 9	1842	381	120	439
Marshall, George, Fremont, Nebr. Steam-boiler	811,236	Jan. 30	5341	1115-16	120	1320
Marshall, James G. (See Price, Cox, and Marshall.)						
Marshall, Norman, Newton, Mass. Incandescent-lamp socket	811,161	Jan. 30	5191	1084	120	1266
Marshall, William E. (See Wright and Marshall.)						
Marson, Frank W. (See Van Meter, James M., assignor.)						
Marston, Charles H., Reading, and A. P. Holden, Malden, assignors to National Shawmut Bank, Boston, Mass. Machine for cutting sheets	811,940	Feb. 6	814	178-9	120	1695
Martin, Benjamin H., Bay City, Mich. Gate	809,987	Jan. 16	2720	560	120	682
Martin, George W., assignor of two-thirds to J. S. Agar and D. C. Roach, Chicago, Ill. Pendent or trolley-carrier seat-hook	812,881	Feb. 20	3081	691	120	2189
Martin, Horace E., Athens, Ga. Wagon-body	811,580	Feb. 6	67	14	120	1500
Martin, John D., Harrodsburg, Ky. Ditcher and road-grader	810,874	Jan. 23	4591	965-6	120	1123
Martin, Ludolph P., assignor to Allis-Chalmers Company, Milwaukee, Wis. Steam-shovel support	810,575	Jan. 23	4088	900	120	1124
Martin, Patrick L., Thomasville, Ga. Fire-fighting device	813,729	Feb. 27	4402	971	120	2502
Martin, Frank D., Tacoma, Wash. Game apparatus	810,781	Jan. 23	4319	917	120	1095
Martin, W. S. (See Thomas, Evans, and Martin, assignors.)						
Martin, William H. (See Thomas, Evans, and Martin.)						
Martin, William H., Chicago, Ill. Automatic car feeder	809,839	Jan. 9	2433	505	120	566
Martin, William R., Twin Falls, Idaho. Excavator	813,566	Feb. 27	4104	900	120	2528

McCombs, James A., Fort Chester, N. Y. Checkrein attachment	810,214	Jan. 16	3242	671	120	791
McConnell Asbestos & Covering Co. (See McConnell, John A., assignor.)						
McConnell, John A., Allegheny, assignor to McConnell Asbestos & Covering Co., Pittsburg, Pa. Apparatus for molding materials which set by the addition of water thereto	812,147	Feb. 6	1240	269-70	120	1743
McConnell, John A., Allegheny, assignor to McConnell Asbestos & Covering Co., Pittsburg, Pa. Apparatus for molding plastic material	812,148	Feb. 6	1243	270	120	1744
McConway & Torley Company. (See McConway, William, Jr., assignor.)						
McConway, William, Jr., assignor to McConway & Torley Company, Pittsburg, Pa. Car-coupling	813,107	Feb. 20	3166	692-4	120	2268
McCord & Company. (See Dempsey, Edward, assignor.)						
McCord, Joseph W., *et al.* (See Cook, David S., assignor.)						
McCormick, John H. (Columbus, Ohio, and J. D. Morrison, Washington, D. C. Cash register and indicator	810,377	Jan. 16	3509	740-2	120	870
McCormick, John H., and J. D. Morrison, assignors, by mesne assignments, to International Register Company, Columbus, Ohio. Cash indicator and recorder	810,376	Jan. 16	3508	738-40	120	867
McCourt, Newton W., and T. N. Barnsdall, 2nd, Bradford, Pa. Druggist's label-holder	810,701	Jan. 23	4436	921	120	1080
McCoy, Alonzo B. Burlington, N. J. Steering device for boats	809,072	Jan. 2	861	187	120	195
McCoy, Harry E. (See Cribbs and McCoy.)						
McCullough, C. E. (See Nicholas, James A., assignor.)						
McCune, Samuel A., New Waterford, Ohio. Weeder-tooth	811,517	Jan. 30	5847	1224	120	1425
McCurdy, Oscar S., Wilkinsburg, Pa. Heating apparatus	809,207	Jan. 2	1150	239	120	253
McCusker, Bernard. (See Closson, John M., assignor.)						
McDermott, Joseph F., Umatilla, Canada. Delivery-spout	811,240	Jan. 30	5346	1117	120	1321
McDermott, William T., and W. F. Betzel, Baltimore, Md. Pulley-mounting	809,280	Jan. 9	1501	323	120	383
McDonald, Charles B., Chicago, Ill. Can-testing machine	812,224	Feb. 13	1440	314-15	120	1854
McDonald, Donald, and L. M. Scofield, Albany, assignors to American Meter Company, New York, N. Y. Station-meter index	809,127	Jan. 2	1008	207	120	221
McDonald, John, Blair township, Washington county, Nebr. Toe or grouter attachment for traction-wheels	813,571	Feb. 27	4117	902	120	2530
McDonald, Joseph P., Philadelphia, Pa. Postage-stamp-book cabinet	812,073	Feb. 6	1082	236	120	1709
McDonald, Ronald D. (See Ivey and McDonald.)						
McDonnell, Harry F., Latrobe, Pa. Cabinet	812,074	Feb. 6	1082	236-7	120	1709
McDonnell, John J. (See Toole and McDonnell.)						
McDonner, Charley, assignor of two-thirds to J. J. Roemer and C. Ahlgrim, Manitowoc, Wis. Refrigerator	810,499	Jan. 23	3983	796	120	970
McDougall, Charles P. (See Horner, William C., assignor.)						
McDowell, Willis H., Auburn, Ind. Molding apparatus	813,572	Feb. 27	4118	902	120	2531
McDowell, Willis H., Auburn, Ind. Machine for manufacturing concrete building-blocks	813,573	Feb. 27	4119	902-3	120	2531
McElroy, John H., Chicago, Ill. Locked-seam can-body machine	812,285	Feb. 13	1560	343-5	120	1863
McElroy, Josephine D., Leavenworth, Kans. Dish-washing machine	811,735	Feb. 6	374	82	120	1588
McEvoy, James E. (See Wilson, George W., assignor.)						
McFarlane, George C., Bay City, Mich. Meridian-transfer apparatus	812,567	Feb. 13	2163	473-4	120	2007
McFeaters, George H., Johnstown, Pa., assignor to Lorain Steel Company. Surface-contact electric railway	808,773	Jan. 2	303	65	120	69
McGahan, Frederick L., and E. G. Flager, St. Louis, Mo.; said Flager assignor to said McGahan. Fluid-fuel burner	811,078	Jan. 30	5005	1045-6	120	1247
McGarvey, Edward, Youngstown, Ohio. Mechanical recording-scale	812,286	Feb. 13	1576	345-6	120	1865
McGinn, Thomas P. (See Buckley, McGinn, and Rogan.)						
McGowen, Alfred E. (See Provost, Camille, assignor.)						
McGown, Samuel F., Dial, Ky. Grub-puller	809,972	Jan. 16	2730	562	120	934
McGranighan, John, Roxboro, Pa. Pile-tube	810,551	Jan. 23	3989	821	120	992
McGrann, John, *et al.* (See Beck, William, assignor.)						
McGregor, John M. D., Alley, Ga. Leaf-holder for use in transferring entries	809,126	Jan. 2	1007	208	120	232
McGuire, Michael G., Chicago, Ill. Umbrella	808,883	Jan. 2	459	101	120	102
McGuire, Thomas A., Oakland, Ill. Dressing-booth	813,661	Feb. 27	4262	942	120	2586
McHenry, Earl O. (See Noble and McHenry.)						
McHenry, Grant, Mount Liberty, Ohio. Vehicle running-gear	811,944	Feb. 6	820	179-80	120	1646
McHugh, William J., Dana, Iowa. Drain-tile protector	813,016	Feb. 20	2985	657	120	2226
McIlvaine, William, assignor to Cockburn Barrow and Machine Company, Jersey City, N. J. Air-lock for caissons	810,268	Jan. 16	3431	708	120	832
McIntosh, James, Lansing, Mich. Carburetor	810,792	Jan. 23	4439	921	120	1091
McIntosh, Josephine M., Providence, R. I. Tobacco-stripping machine	809,724	Jan. 9	2261	467-8	120	527
McIntosh, Ross S., Buffalo, N. Y., assignor to Liberty Manufacturing Company, Pittsburg, Pa. Rotary engine	813,815	Feb. 27	4566	1010	120	2636
McIntyre, Frank, assignor to Eagle Pencil Company, New York, N. Y. Pencil-tip	813,108	Feb. 20	3173	694	120	2260
McIntyre, James, Edmonton, Canada. Folding scaffold-bracket	809,973	Jan. 16	2731	562	120	935
McIntyre, James P., Chicago Lawn, Ill. Feed-box	811,573	Feb. 6	78	15	120	1502
McIntyre, Robert D., assignor of one-half to S. Harter, Mansfield, Ohio. Incandescent-light hanger	812,355	Feb. 13	1602	372	120	1911
McIntyre, William J., Hartford, Conn. Tool for marking and incising hinge-butt recesses	813,319	Feb. 20	3397	700-1	120	2356
McKay, George D. (See Clark, James T., assignor.)						
McKeen, William R., Jr., Omaha, Nebr. Car-frame	809,317	Jan. 9	1426	309	120	348
McKeen, William R., Jr., Omaha, Nebr. Truss-frame for cars	809,974	Jan. 16	2732	562-3	120	935
McKeen, William R., Jr., and A. H. Fetters, Omaha, Nebr. Vegetation-destroyer	810,793	Jan. 23	4443	921-2	120	1092
McKenna, Edward, *et al.* (See Landau, Dewis, assignor.)						
McKenzie, Alpine, Evangeline, La. Combined hair-brush and comb	812,786	Feb. 13	2490	547	120	2071
McKenzie, James S., Atlanta, Ga. Harness-tug	809,577	Jan. 9	1266	406	120	462
McKeown, James, assignor of one-half to J. Isreal, Pittsburg, Pa. Injector connection for locomotive-boilers	810,877	Jan. 23	4086	967	120	1135
McKeraban, George, Marshfield, Oreg. Adjustable wrench	812,440	Feb. 13	1861	409	120	1945
McKerrow, Herbert G. (See Sandison, William M., assignor.)						
McKimmey, William J., Barnett, Ill. Screw-connecting die and stock	812,075	Feb. 6	1084	237	120	1709
McKinlay, John J. (See Howarth and McKinlay.)						
McKinley, Joseph S., Cincinnati, Ohio. Ink-distributer for printing-presses	809,521	Jan. 9	1347	362	120	440
McKinney, Walter S., Chicago, Ill. Stamp-actuating mechanism for ore-crushers	811,079	Jan. 30	5005	1046	120	1248
McKinstry, George. (See Mosser, Daniel, assignor.)						
McKnight, John W., Hanover, Pa., assignor to Hanover Gas Regenerating Co. Inspirator and mixer for gas-burners	810,988	Jan. 30	4817	1002	120	1207
McKnight, Stephen E., Iola, assignor to S. Davidson, Yates Center, Kans. Crude-oil burner	811,439	Jan. 30	5704	1194	120	1396
McKnight, Thomas K., assignor to Western Wheeled Scraper Company, Aurora, Ill. Dump-car	809,522	Jan. 9	1349	362-4	120	440
McLain, John T., Stumpypost, N. C. Anchor	809,975	Jan. 16	2733	563	120	935
McLaughlin, Cunningham N., assignor to New Winona Manufacturing Co., Winona, Minn. Grinding-mill	811,945	Feb. 6	821	180	120	1636

Metz, Herman A. (See Fourmeaux, Emile A., assignor.)						
Meurisse, Paul, Lille, France. Steam-boiler	811,785	Feb. 6	478	103	120	1588
Meyer, Anton, St. Louis, Mo. Glass-rolling apparatus	810,786	Jan. 23	4428	919	120	1088
Meyer, Ernest C., assignor to Champion Machinery Company, Cleveland, Ohio. Heading-machine	809,520	Jan. 9	1844	381-3	120	439
Meyer, Franz, Oak Park, Ill. Piano-bridge	812,510	Feb. 13	1994	437	120	1973
Meyer, Hans. (See Anderson and Pederson, assignors.)						
Meyer, Henry. (See Johnson and Meyer.)						
Meyer, Henry A., assignor to Wolf Electrical Promoting Company, Cincinnati, Ohio. Circular knife and retaining-gear therefor for cloth-cutting machines	813,313	Feb. 20	3586	788	120	2354
Meyer, Louis, Dayton, Ky. Vegetable-washer	810,548	Jan. 23	3986	830	120	991
Meyers, Charles A., Lapole, Ohio. Press for molding cement or plastic blocks	811,423	Jan. 30	5091	1191-2	120	1393
Meyrowitz, Emil B., New York, N. Y., assignor to Meyrowitz Manufacturing Co. Eye-glasses	809,001	Jan. 2	753	163	120	166
Meyrowitz Manufacturing Co. (See Meyrowitz, Emil B., assignor.)						
Michaelis, Gustavus, Albany, N. Y. Paint-remover	812,582	Feb. 13	2153	.....	120	2005
Michigan Buggy Company. (See Grant, Thomas, assignor.)						
Michigan Machinery Manufacturing Company. (See Dobson, John E., assignor.)						
Mick, Josiah O., assignor of two-fifths to A. J. Berkey, Goshen, Ind. Canopy-support and chandelier	810,096	Jan. 16	2960	615	120	733
Middlebrook, William D., assignor to Oakville Company, Waterbury, Conn. Machine for making safety-pins	812,762	Feb. 13	2480	544-5	120	2069
Middleby, Joseph, Jr. (See Dooley, Thomas B., assignor.)						
Mielke, O. W. (See Stewart, Lois O., assignor.)						
Miethke, Charles F., and F. J. Meek, New York, N. Y. Clothes-line support	812,583	Feb. 13	2154	471	120	2005
Miftolasek, John F. Vodnany, S. D. Ditching-plow	811,424	Jan. 30	5095	1192	120	1394
Milnroy, Hans, Schöneberg, near Berlin, assignor to W. Graaff & Company Gesellschaft mit beschränkter Haftung, Berlin, Germany. Compressor	813,443	Feb. 27	3854	844	120	2470
Miller, Alva. (See Barnes, Blackmun, and Miller.)						
Miller, Arthur E., Peekskill, N. Y. Pump	808,857	Jan. 2	451	99	120	100
Miller, Charles J., Minneapolis, Minn. Store-service apparatus	809,714	Jan. 9	2234	468	120	522
Miller, Charles M., Tyrone, Pa. Coaling device for moving trains	811,425	Jan. 30	5095	1192-3	120	1394
Miller, David, Evanston, Ill. Bowling-alley	809,715	Jan. 9	2235	464	120	524
Miller, Edward R., Wytheville, Va. Harrow	809,716	Jan. 9	2237	464	120	524
Miller, Ernest H., assignor of two-thirds to J. W. Holman and C. V. Rote, Lancaster, Pa. Electromagnet	812,511	Feb. 13	1997	438	120	1973
Miller, Ernest H., and C. V. Rote, assignors of one-third to J. W. Holman, Lancaster, Pa. Air-brake	811,863	Feb. 6	625	136-7	120	1616
Miller, Ernest L., Louisville, Ky. Bottling-machine	809,621	Jan. 9	2053	426	120	482
Miller, Frank E. (See Isham and Miller.)						
Miller, Franklin P., Bloomfield, N. J. Tool-holder	811,786	Feb. 6	479	103	120	1588
Miller, Frederick C., Cincinnati, Ohio. Front axle for automobiles	811,076	Jan. 30	5022	1044	120	1247
Miller, George B., Parry Sound, Canada. Gang-saw for manufacturing lumber	809,671	Jan. 2	95	22	120	23
Miller, George E., assignor of one-half to E. L. Fequegnat, Riverside, Cal. Fruit-display box	811,851	Feb. 6	237	49	120	1615
Miller, George J., Ballevitt, Wash. Animal-trap	808,908	Jan. 2	1143	237	120	251
Miller, Harry A., Los Angeles, Cal. Sparking device	812,104	Feb. 20	2483	889	120	2206
Miller, Harvey C., Philadelphia, Pa. Cleaning grains	810,560	Jan. 30	4996	1180	120	1294
Miller, Harvey C., Philadelphia, Pa. Apparatus for cleaning grains	812,790	Feb. 13	2488	891	120	2085
Miller, Henry C., Watertown, N. Y. Buttonhole-sewing machine	810,297	Jan. 16	3708	787-8	120	988
Miller, Henry C., Watertown, N. Y. Machine for assembling collar-blanks	813,606	Feb. 27	3619	1060-1	120	2670
Miller, Henry G. (See Loew and Miller.)						
Miller, Henry G., Cleveland, Ohio, assignor to Loew Supply & Manufacturing Company, Caldwell, N. J. Fluid-water heater	812,044	Feb. 20	2660	883	120	2197
Miller, Henry G., and G. R. Lawrence, Cleveland, Ohio. Banking apparatus	808,941	Jan. 2	697	157	120	183
Miller, Henry R., Fond du Lac, Wis. Screen for photographic camera-lenses	809,180	Jan. 9	1764	387-9	120	393
Miller, Jacob C., Greenwood, Ind. Feeding device	812,666	Feb. 13	2292	500	120	2032

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drgs.	Official Gazette. Vol.	Official Gazette. Page.
Miller, James C., assignor to Forter Miller Engineering Company, Pittsburg, Pa. Furnace.						
Miller, James M., Rushville, Ind. Corn-lifting device	813,226	Feb. 20	3408	751	120	2316
Miller, Jasper N., Ashland, Oreg. Book-holder	813,509	Feb. 27	3982	874	120	2500
Miller, John, Jr., assignor to W. R. Biddle, Amesbury, Mass. Overhead trolley harp and shoe for electric railways	813,227	Feb. 20	3410	751	120	2316
Miller, John C., Jackson, Mich. Block-mold	810,069	Jan. 16	2950	615	120	733
Miller, John C., assignor, by mesne assignments, to Miller Pasteurizing Machine Co., Canton, Ohio. Apparatus for sterilizing liquids. (Reissue)	810,494	Jan. 23	3867	794	120	966
Miller, John L., Wood River, Nebr. Check-row corn-planter	12,448	Feb. 6	1329	289	120	1762
Miller, John Z., Erie, Pa. Telephone-transmitter	812,866	Feb. 13	2299	500	120	2032
Miller Pasteurizing Machine Co. (See Miller, John C., assignor.) (Reissue.)	809,831	Jan. 9	2435	506	120	568
Miller, Richard, Appleton, Wis. Hay-carrier	811,572	Feb. 6	74	15	120	1501
Miller, Robert R., Grand Rapids, Mich. Incandescent-lamp socket	813,568	Feb. 27	4109	901	120	2529
Miller, Samuel P., Boston, Mass. Cigar retainer and cutter	812,064	Feb. 6	1062	231	120	1705
Miller, Thomas K. (See McBride, Patrick L., assignor.)						
Miller, Thomas S., South Orange, N. J. Cableway	809,287	Jan. 9	1582	321-2	120	381
Miller, Thomas S., South Orange, and J. H. Dickinson, Montclair, N. J. Conveyer	809,968	Jan. 16	2722	560	120	682
Miller, Vernon B., Philadelphia, Pa. Starting mechanism for gas-engines	808,858	Jan. 2	452	100	120	101
Miller, William E. (See Blodgett and Miller.)	812,584	Feb. 13	2155	472	120	2005
Miller, William G., West Medway, Mass. Gas-engine	810,495	Jan. 23	3868	795	120	966
Miller, William H., Galveston, Tex. Sheet-metal fireproof window	810,663	Jan. 23	4195	868	120	1038
Miller, William J. (See Frayer and Miller.)						
Miller, William V., assignor to Metropolitan Sewing Machine Company, Nyack, N. Y. Pitman connection	810,961	Jan. 30	4808	999	120	1204
Miller, Wilson W., Newton, Kans. Push-rake	813,569	Feb. 27	4111	901	120	2529
Milligas, Lorenzo A., Barstow, Cal. Spike-puller	809,122	Jan. 2	906	205-6	120	219
Milligan, William. (See Rickabaugh, Justus A., assignor.)						
Milliken, John A., New York, N.Y., assignor, by mesne assignments, to Schauer Factory. Nail and rivet delivering machine	813,162	Feb. 20	3286	722-3	120	2297
Millingar, Harry. (See Mitchell and Millingar.)						
Milliron, Ira A., Franklin, Pa. Glass-working furnace	812,055	Feb. 6	1063	231-2	120	1705
Milliron, Lorenzo, Flandreau, S. D. Pencil and pen holder	812,763	Feb. 13	2485	546	120	2070
Mills, Adalbert F., Shortsville, N. Y., assignor to American Seeding Machine Company, Jersey City, N. J. Adjustable feed for grain-drills	813,054	Feb. 20	3071	672-3	120	2247
Mills, Charles, Woolston, near Christchurch, New Zealand. Adjustable bracket for employment on windows, ladders, and parapets	811,514	Jan. 30	5840	1223	120	1424
Mills, David, East Rand, Transvaal. Air-pump	809,002	Jan. 2	754	163	120	166
Mills, David B., East Orange, N. J. Attachment device for electric conductors	810,664	Jan. 23	4198	868	120	1038
Mills, George B., South Bend, Ind. Convertible wagon-box and hay-rack	809,386	Jan. 9	1586	322-3	120	282
Mills, Herbert S., Chicago, Ill. Gramophone	812,512	Feb. 13	1999	438	120	1973
Mills, Joseph H., assignor to Richmond Casket Company, Richmond, Ind. Burial-casket	812,945	Feb. 20	2852	629	120	2199
Mills Novelty Company. (See Lavery, Henry C., assignor.)						
Mills, Silas P., Garfield, Kans. Wheel-hub	813,659	Feb. 27	4279	941	120	2565
Mills, Virgil H., Hubbard, Tex. Hydrant	808,859	Jan. 2	453	100	120	101
Milroy, Charles M. (See Beaseroft, James E., assignor.)						
Miner, Thomas H., Winona, Mo. Lightning-conductor	813,660	Feb. 27	4281	941	120	2565
Mineralac Company. (See Eastman, George N., assignor.)						
Minor, Frank, Batavia, N. Y. Shoe-display fixture	810,425	Jan. 23	3726	768	120	932
Milowsky, José P. (See Bargiela, Milowsky, Carlochia, and Odio.)						
Mississippi Glass Company. (See Walsh, Robert A. B., assignor.)						
Mississippi Wire Glass Company. (See Speer and Otto, assignors.)						
Mitchell, Charles, and H. Millingar, assignors of one-half to H. E. Dickinson, East St. Louis, Ill. Electrical railway signaling system	812,432	Feb. 13	1849	405-7	120	1943
Mitchell, George, Los Angeles, Cal. Apparatus for generating steam from hot slag	809,128	Jan. 2	907	208	120	219
Mitchell, George, Los Angeles, Cal. Slag steam-generator	809,204	Jan. 2	1144	236	120	262
Mitchell, Hiram A., and T. D. Singleton, Fall River, Mass. Potato-parer	811,652	Feb. 6	226	49	120	1535
Mitchell, Ira G., assignor of one-half to A. C. Moulton, F. E. Sheriden, R. S. Ball, L. Peterson, F. H. J. Hastgen, and G. E. Aleher, Mosher, Colo. Adjustable crank-disk	811,426	Jan. 30	5699	1193	120	1395
Mitchell, James H., Westerly, R. I. Device for bending fore-and-aft sails	810,787	Jan. 23	4431	920	120	1089
Mitchell, John, Damascmora, N. Y. Carrier for harrels and the like	808,008	Jan. 2	756	163	120	166
Mitchell, John E., assignor to Alsop Process Company, St. Louis, Mo. Treating flour	812,764	Feb. 13	2488	546	120	2070
Mitchell, Wade H., Ragby, Tex. Cultivator attachment	812,946	Feb. 20	2854	630	120	2199
Mix, Allen H., assignor to Porter Screen Manufacturing Company, Burlington, Vt. Metal window-screen	810,962	Jan. 30	4810	1000	120	1205
Mlada, Joseph, Manitowoc, Wis. Mold for butter	810,666	Jan. 23	4200	869	120	1038
Mobley, Richard, assignor of one-half to D. B. Ridpath, St. Louis, Mo. Bending-machine	808,672	Jan. 2	97	22	120	22
Moeller, Amelia G., assignor of one-half to S. Freshman and Z. J. Reese, Dallas, Tex. Washing-machine	810,549	Jan. 23	3867	831	120	991
Moeller, William J., Hartwell, assignor to Philip Carey Manufacturing Company, Lockland, Ohio. Ready-made roofing	813,163	Feb. 20	2989	723	120	2282
Moffat, Henry E., Woodstock, Canada. Oil-extractor	813,314	Feb. 20	3039	786	120	2284
Mois, John G., Batavia, Ill. Horse-power	813,262	Feb. 13	1865	343-3	120	1863
Moline Plow Company. (See Lundgren, Alexus C., assignor.)						
Molinenkien, Herman E. E., Cour d'Alene, Idaho. Combination-tool of the hammer type	812,947	Feb. 20	2895	629	120	2199
Molk, John F., Sturgeon Bay, Wis. Type-writing machine	813,570	Feb. 27	4112	901-2	120	2530
Möller, Karl, Charlottenburg, Germany, assignor to General Electric Company. Signal	811,388	Jan. 30	5344	1116	120	1320
Molloy, John, Miller's Forest, New South Wales, Australia. Tobacco-pipe	813,351	Feb. 13	1686	370	120	1910
Monarch Typewriter Company. (See Merritt, Henry W., assignor.)						
Monarch Vanisher Company. (See Leachman, Fred W., assignor.)						
Mond, Robert L. (See Wilderman and Mond.)						
Mond, Rogers, Chemnitz, Germany. Apparatus for discharging condensed steam	811,162	Jan. 30	5193	1084-5	120	1286
Monell, Ambrose, New York, N. Y. Manufacture of nickel-copper alloys	811,299	Jan. 30	5346	.....	120	1321
Monell, Charles J., Bernard, St. Paul, Minn.; A. M. Dunn, administratrix. Steam-feed for wells and measuring tanks	810,496	Jan. 23	3874	796	120	966
Monge, Gustave H., Piedmont, W. Va. Lathe attachment	809,717	Jan. 9	2236	445	120	524
Monitor Drill Co. (See Davis, Spencer F., assignor.)						
Monnett, Joan B. (See Wyman, Hendricks, and Monnett.)						
Monroe, William L., Omaha, Nebr. Alarm	813,164	Feb. 20	2990	725	120	2283
Monroe, Robert, Bucharest, Roumania. Apparatus for printing books in type for the blind						
Monroe Galvanized Air Conveyor of Missouri. (See Obear, Bryan, assignor.)	811,767	Feb. 6	451	104	120	1868
Montague, Robert L., et al. (See Montague, John K., assignor.)						
Montague, Robert C., assignor of one-half to E. M. Vynne, New York, N. Y. Machine for grooving tubes	812,434	Feb. 13	1852	407	120	1944

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drgs.	Official Gazette. Vol.	Official Gazette. Page.
Montague, Robert C., assignor of one-half to E. M. Vynne, New York, N. Y. Helically grooving tubes	812,435	Feb. 13	1854	408	120	1944
Moor, Levi C. (See Cotton and Moor.)						
Moore, Alanson A., assignor of one-half to F. H. Bessenger, Detroit, Mich. Armor for pneumatic tires	811,732	Feb. 6	367	81	120	1567
Moore, Charles H., New York, N. Y. Water-closet flush-pipe	810,070	Jan. 16	2953	615	120	733
Moore, Edward Y., Cleveland, Ohio. Hoist	811,077	Jan. 30	5002	1044-5	120	1347
Moore, F. J. (See Johnson, Alvin S., assignor.)						
Moore, Franklin O., Los Angeles, Cal. Music-leaf turner	810,497	Jan. 23	3875	796	120	969
Moore, Henry W., Anderson, assignor of one-fifth to M. G. Moore, Madison county, Ind. Truck	812,066	Feb. 6	1064	232	120	1706
Moore, John W., and J. A. White, Philadelphia, Pa. Paper-making machine	809,532	Jan. 9	2436	506	120	569
Moore Leather Machine Company. (See Moore, William H., assignor.)						
Moore, Mettie G. (See Moore, Henry W., assignor.)						
Moore, Richmond S. A., Ridgedale, Tenn. Box	810,341	Jan. 16	3511	734	120	850
Moore, Thomas R., Walden, N. Y. Machine for grinding cutlery-blades and the like	813,510	Feb. 27	3984	874-5	120	2500
Moore, Walter T. (See Simmons and Moore.)						
Moore, William D., Creston, Iowa. Building-block	812,667	Feb. 13	2301	501	120	2032
Moore, William H., Salem, Mass., assignor to Moore Leather Machine Company, Kittery, Me. Leather-seasoning machine	809,718	Jan. 9	2240	465-6	120	524
Moore, William L., Honolulu, Hawaii. Centrifuge attachment for electric fans	811,865	Feb. 6	631	138	120	1619
Moore, William L., and E. L. Hutchinson, Honolulu, Hawaii. Dental and surgical obtunder	811,864	Feb. 6	629	137	120	1618
Moore, Willis C., Los Angeles, Cal. Rock-boring machine	811,943	Feb. 6	818	179	120	1656
Moran, Robert, Seattle, Wash. Power plant	812,668	Feb. 13	2302	501	120	2033
Morehouse, Melvin W., Brooklyn, N. Y., assignor to Mergenthaler Linotype Company. Linotype-machine	808,772	Jan. 2	302	65	120	69
Morel, Charles F. V., Paris, France. Apparatus for sterilizing liquid by heat under pressure	812,765	Feb. 13	2488	546	120	2070
Morelock, William H. H., Jonesboro, Ark. Automatic damper	813,226	Feb. 20	3411	752	120	2317
Moreno, Luigi, and A. D'Antony, Turin, Italy. Apparatus for burning gas	812,513	Feb. 13	2000	438-9	120	1974
Morewood, William B., Elizabeth, N. J. Door-bolt and means for operating the same	808,573	Jan. 2	98	22	120	24
Morgan Construction Company. (See George, Jerome R., assignor.)						
Morgan, Edward L., Little Rock, Ark. Railway-switch stand	809,719	Jan. 9	2243	466	120	536
Morgan, Mary E., Fort Smith, Ark. Trunk	809,124	Jan. 2	999	206	120	220
Morgan Potter Company. (See Potter, Morgan, assignor.)						
Morgan, Ralph L., and J. N. Heald, assignors to Heald Machine Company, Worcester, Mass. Grinding-machine	810,426	Jan. 23	3727	756	120	932
Morgan Spring Company. (See Bigelow, George E., assignor.)						
Morganay, William C., and T. Gilloon, Dubuque, Iowa. Bale binder and tier	810,312	Jan. 16	3235	669-70	120	789
Moriarty, John J. (See Lisota, Frank, assignor.)						
Morris, Archibald D., New York, N. Y. Detachable-link chain	813,239	Feb. 20	3412	752	120	2317
Morris, De Haven, Wilmington, Del. Tool	812,067	Feb. 6	1068	233	120	1706
Morris, William C., Houston, Tex. Double-screw swivel lifting-jack	810,374	Jan. 16	3582	737	120	896
Morrison, Andrew. (See Thomson, MacLeod W., assignor.)						
Morrison, Douglas P., Newark, N. J. System of calibrating recording watt-hour meters	812,436	Feb. 13	1855	408	120	1944
Morrison, Frederick J., Emporium, Pa. Grab-hook	808,860	Jan. 2	454	100	120	101
Morrison, James D. (See McCormick and Morrison.)						
Morrison, John C., Louisville, Ky. Hat-fastener	808,674	Jan. 2	99	23	120	24
Morrison, Reason R., Mineral City, Ohio. Fire-clay block and attachment	812,437	Feb. 13	1857	408	120	1944
Morrison, Walter D., San Francisco, Cal. Machine for automatically segregating, measuring, and delivering molten glass	810,167	Jan. 16	3121	648	120	798
Morrow, David W., Plumville, Pa. Mail-box	812,514	Feb. 13	2002	439	120	1974
Morrow, Ernest E., Bluffton, Ind. Window-screen	811,733	Feb. 6	369	81	120	1566
Morrow, Mark. (See Orr, Francis L., assignor.)						
More, Fritz C., Elwood, Ind., assignor to American Sheet and Tin Plate Company, Pittsburg, Pa. Power-sledge	809,575	Jan. 9	1962	405	120	462
Morse, Jay D., Holbrook, Nebr. Post	811,313	Jan. 30	5468	1144	120	1280
Morse, Oscar D., Adrian, Mich. Fence-tie	811,896	Feb. 6	631	138	120	1619
Morsier, Frédéric de, Geneva, Switzerland. Expansion cramp device	811,163	Jan. 30	5195	1085	120	1287
Morsing, Christian, Plummer, Minn. Road-grader	812,065	Feb. 20	3072	673	120	2247
Morse, Rosannah L. (See Eisenhouser and Morse.)						
Mortensen, Casper C. M. (See Riddell and Mortensen.)						
Mortensen, Martin, Sioux City, Iowa. Cream cooler and aerator	809,125	Jan. 2	1000	206	120	220
Mortland, Thomas. (See Cpanor, Joseph B., assignor.)						
Morton, Ephraim S., Brockton, Mass. Last-thimble	813,812	Feb. 27	4562	1009	120	2626
Morton Trust Company, trustee. (See Pope, Harry M., assignor.)						
Mossbach, Albert, assignor to H. Mossbach & Sons, Philadelphia, Pa. Candy-machine	813,315	Feb. 20	3091	788-9	120	2254
Mossbach & Sons, H. (See Mossbach, Albert, assignor.)						
Mossley, Herman F., Rockymount, Va. Soak-filter	811,883	Feb. 6	229	49	120	1535
Mossley, John B., Danville, Va. Screen	810,788	Jan. 23	4433	920	120	1089
Mosher, De Witt C., Manitou, Colo. Barrel-filter	812,438	Feb. 13	1858	408	120	1945
Mosher, John J., Rochester, N. Y. Mechanism for printing-presses	809,004	Jan. 2	767	164	120	187
Moss, Leon F. (See Bell, Walter J., assignor.)						
Moss, Walter L., Blains, Ga. Fishing device	810,789	Jan. 23	4434	920	120	1089
Mosteller, Dosier H., assignor to Mosteller Manufacturing Company, Chicago, Ill. Fruit-squeezer	808,861	Jan. 2	456	100	120	101
Mosteller Manufacturing Company. (See Mosteller, Dosier H., assignor.)						
Mothes, Georg, Rüttenscheid, near Essen-on-the-Ruhr, assignor to F. Krupp, Essen-on-the-Ruhr, Germany. Apparatus for the production of globoidal worm-wheels	809,823	Jan. 9	2438	507	120	563
Mothy, Philipps B., Montreal, Canada. Means for supporting the expansion ends of bridges, &c	808,071	Jan 2	878	188-7	120	194
Motor Traction Company. (See Rhodes, Levi, assignor.)						
Motsinger Device Manufacturing Company. (See Motsinger, Homer N., assignor.)						
Motsinger, Homer N., assignor to Motsinger Device Manufacturing Company, Pendleton, Ind. Electric igniter	810,963	Jan. 30	4811	1000	120	1205
Mott, Albert M., Hampton, Iowa. Automatic electric block system	813,909	Feb. 27	4778	1053-4	120	2671
Mott Carbonator Company. (See Fox, John H., assignor.)						
Mott, Daniel L. (See Horton, Robert E., assignor.)						
Mouchel, Gustave L., London, England. Concrete pile, pillar, &c	812,228	Feb. 13	1436	314	120	1864
Mouat, Andrew B., Twisp, Wash., assignor of two-thirds to R. S. Lewis and T. Twichell, Fargo, N. D. Leaching-tank	808,678	Jan. 2	101	23	120	25
Moulton, Arthur C., et al. (See Mitchell, Ira G., assignor.)						
Moulton, Dexter E. (See Sumnith and Moulton.)						
Moulton, James N., Haverhill, Mass., assignor to Waterproof Welt & Filler Co., Hartford, Conn. Shoe	809,822	Jan. 9	2065	488	120	463

Moulton, James N., Philadelphia, Pa., assignor to J. R. Reynolds, Hartford, Conn. Waterproof sole	809,623	Jan. 9	2057	427	120	483
Moyian, Bryan. (See Hadley and Moyian.)						
Mraray, John, et al. (See Salmon, Carl R., assignor.)						
Mueller, John S., assignor to Standard Elevator Interlock Company, Philadelphia, Pa. Locking mechanism for elevators	811,627	Jan. 30	5700	1193	120	1306
Muehlsiepen, Carl, Berlin, Germany, assignor to Mergenthaler Linotype Company. Typographic machine	812,585	Feb. 13	2157	472	120	2008
Muehlsiepen, Carl, Berlin, Germany, assignor to Mergenthaler Linotype Company. Linotype-machine	812,586	Feb. 13	2161	473	120	2008
Mueller, Philip, assignor to H. Mueller Manufacturing Company, Decatur, Ill. Basin-cock	809,720	Jan. 9	2346	466	120	530
Mueller, Philip, assignor to H. Mueller Manufacturing Company, Decatur, Ill. Basin-cock	810,168	Jan. 16	3133	648	120	769
Muff, Charles E., assignor of one-half to Ateliers de Constructions Mécaniques Cidevant Dollfus, Mieg & Cie., Mülhausen, Alsace, Germany. Driving mechanism for motor-vehicles	811,214	Jan. 30	5467	1144	120	1351
Mühlrad, Johann, Jasle, Austria-Hungary. Lubrication-pipe	812,252	Feb. 13	1957	371	120	1910
Mull, James H., Philadelphia, Pa., assignor to Chicago Pneumatic Tool Company, Chicago, Ill. Pipe-bending machine	811,516	Jan. 30	5545	1224	120	1425
Müller, Adolph, Berlin, Germany. Storage battery	813,730	Feb. 27	4405	971	120	2502
Müller, Gustav H., Kiel, and E. Jarck, Hamburg, Germany. Heat-non-conducting material	810,342	Jan. 16	3512	724	120	850
Müller, Herman, Astoria, and E. Zipprich, assignors to Budde & Westermann, New York, N. Y. Bottle-capping machine	812,088	Feb. 6	1069	233-4	120	1706
Mullins, Edward W. (See Brodeur, Francois X., assignor.)						
Mumford, John F., Fall River, Mass., assignor of one-half to F. F. Fanning, Providence, R. I. Lace-curtain-exhibiting apparatus	813,165	Feb. 20	3291	723-4	120	2293
Munroe, Frederick M., Brooklyn, N. Y. Mucilage-bottle	813,813	Feb. 27	4564	1009	120	2626
Munsing, George D., New York, N. Y. Vehicle-wheel	809,205	Jan. 2	1146	226	120	263
Munson, Hugh H., Truro, Iowa. Gearing for washing-machines	813,015	Feb. 20	2953	657	120	2225
Munson, James E. (See Burry, John, assignor.)						
Munson, Martin L., New York, N. Y. Folding phonographic horn	813,814	Feb. 27	4565	1009	120	2626
Münster, Karl, assignor to Becker & Kollsberger, Munich, Germany. Pictorial post-card	812,515	Feb. 13	2004	430	120	1975
Munter, Charles, New York, N. Y. Combination-corset	811,498	Jan. 30	5701	1194	120	1306
Munton, James. (See Hermanson, Gustaf A., assignor.)						
Münzel, Max, Brunswick, Germany. Automatic cut-off for explosive-engines	813,316	Feb. 20	3093	789-90	120	2355
Munzer, Francis G. (See Maddux, Joshua O., assignor.)						
Murchison, Neil, New York, N. Y. Attachment for boat-davits	812,089	Feb. 6	1071	234	120	1707
Murdock and Geb Company. (See Murdock, Thomas J., assignor.)						
Murdock, Horace B., Detroit, Mich. Cement-brick press	809,434	Jan. 9	2441	507-8	120	569
Murdock, Thomas J., assignor to Murdock and Geb Company, Franklin, Mass. Bobbin-holder	809,624	Jan. 9	2089	427	120	484
Murmans, John, Cleveland, Ohio. Aerating device for mattresses	813,731	Feb. 27	4406	971	120	2502
Murphy, Daniel R., Scenery Hill, Pa., assignor to J. A. Jeffrey, Columbus, Ohio. Mining-machine	809,206	Jan. 2	1147	226	120	263
Murphy, Frank, Lisbon, N. Y. Butter-press	812,439	Feb. 13	1888	409	120	1945
Murphy, Henry J., Courtney, N. D. Tobacco-moistening apparatus	809,576	Jan. 9	1954	408	120	493
Murphy, John P., Sacramento, Cal. Indicator	812,264	Feb. 13	1991	372	120	1911
Murphy, Joseph F., Ennis, Tex. Steam-engine	812,263	Feb. 13	1988	371	120	1910
Murphy, Thomas J., New York, N. Y. Electric-wave detector	811,644	Feb. 6	220	40	120	1535
Murray, Edward, Chicago, Ill. Railway-tie	810,870	Jan. 23	4892	964	120	1124
Murray, Eugene and W. B., Washington, D. C. Elevator-cage-door opener	810,160	Jan. 16	3124	648-9	120	770
Murray, George C., Washington, D. C. Car truck-bolster	809,836	Jan. 9	2080	427	120	484
Murray Iron Works Company. (See Salmon, Frederick W., assignor.)						
Murray, James H., Los Angeles, Cal. Floor-rack for stalls	812,217	Feb. 20	3295	790	120	2355
Murray, John, Edinburgh, Scotland. Gearing for bundling-presses	811,184	Jan. 30	5188	1085	120	1267
Murray, William B. (See Murray, Eugene and W. B.)						
Musick, Albert R. (See Forquer and Musick.)						
Myers and Brother, F. E. (See Myers, Philip A., assignor.)						
Myers, Gamaliel C. (See Rissler, Edward L., assignor.)						
Myers, Jacob A., St. Louis, Mo. Farm-gate	810,213	Jan. 16	3240	671	120	791
Myers, James W., assignor to Myers Manufacturing Company, Chicago, Ill. Combination machine-tool	813,088	Feb. 20	3073	673-4	120	2247
Myers Manufacturing Company. (See Myers, James W., assignor.)						
Myers, McClelland, Moosic, Pa. Glass-molding apparatus	809,980	Jan. 16	2723	560-1	120	668
Myers, McClelland, Moosic, assignor of one-half to J. P. Elkins, Indiana, Pa. Glass-manufacturing apparatus	810,275	Jan. 16	3483	727	120	888
Myers, Philip A., assignor to F. E. Myers and Brother, Ashland, Ohio. Pump	809,389	Jan. 9	1978	223	120	263
Myers, Philip A., assignor to F. E. Myers and Brother, Ashland, Ohio. Hay-carrier	810,486	Jan. 23	3679	706-7	120	959
Myers, William F., Breton Bow, Nebr., assignor of one-half to C. H. Lilleare. Wire stretcher and stringer	809,721	Jan. 9	2347	466	120	530
Nacke, Arnold, assignor of one-half to I. Kitzes, Philadelphia, Pa. Platform for power-motors	813,444	Feb. 27	3836	845	120	2470
Nagel, Theodore, assignor of one-half to L. H. Collins, Chicago, Ill. Test-clamp	813,287	Feb. 13	1899	346	120	1955
Nagy, Ignaz. (See Watzke, Eduard, assignor.)						
Nalezak, William H., Bellaire, N. Y. Brake-shoe	809,627	Jan. 9	2063	426	120	485
Nash, George. (See Brayshaw, Shipley N., assignor.)						
Nason, William A. (See Goodson and Nason.)						
National Cash Register Company. (See Bockhoff, William F., assignor.)						
National Coal Dump Car Company. (See Caswell, William A., assignor.) (Reissue.)						
National Coal Dump Car Company. (See Hubbard and Taylor, assignors.)						
National Coal Dump Car Company. (See Otis, Spencer, assignor.)						
National Electric Lamp Company. (See Blackburn, Frank H., assignor.)						
National Electric Lamp Company. (See Doane, Samuel E., assignor.)						
National Glass Company. (See Furnas, William I., assignor.)						
National Jewelry Machinery Co. (See Dillon, James A., assignor.)						
National Magnetic Mineral Separating Company. (See Campbell, Henry F., assignor.)						
National Portable Cottage Company. (See Kraus, William G., assignor.)						
National Stamping Company. (See King, Tom C., assignor.)						
National Surety Bank. (See Marston and Holden, assignors.)						
National Tube Company. (See Reese, George, assignor.)						
National Tube Company. (See Riggs, David, assignor.)						
National Tube Company. (See Patterson, Peter C., assignor.)						
National Tube Co. (See Stead, Ralph G., assignor.)						
National Tube & Fuel Company. (See Homestead, Peter J., assignor.)						
Naue, Louis W., Muskegon, Mich. Spool-holder	812,670	Feb. 13	2310	503	120	2034

Nordyke & Marmon Company. (See Marmon, Howard C., assignor.)						
Nordyke & Marmon Company. (See Warrington, Jesse, assignor.)						
Norling, Reinhold A., assignor to Aurora Automatic Machinery Company, Aurora, Ill. Pneumatic hammer	813,100	Feb. 20	3174	604–5	120	2269
Norling, Reinhold A., assignor to Aurora Automatic Machinery Company, Aurora, Ill. Throttle-valve	813,110	Feb. 20	3180	605	120	2270
Normand, Joseph M., assignor to Ridgely Trimmer Company, Springfield, Ohio. Trestle.	809,729	Jan. 9	2280	499	120	530
Northington, Henry E., West Bay City, Mich. Stamp	811,940	Feb. 6	328	152	120	1656
Norris, Almon E., Cambridge, Mass. Hoisting and conveying apparatus	813,663	Feb. 27	4284	943	120	2595
Norris, Frank B., Holmes, Mont. Suspenders	811,051	Jan. 30	5010	1047	120	1249
North, Frederick H., Detroit, Mich. Button-guard for collars	809,730	Jan. 9	2282	499	120	530
Norris, George E., Detroit, Mich. Collar	810,076	Jan. 16	2958	617	120	735
Norstrand, Hans C. G., Chicago, Ill. Lock-seam pipe	812,298	Feb. 13	1563	347	120	1887
North, Arthur W., administrator. (See Wilde, Samuel.)						
North, Edward, *et al.* (See Jones, Frederick W., assignor.)						
North, Joseph, Lancaster, Ohio. Glass-working machine	810,218	Jan. 16	3247	673	120	792
North & Judd Manufacturing Company. (See Anderson, John S., assignor.)						
North & Judd Manufacturing Company. (See Wightman, Elbridge M., assignor.)						
North, Thomas M., assignor to Linotype and Machinery Limited, London, England. Trimming mechanism for stereotype-casting machines	809,524	Jan. 9	1853	385	120	441
Northrop, Jonas, assignor to Draper Company, Hopedale, Mass. Shuttle-clearing means for filling-replenishing looms	812,516	Feb. 13	2005	440	120	1975
Norton Electrical Manufacturing Company. (See Norton, Frederick G., assignor.)						
Norton, Frederick G., Chicago, Ill., assignor to Norton Electrical Manufacturing Company. Machine for pressing clothing	811,241	Jan. 30	5347	1117	120	1321
Norton, Martin H., Newport, Vt. Knife-holder for veneer-lathes	812,078	Feb. 6	1091	239	120	1711
Noures, William G. (See Bates, Douglass, and Noures.)						
Nowak, Ottokar H., assignor of one-half to E. Smith, Chicago, Ill. Waterproof compound	809,731	Jan. 9	2283	.....	120	530
Noxon, Charles P. L., Syracuse, N. Y. Spark-coil	811,656	Feb. 6	238	51–2	120	1537
Noyes, Frank G. (See Smith, Willard C., assignor.)						
Nuessen, Gerhart J., Andale, Kans. Hammock-support	811,166	Jan. 30	5199	1086	120	1288
Numsmaker, Albert, Cleveland, Ohio. Motor-vehicle	809,826	Jan. 9	1854	385	120	441
Nungesser Electric Battery Co. (See Nungesser, Philip P., assignor.)						
Nungesser, Philip P., assignor to Nungesser Electric Battery Co., Cleveland, Ohio. Machine for filling dry batteries	809,828	Jan. 9	1855	385–6	120	441
Nutting, Charles E., assignor to Draper Company, Hopedale, Mass. Loom-shuttle	811,242	Jan. 30	5350	1117	120	1321
Nyce, Burnham K. (See Sherwood, Matthew M., assignor.)						
Nye, Anselm T., Marietta, Ohio. Heating-stove	812,079	Feb. 6	1093	239–40	120	1711
Nye, John R., Waterville, Me. Cooking utensil	809,139	Jan. 2	1009	208	120	222
Nye, William E. (See McMullen, Charles P., assignor.)						
O. K. Tool Holder Company. (See Robinson, Pearl H., assignor.)						
O'Brien, Arthur, Chicago, Ill. Flexible pipe	809,977	Jan. 16	2736	563	120	667
O'Brien, John D., Boston, Mass. Hose-supporter	810,077	Jan. 16	2959	617	120	735
O'Brien, Thomas E., Chicago, Ill. Couch-display truck	811,657	Feb. 6	240	52	120	1537
O'Brien, Vincent J., *et al.* (See Hughes, Edwin T., assignor.)						
O'Brien, William F., Salem, Mass. Railway-switch	811,319	Jan. 30	5498	1146	120	1353
O'Bryan, Joseph B., Jr., and O. H. Rudolph, Nashville, Tenn. Machine for measuring and cutting off lengths of fabric	812,672	Feb. 13	2316	504	120	2085
O'Callaghan, Thomas A. (See Fedden, John H., assignor.)						
O'Connor, James, New York, N. Y. Mechanical piano-player	811,062	Jan. 30	5011	1047	120	1249
O'Connor, John F., assignor to W. H. Miner Company, Chicago, Ill. Tandem-spring draft-rigging for railway-cars	812,867	Feb. 20	2693	594	120	2162
O'Connor, John F., assignor to W. H. Miner Company, Chicago, Ill. Draft appliance for railway-cars	812,868	Feb. 20	2697	594–5	120	2163
O'Connor, Malachi, Oswego, N. Y. Latching mechanism for excavator-dippers	809,209	Jan. 2	1156	240	120	254
O'Connor, Peter M., St. Louis, Mo. Folding view-holder	811,658	Feb. 6	242	52	120	1538
O'Donnell, John H., assignor to Waterbury Wire Die Company, Waterbury, Conn. Diamond-drill	810,503	Jan. 23	3380	709	120	971
O'Donnell, John H., assignor to Waterbury Wire Die Company, Waterbury, Conn. Diamond-drill and burnishing-lathe	810,504	Jan. 23	3381	709	120	972
O'Donnell, Michael H., Detroit, Mich. Manhole cover and frame	810,960	Jan. 30	4819	1002	120	1207
O'Hare, Anna, and C. B. Weston, Brooklyn, N. Y. Heater	812,860	Feb. 20	2690	595	120	2164
O'Hare, John, *et al.* (See McCord, Joseph C., assignor.)						
O'Harra, James G. (See La Dehn and O'Harra.)						
O'Neill, Kitty I. (See Paxton and O'Neill.)						
O'Neill, William R., Findlay, Ohio. Extensible pitman-rod	810,798	Jan. 23	4453	924	120	1094
O'Reilly, Anthony J., assignor to Crompton-Thayer Loom Company, Worcester, Mass. Crank-shaft support for looms	809,392	Jan. 9	1800	334	120	385
O'Riley, Peter, assignor of one-half to N. A. Perkins, Grand Rapids, Mich. Folding box.	811,659	Feb. 6	243	52	120	1538
O'Shea, Jeremiah. (See O'Shea, John J. and J.)						
O'Shea, John J. and J., Chicago, Ill. Furnace	811,897	Feb. 6	632	126	120	1619
Oakman, Richard N., New York, N. Y. Apparatus for lighting and extinguishing gas	813,576	Feb. 27	4123	908	120	2532
Oakman, Richard N., New York, N. Y. Apparatus for controlling gas-conduits	813,577	Feb. 27	4124	904	120	2532
Oakstrand, Bertin. (See Wood and Oakstrand.)						
Oakville Company. (See Middlebrook, William D., assignor.)						
Oates, George P. (See Packham and Oates.)						
Oberr, Bryan, assignor to Montague Compressed Air Company of Missouri, St. Louis, Mo. Valve-operating means for hydraulic pumps	812,444	Feb. 13	1869	411–12	120	1946
Oberhardt, Franz, Fuerth, Germany. Rail-joint and the like	812,080	Feb. 6	1095	240	120	1712
Ober, Julius E., Schenectady, N. Y., assignor to General Electric Company. Electric furnace	812,801	Feb. 13	2554	562	120	2066
Ober, Reuben H., Garrettsville, Ohio. Filing box or drawer	809,976	Jan. 16	2726	563	120	666
Oberlin, August W., Weymouth, Pa. Culinary vessel	813,280	Feb. 13	2168	474	120	2008
Obi, Lewis B. (See Jordan, Mahoney, Carlisle, and Obi.)						
Oehmichen, Jean L. (See Lemale & Oehmichen.)	808,886	Jan. 2	988	192	120	108
Oehmichen, Jean L., assignor to Lemale & Oehmichen. (See Oehmichen.)						
Oesterly, Henry W., assignor of one-half to E. T. Brown, Elwood City, Pa. Razor	813,282	Feb. 20	3419	753	120	2318
Oesper, Daniel J., Cincinnati, Ohio. Pyrotechnic carbonaceous pigments	813,911	Feb. 27	4776	.....	120	2672
Ofer, Elmer L., assignor to Pure Electric Manufacturing Company, Peru, Ind. Electric	809,978	Jan. 16	2730	564	120	667
Ogle Manufacturing Company. (See Kramer, Moses W., assignor.)						
Ohmer Fare Register Co. (See Ohmer, John F., assignor.)						
Ohmer, John F., Dayton, Ohio, assignor to Ohmer Fare Register Co., Rochester, N. Y. Fare-recorder	812,017	Feb. 20	2668	468	120	2226

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drgs.	Official Gazette. Vol.	Official Gazette. Pages.
Oil Well Supply Company. (See Panton, Chester W., assignor.)						
Olum, Thomas N., Lisbon, N. D. Potato-digger	812,673	Feb. 13	2318	504–5	120	2086
Okun, Moses S., New York, N. Y. Rotary engine and motor	813,018	Feb. 20	2690	589	120	2227
Old Hickory Chair Company. (See Staley, Harrison L., assignor.)						
Olds, Gorham L. (See Payne, John W., assignor.)						
Oldorf, Moses, New York, N. Y. Crown-protector for hats	812,019	Feb. 20	2694	589	120	2228
Oliver, Frank D., *et al.* (See Howarth and McKinley, assignors.)						
Oliver, Frederick M., Pendleton, Oreg. Apparatus for use in hospitals, sick-rooms, and like places	812,358	Feb. 13	1606	372	120	1912
Oliver, John S., and G. J. Thomas, Baltimore, Md. Combination-rack	812,081	Feb. 6	1096	240	120	1712
Oliver Typewriter Company. (See Poole, Charles C., assignor.)						
Oliver, William F., Oakland, Cal. Wicket	812,948	Feb. 20	2856	620	120	2200
Olsen, Gustave A., Providence, R. I. Attachment for faucets	812,062	Feb. 6	1093	241	120	1713
Olmsted, Leverett H., Hackensack, N. J. Grinding apparatus	813,167	Feb. 20	3294	734	120	2283
Olsen, Halvor M., assignor to American Electric Telephone Company, Chicago, Ill. Annunciator	811,063	Jan. 30	5013	1047	120	1249
Olsen, Ole M. J., and W. Gates, Parramatta, New South Wales, Australia. Regulator for gas-lamps	811,064	Jan. 30	5016	1048	120	1250
Olson, Andrew P. (See Simm and Olson.)						
Omalia, Mathew, assignor of three-fifths to Casey Bros., Scranton, Pa. Nut-lock	812,591	Feb. 13	2170	475	120	2008
Onderdonk, Lansing, New York, N. Y., assignor to Union Special Sewing Machine Company, Chicago, Ill. Seam for sewed articles	811,789	Feb. 6	484	104–5	120	1589
Onderdonk, Lansing, New York, N. Y., assignor to Union Special Sewing Machine Company, Chicago, Ill. Seam for sewed articles	811,790	Feb. 6	484	105	120	1589
Ontario Fruit Package Company. (See Little, Henry O., assignor.)						
Oran, William L., Kingston, Tenn. Harrow	811,575	Feb. 6	82	16	120	1503
Ordish, Francis W. (See Broadhead and Ordish.)						
Ordnance Improvement Company. (See Gerdom, Gregory, assignor.)						
Orewiler, Benjamin F., Chicago, Ill. Garment-supporter	809,210	Jan. 2	1158	240	120	255
Ornstein, Max. (See Wetzler and Ornstein.)						
Orr, Francis L., Thurman, assignor of one-half to M. Morrow, Percival, Iowa. Starting means for gas or similar engines	809,211	Jan. 2	1161	240	120	256
Orr, Robert. (See Kent and Orr.)						
Ortell, Bertha, Newark, N. J. Garment-supporter	810,505	Jan. 23	3393	709–809	120	972
Orywall, Paul, Paderborn, Germany. Reservoir-pen	809,319	Jan. 9	1432	280	120	349
Osborne, Vivian, assignor of two-thirds to J. J. and S. F. Connolly, London, England. Measuring instrument	812,674	Feb. 13	2319	505	120	2086
Osbourn, Millard P. (See Schofield and Osbourn.)						
Oscanyan, Paul C., Newark, N. J., assignor of one-half to Adams Bagnall Electric Company, Cleveland, Ohio, and G. A. Thomson, Somerville, N. J. Elastic-fluid turbine	810,667	Jan. 23	4203	869	120	1089
Osel, Kistel, St. Paul, Minn. Sliding hinged grain-door	810,557	Jan. 23	3998	822–4	120	994
Osgood, Ernest J., Oakland, Cal. Inkstand	811,430	Jan. 30	5705	1194	120	1309
Osgood, Frederick M., Manchester, N. H. Non-refillable bottle	809,212	Jan. 2	1164	241	120	256
Osgood, Frederick M., Manchester, N. H. Means for sealing bottles	809,213	Jan. 2	1166	241	120	256
Osmondson, Osmond A., Richmond, Va. Bill file and cabinet	809,006	Jan. 2	760	164–5	120	167
Oster, Herman W., assignor to Oster Manufacturing Company, Cleveland, Ohio. Machine for cutting dies for die-stocks	809,007	Jan. 2	764	165	120	168
Oster, Herman W., assignor to Oster Manufacturing Company, Cleveland, Ohio. Die-stock	812,870	Feb. 20	2700	595	120	2164
Oster Manufacturing Company. (See Oster, Herman W., assignor.)						
Osterhout, Garret B., New York, N. Y. Single-trigger mechanism for guns	813,513	Feb. 27	3995	876	120	2502
Ostrander, Alfred I., Yonkers, N. Y. Multiple-expansion rotary engine	812,819	Feb. 27	4572	1011	120	2638
Ostrander, Allen E., Paterson, N. J., assignor to American Car & Foundry Company, St. Louis, Mo. Cross-bearer	809,732	Jan. 9	2265	469–70	120	530
Ostrander, Allen E., Paterson, N. J., assignor to American Car & Foundry Company, St. Louis, Mo. Cross-bearer	809,733	Jan. 9	2266	470	120	530
Ostrander, Allen E., Paterson, N. J., assignor to American Car & Foundry Company, St. Louis, Mo. Cross-bearer	809,734	Jan. 9	2268	470	120	531
Ostrander, Allen E., Paterson, N. J., assignor to American Car & Foundry Company, St. Louis, Mo. Cross-bearer	809,735	Jan. 9	2270	470	120	532
Ostrander, Allen E., Paterson, N. J., assignor to American Car & Foundry Company, St. Louis, Mo. Bolster	809,736	Jan. 9	2272	471	120	532
Ostrander, Allen E., Paterson, N. J., assignor to American Car & Foundry Company, St. Louis, Mo. Car-seat	810,558	Jan. 23	4000	824	120	994
Ostrander, James, Indianapolis, Ind. Packing	808,778	Jan. 2	312	67	120	70
Oswald, Simon P. (See Ferguson and Oswald.)						
Otis Elevator Company. (See Bollman, George W., assignor.)						
Otis Elevator Company. (See Furlow, Floyd C., assignor.)						
Otis, Spencer, Chicago, Ill. Dump-car	813,733	Feb. 27	4409	972–3	120	2592
Otis, Spencer, Chicago, Ill., assignor to National Coal Dump Car Company, Rapid City, S. D. Dump-car	812,359	Feb. 13	1608	373	120	1912
Ott, Florian. (See Thole and Ott.)						
Ott, John F., assignor to New Jersey Patent Company, Orange, N. J. Apparatus for applying pigment to engraved ends of phonograph-records	813,514	Feb. 27	3997	876–7	120	2503
Ottaway, William, assignor to Aurora Automatic Machinery Company, Aurora, Ill. Sparking plug	809,578	Jan. 9	1957	407	120	462
Otto, Henry A. (See Soper and Otto.)						
Outcalt, David D. A. (See Heinrich, Heinrich, assignor.)						
Overholt, Edward H. (See Wesenhaver and Overholt.)						
Overton, Richard J. (See Dreer, Henry J., assignor.)						
Owen, Oscar L., and J. F. Harding, assignors to Whitin Machine Works, Whitinsville, Mass. Thread-guide mechanism for spinning or twisting machines	810,668	Jan. 23	4205	870	120	1089
Owens, Allan L., Atchison, Kans. Washing-machine	810,427	Jan. 23	3728	768	120	952
Owosso Manufacturing Company. (See Brown, Edward T., assignor.)						
Ozias, Orange O., assignor to Computing Scale Company, Dayton, Ohio. Price-scale	812,289	Feb. 13	1585	347	120	1889
P. & P. Corbin. (See Henry, William E., assignor.)						
Paarmann, Hans J., assignor to H. F. Brammer Manufacturing Company, Davenport, Iowa. Mechanical movement	811,888	Feb. 6	634	126	120	1620
Pace, William T., Iron City, Ga. Tie liner and spacer	809,888	Jan. 2	768	165	120	169
Pacific Electric Heating Company. (See Richardson, Karl H., assignor.)						
Packard, Edwin D., *et al.* (See Stamp, Orson L., assignor.)						
Packard, Sumner T., Hamilton, Mass. Head for jack-spools, warp-beams, or the like	810,806	Jan. 23	3986	899	120	978
Packer, James W., Glens Falls, N. Y., assignor to Sandy Hill Iron and Brass Works. Paper-machine	812,820	Feb. 27	4570	1011–12	120	2639
Packham, Frank R., and G. F. Oates, Springfield, Ohio, assignors to American Sheeting Machine Company, Jersey City, N. J. Speed device for sheeting-machines	812,734	Feb. 27	4413	972	120	2593

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drg's.	Official Gazette. Vol.	Official Gazette. Page.
Paddock, Milan L., Lyons, N. Y. Protector for backs and chests	811,167	Jan. 30	5200	1087	120	1289
Padmore, Arthur M., Lead, S. D. Combined davenport and bed	813,233	Feb. 20	3419	753–4	120	2319
Page, Joseph W., Charlotte, N. C. Measuring device	810,790	Jan. 23	4455	924	120	1094
Paget, Arthur. (See Bottomley, Hutton, and Paget.)						
Paindavoine-Dufour, Pierre A. (See Paindavoine and Paindavoine-Dufour.)						
Paindavoine, Pierre H. J., and P. A. Paindavoine-Dufour, Les Fontanettes à la Chapelle aux Pots, France. Balanced suction and force pump	813,821	Feb. 27	4581	1013	120	2630
Paine, William H., Louisville, Ky. Time stock-feeder	811,431	Jan. 30	5706	1195	120	1396
Painter, Frank C., Osman, Ill. Rail-support	809,214	Jan. 2	1167	241	120	267
Painter, John L., Bellevue, Ohio. Bolt-clipper and punch	812,225	Feb. 13	1444	315	120	1855
Paiste, Henry T., Philadelphia, Pa. Fuse-plug	809,827	Jan. 9	3452	509	120	572
Pallady, Hubert E., Sebastopol, Cal. Window-screen frame	813,234	Feb. 20	3421	754	120	2319
Pallweber, Joseph, Mannheim, Germany. Adding-machine	813,578	Feb. 27	4126	904	120	2532
Palm, John V. O., assignor to American Compressed Air Supplying Company, Milwaukee, Wis. Dust-collector	810,559	Jan. 23	4001	824	120	995
Palmer, Andrew C., Washington, Ind. Harrow	810,800	Jan. 23	4455	925	120	1094
Palmer, John S., Chicago, Ill. Carrier-cover for pneumatic store-service	810,970	Jan. 30	4820	1002	120	1207
Palmer, Lyndon C., Buffalo, N. Y. Machine for stripping blanks for paper boxes	810,971	Jan. 30	4821	1002–3	120	1207
Palmer, Wilford E. (See Anderson and Palmer.)						
Palmer, William, Jr., Rincon, N. Mex. Ter. Selective call for telephones and telegraphs	810,878	Jan. 23	4598	957–8	120	1125
Palmer, William H. (See Hackmann and Palmer.)						
Palmros, Alexander, assignor to J. A. Jeffrey, Columbus, Ohio. Trolley-supporting device	813,515	Feb. 27	3999	877	120	2504
Pankow, Theodore, Sioux Falls, S. D. Bottle-labeling machine	811,576	Feb. 6	83	17	120	1503
Panoulias, Panayiotis, New York, N. Y. Dipping-frame for coating candies	809,737	Jan. 9	2273	471	120	533
Pape, Hermann G., New York, N. Y. Multipolar electromagnet	812,445	Feb. 13	1872	412	120	1947
Papenfoth, Paul. (See Parker and Papenfoth.)						
Papenfoth Paul, assignor to Russell & Erwin Manufacturing Company, New Britain, Conn. Lock and latch	812,871	Feb. 20	2702	595	120	2164
Paquette, John B., assignor to Landers, Frary & Clark, New Britain, Conn. Spring-scale	813,735	Feb. 27	4414	973	120	2593
Paradice, Frank H., Denver, Colo. System for sprinkling lawns, gardens, greenhouses, parks, &c	810,972	Jan. 30	4824	1003	120	1208
Paradis, Victor H., and J. B. Putrow, Rice Lake, Wis. Cigar-clipper and match-safe	810,801	Jan. 23	4457	925	120	1094
Paragou Photo-Chemical Company. (See Jarman, Alfred J., assignor.)						
Pardee, John E., Rydal, Kans. Device for counterbalancing tongues	811,168	Jan. 30	5201	1087	120	1289
Pardridge, William E., *et al.* (See Hubbard, Frederick J., assignor.)						
Parfitt, Alfred, Topeka, Kans. Steam-boiler	810,078	Jan. 16	2961	617–18	120	736
Parfitt, Arthur W., New London, assignor of one-half to A. G. Westphal, Hortonia, Wis. Wrench	809,838	Jan. 9	2454	510	120	572
Parish, Le Grand. (See Fildes, Rollin D., assignor.)						
Park, Kennedy, Mansfield, Ohio. Apparatus for forming serpentine hollow bodies	808,943	Jan. 2	633	138	120	139
Parker, Charles I., and P. Papenfoth, assignors to Russell & Erwin Manufacturing Company, New Britain, Conn. Door-check	813,111	Feb. 20	3182	696	120	2271
Parker-Clark Electric Company. (See Parker, Herschel C., assignor.)						
Parker, Herschel C., New York, N. Y., assignor to Parker-Clark Electric Company, Jersey City, N. J. Incandescent electric lamp	812,872	Feb. 20	2703	596	120	2164
Parker, Howard, Nashua, N. H., assignor to Improved Paper Machinery Company, Castine, Me., and Nashua, N. H. Pulp-treating machine	811,660	Feb. 6	244	53–4	120	1538
Parker, James. (See Conover, Warren H., assignor.)						
Parker, John E. (See Goss and Parker.)						
Parker, William H. (See Falk and Parker.)						
Parker, William H., Royaloak, Mich. Dust-allayer for automobiles	809,738	Jan. 9	2277	471	120	533
Parkerson, Richard K., Ealing, New Zealand. Water-motor	810,807	Jan. 23	3896	800	120	973
Parkes, Frank, Birmingham, England. Spade and similar handle	812,675	Feb. 13	2321	505–6	120	2036
Parkes, Helen W., and S. L. Vincent, Cleveland, Ohio. Electric railway-signal	810,560	Jan. 23	4004	825	120	995
Parkhurst, Lemuel W., Twana, Wash. Saw gage and jointer	810,802	Jan. 23	4459	925	120	1095
Parks, Thomas W., assignor of one-half to W. B. Chenoweth, Alexandria, Ind. Auxiliary vehicle-seat	812,360	Feb. 13	1701	373–4	120	1913
Parlin & Orendorff Company. (See Graham, William S., assignor.)						
Parmelee, Charles L., Orange, N. J., and E. G. Williams, Washington, D. C. Tunnel-shield	810,428	Jan. 23	3729	769	120	932
Parmelee, Hubert S. (See Fanober and Parmelee.)						
Parrish, Frances E., deceased, New York, N. Y.; S. M. P. Holmes, administratrix. Educational apparatus	811,169	Jan. 30	5202	1087	120	1289
Parsons, Henry E., New York, N. Y. Locomotive ash-pit and blower	809,215	Jan. 2	1168	241–2	120	267
Parsons, Arthur. (See Carter, Hall, and Parsons.)						
Parsons, Charles A. (See Barker, John H., assignor.)						
Parsons, Charles E., Glens Falls, N. Y. Cushion device for gates of water-wheel casings	810,808	Jan. 23	4460	926	120	1095
Parsons, Charles L., Durham, N. H. Gas-generator	811,737	Feb. 6	377	82	120	1569
Parsons, Frederick W., Cleveland, Ohio. Collar	809,009	Jan. 2	767	166	120	169
Parsons, Henry, Marlboro, Mass. Beam-presser	812,260	Feb. 13	1586	347	120	1898
Parsons, James L., Jr., Washington, D. C. Combined derrick and concrete-mixer	811,243	Jan. 30	5351	1117	120	1322
Parsons, Louis R., Stronghurst, Ill. Railway-switch	811,738	Feb. 6	379	83	120	1569
Parsons, William P., Beverly, Mass. Work-rest for lathes	808,676	Jan. 2	103	28	120	25
Partridge, Allen R., San Francisco, Cal., assignor, by mesne assignments, to Vencedora Mine Equipment Company. Smelting-furnace	812,083	Feb. 6	1100	241	120	1713
Pass & Seymour. (See Seymour, Albert P., assignor.)						
Pastore, Ernesto, New Haven, Conn. Combined tweezers, needle, and eye-curette	809,579	Jan. 9	1959	407	120	463
Patch, Frederick H., Richmond, Va. Adhesive and making same	809,739	Jan. 9	2279	.....	120	534
Pattenden, Alexander and A. B., Buffalo, N. Y. Disinfecting device for sink-drains	810,973	Jan. 30	4826	1003	120	1208
Pattenden, Annie B. (See Pattenden, Alexander and A. B.)						
Patterson, Charles C., *et al.* (See Desmond, John W., assignor.)						
Patterson, James L., assignor to Union Special Sewing Machine Company, Chicago, Ill. Seam for sewed articles	812,902	Feb. 13	2556	562	120	2036
Patterson, Oliver Q. (See Evans and Patterson.)						
Patterson, Peter C., McKeesport, assignor to National Tube Company, Pittsburg, Pa. Device for operating mandrel-bars	813,226	Feb. 13	1446	315–16	120	1855
Patterson, Thomas C., New York, N. Y. Lathe-dog	813,445	Feb. 27	3856	845	120	2471
Patterson, Thomas S., New York, N. Y. Lubricator for crank and similar shafts	808,749	Jan. 9	2370	472	120	534
Patterson, William J., and L. J. Robb, assignors to Hoyt & Patterson, Pittsburg, Pa. Dust-collecting hood	812,694	Feb. 6	1101	243–3	120	1713
Patterson, William C., Salt Lake City, Utah. Lubricator	809,388	Jan. 9	1601	334	120	385
Patton, Charles B. (See Lindberg, Ephraim O., assignor.) (Reissue.)						
Patton, John J. (See Chambers, James A., assignor.)						
Paul, Irving C., assignor, by mesne assignments, to Paul Pattern Company, Cincinnati, Ohio. Card game	812,476	Feb. 13	2322	508	120	2036

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drg's.	Official Gazette. Vol.	Official Gazette. Page.
Paul, John T. H., assignor to E. Goldman & Company, Chicago, Ill. Filter	812,517	Feb. 13	2009	440–1	120	1976
Paul Pattern Company. (See Paul, Irving C., assignor.)						
Paul, William L., assignor to David Bradley Manufacturing Company, Bradley, Ill. Coupling for agricultural implements, &c	808,677	Jan. 2	104	24	120	26
Paulson, Knut, Manistique, Mich. Fish-net-lifting machine	812,577	Feb. 13	2223	506–7	120	2036
Paxson, Wallace T., assignor to J. B. Maxwell, Washington, D. C. Smoke-consuming furnace	809,458	Jan. 9	1731	357	120	414
Paxton, John B., and E. I. O'Neill, Philadelphia, Pa. Circular-knitting machine	811,577	Feb. 6	84	17–18	120	1504
Payette, William J., Centralia, Wash. Plow attachment	812,085	Feb. 6	1104	243	120	1714
Payne, Charles H., Milligan, Tenn. Cabinet-index	809,741	Jan. 9	2280	472	120	534
Payne, Darius W., Minneapolis, Minn. Pasteurizer or cooler	811,170	Jan. 30	5204	1088	120	1289
Payne, Fred S., Boston, Mass. Safety device for elevators	809,220	Jan. 9	1433	290	120	349
Payne, George E. (See Hinds and Payne.)						
Payne, John W., assignor of one-third to G. L. Olds, Alexandria Bay, N. Y. Steam-generator	809,320	Jan. 9	2456	510	120	573
Payne, Reginald H., Aylesbury, England. Bridge for stringed musical instruments	809,459	Jan. 9	1733	358	120	414
Peabody, George L., Pittsburg, Pa. Reinforcing device for concrete construction	810,561	Jan. 23	4006	825	120	996
Peake, Albert E., Everett, Wash. Means for displaying pictures and the like	811,432	Jan. 30	5707	1195	120	1396
Peake, Harry G., and J. Henderson, assignors to W. P. Hammon, Oroville, Cal. Dredge-bucket coupling	812,518	Feb. 13	2011	441	120	1977
Pearce, Charles F., assignor to F. Pearce, New York, N. Y. Dial-transmitter	811,950	Feb. 6	828	182–4	120	1658
Pearce, Frederick. (See Pearce, Charles F., assignor.)						
Pearce, Joshua, Pickering, La. Harvester-reel	809,216	Jan. 2	1170	242	120	267
Pearl Manufacturing Company. (See Dietz, Ernest, assignor.)						
Pearsall Pneumatic Tube and Power Company. (See Batcheller, Birney C., assignor.)						
Pearson Fire Alarm. (See McNeil, Alfred H., assignor.)						
Pearson, Thomas S., Clay township, and G. B. Lindsay, Center township, Howard county, Ind. Straw-stack shaper	812,446	Feb. 13	1874	412	120	1948
Pease, Sumner. (See Turner, Pease, and Martin.)						
Pechiney, Alfred R., Salindres, assignor to Compagnie des Produits Chimiques d'Alais et de la Camargue, Lyon, France. Calcination of hydrated alumina	811,433	Jan. 30	5708	.....	120	1397
Peck, Daniel C. (See Boyer and Peck.)						
Peck, Stow & Wilcox Company. (See Ellrich, Robert C., assignor.)						
Peck, Walter H., *et al.* (See Finch, George F., assignor.)						
Pedersen, Adolph, assignor to Van Dorn-Elliott Electric Co., Cleveland, Ohio. Electrically-operated portable drill	809,394	Jan. 9	1602	325	120	386
Pedersen, Adolph, assignor to Van Dorn-Elliott Electric Company, Cleveland, Ohio. Motor-controller	809,460	Jan. 9	1734	358	120	414
Pedersen, Christian, assignor to Landis Machine Company, St. Louis, Mo. Sewing-machine	811,578	Feb. 6	90	18–19	120	1505
Pedersen, Christian, assignor to Landis Machine Company, St. Louis, Mo. Loop-spreader for sewing-machines	811,579	Feb. 6	92	19	120	1505
Pedersen, Christian, assignor to Landis Machine Company, St. Louis, Mo. Needle-guide for sewing-machines	811,580	Feb. 6	93	20	120	1505
Pedersen, Christian, assignor to Landis Machine Company, St. Louis, Mo. Heating device for sewing-machines	811,581	Feb. 6	94	20	120	1505
Pedersen, Christian, assignor to Landis Machine Company, St. Louis, Mo. Mechanism for adjusting the lengths of stitches in sewing-machines	811,582	Feb. 6	95	20–1	120	1506
Pedersen, Christian, assignor to Landis Machine Company, St. Louis, Mo. Thread-measurer for sewing-machines	811,583	Feb. 6	97	21–2	120	1506
Pedersen, Christian, assignor to Landis Machine Company, St. Louis, Mo. Thread-laying device	813,822	Feb. 27	4583	1013–14	120	2630
Pederson, Lars. (See Anderson and Pederson.)						
Pederson, Lars P., Westbrook, Minn. Cylinder-tooth	813,679	Feb. 27	4126	904	120	2532
Pedley, W. E., administrator. (See Praed, Humphrey M.)						
Pee Dee Iron Works. (See Smith, John D., assignor.)						
Peerless Machinery Company. (See Glass, Perley R., assignor.)						
Peirson, Ernest V. (See Randall and Peirson.)						
Peisker, Frederick S. C., San Saba, Tex. Shovel	809,840	Jan. 9	2458	510	120	573
Pelabrixim, Curt von, and J. Thümmel, Ehrang, Germany. Process and press for pressing pulverous material	808,776	Jan. 2	313	68	120	70
Pelfrey, David W., and W. S. Biddle, Haleyville, Ala. Grade-level	811,730	Feb. 6	381	83	120	1570
Pellerin, Joseph, Cordova, Alaska. Safety-envelop	810,804	Jan. 23	4462	927	120	1096
Pelton Water Wheel Company. (See Henry, George J., Jr., assignor.)						
Pemberton, Samuel, and J. F. Deadmarsh, Sault Ste. Marie, Mich. Marine boat	811,171	Jan. 30	5206	1088–9	120	1290
Pence, Alonzo H., Somerville, Ala. Saw-set	812,086	Feb. 6	1105	243	120	1714
Pendleton, Gurdon, Groton, assignor to Thomas Motor Company, New London, Conn. Explosive-engine	813,736	Feb. 27	4415	973	120	2594
Penewitt, Alexander H. (See Samuell, Charles A., assignor.)						
Pennepacker, Clara W., administratrix. (See Pennepacker and Lacon.)						
Pennepacker, George M., deceased, (C. W. Pennepacker, administratrix,) and C. S. Lacon, Philadelphia, Pa. Auxiliary car-coupling	811,434	Jan. 30	5710	1195	120	1397
Penrose, William T., Spokane, Wash. Automobile	813,056	Feb. 20	3080	675	120	2248
Pequegnat, Edward L. (See Miller, George E., assignor.)						
Perdue, James M., Matthews, Ga. Telegraph or telephone pole	811,435	Jan. 30	5711	1195	120	1397
Perkins, Elmer E., Melrose, Mass. Drying-kiln	810,974	Jan. 30	4826	1004	120	1209
Perkins, Franklin J., Woburn, assignor, by mesne assignments, to Turner Tanning Machinery Company, Boston, Mass. Leather-working machine	809,010	Jan. 2	766	166	120	169
Perkins, Norman A. (See O'Riley, Peter, assignor.)						
Perlstein, Joseph. (See Webstein and Perlstein.)						
Perzner, William L., Rochester, assignor to National Glass Company, Pittsburg, Pa. Glass-press	811,220	Jan. 30	5409	1146–7	120	1354
Perry, Benjamin F., assignor of one-half to C. B. Davis, Todds Point township, Shelby county, Ill. Water-sweep	810,879	Jan. 23	4462	926	120	1125
Perry, David P., Chicago, Ill. Storage-battery plate	809,742	Jan. 9	2282	472	120	534
Perry, Dyer W., Keene, N. H. Badge	808,887	Jan. 2	487	103	120	104
Perry, James. (See Widdop, Thomas, assignor.)						
Perry, John C., assignor to Clinton Wire Cloth Company, Clinton, Mass. Machine for making wire spools	813,332	Feb. 27	4585	1014–19	120	2630
Perry, William H., Concord, N. H. Ice-cutter for surface railways	812,873	Feb. 20	2705	596	120	2164
Perry, William P. (See Pennell and Perry.)						
Peru Electric Manufacturing Company. (See Ogle, Elmer L., assignor.)						
Peru Electric Manufacturing Company. (See Rhoades, Charles W., assignor.)						
Peter, Maurice L., and W. J. Sterrett, Columbus, Ohio. Hinge	811,740	Feb. 6	382	83	120	1570
Peterman, Addison E., Repton, Ala. Telegraph-key	808,777	Jan. 2	316	69–9	120	71
Peters, Charles, Nampa, Idaho. Underreamer for wells	811,484	Feb. 6	89	22	120	1397

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drg.	Official Gazette. Vol.	Official Gazette. Page.
Peters, Clarence D., Etherley, Ill. Rail-joint	809,217	Jan. 2	1171	242	120	258
Peters, Frederick J., Milwaukee, Wis. Sash-supporting platform for glaziers	809,321	Jan. 9	1434	290	120	350
Peters, John, Bothwell, assignor of two-thirds to R. C. Russell, Arthur, Ontario, Canada. Nut-lock	813,168	Feb. 20	3295	725	120	2294
Petersen, Joachim H. C., Hamburg, Germany. Centrifugal pump	810,976	Jan. 30	4830	1004	120	1209
Peterson, Charles A., Salt Lake City, Utah. Sign	813,580	Feb. 27	4127	905	120	2532
Peterson, Charles E., Brooklyn, N. Y., assignor, by mesne assignments, to Mercantile Manufacturing Company. Type-writing machine	809,979	Jan. 16	2740	564	120	687
Peterson, Daniel, Lamont, Okla. Ter. Machine for changing money	810,508	Jan. 23	3866	800-2	120	973
Peterson, Gustave E., Hartford, Conn. Indicator for lathes	811,244	Jan. 30	5352	1118	120	1322
Petersen, John, St. Paul, Minn. Hay and manure gatherer and loader	808,678	Jan. 2	108	24-5	120	25
Peterson, Lee, *et al.* (See Mitchell, Ira G., assignor.)						
Peterson, Patrik L., North Grosvenor Dale, Conn., assignor to Draper Company, Hopedale, Mass. Tension device for loom-shuttles	810,669	Jan. 23	4207	870	120	1040
Peterson, Per A., New York, assignor to F. P. Hunt, Nyack, N. Y. Moistening device.	812,087	Feb. 6	1106	244	120	1714
Peterson, William J., New York, N. Y. Chandelier	810,429	Jan. 23	3732	769	120	983
Petersson, Peter T., Spatten, Minn. Wrench	811,741	Feb. 6	383	84	120	1570
Petery, Evan E. P., assignor of one-half to S. Bowsher, Indianapolis, Ind. Cross-arm for carrying high-tension wires	809,743	Jan. 9	2284	473	120	535
Petery, Evan E. P., Indianapolis, and J. O. Jackson, Swayzee, Ind.; said Jackson assignor to S. Bowsher. Water-brake for poles	810,880	Jan. 23	4603	959	120	1126
Petley, Benjamin H., Seattle, Wash. Gas-regulator	810,562	Jan. 23	4008	825	120	996
Petraborg, John J. (See Hanson and Petraborg.)						
Petrelli, Joseph, assignor to Snow & Petrelli Mfg. Co., New Haven, Conn. Power-transmitting mechanism	812,519	Feb. 13	2012	441-2	120	1977
Petrie, Margaret, San Francisco, Cal. Drip attachment for bottles	811,742	Feb. 6	384	84	120	1570
Petřík, Josef. (See Jokisch and Petřík.)						
Petrini, Edvard, Uppsala, Sweden. Roller-skate	809,980	Jan. 16	2744	564	120	688
Petroleum Electric Producing Company. (See Gardner, Benjamin F., assignor.)						
Pettee, Oliver E., Rockland, Me. Game apparatus	810,299	Jan. 16	3433	708	120	833
Pettee, Oliver E., Rockland, Me. Table	810,378	Jan. 16	3610	743	120	872
Pettit, Daniel I. and J. E., Grand Junction, Iowa. Machine for making blocks or tiles	810,300	Jan. 16	3435	709	120	833
Pettit, Frank A., Kansas City, Mo. Knife-wiper for linotypes	810,079	Jan. 16	2964	618	120	726
Pettit, John E. (See Pettit, Daniel I. and J. E.)						
Pettyjohn, John M., Terre Haute, Ind. Concrete-block mold	810,343	Jan. 16	3513	724	120	850
Petzel, Gustav, Tegel, Germany. Explosion-engine	809,841	Jan. 9	2459	510-11	120	573
Peust, Albert, Hanover, Germany. Elastic metal felly	812,227	Feb. 13	1448	316	120	1856
Peytraut, J., *et al.* (See Clemons, De Laski T., assignor.)						
Pfauts, Daniel M., Germantown, Pa. Filtering apparatus	813,516	Feb. 27	4004	877-8	120	2505
Pfauts, Daniel M.; Germantown, Pa. Water-filter	813,517	Feb. 27	4006	878	120	2505
Pfeifer, Adam, Frankfort-on-the-Main, Germany. Apparatus for the complete combustion of solid fuel	809,322	Jan. 9	1435	290	120	350
Pfeiffer, Christian, assignor to New Britian Hardware Manufacturing Company, New Britain, Conn. Equalizing winder for spring-motors	809,130	Jan. 2	1010	208-9	120	222
Pfeiffer, Emil C., Boston, assignor to C. A. Hight, Brookline, Mass. Puzzle	811,321	Jan. 30	5503	1147	120	1354
Pfenninger, Carl, Munich, assignor to Melms & Pfenninger Gesellschaft mit Beschränkter Haftung, Munich-Hirschau, Bavaria, Germany. Combined impulse and reaction turbine	813,169	Feb. 20	3297	725	120	2294
Pflager, Harry M., St. Louis, Mo. Draft-gear for railway-cars	810,805	Jan. 23	4464	927	120	1006
Pflueger, Frank, and E. Christensen, Portland, Oreg. Bung-hole bushing	810,430	Jan. 23	3733	769	120	933
Pflueger, Frank, and E. Christensen, Portland, Oreg. Combined expander and flanger for bung-hole bushings	810,431	Jan. 23	3734	769	120	933
Pflueger, Frank, and E. Christensen, Portland, Oreg. Counterboring-tool for casks	810,432	Jan. 23	3737	770	120	934
Phouts, Leroy S., Canton, Ohio. Motor-vehicle	810,881	Jan. 23	4604	959	120	1126
Phelis, Isaac F., Woodville, Ohio. Universal timepiece	811,565	Feb. 6	101	22	120	1507
Phelps, Charles N., Lagrange, Ill. Mattress-sewing machine	810,862	Jan. 23	4606	960-2	120	1126
Phelps, Ernest L., Toronto, Canada. Garment-designing curve-rule	812,874	Feb. 20	2707	596	120	2165
Phelps, Frank, Walston, Okla. Ter. Cotton-gin	809,131	Jan. 2	1013	210	120	223
Philadelphia Tapestry Mills. (See Zimmerman, John, assignor.)						
Philip Carey Manufacturing Company. (See Moeller, William J., assignor.)						
Phillips, Edwin S., assignor to American Road Machine Company, Kennett Square, Pa. Mounted screen-bin	810,219	Jan. 16	3250	673-4	120	793
Phillips, Simeon L., *et al.* (See Gallagher, Fred E., assignor.)						
Philp, Casmair von, Bethlehem, assignor to Bethlehem Steel Company, South Bethlehem, Pa. Apparatus for storing and conveying liquid metals	810,301	Jan. 16	3437	709-10	120	834
Philp, Casmair von, Bethlehem, assignor to Bethlehem Steel Company, South Bethlehem, Pa. Fluid-pressure metal-working machine	812,226	Feb. 13	1448	316-17	120	1856
Phippin, Isaac N., Mount Sterling, Ky. Toy	809,270	Jan. 2	1022	209	120	291
Phoenix Elektrochemische Gesellschaft M. B. H. (See Grabosch, Gustav, assignor.)						
Pickard, James D. (See Hean, Paul C., assignor.)						
Pickard, Orson L., Toledo, Ohio. Rim for rubber-tired wheels. (Reissue)	12,460	Feb. 13	2557	562	120	2067
Pickering, John W. (See Metcalf and Pickering.)						
Pickles, Alfred, Wakefield, and P. R. Sewell, Bradford, England. Tube, conduit, and pipe cleaner	812,361	Feb. 13	1702	374	120	1914
Pickles, Charles K., assignor to J. A. Brill, Philadelphia, Pa. Disappearing seat	808,579	Jan. 2	108	25	120	26
Pictet, Raoul P., Berlin, Germany. Apparatus for the separation of gases from their mixtures	809,216	Jan. 2	1173	242-3	120	258
Pictet, Raoul P., Steglitz, Germany. Apparatus for dehydrating compressed gases	809,219	Jan. 2	1183	244	120	262
Pier, Harvey L., Dubuque, Iowa. Mail-box	810,926	Jan. 23	4466	926	120	1006
Pierce, Charles S., Duluth, Minn. Kettle and lid securing and operating means therefor	809,461	Jan. 9	1737	359	120	415
Pierce, Edward, and E. Lanz, Burlington, Iowa. Lawn-trimmer	810,344	Jan. 16	3514	726	120	851
Pierce, George L., Manchester, N. H., assignor to Whitin Machine Works, Whitinsville, Mass. Top-roll saddle	813,575	Feb. 20	2708	597	120	2165
Pierce, Walter W., Marco, Cal. Cartridge-extracting implement	812,098	Feb. 6	1108	244	120	1714
Piercy, Charles B. (See Piercy, Mae and C. B.)						
Piercy, Mae and C. B., Redoak, Iowa. Child's carriage	812,447	Feb. 13	1578	413	120	1948
Pierre, Gaspar. (See Larribeau, John B., assignor.)						
Pierson, Arthur S., Morristown, N. J. Reinforcing device for concrete structures	810,220	Jan. 16	3255	674	120	794
Pierson, Arthur S., Morristown, N. J. Tension or reinforcing device for use in concrete structures	810,221	Jan. 16	3255	675	120	794
Pierson, Paul M., Genesee, N. Y., assignor to Pierson-Sefton Company, Jersey City, N. J. Centerless and other closed structure	811,951	Feb. 6	630	134-5	120	1660
Pierson-Sefton Company. (See Pierson, Paul M., assignor.)						
Pike Printing Machine Company. (See Massey, Walter B., assignor.)						
Pike, William H., Jr., assignor to New York Idding Typewriter Company, Orange, N. J. Hanger for type-bars	813,684	Feb. 27	4357	944	120	2667

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drg.	Official Gazette. Vol.	Official Gazette. Page.
Pilkington, William, Errington, England. Manufacture of horseshoes	810,080	Jan. 16	2965	618	120	737
Pilling Air Engine Company. (See Pilling, James L., assignor.)						
Pilling, James L., Port Huron, assignor to Pilling Air Engine Company, Detroit, Mich. Reversing-valve for hoisting-engines	810,883	Jan. 23	4618	962	120	1139
Pilling, James L., Busyrus, Ohio, assignor to Pilling Air Engine Company, Detroit, Mich. Pneumatic bolst	810,884	Jan. 23	4620	963	120	1139
Pineus, Julius, Norfolk, Va. Detachable fastener and button	811,661	Feb. 6	246	54	120	1539
Pinder, Joseph W., San Francisco, Cal. Ore-concentrator	812,520	Feb. 13	2017	442	120	1978
Pine, William J., Chicago, Ill., and L. P. Hynes, Laporte, Ind. Steam-pipe coupling	813,235	Feb. 20	3423	754	120	2319
Pino, Caterina, Genoa, Italy. Apparatus for raising submerged objects	812,521	Feb. 13	2021	442-3	120	1979
Piper, Edmund F., Fargo, N. D. Gang-plow	813,446	Feb. 27	3858	845-6	120	2471
Piper, James K., Wilmerding, Pa. Cotton-picker	813,170	Feb. 20	3298	725-6	120	2294
Piper, Robert H., Waterbury, Conn. Key-holder	810,081	Jan. 16	2966	619	120	737
Piso Company. (See Schloesser and Fisher, assignors.)						
Pisor, Jacob H., Electric, Mont. Weather-strip	813,518	Feb. 27	4010	879	120	2507
Pitcher, Lester D., Daytona, Fla. Guy-anchor	810,807	Jan. 23	4467	928	120	1006
Pitkin, Julian H., Chicago, Ill. Division-block for hay-balers	813,665	Feb. 27	4289	944	120	2567
Pittman, James E., Goldhill, Colo. Spike	810,808	Jan. 23	4468	928	120	1007
Pittman, James E., Goldhill, Colo. Trap	812,522	Feb. 13	2023	443	120	1979
Pickard, Marion, Orestes, Ind. Fodder loader and hauler	809,223	Jan. 9	1436	290	120	350
Plancich, Nicholas A., San Francisco, Cal. Ticket-holder	809,132	Jan. 2	1016	210	120	223
Plantinga, Pierre, Cleveland, Ohio. Gas-purifying apparatus	810,563	Jan. 23	4010	825	120	997
Plate, William F. (See Degenhardt, Johannes, assignor.) (Reissue.)						
Plate, Albert L., Clinton, Ill. Aerial top	813,519	Feb. 27	4011	879	120	2507
Plate, Wilhelm, Weinheim, Germany. Superheater	812,448	Feb. 13	1877	413	120	1948
Plass, Samuel V., Polk, Ohio. Hay-loader	813,581	Feb. 27	4128	905	120	2533
Plass, Clarence. (See King and Plass.)						
Plotkin, Max, New York, assignor to C. Bois, Brooklyn, N. Y. Stair structure	811,436	Jan. 30	5713	1196	120	1397
Plume and Atwood Manufacturing Company. (See Wirth, Charles E., assignor.)						
Plume and Atwood Mfg. Co. (See Wirth and Bradley, assignors.)						
Pocklington, Elmer T., Clayton, Mich. Lock for crossed wires	809,395	Jan. 9	1605	325	120	386
Pogue, Jasper M. (See Tichenor, Robert R., assignor.)						
Pohl, Carl, Budapest, Austria-Hungary. Production of artificial-stone plates	813,171	Feb. 20	3304	727	120	2296
Pohlé, Edwin C., Reno, Nev. Recovering values from sulfid ores	811,085	Jan. 30	5018	.....	120	1251
Pokorny, Edward. (See Tauber, Maurice, assignor.)						
Pollard, Enos C., Seattle, Wash. Smelting and refining	813,824	Feb. 27	4600	1019	120	2633
Pollard, Enos C., Seattle, Wash. Smelting and refining apparatus	813,825	Feb. 27	4606	1020	120	2634
Polley, David F., assignor to Markham Air Rifle Company, Plymouth, Mich. Air-gun	808,680	Jan. 2	109	25	120	26
Pollock, John A., East Rutherford, N. J. Folding canopy	811,322	Jan. 30	5504	1148	120	1355
Poly-Phase Ignition System Company. (See Le Fontois, Leon J., assignor.)						
Pomeroy, Silas H., New York, N. Y., assignor of one-half to F. Volgtmann, Chicago, Ill. Fireproof window	810,564	Jan. 23	4011	836	120	997
Pond, Edmund M., Rutland, Vt. Medicated tampon	812,768	Feb. 13	2405	549	120	2072
Pond, Edmund M., Rutland, Vt. Medicated tampon	812,769	Feb. 13	2406	549	120	2072
Pond, Edmund M., Rutland, Vt. Medicated tampon	812,770	Feb. 13	2408	549	120	2072
Pool, William L., Astec, N. Mex. Ter. Churn	812,592	Feb. 13	2172	475	120	2006
Poole, Arthur F. (See Hall and Poole.)						
Poole, Arthur F., and F. B. Hall, Wheeling, W. Va. Telephone party-line system	810,345	Jan. 16	3516	725-6	120	851
Poole, Arthur F., and F. B. Hall, Wheeling, W. Va. Party-line signaling system	810,346	Jan. 16	3525	726	120	852
Poole, Charles C., Evanston, assignor to Oliver Typewriter Company, Chicago, Ill. Paper-movement indicator for type-writers	811,172	Jan. 30	5207	1089	120	1290
Poole, Charles C., Evanston, assignor to Oliver Typewriter Company, Chicago, Ill. Paper-movement indicator for type-writers	811,173	Jan. 30	5211	1089	120	1291
Poor, Nathan, Peabody, Mass. Hot-air furnace	811,869	Feb. 6	635	139-40	120	1620
Pope, Harry M., Chicopee Falls, Mass., assignor, by mesne assignments, to Morton Trust Company, trustee. Motor-vehicle	810,379	Jan. 16	3611	743	120	872
Pope, Henry W., New York, N. Y. Ready-reference device	813,447	Feb. 27	3860	846	120	2472
Pope, William C., Philadelphia, Pa. Transfer-ticket	813,321	Feb. 20	3603	791	120	2357
Popper & Co. (See Zellinger, Adalbert, assignor.)						
Porritt, Edwin, New York, N. Y. Boiler	810,809	Jan. 23	4469	928	120	1007
Portan, William, St. Paul, Minn. Mold for building-blocks	810,976	Jan. 30	4832	1004-5	120	1210
Porter, Edwin F., and W. R. Whiting, assignors to American Rotary Engine Company, Boston, Mass. Gas-engine	810,347	Jan. 16	3538	727	120	856
Porter, Edwin F., and W. R. Whiting, assignors to American Rotary Engine Company, Boston, Mass. Gas-engine	810,565	Jan. 23	4012	836	120	997
Porter, Edwin H., and B. Currier, Philadelphia, Pa. Alternating-current-motor reverser	808,944	Jan. 2	635	138-9	120	140
Porter, Edwin H., and B. Currier, Philadelphia, Pa. Electric motor	811,323	Jan. 30	5507	1148	120	1356
Porter, Fred G. (See Rose, Edwin G. and J. R., assignors.)						
Porter, Harris H., assignor to Rhode Island Electromobile Company, Providence, R. I. Electric storage battery	813,582	Feb. 27	4129	905	120	2533
Porter, Henry H., *et al.* (See Haller and Billingsley, assignors.)						
Porter Screen Manufacturing Company. (See Mix, Allen H., assignor.)						
Porter Screen Manufacturing Company. (See Segar, Eugene D., assignor.)						
Porter, William B. (See Johnson and Porter.)						
Porter, Wilson F., assignor to New Haven Clock Company, New Haven, Conn. Repeating alarm-clock	809,133	Jan. 2	1017	210	120	224
Porter, Wilson L., assignor to New Haven Clock Co., New Haven, Conn. Clock	811,234	Jan. 30	5510	1148	120	1356
Porterfield, Harry B. (See Tillinghast and Porterfield.)						
Posey Automatic Switching Company. (See Posey, James A., assignor.)						
Posey, James A., Midlothian, Tex., assignor, by mesne assignments, to Posey Automatic Switching Company. Electric switch for street-railways	811,519	Jan. 30	5651	1225	120	1427
Posson, Edward, Chicago, Ill. Dust-guard for journal-boxes	812,823	Feb. 13	2094	462-4	120	1980
Potter, Clifford B., Springfield, Mass. Yarn and making the same	813,583	Feb. 27	4131	906	120	2533
Potter, Joseph L., Indianapolis, Ind. Electromagnetic power-generator	812,949	Feb. 20	2867	620	120	2200
Potter, Morgan, assignor to Morgan Potter Company, Fishkill-on-the-Hudson, N. Y. Adjustable appliance for ladders	810,170	Jan. 16	3136	649	120	770
Potter, William, New York, N. Y. Level	812,449	Feb. 13	1878	413	120	1949
Potter, William B., Schenectady, N. Y., assignor to General Electric Company. Motor-control system	808,778	Jan. 2	313	69	120	71
Potts, David, assignor to Warren Featherbone Company, Three Oaks, Mich. Collar-foundation	812,876	Feb. 20	2709	597	120	2165
Pouleon, Britton, assignor of one-half to F. Ziemendorff, Fort Wayne, Ind. Cement-block-making machine	813,112	Feb. 20	3183	696	120	2271
Poure, Georges, Boulogne-sur-Mer, France. Winding-reel	810,977	Jan. 30	4834	1005-6	120	1210
Powell, James, assignor to Wm. Powell Co., Cincinnati, Ohio. Construction of oil-cups	812,893	Feb. 13	1708	374	120	1914

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drg.	Official Gazette. Vol.	Official Gazette. Page.
Power, James, Methuen, Mass. Sash-lock	812,229	Feb. 13	1452	317	120	1857
Power, Nicholas, New York, N. Y. Apparatus for exhibiting moving pictures	809,961	Jan. 16	2746	564–5	120	688
Poyas, Karl H., Los Angeles, Cal. Telephone signaling apparatus	808,868	Jan. 2	466	108	120	104
Praed, Humphrey M., deceased, Riverside, Cal.; W. E. Pedley, administrator. Bin	813,059	Feb. 20	3081	675	120	2245
Pratt, Austin A., Los Angeles, Cal. Electric heater	813,113	Feb. 20	3186	697	120	2271
Pratt & Letchworth Company. (See Hennicke, Charles A., assignor.)						
Pratt, Lewis M., and E. H. Van Natta, Belleville, Kans.; said Pratt assignor to said Van Natta. Molding-machine	812,291	Feb. 13	1587	348	120	1888
Pratt & Whitney Company. (See Goodrich, Clarence L., assignor.)						
Pratt & Whitney Company. (See Hanson, Bengt M. W., assignor.)						
Pratta, Gust, Flint, Mich. Candy-making machine	811,086	Jan. 30	3020	1048	120	1251
Prébanbert, Louis, and G. A. Thubé, Nantes, France. Tarring roads	812,593	Feb. 13	2173	.....	120	2008
Prellwitz, William, Easton, Pa., assignor to Ingersoll-Sergeant Drill Company, New York, N. Y. Cooler for compressors	810,670	Jan. 23	4209	870–1	120	1041
Prellwitz, William, Easton, Pa., assignor to Ingersoll-Sergeant Drill Company, New York, N. Y. Separable head-coupling	810,671	Jan. 23	4210	871	120	1041
Prellwitz, William, Easton, Pa., assignor to Ingersoll-Sergeant Drill Company, New York, N. Y. Discharge-valve for fluid-compressors	810,672	Jan. 23	4211	871	120	1041
Prendergast, Bernard H. (See Wachter and Prendergast.)						
Prendergast, Edward, St. Louis, Mo. Refrigerator	809,324	Jan. 9	1438	291	120	350
Pressed Steel Car Company. (See Dodds, Ethan I., assignor.)						
Pressed Steel Manufacturing Company. (See Knipe, Oliver C., assignor.)						
Pressler, Caswell, Pleasantgrove, Miss. Cultivator	812,678	Feb. 13	2226	507	120	2037
Preston, Percy C., Denison, Tex. Reed-organ	811,987	Jan. 30	3023	1049	120	1252
Pretsman, John H., Greenville, Ohio. Multiple bolt	809,626	Jan. 9	2064	428	120	485
Preuss, Paul, Berlin, Germany. Device for cutting screws upon long rods	813,114	Feb. 20	3188	697	120	2272
Price, Charles R., Des Moines, Iowa. Farm-gate	808,889	Jan. 2	469	103	120	104
Price, Edgar F., G. E. Cox, and J. G. Marshall, assignors to Union Carbide Company, Niagara Falls, N. Y. Apparatus for the production of calcium carbid	809,842	Jan. 9	2460	511	120	574
Price, George B., Colorado Springs, Colo. Fire-escape apparatus	812,950	Feb. 20	2690	630	120	2200
Prier, Andrew E., New York, N. Y. Bottle-seal	809,011	Jan. 2	773	167	120	170
Prince, Ernest C., *et al.* (See Denmead, John W., assignor.)						
Prince Stokes Oil Stove Company. (See Stokes, John M., assignor.)						
Prindle, Edwin J., Washington, D. C., assignor to Diamond Match Company, New York, N. Y. Match-making machine	808,945	Jan. 2	538	130–40	120	140
Prindle, Otis H., Collinwood, Ohio. Iron railway-tie	813,584	Feb. 27	4133	906	120	2533
Printz, Emanual. (See Roeske, Henry, assignor.)						
Prior, Andrew A. (See Harris and Prior.)						
Prior, Ernest B., Brooklyn, N. Y., assignor to Lorain Steel Company, Philadelphia, Pa. Tongue-switch	810,433	Jan. 23	3740	770	120	935
Pritchard, Albert R., Rochester, N. Y. Lantern	809,462	Jan. 9	1739	359	120	416
Pritchard Manufacturing Company. (See Kline, David C., assignor.)						
Pritchard-Strong Company. (See Kline, David C., assignor.)						
Pritschau, Ferdinand A., assignor to Commercial Artificial Fuel Company, Toledo, Ohio. Peat-mill	813,530	Feb. 27	4012	879–80	120	2508
Probyn, Leslie, Freetown, Sierra Leone. Tobacco-pipe, cigar-holder, and cigarette-holder	809,326	Jan. 9	1438	291	120	351
Proctor, Olin S., Denver, Colo. Means for operating drills	811,791	Feb. 6	485	105	120	1589
Proeger, Julius, Greensburg, Pa. Glass-tank furnace	811,962	Feb. 6	842	185–6	120	1690
Provan, James W., Oshawa, Canada. Feed and litter carrier	812,263	Feb. 13	1707	374	120	1915
Provandie, Herbert F., Melrose, Mass. Electric transformer and connections	812,089	Feb. 6	1109	244	120	1714
Provost, Camille, assignor of one-half to A. B. McGowen, Jeanerette, La. Shingle-edging machine	812,951	Feb. 20	2802	631	120	2201
Pruett, John M., and J. C. Simpson, Rockville, Ind. Burial-vault mold	809,639	Jan. 9	2085	428	120	485
Pruis, Johan. (See Lohmann and Pruis.)						
Pruya, William H., Jr., Chicago, Ill. Concrete railway-tie	812,524	Feb. 13	2086	444	120	1980
Pulliam, Oswald S., Pittsburg, Pa. Draft-rigging carrier and body-bolster	813,666	Feb. 27	4289	944	120	2567
Pulliam, Oswald S., Pittsburg, Pa. Car-body underframe construction	813,667	Feb. 27	4290	944–5	120	2567
Pulliam, Oswald S., Pittsburg, Pa. Metallic railway-tie	813,668	Feb. 27	4291	945	120	2568
Pullman Company. (See Dodds, Ethan I., assignor.)						
Pulvitt, John, Alvarado, Tex. Bolt-clipper	809,843	Jan. 9	2462	512	120	574
Purdum, Hershel F., Sac City, Iowa. Self-loading scraper	808,870	Jan. 2	470	103–4	120	104
Purdy, Thomas C., Paris, France. Apparatus for supplying liquid fuel to burners of lamps and lanterns	813,286	Feb. 20	3425	754	120	2320
Purves, Thomas C., Chicago, Ill. Washing-machine	812,322	Feb. 13	1836	348	120	1889
Puryear, Taylor, Jonesboro, Ark. Shirt-sleeve	811,662	Feb. 6	247	54	120	1539
Putney, John J., Stuart, Iowa. Automatic potato cutter and planter	809,396	Jan. 9	1606	326–6	120	396
Putrow, John B. (See Paradis and Putrow.)						
Quaker Shade Roller Company. (See Janes, William D., assignor.)						
Quenzeau, Augustin L. J., South Bethlehem, Pa. Charging retorts, muffles, furnaces, and the like	813,021	Feb. 20	2998	659	120	2229
Quenzeau, Augustin L. J., South Bethlehem, Pa. Charging-machine	813,022	Feb. 20	2998	660	120	2229
Quenzeau, Augustin L. J., South Bethlehem, Pa. Apparatus for charging retort-benches	813,023	Feb. 20	3000	660–1	120	2229
Quick, Albert A., Brushycreek, Tex. Sash-holder	810,302	Jan. 16	3436	710	120	834
Quick, Emmett B., assignor of one-half to A. A. Newell, Comstock, Tex. Neck-yoke gauge	811,963	Feb. 6	845	186	120	1661
Quimby, Albert G. (See English and Quimby.)						
Quincy, Frederick H. (See Koons, Wesley, assignor.)						
Quittner, Hermann, Berlin, Germany. Drinking and feeding appliance for bird-cages	811,870	Feb. 6	638	140	120	1620
R. A. Patterson Tobacco Co. (See Marcuse, Isaac J., assignor.)						
Raab, Henry, and J. M. Wolfson, New York, N. Y. Measuring device	810,682	Jan. 16	2867	619	120	737
Rabinowitch, Lazar A. (See Weinreb and Rabinowitch.)						
Rae, Frank B., Chicago, Ill., assignor to American Electromobile Company, East Orange, N. J. Vehicle-steering mechanism	810,673	Jan. 23	4212	872	120	1042
Rae, Frank B., Detroit, Mich., assignor to American Electromobile Company, East Orange, N. J. Vehicle-motor-suspension mechanism	810,674	Jan. 23	4214	872	120	1042
Rae, James J., assignor of one-half to C. Smith, Cherry Valley, Mass. Carding-machine	810,171	Jan. 16	3138	649	120	770
Rae, Ernest G., New York, N. Y. Collapsible window-platform	809,681	Jan. 2	110	26	120	27
Rahn, Elmer, and I. C. May, assignors of one-third to N. S. Corbin, Sacramento, Cal. Tank-holder	808,871	Jan. 2	474	104	120	105
Raikes, Edward W. (See Raikes, James M. and E. W.)						
Raikes, James M. and E. W., Cleveland, Ohio. Valve mechanism	809,612	Jan. 2	773	167	120	170
Rail Joint Company. (See Atkinson, John M., assignor.)						
Rail Joint Company. (See Brown, Bancroft G., assignor.)						
Railways Surface Contact Supplies Company. (See Campbell, George L., assignor.)						
Railwater, Henry T., Clinton, Ark. Loading apparatus	813,448	Feb. 27	3861	846	120	2472

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drg.	Official Gazette. Vol.	Official Gazette. Page.
Raithel, George, Middleville, N. Y. Spoke-extractor	809,267	Jan. 9	1608	326	120	387
Ralston, William A., assignor to Caldwell Manufacturing Company, Rochester, N. Y. Window-ventilator	813,737	Feb. 27	4416	974	120	2694
Ramage, Daniel A., Percy, Pa. Coke-drawing machine	813,264	Feb. 13	1708	375	120	1915
Ramaley, William H., and W. E. Lamerton, Pittsburg, Pa. Heater	811,326	Jan. 30	3511	1140	120	1356
Ramsay, George S., St. Marys, Pa. Coal-washer	811,871	Feb. 6	630	140	120	1620
Ramsdell, Frederick H., Waterville, Me. Locomotive-pedestal	809,744	Jan. 9	2365	478	120	535
Randall, Alfred H., Jr., assignor of one-half to P. D. Harton, Philadelphia, Pa. Machine for making all-tobacco cigarettes	812,152	Feb. 6	1280	271–5	120	1745
Randall, Robert F., and E. V. Peirson, Newark, N. Y., assignors of two-thirds to said Peirson and one-third to said Randall. Attachment for coffee-pots	813,337	Feb. 20	3426	755	120	2320
Randall, Thomas A. (See Claridge and Randall.)						
Rankin, Edmund M., Los Angeles, Cal. Railway-frog for turn-ins and turnouts	812,877	Feb. 20	2710	597	120	2166
Rankin, William G., Coal Valley, Pa. Lamp-burner	813,172	Feb. 20	3306	727	120	2297
Rantala, August. (See Markkula and Rantala.)						
Rantine, Daniel W., Brooklyn, N. Y. Universal propelling mechanism	812,450	Feb. 13	1880	414	120	1949
Rantzau, Fritz G., Great Falls, Mont. Monument	812,203	Feb. 13	1591	348	120	1869
Rateau, Auguste C. E., and G. Sautter, Paris, France, assignors to Rateau Turbine Company, Chicago, Ill. Turbine-driven machinery	812,878	Feb. 20	2712	597–8	120	2166
Rateau Turbine Company. (See Rateau and Sautter, assignors.)						
Rathbun, Charles B., Canton Junction, Mass. Leather-stretching clamp. (Reissue)	12,457	Feb. 20	3754	824	120	2300
Rathbun, Lewis V., Rochester, N. Y. Burial-case	810,172	Jan. 16	3139	649–50	120	771
Rathsam, John M., St. Louis, Mo. Transparent sign	812,525	Feb. 13	2027	444	120	1969
Rau, Henry F., Tacoma, Wash. Brooder	813,115	Feb. 20	3189	697–8	120	2272
Rau, William G., Louisville, Ky. Eaves-trough hanger	813,826	Feb. 27	4611	1020	120	2635
Rauh, Adolph. (See Larsen, Louis J. C., assignor.)						
Rauscher, John, St. Paul, Minn. Current-motor	810,063	Jan. 16	2969	619–20	120	737
Ravel, Edouard. (See Ravel, Joseph and E.)						
Ravel, Joseph and E., assignors to C. Malden-Ercale, Paris, France. Somersaulting-vehicle	810,303	Jan. 16	3439	710–11	120	834
Ray, David B., Huntington, N. Y. Space for justifying lines of type	813,912	Feb. 27	4777	1054	120	2672
Ray, Frederick, East Orange, N. J., assignor to Henry R. Worthington, New York, N. Y. Centrifugal turbine or similar pump	808,682	Jan. 2	114	26	120	27
Ray, Herbert B., Bridgeport, Conn. Can-opener	809,527	Jan. 9	1858	386	120	442
Raymond, Charles W., Dayton, Ohio. Emptying apparatus for clay-bins	812,220	Feb. 13	1453	317–18	120	1857
Raymond, Edwin M., and W. S. Stoughton, Grand Rapids, Mich. Mail-box	808,872	Jan. 2	475	104	120	105
Raymond, George, Chicago, and J. H. Finlay, Warsaw, Ill. Pulverizer	812,231	Feb. 13	1454	318–19	120	1857
Rayner, Edwin B., Piqua, assignor to Lagonda Manufacturing Co., Springfield, Ohio. Damper-regulator	813,669	Feb. 27	4292	945	120	2568
Rea, Victor H., Elgin, Ill. Garment-supporter	812,526	Feb. 13	2028	445	120	1980
Reach, George A. (See Gamble, John, assignor.)						
Read, William E., assignor to R. J. Hennuick, Lipton, Canada. Rifle-carrying attachment	811,437	Jan. 30	5713	1196	120	1308
Readable Signal Company. (See Holderness and Hawley, assignors.)						
Reagan, James. (See Campbell and Reagan.)						
Reading, Joseph M., Datona, Fla. Mechanic's square	813,173	Feb. 20	3307	727	120	2297
Rechnitzer, Alexander, Vienna, Austria-Hungary, assignor to Keuffel & Esser Company, Hoboken, N. J. Calculator	809,075	Jan. 2	886	188–90	120	196
Reck, Anders B., Copenhagen, Denmark. Hot-water-circulating apparatus	809,013	Jan. 2	775	167	120	171
Reckard, Henry L., assignor to A. H. Walker, trustee, New York, N. Y. Photomechanical printing	810,434	Jan. 23	3742	771	120	935
Reddaway, Frank. (See Sankey, William A., assignor.)						
Reddick, William A., Niles, Mich. Fork	812,771	Feb. 13	2499	580	120	2072
Redington, William H., Chicago, Ill. Bottle-stopper	813,449	Feb. 27	3863	846	120	2473
Redlich, Berthold. (See Suter and Redlich.)						
Reece, Curtis D., and F. T. Austin, Coggon, Iowa. Wire hinge	809,134	Jan. 2	1020	211	120	224
Reed, Albert S., assignor of one-half to E. T. Harris, Chicago, Ill. Wing-nut	812,204	Feb. 13	1591	349	120	1889
Reed, Clifford L., Portland, Oreg. Clutch-operating mechanism	810,509	Jan. 23	3902	802	120	974
Reed, Evan L., Oregon, Ill. Rack for cracker-cans	810,566	Jan 23	4017	827	120	998
Reed, Shelton. (See Colegrove and Reed.)						
Reese, Z. J., *et al.* (See Mocstral, Aratino G., assignor.)						
Reesor, Isaac C., El Paso, Tex. Pencil-holder	809,135	Jan. 2	1021	211	120	224
Reeve, Sidney A., Brooklyn, N. Y., assignor to W. M. and L. E. Meacham, Chicago, Ill. Marine navigation	811,743	Feb. 6	385	84	120	1571
Reeves Centrifugal Engine Company. (See Reeves, Frederick W., assignor.)						
Reeves & Company. (See Clay, Harry C., assignor.)						
Reeves & Company. (See Clay and Reeves, assignors.)						
Reeves, Frederick W., Allegheny, assignor of one-half to J. R. James, Pittsburg, Pa. Turbine	811,663	Feb. 6	249	55–6	120	1539
Reeves, Frederick W., Allegheny, assignor to Reeves Centrifugal Engine Company, Pittsburg, Pa. Reciprocating rotary engine	812,527	Feb. 13	2029	445–6	120	1961
Reeves, Marshal T. (See Clay and Reeves.)						
Regenerated Cold Air Company. (See White, Frederick, assignor.)						
Regina Company. (See Stampen, Jose, assignor.)						
Reichenbach, Frank B., Los Angeles, Cal. Floor waxing, polishing, and cleaning machine	809,580	Jan. 9	1980	407	120	463
Reichenbach, Fritz, Charlottenburg, Germany. Combustion-engine	811,744	Feb. 6	389	84	120	1571
Reichert, John, Racine, Wis. Harness snap and slide	809,745	Jan. 9	2288	473	120	528
Reichert, John, Racine, Wis. Combined harness snap and slide	809,924	Jan. 9	2628	541	120	619
Reid, Charles T., Syracuse, Kans. Hen's nest	809,528	Jan. 9	1960	398	120	443
Reid, Joseph, Oil City, Pa. Support for power-carrying lines	813,913	Feb. 27	4778	1054–5	120	2672
Reid, Thomas. (See Harris and Prior, assignors.)						
Reid, William J., Dalton, Pa. Garment	813,585	Feb. 27	4144	906	120	2534
Reidenbaugh, John, *et al.* (See Stumph, Osman L., assignor.)						
Reilly, Martin, Cheltenham, Pa. Folding cot and cradle	813,321	Feb. 27	4016	880	120	2505
Reinanus, Mathias, Valkenburg, Netherlands. Surgical appliance	812,679	Feb. 13	2228	507	120	2037
Reinhert, Charles, assignor to American Brake Company, St. Louis, Mo. Forging and welding machine	813,174	Feb. 20	3310	728	120	2297
Reinschmidt, Edwin J., *et al.* (See Reinschmidt, Frank, assignor.)						
Reinschmidt, Frank, assignor of two-thirds to E. J. Reinschmidt and A. J. Hesp, St. Louis, Mo. Spittoon	810,567	Jan. 23	4013	827	120	998
Reisch, Emily. (See Reisch, Michael, assignor.)						
Reisch, Michael, assignor to E. Reisch, Buffalo, N. Y. Ratchet mechanism	808,946	Jan. 2	941	140	120	141
Reist, Henry G., Schenectady, N. Y., assignor to General Electric Company. Collector-ring	809,220	Jan. 2	1191	244	120	303
Reist, Henry G., Schenectady, N. Y., assignor to General Electric Company. Dynamo-electric machine	811,782	Feb. 6	402	106	120	1600

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Reliance Ball Bearing Door Hanger Company. (See Cossey, Myron, assignor.)						
Remington Arms Company. (See Witherell, George E., assignor.)						
Remington and Sherman Company. (See Casserly, Joseph E., assignor.)						
Remion, Louis V., San Bernardino, Cal. Pipe-wrench	810,304	Jan. 16	3441	711	120	834
Remppis, William F. (See Schaefer, William G., assignor.)						
Remy, Benjamin P. and F. I., assignors to Remy Electric Company, Anderson, Ind. Electric generator	808,779	Jan. 2	322	69	120	2
Remy Electric Company. (See Remy, Benjamin P. and F. I., assignors.)						
Remy, Frank I. (See Remy, Benjamin P. and F. I.)						
Rendahl, Ragnar H., Berlin, Germany. Wireless electric signaling system	813,914	Feb. 27	4779	1055-6	120	2672
Renfrew Crusher Company. (See Wegarif, Johannes C., assignor.)						
Renner, Jacob H., Canal Dover, Ohio. Rotary engine	813,024	Feb. 20	3008	661	120	2220
Renner, John, Burlington, Iowa. Window-shade holder	809,221	Jan. 2	1193	244	120	264
Renshaw, William. (See Sullivan and Renshaw.)						
Rens, Eugene, assignor to Stirling Silk Manufacturing Company, Stirling, N. J. Warp-tension	810,305	Jan. 16	3443	711-12	120	835
Rentzin, Clement, Philadelphia, Pa. Packing	809,581	Jan. 9	1961	407	120	463
Reubold, Friedrich. (See Strehlenert and Reubold.)						
Revolving Air Ship Tower Company. (See Friede, Samuel M., assignor.)						
Rew, Madison, Grinnell, Iowa. Side-delivery hay rake and loader	811,745	Feb. 6	390	85	120	1571
Reynolds, Edwin, Milwaukee, Wis., assignor to Allis-Chalmers Company, Chicago, Ill. Steam-engine	811,520	Jan. 30	5853	1235-8	120	1427
Reynolds, Elmer E. (See Christian and Reynolds.)						
Reynolds, Frank, Syracuse, N. Y. Rotary explosive-engine	810,435	Jan. 23	3748	771-2	120	937
Reynolds, Fred S., Cranston, R. I. Adjustable collar-supporter	811,326	Jan. 30	5513	1149	120	1257
Reynolds, John R. (See Moulton, James N., assignor.)						
Reynolds, John R., assignor to Waterproof Welt and Filler Company, Hartford, Conn. Making waterproof welts	811,793	Feb. 6	490	106	120	1591
Reynolds, John W., Erin, Tenn. Baling-press	809,244	Jan. 9	2462	512	120	574
Reynolds, Winfred E., and W. F. Gronau, New York, N. Y. Vehicle-platform	810,222	Jan. 16	3257	675	120	794
Rheaden, Charles W., assignor to Peru Electric Manufacturing Company, Peru, Ind. Electric safety-fuse	809,982	Jan. 16	2749	565	120	689
Rhoads, Samuel M., Philadelphia, Pa. Hose-coupling	809,746	Jan. 9	2289	474	120	536
Rhode Island Electromobile Company. (See Porter, Harris H., assignor.)						
Rhodes, Byron F., assignor of one-half to B. Johnson, Philadelphia, Pa. Running-shoe	811,438	Jan. 30	5715	1196	120	1398
Rhodes, Charles M., Steubenville, Ohio. Rail-joint	812,894	Feb. 13	2174	475	120	2009
Rhodes, Levi, assignor to Motor Traction Company, Spokane, Wash. Injector	812,382	Feb. 13	1486	310	120	1858
Ricart, Thomas L. (See Hallowell, Louis S., assignor.)						
Rice, Charles D., Hartford, Conn., assignor to Underwood Typewriter Company, New York, N. Y. Fastening-hook	812,879	Feb. 20	2716	598	120	2167
Rice, Edwin W., Jr., Schenectady, N. Y., assignor to General Electric Company. Switch or circuit breaker for high-potential circuits	812,880	Feb. 20	2717	598-9	120	2167
Rice, Frank L., assignor to James B. Clow & Sons, Chicago, Ill. Combined water-heater and pressure-reservoir	808,947	Jan. 2	643	140	120	142
Rice, Lowell H., Chicago, Ill., assignor to Metal Sectional Furniture Company. Beveling-machine	811,174	Jan. 30	5215	1089-90	120	1291
Rice, Stanley K., assignor of one-half to M. Coats, Concord, Nebr. Washing-machine	812,772	Feb. 13	2500	560	120	2073
Rice, Thomas B., Jr., Philadelphia, Pa. Device for preventing the shafts or arbors of saw-blades from sagging	813,236	Feb. 20	3427	755	120	2321
Rice, Vlette L., New York, N. Y. Antifriction-bearing	812,989	Feb. 27	4021	1089	120	2700
Rice, William J., Mason City, Iowa. Air-valve	812,451	Feb. 13	1883	414	120	1950
Rich, Charles C., Mount Vernon, N. Y., assignor of two-thirds to J. U. and W. M. Beaudette, Montclair, N. J. Apparatus for maintaining hot-water or steam pressure in portable boilers	811,345	Jan. 30	5354	1118	120	1322
Rich, Frederick S., Canton, Ohio, assignor to Rich Self Feeder Company, St. Louis, Mo. Feeding and bend-cutting mechanism	810,568	Jan. 23	4019	827-8	120	999
Rich Self Feeder Company. (See Rich, Frederick S., assignor.)						
Richard, Fred J. (See Richardson, John L., assignor.)						
Richards, Albert J. (See Richards, Charles H. and A. J.)						
Richards, Charles E., Chicago, Ill. Canopy-frame for caskets	810,509	Jan. 23	4022	828	120	999
Richards, Charles H. and A. J., Elgin, Ill. Feed-governor for mills, &c.	810,978	Jan. 30	4635	1006	120	1210
Richards, Francis R. (See Webster and Prendergast, assignors.)						
Richards, Francis H., Hartford, Conn. Golf-ball	808,683	Jan. 2	115	27	120	26
Richards, Francis H., Hartford, Conn., assignor to American Cigar Company, New York, N. Y. Marking-machine	810,979	Jan. 30	4636	1007-8	120	1211
Richards, Frank A., assignor of one-half to J. H. Richards, Philadelphia, Pa. Hand-power shears	812,483	Feb. 13	1984	415	120	1960
Richards, George W., Mountaintop, Pa. Sectional car-wheel	809,393	Jan. 9	1610	327	120	388
Richards, Hubert P., assignor to Stanley Rule & Level Company, New Britain, Conn. Ratchet mechanism for tools	813,586	Feb. 27	4137	906	120	2694
Richards, John H. (See Richards, Frank A., assignor.)						
Richards, John R. (See Duggins, Edward, assignor.)						
Richards Manufacturing Company. (See Wilkesson, Gustavus, assignor.)						
Richards, Willard P., Buffalo, assignor to Gould Coupler Company, New York N. Y. Car-side bar	808,694	Jan. 2	117	27	120	26
Richards, Willard P., Buffalo, assignor to Gould Storage Battery Company, New York, N. Y. Machine for making battery-grids	812,295	Feb. 13	1852	349-51	120	1890
Richards, William, Magnetic, Pa. Device for raising liquids from wells	813,322	Feb. 20	3006	791	120	2368
Richards, William H. (See Fulton and Richards.)						
Richardson, Abraham, owner of seven-eighths to J. and H. Heap, J. Bailey, T. Brierley, R. Richardson, J. Haydock, and T. S. Jones, Blackpool, England. Hanger or ear for overhead electric traveling-wires	812,881	Feb. 20	2722	599	120	2169
Richardson, Abraham, and T. S. Jones, assignors of six-eighths to J. and H. Heap, J. Bailey, T. Brierley, R. Richardson, and J. Haydock, Blackpool, England. Hanger or ear for overhead electric traveling-wires	809,747	Jan. 9	2291	474	120	536
Richardson, Earl H., assignor to Pacific Electric Heating Company, Ontario, Cal. Electric heater or iron	809,539	Jan. 9	1951	387	120	443
Richardson, George W., Wissahickon, assignor of one-half to S. T. Major, Norristown, Pa. Process of dyeing and treating cotton	811,088	Jan. 30	5025	1049	120	1232
Richardson, J. J., et al. (See Chilcott, De Lacy T., assignor.)						
Richardson, John J., Pittsburg, Pa. Brazing steel and copper	811,984	Feb. 6	846	186	120	1661
Richardson, John L., assignor of one-half to F. J. Richard, Bloomsburg, Pa. Mold for concrete posts	813,265	Feb. 13	1710	375-6	120	1916
Richardson, John S., Nowata, N. D., assignor to W. Gregory, trustee, Minneapolis, Minn.	810,320	Jan. 16	3512	743-4	120	872
Richardson, Samuel H., Seattle, Wash. Apparatus for cutting and shaving	810,510	Jan. 23	4470	959	120	1097

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Richardson, Solon O., Jr., Toledo, Ohio. Glass-furnace	809,926	Jan. 9	2634	542	120	610
Richelle, Joseph. (See Charpentier and Richelle.)						
Richey, Browne & Donald. (See Browne, Richard B., assignor.)						
Richmond Casket Company. (See Mills, Joseph H., assignor.)						
Richmond, William H., Mount Pleasant, Mich. Crate	809,326	Jan. 9	1441	292	120	361
Richter, Gustav F., New York, N. Y. Dilator	810,675	Jan. 23	4215	872	120	1042
Richter, Hans, assignor to Vereinigte Maschinenfabrik Augsburg und Maschinenbau-Gesellschaft Nürnberg A.-G., Nuremberg, Germany. Valve-gear for explosion-engines	813,116	Feb. 20	3194	698	120	2273
Rickabaugh, Justus A., Altoona, assignor of one-half to W. Milligan, Allegheny City, Pa. Portable ice-crusher	812,453	Feb. 13	1885	415	120	1950
Rickard, Charles H. (See Gill, Charles H., assignor.)						
Ricks, George H., Cincinnati, Ohio. Bung-bushing	813,990	Feb. 27	4033	1090	120	2701
Rieker, William H., Cambridge, Mass. Hot-air heating system	811,089	Jan. 30	5024	1049-50	120	1232
Ridd, Ambrose, Newport, Ky. Planishing sheets of metal	808,681	Jan. 2	125	30	120	30
Riddell, John, Schenectady, N. Y., assignor to General Electric Company. Belt	811,794	Feb. 6	492	108	120	1591
Riddell, John, and C. C. M. Mortensen, Schenectady, N. Y. Tool-grinding device	810,281	Jan. 16	3618	744-5	120	874
Riddle, James L., Logana, Ky. Logging-wagon	810,980	Jan. 30	4942	1008	120	1212
Rider, John T., Oil City, Pa. Level	811,175	Jan. 30	5219	1091	120	1292
Ridgely Trimmer Company. (See Normand, Joseph M., assignor.)						
Ridpath, D. B. (See Mobley, Richard, assignor.)						
Riedel Aktiengesellschaft, J. D. (See Werner, Emil, assignor.)						
Risk, Constance A., assignor of one-half to C. H. Schureman, Hermann, Mo. Barrel-stand	813,587	Feb. 27	4139	907	120	2535
Ries, Moses, Milwaukee, Wis. Lacing device	811,872	Feb. 6	642	141	120	1621
Rieske, Edward L., Troy, assignor to G. C. Myers, Dayton, Ohio. Pipe-clamp	809,227	Jan. 9	1442	292	120	351
Rifled Pipe Company. (See Isaacs and Speed, assignors.)						
Rifled Pipe Company. (See Speed, James B., assignor.)						
Rine, George A., Williamsport, Pa. Back-spacing attachment to type-writing machines	812,680	Feb. 13	2236	507	120	2037
Rinehart, Bentley L., Camden, N. J., assignor to Victor Talking Machine Company. Sound-box for talking-machines	810,961	Jan. 30	4844	1008	120	1212
Ring, George, Allegheny, assignor of one-third to H. H. Smith, Pittsburg, Pa. Drafting instrument	813,827	Feb. 27	4612	1020	120	2635
Rink, William E., Maplewood, assignor of one-half to F. Burke, Newark, N. J. Trimming attachment for sewing-machines	812,153	Feb. 6	1262	276	120	1746
Ritchie, Frederick A., St. John, Canada. Suspender-hook	811,090	Jan. 30	5027	1050	120	1253
Ritter-Conley Manufacturing Company. (See Carpenter, Henry A., assignor.)						
Ritschard, William, Columbus, Ohio. Pipe-dressing tool	812,366	Feb. 13	1712	376	120	1916
Ritten, Louis N., Estherville, Iowa. Poison-bottle stopper	810,576	Jan. 23	4218	873	120	1034
Rittenhouse, Thomas J. (See Tverdahl, Ole, assignor.)						
Ritter, Isaac B., Philadelphia, Pa. Safety device for elevators	809,076	Jan. 2	905	190-1	120	200
Ritts, Collins, Shingleton, Cal. Saw-tool	811,439	Jan. 30	5716	1197	120	1398
Ritts, J., et al. (See Stirling, Joseph C., assignor.)						
Ritz, August N., Milwaukee, Wis. Paste-jar brush	810,436	Jan. 23	3753	773	120	938
Rivera, Julian H., assignor to Hydro-Press Manufacturing Company, St. Louis, Mo. Fumigating material and making same	813,223	Feb. 20	3209	702	120	2259
Riviera, Louis C. G., Paris, France. Transmission mechanism for motor-cycles	811,327	Jan. 30	5514	1149	120	1257
Rix, Edward A., San Francisco, Cal. Rock-drill	813,228	Feb. 27	4614	1021	120	2635
Roach, David C., et al. (See Martin, George W., assignor.)						
Robarts, Heber, assignor of one-half to F. B. Haeberle, St. Louis, Mo. Suppository	813,529	Feb. 27	4615	1021	120	2636
Robb, Lewis J. (See Patterson and Robb.)						
Robbins, Cordillera J., Pekin, Ill. Grain-car door	811,091	Jan. 30	5028	1050	120	1253
Robbins, David W., New York, N. Y. Line-fastener	810,206	Jan. 16	3444	712	120	835
Robert Dempster & Sons. (See Broadhead and Ordish, assignors.)						
Robert, Jacques, Algiers, Algeria. Water-tube locomotive-boiler	812,681	Feb. 13	2227	508-9	120	2037
Robert Mitchell Machinery Co. (See Smith, Frank F., assignor.)						
Roberts, Albert E., Norwalk, assignor to N. P. Bowler, Cleveland, Ohio. Overshoe	808,948	Jan. 2	645	141	120	142
Roberts, Ellwood W., Philadelphia, Pa., assignor, by mesne assignments, to Roberts Manufacturing Company, Incorporated. Filter	809,463	Jan. 9	1739	389-90	120	416
Roberts, Henry F., assignor to C. F. Howe, Boston, Mass. Safety-envelop	811,092	Jan. 30	5029	1050	120	1253
Roberts, James I., Sparta, Ga. Cotton-chopper	810,811	Jan. 23	4472	959	120	1096
Roberts, John E., assignor of one-half to R. Carnahan, Jr., Onedia, Ky. Locomotive-engine	808,686	Jan. 2	118	27	120	29
Roberts Manufacturing Company. (See Roberts, Ellwood W., assignor.)						
Roberts, Otis, Winfield, Kans. Amusement apparatus	812,596	Feb. 13	2176	475	120	2009
Roberts, William F., Nashville, Tenn. Block	811,440	Jan. 30	5717	1197	120	1398
Roberts, William L., Norfield, Miss. Lock-nut	811,093	Jan. 30	5030	1051	120	1253
Robertson, Andrew G., Philadelphia, assignor to Thomas L. Leedom Company, Bristol, Pa. Woven pile fabric	812,596	Feb. 13	2178	476	120	2009
Robertson, Edwin B., East Norwalk, Conn. Reversing mechanism for explosive-engines	811,965	Feb. 6	847	187	120	1851
Robertson, James C. (See Gray, William, assignor.)						
Robertson, Malva M., Des Moines, Iowa. Mold for cement construction-blocks	810,382	Jan. 16	3621	745	120	875
Robertson, Richard. (See Howard, Oscar, assignor.)						
Robertson, William, Chicago, Ill. Mattress	811,094	Jan. 30	5031	1051	120	1253
Robichaux, Leonard J., N. Caillouet, and H. F. Delhaye, Charenton, La. Rail-joint	812,296	Feb. 13	1898	351	120	1890
Robidoux, Eli, Springfield, Mass. Elevating device	813,530	Feb. 27	4615	1021	120	2636
Robins Conveying Belt Co. (See Baldwin and Robins, assignors.)						
Robins Conveying Belt Company. (See Robins, Thomas, Jr., assignor.)						
Robins, Thomas, Jr. (See Baldwin and Robins.)						
Robins, Thomas, Jr., assignor to Robins Conveying Belt Company, New York, N. Y. Belt conveyer	810,510	Jan. 23	3904	833	120	975
Robinson, Benjamin F. (See Vinson and Robinson.)						
Robinson, Eugene M., Chicago, Ill. Phonograph	813,670	Feb. 27	4396	946-6	120	2669
Robinson, Henry, et al. (See Sperry, Henry B., assignor.)						
Robinson, Henry, Brooklyn, N. Y. Machine for peeling vegetables	809,862	Jan. 9	1963	408	120	498
Robinson, Henry C. (See Hazlewood and Robinson.)						
Robinson, Henry R., Richmond, Ind. Separator-tooth	811,441	Jan. 30	5719	1197	120	1399
Robinson, James R., Dublin, Ga. Baling-press	808,720	Jan. 2	322	69-70	120	72
Robinson, Lee A., and H. Blair, Sherman, Tex. Solid-rim wood column	813,480	Feb. 27	3904	847	120	2673
Robinson, Pearl R., assignor to O. K. Tool Holder Company, Shelton, Conn. Tool-holder	810,207	Jan. 16	3445	712	120	835
Robinson, Richard H., Dawlish, England. Apparatus for launching ships' boats	813,915	Feb. 27	4781	1088	120	2672
Robinson, St. Elmo, Arlington, Oreg. Animal-shears	813,888	Feb. 20	3734	850	120	2460
Robisburg, Henry B., Kalamazoo, Mich., assignor to Chicago Railway Equipment Company, Chicago, Ill. Brake-beam	813,915	Feb. 27	4783	1088	120	2673

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume.		Official Gazette.	
			Spec.	Dr'g.	Vol.	Page.
Roche, Thomas. (See Buckley, McGinn, and Rogan, assignors.)						
Rock Island Battery Company. (See Jäger, Carl, assignor.)						
Rock, Montague C., Sunnyside, England. Tripod-head	812,233	Feb. 13	1458	319	120	1858
Rockstroh, Charles F., assignor to Rockstroh Manufacturing Company, Brooklyn, N. Y. Stereotype-plate holder	809,209	Jan. 9	1611	327	120	388
Rockstroh, Charles F., assignor to Rockstroh Manufacturing Company, Brooklyn, N. Y. Printing-plate holder	811,328	Jan. 30	5516	1149–50	120	1357
Rockstroh Manufacturing Company. (See Rockstroh, Charles F., assignor.)						
Rockstroh, Max, Dresden-Heidenau, Germany. Safety device for two-revolution printing-presses	809,748	Jan. 9	2292	474	120	536
Rockwell, Byrd C., Peria, Ark., assignor to Rockwell Manufacturing Co. Window-screen fastening	808,686	Jan. 2	120	28	120	29
Rockwell, Edward D., Bristol, Conn. Trolley attachment	809,630	Jan. 9	2087	429	120	485
Rockwell Manufacturing Co. (See Rockwell, Byrd C., assignor.)						
Roderick, Genevieve G. (See Roderick, Joseph and G. G.)						
Roderick, Joseph and G. G., New York, N. Y. Burglar-alarm	813,917	Feb. 27	4784	1057	120	2673
Rodger Ballast Car Company. (See Hart and Yost, assignors.)						
Rodger Ballast Car Company. (See Meissner, Otto W., assignor.)						
Rodgers, Clarence F., Conneaut, Ohio. Dental and surgical lamp	811,442	Jan. 30	5719	1198	120	1399
Rodgers, Clarence F., Conneaut, Ohio. Collar-button	811,443	Jan. 30	5720	1198	120	1399
Rodgers, Louis E., Chicago, Ill. Rail-clip	813,738	Feb. 27	4417	974	120	2594
Rodney, Michael J., J. J. Ford, Fort Dodge, F. M. Conroy, A. Burson, and F. W. Fitch, Fonda, Iowa. Grain-shock and hay loader	810,511	Jan. 23	3908	803–4	120	975
Rodrigues y Fonoll, Jacinto, Cienfuegos, Cuba. Furnace	810,348	Jan. 16	3539	727	120	856
Roehl, Robert C., Chicago, Ill. Gas-controller for flash-lights and the like	809,077	Jan. 2	907	191	120	208
Roener, Joseph J., *et al.* (See McDonner, Charley, assignor.)						
Roeske, Henry, assignor to E. Printz, Philadelphia, Pa. Apparatus for degreasing substances	810,223	Jan. 16	3259	675–6	120	795
Rogan, John A. (See Buckley, McGinn, and Rogan.)						
Rogers, Charles. (See King, Arthur W., assignor.)						
Rogers, George M. (See Turner, Edward W., assignor.)						
Rogers, James M., *et al.* (See Hughes, Edwin T., assignor.)						
Rogers, John, Platteville, Wis. Molding-machine	811,873	Feb. 6	643	141	120	1621
Rogers, John, assignor to Bates Valve Bag Company, Cleveland, Ohio. Valve-bag	810,349	Jan. 16	3540	727	120	856
Rogers, John, assignor to Bates Valve Bag Company, Cleveland, Ohio. Valve-bag	812,454	Feb. 13	1697	415	120	1951
Rogers, John, assignor to Bates Valve Bag Company, Cleveland, Ohio. Valve-bag	812,455	Feb. 13	1698	416	120	1951
Rogers, John F., Belfast, Me. Vamp-marking machine	811,346	Jan. 30	5357	1118	120	1323
Rogers, John R., Brooklyn, N. Y., assignor to Mergenthaler Linotype Company. Linotype-machine	808,873	Jan. 2	476	104–5	120	106
Rohde, Harry B., assignor of one-half to C. A. Gleason, Detroit, Mich. Tea-kettle	812,456	Feb. 13	1888	416	120	1951
Rohlfing, John M., and P. D. Horton, Alliance, Ohio. Safety device for hoisting mechanisms	813,451	Feb. 27	3865	847	120	2478
Rohrer, John S., Lancaster, Pa. Pruning implement	812,528	Feb. 13	2037	447	120	1983
Rollins, Charles H., Watertown, Mass. Water-closet	809,222	Jan. 2	1195	244	120	264
Rollins, George E., East Bridgewater, Mass. Welt-making machine. (Reissue)	12,429	Jan. 2	1334	271	120	293
Rollins, John E., assignor to Crane Company, Chicago, Ill. Adjustable pipe-bracket	813,588	Feb. 27	4140	907	120	2535
Romberger, Harry R., Winona, Miss. Nut-lock	810,084	Jan. 16	2970	620	120	738
Rood, Lloyd V., Marietta, Ohio. Filter	811,684	Feb. 6	255	56	120	1541
Rooney, James, New York, N. Y. Car-coupling	811,320	Jan. 30	5520	1150	120	1358
Roop, Albert L. and F. C., Philadelphia, Pa. Machine for stuffing cushions	811,095	Jan. 30	5033	1051–2	120	1254
Roop, Fannie C. (See Roop, Albert L. and F. C.)						
Roos, Theophilus, Newark, N. J. Mold for the manufacturing of hair-pins	808,949	Jan. 2	647	141	120	143
Roost, Hermann, St. Imier, Switzerland. Watch	812,234	Feb. 13	1459	320	120	1858
Rose, Edwin G. and J. R., Empire, assignors of one-third to F. G. Porter, Wellsville, Ohio. Automatic cut-off	809,749	Jan. 9	2293	475	120	537
Rose, Henry, Shreveport, La. Banana-crate	812,060	Feb. 6	1111	245	120	1715
Rose, James R. (See Rose, Edwin G. and J. R.)						
Rose, John H., Shreveport, La. Combined scaffold and step-ladder	812,091	Feb. 6	1112	245	120	1715
Rose, William H., Baltimore, Md. Dropper for disinfecting apparatus	809,014	Jan. 2	777	167	120	171
Rose, William H., Baltimore, Md. Door-operated air-pump for atomizers	812,863	Feb. 20	2725	599	120	2189
Rosebrough, David R., Casey, Ill. Clothes-pin	808,587	Jan. 2	122	28	120	29
Rosen, Charles O. (See Dawson and Rosen.)						
Rosenberg, Charles B. (See Rosenberg, Frank J. and C. B.)						
Rosenberg, Frank J. and C. B., Los Angeles, Cal. Ledger	810,677	Jan. 23	4218	873	120	1043
Rosenberg, Max, Philadelphia, Pa. Trousers-rack	812,339	Feb. 20	3429	755	120	2321
Rosenblum, Moritz E., New York, N. Y. Safety device for scarf-pins	809,750	Jan. 9	2295	475	120	537
Rosenwasser, Morris, New York, N. Y. Legging	810,982	Jan. 30	4846	1009	120	1212
Roswarne, Richard E., Covington, Ky. Variable-speed mechanism	809,845	Jan. 9	2465	512–13	120	575
Ross, Charles W., Newton, Mass. Device for cutting vegetable and other growths from the inner surfaces of sewer and similar pipes	813,739	Feb. 27	4419	974–5	120	2594
Ross, George, and S. F. Deal, Kansas City, Mo. Road-bed	811,746	Feb. 6	393	.....	120	1572
Ross, James. (See Mackenzie and Ross.)						
Ross, John F., assignor to W. E. and P. F. Ross and C. F. Vanhorn, Toronto, Canada. Can	809,983	Jan. 16	2750	565	120	689
Ross, Percy F., *et al.* (See Ross, John F., assignor.)						
Ross, William E., *et al.* (See Ross, John F., assignor.)						
Rotary File and Mashing Company. (See Sweet, Parker H., assignor.)						
Rote, Charles V., *et al.* (See Miller, Ernest H., assignor.)						
Rote, Charles V. (See Miller and Rote.)						
Roth, Charles C., assignor to Denver Tent and Awning Company, Denver, Colo. Combined smoke-flue and ventilating device	809,223	Jan. 2	1197	245	120	265
Roth, Eugen, Schlesberg, near Berlin, Germany. Pressure and suction device	811,330	Jan. 30	5521	1150–1	120	1358
Roth, John A., Massbel, Ohio. Equalizing device for vehicle-springs	813,365	Feb. 20	3727	819	120	2383
Rouleau, Joseph A. A., St. Cunegonde, assignor of one-half to C. H. J. Bowden, Montreal, Canada. Merchandise-hook	812,336	Feb. 12	1460	320	120	1858
Rouse, Henry B. (See Barber, Frank M., assignor.)						
Rouse, Ida M., Kansas City, Mo. Dress or skirt gage	809,494	Jan. 9	1743	380	120	417
Rousseau, Frank L., Chicago, Ill. Pencil	812,822	Feb. 27	4017	880	120	2509
Roussel, Willis J., New Orleans, La., assignor of one-eighth to A. King, Chicago, Ill. Electrically-operated type-writer	811,347	Jan. 30	5359	1119	120	1324
Rowan, Robert E. (See Craig and Rowan.)						
Rowe, David H. (See Johnson and Rowe.)						
Rowe, David H., Ogden, Ill. Dumping-wagon	810,088	Jan. 16	2972	620	120	738
Rowe, Lyell L. (See Tuttle and MacLean, assignors.)						
Rowe, William, Merrickville, near Sydney, assignor to Rowe's Patent Lock and Block Limited, Sydney, New South Wales, Australia. Railway-traffic-control system	812,897	Feb. 13	2176	476	120	2010

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume.		Official Gazette.	
			Spec.	Dr'g.	Vol.	Page.
Rowe, William J., and A. L. Witbeck, Cleveland, Ohio. Rotary engine	811,747	Feb. 6	394	85–6	120	1572
Rowell, Dudley G. (See Rowell, Guilford D., assignor.)						
Rowell, Guilford D., assignor of one-half to D. G. Rowell, Appleton, Wis. Lifter for lifting hollow blocks	813,060	Feb. 20	3062	676	120	2249
Rowell, William F., Deadwood, S. D. Attachment for garment-suspenders	812,367	Feb. 13	1714	376	120	1916
Rowe's Patent Lock and Block. (See Rowe, William, assignor.)						
Rowland, David E., and P. Bacher, assignors to Ney Manufacturing Company, Canton, Ohio. Hay-elevator	809,984	Jan. 16	2751	565–6	120	689
Rowland, Thomas F., New York, N. Y. Welded shell	810,812	Jan. 23	4473	929	120	1098
Rowland, Thomas F., New York, N. Y. Shell for torpedoes or similar purposes	810,983	Jan. 30	4848	1009	120	1213
Rowlands, Albert T., Carrick, Pa. Rail-joint	813,831	Feb. 27	4617	1022	120	2636
Rowley, James F., Chicago, Ill. Artificial limb	813,740	Feb. 27	4421	976	120	2595
Roy, Edward H. (See Roy, William D. and E. H.)						
Roy, Edward H., Nashville, Tenn. Door-latch	812,092	Feb. 6	1115	246	120	1715
Roy, William D. and E. H., Nashville, Tenn. Skirt-fastener	809,485	Jan. 9	1745	380	120	417
Royle, Vernon, Paterson, N. J. Pinion-guard for circular looms	811,177	Jan. 30	5222	1092	120	1293
Royle, Vernon E., Paterson, N. J. Piano machine-head for punching jacquard-cards	811,176	Jan. 30	5220	1091–2	120	1292
Rubin, Selvyn, New York, N. Y. Garment-clasp	810,678	Jan. 23	4219	873	120	1043
Rudbeck, Claus A., Gibson City, Ill. Velocipede	813,741	Feb. 27	4423	975	120	2595
Rudbeck, Claus A., Gibson City, Ill. Velocipede	813,742	Feb. 27	4426	976	120	2596
Rudd, Peter, Chicago, Ill. Bag-tying machine	813,832	Feb. 27	4618	1022–3	120	2636
Ruddick, Hamilton, deceased; W. H. Ruddick, New York, N. Y., administrator. Dynamometer	813,324	Feb. 20	3611	792	120	2359
Ruddick, Walter H., administrator. (See Ruddick, Hamilton.)						
Rude Brothers. (See Ham, Henry C., assignor.)						
Rude, Carl G. (See Sylstad and Rude.)						
Rudel, William F., assignor to A. T. Gridley, Aurora, Ind. Making starch	810,086	Jan. 16	2973	.....	120	738
Rudert, George K., Wilmington, Del. Steering device for vehicles	810,679	Jan. 23	4220	874	120	1043
Rudolph, Frank E., assignor of one-half to Carpenter Paper Company, Omaha, Nebr. Ruling-machine	811,331	Jan. 30	5522	1151	120	1358
Rudolph, Otto H. (See O'Bryan and Rudolph.)						
Ruehle, Carl, Orangeville, Ill. Bean-harvester	809,751	Jan. 9	2296	475–6	120	537
Ruff, Emma M., Brooklyn, N. Y. Window-shade bracket	811,874	Feb. 6	647	142	120	1622
Rufli, Herman, Indianapolis, Ind., assignor of one-half to A. W. Van Hafften, Minneapolis, Minn. Block-sawing machine	811,332	Jan. 30	5525	1151–2	120	1359
Rugg, Francis A., Greenfield, Mass. Rake	812,457	Feb. 13	1889	416	120	1951
Rugg, Walter S. (See Varley, Thomas W., assignor.)						
Ruhl, John. (See Farmer, Edwin T., assignor.)						
Rumely, William N., Laporte, Ind. Boiler	812,529	Feb. 13	2039	447	120	1983
Rumsfield, Henry I., and J. R. Donaho, Willowhole, Tex. Clothes-pin	813,589	Feb. 27	4141	907–8	120	2535
Rumrill, George E., Carrollton, Ill. Doubletree and whiffletree coupling	812,093	Feb. 6	1116	246	120	1716
Rundberg, Charles J., Kansas City, Mo. Incandescent-electric-lamp remover, replacer, and cleaner	809,985	Jan. 16	2753	566	120	690
Runyan, Clay M., Elyria, Ohio. Molding-machine	813,117	Feb. 20	3186	699	120	2274
Runyan, Clay M., Elyria, Ohio. Butter-churn	813,326	Feb. 20	3613	792	120	2359
Rupke, Max, Ohligs, Germany. Protecting-rail for building structures, stairs, corners, and the like	813,326	Feb. 20	3615	793	120	2359

Russell & Erwin Manufacturing Company. (See Caley, Charles J., assignor.)						
Russell & Erwin Manufacturing Company. (See Caley and Voight, assignors.)						
Russell & Erwin Manufacturing Company. (See Crandall, Nathan W., assignor.)						
Russell & Erwin Manufacturing Company. (See Papenfoth, Paul, assignor.)						
Russell & Erwin Manufacturing Company. (See Parker and Papenfoth, assignors.)						
Russell & Erwin Manufacturing Company. (See Shepard, Amos, assignor.)						
Russell & Erwin Manufacturing Company. (See Voight, Henry G., assignor.)						
Russell, James J., Milwaukee, Wis. Veneer-cutting machine	809,136	Jan. 2	1022	211	120	225
Russell, Robert C. (See Peters, John, assignor.)						
Ruth, George W., York, Pa., assignor to Ruth Machine Company. Stop-motion for knitting-machines	813,240	Feb. 20	3430	756	120	2321
Ruth Machine Company. (See Ruth, George W., assignor.)						
Ryan, Edward, Clinton, Iowa. Slack-adjuster for draw-bars	812,682	Feb. 13	2330	509	120	2038
Ryan, Nora, New York, N. Y. Portable wardrobe	813,452	Feb. 27	3867	847–8	120	2473
Ryan, Walter D., West Lynn, Mass. Salute-gun	809,752	Jan. 9	2297	476	120	537
Ryder, William H., Providence, R. I. Means for regulating the tension upon warp-threads of looms	813,833	Feb. 27	4626	1024	120	2640
Ryon, Eppa H., Worcester, Mass., assignor to Crompton & Knowles Loom Works. Loom reversing mechanism	810,680	Jan. 23	4222	874	120	1044
Ryon, Eppa H., Worcester, Mass., assignor to Crompton & Knowles Loom Works. Shuttle-operating mechanism	810,681	Jan. 23	4224	875	120	1044
Rypinski, Maurice C., New York, N. Y. Electrical measuring instrument	811,956	Feb. 6	880	187	120	1662
Rystrom, Charles, Rockford, Ill. Lock-nut	811,957	Feb. 6	883	188	120	1662
S. Morgan Smith Company. (See Smith, Charles E., assignor.)						
S. Pearson and Son. (See Japp, Henry, assignor.)						
S. Stevenson & Company. (See Wright, Walter, assignor.)						
S. S. Stafford, Incorporated. (See Frist, Robert P., assignor.)						
Sachsenröder, Gustav H., Barmen, Germany. Manufacturing lined or enveloped tubes of parchment-paper	809,846	Jan. 9	2467	513	120	576
Sackett, Frank L., Fredonia, N. Y. Game apparatus	810,224	Jan. 16	3261	676	120	795
Sackett, Frank L., Fredonia, N. Y. Game-piece	810,262	Jan. 16	3541	728	120	857
Saegmuller, George N., assignor to Bausch, Lomb, Saegmuller Co., Rochester, N. Y. Magnetic needle	811,248	Jan. 30	5365	1120	120	1325
Safety Car Heating & Lighting Company. (See Dixon, Robert M., assignor.)						
Safery, Joseph E., Brooklyn, N. Y., assignor to Mergenthaler Linotype Company. Linotype-machine	810,173	Jan. 16	3141	650	120	771
Sage, Cyrus H., *et al.* (See Sage, Frederick, assignor.)						
Sage, Enos B., *et al.* (See Sage, Frederick, assignor.)						
Sage, Frederick, assignor to E. B. Sage, Bedrock, and C. H. Sage, Johnsonburg, Pa. Fluid-pressure motor	811,664	Feb. 6	257	56–7	120	1541
Sagee, Charles W., assignor to Hero Fruit Jar Company, Philadelphia, Pa. Machine for molding glass	810,570	Jan. 23	4094	838–9	120	1000
Sager, Franklin P., Maplewood, Ohio. Clothes-drainer	812,894	Feb. 20	2728	600	120	2140
Sahlberg, Carl A., Chicago, Ill. Wave-motor	808,688	Jan. 2	122	28	120	29
Saighman, Edward S., Chicago, Ill. Massage-applicator	810,886	Jan. 23	4022	960–4	120	1139
Saks & Company. (See Saks, Horace A., assignor.)						
Saks, Horace A., assignor to Saks & Company, New York, N. Y. Lady's automobile-hat	811,178	Jan. 30	4224	1022	120	1293
Saling, Thomas F., Cora, Idaho. Plush hinge	808,187	Jan. 2	1034	212	120	225

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume		Official Gazette.	
			Spec.	Drs.	Vol.	Page.
Salmon, Carl R., Montreal, Canada, assignor of four-fifths to J. Fieber, F. Sarlay, Catasauqua, Pa., J. Mrazay and E. Firmen, Montreal, Canada. Fire-lighting apparatus.	813,453	Feb. 27	3899	848	120	2474
Salmon, Frederick W., assignor to Murray Iron Works Company, Burlington, Iowa. Engine-bed	809,466	Jan. 9	1746	360	120	418
Saltzgeall, Nathaniel, Battlecreek, Mich. Brooder	809,631	Jan. 9	2089	429–30	120	486
Salzer, Bruno, and G. Walther, Chemnitz, Germany. Means of converting constant oscillatory motion into rectilinear motion	810,308	Jan. 16	3446	712	120	836
Salzer, Bruno, and G. Walther, Chemnitz, Germany. Variable cam	810,353	Jan. 16	3543	728–9	120	857
Salzmann, Benno, Berlin, Germany. Jack-cord distributer	812,236	Feb. 13	1461	320	120	1858
Sametine, William H. (See Davis and Sametine.)						
Sampere, Jose, New York, N. Y., assignor to Regina Company, Rahway, N. J. Tone-modulating device for pianos	812,237	Feb. 13	1462	320–1	120	1859
Samuell, Charles A., Easton, Ill. Decoy	811,587	Feb. 6	106	23	120	1508
Samuell, Charles A., assignor of one-half to A. H. Penewitt, Easton, Ill. Decoy-duck-tethering device	811,586	Feb. 6	106	23	120	1508
Samuels, Jacob, Chicago, Ill., assignor to Bee-Hive Fly Catcher Company, Kenosha, Wis. Insect-catcher	811,875	Feb. 6	648	142	120	1623
Samuelson, Frederick, Rugby, England, assignor to General Electric Company. Controller for turbines	809,847	Jan. 9	2469	513–14	120	576
Samuelson, Frederick, Rugby, England, assignor to General Electric Company. Governing mechanism for elastic-fluid turbines	811,249	Jan. 30	5367	1120	130	1326
Sanborn, Moses L. (See Nolan and Sanborn.)						
Sanborn, Moses L., Boston, Mass. Check-valve	812,885	Feb. 20	2727	600	120	2170
Sandborg, Carl A., Bloomington, Ill. Rotary engine	812,398	Feb. 13	1714	376–7	120	1916
Sanders, Charles Z., Sacramento, Cal. Anchor emergency air-brake	809,632	Jan. 9	2073	430	120	487
Sanders, Stephen P., Cupertino, Cal. Carburetor	810,087	Jan. 16	2974	621	120	739
Sanderson, Edwin N., *et al.* (See Haller and Billingsley, assignors.)						
Sandison, William M., Ashfield, Ayton, Scotland, assignor of one-half to H. G. McKerrow, Newton, Mass. Prevention and laying of dust in roads, &c.	813,380	Feb. 20	3728	.....	120	2384
Sandner, Erich, assignor to American Suction Gas Producer Company, Lansing, Mich. Governor for suction gas-producers	809,848	Jan. 9	2471	514	120	576
Sandner, Erich, assignor to American Suction Gas Producer Company, Lansing, Mich. Gas-producer	809,849	Jan. 9	2472	514	120	577
Sandy Hill Iron and Brass Works. (See Packer, James W., assignor.)						
Sanford-Burton, Harry, Oxford, England. Grinding stone and disk employed in mechanical and operative dentistry	813,348	Feb. 20	3651	800	120	2367
Sanguinetti, Herbert, London, England. Oscillating cylindrical pulp-strainer	810,813	Jan. 23	4474	929–30	120	1098
Sanitary Cow Milking Company. (See Good, Ezra E., assignor.)						
Sankey, William A., Sutton, assignor to F. Reddaway, Manchester, England. Pneumatic-tire cover	809,530	Jan. 9	1864	387	120	444
Santini, Adolphus P., Buenavista, Fla. Bicycle attachment	810,814	Jan. 23	4476	931	120	1098
Sarason, Leopold, Berlin, assignor to C. F. Boehringer & Soehne, Mannheim-Waldhof, Baden, Germany. Milk-preserve and making same	809,138	Jan. 2	1025	.....	120	225
Sargent & Company. (See Sargent, Edward H., assignor.)						
Sargent, Edward H., assignor to Sargent & Company, New Haven, Conn. Casket-handle	810,088	Jan. 16	2977	621	120	739
Sargent, Howard R., Schenectady, N. Y., assignor to General Electric Company. Wall-receptacle	811,795	Feb. 6	493	106	120	1591
Sargent, Howard R., Schenectady, N. Y., assignor to General Electric Company. Snap-switch	811,796	Feb. 6	494	107	120	1591
Sarlay, Francis, *et al.* (See Salmon, Carl R., assignor.)						
Sartain, Heraclitus H., Burroughs Cove, Tenn. Air-brake coupling	813,290	Feb. 20	3730	819	120	2384
Saugen, Michael J., St. Mathias, Minn. Wagon-box and hay-rack lifter	810,512	Jan. 23	3014	804–5	120	976
Sattley Manufacturing Company. (See Weaver, Ira A., assignor.)						
Sauer, George L. (See Fairbanks and Sauer.)						
Saugstad, Olaf, assignor to W. B. Wadsworth, Plainfield, N. J. Cut-off socket	808,689	Jan. 2	123	29	120	30
Sautter, Gaston. (See Rateau and Sautter.)						
Savage, Arthur J., Utica, N. Y., assignor to J. Stevens Arms & Tool Company, Chicopee Falls, Mass. Firearm	810,571	Jan. 23	4025	829	120	1000
Savage, George R., Meriden, Conn. Water-cooler	808,692	Jan. 2	127	29	120	30
Savage, George R., Meriden, Conn. Water-cooler	808,781	Jan. 2	326	70	120	72
Savelsberg, Joseph, Papenburg, Germany. Treating ores	810,572	Jan. 23	4028	.....	120	1000
Savery, Thomas H., Wilmington, Del. Wood-grinder	813,234	Feb. 27	4630	1094	120	2641
Sawyer, Foster and Hardy. (See Bridge and Ellis, assignors.)						
Sawyer, Frank M., Charlotte, N. C. Building-block	812,399	Feb. 13	1716	377	120	1917
Sawyer, Frank M., Charlotte, N. C. Mold for molding tiles and similar articles	813,500	Feb. 27	4142	908	120	2536
Saxon, William, Worcester, Mass. Rotary toy for baby or doll carriages	813,201	Feb. 20	3731	820	120	2384
Saxton, Edmund L., Lenox, Mich. Measuring-tape	808,139	Jan. 2	1026	212	120	225
Sayer, Robert G., Bristol, England. Retaining horizontal and vertical spaces	812,952	Feb. 20	2664	631–3	120	2201
Scanlon, John S. (See Scanlon and Arnold.)						
Scanlon, Mary E. (See Scanlon and Arnold, assignors.)						
Scanlon, Michael L. and J. S., and A. A. Arnold; said Michael L. Scanlon and J. S. Scanlon assignors of one-fourth to M. E. Scanlon, Galion, Ohio. Hose-coupling	810,364	Jan. 16	3545	729	120	857
Schaad, Ernst, Lucerne, Switzerland. Coupling-joint for pipe-sections	812,454	Feb. 27	3570	848	120	2474
Schaaf, Albert E., and F. S. Davis, Toledo, Ohio. Automobile-frame	813,178	Feb. 20	3311	726	120	2297
Schaeffer, William G., assignor to W. F. Kemppis, Reading, Pa. Cushion-fork for motor-cycles and other vehicles	811,260	Jan. 30	5370	1121	120	1327
Schaer, Dietrich, Sacramento, Cal. Window-ventilator	812,228	Feb. 13	1464	321	120	1859
Schaetzler, George M. (See Schaetzler, John M., assignor.)						
Schaetzler, John M., Hamburg, assignor of one-half to G. M. Schaetzler, Indianapolis, Ind. Fruit-evaporator	812,227	Feb. 13	1599	351	120	1891
Schaaf, Richard O., Philadelphia, Pa. Window	813,455	Feb. 27	3671	848	120	2474
Schaan, Henry, Milwaukee, Wis. Tasting-engine	808,660	Jan. 2	648	141	120	143
Schaaf, Oscar F., Cincinnati, Ohio. Drop-handle for coffins	809,457	Jan. 9	1747	361	120	418
[illegible], Oscar F., New York, N. Y., assignor to Submarine Gold Mining Company. Submarine [illegible]	809,633	Jan. 9	2075	430	120	487
[illegible], Richard G. H., Orange, N. J. Diamond	809,531	Jan. 9	1886	397	120	444
[illegible], Albert [illegible], assignor to J. Williamson, Chicago, Ill. Valve for gas-generators	812,853	Feb. 13	2331	509–10	120	2086
[illegible], Albert [illegible], Wis. Confectioner's work-table	811,179	Jan. 30	5224	1086	130	1286
[illegible], Albert, Adams, Pa. Replanting attachment for cultivators	812,230	Feb. 13	1466	321–2	120	1860
[illegible], Albert (See Schaefer, John A., assignor.)						
[illegible], Fly Mountain, N. Y. Self-adjusting belt for supporting catamenial						
[illegible], Gustav R., Detroit, Mich. Mixing-tile	813,175	Feb. 20	3312	726	120	2297
[illegible], William F., Cleveland, Ohio. Filter	812,953	Feb. 20	2667	632	120	2202
[illegible], [illegible], New York, N. Y. Chain	813,237	Feb. 20	3616	796	120	2369
	808,615	Jan. 2	773	166	120	171

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume.		Official Gazette.	
			Spec.	Drs.	Vol.	Page.
Schlatter, Alfred, and L. Deutsch, Budapest, Austria-Hungary. Apparatus for analysis of gases	813,671	Feb. 27	4389	946	120	2639
Schlichter, David A., Brown City, Mich. Silo	812,288	Feb. 13	1601	361	120	1891
Schlosser, Robert J., and H. R. Fisher, assignors to Pisc Company, Warren, Pa. Bottle-corking machine	809,880	Jan. 9	2473	515	120	577
Schmertz, Edmund C., deceased; R. Longenecker, administrator, assignor, by mesne assignments, to Schmertz Wire Glass Company, New York, N. Y. Apparatus and process for manufacturing wire-glass. (Reissue)	13,443	Jan. 30	5890	1235	120	1435
Schmertz Wire Glass Company. (See Schmertz, Edmund C., assignor.) (Reissue.)						
Schmid, Henry. (See Jeanmaire and Schmid.)						
Schmidgall, Frederick. (See Schmidt and Schmidgall.)						
Schmidmer, Georg E., Nuremberg, Germany. Flexible electrical conductor	809,498	Jan. 9	1749	361	120	418
Schmidt, Albrecht, and E. Kronholz, assignors to Farbwerke vorm. Meister, Lucius & Brüning, Höchst-on-the-Main, Germany. Chlorinating indigo	812,886	Feb. 13	2185	.....	120	2011
Schmidt, August, Langensalza, Germany. Apparatus for moistening and warming rooms or apartments	813,228	Feb. 20	3618	793	120	2360
Schmidt, Gustav, and F. Schmidgall, Cincinnati, Ohio, assignors to Cincinnati Butchers Supply Company. Knocking-pen	811,966	Feb. 6	853	188	120	1662
Schmidt, John. (See Heinrich, Schmidt, and Etheridge.)						
Schmidt, Robert E., Elberfeld, Germany, assignor to Farbenfabriken of Elberfeld Co., New York N. Y. Green anthraquinone dye	812,884	Feb. 13	2336	.....	120	2039
Schmidt, Robert E., and K. Thun, Elberfeld, Germany, assignors to Farbenfabriken of Elberfeld Co., New York, N. Y. Yellow-green anthraquinone dye	812,890	Feb. 13	2186	.....	120	2011
Schmitt, Johann R., assignor to Maschinenfabrik für Tabakindustrie Gesellschaft mit Beschränkter Haftung, Frankfort-on-the-Main, Germany. Machine for the production of cheroots	809,499	Jan. 9	1750	361	120	418
Schmitt, John, Brooklyn, N. Y. Nut-lock	812,399	Feb. 13	1602	362	120	1891
Schmitt, Simon A. (See Applegate, Clarence R., assignor.)						
Schmits, Albert, Raunheim, Germany. Tubes, single or compound, with longitudinal ribs	813,918	Feb. 27	4786	1057	120	2674
Schneckenburg, Herman, Hoboken, N. J. Device for cutting butter	809,522	Jan. 9	1887	388	120	444
Schneckloth, Henry, Holstein, Iowa. Ice-velocipede	813,025	Feb. 20	3005	662	120	2220
Schneider, Charles P. E., Le Creusot, France. Apparatus for loading guns in turrets, &c.	811,797	Feb. 6	496	107–12	120	1592
Schneider, Hugo, Cleveland, Ohio. Automatic gas-controlling device	811,898	Feb. 6	108	28	120	1500
Schneider, Jacob, Newport, Ky. Curtain-fastener	809,140	Jan. 2	1027	212	120	226
Schneider, John C., Winona, Minn. Steam-boiler	812,682	Feb. 13	2336	510–11	120	2039
Schneider, Peter, Oswego, N. Y. Dumping-car	809,010	Jan. 2	779	166	120	172
Schneider, Reinhold, Sharon, Pa. Arch	811,261	Jan. 30	5371	1121	120	1327
Schnell, Heinrich, Cologne, Germany. Wheel for plow-locomotives	812,000	Feb. 13	2187	477	120	2011
Schoemaker, Jan. (See Frentzen and Schoemaker.)						
Schoen, Herman J., Brooklyn, N. Y. Power plate-printing press	813,241	Feb. 20	3432	756–7	120	2322
Schoenberg, Ralph A. (See Klein, Charles J., assignor.)						
Schoenborn, Gustav C., assignor to Winkley Company, Hartford, Conn. Oil-cup	813,891	Feb. 27	4144	906	120	2636
Schoettl, Joseph, C. Jaeger, and P. Walsleben, assignors to D. Frank, Brooklyn, and J. Trounstine, New York, N. Y. Operating-table	812,240	Feb. 13	1466	322	120	1860
Schofield, Frederick C., Washington, D. C. Collapsible bed and similar furniture	810,573	Jan. 23	4029	839	120	1001
Schofield, William B., and M. P. Osbourn, Merchantville, N. J. Automatic controlling device for gas-stoves	811,959	Feb. 6	856	188	120	1663
Scholfield, Joseph J., Providence, R. I. Cloth winding and measuring machine	813,743	Feb. 27	4427	976–7	120	2596
Schön, Ludwig, Vienna, Austria-Hungary. Safety-spout for receptacles containing volatile inflammable liquids	809,634	Jan. 9	2079	431	120	487
Schoonmaker, William E., Montclair, N. J. Valve mechanism for internal-combustion engines	809,400	Jan. 9	1617	328	120	388
Schork, Henry T., and F. A. Stahl, New York, N. Y. Syringe	812,686	Feb. 13	2336	511	120	2039
Schott, Charles H. (See Thurston, Horace, assignor.)						
Schotto, Louis C., St. Louis, Mo. Ash-pan	812,370	Feb. 13	1716	377	120	1917
Schou, Christian W., Antvorskov, near Slagelse, Denmark. Apparatus for the production of line designs on bricks, &c	813,592	Feb. 27	4145	908–9	120	2636
Schrade, George, Walden, N. Y. Pocket-knife	812,601	Feb. 13	2189	477	120	2011
Schrader, George H. F., assignor to A. Schrader's Son, Incorporated, New York, N. Y. Tire and other valve	809,986	Jan. 16	2755	606	120	690
Schrader, John R., Buffalo, N. Y. Car journal-box	809,685	Jan. 9	2080	431–2	120	488
Schreiber, Edward A., and J. G. Klier, Rochester, N. Y. Razor-guard	809,234	Jan. 2	1196	245	120	265
Schreyer, Benjamin Z., Columbus, Ohio. Wardrobe-hook	809,017	Jan. 2	781	166	120	172
Schroeder, Conrad, Milwaukee, Wis. Means for corking or closing bottles or other receptacles	811,876	Feb. 6	649	142	120	1628
Schroeder, Henry. (See Hinchman and Schroeder.)						
Schroeder, William S., Chicago, Ill. Car-coupling	813,744	Feb. 27	4430	977	120	2636
Schuh, Frank, Albany, N. Y. Water-closet	811,444	Jan. 30	5721	1198	120	1389
Schulhoff, Saul, Philadelphia, Pa. Speed-indicator	811,898	Feb. 6	280	57	120	1542
Schuller, Lawrence, Chicago, Ill. Centering for arches	808,951	Jan. 2	651	142	120	143
Schuller, Martin M., Chicago, Ill. Shingle-fastening device	811,445	Jan. 30	5722	1198	120	1400
Schulte, Georg A. H. (See Henke and Schulte.)						
Schulte, Joseph, Jr., Walford, Iowa. Water-wheel	813,672	Feb. 27	4301	946	120	2670
Schultz, Louis N., Oakland, Miss. Plow	813,115	Feb. 20	3301	700	120	2275
Schultz, William J., Cincinnati, Ohio. Loose-leaf binder	813,919	Feb. 27	4789	1057	120	2674
Schultz, William J., Cincinnati, Ohio, and H. Gerding, Newport, Ky., assignors to Tenacity Loose-Leaf Metal Company, Cincinnati, Ohio. Loose-leaf book-back	812,603	Feb. 13	2190	477	120	2011
Schulz, John D. H. (See Brower and Schulz.)						
Schuh, Otto C., assignor to Bauer & Black, Chicago, Ill. Dental-silk box	808,660	Jan. 2	125	29	120	30
Schumacher, Wilhelm, Oberdollendorf, Germany. Manufacturing artificial paving-stones	809,226	Jan. 2	1189	.....	120	265
Schumaker, Frank K., Fort Scott, Kans. Stay for harness-breeching	811,321	Jan. 30	5668	1238	120	1428
Schuman, James B., assignor of three-fourths to A. Bates, Indianapolis, Ind. Grain-conveyer	809,670	Jan. 9	1753	362	120	419
Schuspbach, Armand L., New Britain, Conn. Fish-trap	813,200	Feb. 13	1468	322	120	1891
Schurman, Charles H. (See Blair, Constance A., assignor.)						
Schutte and Koerting Company. (See Schutte and Körting, assignors.)						
Schütte, Louis, Philadelphia, Pa., and E. Körting, Pegli, Italy, assignors to Schutte and Koerting Company, Philadelphia, Pa. Calorimeter	808,696	Jan. 2	126	30	120	31
Schutz, Edward J., Akron, Ohio. Hot-water bottle	809,141	Jan. 2	1028	213	120	226
Schutz, Edward J., Akron, Ohio. Hot-water bottle	809,142	Jan. 2	1029	213	120	226
Schutz, Edward J., Akron, Ohio. Making hot-water bottles	809,143	Jan. 2	1030	213	120	226
Schwamer, Conrad. (See Hartmann and Schwamer.)						
Schwartz, Fred M., *et al.* (See Sweeney, James M., assignor.)						
Schwartz, Walter M., Philadelphia, Pa. Veneer-slicer	811,468	Jan. 30	5722	1199	120	1400

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Schwarz, Constantine P., Elyria, Ohio. Side plate for filters	812,530	Feb. 13	2040	447	120	1983
Schwarz, Henry H. A., Brighton, England. Pencil-sharpener	811,798	Feb. 6	501	112	120	1592
Schwarze, Carl J., assignor to Schwarze Electric Company, Adrian, Mich. Telegraph instrument	812,773	Feb. 13	2501	550	120	2073
Schwarze Electric Company. (See Schwarze, Carl J., assignor.)						
Schwedt, Charles, Buffalo, N. Y. Extensible scaffold-board	812,201	Feb. 13	1605	352	120	1892
Schwerdtfeger, Charles, *et al.* (See Werner, Emil, assignor.)						
Schwing, George. (See Yunker and Schwing.)						
Scofield, Lyan M. (See McDonald and Scofield.)						
Scott, Charles S., Cadiz, assignor of one-half to F. A. Seiberling, Akron, Ohio. Wheel-rim	809,533	Jan. 9	1868	388	120	444
Scott, Francis R., *et al.* (See Kelly, Alonzo, assignor.)						
Scott, James C., assignor to Scott Muffler Co., Portsmouth, Ohio. Neck-muffler	811,096	Jan. 30	5037	1062	120	1255
Scott, John E., Philadelphia, Pa. Roaster	809,851	Jan. 9	2479	516	120	579
Scott Muffler Co. (See Scott, James C., assignor.)						
Scott, Robert E., and L. O. Steinhoff; said Scott assignor to A. C. Lea, Simcoe, Canada. Continuous steam-cooker	812,154	Feb. 6	1263	276–7	120	1747
Scott, Samuel J., Columbus, Ohio. Rail fastening and support	813,673	Feb. 27	4302	947	120	2570
Scotts, Walter, Plainfield, N. J. Printing and folding machine	810,225	Jan. 16	3263	676–7	120	795
Scott, Walter, Plainfield, N. J. Printing and delivery mechanism	810,886	Jan. 23	4626	964	120	1130
Scott, William, assignor to Kaumagraph Co., New York, N. Y. Roller stamping device	809,018	Jan. 2	782	169	120	172
Scott, William A., and W. S. McCall, Quincy, Fla. Rein-guard	813,329	Feb. 20	3619	794	120	2361
Scott, William H., Maplewood, Mo., assignor to Elliot Frog & Switch Company, East St. Louis, Ill. Adjustable switch-rod	813,920	Feb. 27	4791	1058	120	2675
Scott, Zaccheus, West Newton, Pa. Vessel	813,177	Feb. 20	3314	729	120	2296
Scovill Manufacturing Company. (See Nichols, Arthur C., assignor.)						
Scoville, Eugene M., Waipahu, Hawaii. Device for calculating horse-power	809,019	Jan. 2	783	169	120	172
Scribner, Charles E., Jericho, Vt., assignor to Western Electric Company, Chicago, Ill. Annunciator-drop	812,954	Feb. 20	2899	634	120	2202
Scudder, John M., Farmington, Ill. Car-replacer	812,302	Feb. 13	1606	352	120	1892
Seabury, Gorham T., Cheyenne, Wyo. Water or fluid gaging tube	809,471	Jan. 9	1756	362–3	120	420
Seal, John W., London, assignor of two-thirds to J. B. Langford, Chiswick, England. Incandescent igniter for use with internal-combustion engines	813,456	Feb. 27	3872	849	120	2474
Seaman, Alonzo D., *et al.* (See Theil, Charles W., assignor.)						
Seaman, John T., *et al.* (See Theil, Charles W., assignor.)						
Seaman, Joseph S., Pittsburg, Pa. Apparatus for treating molten metal	811,097	Jan. 30	5038	1053	120	1255
Seaman, Joseph S., Pittsburg, Pa. Treating molten metal	811,522	Jan. 30	5858	1228–9	120	1428
Searer, Christian, Vandalia, Mich. Draft-gear for vehicles	809,328	Jan. 9	1443	292	120	351
Sears, Willard T., Philadelphia, Pa., assignor to Niles-Bement-Pond Company, Jersey City, N. J. Variable-speed gearing	812,886	Feb. 20	2729	600	120	2170
Seasholtz, Edward G., Sunbury, Pa. Mail-box	810,089	Jan. 16	2978	621	120	739
Secor, John A., New York, N. Y., assignor to General Power Company. Speed-regulator for explosive-engines	812,371	Feb. 13	1718	377–8	120	1917
Secrist, William J. (See Peter and Secrist.)						
Seddon, Henry C., West Kensington, England. Fuse for projectiles	811,252	Jan. 30	5372	1121	120	1327
Seddon, Henry C., West Kensington, England. Fuse for projectiles	811,667	Feb. 6	262	57	120	1542
Seddon, Henry C., West Kensington, England. Fuse for projectiles	811,668	Feb. 6	263	57	120	1543
See, Arthur R., Alma, Ill. Key-ring	812,458	Feb. 13	1890	416	120	1951
Seebach, George W., New York, N. Y. Grip for ropes and the like	813,457	Feb. 27	3873	849	120	2475

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Seyfang, John F. (See Bennett and Seyfang.)						
Seyhers, Frank, Lead, assignor of one-half to J. Lapp, Rochford, and R. H. Driscoll, Lead, S. D. Railway-tie	809,401	Jan. 9	1619	328	120	389
Seymour, Albert P., Syracuse, assignor to Pass & Seymour, Incorporated, Solvay, N. Y. Socket for incandescent electric lamps	811,263	Jan. 30	5375	1121	120	1327
Seymour, Charles D., Rensselaer, N. Y. Adjustable leg for billiard-tables	809,078	Jan. 2	911	191	120	202
Seymour, Georga. (See Lidks and Seymour.)						
Shaaber, Mahlon, Reading, Pa. Ball-bearing trolley-wheel bushing	809,852	Jan. 9	2480	516	120	579
Shackleford, Gibbon C., Allegheny, Pa. Charging apparatus for blast-furnaces	809,754	Jan. 9	2301	477	120	539
Shafer, Lemeon P., and C. Devis, Canton, Ohio. Sand or clay screen	810,662	Jan. 23	4226	875	120	1045
Shaffer, Francis F., assignor of one-third to P. W. Cavanaugh, Cumberland, Md. Railway-car truck	810,815	Jan. 23	4477	931	120	1099
Shaffield Car Company. (See Donovan, James, assignor.)						
Shaker, Alfred, Chicago, Ill. Pantograph	811,333	Jan. 30	5526	1152	120	1359
Shakespeare, Franklin H., East Orange, N. J. Continuous-rail frog and switch	812,687	Feb. 13	2337	511–12	120	2039
Shanck, Henry K., Cleveland, Ohio. Explosive-engine	813,748	Feb. 27	4433	978–9	120	2598
Shanklin, Philip A., assignor to J. E. Taylor, Sandoval, Ill. Rolling-colter standard and fork attachment	811,447	Jan. 30	5724	1199	120	1400
Shankwiler, Donald P., South Bend, Ind. Ruling device	810,356	Jan. 16	3547	730	120	858
Shannon, Charles E., Marble City, Ind. Ter. Railway-tie	813,243	Feb. 20	3435	757	120	2322
Shannon, Charles V., Dawson, Canada. Copy-holder	811,962	Feb. 6	862	189	120	1664
Shannon, John J., Bangor, Me. Lifting-jack	809,584	Jan. 9	1988	408	120	464
Shahnon, Peter, Chicago, Ill. Speed-changing mechanism	812,888	Feb. 20	2732	601	120	2170
Sharman, John A. (See Thompson and Sharman.)						
Sharp, John, Glasgow, Scotland. Rotary exhauster	812,688	Feb. 13	2342	512	120	2040
Sharp, John M., Chattanooga, Tenn. Calculating-machine	810,090	Jan. 16	2982	622	120	740
Sharp, Lee C., Omaha, Nebr., assignor to American Can Company, New York, N. Y. Apparatus for forming and soldering can-bodies	812,955	Feb. 20	2870	634–5	120	2202
Shatto, Clyde O., Sharon, Pa., and L. S. Denison, Ravenna, Ohio. Electric time-switch	811,589	Feb. 6	109	23–4	120	1509
Shaules Amusement Construction Company. (See Shaules, Herbert A., assignor.)						
Shaules Herbert A., assignor to Shaules Amusement Construction Company, New York, N. Y. Target	811,963	Feb. 6	863	190	120	1665
Shaw, John, Kirwin, Wyo. Lock-buckle	812,372	Feb. 13	1726	378	120	1918
Shaw, Ora D., Boston, Mass. Sewing-machine	809,980	Jan. 16	2761	568	120	691
Sheafer, James E. (See Skinner and Sheafer.)						
Sheaffer, James E., assignor of one-half to O. C. Skinner, Burnham, Pa. Preventing the formation of clinker in gas-producers	809,021	Jan. 2	786	169	120	173
Shearley, Arthur M., Stockton, Cal. Fiber-baling machine	812,155	Feb. 6	1266	277	120	1747
Shearer, Andrew, Frankfort, Kans. assignor of one-half to L. Kirlin, Kansas City, Mo. Combined lister-plow and planter	810,576	Jan. 23	4033	830	120	1001
Shedd, Harrison B. (See Solomon, Emmet O., assignor.)						
Sheehy, William E., Boston, Mass. Power-hammer for forging tapered work	811,669	Feb. 6	263	58	120	1543
Sheets, Henry W. (See Straube, Francis M., assignor.)						
Sheets, Jacob L., Stella, Wash. Detachable saw-handle	811,099	Jan. 30	5041	1054	120	1255
Sheetz, William J., assignor of one-half to H. M. Baker, Washington, D. C. Hot-water heating system	812,889	Feb. 20	2734	601–2	120	2171
Sheetz, William J., assignor of one-half to H. M. Baker, Washington, D. C. Boiler	812,890	Feb. 20	2736	602	120	2171
Sheffield Car Company. (See Donovan, James, assignor.)						
Shelby Steel Tube Company. (See Wikstrom, Malcolm, assignor.)						
Shellenberger, John, Rome, Ga. Crate-nailing-up form	811,448	Jan. 30	5726	1199	120	1401
Shellenberger, John, Rome, Ga. Fruit-crate	811,449	Jan. 30	5729	1200	120	1401
Shem, George W., assignor to Alliance Machine Company, Alliance, Ohio. Automatic brake	810,227	Jan. 16	3273	678	120	797
Shepard, Amos, Plainsville, assignor to Russell & Erwin Manufacturing Company, New Britain, Conn. Latch	809,534	Jan. 9	1869	388	120	445
Shepard, Charles H., New York, assignor to Wyckoff, Seamans & Benedict, Ilion, N. Y. Type-writing machine	808,875	Jan. 2	492	106–7	120	110
Shepard, James A., assignor to General Pneumatic Tool Company, Montour Falls, N. Y. Pneumatic dolly	813,921	Feb. 27	4792	1066	120	2675
Shepard, William E., Paris, France. Steam-turbine	811,578	Feb. 6	653	143–5	120	1624
Shepherd, Frank D., Salt Lake City, Utah. Smokeless furnace	811,746	Feb. 6	396	85–7	120	1573
Shepherd, Harry C., Crete, Nebr. Cuff-fastening	812,603	Feb. 13	2193	476	120	2012
Shepherd, John, Toledo, Ohio. Adjustable bed-bottom	813,456	Feb. 27	3874	849	120	2475
Shepherd, John H., Huron, Ohio. Window-sash	809,900	Jan. 16	2763	568	120	692
Sherer, Ralph, Eaton, Ohio. Telephone system	813,330	Feb. 20	3620	794	120	2361
Sheridan, Frank, Anamosa, Iowa. Dustless attachment for brooms	809,901	Jan. 16	2764	568	120	692
Sheridan, Frank E., *et al.* (See Mitchell, Ira O., assignor.)						
Sherwood, Matthew M., assignor of one-half to B. K. Nyce, Scranton, Pa. Fifth-wheel	812,096	Feb. 6	1121	247	120	1716
Sherwood, Stansfield. (See Jolly, Charles L., assignor.)						
Shevlin, George F. (See Baker, Shevlin, and Baker.)						
Shilling, W. W., executor. (See Wheeler and Heckert.)						
Shimmel, Newton J., Summerville, Pa. Vegetable-disintegrator	810,816	Jan. 23	4478	931	120	1099
Shipton, Frank T., Kinsikinick, Ohio. Safety-stirrup	811,100	Jan. 30	5042	1054	120	1255
Shive, Caleb C., Frederick, Okla. Ter. Latch device	813,595	Feb. 27	4151	910	120	2537
Shiverick, Charles, Omaha, Nebr. Foot-measure	812,303	Feb. 13	1607	353	120	1892
Shoemaker, Frank H. (See Dolan and Shoemaker.)						
Shortt, Edward G., Carthage, N. Y. Explosive-gas engine	812,204	Feb. 13	1608	353–4	120	1892
Shubert, Charles M., Philadelphia, Pa. Comb	812,241	Feb. 13	1475	323	120	1861
Shuster, Franklin B., New Haven, Conn. Wire straightening and cutting-off machine	809,636	Jan. 9	2082	433–3	120	486
Siani, Bernard. (See Frazier and Sullivan, assignors.)						
Sidwell, Lester L., Rivera, Cal. Pneumatic-tire protector	812,373	Feb. 13	1727	378	120	1918
Sieber & Trussell Manufacturing Company. (See Nelson, Charles R., assignor.)						
Sieber & Trussell Mfg. Co. (See Trussell, Emory A., assignor.)						
Siegfried, Robert, Pittsburg, Pa., assignor to Westinghouse Electric & Manufacturing Company. Interconnected suspension means for gearless motors	812,891	Feb. 20	2737	602	120	2171
Silberman, Henry, New York, N. Y. Display device for millinery articles	809,760	Jan. 9	2300	478	120	540
Silver & Company. (See Ernst, John H., assignor.)						
Silverberg, Jacob, Pittsburg, Pa. Heater	809,902	Jan. 16	2765	569	120	692
Silvernail, Isaac, assignor of one-half to J. Speirs, Syracuse, N. Y. Game-board	809,253	Jan. 9	2051	516	120	579
Silvey, Faines N., Boaz, Ala. Hot-air engine	811,579	Feb. 6	655	145–6	120	1625
Sim, John, Liverpool, England. Paper-holder	809,329	Jan. 9	1445	288	120	333
Simering, John C., Baltimore, Md. Peanut-vender	813,095	Feb. 20	3098	662	120	2361
Simms, James C., Jr., and A. P. Olson, Chicago, Ill. Frame for wind-shields for automobiles	813,894	Feb. 27	4089	891	120	2609
Simmons, Charles, Paignton, assignor to C. Simmons' "Drillibits," Limited, London, England. Appliance for lifting and turning drills for rock-boring and other purposes	808,876	Jan. 2	496	107–8	120	112

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drgs.	Official Gazette. Vol.	Official Gazette. Page.
Simmons' "Drillbite," Charles. (See Simmons, Charles, assignor.)						
Simmons, George W., St. Louis, Mo. Cyclometer attachment for type-writing machines.	813,826	Feb. 27	4021	881	120	2510
Simmons Manufacturing Company. (See Gall, John F., assignor.)						
Simmons, Samuel T., and W. T. Moore, Columbus, Ohio. Sander	810,209	Jan. 16	3449	713	120	836
Simon, William F., West Hoboken, N. Y. Toy whip	811,984	Feb. 6	865	190	120	1065
Simonds, Frank A., Grand Rapids, Mich. Heating by steam	811,670	Feb. 6	266	58	120	1043
Simons, Domenico R. de, *et al.* (See Simons, Michele G. de, assignor.)						
Simons, Michele G. de, assignor of five-eighths to D. R. de Simons and Wilkinson Sword Company, Limited, London, England. Clutch mechanism	809,331	Jan. 9	1447	293–4	120	352
Simplex Manufacturing Company. (See Fancher, Charles J., assignor.)						
Simplex Manufacturing Company. (See Fancher and Parmelee, assignors.)						
Simplex Railway Appliance Company. (See Bauer, Carl E., assignor.)						
Simpson, George, Mariner Harbor, N. Y. Submarine vessel and mechanism connected therewith	812,956	Feb. 20	2879	636	120	2204
Simpson, Herbert S. (See Simpson, Peter L., assignor.)						
Simpson, Jacob C. (See Pruett and Simpson.)						
Simpson, Joseph B., assignor of one-half to C. R. Thomas, Washington, D. C. Ground connection for electric circuits	813,826	Feb. 27	4022	881	120	2510
Simpson, Peter L., assignor to H. S. Simpson, Chicago, Ill. Crusher	811,671	Feb. 6	267	58–9	120	1543
Sinclair, John R., Holyoke, Mass. Dandy-roll	812,835	Feb. 27	4022	1024	120	2641
Sinclair, William E., Mobile, Ala. Log-carrier	812,689	Feb. 13	2343	513	120	2041
Singer Manufacturing Company. (See Hemlab, Martin, assignor.)						
Singer, Roy H., Uniontown, Md. Gate for wire fences	812,690	Feb. 13	2345	513	120	2041
Singleton, John, Manchester, England. Horseshoe	809,144	Jan. 2	1033	213–14	120	226
Singleton, Thomas D. (See Mitchell and Singleton.)						
Sinsheimer, Sidney W., New York, N. Y. Automatic lift-separator	809,022	Jan. 2	787	170	120	173
Sisson, Albert H., *et al.* (See De France, Murry A., assignor.)						
Sittmann, Gustav, Brooklyn, assignor to H. S. Brown, New York, N. Y. Oscillating electric fan	810,174	Jan. 16	3142	660–1	120	771
Sitton, Charles K., and J. H. Williams, Portland, Oreg. Take-down square	813,922	Feb. 27	4795	1058	120	2675
Sitzler, John J., New York, N. Y. Marine vessel	812,804	Feb. 13	2194	478	120	2012
Sjoberg, Nils P., Jamestown, N. Y. Door	809,145	Jan. 2	1034	214	120	227
Skamp, Robert, *et al.* (See Mellinger, George B., assignor.)						
Skillings, Arthur H., Brooklyn, N. Y. Automatic air-brake coupling	813,747	Feb. 27	4435	979	120	2598
Skinner, George W., Jr. (See Camfield, Frank, assignor.)						
Skinner, James A., Denver, Colo. Feed-bag	811,490	Jan. 30	5731	1200	120	1402
Skinner, John H., Angus, N. Mex. Ter. Motor for churns, pumps, &c.	812,459	Feb. 13	1891	417	120	1952
Skinner, Orville C. (See Sheaffer, James E., assignor.)						
Skinner, Orville C., and J. E. Sheaffer, Buraham, Pa. Gas-producer	809,023	Jan. 2	789	170	120	174
Skinner, Sidney L., assignor to M. C. Setter, Ottawa, Ill. Shade-fixture	812,342	Feb. 13	1477	328	120	1851
Skirrow, John F., East Orange, N. J. Clamping-sleeve for pneumatic-despatch tubes	813,674	Feb. 27	4303	947	120	2570
Skov, Rasmus, and J. Forberg, Aneta, N. D. Brick-tongs	809,146	Jan. 2	1036	214	120	227
Slade, Walter W., Boston, and H. F. Bower, Everett, assignors to Globe Optical Company, Boston, Mass. Lens-cutting machine	813,450	Feb. 27	3876	849–50	120	2475
Slama, Lewis, Humboldt, Nebr. Rubber-tire guard	812,605	Feb. 13	2195	478	120	2012
Slaven, John W. (See Eaves, Slaven, and Wade.)						
Sleezer, Flavius J., Newark, Ill. Dumping mechanism	812,967	Feb. 20	2881	636–7	120	2204
Slick, Edwin E., Pittsburg, Pa. Furnace-roof	810,226	Jan. 16	3277	678	120	798
Sloan, James D. (See Ayers and Sloan.)						
Sloan, Patrick J., Bayonne, N. J. Clothes-line support	809,024	Jan. 2	790	170	120	174
Slocum, John C., assignor to J. A. Jeffrey, Columbus, Ohio. Clam-shell bucket	813,527	Feb. 27	4023	881	120	2510
Slocum, John C., assignor to J. A. Jeffrey, Columbus, Ohio. Clam-shell bucket	813,528	Feb. 27	4026	882	120	2511
Small, William A., San Francisco, Cal., assignor to Noiseless Typewriter Company. Roller for type-writers	811,800	Feb. 6	503	112	120	1563
Smart, Earl B. (See Smart, Salma H., assignor.)						
Smart, Salma H., assignor to E. B. Smart, Grand Rapids, Wis. Core for paper-rolls	812,305	Feb. 13	1813	354	120	1894
Smarup, Nelson, Amsterdam, N. Y. Needle-operating mechanism for looms	811,560	Feb. 6	111	24	120	1509
Smead, Burton A. (See Smead, Isaac D., assignor.)						
Smead, Isaac D., assignor to B. A. Smead, Cincinnati, Ohio. Movable roadway	812,374	Feb. 13	1728	379–80	120	1919
Smedley, Jacob R., Chicago, Ill. Interchangeable cultivator and seed-drill	811,334	Jan. 30	5528	1152	120	1360
Smith, Arthur A., Eaglegrove, Iowa. Wire-stretcher	809,025	Jan. 2	792	171	120	175
Smith, Arthur P. (See Smith, Hinsdale and A. P.)						
Smith, Burgess, assignor to J. R. Hill, Washington, D. C. Transfer-press and attachments therefor	811,672	Feb. 6	270	59–60	120	1544
Smith, Channing. (See Rae, James J., assignor.)						
Smith, Charles. (See Thomas, Charles W., assignor.)						
Smith, Charles A., Chicago, Ill. Core-making machine	812,606	Feb. 13	2190	478–9	120	2013
Smith, Charles D., Fond du Lac, Wis. Electric surface and elevated trolley-railway	811,101	Jan. 30	5044	1054–5	120	1266
Smith, Charles E., assignor to S. Morgan Smith Company, York, Pa. Turbine	809,147	Jan. 2	1036	214–15	120	227
Smith, Charles L. (See Kent and Smith.)						
Smith, Charles M. (See La Sor and Smith.) (Reissue.)						
Smith, Christian. (See Booth and Bittle, assignors.)						
Smith, Clark J., assignor to Hardscog Wonder Drill Company, Ottumwa, Iowa. Rock-drill	812,375	Feb. 13	1722	380	120	1919
Smith, Clark J., assignor to Hardscog Wonder Drill Company, Ottumwa, Iowa. Rock-drill	812,774	Feb. 13	2002	550	120	2073
Smith, Clinton D., Russell, Iowa. Road-leveling machine	808,877	Jan. 2	499	106	120	112
Smith Co., T. L. (See Letord, Philip H., assignor.)						
Smith, D. J., *et al.* (See Faulk, James M., assignor.)						
Smith, Elias A., Wolverville, Mich. Fence-post	811,451	Jan. 30	5733	1200	120	1402
Smith, Everard E., and H. F. Jones, Philadelphia, Pa. Slip-joint connection for dental engine	813,178	Feb. 20	2315	729	120	2286
Smith, Francis F., assignor to J. Anstice, Rochester, N. Y. Slicing-machine	811,463	Jan. 30	5734	1200–1	120	1402
Smith, Frank O. (See Kay and Smith.)						
Smith, Frank W., Pittsburg, Pa. Automatic sprinkler	813,881	Feb. 20	2084	676	120	2249
Smith, Frederick (See Newark, Ottobar H., assignor.)						
Smith, Frederick B. (See Smith, Lord G. and F. B.)						
Smith, George F., Fairmore, W. Va. Motor	813,179	Feb. 20	2316	729–30	120	2286
Smith, George W., assignor to Robert Mitchell Machinery Co., Detroit, Mich. Lip-turner	809,333	Jan. 9	1448	294	120	353
Smith, Hamilton L., Chicago Park, Mass. Rifle-telescope	812,376	Feb. 13	1726	380	120	1921
Smith, Hinsdale, assignor of two-thirds to J. S. Hopkins and G. J. Hooper, Richmond, Ind. Lathe	813,119	Feb. 20	2302	700	120	2275
Smith, Horace H. (See King, Orestes, assignor.)						
Smith, Hugh A., Rush, and W. F. Frank, Dundee, Ill.; said Frank assignor of one-tenth to said Smith	809,755	Jan. 9	2002	477	120	539

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drgs.	Official Gazette. Vol.	Official Gazette. Page.
Smith, Henry C., assignor to Smith-Warren Company, Boston, Mass. Window-frame	810,887	Jan. 23	4631	985–6	120	1131
Smith, Henry P., and F. J. Hobson, Guanajuato, Mexico. Agitator for cyanid solutions.	812,460	Feb. 13	1892	417	120	1952
Smith, Hinsdale and A. P., Springfield, Mass. Metal vehicle-body	813,460	Feb. 27	3980	850–1	120	2476
Smith, James C., San Francisco, Cal. Rotary hook-support for garments and the like	812,601	Feb. 13	2346	513	120	2041
Smith, James C., and J. S. Davis, Montgomery, Ala. Time-indicator for letter-boxes	812,602	Feb. 13	2347	514	120	2041
Smith, James L., Piru, Cal. Quick-acting monkey-wrench	812,180	Feb. 20	3318	730	120	2260
Smith, James M., Wender, Cal. Miter-box and saw-guide	810,175	Jan. 16	3145	661–2	120	772
Smith, John D., assignor of one-half to Pee Dee Iron Works, Cheraw, S. C. Truck	811,965	Feb. 6	886	190	120	1065
Smith, John G., Kaltonberg, Tenn. Churn	811,109	Jan. 30	5045	1055	120	1264
Smith, Joseph C., *et al.* (See Kelly, Alonzo, assignor.)						
Smith, Levi O. and F. B., South Sterling, Pa. Traction-engine	808,878	Jan. 2	500	109	120	113
Smith, Louis C. (See Vinton, John H., assignor.)						
Smith, Louis R., Denver, Colo. Book-index	813,748	Feb. 27	4437	979	120	2598
Smith, Nathan, Stevensville, Md. Oil-cup	811,801	Feb. 6	504	113	120	1502
Smith, Norman R., Seattle, Wash. Steam-turbine	812,603	Feb. 13	2348	514	120	2041
Smith, Oberlin, Bridgeton, N. J. Press	808,694	Jan. 2	134	31–2	120	32
Smith Premier Typewriter Company. (See Briggs, Arthur J., assignor.)						
Smith, Richard B., New York, N. Y. Shadow-clock	813,836	Feb. 27	4634	1024–5	120	2642
Smith, Robert C., Oak Park, Ill. Mixing and measuring apparatus	809,585	Jan. 9	1969	409	120	464
Smith, Russell G., assignor of one-half to Auto-Car Equipment Company, Buffalo, N. Y. Tire	813,529	Feb. 27	4029	882	120	2512
Smith, Sidney F., Freeport, and S. S. Street, New York, N. Y. Window-screen	808,695	Jan. 2	137	32	120	32
Smith & Sons Mfg. Co. (See Liverpool, Winfield S., assignor.)						
Smith-Warren Company. (See Smith, Henry C., assignor.)						
Smith, Watson R., Jackson, Mich. Cushion-spring	813,244	Feb. 20	3437	757	120	2323
Smith, Willard C., assignor of one-half to F. G. Noyes, Coldwater, Mich. Tool for operating upon jar-covers	810,984	Jan. 30	4848	1009	120	1213
Smith, William, La Crescent, Minn. Stump-puller	808,879	Jan. 2	502	109	120	113
Smith, William F., assignor of one-half to A. C. Jones, Jackson, Miss. Adding-machine	808,696	Jan. 2	138	33–3	120	32
Smith, William G. (See Bolin, Nils P., assignor.)						
Smith, William S., Berkeley, Cal. Bucket for impulse water-wheels	811,802	Feb. 6	505	113	120	1502
Smock, Jasper D., Terre Haute, Ind. Head-rest for beds	808,700	Jan. 2	143	34	120	35
Smyth, Milton B., Holton, Kans. Truss	808,697	Jan. 2	145	34	120	34
Sneddon, James P., Barberton, Ohio, assignor to Stirling Consolidated Boiler Company, New York, N. Y. Header connection	813,245	Feb. 20	3439	758	120	2323
Snell, Harry K. (See Vogel and Snell.)						
Snelling, John F. (See Owen and Snelling.)						
Snow, Jacob H., Indianapolis, Ind. Burglar-alarm	812,892	Feb. 20	2738	602–3	120	2172
Snow & Petrelli Mfg. Co. (See Petrelli, Joseph, assignor.)						
Snyder, John A. L., Bonnie, Cal. Fountain-pen	808,880	Jan. 2	504	110	120	113
Snyder, John S. and R. A., New Lexington, Pa. Wire-stretcher	813,837	Feb. 27	4635	1025	120	2642
Snyder, Ross A. (See Snyder, John S. and R. A.)						
Snypp, Charles E., Gretna, La., assignor to Southern Cotton Oil Company, Jersey City, N. J. Electric scale for accurate lard-weighing	809,026	Jan. 2	793	171	120	175
Sobers, Eugene F., Bethlehem, Pa. Wheel-tire	812,893	Feb. 20	2730	603	120	2172
Sochurek, Frank, Sr., Milwaukee, Wis. Shipping-crate	809,854	Jan. 9	2483	516	120	580
Société Générale du Laminage Annulaire. (See Mason, Alfred, assignor.)						
Sohns, Albert. (See Carl and Sohns.)						
Solar Furnace and Power Co. (See Carter, Albert, assignor.)						
Solomon, Emmet G., Omaha, assignor of one-half to H. B. Shedd, Ashland, Nebr. Trailing fender	808,783	Jan. 2	328	70	120	73
Solon, Thomas J. (See Kreisiger, Joseph, assignor.)						
Somers Amos N., Sharon, Mass. Automatic mixer and distributer	811,749	Feb. 6	307	87	120	1573
Somers, Joseph. (See Sweet, Warren, assignor.)						
Sorenson, Severin N. (See Daws, Henry L., assignor.)						
Sorenson, James W., Grayling, Mich. Cab-runner	811,453	Jan. 30	5737	1201	120	1403
Sorenson, Nels A. (See Caldwell and Sorenson.)						
Sorg, Frederick W., Englewood, N. J. Cable-hanger	809,998	Jan. 16	2767	589	120	993
Sose, Joseph, New York, N. Y. Hinge	809,027	Jan. 2	795	172	120	175
Southard, George L., Southard, Okla. Ter., assignor to Union Tank Line Company, Bayonne, N. J. Railway tank-car	812 096	Feb. 6	1123	247	120	1717
Southern Cotton Oil Company. (See Snypp, Charles E., assignor.)						
Sowerby, William, Indiana, Pa. Attachment for culinary vessels	810,817	Jan. 23	4479	931	120	1059
Spangenberg, Brewster H., Germantown, Pa. Adjustable bracket	811,335	Jan. 30	5529	1153	120	1360
Sparks, Henry O., Shelbina, Mo. Tilting hay-fork	810,985	Jan. 30	4849	1009	120	1213
Sparks, William A., Zurich, Kans. Magazine	810,310	Jan. 16	3451	713	120	837
Sparre, Fin, Wilmington, Del. Blank smokeless-powder cartridge	812,156	Feb. 6	1268	278	120	1748
Sparre, Fin, assignor to E. I. Du Pont de Nemours Powder Company, Wilmington, Del. Explosive	812,958	Feb. 20	2883	.....	120	2204
Sparre, Fin, assignor to E. I. Du Pont de Nemours Powder Company, Wilmington, Del. Explosive	812,959	Feb. 20	2885	.....	120	2205
Spaulding, Elijah F., Troy, assignor to E. F. Emmerich, Brooklyn, N. Y. Coin-controlled vending-machine	810,576	Jan. 23	4086	830–1	120	1002
Spear, Lawrence Y., assignor to Electric Boat Company, Greenport, N. Y. Means for steering submarine and submergible boats	812,306	Feb. 13	1814	354–5	120	1894
Spear, Murray H., assignor to B. E. Burrowes, London, England. Apparatus for holding, turning, threading, and cutting pipes	813,530	Feb. 27	4031	883	120	2513
Spears, Mathew E., Neame, La. Logging-cart	808,861	Jan. 2	507	110	120	114
Speed, James B. (See Isaacs and Speed.)						
Speed, James B., Berkeley, assignor to Rifled Pipe Company, San Francisco, Cal. Fluid pipe-line	808,782	Jan. 2	327	70	120	73
Spear, Arthur E., Pittsburg, Pa. Partitioned packing-case	813,246	Feb. 20	3440	758	120	2323
Spear, James R., assignor to Brownsville Glass Company, Pittsburg, Pa. Manufacturing glass	813,247	Feb. 20	3441	758	120	2323
Spear, James R., Pittsburg, and G. H. Harvey, Glenfield, assignors to Brownsville Glass Company, Pittsburg, Pa. Manufacture of glass	812,894	Feb. 20	2741	603	120	2173
Spear, James R., Pittsburg, and G. H. Harvey, Glenfield, assignors to Brownsville Glass Company, Pittsburg, Pa. Glass-drawing apparatus	813,248	Feb. 20	3443	758–9	120	2324

Steele, Ernest M. (See Caywood and Steele.)						
Steele, Harry C., W. Stenson, and F. J. Trout, Jacksonville, Fla. Molding-machine	810,988	Jan. 30	4854	1010	120	1214
Steele, Samuel H., Canaan, Ind. Plow	809 787	Jan. 9	2305	477	120	530
Steele, Walter L. (See Sutton and Steele.)						
Steensland, James O., and W. Weaver, Blanchardville, Wis. Latch	811,880	Feb. 6	667	146	120	1626
Steere, Clarence E., Maywood, Ill., assignor to A. B. Dick Company. Duplicating-machine	811,674	Feb. 6	273	60–1	120	1545
Stage, Jacob, Arden, Nebr. Hame-fastener	812,462	Feb. 13	1896	418	120	1953
Stein, Charles, Akron, Ohio. Vehicle-tire	810,888	Jan. 23	4635	966	120	1123
Stein, Jacob, Coal Valley, assignor of one-third to L. K. Yoder and one-fourth to F. A. Baxendell, Pittsburg, Pa. Auger-bit	809,856	Jan. 9	2488	517	120	580
Stein, William. (See Adams, Isaac M., assignor.)						
Steinbach, George P., Baltimore, Md. Baby-tender	811,881	Feb. 6	668	146	120	1627
Steinbeck, William P. (See Weathers, Hoyt M., assignor.)						
Steinberg, Isaac, assignor to Hercules Safety Clasp Company, Nashville, Tenn. Clasp	813,536	Feb. 27	4637	1025	120	2642
Steinert, Carl, Munich, Germany. Device for transporting green malt	810,989	Jan. 30	4856	1011	120	1215
Steinhoff, Lyman O. (See Scott and Steinhoff.)						
Steinlehe, Therese, Berlin, Germany. Inverted incandescent gas-lamp	812,961	Feb. 20	2887	637	120	2205
Steinmetz, Charles P., Schenectady, N. Y., assignor to General Electric Company. System of electrical distribution	809,906	Jan. 16	2772	570	120	604
Steinmetz, Joseph A., Philadelphia, Pa. Turnbuckle	809,030	Jan. 2	799	173	120	176
Stenson, William. (See Steele, Stenson, and Trout.)						
Stenwall, Alfred, Kewanee, Ill. Slide-gate valve	809,857	Jan. 9	2489	517	120	580
Stephan, Alfred, Gross-Lichterfelde, near Berlin, Germany. Making a formic-aldehyde compound	812,608	Feb. 13	2200	.....	120	2013
Stephens, Augustus A., Bellaire, Ohio. Window-ventilator	809,238	Jan. 2	1203	248	120	266
Stephens, Charles H., Bartlett, Tex. Rail-joint	809,536	Jan. 9	1875	389	120	446
Stephensmeier, John H., St. Louis, Mo. Horseshoe	813,506	Feb. 27	4153	910	120	2538
Sterling, Ezra, Brooklyn, N. Y. Gold-separator	809,536	Jan. 9	1975	409–10	120	465
Sterling, Frank H., London, England. Tire for wheeled vehicles	809,537	Jan. 9	1876	389	120	446
Sterling, Samuel, Chickasawba, assignor of one-half to D. D. Hodges, Paragould, Ark. Vehicle hub and spindle	812,775	Feb. 13	2503	551	120	2074
Stern, Philip K., New York, N. Y. Cam-movement explosive-engine	809,333	Jan. 9	1452	294	120	353
Sterne, Louis, London, England. Gas-compressor	811,181	Jan. 30	5228	1094	120	1294
Sterné, Theodore, Paris, France. Elastic tire for vehicle-wheels	812,606	Feb. 13	2364	518	120	2044
Stevens, Abner M. and G. E., Malvern, Kans. Hay-stacker	809,538	Jan. 9	1879	390	120	447
Stevens, Alonzo E., Dallas Center, Iowa. Rotary engine	811,103	Jan. 30	5047	1055	120	1256
Stevens Arms & Tool Company, J. (See Savage, Arthur J., assignor.)						
Stevens, David, Ogden, Utah. Wagon-body	811,104	Jan. 30	5049	1055–6	120	1257
Stevens, George E. (See Stevens, Abner M. and G. E.)						
Stevens, George E., Lynn, Mass., assignor to General Electric Company. Electric heater for liquids	812,609	Feb. 13	2200	479	120	2013
Stevens, George E., Lynn, Mass., assignor to General Electric Company. Rheostat	812,700	Feb. 13	2367	518	120	2045
Stevens, John J., assignor of one-half to T. A. Lampton, Dallas, Tex. Clamp	812,699	Feb. 13	2366	518	120	2045
Stevens, Josiah P., Atlanta, Ga. Apparatus for engraving	810,990	Jan. 30	4857	1011	120	1215
Stevens, Richard H., Munhall, Pa. Adjusting mechanism for rope-drives	808,699	Jan. 2	147	35	120	34
Stevens, Richard H., Munhall, Pa. Metal-turning apparatus	809,997	Jan. 16	2776	570–1	120	606
Stevenson, John S., Detroit, Mich. Hopper-bottom car	813,181	Feb. 20	3319	730	120	2209
Stevenson, S. Price, Chester, Pa. Door-frame, door, and adjunctive mechanism for air-tight compartments	809,538	Jan. 9	2080	433	120	490
Stevenson, Thomas, Dunedin, New Zealand. Machine for bending metal bars	812,377	Feb. 13	1738	381	120	1921
Stewart, Francis L., Murraysville, assignor of one-half to S. E. Gill, Pittsburg, Pa. Making maize-sugar	810,818	Jan. 23	4480	932	120	1099
Stewart, Francis L., Murraysville, assignor of one-half to S. E. Gill, Pittsburg, Pa. Treatment of maize for the manufacture of cellulose products	811,523	Jan. 30	5860	.....	120	1426
Stewart, John, New Glasgow, Canada. Railway-track jack	811,524	Jan. 30	5861	.....	120	1429
Stewart, Robert A., assignor of one-half to A. J. Knoblock, San Francisco, Cal. Means for aging and purifying liquors	810,356	Jan. 16	3551	730	120	859
Stiarwalt, William L., and W. H. Cool, Bellefontaine, Ohio. Air-brake	811,909	Feb. 6	887	190	120	1686
Stickle, Fredrick W., assignor of one-half to E. W. Beach, Waterbury, Conn. Truck-wheel	811,525	Jan. 30	5862	1229	120	1429
Stickney, Burnham C., Elizabeth, assignor to Union Typewriter Company, Jersey City, N. J. Type-writing machine	810,438	Jan. 23	3755	773	120	936
Stickney, Burnham C., Elizabeth, assignor to Union Typewriter Company, Jersey City, N. J. Type-writing machine	810,859	Jan. 16	3552	730–1	120	860
Stickney, Burnham C., Elizabeth, N. J., assignor to Underwood Typewriter Company, New York, N. Y. Type-writing machine	810,860	Jan. 16	3555	731–2	120	860
Stickney, Burnham C., Elizabeth, N. J., assignor to Underwood Typewriter Company, New York, N. Y. Type-writing machine	811,182	Jan. 30	5230	1095	120	1294
Stickney, Henry R., Portland, Me. Turn-table for automobiles	811,183	Jan. 30	5232	1095	120	1295
Stiefel, John W. (See Johnson, Charles B., assignor.)	813,462	Feb. 27	3889	852	120	2478
Stiefel, Ralph C., Ellwood City, Pa., assignor, by mesne assignments, to National Tube Company. Mechanism for feeding tubular billets	811,526	Jan. 30	5863	1229–30	120	1430
Stiefel, Ralph C., Ellwood City, Pa., assignor to National Tube Company, New York, N. Y. Apparatus for rolling tubes and tubular bodies	813,597	Feb. 27	4154	911	120	2538
Stiles, Conrad A. (See Bailey, Ralph W., assignor.)						
Stillson, August, New York, N. Y. Manufacture of artificial fuel	809,998	Jan. 16	2777	.....	120	606
Stillwell, Frederick W., Scranton, Pa. Combined bayonet and telescope	813,677	Feb. 27	4307	948	120	2571
Stillwell, Lewis B., Lakewood, N. J. Electric car	811,887	Feb. 6	888	191–2	120	1686
Stillwell, Charles B., Wayne, Pa. Paper-footing machine	808,883	Jan. 2	510	110–15	120	114
Stimpson Computing Scale Company. (See Dunn, Frank P., assignor.)						
Stinebring, George W., Shippe, Ohio. Sawmill	813,463	Feb. 27	3890	852	120	2478
Stiner, James H., Gowen, Pa. Tack-puller	812,701	Feb. 13	2369	518	120	2045
Stinson, William J., Minneapolis, Minn. Acetylene-gas plant	809,473	Jan. 9	1760	366	120	489
Stirling Consolidated Boiler Company. (See Sneddon, James P., assignor.)						
Stirling, D. W., *et al.* (See Stirling, Joseph C., assignor.)						
Stirling, Joseph C., Baltzerova, assignor of four-sixths to D. W. Stirling and J. Ritts, Glade Mills, Pa. Elevating device	811,908	Feb. 6	871	182	120	1690
Stirling Silk Manufacturing Company. (See Rees, Eugene, assignor.)						
Stitsley, George J. (See Dreher, Earle E., assignor.)						
Stites, Townsend, assignor to Wabash Light Company, Gloucester City, N. J. Mantle-support	810,991	Jan. 30	4860	1012	120	1215
Stock, Friedrich. (See Lautter and Stock.)						
Stockmair, Hans, Baltimore, Md. Musical instrument	809,539	Jan. 9	1881	389	120	447

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drgs.	Official Gazette. Vol.	Official Gazette. Page.
Stoess, Louis, Pensig, Germany. Chimney for incandescent gas-burners	812,610	Feb. 13	2202	479	120	2014
Stoffel, Fernand, Paris, France. Manufacture of vegetable strips	812,463	Feb. 13	1897	419	120	1953
Stokes, Miles M., Nashville, Tenn. Halter	813,062	Feb. 20	3086	676	120	2289
Stokesbery, Alvaro R., Washington Court-House, and T. B. Lawhead, Greenfield, Ohio. Rein-supporter	812,806	Feb. 20	2744	604	120	2173
Stokoe, Carl E., Grand Haven, Mich. Mold for making concrete fence-posts	810,579	Jan. 23	4049	833	120	1004
Stokoe, John M., Cleveland, assignor to Prince Stokoe Oil Stove Company, Cincinnati, Ohio. Broiler	809,639	Jan. 9	2093	434	120	491
Stoll, Heinrich, Jr., Reutlingen, Germany. Knitting-machine	813,251	Feb. 20	3452	761	120	2225
Stone, Fred L., Schenectady, N. Y., assignor to General Electric Company. Rheostat	812,611	Feb. 13	2203	480	120	2014
Stone, Wilbur M. (See Chapman and Stone.)						
Stone, William F., et al. (See McCall, William W., assignor.)						
Stoneburner, Charles D. (See Stoneburner, John S. H. and C. D.)						
Stoneburner, John S. H. and C. D., Arlington, Va. Feed-box	811,592	Feb. 6	114	26	120	1510
Storey, Andrew W., Moston, near Manchester, England. Fusible link	811,256	Jan. 30	5379	1122	120	1328
Stork, Jonas, et al. (See Loewenstein, Maxmilian, assignor.)						
Storle, Ole O., Burlington, Wis. Elastic-fluid turbine	810,992	Jan. 30	4860	1012	120	1216
Storm, Edwin R., New York, N. Y. Printing-plate holder	809,220	Jan. 2	1204	246	120	268
Storm, Francis, Maywood, N. J. Hydrometer test-jar	810,361	Jan. 16	3559	732	120	862
Storms, Douglas G., Hamilton, Canada. Supporting apparatus for pathological conditions requiring a sitting position	810,580	Jan. 23	4050	833	120	1004
Story, Milton W., assignor of one-half to E. De Witt, Indianapolis, Ind. Attachment for washtubs	808,702	Jan. 2	152	35	120	36
Stots, Henry, Albert Lea, Minn. Box-fastener	812,308	Feb. 13	1617	355	120	1804
Stoughton, William S. (See Raymond and Stoughton.)						
Stout, Robert P. (See Meigs and Stout.)						
Stout, Robert P., assignor to Bethlehem Steel Company, South Bethlehem, Pa. Shrapnel	810,582	Jan. 23	4052	834	120	1005
Stout, Robert P., and F. G. Hughes, assignors to Bethlehem Steel Company, South Bethlehem, Pa. Sighting attachment for guns	810,581	Jan. 23	4051	833–4	120	1005
Stout, William H., Dayton, Ohio. Cylindrical-box trimmer	811,563	Feb. 6	117	26	120	1511
Stow, Audley H., Hunter, W. Va. Gun	809,640	Jan. 9	2094	434	120	491
Stowell, James A., Leominster, Mass. Polishing-machine	811,454	Jan. 30	5739	1201	120	1403
Straesser, Christian, Peoria, Ill. Line-holder	808,403	Jan. 9	1621	329	120	389
Strain, Charles M., assignor of one-third to Davidson Bros., Crawfordsville, Iowa. Disk-sharpener	809,334	Jan. 9	1455	294–5	120	354
Strange, Albert B. (See Laforêt, Jean, assignor.) (Reissue.)						
Strasburg, Frederick E., Rumford Falls, Me., assignor to Continental Paper Bag Company. Paper-bag machine	809,220	Jan. 2	1208	246–7	120	268
Strasburg, Frederick E., Rumford Falls, Me., assignor to Continental Paper Bag Company. Cutting mechanism	810,993	Jan. 30	4862	1012–13	120	1216
Strasburg, Frederick E., Rumford Falls, Me., assignor to Continental Paper Bag Company. Paper-bag machine	812,378	Feb. 13	1740	381–3	120	1921
Stratton, Joseph F. and R. S., Sullivan, Ind. Mine-harness	810,439	Jan. 23	3757	773	120	989
Stratton, Robert S. (See Stratton, Joseph F. and R. S.)						
Straube, Francis M., assignor of one-half to L. W. Goddard, Boulder, Colo. Wrench	809,858	Jan. 9	2491	518	120	581
Straube, Francis M., assignor of one-half to H. W. Sheets, Boulder, Colo. Sash lock and fastener	810,440	Jan. 23	3757	774	120	989
Straubel, Frederick L. G., Green Bay, Wis. File-cabinet	812,962	Feb. 20	2889	637	120	2205
Straus, Moses H., Indianapolis, Ind. Trousers-press	810,583	Jan. 23	4053	834	120	1005
Strauss, Joseph B., Chicago, Ill. Bridge and making the same	811,267	Jan. 30	5380	1122–3	120	1328
Strecker, Otto C., Darmstadt, Germany. Electrolytically preparing metals or alloys for lithographic purposes	810,899	Jan. 23	4036	966–7	120	1123
Streeper, Daniel H., and J. W. Oelenschlager, Norristown, Pa. Steam-separator and automatic shut-off	808,701	Jan. 2	150	35	120	35
Streeter, Herbert A., Chicago, Ill. Metal clip for uniting metal beams	810,819	Jan. 23	4481	932	120	1100
Strehlenert, Robert W., Djursholm, Sweden, and F. Reubold, assignors to Badische Anilin & Soda Fabrik, Ludwigshafen-on-the-Rhine, Germany. Cellulose compound and making the same	812,098	Feb. 6	1133	.....	120	1719
Stringer, Theodias, Girard, Ohio. Water-gage mechanism	809,474	Jan. 9	1762	364	120	421
Strob, John W., Decatur, Ill. Washing-machine	811,894	Feb. 6	508	114	120	1894
Strohm, Samuel D., Philadelphia, Pa. Railway signaling	809,999	Jan. 16	2778	571–3	120	685
Strohm, Samuel D., Philadelphia, Pa. Railway signaling	811,105	Jan. 30	5060	1056–7	120	1267
Strom, Victor A., assignor of one-half to W. H. Williamson, Alameda, Cal. Dredger	813,262	Feb. 20	3453	761	120	2226
Strook, Louis S., New York, N. Y. Lap-robe	811,337	Jan. 30	5633	1154	120	1361
Struever, Rudolph F., et al. (See Nelson, John, assignor.)						
Stuart, James W., Paris, Ill. Core-cutter for cement-block machines	812,702	Feb. 13	2370	519	120	2046
Stuart, John, Wellaston, Mass. Connecting-rod for engines	810,994	Jan. 30	4866	1013	120	1217
Stubier, Edward A., Oil City, Pa. Device for recovering articles from deep wells	812,379	Feb. 13	1746	383	120	1923
Stucky, Charles R., La Chaux-de-Fonds, Switzerland. Stem-winding mechanism for timepieces	812,963	Feb. 20	2890	638	120	2206
Stulp, Fred J., Muskegon, Mich. Water-gage	809,859	Jan. 9	2493	518	120	581
Stump, Osman L., assignor of two-thirds to J. Reidenbaugh and E. D. Packard, Marion, Ohio. Feed-water heater	810,441	Jan. 23	3759	774–5	120	989
Stumpf, Johann, Berlin, Germany, assignor to General Electric Company. Steam or gas turbine	811,752	Feb. 6	402	88	120	1574
Stumpf, Johann, Berlin, Germany, assignor to General Electric Company. Steam-turbine	811,805	Feb. 6	509	114	120	1894
Sturtevant Mill Company. (See Sturtevant, Thomas L. and T. J., assignors.)						
Sturtevant, Thomas J. (See Sturtevant, Thomas L. and T. J.)						
Sturtevant, Thomas L., Quincy, and T. J. Sturtevant, Wellesley, Mass., assignors to Sturtevant Mill Company, Portland, Me. Motor-vehicle	809,478	Jan. 9	1764	364	120	421
Stutz, Heinrich, Witten, Germany. Axle-box for railway-cars	809,404	Jan. 9	1623	329–30	120	389
Submarine Gold Mining Company. (See Schelbe, Edgar F., assignor.)						
Submarine Signal Company. (See Geib and Dewing, assignors.)						
Suchsland, Jesse L., Washington, D. C. Surgical table	810,820	Jan. 23	4483	932	120	1169
Sudre, Charles, Paris, France. Treatment of vinasses	810,442	Jan. 23	3762	776	120	989
Sullivan, Albert W., and W. Renshaw, Chicago, Ill. Railway-car	810,000	Jan. 16	2761	572–4	120	686
Sullivan, Albert W., St. Louis, Mo., and W. Renshaw, Chicago, Ill. Metal box-beam	810,001	Jan. 16	2766	575	120	687
Sullivan, Charles A., Windsor, Canada. Water-closet	811,582	Feb. 6	670	146	120	1687
Sullivan, Daniel O. (See Brazier and Sullivan.)						
Sullivan, Frank A. (See Meigs, Jakobsen, and Sullivan.)						
Sullivan, John Q., Winnipeg, Canada. Anticreeper for railways	808,902	Jan. 2	668	142	120	144
Sullivan, John H., Grand Rapids, Mich. Mold	813,248	Feb. 20	3455	761	120	2226
Sullivan, Stephen C., Chicago, Ill. Car-door cleat and sealing device	810,996	Jan. 30	4867	1013	120	1217
Summers, Daniel E., Mercer, Mo. Hay-stacker	812,986	Feb. 27	4091	1069	120	2686

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drgs.	Official Gazette. Vol.	Official Gazette. Page.
Sundstrom, Gabriel E. (See Levin and Sundstrom.)						
Suppes, Maximilian M., Elyria, Ohio. Skimming slag from molten metal	809,405	Jan. 9	1636	331	120	389
Susquehanna Silk Mills. (See Cleff, Bernhard, assignor.)						
Sussman, Leon, Bayonne, N. J., assignor of one-half to S. and E. R. Wilmer, New York, N. Y. Loose-leaf binder	809,897	Jan. 9	1977	410	120	466
Suter, Carl, and B. Redlich, Ratibor, Germany. Electrolytic production of metals of the earthy alkalies	813,532	Feb. 27	4034	884	120	2513
Sutherland, Jesse H., Dawkins, Colo. Hay-rake attachment	812,897	Feb. 20	2745	604	120	2173
Suttle, Willis A., Nineveh, Tex. Automatic fire-alarm	813,533	Feb. 27	4035	884	120	2513
Sutton, Henry M., W. L. and E. G. Steele, Dallas, Tex. Separating substances of different dielectric capacities	813,083	Feb. 20	3087	676	120	2250
Sutton, John W., Collinsville, Ind. Ter. Vehicle-spring	813,678	Feb. 27	4309	949	120	2572
Sutton, William H., assignor of one-half to J. T. Swank, Camden, Ark. Cotton-chopper	811,106	Jan. 30	4058	1058	120	1269
Sutton, William S., assignor to America Company, Rockford, Ill. Lock	810,584	Jan. 23	4055	834	120	1006
Susuki, Tosaburo, Sunamura, Japan. Vertical boiler	810,002	Jan. 16	2787	575	120	697
Susuki, Tosaburo, Sunamura, Japan. Flue-scraper for evaporators, boilers, and the like	810,998	Jan. 30	4869	1013–14	120	1218
Susuki, Tosaburo, Sumamura, Japan. Furnace	812,380	Feb. 13	1747	383–4	120	1922
Svenson, Charles W., assignor to Corbin Screw Corporation, New Britain, Conn. Two-speed hub	813,464	Feb. 27	3893	853	120	2479
Svenson, Charles W., assignor to Corbin Screw Corporation, New Britain, Conn. Two-speed hub	813,465	Feb. 27	3896	854	120	2479
Swagerty, Thomas I., Pleasanton, Kans. Broom-handle	812,309	Feb. 13	1619	356	120	1895
Swallow, Fredric, assignor of three-fourths to L. Settle, M. Haas, and J. E. Feland, Claremore, Ind. Ter. Churn	809,031	Jan. 2	800	173	120	177
Swan, Allan P., Dundalk, Ireland. Apparatus for purifying air	811,969	Feb. 6	873	193	120	1666
Swan, William B., Seymour, Conn. Bit-extender	810,230	Jan. 16	3280	679	120	799
Swank, John T. (See Sutton, William H., assignor.)						
Swank, Lafe, assignor to Dwiggins Wire Fence Company, Anderson, Ind. Wire-stretcher	810,003	Jan. 16	2790	576	120	698
Swanson, Alfred, Albuquerque, N. Mex. Ter. Necktie-fastener	811,455	Jan. 30	5740	1202	120	1404
Swanson, Andrew, St. Francis, Minn. Logging-sled	812,310	Feb. 13	1619	356	120	1895
Swanson, Herman S., Shenandoah, Iowa. Single-row cultivator	809,336	Jan. 9	1460	295–6	120	356
Swanson, Herman S., Shenandoah, Iowa, assignor to Swanson Mfg. Co. Cultivator	809,335	Jan. 9	1457	296	120	354
Swanson Mfg. Co. (See Swanson, Herman S., assignor.)						
Swantess, Samuel F., Itasca, Ill. Back-protection garment	812,612	Feb. 13	2204	480	120	2014
Swanton, Henry A., Roxbury, Mass. Engine	811,184	Jan. 30	5234	1095	120	1296
Swasey, Ambrose, and G. L. Fecker, assignors to Warner & Swasey Company, Cleveland, Ohio. Optical instrument	812,464	Feb. 13	1896	419	120	1953
Sweeney, Hugh H., et al. (See Sweeney, James M., assignor.)						
Sweeney, James M., assignor of two-thirds to F. M. Schwartz, Anaconda, Mont., and H. H. Sweeney, Seattle, Wash. Spray	813,254	Feb. 20	3456	762	120	2226
Sweeney, John, Johnstown, Pa. Gas-valve	810,443	Jan. 23	3764	775	120	940
Sweeny, Alfred P., Helena, Mont. Cutting and measuring machine	811,338	Jan. 30	5534	1154–5	120	1361
Sweet, Burton W. (See Knight and Sweet.)						
Sweet, Parker H., New York, assignor to Rotary File and Machine Company, Brooklyn, N. Y. Pinking-machine	812,465	Feb. 13	1901	419	120	1954
Sweet, Stephen S. (See Smith and Sweet.)						
Sweet, Warren, assignor of one-half to J. Somers, Fort Wayne, Ind. Mechanical movement for washing-machines	813,302	Feb. 20	3732	820	120	2384
Sweetser, George, Upper Norwood, assignor to T. De La Rue and Company, Limited, London, England. Fountain-pen	813,534	Feb. 27	4036	884	120	2513
Swett, Lyman R., Boston, Mass. Two-compartment envelop	810,585	Jan. 23	4056	835	120	1006
Swift, Edward S., trustee. (See Zange, Max C., assignor.)						
Swimmer, Robert, New York, N. Y., and E. B. Neelen, Lyndhurst, N. J. Gas-burner	811,970	Feb. 6	876	193–4	120	1668
Swinehart, Charles M. (See Turner, Kernaghan, and Swinehart.)						
Swinehart, James A., Akron, Ohio. Vehicle-tire	809,641	Jan. 9	2102	435	120	491
Swink, Charles B., Muskogee, Ind. Ter. Delivery mechanism for printing-presses	810,231	Jan. 16	3281	679	120	799
Swink, Charles B., Muskogee, Ind. Ter. Printing-press	813,466	Feb. 27	3900	855	120	2480
Swoboda, Adolf, Vienna, assignor of one-half to W. Bokmayer, Modling, near Vienna, Austria-Hungary. Match	810,363	Jan. 16	3561	.....	120	862
Swortfiger, George F., Newark, N. J. Earth-anchor	809,082	Jan. 2	802	173	120	177
Swortfiger, George F., Newark, N. J. Combined anchor-hook, guy-clamp, and guy-stretcher	813,182	Feb. 20	3321	730	120	2209
Sykes, Alfred. (See Crowther and Sykes.)						
Sylstad, Martin J., and C. G. Rude, Sacred Heart, Minn. Automatic carrier and self-dumping device	810,586	Jan. 23	4057	835	120	1006
Sylvester, William A., Reading, Mass. Cutting mechanism	813,506	Feb. 27	4156	911	120	2536
Symmonds, Robert, Jr., assignor to T. B. Jeffery, Kenosha, Wis. Power-transmitting mechanism for motor-vehicles	809,337	Jan. 9	1462	296	120	356
Symmonds, Robert, Jr., assignor to T. B. Jeffery, Kenosha, Wis. Power-transmitting mechanism for motor-vehicles	809,338	Jan. 9	1466	296–7	120	358
Symons, Johnson V., Johnstown, Pa. Controlling mechanism for blowing-engines	813,084	Feb. 20	3091	677	120	2251
Symons, Wilson E., Pittsburg, Kans. Locomotive-truck	813,265	Feb. 20	3457	762–3	120	2227
Syphonic Measure Tank Company. (See Linton, Ernest O., assignor.) (Reissue.)						
Szekely, Salamon, and E. Kovács, Budapest, Austria-Hungary. Manufacturing milk preparations	811,971	Feb. 6	878	.....	120	1668
Tabler, Frank C., assignor to T. R. Fowler, St. Louis, Mo. Cable-hanger	810,004	Jan. 16	2791	576	120	698
Talsey, Fred R., et al. (See Davis, Frank J., assignor.)						
Tait, Casatus, St. Joseph, Mo. Toy pistol	812,613	Feb. 13	2206	480	120	2014
Tait, Godfrey M. S., Montclair, N. J., assignor to Combustion Utilities Company, New York, N. Y. Fluid-sealing device for gas-producers	809,230	Jan. 9	1466	297	120	358
Tait, Godfrey M. S., Montclair, N. J., assignor to Combustion Utilities Company, New York, N. Y. Power gas apparatus	810,685	Jan. 23	4321	876	120	1046
Tait, La Roy E., Radcloud, Nebr. Feed-gage	809,983	Jan. 2	653	143	120	144
Takaki, Shio-Ichi, New York, N. Y. Pipette	813,256	Feb. 20	3461	762	120	2226
Talbert, Emmett, Fresno, Cal. Dispensing apparatus	813,087	Feb. 20	3010	663	120	2251
Talbot, Richmond, et al. (See Haller and Billingsley, assignors.)						
Talcott, Morton C., Hartford, Conn. Variable-speed gear	809,406	Jan. 9	1635	331	120	389
Talcott, Morton C., Hartford, Conn. Transmission-gearing	809,540	Jan. 9	1682	391	120	447
Tallmadge, Andrew P., Washington, D. C. Gas-engine sparker	813,289	Feb. 27	4088	1060	120	2677
Tapila, Alvin, Forestville, Conn. Scrubbing-machine for removing foreign matter from the surfaces of globular objects	812,466	Feb. 13	1902	420	120	1954
Tarling, Thomas R., St. Albans, England. Oil-lamp	813,231	Feb. 20	3433	704	120	2201
Tarr, Elmer E., Mount Vernon, Ohio. Knockdown ironing-board	813,267	Feb. 20	3462	763	120	2226
Tasker, William, Biloxi, Miss. Wheelbarrow	809,240	Jan. 9	1469	297	120	359

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drf's.	Official Gazette. Vol.	Official Gazette. Page.
Tate, John B., Altoona, assignor to Flannery Bolt Company, Pittsburg, Pa. Stay-bolt	813,120	Feb. 20	3204	700	120	2295
Tatum, James W., assignor of one-half to D. C. Mangum, Durham, N. C. Combined heating and cooking stove	813,381	Feb. 13	1751	364	120	1922
Tauber, Maurice, assignor of one-half to E. Pokorny, Chicago, Ill. Upholstering apparatus	811,863	Feb. 6	670	147	120	1027
Taylor, Addie. (See Taylor, Frank and A.)						
Taylor, Albert H., Easton, Pa., assignor to Ingersoll-Sergeant Drill Company, New York, N. Y. Automatic oiler	810,866	Jan. 23	4232	877	120	1045
Taylor, Albert H., Easton, Pa., assignor to Ingersoll-Sergeant Drill Company, New York, N. Y. Reversing mechanism for rotary motors	810,890	Jan. 23	4630	967	120	1132
Taylor, Alfred, assignor of one-half to T. H. Horne, Victoria, Canada. Automatic fire-alarm	812,776	Feb. 13	2605	551	120	2074
Taylor, Arthur K., Jacksonville, Fla. Baby-bed	812,090	Feb. 6	1134	248	120	1719
Taylor, Carl T. and G. L. Clark, Mount Sterling, Ill. Stove	812,614	Feb. 13	2207	480-1	120	2014
Taylor, Cecil H., Philadelphia, Pa., assignor, by mesne assignments, to K. Taylor, Highbridge, N. J. Gas-operated mechanism for firearms	811,595	Feb. 6	120	26	120	1512
Taylor, Charles E. (See Hubbard and Taylor.)						
Taylor, Charles G., Hartford, Conn. Device for securing doors, &c.	811,594	Feb. 6	118	26	120	1511
Taylor, Charles M., Jr., Philadelphia, Pa. Means for making milk products and recovering milk fluids	809,860	Jan. 9	2405	518	120	552
Taylor, Charles M., Jr., Philadelphia, Pa. Suction apparatus for dairy products	809,861	Jan. 9	2406	519	120	552
Taylor, Daniel J., assignor of one-half to S. J. Taylor, Philadelphia, Pa. Door stop and retainer	813,927	Feb. 27	4805	1080	120	2677
Taylor, Frank and A., Bay City, Mich. Headwear	813,467	Feb. 27	3901	855	120	2480
Taylor, George. (See Brown and Taylor.)						
Taylor, George B. (See Voynow and Taylor.)						
Taylor, Harry A. (See Kerngood and Taylor.)						
Taylor, Horace H., San Jose, Cal. Self-propelled vehicle-truck	810,997	Jan. 30	4871	1014	120	1218
Taylor, Horace H., San Jose, Cal. Power-transmitting mechanism	811,258	Jan. 30	5383	1123	120	1339
Taylor Iron and Steel Company. (See Brinton, Walter, assignor.)						
Taylor, James E. (See Shanklin, Philip A., assignor.)						
Taylor, John H., Battle Creek, Mich. Steam-trap	813,332	Feb. 20	3625	795	120	2362
Taylor, Knox. (See Taylor, Cecil H., assignor.)						
Taylor, Samuel J. (See Taylor, Daniel J., assignor.)						
Taylor, Vincent A., Bedford, Ohio. Chair-seat	811,259	Jan. 30	5386	1123	120	1320
Testa, Ritchie E., Toledo, Ohio. Cement-block-molding machine	812,615	Feb. 13	2208	481	120	2015
Teller, Myron S., Kingston, N. Y. Universal business filing-card	813,928	Feb. 27	4805	1061	120	2677
Ten Eyck, Frank E., Auburn, N. Y. Check-valve	811,185	Jan. 30	5236	1096	120	1296
Tenacity Loose-Leaf Metal Company. (See Schultz and Gerding, assignors.)						
Tench, Frederick, *et al.* (See McCabe, Franklin J., assignor.)						
Terpening, Elmer A., Geneseo, Ill. Electroresponsive device	810,311	Jan. 16	3452	713-14	120	837
Terpening, Elmer A., Geneseo, Ill. Telephone system	811,972	Feb. 6	880	194	120	1488
Terramorse, Frank, San Francisco, Cal. Polishing-machine	813,839	Feb. 27	4637	1026	120	2642
Terrell, Edward A. (See Chase, James L., assignor.)						
Terry, George H., assignor to Economy Cement Post Machine Company, Leslie, Mich. Cement-fence-post mold	811,675	Feb. 6	276	61	120	1546
Terry, Joshua, Draper, Utah. Rack attachment for stoves	813,749	Feb. 27	4439	980	120	2560
Teuch, Ernest A. (See Fischer, Joseph B., assignor.)						
Tettenborn, Charles, Cincinnati, Ohio. Hinge for step-ladders	813,535	Feb. 27	4037	885	120	2513
Tevander, Olaf N. (See Duncan and Tevander.)						
Textile Machine Works. (See Janssen, Henry, assignor.)						
Textile Machine Works. (See Thus, Max, assignor.)						
Thacher, John J., Attleboro, Mass., assignor to Brown and Sharpe Manufacturing Company, Providence, R. I. Feed mechanism	812,898	Feb. 20	2747	605	120	2173
Thacher, John J., Attleboro, Mass., assignor to Brown and Sharpe Manufacturing Company, Providence, R. I. Belt-tightener	812,899	Feb. 20	2750	606	120	2174
Thomas Motor Company. (See Pendleton, Gurdon, assignor.)						
Tharp, John H., Chesokee, Kans. Animal-trap	813,333	Feb. 20	3627	795	120	2362
Thatcher, Frederick B., Providence, R. I. Bottle-filling machine	809,407	Jan. 9	1628	331-2	120	391
Thatcher, Jesse W. (See Hullings, Charles W., assignor.)						
Thausing, Victor, Vienna, Austria-Hungary. Refrigerating apparatus for cooling air	811,596	Feb. 6	121	26	120	1512
Thayer, John P. (See Baugher, David L., assignor.)						
Thayer, Paul M., Plymouth, Ind. Weed-puller	809,476	Jan. 9	1767	364	120	422
Thayer, Russell, Philadelphia, Pa. Electrically-propelled vehicle. (Reissue)	12,449	Feb. 6	1334	280-90	120	1763
Theil, Charles W., assignor of two-thirds to A. D. and J. T. Seaman, Milwaukee, Wis. Electric drill	810,444	Jan. 23	3766	775	120	940
Thels, Rudolf, Solingen, Germany. Scissors	809,541	Jan. 9	1884	391	120	447
Themeer, John, Caribou, Me. Adjustable stilt	809,862	Jan. 9	2407	519	120	552
Therien, Joseph A., *et al.* (See Dupleasis, Elouild, assignor.)						
Thiebaut, Camille, Vitry-sur-Seine, France. Chain-machine for the manufacture of corrugated cardboard	810,891	Jan. 23	4641	967-8	120	1133
Thiele, Karl. (See Leuber and Thiele.)						
Thielen, Anthony, Bryant, Iowa. Attachment for plows	812,382	Feb. 13	1753	364	120	1922
Thielen, Nicholas, Chicago, Ill. Cigar-bunching device	809,758	Jan. 9	2206	478	120	540
Thier, Max, Erfurt, Germany. Cylinder for internal-combustion motors and the like	813,536	Feb. 27	4038	885	120	2514
Thimes, William B., Trenton, N. J. Bonding or tying device	809,231	Jan. 2	1214	248	120	268
Thiss, George R., Minneapolis, Minn. Wardrobe-rack	813,258	Feb. 20	3463	763	120	2326
Thoesl, Herman, assignor of one-half to A. J. Burt, Spokane, Wash. Weed-exterminator	812,616	Feb. 13	2211	482	120	2015
Thole, Wilhelm F., and F. Ott, Allegheny, Pa. Fire-escape	809,083	Jan. 2	803	172-4	120	177
Thomas, Andrew, Cambridge, assignor to Clifton Manufacturing Company, Boston, Mass. Making inner soles and the like	812,883	Feb. 13	1755	385	120	1924
Thomas, Andrew, Cambridge, Mass., assignor to Commonwealth Trust Company, trustee, Dublin, N. Y. Reinforcing fabric for inner soles	812,884	Feb. 13	1756	385	120	1924
Thomas, Albion W., assignor to L. V. Jones, Rome, N. Y. Cutting-machine for vegetables, &c.	810,998	Jan. 30	4873	1014-15	120	1219
Thomas, Avila, assignor of one-half to E. F. Glock, Detroit, Mich. Reinforced concrete curbing	813,334	Feb. 20	3626	795	120	2362
Thomas, Bert H., assignor of one-half to W. K. Andrews, Millers Station, Pa. Milk-separator	810,892	Jan. 23	4643	968	120	1133
Thomas, Charles J. (See Oliver and Thomas.)						
Thomas, Charles W., Nutley, assignor of one-half to C. Smith, Belleville, N. J. Centrifugal machine for extracting pulp	809,642	Jan. 9	2104	435-6	120	492
Thomas, Cornelius R. (See Simpson, Joseph B., assignor.)						
Thomas, Edward C., and C. F. Jenkins, Washington, D. C. Automatic sign-changing device	808,894	Jan. 2	806	115	120	117

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drf's.	Official Gazette. Vol.	Official Gazette. Page.
Thomas, Edward G., Cambridge, Mass. Rail-bond	812,900	Feb. 20	2733	606	120	2174
Thomas, George H., Philadelphia, Pa. Dumping-wagon	812,100	Feb. 6	1136	248	120	1720
Thomas, George W., Yosemite, Ky. Combined post and wire-stretcher	810,232	Jan. 16	3262	679	120	920
Thomas, John B., and J. Lynch, Lakewood, N. J. Race-course for automobiles	809,886	Jan. 9	1979	410-11	120	496
Thomas L. Leedom Company. (See Robertson, Andrew G., assignee.)						
Thomas, Percy H., East Orange, N. J., assignor to Cooper Hewitt Electric Company, New York, N. Y. Means for controlling mercury-vapor electric lamps	809,643	Jan. 9	2107	436	120	493
Thomas, William L., Chicago, Ill. Golf-ball	809,084	Jan. 2	806	174	120	178
Thomas, William L., Chicago, Ill. Golf-ball	809,085	Jan. 2	807	174	120	178
Thompson, Albert H. (See Eby, Maurice S., assignor.)						
Thompson, Charles P., Oswego Falls, N. Y. Pivot-bolt for loom-shuttle spindles	808,895	Jan. 2	834	115	120	117
Thompson, Frank H., Haw River, N. C. Combined animal tether and feed-bag	812,157	Feb. 6	1270	278	120	1748
Thompson, George D., Arlington Heights, Ohio. Elevator-gate	809,644	Jan. 9	2109	436	120	493
Thompson, George W., Canton, Ill. Date	812,964	Feb. 20	2892	638	120	2206
Thompson, Gilbert S., Cedar Rapids, Iowa. Water-closet flush-tank	813,589	Feb. 27	4157	911-12	120	2639
Thompson, Hamlin T., Fioville, assignor of one-half to W. D. Gibson, Fayetteville, Ga. Wrench	808,954	Jan. 2	854	143	120	144
Thompson, Hugh L., Waterbury, Conn. Gripping means for wire-drawing devices	811,107	Jan. 30	5060	1058	120	1259
Thompson, James T., Tuolumne, Cal. Drill sharpener, shaper, and gager	808,896	Jan. 2	835	116	120	117
Thompson, John H., Fitchburg, Mass. Automatic draft-opener	810,821	Jan. 23	4486	983	120	1101
Thompson, John H., Charleston, W. Va., assignor to Universal Electric Equipment Company, Birmingham, Ala. Power-transmission mechanism	810,176	Jan. 16	3148	662	120	773
Thompson, John M., assignor of three-fourths to T. W. Kennady and W. N. La Tour, Buffalo, N. Y. Sewer-cleaner	813,026	Feb. 20	3012	663	120	2331
Thompson, Oliver E., Ypsilanti, Mich. Kraut-cutter. (Reissue)	12,436	Jan. 16	3622	745-6	120	575
Thompson, Orrin B., Jersey, Ohio. Invalid-lift	808,785	Jan. 2	831	71	120	74
Thompson, Richard, New York, N. Y., and J. A. Sharman, East Orange, N. J. Hydraulic lubricator	810,909	Jan. 30	4875	1015	120	1219
Thomson, Arthur T. M., London, England. Semi-automatic telephone-exchange system	809,232	Jan. 2	1216	248-52	120	269
Thomson, Elihu, Swampscott, Mass., assignor to General Electric Company. Electrostatic influence-machine	809,761	Jan. 9	2310	479	120	540
Thomson, George A., *et al.* (See Oseanyan, Paul C., assignor.)						
Thomson, McLeod W., deceased, Altoona, (W. P. and S. G. Thomson, executors,) assignor of one-half to A. Morrison, Pittsburg, Pa. Insulated rail-joint	813,840	Feb. 27	4639	1026	120	2643
Thomson, Samuel G., *et al.*, executors. (See Thomson, McLeod W.)						
Thomson, William P., *et al.*, executors. (See Thomson, McLeod W.)						
Thorne, Percy R., and R. D. Welton, Vincennes, Ind. Disk jointer for plows	809,477	Jan. 9	1760	365	120	422
Thornley, Frank H. (See Cole and Thornley.)						
Thornton, John A., Morgan City, La. Grab	812,617	Feb. 13	2213	482	120	2015
Thornton, Thomas W., Cheyenne, Okla. Ter. Mechanical fly-trap	810,094	Jan. 16	2993	624	120	743
Thubé, Gaston A. (See Preaubert and Thubé.)						
Thumler, Robert K. (See Bretsfeider and Thumler.)						
Thümmel, Johann. (See Pelchrzim and Thümmel.)						
Thun, Karl. (See Schmidt and Thun.)						
Thurman, John S., St. Louis, Mo. Dust-collector	809,408	Jan. 9	1632	332	120	392
Thurstensen, Soren, assignor to Henry Vogt Machine Company, Louisville, Ky. Filter-press	813,121	Feb. 20	3205	701	120	2276
Thurstensen, Soren, assignor to Henry Vogt Machine Company, Louisville, Ky. Steam-drier	813,750	Feb. 27	4440	980-1	120	2599
Thurston, Horace, Providence, R. I., assignor of one-half to C. H. Schott, Brooklyn, N. Y. Press	812,101	Feb. 6	1137	248-9	120	1720
Thurston, John W., Maple Falls, Wash. Shingle-press	811,456	Jan. 30	5741	1202	120	1404
Thus, Max, Reading, assignor to Textile Machine Works, Wyomissing, Pa. Stocking and manufacturing same	810,095	Jan. 16	2995	624	120	743
Tibbetts, Fred H., Columbus, Ohio. Automatic sheet-adjusting device for printing-presses	812,901	Feb. 20	2757	607	120	2176
Tichenor, Robert R., assignor of one-half to J. M. Pogue, Fesley, Minn. Grain-door	810,893	Jan. 23	4644	968	120	1133
Tidwell, Albert F., Celina, Tex. Cotton-handling apparatus	812,618	Feb. 13	2214	483	120	2016
Tiemann, Frederick, Ordway, Colo. Sugar-beet seeder	809,233	Jan. 2	1226	253	120	269
Tierney, Edward J., and P. Funck, assignors to T. B. Dunn, Rochester, N. Y. Package-wrapping machine	810,005	Jan. 16	2792	576-8	120	696
Tierney, Thomas J., *et al.* (See Ward, George, assignor.)						
Tiffany, George S., assignor to Gray National Telautograph Company, New York, N. Y. Telautographic and other electric circuits	809,762	Jan. 9	2212	479	120	541
Tillinghast, Barrett D., and H. B. Porterfield, McDonald, Pa. Rope-cutter	810,587	Jan. 23	4036	825	120	1036
Tillinghast, Pardon W., Edgewood, R. I. Pneumatic tire	809,409	Jan. 9	1634	332	120	392
Timm, Friedrich C. W., Hamburg, Germany. Preserving the inner walls of furnaces	812,619	Feb. 13	2215	484	120	2016
Timmerman, August H. (See Ham, Simson, assignor.)						
Timmons, Edwin S., Chicago, Ill. Amusement apparatus	809,589	Jan. 9	1980	411	120	496
Tincher, Timothy S., assignor of two-thirds to T. F. Holden and J. Leetch, Washington, D. C. Turbine steam-engine	811,457	Jan. 30	5742	1202	120	1404
Tinkess, George W., Hubbard, Miss. Lure for use with troller-hooks	810,822	Jan. 23	4487	983	120	1101
Tinkham, Cortland O. (See Wyman, Dennett, and Tinkham.)						
Tirrell, Arthur R., North Weymouth, Mass. Insole	811,260	Jan. 30	5387	1124	120	1320
Tobey, Fred W., Grand Rapids, Mich. Bookcase	810,233	Jan. 16	3264	680	120	800
Tobey, Fred W., Grand Rapids, Mich. Filing-cabinet	810,823	Jan. 23	4488	983	120	1101
Tobey, Fred W., Grand Rapids, Mich. Shelf	810,824	Jan. 23	4491	984	120	1102
Toch, Henry M. (See Toch, Maximilian, assignor.)						
Toch, Maximilian, assignor of one-half to H. M. Toch, New York, N. Y. Treating cement and cement construction	813,841	Feb. 27	4641		120	2643
Todd, Henry, Marshfield, Ohio. Miner's drill	810,513	Jan. 23	3915	826	120	977
Tomkins, Alfred, Pittsburg, Pa. Conveyor	809,763	Jan. 9	2315	480	120	541
Tomlinson, Charles H., assignor to Tomlinson Coupler Company, Denver, Colo. Car-coupling	810,898	Jan. 23	4061	898	120	1007
Tomlinson Coupler Company. (See Tomlinson, Charles H., assignor.)						
Tompkins Brothers Company. (See Tompkins, Ernest, assignor.)						
Tompkins, Ernest, assignor to Tompkins Brothers Company, Troy, N. Y. Stop-motion for knitting-machines	809,234	Jan. 2	1228	254	120	270
Tompkins, Vreeland, Jersey City, N. J. Gasket	811,000	Jan. 30	4877	1015	120	1220
Tonk, Richard, and W. J. McDonald, Portage, Pa. Hose-coupling	809,789	Jan. 9	2307	478	120	540
Torrington Novelty Manufacturing and Supply Company. (See Dérand, Louis J., assignor.)						
Toss, William, Jr., San Pedro, assignor to T. J. and R. K. Brundage, Farmersville, Cal. Oil-tank fastener	809,542	Jan. 9	1884	391	120	446
Toscani, Domenico, Mesa Imperiale, Italy. Combined seeding and manure-spreading machine	809,985	Jan. 9	2405	519	120	552

			Spec.	Drf.	Vol.	Page.
Towers, William M., and H. S. Harrington, assignors of one-fourth to E. C. Hume, Rome, Ga. Developing-machine	810,234	Jan. 16	3286	660	120	801
Townsend, Fitzhugh, New York, N. Y., assignor to General Railway Signal Company. System of automatic signaling for electric railways	810,687	Jan. 23	4234	877	120	1046
Townsend, Frederick B., assignor to W. H. Miner Company, Chicago, Ill. Friction draft-rigging for railway-cars	812,902	Feb. 20	2759	607	120	2176
Townsend, Harry P., New Britain, assignor to American Serial Lock Company, Hartford, Conn. Receptacle-holder	813,537	Feb. 27	4089	865	120	2614
Townsend, John F., *et al.* (See Sperry, Henry B., assignor.)						
Townsend, John J. (See Elliot and Townsend.)						
Townsend, John W. and N. S., Newark, N. J. Attachment or fixture for horseshoes	811,598	Feb. 6	124	27	120	1512
Townsend, Nelson S. (See Townsend, John W. and N. S.)						
Townsley, George T. (See Wister and Townsley.)						
Tracy, J. T., *et al.* (See Kemper, Otto, assignor)						
Tracy, John W., Nash county, assignor of one-half to J. M. Fitzgerald, Rockymount, N. C. Rail-joint	811,261	Jan. 30	5388	1124	120	1350
Trautmann, Max, Dresden, Germany. Fabric-moving mechanism for embroidering-machines	813,122	Feb. 20	3208	701	120	2276
Travis, John J., Cascade, Mont. Sod-turner for disk plows	813,065	Feb. 20	3094	678	120	2251
Travis, Littleton W., Martin, Tenn. Flood-gate	813,842	Feb. 27	4542	1026–7	120	2643
Travis, Owen J., Denver, Colo. Loader and unloader	811,973	Feb. 6	883	194	120	1669
Treat, Charles H., assignor to American Blower Company, Detroit, Mich. Ventilating apparatus	809,645	Jan. 9	2110	436–7	120	493
Tregoning, William C., assignor to Trumbull Electric Manufacturing Company, Plainville, Conn. Insulated receptacle for panel and switch boards	809,864	Jan. 9	2500	520	120	583
Tresidder, John J., New York, assignor to American Column Company, Brooklyn, N. Y. Fireproof column and column-cap	813,183	Feb. 20	3323	731	120	2300
Tribken, Charles W., Brooklyn, assignor to Lidgerwood Manufacturing Company, New York, N. Y. Hoisting apparatus	810,445	Jan. 23	3767	776	120	941
Trimm, Addison P., Buffalo, N. Y. Cleaning device	811,001	Jan. 30	4878	1015	120	1220
Tripodi, Luca, New York, N. Y. Combined pen-rack and inkstand-holder	809,646	Jan. 9	2112	437	120	494
Tripp Fruit Wrapping Machine Company. (See Ballard, Milton H., assignor.)						
Troll, Frederick J., Baltimore, Md. Connector for electrical conductors	813,538	Feb. 27	4042	885	120	2615
Tropp, Bernhard, assignor to W. H. Laird, New York, N. Y. Gearing	812,903	Feb. 20	2761	607	120	2177
Troumetine, John, *et al.* (See Schoettl, Jaeger, and Walsleben, assignors.)						
Troup, Charles, Wataska, Ill. Switch and signal	812,109	Feb. 6	1138	249	120	1720
Troupe, Albert B., Sandwich, Ill. Match-lighter	813,751	Feb. 27	4444	961	120	2600
Trout, Fred J. (See Steele, Stenson, and Trout.)						
Truckenbrod, Gustavous A., Lamoille, Ill. Harrow	809,150	Jan. 2	1044	216	120	229
True, Jacob, Castile, N. Y. Making glass ornaments	813,123	Feb. 20	3209	701	120	2277
Trueman, Henry P., and E. D. Cleghorn, Worcester, England. Screw-making and metal-turning lathe	808,887	Jan. 2	527	116–18	120	117
Truffault, Jules M. M., Paris, France, assignor to E. V. and G. H. Hartford, Orange, N. J. Frictional retarding means for spring-vehicles. (Reissue)	12,437	Jan. 16	3624	746	120	875
Truitt, John T., St. Louis, Mo. Belt-gearing for extractors	812,703	Feb. 13	2372	519	120	2046
Trumbull Electric Manufacturing Company. (See Tregoning, William C., assignor.)						
Trumbull Electric Manufacturing Company. (See Wheeler, Frank T., assignor.)						
Trump, Edward N., Syracuse, N. Y. Gas-producer	813,600	Feb. 27	4158	912–13	120	2539
Trussed Concrete Steel Company. (See Kahn, Julius, assignor.)						
Trussell, Emory A., St. Louis, Mo., assignor to Sieber & Trussell Mfg. Co. Loose-leaf binder	813,752	Feb. 27	4445	961–2	120	2600
Trussell, Emory A., St. Louis, Mo., assignor to Sieber & Trussell Mfg. Co. Loose-leaf binder	813,753	Feb. 27	4446	962	120	2600
Tsuji, Kaaho, Takaoka, Japan. Apparatus for producing efflorescence	811,002	Jan. 30	4880	1016	120	1220
Tsukamoto, Kumajiro, Tokyo, Japan. Electric cell	809,647	Jan. 9	2114	438	120	494
Tucker, Benjamin W., Newark, N. J. Machine for applying labels and the like to bottles and other articles	808,955	Jan. 2	655	140–5	120	145
Tucker, Benjamin W., Newark, N. J. Machine for applying wrappers to magazines, books, and the like	808,956	Jan. 2	669	145–7	120	148
Tucker, Edwin D., Santa Barbara, Cal. Punch	813,843	Feb. 27	4543	1027	120	2643
Tucker, Robert P., *et al.* (See Goundin, John K., assignor.)						
Tucker, Zechariah R., Providence, R. I., assignor to Iroquois Machine Company, Bedford, N. Y. Bearing for spindles of grinding-machines	811,239	Jan. 30	5539	1156	120	1362
Tudor Boiler Manufacturing Company. (See Tudor, Charles E., assignor.)						
Tudor, Charles E., assignor to Tudor Boiler Manufacturing Company, Cincinnati, Ohio. Tie-plate for furnaces	811,003	Jan. 30	4882	1017	120	1221
Tulloch, Louis R., Angels Camp, Cal. Frue concentrator	809,648	Jan. 9	2115	438	120	494
Tulloch, Louis R., Angels Camp, Cal. Mechanical movement	813,601	Feb. 27	4160	913	120	2539
Tunks, Nelson H., *et al.* (See Turney, Edgar E., assignor.)						
Turchi, Carlo, Ferrara, Italy. Combined telegraph and telephone system	809,865	Jan. 9	2502	520	120	583
Turenne, Emile L. P., assignor to Barbier, Benard & Turenne, Paris, France. Light-projector	812,103	Feb. 6	1140	260	120	1721
Turner, Edward W., Swansboro, assignor of one-half to G. M. Rogers, Richmond, Va. Churn	810,668	Jan. 23	4238	878	120	1047
Turner, Frank S., S. Pease, and W. B. Martin, Geneva, Ohio, assignors, by mesne assignments, to W. B. Martin. Liquid-measuring device	809,273	Jan. 2	1227	270	120	292
Turner, George E., assignor to Bellefontaine Foundry & Machine Company, Bellefontaine, Ohio. Steam shovel and dredge	812,244	Feb. 13	1480	329	120	1862
Turner, George E., assignor to Bellefontaine Foundry & Machine Company, Bellefontaine, Ohio. Steam-dredge	812,245	Feb. 13	1481	324	120	1862
Turner, Isaac J., assignor to L. T. Chamberlain, New York, N. Y. Motor-wheel	811,899	Feb. 6	127	28	120	1513
Turner, James J., *et al.* (See Melton, Henry C., assignor.)						
Turner, Miles, W. Kernaghan, and C. M. Swinehart, Steamboat Springs, Colo. Brake	810,825	Jan. 23	4462	934	120	1102
Turner, Robert, New Canaan, Conn., and B. R. Corley, New York, N. Y. Plate-press	809,086	Jan. 2	808	174	120	178
Turner Tanning Machinery Company. (See Perkins, Franklin J., assignor.)						
Turner, Thomas J. R., Taylor, Iowa. Mail-box	809,866	Jan. 9	2505	520	120	584
Turner, Walter V., Wilmerding, assignor to Westinghouse Air Brake Company, Wilmerding, Pa. Load-brake apparatus	808,708	Jan. 2	153	30	120	36
Turner, Walter V., Wilmerding, and J. B. Carter, assignors to Westinghouse Air Brake Company, Pittsburg, Pa. Fluid-pressure brake	810,514	Jan. 23	3917	806–6	120	977
Turner, William, Wenatchee, Wash. Combined weeder, orchard-cultivator, and fallow-plow	811,600	Feb. 6	128	26	120	1513
Tyrrell, Elmer H., assignor of two-thirds to N. H. Tunks and K. C. Helmig, Peru, Ind. [illegible] for automatic car-couplings	812,395	Feb. 13	1760	388	120	1924
Tyrrell, [illegible], Triest, Austria-Hungary. Trigger mechanism for small-arms	810,177	Jan. 16	3154	688	120	774
Tyrrell, Percy W., Skaneateles, N. Y. Window-screen	811,974	Feb. 6	884	195	120	1669

United Zinc and Chemical Company. (See Hofmann, Ottokar, assignor.)						
Universal Brush Company. (See Curtis, Frank C., assignor.)						
Universal Electric Equipment Company. (See Thompson, John H., assignor.)						
Unks, William H., Duluth, Minn. Garment-fastener	811,005	Jan. 30	4489	1019	120	1222
Urban, Joseph S., assignor of one-half to A. E. Niebling, Indianapolis, Ind. Automatic igniter for match-boxes	811,458	Jan. 30	5744	1203	120	1404
Vail, Henry B., Arlington, Ohio. Pig-brooder	809,543	Jan. 9	1886	391–2	120	448
Valle & Kimes. (See Kimes, Hugh W., assignor.)						
Valentine, Walter D., *et al.* (See Gallagher, Fred E., assignor.)						
Valentiner, Friedrich W. S., Leipsic, Germany. Salicylic-acid methylene acetate and making same	811,884	Feb. 6	673		120	1638
Vallely, Thomas L. (See Burke and Vallely.)						
Van Alstine, Frank, Sacramento, Cal. Attachment for ladders	813,620	Feb. 13	2220	484	120	2017
Van Cleft, Robert E., Newton, Iowa. Band-cutter and feeder	813,259	Feb. 20	3463	764	120	2328
Van Der Vaart, Henry W., San Francisco, Cal. Automatic attachment for carbonating apparatus	809,649	Jan. 9	2116	438	120	495
Van Dorn-Elliott Electric Co. (See Pedersen, Adolph, assignor.)						
Van Gulpen, Max, Mülheim-on-the-Rhine, Germany. Machine for the manufacture of cigars, cigarettes, cigar-fillers, and the like	809,410	Jan. 9	1635	332–6	120	393
Van Halteren, Alexander W. (See Raffi, Herman, assignor.)						
Van Kannel Revolving Door Company. (See Van Kannel, Theophilus, assignor.)						
Van Kannel, Theophilus, assignor to Van Kannel Revolving Door Company, New York, N. Y. Metallic frame for revolving doors	813,602	Feb. 27	4162	913–14	120	2540
Van Meter, James M., assignor of one-half to F. W. Marson, Cambridge City, Ind. Fence anchor and driver	808,704	Jan. 2	157	36	120	36
Van Natta, Erastus H. (See Pratt and Van Natta.)						
Van Ostrum, Alva F. (See Kline, Harvey Z., assignor.)						
Van Scoyoc, Leroy, Gilbert Station, Iowa. Electrolytic apparatus	813,844	Feb. 27	4545	1027	120	2644
Van Tassel-Beck, Margaret, assignor of one-half to E. E. Bellamy, Cleveland, Ohio. Combined hot-water bag and syringe	809,650	Jan. 9	2118	438	120	495
Van Tassel, John E., assignor to Standard Optical Company, Geneva, N. Y. Lens-mounting for eyeglasses	808,886	Jan. 2	531	119	120	118
Van Voorhees, Amos. (See Houston, Burns, and Van Voorhees.)						
Van Wie, Philip S. (See Fisk and Van Wie.)						
Vanhorn, Charles P., *et al.* (See Ross, John F., assignor.)						
Vannette, Jasper, Tiffin, Ohio. Sewing-machine	813,020	Feb. 27	4036	1061–2	120	2577
Vare, Thomas W., Philadelphia, Pa. Vise	813,260	Feb. 20	3465	764	120	2329
Varley, Richard, Englewood, N. J., assignor, by mesne assignments, to Autocoil Co. Circuit-controller	808,967	Jan. 2	678	167–8	120	180
Varley, Richard, Englewood, N. J., assignor to Autocoil Company. Spark-ignition system for explosive-engines	808,968	Jan. 2	680	168	120	181
Varley, Richard, Englewood, N. J., assignor to Autocoil Company. Induction-coil vibrator	808,225	Jan. 2	1260	264	120	270
Varley, Thomas W., assignor of one-half to W. S. Hagg, New York, N. Y. Electrical measuring instrument	810,295	Jan. 16	2267	660–1	120	801
Vaubel, Selim, Paris, France. Producing multicolored photographic proofs	809,651	Jan. 9	2119		120	495
Vaughan, Joshua D., Shreveport, La. Log-jack	809,868	Jan. 9	2508	524	120	1169
Vaughan, Thomas L., assignor to G. K. Wendling, San Francisco, Cal. Electrical heater	813,261	Feb. 20	3466	888	120	2329
Vaught, James C. R., Ipswich, S. D. Automatic safety attachment for stamp-mills	809,869	Jan. 16	2759	576	120	699
Vaught, Joseph K., assignor of one-half to W. M. Vaught, Elizabethton, Tenn. Car-coupling	811,499	Jan. 30	5745	1203	120	1404
Vaught, William M. (See Vaught, Joseph K., assignor.)						
Veatch, Everett P., Paola, Kans. Automatic wagon-brake	809,181	Jan. 2	1643	344	120	397
Velin, Friedrich, Hölderlin-the-Odenwald, Germany. Pneumatic tire	811,109	Jan. 30	5063	1069	120	1259

Venezdora Mine Equipment Company. (See Partridge, Allen R., assignor.)						
Vera, Angel and L. G., Queretaro, Mexico. Relay	813,184	Feb. 20	3324	731	120	2300
Vera, Luis G. (See Vera, Angel and L. G.)						
Verdel, Jules, Lyon, France. Jacquard-machine for looms	812,246	Feb. 13	1483	324	120	1363
Vereinigte Maschinenfabrik Augsburg und Maschinenbau-Gesellschaft Nurnberg A.-G. (See Richter, Hans, assignor.)						
Vermillion, Jesse L., *et al.* (See Louise and Hensley, assignors.)						
Verneuil, Edward B., Batson, Tex. Railway-rail joint	808,705	Jan. 2	156	37	120	36
Vernon, Frederick R., Freeport, N. Y. Box	811,676	Feb. 6	277	62	120	1546
Vetter, August G., Rochester, N. Y., assignor to Vetter Desk Works. Filing-tray for card-indexes, &c.	813,670	Feb. 27	4311	949	120	2572
Vetter Desk Works. (See Vetter, August G., assignor.)						
Vicars, John, Jr. (See Vicars, Thomas and J., Jr.)						
Vicars, Thomas and J., Jr., Knaresborough, England. Sprinkling granular substances on dough in biscuit-cutting machines	813,680	Feb. 27	4314	949–50	120	2572
Vickers Sons & Maxim. (See Dawson and Buckham, assignors.)						
Vickery, Frank E., Jewell, assignor of one-half to W. L. Frissell, Davenport, Iowa. Martingale and connection	809,866	Jan. 9	2508	521	120	585
Victor Safe & Lock Co. (See Bleshcshmidt, Charles E., assignor.)						
Victor Talking Machine Company. (See Rinehart, Bentley L., assignor.)						
Villedrouin, Saint Charles, Jeremie, Haiti. Dumb-bell and Indian club	808,706	Jan. 2	160	37	120	37
Villy, Gustave H., Manchester, England, assignor to United States Horn Company, New York, N. Y. Horn for phonographs, ear-trumpets, &c. (Reissue)	12,442	Jan. 30	5868	1235	120	1436
Vincent, Gaius, assignor of one-half to H. Woollett, Minneapolis, Minn. Lawn-edger	813,539	Feb. 27	4044	886	120	2515
Vincent, Stella L. (See Parkes and Vincent.)						
Vining, George H., assignor to Vining's News Bureau, Kansas City, Mo. Means for producing folding matrices	813,261	Feb. 20	3466	765	120	2329
Vining's News Bureau. (See Vining, George H., assignor.)						
Vinson, Eva D., and B. F. Robinson, Newark, N. J. Game apparatus	808,959	Jan. 2	688	148	120	151
Vinton, John H., Boston, assignor to L. C. Smith, Winthrop, Mass. Pipe-wrench	810,096	Jan. 16	2907	624	120	744
Viola, Bartholomew, Brooklyn, N. Y. Vehicle-brake	809,341	Jan. 9	1470	297–8	120	349
Visser, William M., Harrodsburg, Ky. Flour-sifter	810,894	Jan. 23	4645	998	120	1133
Vives-Navarro, Carlos, Ponce, Porto Rico. Thill-coupling	809,079	Jan. 2	912	191	120	202
Voelkle, George W., Collinsville, Tex. Carpet-fastening	813,845	Feb. 27	4646	1027–8	120	2644
Vogel, Frederick, Farmington, Ill. Railway-switch	813,754	Feb. 27	4447	982–3	120	2600
Vogel, Paul F., St. Louis, Mo., assignor of one-half to W. W. Calmore, Philadelphia, Pa. Aging dyed fabrics	810,312	Jan. 16	3456	714	120	838
Vogel, William C., and H. K. Snell, Newcastle, Ind. Piano-action	812,705	Feb. 13	2375	520	120	2047
Voight, Henry G. (See Calsy and Voight.)						
Voight, Henry G., assignor to Russell & Erwin Manufacturing Company, New Britain, Conn. Lock and latch mechanism	809,342	Jan. 9	1472	298	120	360
Voight, Henry G., assignor to Russell & Erwin Manufacturing Company, New Britain, Conn. Lock and latch mechanism	812,904	Feb. 20	2762	608	120	2177
Voight, Henry G., assignor to Russell & Erwin Manufacturing Company, New Britain, Conn. Lock and latch mechanism	812,905	Feb. 20	2764	608	120	2177
Voigtmann, Frank. (See Pomeroy, Silas H., assignor.)						
Voland, Francisque, Villeurbanne, L. Diederichs, Jallieu, and J. B. Monnet, Bourgoin, France. Loom	811,597	Feb. 6	123	27	120	1512
Volk, Ferdinand, Pittsburg, Pa. Attachment for electric controllers	811,340	Jan. 30	5541	1156	120	1363
Volkmar, Bernhard, assignor to Acme Auto-Meter Company, New York, N. Y. Speed-indicator	813,185	Feb. 20	3326	731	120	2300
Volkmar, Bernhard, assignor to Acme Auto-Meter Company, New York, N. Y. Odometer	813,846	Feb. 27	4647	1028	120	2644
Vollmer, Wilhelm, Winfield, N. Y. Machine for bending angle-irons	811,975	Feb. 6	386	195	120	1689
Von Auw, Alwin, New York, N. Y. Bookbinder's gage	809,411	Jan. 9	1638	337	120	393
Von Culin, Clayton, Wayland, N. Y. Cutting-gage for saw-tables	808,889	Jan. 2	534	119	120	118
Von der Linde, Richard, Crefeld, Germany. Machine for cutting and pressing canisters, &c	809,512	Jan. 9	1530	378	120	436
Voorhees, Gardner T., Boston, Mass. Air and liquid cooling apparatus	813,066	Feb. 20	3094	678	120	2251
Voorhies, Alexis, New Iberia, La. Portable canopy	811,460	Jan. 30	5747	1208	120	1406
Vorster, Bastiaan C. A., Amsterdam, Netherlands. Apparatus for damping and affixing adhesive stamps	810,236	Jan. 16	3289	661	120	801
Voss, Detlef C., Somerville, assignor to J. E. Bartlett, Chelsea, Mass. Garment-marker for laundries and the like	808,788	Jan. 2	335	72	120	75
Voss, Frederick, Chicago, Ill. Metallic studding	808,789	Jan. 2	336	73	120	75
Voynow, Constantine B., and G. B. Taylor, Philadelphia, Pa. Crane structure for cars	810,827	Jan. 23	4493	934–5	120	1102
Vyvane, Emma M. (See Montesgle, Robert C., assignor.)						
W. Canning & Co. (See Wood and Oakford, assignors.)						
W. A. S. Benson and Company. (See Andrews, Frederick A., assignor.)						
W. D. Allen Manufacturing Company. (See Allen and Bowes, assignors.)						
W. F. Barnes Commercial Company *et al.* (See Casella, Secondo L., assignor.)						
W. H. Miner Company. (See O'Connor, John F., assignor.)						
W. H. Miner Company. (See Townsend, Frederick B., assignor.)						
Wachter, Jacob W., and B. H. Prendergast, Lansdowne, Md., assignors of one-third to F. E. Richards, Washington, D. C. Combination keyless lock	812,992	Feb. 27	4027	1080	120	2701
Wade, George W. (See Eaves, Slaven, and Wade.)						
Wadsworth, Willard, assignor to W. B. Wadsworth, Plainfield, N. J. Temperature-regulating means	808,707	Jan. 2	161	37	120	37
Wadsworth, Willard, assignor to W. B. Wadsworth, Plainfield, N. J. Means for controlling the level of liquids	810,237	Jan. 16	2292	662	120	802
Wadsworth, William B. (See Haywood, Daniel H., assignor.)						
Wadsworth, William B. (See Sengstad, Olaf, assignor.)						
Wadsworth, William B. (See Wadsworth, Willard, assignor.)						
Wagner, Bruno O., Swissvale, Pa. Electromagnetic switch-setting apparatus and electric rail heater	809,236	Jan. 2	1282	264–5	120	270
Wagner, Bruno O., Swissvale, Pa. Sunnyshore mechanism	809,237	Jan. 2	1247	265	120	276
Wagner, John F. (See Crawford, Landy O., assignor.)						
Wagner, Robert C., Toledo, Ohio. Moving-picture apparatus	811,341	Jan. 30	5544	1156–7	120	1363
Wagy, Solomon E., Wichita, Kans. Wrench	811,461	Jan. 30	5749	1204	120	1406
Wahl, William P. (See Marsh, Howard H., assignor.)						
Wahle, John C., Detroit, Pa. Take-up device for overhead-cable railways	812,851	Feb. 13	2238	484	120	2017
Wahle, Charles H., and C. F. Frankel, New York, N. Y. Cleat and socket	811,198	Jan. 30	5393	1088	120	1297
Wahl, Frank W., Springfield, Mass. Tool holding and adjusting device	810,298	Jan. 16	2363	662	120	802
Wait, Henry L., Newton, Mass. Hand mail-marking machine	811,876	Feb. 6	880	188	120	1670
Waite, Benjamin F., Trenton. (See Wyatt, George W., assignor.)						
Waitt, George W., assignor to D. P. Waitt, trustee, San Francisco, Cal. Pipe-wrench	809,122	Jan. 2	1046	217	120	206

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume.		Official Gazette.	
			Spec.	Drg.	Vol.	Page.
Wakefield, James, Cockermouth, England. Bleaching fibers	809,889	Jan. 9	2020	.....	120	395
Walberg, Nels, and P. J. McArthur, Aberdeen, S. D. Feeding attachment for threshers	810,329	Jan. 16	2994	668–9	120	812
Walch, Robert H. (See Harrison, Amasa, assignor.)						
Waldberg, Benjamin, Chicago, Ill. Plate-mobile	809,843	Jan. 9	1675	388	120	390
Walden, Frederick E., Worcester, Mass. Spectacles-bracket	812,285	Feb. 13	1761	388	120	1926
Walden, Henry, Philadelphia, Pa. Buttonhole	809,488	Jan. 9	2130	439	120	466
Waldron, William H., New Brunswick, N. J. Oil-cloth-printing machine	811,242	Jan. 30	5547	1157	120	1364
Walker, Albert H., trustee. (See Ippers, John W., assignor.)						
Walker, Albert H., trustee. (See Markard, Henry L., assignor.)						
Walker, Alexander, assignor to What Cheer Tool Company, What Cheer, Iowa. Drilling-machine	813,235	Feb. 20	3229	706	120	2288
Walker, Eli M., assignor to Charles Parker Company, Meriden, Conn. Vise-slide	808,980	Jan. 2	695	149	120	152
Walker, Elmer A., Saratoga Springs, N. Y. Gage for cutter-heads	809,087	Jan. 2	810	178	120	179
Walker, Enos L. (See Eklund and Walker.)						
Walker, George T., Washington, D. C. Converter	811,006	Jan. 30	4600	1019–20	120	1223
Walker, James G., Moro, Oreg. Self-feeding attachment for threshing-machines	811,007	Jan. 30	4602	1020	120	1223
Walker, John C., *et al.* (See Davis, Frank J., assignor.)						
Walker, Robert, Newark, N. J. Mirror for surgical, dental, and like uses	811,806	Feb. 6	811	114	120	1586
Walker, Sheridan A. (See Bennett and Walker.)						
Walker, Thomas H., Tumwater, assignor of one-fourth to P. H. Carlyon, Olympia, Wash. Excavating-machine	813,393	Feb. 20	3723	830	120	2384
Walker, Ward C., Battlecreek, Mich. Hose-clamp	811,348	Jan. 30	5549	1158	120	1364
Walker, William L., Council Bluffs, Iowa. Washing-machine	811,601	Feb. 6	129	28	120	1513
Wallace, Halbert G., McPherson, Kans. Band-cutter and feeder	813,247	Feb. 27	4580	1026–9	120	2645
Wallen, Andrew K., Jr., Jackson, Miss. Well-boring apparatus	810,097	Jan. 16	2960	634–5	120	744
Wallenthin, Nils C., Central Falls, R. I., assignor to J. M. Fisher & Company. Joint for bracelets	809,153	Jan. 2	1047	217	120	220
Wallenthin, Waltrid, assignor to Bates & Bacon, Attleboro, Mass. Bracelet	813,755	Feb. 27	4449	983	120	2601
Wallick, Jodie, Sumpter, Oreg. Photo-holder	811,008	Jan. 30	4606	1020	120	1223
Walling, John E., Salt Lake City, Utah. Railway-tie	811,262	Jan. 30	5390	1134–5	120	1330
Wallof, Edward G., Minneapolis, Minn. Propeller attachment for rowboats	812,534	Feb. 13	2046	448–9	120	1994
Walsh, Robert A. B., assignor to Mississippi Glass Company, St. Louis, Mo. Wired-glass-making machine	810,446	Jan. 23	3769	776	120	942
Walsh, Robert A. B., assignor to Mississippi Glass Company, St. Louis, Mo. Machine for making wired plate-glass	810,447	Jan. 23	3770	777	120	942
Walsleben, Paul. (See Schoettl, Jaeger, and Walsleben.)						
Walstrom, Andrew H., Birmingham, Ala. Coke-oven cover	809,244	Jan. 9	1476	299	120	361
Walter, John. (See Bell, Emma, assignor.)						
Walter, Theophil P., assignor to Beatrice Manufacturing Company, Beatrice, Nebr. Corn-husker	810,086	Jan. 16	3000	626	120	745
Walter, William H., New York, N. Y. Electrical igniter for internal-combustion engines	812,622	Feb. 13	2225	484	120	2017
Walther, Gustav. (See Salzer and Walther.)						
Walther, Gustava A., *et al.* (See Werner, Emil, assignor.)						
Walton, Hugh. (See Beaman and Walton.)						
Walton, John, Milwaukee, Wis. Resawing band-mill	811,009	Jan. 30	4604	1021	120	1224
Walton, Richard N., Los Angeles, Cal. Railway-crossing	810,178	Jan. 16	3158	653	120	774
Wands, John C., St. Louis, Mo. Lifting device	811,344	Jan. 30	5552	1158	120	1365
Wanner & Co. (See Widmer-Abegg, Ernst, assignor.)						
Warbasse, Joseph, Newton, N. J. Respirator	812,706	Feb. 13	2377	521	120	2047
Ward, Ernest A. (See Woolldridge and Ward.)						
Ward, George, Roma, Queensland, Australia. Apparatus for removing articles from shelves	813,029	Feb. 20	3013	663–4	120	2231
Ward, George, assignor of one-fourth to B. Heppe, Homestead, Pa. Unloading mechanism	812,623	Feb. 13	2227	485	120	2018
Ward, George, Homestead, assignor of one-fourth to T. J. Tierney and F. R. Agnew, Pittsburg, Pa. Switch-operating mechanism	810,826	Jan. 23	4496	985	120	1103
Ward, Henry D., assignor of one-half to I. B. Hubbard, Worcester, Mass. Covered spoon	812,312	Feb. 13	1622	357	120	1896
Ward, Michael J., Millersville, Pa. Apparatus for ventilating mines	809,653	Jan. 9	2121	439	120	466
Ward, Philo M., Johnson City, Tenn. Display-stand	810,839	Jan. 23	4496	985	120	1103
Ward, William S., assignor to H. D. Smith & Company, Plantsville, Conn. Making devisirons	810,007	Jan. 16	2932	578	120	700
Ward, William S., assignor to H. D. Smith & Company, Plantsville, Conn. Hook	811,197	Jan. 30	5389	1088	120	1297
Wardell, Henry R., Ardmore, assignor to Barber Asphalt Paving Company, Philadelphia, Pa. Sheet roofing material	813,236	Feb. 20	3230	706	120	2288
Warden, Herbert A., F. Manns, and W. H. Decker, Newburgh, N. Y. Automatic starting device	813,262	Feb. 20	3468	765	120	2329
Ware, Alfred J., and W. Zoller, Seattle, Wash. Check printer and protector	813,707	Feb. 13	2378	521	120	2047
Warne, Antone F., Jackson, Mich. Loop-shield	813,104	Feb. 6	1141	230	120	1721
Waring, John B., East Orange, N. J., assignor to Waring Patents Company, New York, N. Y. Fluid-level-controlling means	811,188	Jan. 30	5540	1096–7	120	1297
Waring Patents Company. (See Waring, John B., assignor.)						
Warnock, Frank S. (See Hyatt, John W., assignor.)						
Warner, Charles E., Beloit, Wis. Combined taximeter and cyclometer	813,821	Feb. 27	4315	950	120	2572
Warner, Clarence M., Cambridge, Ill. Vesting-machine	809,679	Jan. 9	1722	384–5	120	468
Warner, George, Dearborn, Mich. Gate-latch	809,844	Jan. 9	1682	382	120	449
Warner, Isaac M., Harvard, Ill., assignor to F. C. Boice, Union City, Mich. Wire-fence stretcher	810,899	Jan. 16	3082	686	120	745
Warner, Kenneth G. (See Fletcher, Frank E., assignor.)						
Warner, Norman, and G. W. Jacobs, Glenns Ferry, Idaho. Emergency car-coupling	813,469	Feb. 27	3982	888	120	2481
Warner, Norman, and G. W. Jacobs, Glenns Ferry, Idaho. Automatic knuckle-opener	813,893	Feb. 27	4615	1023	120	2570
Warren, Robert L., Newton Center, Mass. Holder for shaving-cakes	812,905	Feb. 20	2763	608	120	2176
Warner & Swasey Company. (See Swasey, Ambrose, and Pratt, Benjamin.)						
Warp Twisting-In Machine Company. (See Cochran, Adriance, and Doppler, assignors.)						
Warren, Edward F., Thorneside, Ont. Feed mechanism for quilting machines	811,263	Jan. 30	5393	1156	120	1331
Warren, Edward [illegible] and J. [illegible], assignors to Warren Featherbone Company, Threesaw, Mich.	808,709	Jan. 2	339	73	120	76
Warren, Edward [illegible], assignor to Warren Featherbone Company, Threesaw, Mich.	808,721	Jan. 2	339	73	120	76
Warren, Edward [illegible], assignor to Warren Featherbone Company, Threesaw, Mich.	808,722	Jan. 2	339	73	120	76
Warren [illegible] (See [illegible], assignors.)						
Warren [illegible] (See [illegible], assignors.)						
Warren, [illegible] F., Boston, Mass. Toy arms and shelter toys	813,295	Feb. 13	2230	449	120	2032
Warren, [illegible] F., Boston, Mass. Toy target	813,296	Feb. 13	2230	449	120	2032

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drfs.	Official Gazette. Vol.	Official Gazette. Page.
Warrington, Jesse, assignor to Nordyke & Marmon Company, Indianapolis, Ind. Steering-gear for automobiles	813,186	Feb. 20	3328	731-2	120	2301
Washburn, Edwin C., Minneapolis, Minn. Car-coupling	810,008	Jan. 16	2803	578-9	120	700
Washburn, Edwin C., Minneapolis, Minn. Lateral-motion device for car-trucks	811,677	Feb. 6	279	62	120	1546
Washburn, Edwin C., Minneapolis, Minn. Cast truck-bolster	812,313	Feb. 13	1624	357	120	1898
Washburn, William S., Brockton, Mass. Heating apparatus	809,154	Jan. 2	1049	217-18	120	230
Washington, George M., Houston, Tex. Baling-press	813,603	Feb. 27	4166	914-15	120	2540
Waterbury Machine Company. (See Kahl, Louis C., assignor.)						
Waterbury Wire Die Company. (See O'Donnell, John H., assignor.)						
Waterhouse, George L., New York, N. Y. Apparatus for pumping liquid	811,110	Jan. 30	5065	1059	120	1260
Waterhouse, Howard A., Providence, R. I. Sign-holder	811,264	Jan. 30	5395	1125	120	1331
Waterproof Welt & Filler Co. (See Moulton, James N., assignor.)						
Waterproof Welt and Filler Company. (See Reynolds, John R., assignor.)						
Waters, William L., Milwaukee, Wis. Balancing device	811,676	Feb. 6	280	62	120	1547
Watkins, John W., Philadelphia, Pa. Sheet-metal window-sash	812,467	Feb. 13	1904	420	120	1954
Watson, Henry W., assignor of one-fourth to H. C. Bright, Danville, Ky. Lawn-swing	809,480	Jan. 9	1776	366	120	424
Watson, James P., and F. L. Jahn, Philadelphia, Pa., assignors to Watson & McDaniel Company. Pump-regulator	809,590	Jan. 9	1982	411	120	467
Watson, Laidlaw & Company. (See Freitag, Andreas, assignor.)						
Watson & McDaniel Company. (See Watson and Jahn, assignors.)						
Watson, Thomas P. (See Mason, Thomas F., assignor.)						
Wattle, William, Worcester, Mass., assignor to Crompton & Knowles Loom Works. Give-way connection for box-motions of looms	812,468	Feb. 13	1907	421	120	1954
Watts, Alfred E., Duluth, Minn. Automatic trip mechanism	809,345	Jan. 9	1478	299	120	361
Watts, Alfred E., Duluth, Minn. Automatic tripping device for photographic shutters	809,346	Jan. 9	1483	300	120	362
Watts, Arthur S., assignor to Locke Insulator Manufacturing Company, Victor, N. Y. Mold for plastic materials	811,602	Feb. 6	131	29	120	1514
Watts, David H., Jr., Philadelphia, Pa. Metallic wall-closet	809,592	Jan. 9	1988	412-13	120	468
Watts, William T. (See Johnston and Watts.)						
Watzke, Eduard, assignor of one-half to I. Nagy, Friedberg, Austria-Hungary. Machine for the manufacture of capsules for bottles	813,604	Feb. 27	4166	915-16	120	2541
Waxman, Harris, New York, N. Y. Tire-protector	811,345	Jan. 30	5553	1158	120	1365
Way, William R., Columbia, S. C. Infant's diaper	810,689	Jan. 23	4239	878	120	1047
Weathers, Franklin, Findlay, Ill. Bridle-bit and attaching means therefor	813,337	Feb. 20	3631	797	120	2363
Weathers, Hoyt M., assignor to W. P. Steinbeck, Stockton, Cal. Conveyer	811,462	Jan. 30	5750	1204	120	1406
Weaver, Ira A., assignor to Sattley Manufacturing Company, Springfield, Ill. Corn-planter	811,977	Feb. 6	892	196-8	120	1670
Weaver, Isaac D., assignor of one-half to S. E. Light, Lebanon, Pa. Forming helices for chain-links	809,412	Jan. 9	1641	377	120	394
Weaver, Isaac D., assignor of one-half to S. E. Light, Lebanon, Pa. Manufacture of helices for chain-links	809,413	Jan. 9	1642	337-8	120	394
Weaver, James E., Allegheny, Pa. Toy cannon	809,414	Jan. 9	1643	338	120	394
Weaver, Philo H., Pittsburg, Pa. Piston-rod packing	811,628	Feb. 6	132	29	120	1514
Weaver, Stephen S., Carrollton, Mo. Plow	809,570	Jan. 9	2510	521	120	585
Weaver, William. (See Steensland and Weaver.)						
Webb, Samuel J., Minden, La. Roller-compress	809,415	Jan. 9	1645	338-9	120	394
Webb, William, and W. W. Hildreth, Gloversville, N. Y. Wrench	811,585	Feb. 6	674	147	120	1628
Webber, Lionel H. (See Grogan, Archibald, assignor.)						
Weber, Arnold W., assignor of one-half to A. Brandt, Bellevue, Iowa. Combined strainer and out-off	810,515	Jan. 23	3921	806	120	978
Weber, Herman, Colorado Springs, Colo. Truck. (Reissue)	12,430	Jan. 2	1337	271	120	294
Weber, John, Jr. (See Manger, George H., assignor.)						
Weber, Peter, East Orange, assignor to New Jersey Patent Company, Orange, N. J. Phonograph speed-index	811,010	Jan. 30	4696	1021	120	1224
Weberg, Bernt M., Balsam Lake, Wis. Automatic brake for sleds	809,155	Jan. 2	1052	218	120	231
Webster, Alfred J., assignor to J. A. Jeffrey, Columbus, Ohio. Conveying and elevating apparatus	811,189	Jan. 30	5243	1097-8	120	1306
Webster, Alfred J., assignor to J. A. Jeffrey, Columbus, Ohio. Conveyer	811,190	Jan. 30	5246	1098	120	1306
Webster, Alfred J., assignor to J. A. Jeffrey, Columbus, Ohio. Conveyer	811,463	Jan. 30	5751	1204-5	120	1406
Webster, Cyrus C., Minneapolis, Minn. Machine for manufacturing printers' leads	812,708	Feb. 13	2381	521-3	120	1948
Webster, William R., Bridgeport, Conn. Drum for coiling metal	812,709	Feb. 13	2383	523-4	120	1948
Weems, John C., Dillards, Ala. Nut-lock	811,011	Jan. 30	4697	1021	120	1224
Weguefarth, George C., Baltimore, Md. Syringe	811,111	Jan. 30	5070	1060	120	1261
Weguerif, Johannes C., Battlesbridge, assignor to Renfrew Crusher Company, Limited, London, England. Pan-and-roller mill for crushing and grinding	810,530	Jan. 23	4497	986	120	1103
Wegner, Frederick A., Detroit, Mich. Thill-coupling	811,464	Jan. 30	5754	1205	120	1407
Weichardt, Wolfgang, Berlin, Germany. Antitoxin for fatigue and making the same	809,347	Jan. 9	1488		120	363
Weidner, Charles F., New York, N. Y. Merry-go-round. (Reissue)	12,436	Jan. 9	2026	543	120	611
Weigel, Frederick A., Florella, Pa. Safety device for elevators	811,604	Feb. 6	133	29	120	1514
Weigel, Nels A., Clearlake, Iowa. Strawberry-vine trimmer	811,978	Feb. 6	897	198	120	1671
Weinreb, Lee, and L. A. Rabinowitch, Vienna, Austria-Hungary; said Weinreb assignor to said Rabinowitch. Apparatus for delivering or counting coins and the like	812,824	Feb. 13	2239	485	120	2018

Wells, Joel C., Southbridge, Mass. Eyeglasses	812,030	Feb. 20	3015	664	120	2232
Welsbach Light Company. (See Stites, Townsend, assignor.)						
Welton, Raymond D. (See Thorne and Welton.)						
Wemp, Ernest E., Orford, Mich. Bean cleaning and polishing machine	810,009	Jan. 16	2805	579	120	700
Wendler, Julius, Berlin, Germany. Device for hanging revolving-door wings	812,907	Feb. 20	2767	609	120	2178
Wendling, G. X. (See Vaughn, Emma L., assignor.)						
Wendt, William F., Altoona, Pa. Car-door lock	809,872	Jan. 9	2512	522	120	586
Wenzelmann, Gustave, and E. H. Overholt, Streator, Ill., assignors to Wenzelmann Manufacturing Company. Portable grain elevator and conveyer	810,010	Jan. 16	2807	580	120	701
Wenzelmann, Gustave, and E. H. Overholt, assignors to Wenzelmann Manufacturing Company, Streator, Ill. Elevator or jack	810,448	Jan. 23	3772	777-8	120	942
Wenzelmann Manufacturing Company. (See Wenzelmann and Overholt, assignors.)						
Werner, Emil, assignor of two-thirds to G. A. Walther, Philadelphia, and C. Schwerdfeger, Lansdale, Pa. Piano-action	813,263	Feb. 20	3470	760	120	2330
Werner, Ernest E., Indianapolis, Ind. Treating flour	812,777	Feb. 13	2507	551	120	2074
Wersel, George N., Cincinnati, Ohio. Sofa-bed	809,657	Jan. 9	2126	440	120	497
Wertz, Merrian N., Thomasville, Ga. Swinging hammock	812,387	Feb. 13	1762	386	120	1925
Wesel, Ferdinand, Brooklyn, N. Y. Folio-mortising machine	813,756	Feb. 27	4451	963-4	120	2601
Weser, Joseph F., Pittsburg, Pa. Regulating-spring	811,346	Jan. 30	5554	1159	120	1366
Wesselock, August, West New Brighton, N. Y. Shade-supporting device	811,465	Jan. 30	5756	1206	120	1407
Wesson, Joseph H., Springfield, Mass. Firearm	811,807	Feb. 6	512	114	120	1595
West, Alexander L., Gowrie, Iowa. Strainer	811,754	Feb. 6	406	88-9	120	1575
West, Charles W., Cedar Rapids, Iowa. Manure-spreader feed mechanism	810,449	Jan. 23	3776	778	120	943
West, Mansfield M., Cleveland, Ohio. Plate for soles and heels of shoes	811,605	Feb. 6	135	29	120	1515
Western Electric Company. (See McBerty and Craft, assignors.)						
Western Electric Company. (See Scribner, Charles E., assignor.)						
Western Union Telegraph Company. (See Barclay, John C., assignor.)						
Western Wheeled Scraper Company. (See McKnight, Thomas R., assignor.)						
Westerson, Oscar A. (See Mellquist and Westerson.)						
Westinghouse Air Brake Company. (See Turner, Walter V., assignor.)						
Westinghouse Air Brake Company. (See Turner and Custer, assignors.)						
Westinghouse Electric & Manufacturing Company. (See Bates, Ralph E., assignor.)						
Westinghouse Electric & Manufacturing Company. (See Lamme, Benjamin G., assignor.)						
Westinghouse Electric & Manufacturing Company. (See Lahr, Edwin E., assignor.)						
Westinghouse Electric & Manufacturing Company. (See Siegfried, Robert, assignor.)						
Westinghouse Machine Company. (See Longwell and Hodgkinson, assignors.)						
Westman, Gustaf M., New York, N. Y. Reducing iron ore	812,247	Feb. 13	1485	325	120	1863
Weston, Charles B. (See O'Hare and Weston.)						
Weston, Leroy A., Adams, Mass. Hose and hydrant connection	812,625	Feb. 13	2230	496	120	2018
Weston, Milton T., assignor of one-half to W. F. Hutchinson, Nyack, N. Y. Power-hammer	809,348	Jan. 9	1469	300	120	363
Westphal, Albert G. (See Parfitt, Arthur W., assignor.)						
Wetzler, Ferdinand, and M. Ornstein, New York, N. Y. Advertising projecting apparatus	812,106	Feb. 6	1142	280-1	120	1721
Wever, Sebern J., Sheller, Ill. Carpet-stretcher	809,545	Jan. 9	1890	393	120	449
Wever, Sebern J., Sheller, Ill. Table-spread support	809,546	Jan. 9	1891	393	120	449
Weyand, Paul A., Maywood, Ill. Electric-motor-controller regulator	810,240	Jan. 16	2296	683	120	802
Weyburn, Lewis A., Rockford, Ill. Calk for horseshoes	812,966	Feb. 20	2996	636	120	2207
Weyer, Joseph G., Providence, R. I. Forming molds for casting purposes	813,605	Feb. 27	4172		120	2542
Weyers & Co., A. (See Neumann, Engelbert, assignor.)						
Weyl, Maurice N., Philadelphia, Pa. Photomechanical multicolor-printing	809,157	Jan. 2	1055	219	120	232
Whalen, John T., Brooklyn, N. Y. Vehicle-recorder	811,015	Jan. 30	4905	1023	120	1226
Whalley, Christopher, Clitheroe, England. Weft-replenishing loom	809,158	Jan. 2	1057	219	120	232
What Cheer Tool Company. (See Walker, Alexander, assignor.)						
Wheatley, Jesse, East Molesey, England. Railway signaling apparatus	810,011	Jan. 16	2811	580-2	120	702
Wheatley, Thomas, Syracuse, N. Y. Air-valve	813,606	Feb. 27	4174	916	120	2542
Wheeler, Earl A., deceased, and W. Heckert, Sharon, Pa.; W. W. Shilling, executor. Automobile-wheel	811,112	Jan. 30	5072	1060	120	1261
Wheeler, Frank T., assignor to Trumbull Electric Manufacturing Company, Plainville, Conn. Panel cut-out and receptacle	809,873	Jan. 9	2513	522	120	586
Wheeler, Seth, Albany, N. Y. Dispensing-cabinet	810,100	Jan. 16	3004	626	120	746
Wheeler & Wilson Manufacturing Company. (See Dimond and Dial, assignors.)						
Wheeler & Wilson Manufacturing Company. (See Eames and Finch, assignors.)						
Wheeler & Wilson Manufacturing Company. (See Laubscher, Alexander, assignor.)						
Whelan, Thomas H., New York, N. Y. Construction of submarine boats	811,886	Feb. 6	675	148	120	1626
Whelan, Thomas H., New York, N. Y. High-speed motor-boat	811,887	Feb. 6	678	148-9	120	1626
Whetham, Charles, Sheffield, Canada. Temporary binder	808,793	Jan. 2	340	74	120	76
Whipple, Joel N., assignor to Landis Machine Company, St. Louis, Mo. Presser-foot and mechanism for operating the same	812,189	Feb. 6	1273	279	120	1749
Whitall Tatum Company. (See Meinecke, Christian W., assignor.)						
Whitcher, Charles H., Ipswich, Mass. Knitting-machine	812,314	Feb. 13	1625	357	120	1894
White, Archie. (See Maloy and White.)						
White, Charles W., Waco, Tex. Mattress-making machine	812,470	Feb. 27	3904	856-7	120	2481
White, Edgar L., Waco, Tex. Baling-press	808,796	Jan. 2	343	74	120	76
White, Edward P., Quincy, Mass. Shoe-rack	808,794	Jan. 2	342	74	120	76
White, Frederick, Boston, Mass., assignor to Regenerated Cold Air Company, Portland, Me. Apparatus for treating air	810,450	Jan. 23	3778	778-9	120	944
White, Frederick, South Boston, Mass., assignor to Regenerated Cold Air Company, Kittery, Me. Apparatus for treating air	810,451	Jan. 23	3786	779	120	945
White, Joseph A. (See Moore and White.)						
White, Royal C., Chicago, Ill. Filling apparatus for liquids	809,764	Jan. 9	2317	480-1	120	542
White Sewing Machine Company et al. (See Baurmann, Gustav, assignor.)						
Whitehead & Hoag Company. (See McLean, John, assignor.)						
Whitehead, William E., Trenton, N. J. Valve	810,880	Jan. 23	4064	837	120	1008
Whiteside, Frank F., Youngstown, Ohio. Pulley-block	811,191	Jan. 30	5249	1099	120	1309
Whitham, Hugh, Hamilton, Canada. Pipe-damper	813,168	Feb. 20	3282	733	120	2302
Whitin Machine Works. (See Owen and Harding, assignors.)						
Whitin Machine Works. (See Pierce, George L., assignor.)						
Whiting, Walter R. (See Porter and Whiting.)						
Whitlatch, Marshall, Westfield, N. J. Indoor-golf game apparatus	811,247	Jan. 30	5455	1139	120	1346
Whitlock Coil Pipe Company. (See Brinkman, Louis H., assignor.)						
Whitman, Victor, assignor to Alaska Codfish Co., San Francisco, Cal. Apparatus for dry-curing fish	812,264	Feb. 20	3472	760	120	2330

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Wickman, Victor, assignor to Alaska Codfish Company, San Francisco, Cal. Dry-curing ...	813,265	Feb. 20	3475	706	120	2331
Wickwire, Oliver M. (See Cunard, Charles B., assignor.)						
Widney, George M., Lawson, Colo. Ore-concentrator	809,785	Jan. 9	2824	481	120	843
Widney, Isaac, deceased, Cedarboga, Iowa; H. D. Lane, administrator. Mine-shaft door	813,087	Feb. 20	3096	678	120	2262
Widney, Jessie. (See Kellner, Henry F., assignor.)						
Wiedeke Manufacturing Company. (See Couch, Elbert M., assignor.)						
Wiedeke Autogenic Company. (See Barnett, Morrimon J., assignor.)						
Wiegand, Matthew J., Worcester, Mass. Woven pile fabric	810,012	Jan. 16	2614	583	120	702
Wiegand, Matthew J., Worcester, Mass. Woven pile fabric	810,013	Jan. 16	2617	582	120	702
Wiegand, Felix T., Wheatley, Ark. Buckle	809,574	Jan. 9	2515	522	120	557
Wiegand, Kansas U., Topeka, Kans. Type	812,948	Feb. 27	4462	1029	120	2545
Wiegmann, John G. A. (See Burks, Charles G., assignor.)						
Wiegmann, John M., Erie, Pa. Crane mechanism	809,481	Jan. 9	1775	396-7	120	424
Wiegmann, John R., Erie, Pa. Crane-locking mechanism	809,482	Jan. 9	1779	397	120	424
Wiegmann, John R., Erie, Pa. Locking device for cranes	809,483	Jan. 9	1781	397-8	120	425
Wigle, John, and A. M. Crossley, Glasgow, Scotland. Boiler-tube	811,016	Jan. 30	4008	1094	120	1227
Wigle, Solomon W., W. R. Cunningham, Denver, and H. A. Gray, Arvada, Colo. Car-coupling						
Wigle, Simon W., Bakersfield, Cal. Device for removing mining and other debris	811,808	Feb. 6	814	115	120	1595
Wigle, Frederick, Esher, England. Apparatus for casting projectiles for small-arms	809,893	Jan. 9	1990	413	120	469
Wigle, Frederick, Esher, England. Apparatus for casting projectiles for small-arms	810,891	Jan. 23	4085	537	120	1008
Wiggin, Thomas, assignor of one-half to J. Perry, Mountainview, Wyo. Harness-fastener	810,832	Jan. 23	4301	937	120	1104
Wiggins, Charles J., Newark, N. J. Metal bed	811,756	Feb. 6	407	89	120	1575
Wildman, Gustavus, assignor to Richards Manufacturing Company, Aurora, Ill. Grind-stone-frame	813,471	Feb. 27	3908	857	120	2482
Wilhelm, Paul H., Denver, Colo. Acetylene-gas apparatus	809,249	Jan. 9	1491	300	120	363
Wilhelm-Abegg, Ernst, assignor to Wanner & Co., Horgen, Switzerland. Self-acting mule-saddle-machine	812,268	Feb. 13	1764	386	120	1925
Wilhoit, August, and R. E. Gruwell, Miles City, Mont. Current-motor	809,894	Jan. 9	1991	412-14	120	469
Wiederhold, Oscar, Jersey City, N. J. Making manties	810,314	Jan. 16	3459	714-15	120	838
Wiederhold, Oscar, Jersey City, N. J. Holder for incandescing manties	811,017	Jan. 30	4009	1024	120	1227
Wiegand, Henry J., Milwaukee, Wis. Explosive-engine-starting mechanism	811,018	Jan. 30	4010	1024	120	1227
Wiese, Otto C., assignor of one-half to O. Mayer, New York, N. Y. Spring-scale	813,068	Feb. 20	3089	679	120	2253
Wiese, Otto C., Brooklyn, assignor of one-half to O. Mayer, New York, N. Y. Spring-scale	811,979	Feb. 6	986	196-9	120	1571
Wigert, David, Greensburgh, Ill. Steam-boiler	811,980	Feb. 6	900	189	120	1572
Wiggs, James A., Jr., Beaumont, Tex. Hydraulic swivel	812,908	Feb. 20	2766	609	120	2178
Wiggs, Alfred T., Rowton, Tex. Gun attachment	810,315	Jan. 16	3460	715	120	838
Wiggin, Eldridge M., assignor to North & Judd Manufacturing Company, New Britain, Conn. Breast-strap slide	809,080	Jan. 2	915	192	120	208
Wiggin, Ernest, New York, N. Y. Gearing	810,014	Jan. 16	2819	553	120	703
Wiggins, Charles C., Morristown, Tenn. Trunk	813,189	Feb. 20	3333	713	120	2303
Wiggins, John W., Chicago, Ill. Power mechanism	813,267	Feb. 20	3267	639	120	2207
Wiggins, Nicholas, Shelby, Ohio, assignor to Shelby Steel Tube Company, Pittsburg, Pa. Apparatus for reducing the ends of tubes	813,767	Feb. 27	4455	934	120	2602
Wight & Wilson Company. (See Crippen, Walter, assignor.)	810,241	Jan. 16	3290	934	120	808
Wilbur, William W., Somersport, assignor of two-eighths to T. S. Dean and H. E. McArthur, Brockport, N. Y. Post						
Wilde, Lewis M., North Walpole, N. H. Candle-holder	813,338	Feb. 20	3332	707	120	2263
Wilde, Samuel, deceased; A. W. North, Woodland, Cal., administrator. Boot and shoe	812,248	Feb. 13	1488	385	120	1884
Wilder, William D., Brockton, Mass. Shoe-tree	812,449	Feb. 13	1886	411	120	1946
Wilderman, Morris, and R. L. Mond, London, England. Thermopile	812,215	Feb. 13	1628	358	120	1897
Wildman, Frank B., and H. G. Loomis, assignors to McMichael & Wildman Manufacturing Co., Norristown, Pa. Drying mechanism	813,682	Feb. 27	4317	900	120	2573
Wile, Joseph, New York, N. Y. Kerosene-lamp	811,861	Feb. 6	901	199-200	120	1572
Wiley, Town of, Kansas. (See Krämer, Friedrich, assignor.)	812,249	Feb. 13	1490	326-6	120	1884
Wilkes, Thomas W., et al. (See Conner, Charles R., assignor.)						
Wilkes, Thomas L., assignor to American Patent Promotion Company, Phœnix, Ariz.						
Wilkie, Robert L. (See Mathewson, Wilkie, and Lewis.)	812,160	Feb. 6	1275	279-81	120	1749
Wilkin, George E., Corinth, Vt. Gang-saw mill	812,530	Feb. 13	2053	450	120	1995
Wilkins, George E., Oshkosh, Wis. Artificial limb	809,575	Jan. 9	2516	522-3	120	557
Wilkins, George E., Oshkosh, Wis. Artificial limb	809,576	Jan. 9	2520	523	120	557
Wilkinson, James, Birmingham, Ala., assignor to Wilkinson Turbine Company. Controlling mechanism for engines	811,982	Feb. 6	904	200	120	1573
Wilkinson, James, Birmingham, Ala., assignor to Wilkinson Turbine Company. Valve mechanism for engines	811,983	Feb. 6	906	200	120	1574
Wilkinson, James, Birmingham, Ala., assignor to Wilkinson Turbine Company. Marine engine	811,986	Feb. 6	917	201	120	1575
Wilkinson, James, Birmingham, Ala., assignor to Wilkinson Turbine Company. Marine engine	811,987	Feb. 6	919	202	120	1576
Wilkinson, James, Providence, R. I., assignor to Wilkinson Turbine Company. Elastic-fluid turbine	811,984	Feb. 6	913	201	120	1574
Wilkinson, James, Providence, R. I., assignor to Wilkinson Turbine Company. Turbine engine	811,985	Feb. 6	915	201	120	1575
Wilkinson Company, et al. (See Abbasse, Michele G. de, assignor.)						
Wilkinson Turbine Company. (See Wilkinson, James, assignor.)						
Will, Frederick L., Walsall Green, England. Ball push, pull, &c	809,595	Jan. 9	2001	415	120	471
Willard, Charles, Ohio. Gate	811,919	Jan. 30	4013	1024	120	1228
Willard, Frank W., Portland, Oreg. Log-dog	812,289	Feb. 13	1767	387	120	1926
Willcox & Company Manufacturing Company. (See Darley, John W., Jr., assignor.)						
Willcox, Jr., & Company, Incorporated. (See Kaim, Frank L., assignor.)						
Willcox Company. (See Knight and Sweet, assignors.)						
Willcox, Moses, Boston, Mass. Manufacture of garments	809,877	Jan. 9	2839	528	120	598
Willcox, Walter A. (See Brown, Nathaniel H., assignor.)						
Willcox, Walter A., assignor of fifteen-eighteenths to W. H. Cowles and J. F. Young, Spokane, Wash. Apparatus for treating ores	813,124	Feb. 20	3210	701-4	120	2277
Willcox, Walter A., assignor of fifteen-eighteenths to W. H. Cowles and J. F. Young, Spokane, Wash. Process of treating ores	813,125	Feb. 20	3217	704-6	120	2278
Willcox, Walter A., assignor of fifteen-eighteenths to W. H. Cowles and J. F. Young, Spokane, Wash. Process of treating ores	813,126	Feb. 20	3221	706-7	120	2279
Willcox, Walter A., assignor of fifteen-eighteenths to W. H. Cowles and J. F. Young, Spokane, Wash. Process of treating ores	813,127	Feb. 20	3226	707-8	120	2280

Name, residence, and invention.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Williams, Charles B., Ontario, Cal. Trap-nest for laying hens	809,036	Jan. 2	811	175	120	179
Williams, Charles H., Jr., assignor to Chicago Railway Equipment Company, Chicago, Ill. Brake-beam	813,758	Feb. 27	4456	985	120	2602
Williams, David A. (See King, Samuel M., assignor.)						
Williams, Edward G. (See Parmelee and Williams.)						
Williams, Edward T., Boston, Mass. Food compound and preparing the same	811,465	Jan. 30	5757	.....	120	1407
Williams, Frank T. (See Homan and Williams.)						
Williams, Harry B., Brooklyn, assignor to American Can Company, New York, N. Y. Vacuum-sealing preserving-can	812,966	Feb. 20	2908	639	120	2207
Williams, Harry J., Meriden, Conn., assignor to United States Envelope Company, Springfield, Mass. Paper-fixture	813,128	Feb. 20	3228	708	120	2280
Williams, Henry M. (See Burger and Williams.)						
Williams, John H. (See Sitton and Williams.)						
Williams, Joseph A., Cleveland, Ohio. Explosive-engine	811,809	Feb. 6	517	115	120	1595
Williams, Joseph A., Cleveland, Ohio. Explosive-engine	811,888	Feb. 6	679	149	120	1639
Williams, Joseph B., and E. C. Brown, Susanville, Cal. Support for horses' heads	813,750	Feb. 27	4457	985	120	2603
Williams, Joseph T. (See Eaches, William R., assignor.)						
Williams, Milton F., assignor to Williams Patent Crusher & Pulverizer Company, St. Louis, Mo. Cage for crushers and pulverizers	811,679	Feb. 6	282	63	120	1547
Williams, Milton F., assignor to Williams Patent Crusher & Pulverizer Company, St. Louis, Mo. Disintegrating-machine	813,190	Feb. 20	3334	733	120	2302
Williams Patent Crusher & Pulverizer Company. (See Williams, Milton F., assignor.)						
Williams, Sydney S., Chicago, Ill. Internal-combustion engine	809,081	Jan. 2	916	192	120	203
Williams Telephone & Supply Company. (See Horning, Walter R., assignor.)						
Williams, William H., Belle, Okla. Ter. Combined lister-plow and planter	811,606	Feb. 6	136	30-1	120	1515
Williams, William J., Terre Haute, Ind. Continuous-rail joint and clamp	809,417	Jan. 9	1652	339	120	398
Williamson, John. (See Schenck, Rudolph, assignor.)						
Williamson, John S., Elizabethtown, N. C. Bag-fastener	813,266	Feb. 20	3477	706-7	120	2331
Williamson, William, Saginaw, Mich. Check-rein	808,951	Jan. 2	686	149	120	182
Williamson, Wm. H. (See Strom, Victor A., assignor.)						
Willis, Edward J., Richmond, Va. Electric machine	813,472	Feb. 27	3911	856	120	2483
Willis, Henry M., East Williston, N. Y. Display rack or stand	808,982	Jan. 2	688	149	120	182
Willis, Richard M., New York, and A. A. Du Mond, Rochester, N. Y.; said Du Mond assignor to said Willis. Dispensing bottle or jar	809,159	Jan. 2	1059	220	120	232
Willix, Daniel B., assignor of one-half to G. W. Willix, Alexandria Bay, N. Y. Controller for sparking devices of gas-engines	811,680	Feb. 6	283	63	120	1547
Willix, George W. (See Willix, Daniel B., assignor.)						
Willson, Freeman R., Jr., assignor to J. A. Jeffrey, Columbus, Ohio. Separator	811,192	Jan. 30	5254	1099-1100	120	1201
Willson, Freeman R., Jr., Worthington, assignor to J. A. Jeffrey, Columbus, Ohio. Conveyer-chute	813,473	Feb. 27	3912	858	120	2483
Willson, Freeman R., Jr., Worthington, assignor to J. A. Jeffrey, Columbus, Ohio. Conveyer	813,474	Feb. 27	3915	859	120	2484
Wilmer, Elias R., et al. (See Sussman, Leon, assignor.)						
Wilmer, Elias R., New York, N. Y. Incandescent gas-burner	812,469	Feb. 13	1908	421	120	1965
Wilmer, Samuel, et al. (See Sussman, Leon, assignor.)						
Wilson, Albert B., assignor of one-fourth to J. M. Lesser, New York, N. Y. Car-fender	813,475	Feb. 27	3917	859	120	2485
Wilson, Archibald R. (See Iveson and Wilson.)						
Wilson, Arthur, Berlin, Wis. Portable electric-lamp outfit	812,710	Feb. 13	2385	524	120	2049
Wilson, David M., near Maynardville, Tenn., assignor to K. Hamilton, Washington, D. C. Automatic car-coupling	812,540	Feb. 13	2055	451	120	1986
Wilson, Ernest, London, England. Apparatus for measuring watts in electrical circuits	810,179	Jan. 16	3156	653-5	120	774
Wilson, Fred. (See Field, Clark, and Wilson.)						
Wilson, George E. (See Kramer and Wilson.)						
Wilson, George W., Rockwell, assignor of one-half to J. E. McEvoy, Hagerman, Idaho. Whiffletree-hook	812,260	Feb. 13	1769	387	120	1926
Wilson, Henry, Emlenton, Pa. Device for oil-wells	812,711	Feb. 13	2385	524	120	2049
Wilson, Howard B., Schenectady, N. Y., assignor to General Electric Company. Starting device for electric motors	809,578	Jan. 9	2524	523	120	598
Wilson, James G., Larchmont, N. Y. Shutter	811,607	Feb. 6	141	31	120	1516
Wilson, James H., Denver, Colo. Trace-carrier	812,909	Feb. 20	2770	610	120	2179
Wilson, Joseph, Christchurch, New Zealand. Combined file and binder for newspapers and such like material	809,484	Jan. 9	1782	398	120	425
Wilson, Joseph F., Invercargill, New Zealand. Friction-clutch	810,516	Jan. 23	3823	806	120	978
Wilson, Leonard, assignor to Stanley Electric Manufacturing Company, Pittsfield, Mass. Protection against reversal of energy	811,265	Jan. 30	5366	1126	120	1231
Wilson, Robert C., Athens, Ga. Combined bottle-cap and cork-puller	811,113	Jan. 30	3074	1060	120	1208
Wilson, Samuel A., and E. A. Bronson, Newburgh, N. Y. Sand-drier	812,191	Feb. 20	2386	734	120	2303
Wilson, William L., Tilden, Ill. Power-transmitting apparatus	812,626	Feb. 13	2262	486	120	2019
Wiltse, Richard, Grand Junction, Iowa. Anchor-post	809,579	Jan. 9	2526	524	120	599
Wimer, Jacob C., Joplin, Mo. Invoicing-machine	812,910	Feb. 20	2771	610	120	2179
Winberg, August F., New York, N. Y. Awning	808,963	Jan. 2	669	149	120	183
Winchester Repeating Arms Co. (See Johnson, Thomas C., assignor.)						
Winchester Repeating Arms Co. (See Mason, William, assignor.)						
Winfield Manufacturing Company. (See Winfield, William C., assignor.)						
Winfield, William C., assignor to Winfield Manufacturing Company, Warren, Ohio. Electric welding-machine	812,989	Feb. 20	2900	639-40	120	2207
Winfrey, James W., Ashdown, Ark. Heating device for oil-presses	809,547	Jan. 9	1892	398	120	449
Wingate, Earnest R., Spokane, Wash. Clamp	808,706	Jan. 2	163	37	120	37
Wingate, Wilbur E., assignor of one-half to Emmons Loom Harness Company, Lawrence, Mass. False reed for looms	812,216	Feb. 13	1629	356	120	1897
Wingerter, W. Bernard, et al. (See De France, Murry A., assignor.)						
Winget Concrete Machine Company. (See Winget, Marion A., assignor.) (Reissue.)						
Winget, Marion A., deceased, assignor, by mesne assignments, to Winget Concrete Machine Company, Columbus, Ohio. Machine for making concrete bodies. (Reissue)	12,444	Jan. 30	5892	1226	120	1426
Wingo, Richard T., assignor to Brown and Sharpe Manufacturing Company, Providence, R. I. Mechanical movement	809,160	Jan. 2	1060	220	120	232
Wingo, Richard T., assignor to Brown and Sharpe Manufacturing Company, Providence, R. I. Mechanical movement	813,129	Feb. 20	3229	709	120	2281
Winkley Company. (See Schoenberger, Gustav C., assignor.)						
Winn, Virgil, Toledo, Wash. Self-feeding device-table	812,105	Feb. 6	1143	261	120	1721
Winn, William E., assignor to Hoyl & Patterson, Inc., Pittsburg, Pa. Coal and like washer	811,602	Feb. 6	142	31	120	1516
Winn, William E., assignor to Hoyl & Patterson, Inc., Pittsburg, Pa. Coal and like washer	811,603	Feb. 6	144	32	120	1516
Winslow, Horace L., Chicago, Ill. Brake-shoe	808,688	Jan. 9	2126	441	120	497

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume.		Official Gazette.	
			Spec.	Drgs.	Vol.	Page.
Winter, Carl, assignor to C. Gaebel, Chicago, Ill. Sad-iron handle	811,020	Jan. 30	4913	1025	120	1226
Winter, Charles F., Hamilton, Ohio, assignor to M. D. Helfrich, Evansville, Ind. Flushing-valve	811,988	Feb. 6	924	202	120	1677
Winterbottom, Thomas, White Cloud, Kans. Rope-rack	813,760	Feb. 27	4458	985	120	2603
Wintermute, Harris C., Kansas City, Mo. Artificial limb	810,180	Jan. 16	3163	655	120	775
Wirth, Edward J., Memphis, Tenn. Latch for refrigerator-doors	812,107	Feb. 6	1144	251	120	1722
Wirth, Charles E., assignor to Plume and Atwood Manufacturing Company, Waterbury, Conn. Gas-regulating Bunsen burner	811,989	Feb. 6	926	202	120	1678
Wirth, Charles E., and W. W. Bradley, assignors to Plume and Atwood Mfg. Co., Waterbury, Conn. Gas-regulating device	812,627	Feb. 13	2223	486	120	2019
Wirth, Theodore, Hartford, Conn. Amusement device	808,796	Jan. 2	347	75	120	77
Wise, Daniel, *et al.* (See Barry, Jefferson D., assignor.)						
Wise, John. (See Booth and Wise.)						
Wismar, Emil, Los Angeles, Cal. Dado-cutter	811,681	Feb. 6	285	63	120	1548
Wismar, Emil, Los Angeles, Cal. Cutter-head for wood-shapers	811,682	Feb. 6	286	64	120	1548
Wissmann, Conrad, Geisenkirchen, Germany. Coal-mining machine	809,350	Jan. 9	1492	301-2	120	364
Wister, Jacob E., and G. T. Townsley, Philadelphia, Pa. Device for filling bottles	813,761	Feb. 27	4459	985-6	120	2603
Witbeck, Arba L. (See Rowe and Witbeck.)						
Witherell, George E., Hartford, Conn., assignor to Remington Arms Company, Ilion, N. Y. Single-trigger mechanism for firearms	808,890	Jan. 2	536	119	120	118
Witherell, George E., Hartford, Conn., assignor to Remington Arms Company, Ilion, N. Y. Firing mechanism for firearms	808,964	Jan. 2	600	150	120	152
Withey, Louis L. (See Lawton and Withey.)						
Witte, Hubert, assignor to St. Louis Car Company, St. Louis, Mo. Revolving and reclining chair	809,596	Jan. 9	2003	415	120	472
Witte, Hubert, assignor to St. Louis Car Company, St. Louis, Mo. Car-platform gate	809,597	Jan. 9	2005	416	120	472
Witte, Hubert, assignor to St. Louis Car Company, St. Louis, Mo. Folding gate for car-platforms	810,502	Jan. 23	4057	837	120	1008
Witte, Hubert, assignor to St. Louis Car Company, St. Louis, Mo. Reversible car-seat	810,533	Jan. 23	4803	938	120	1105
Witte, Hubert, assignor to St. Louis Car Company, St. Louis, Mo. Reversible car-seat	813,267	Feb. 20	3478	767	120	2332
Wittkowski, Friedrich W., Des Moines, Iowa. Track-sanding apparatus	808,797	Jan. 2	349	75	120	78
Wittmer, Owen W., Columbus, Ohio. Brake-hanger	813,476	Feb. 27	3019	660	120	2485
Wixcel, Samuel M., Marcus, Iowa. Hay-loader	809,598	Jan. 9	2004	416-18	120	472
Wlodarczyk, Wladyslaw, Borislaw, Austria-Hungary. Deep-boring apparatus	812,541	Feb. 13	2057	451-2	120	1986
Wm. Powell Co. (See Powell, James, assignor.)						
Wold, Torris. (See Cameron, William, assignor.)						
Wolf, Abram W., Amos, W. Va. Fishing-tool for oil-wells	811,348	Jan. 30	5586	1159	120	1366
Wolf, Alvin Q., Dayton, Ohio. Sash-operating mechanism	810,242	Jan. 16	3200	664-5	120	804
Wolf, Charles L. E., New York, N. Y. Non-refillable bottle	810,453	Jan. 23	3788	779	120	946
Wolf Electrical Promoting Company. (See Meyer, Henry A., assignor.)						
Wolf, John H., Cottagegrove, Wis. Land-roller	810,453	Jan. 23	3792	780	120	948
Wolfe, John, and G. F. Frech, Cincinnati, Ohio. Ball-caster	811,467	Jan. 30	5759	1205	120	1408
Wolfe, William, Batavia, assignor to American Heel Machine Company, Cincinnati, Ohio. Heel-building machine. (Reissue)	12,433	Jan. 2	1341	272	120	295
Wolf, Herbert W. (See Lipschutz, Arthur, assignor.)						
Wolff, Hugo. (See Bally and Wolff.)						
Wolff, Julie, New York, N. Y. Household-cleaner	812,339	Feb. 20	3635	797	120	2364
Wolfram, Paul H., Chicago, Ill. Ice-box	810,015	Jan. 16	2819	583	120	703
Wolfson, Jacob M. (See Raab and Wolfson.)						
Womack, Samuel W., Laramie, Wyo. Plaster-kettle	813,192	Feb. 20	3336	734	120	2303
Wood, Charles W., New Orleans, La. Fireman's protective dress	811,021	Jan. 30	4914	1026	120	1226
Wood, Edgar J., New York, N. Y. Turbine-engine	808,709	Jan. 2	164	38	120	38
Wood, Frederick L., Worcester, Mass., assignor to Aeolian Company, New York, N. Y. Take-up roll for perforated music-sheets	813,607	Feb. 27	4179	916	120	2543
Wood, Henry A. W., assignor to Campbell Printing Press & Manufacturing Company, New York, N. Y. Impression mechanism of cylinder printing-machines	810,016	Jan. 16	2821	583-4	120	703
Wood, Henry A. W., assignor to Campbell Printing Press & Manufacturing Company, New York, N. Y. Combined rotary web printing and folding machine	810,593	Jan. 23	4069	898	120	1009
Wood, Marshall A. (See Lovegrove, Thomas G., assignor.)						
Wood, Montraville M., Schenectady, N. Y., assignor to General Electric Company. Lamp-guard	811,810	Feb. 6	519	116	120	1506
Wood, William C., assignor to Crown Cork and Seal Company, Baltimore, Md. Soda-water-bottling machine	813,340	Feb. 20	3635	797	120	2364
Wood, William C., and B. Oakford, London, assignors to W. Canning & Co., Birmingham, England. Apparatus for the agitation of solutions used in electrodeposition of metals	808,798	Jan. 2	351	75	120	78
Wood, William H., Media, Pa. Hydraulic riveting-machine	811,468	Jan. 30	5726	1205	120	1408
Wood, William H., Media, Pa. Hydraulic distributing-valve	812,626	Feb. 13	2226	486-7	120	2020
Woodard, Roy L., Richburg, N. Y. Clutch	808,995	Jan. 2	692	150	120	153
Woodbern, Lewis W., Charleston, Ill. Weather-strip	813,268	Feb. 20	3479	767	120	2332
Woodcock, James S., New Lexington, Ohio. Grinding-mill	813,280	Feb. 13	1491	336	120	1864
Woodford, Brenson C., assignor to International Steam Pump Company, New York, N. Y. Vacuum-breaker for condensers	811,690	Feb. 6	938	208	120	1678
Woodhead, Fred J., Bakersfield, Cal. Hydrocarbon-burner	812,712	Feb. 13	2366	534	120	2049
Woods, Edwin S., Chicago, Ill. Roller side bearing for railway-cars	809,599	Jan. 9	2015	418	120	474
Woodward, Amos W., Mostford, Ill. Stove or furnace	811,349	Jan. 30	5658	1189	120	1366
Woodward, Mark R. (See Iwanami and Woodward.)						
Woodworth, Elmer C., Deer Isle, Me. Purifier for gas	809,669	Jan. 9	2129	441	120	496
Woodridge, Tom A., and E. A. Ward, Birmingham, England. Flexible coupling	809,880	Jan. 9	2626	534	120	589
Woodside, Henry. (See Vincent, Gales, assignor.)						
Woolley, Robert J., Portland, Oreg. Butter-cutter	811,469	Jan. 30	5761	1206	120	1408
Woolman, Albert J., Urbana, Ill. Fertilizer-distributer	808,799	Jan. 2	352	76	120	78
Woolverton, Thomas N., Grimsby, Canada. Fruit-sorter	812,470	Feb. 13	1910	451	120	1965
Woolworth & Graham. (See Bunce, William H., assignor.)						
Worner, Emil, assignor to J. D. Riedel Aktiengesellschaft, Berlin, Germany. Mercury cable of shells and making same	811,193	Jan. 30	5389		120	1301
Worth, James E., and W. B. Ries, Fancyhill, Va. Sparking device for engines	811,470	Jan. 30	5763	1206	120	1408
Wrightington, Charles C., Dunellen, N. J. Vehicle-wheel tire	812,477	Feb. 27	3989	880	120	2486
Wright, Francis A., Atlanta, Ga. Annunciator	813,981	Feb. 27	4814	1062	120	2679
Wright, Emil, Dahlem, Germany. Fastening device	809,851	Jan. 9	1494	302	120	364
Wright, Charles H., and W. E. Marshall, Cleveland, Pa. Adjustable means for rods, bars, or pulleys	811,260	Jan. 30	5389	1189	120	1367
Wright, Henry C., Cambridge, Mass. Heat-stirring means for lasts	810,494	Jan. 23	4071	899	120	1009
Wright, Frank W., San Francisco, Cal. Levee-building suction-dredge	809,600	Jan. 2	354	76-7	120	79
Wright, Frank W., San Francisco, Cal. Levee	813,699	Feb. 20	3101	679	120	2252
Wright, George C., Cleveland, Ohio. Show-case	810,243	Jan. 16	3008	635	120	804

Alphabetical list of patentees for January and February—Continued.

Name, residence, and invention.	No.	Date.	Monthly volume.		Official Gazette.	
			Spec.	Drgs.	Vol.	Page.
Wright, George C., Cleveland, Ohio. Electric-lamp bracket	810,244	Jan. 16	3304	685	120	804
Wright, Jacob P., New Haven, Conn., assignor to Diamond Match Company, Chicago, Ill. Box-machine	813,808	Feb. 27	4181	917-18	120	2544
Wright, Jacob P., Barberton, Ohio, assignor to Diamond Match Company, Chicago, Ill. Glue-applying mechanism	813,983	Feb. 27	4929	1090	120	2702
Wright, Morris S., Worcester, Mass., assignor to Aeolian Company. Pneumatic-action of musical instruments	809,039	Jan. 2	814	178	120	179
Wright, Thomas, Jersey City, N. J. Internal-combustion engine	809,062	Jan. 2	919	192	120	203
Wright, Walter, assignor to S. Stevenson & Company, Glasgow, Scotland. Vehicle-wheel	809,881	Jan. 9	2529	534	120	589
Wright, William. (See Hurd and Wright.)						
Wright, William A., Cumming, Ga. Bedstead attachment	808,352	Jan. 9	1495	302	120	364
Wrigley, John, Philadelphia, Pa., assignor to J. E. Wrigley, Smithville, N. J. Clamp	809,882	Jan. 9	2530	525	120	590
Wrigley, Joseph E. (See Wrigley, John, assignor.)						
Wuest, Frederick A., Lawrenceburg, Ind. Saw	809,485	Jan. 9	1784	369	120	426
Wyant, Willis H., Tabor, Iowa. Radiator	809,486	Jan. 9	1785	369	120	426
Wyatt, Albert E., assignor to Great American Automatic Vending Machine Company, Hoboken, N. J. Automatic vending-machine	812,778	Feb. 13	2508	551	120	2075
Wyatt, George C., Rome, Ga. Plastic composition	812,108	Feb. 6	1145		120	1722
Wyatt, George R., assignor of one-half to W. M. Barret and E. F. Fitzpatrick, Redwood City, Cal. Fence-post	812,109	Feb. 6	1146	252	120	1722
Wyckoff, Eliza A., administratrix. (See Wyckoff, Frank T.)						
Wyckoff, Frank T., deceased; E. A. Wyckoff, administratrix, assignor to Wyckoff Pipe and Creosoting Company, Stamford, Conn. Knife for auger-bits	811,351	Jan. 30	5561	1160	120	1367
Wyckoff Pipe and Creosoting Company. (See Wyckoff, Frank T., assignor.)						
Wyckoff, Seamans & Benedict. (See Shepard, Charles H., assignor.)						
Wyman, Horace, and J. T. Cyr, Worcester, Mass., ass gnors to Crompton & Knowles Loom Works. Weft-replenishing loom	811,889	Feb. 6	682	149	120	1629
Wyman, Horace W., deceased, Worcester, Mass.; M. H. Wyman, administratrix. Weft-replenishing loom	808,966	Jan. 2	595	151	120	154
Wyman, Mary H., administratrix. (See Wyman, Horace W.)						
Wyman, Orrin J., Medina, C. Dennett and C. O. Tinkham, Akron, N. Y. Barrel-heading press	812,911	Feb. 20	2772	610	120	2179
Wynn, Robert E., assignor to Henricks Novelty Company, Indianapolis, Ind. Self-governing clutch	811,352	Jan. 30	5563	1160	120	1367
Wynne, Agnes, *et al.* (See Wynne, Philip H., assignor.)						
Wynne, Philip H., assignor to A. Wynne and L. E. Knott Apparatus Company, Boston, Mass. Galvanometer	813,269	Feb. 20	3482	768	120	2333
Wysong, Olmedo C., Greensboro, N. C. Woodworking-machine	812,317	Feb. 13	1630	358-9	120	1897
X Kth Century Heating and Ventilating Company. (See Maag, George, assignor.)						
Yale & Towne Manufacturing Company. (See Horne, Joseph A., assignor.)						
Yankee Novelty Company. (See Kellogg, William M., assignor.)						
Yates, William B., Chicago, Ill. Automatic driving and reversing mechanism	812,318	Feb. 13	1632	359	120	1898
Yeoman, Frank, Oroville, Cal. Dredge	811,663	Feb. 6	267	64-5	120	1548
Yocum, George C., Scranton, Pa. Automatic vending-machine	811,756	Feb. 6	406	89	120	1575
Yoder, David B., Guthrie, Okla. Ter. Attachment for wood-boring braces	813,070	Feb. 20	3102	679-80	120	2252

Acid, &c. Making boric	H. Blumenberg, Jr.	811,193	Jan. 30	5259	.....	120	1301
Acid methylene acetate and making same. Salicylic-	F. W. S. Valentiner	809,550	Jan. 9	1908	394	120	451
Acids. Making dialkyl-barbituric	M. Engelmann	811 884	Feb. 6	673	.....	120	1628
Adding and recording machine	A. S. Dennis	809,362	Jan. 9	1515	.....	120	368
Adding and type-writing machine. Combined	J. C. Lotterhand	813,361	Feb. 20	3677	806-8	120	2373
Adding device	E. C. Dilworth	811,157	Jan. 30	5177	1081-3	120	1283
Adding-machine	W. F. Smith	811,305	Jan. 30	5282	1105	120	1307
Adding-machine	E. R. Beach	808,695	Jan. 2	138	32-3	120	32
Adding-machine	G. N. Hinchman and H. Schroeder.	808,893	Jan. 2	542	120	120	120
Adding-machine	J. Pallweber	811,920	Feb. 6	742	162-9	120	1641
Adhesive and making same	F. H. Patch	813,578	Feb. 27	4125	904	120	2532
Adhesive brace. Flexible	A. Freschl	809,739	Jan. 9	2279	.....	120	534
Adjustable bracket	S. Kahn	813,790	Feb. 27	4523	996	120	2617
Adjustable bracket	B. H. Spangenberg	809,448	Jan. 9	1710	352	120	409
Adjustable washer	J. H. Childester	811,335	Jan. 30	5529	1153	120	1360
Adjustable wrench	G. McKerahan	811,035	Jan. 30	4938	1030	120	1234
Advertising device	A. Dunhill	812,440	Feb. 13	1861	409	120	1945
Advertising device	P. Coupette	812,191	Feb. 13	1375	299	120	1839
Advertising device	E. C. Crow	813,200	Feb. 20	3351	737	120	2305
Advertising projecting apparatus	F. Wetzler and M. Ornstein	813,354	Feb. 20	3663	803	120	2370
Aerial top	A. L. Platt	812,105	Feb. 6	1142	250-1	120	1721
Aging and purifying liquors. Means for	R. A. Stewart	813,519	Feb. 27	4011	879	120	2507
Agricultural implement	J. U. Cornelison	811,966	Feb. 6	867	190	120	1666
Agricultural-implement, &c., coupling	W. L. Paul	810,622	Jan. 23	4130	853	120	1023
Air and liquid cooling apparatus	G. T. Voorhees	808,677	Jan. 2	104	24	120	25
Air-brake	E. T. Hughes	813,086	Feb. 20	3094	678	120	2251
Air-brake	W. L. Stiarwalt and W. H. Cool	811,054	Jan. 30	4962	1040	120	1243
Air-brake	E. H. Miller and C. V. Rote	811,525	Jan. 30	5362	1229	120	1429
Air-brake. Anchor emergency	C. Z. Sanders	811,863	Feb. 6	623	136-7	120	1616
Air-brake apparatus	A. A. St. Clair	809,632	Jan. 9	2073	430	120	487
Air-brake coupling	H. H. Sartain	812,097	Feb. 13	2361	517	120	2044
Air-brake coupling. Automatic	A. H. Skillings	813,390	Feb. 20	3730	819	120	2384
Air-brake mechanism	A. L. Goodknight	813,747	Feb. 27	4435	979	120	2598
Air-brake-operating device for railways. Automatic emergency	J. P. Birmingham	813,090	Feb. 20	3131	686	120	2258
Air-brake pipes. Safety coupling-section for	W. J. Hofstatter	811,687	Feb. 6	295	66	120	1550
Air-brake-setting device and alarm	R. E. Adreon and F. M. Stambaugh.	810,962	Jan. 23	4560	949-50	120	1117
Air-brake system and automatic valve	F. B. Corey	808,711	Jan. 2	170	39	120	38
Air-compressing engine	H. E. Clifford	811,765	Feb. 6	428	94	120	1580
Air-compressors. Automatic electrical controller for	F. D. Ackerman	811,378	Jan. 30	5609	1173-4	120	1378
Air-coupling. Automatic	E. V. Sexmith and D. E. Moulton	809,063	Jan. 2	921	193	120	204
Air-cushion for vehicles	M. Downer	811,261	Feb. 6	880	189	120	1664
Air goods	H. F. Keil	811,622	Feb. 6	172	38	120	1523
Air-goods fabric	H. F. Keil	811,406	Jan. 30	5655	1185	120	1387
Air-heating system	F. S. Lamson	811,407	Jan. 30	5657	1185-6	120	1388
Air-purifying apparatus	A. P. Swan	809,306	Jan. 9	1400	294-5	120	343
Air-purifying apparatus	J. H. Kinealy	811,960	Feb. 6	873	193	120	1666
Air-ship tower. Revolving	S. M. Friede	813,217	Feb. 20	3395	748-9	120	2313
Air-treating apparatus	W. H. Carrier	813,549	Feb. 27	4062	860-1	120	2519
Air-treating apparatus	F. White	808,897	Jan. 2	549	122	120	121
Air-treating apparatus	F. White	810,450	Jan. 23	3778	778-9	120	944
Alarm: *See* Burglar-alarm. Cord tension-alarm. Fire-alarm. Incubator-alarm. Low-water alarm.		810,451	Jan. 23	3786	779	120	946
Alarm	G. A. Hill	811,061	Jan. 30	4977	1089	120	1242
Albumen from vegetable substances. Extracting	W. L. Monroe	813,184	Feb. 20	3280	723	120	2286
Alcohol-burner	F. W. Gaertner	813,573	Feb. 20	3701	814	120	2376
Alkali. Making caustic	J. H. Ernst	812,783	Feb. 27	4515	997	120	2615
Alkali. Producing caustic	H. S. Blackmore	809,089	Jan. 2	940	195	120	269
Alloys. Manufacture of nickel-copper	H. S. Blackmore	809,088	Jan. 2	939	195	120	267
Alumina. Calcination of hydrated	A. Mosell	811,239	Jan. 30	5345	.....	120	1231
Aluminium. Granulating	A. R. Pechiney	811,433	Jan. 30	5708	.....	120	1397
Amalgamator	W. Hoskins	812,493	Feb. 13	1989	431	120	1986
Ammunition-hoisting mechanism	D. Draper and G. A. Hay	813,730	Feb. 27	4808	966	120	2611
Ammunition-package	J. F. Meigs and R. P. Stout	808,455	Jan. 9	1734	365-6	120	412
Ammunition-wagon. Tilting	W. Mayer	808,854	Jan. 2	447	98	120	99
Amusement apparatus	W. Mayer	808,855	Jan. 2	448	98	120	100
	E. S. Timmons	809,589	Jan. 9	1980	411	120	466

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drs.	Official Gazette. Vol.	Official Gazette. Page.
Amusement apparatus	S. M. Friede	809,937	Jan. 16	2652	548	120	668
Amusement apparatus	F. J. McCabe	811,315	Jan. 30	5489	1144	120	1351
Amusement apparatus	O. Roberts	812,986	Feb. 13	2176	475	120	2009
Amusement device	T. Wirth	808,796	Jan. 2	347	75	120	77
Amusement device	C. H. Jaeger	809,956	Jan. 16	2697	556	120	677
Amusement device	E. Keen and R. F. Ayers	811,775	Feb. 6	449	97	120	1584
Amusement device	E. S. Benedict	811,998	Feb. 6	964	208	120	1663
Amusement device	P. M. Maloney	812,577	Feb. 13	2142	469–70	120	2003
Amusement device	T. C. Hurst	812,848	Feb. 20	2855	581–2	120	2153
Amusement device	A. Dalton	813,953	Feb. 27	4940	1070–1	120	2666
Anchor	H. O. Dunn	810,924	Jan. 30	4724	986	120	1185
Anchor. Earth-	G. F. Swortfiger	809,332	Jan. 2	802	173	120	177
Anchor. Earth-	E. C. and H. Holden	809,374	Jan. 9	1543	313	120	374
Anchor for guy-wires	J. Blackburn	812,003	Feb. 6	963	210	120	1685
Anchor. Guy-	L. D. Pitcher	810,807	Jan. 23	4467	926	120	1096
Anchor-hook, guy-clamp, and guy-stretcher. Combined	G. F. Swortfiger	813,182	Feb. 20	3321	730	120	2299
Anchor-post	R. Wiltse	809,879	Jan. 9	2526	524	120	589
Andiron	J. T. McLain	809,975	Jan. 16	2736	563	120	686
Angle-iron-bending machine	W. Vollmer	811,975	Feb. 6	886	195	120	1669
Animal-call	J. Brunner	813,853	Feb. 27	4660	1031	120	2647
Animal-shears	S. Robinson	812,882	Feb. 20	2724	599	120	2169
Animal-trap	G. J. Miller	809,203	Jan. 2	1143	237	120	261
Animal-trap	F. Ballentine	810,518	Jan. 23	3925	807	120	979
Animal-trap	J. C. Alsobrook	812,472	Feb. 13	1914	422	120	1956
Animal-trap	J. H. Tharp	813,333	Feb. 20	3627	795	120	2302
Annealing-box	J. J. Markey	812,943	Feb. 20	2646	628	120	2197
Annealing metal	W. R. Eaches	808,911	Jan. 2	577	.....	120	126
Annealing or malleableizing oven	W. L. Casaday and A. Bergman	813,483	Feb. 27	3932	863	120	2489
Annunciator	A. Carliss	808,723	Jan. 2	202	43	120	46
Annunciator	W. R. Horning	811,063	Jan. 30	4980	1039	120	1242
Annunciator	H. M. Olsen	811,083	Jan. 30	5013	1047	120	1249
Annunciator	J. A. Wotton	813,931	Feb. 27	4814	1062	120	2679
Annunciator-drop	C. E. Scribner	812,954	Feb. 20	2960	634	120	2202
Anode	L. Levett	813,048	Feb. 20	3042	670	120	2238
Anthracene compound and making same	O. Bally and H. Wolff	809,893	Jan. 9	2550	.....	120	594
Anthracene compound and making same	O. Bally and H. Wolff	809,894	Jan. 9	2562	.....	120	594
Anticreeping device	J. R. Leighty	809,193	Jan. 2	1124	234	120	248
Antiskating attachment	F. J. Brady	810,520	Jan. 23	3927	808	120	979
Antiseptic compounds. Making solidified	D. Genese	809,795	Jan. 9	2380	492	120	555
Antitoxin for fatigue and making the same	W. Weichardt	809,347	Jan. 9	1488	.....	120	363
Apron or belt guide. Automatic	W. J. Asher	813,995	Feb. 27	4932	1091	120	2703
Arbor	J. Cooper	811,276	Jan. 30	5419	1130	120	1337
Arch	R. Schneider	811,251	Jan. 30	5371	1121	120	1327
Arch-centering	L. Schuller	808,951	Jan. 2	651	142	120	143
Ash-pan	L. C. Schotto	812,370	Feb. 13	1716	377	120	1917
Asymmetric cell	M. Büttner	809,770	Jan. 9	2334	483	120	545
Auger-bit	J. Stein	809,856	Jan. 9	2488	517	120	580
Auger-bit knife	F. T. Wyrkoff	811,351	Jan. 30	5561	1160	120	1367
Auger. Post-hole	F. G. Hertzig	812,744	Feb. 13	2443	537	120	2063
Automatic brake	G. W. Shem	810,227	Jan. 16	3273	676	120	797
Automatic carrier and self-dumping device	M. J. Sylstad and C. G. Rude	810,386	Jan. 23	4057	835	120	1006
Automatic mixer and distributer	A. N. Somers	811,749	Feb. 6	397	87	120	1573
Automatic sprinkler	E. V. Smith	813,061	Feb. 20	3084	676	120	2249
Automobile	L. B. Gaylor	810,636	Jan. 23	4182	858	120	1028
Automobile	B. E. Hervey	812,129	Feb. 6	1183	259	120	1730
Automobile	H. Lamp	812,573	Feb. 13	2133	467	120	2002
Automobile	W. T. Penrose	813,058	Feb. 20	3080	675	120	2248
Automobile	F. M. Blair	813,541	Feb. 27	4046	886	120	2516
Automobile-body	A. R. and F. S. Welch	809,655	Jan. 9	2123	440	120	496
Automobile dust-allayer	W. H. Parker	809,738	Jan. 9	2277	471	120	533
Automobile-frame	A. R. and F. S. Welch	809,656	Jan. 9	2125	440	120	497
Automobile-frame	A. E. Sehaaf and F. S. Davis	813,175	Feb. 20	3311	726	120	2297
Automobile front axle	F. C. Miller	811,076	Jan. 30	5002	1044	120	1247
Automobile locking device	A. Churchward	812,726	Feb. 13	2420	530	120	2057
Automobile-motor control	E. H. Anderson	811,533	Feb. 6	1	1*	120	1485
Automobile race-course	J. B. Thomas and J. Lynch	809,588	Jan. 9	1979	410–11	120	466
Automobile steering-gear	J. Warrington	813,186	Feb. 20	3328	731–2	120	2301
Automobile turn-table	H. R. Stickney	813,462	Feb. 27	3880	852	120	2478
Automobile vehicles. Driving-axle for	J. E. G. Denis and L. M. J. de Boisse.	812,118	Feb. 6	1160	255	120	1724
Automobile-wheel	E. A. Wheeler and W. Heckert	811,112	Jan. 30	5072	1060	120	1261
Automobiles. Automatic air-brake apparatus for	F. Kalisch	811,537	Jan. 30	5628	1220	120	1422
Automobiles. Frame for wind-shields for	J. C. Simm, Jr., and A. P. Olson	813,534	Feb. 27	4020	881	120	2509
Awning	A. F. Winberg	808,963	Jan. 2	689	149	120	152
Awning	J. Malinofsky	813,103	Feb. 20	3162	691	120	2298
Ax-handle vedge	L. F. Herzog	811,802	Jan. 30	5820	1218	120	1420
Ax holster and guard	J. G. Busch	810,614	Jan. 23	4116	850	120	1020
Axle and wheel structure. Combined car	L. P. Fertig	810,525	Jan. 23	3938	810	120	981
Axle-box	J. R. Fleming	813,962	Feb. 27	4867	1076	120	2689
Axle box. Car-	W. F. Richards	808,684	Jan. 2	117	27	120	28
Axle-box. Railway-car	H. Stüting	809,404	Jan. 9	1623	329–30	120	390
Axle-lubricator	C. H. Driver	812,552	Feb. 13	2098	460	120	1994
Axle mechanism. Vehicle-	H. Hill	813,424	Feb. 27	3814	836	120	2461
Axle. Metal	E. Einfeldt	808,735	Jan. 2	230	49–50	120	53
Axle-truss	C. M. Haeske	809,297	Jan. 9	1380	289	120	339
Axle. Vehicle-	O. Hunze	808,844	Jan. 2	428	94	120	95
Baby-tender	G. P. Steinbach	811,981	Feb. 6	668	146	120	1627
Baby-tender	M. L. Paddock	811,167	Jan. 30	5200	1057	120	1289
Badge	D. W. Perry	808,867	Jan. 2	467	108	120	104
Badge	J. A. and J. C. Doran	813,624	Feb. 27	4212	928	120	2550
Bag: *See* Dust and scrap bag. Feed-bag. Hot-water bag. Punching-bag. Valve-bag.							
Bag	T. Manahan	813,440	Feb. 27	3851	843	120	2469

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drs.	Official Gazette. Vol.	Official Gazette. Page.
Bag-fastener	E. G. Staude	809,756	Jan. 9	2304	477	120	539
Bag-fastener	J. S. Williamson	813,268	Feb. 20	3477	706–7	120	2321
Bag-frame	B. vom Eigen	810,925	Jan. 30	4725	987	120	1186
Bag-frame handle or strap attachment	B. vom Eigen	810,926	Jan. 30	4726	987	120	1187
Bag-handle	M. Goldsmith	811,215	Jan. 30	5289	1103	120	1310
Bag-holder	G. Stearns	812,307	Feb. 13	1616	345	120	1894
Bag-tying machine	P. Rudd	813,832	Feb. 27	4618	1022–3	120	2636
Bait. Artificial	J. L. Ackerman	810,017	Jan. 16	2824	594	120	704
Balancing device	W. L. Waters	811,678	Feb. 6	280	62	120	1547
Bale binder and tier	W. C. Morgans and T. Gilloon	810,212	Jan. 16	3235	689–70	120	789
Bale-tie machine	A. M. Griffin	809,943	Jan. 16	2668	561–2	120	672
Bale-tying machine	C. M. Cagle	810,521	Jan. 23	3927	808–9	120	979
Bales. Machine for forming round cotton-	C. M. Cagle	809,283	Jan. 9	1354	278–6	120	333
Balers. Division-block for hay-	J. H. Pitkin	813,665	Feb. 27	4289	944	120	2567
Baling machine. Fiber-	A. M. Sheakley	812,155	Feb. 6	1266	277	120	1747
Baling-press	J. R. Robinson	808,780	Jan. 2	322	69–70	120	72
Baling-press	E. L. White	808,795	Jan. 2	343	74	120	76
Baling-press	W. S. Livengood	808,998	Jan. 2	745	161–2	120	164
Baling-press	J. W. Reynolds	809,544	Jan. 9	2463	512	120	574
Baling-press	J. Unfried	809,867	Jan. 9	2507	521	120	585
Baling-press	J. L. Coldiron	809,931	Jan. 16	2845	546	120	666
Baling-press	C. E. Bower	810,029	Jan. 16	2853	589	120	710
Baling-press	D. D. Stanbro	812,698	Feb. 13	2354	515–17	120	2043
Baling-press	T. and H. B. Abbot	813,270	Feb. 20	3486	708–9	120	2333
Baling-press	G. M. Washington	813,603	Feb. 27	4166	914–15	120	2540
Baling-press brake	W. S. Bradshaw	810,102	Jan. 16	3007	626–7	120	746
Baling press. Hay-	D. S. Edenfield	812,332	Feb. 13	1658	364–5	120	1903
Ball: *See* Golf-ball. Return-ball.							
Ball	R. Appleyard	808,713	Jan. 2	174	40	120	39
Balls from sheet metal. Manufacture of hollow metallic	A. Johnston	812,135	Feb. 6	1193	261	120	1732
Balloon. Navigable	A. Chiodera	809,093	Jan. 2	960	197	120	210
Balloting-box	W. W. McCollum	810,790	Jan. 23	4435	920	120	1090
Band-cutter	H. C. Clay and M. T. Reeves	812,784	Feb. 13	2522	554	120	2078
Band-cutter and feeder	P. R. Kramer and G. E. Wilson	811,932	Feb. 6	794	174–6	120	1651
Band-cutter and feeder	L. N. Holm	813,000	Feb. 20	2953	650–1	120	2218
Band-cutter and feeder	R. E. Van Court	813,259	Feb. 20	3463	764	120	2328
Band-cutter and feeder	H. C. Wallace	813,847	Feb. 27	4650	1028–9	120	2645

Bandage and material therefor. Absorbent	W. R. Green	810,371	Jan. 16	3577	736	120	865
Bar: *See* Grate-bar.	W. R. Green	810,115	Jan. 16	3034	631	120	753
Barrel	J. T. Melson and J. D. Marvil	812,062	Feb. 6	1058	230	120	1704
Barrel-head. Removable	A. Jaeger	809,918	Jan. 9	2007	537	120	606
Barrel-heading press	O. J. Wyman, C. Dennett, and C. O. Tinkham	812,911	Feb. 20	2772	610	120	2179
Barrel-opener	J. S. Knight and M. B. Russ	809,380	Jan. 9	1566	319	120	378
Barrel-stand	C. A. Rick	813,567	Feb. 27	4139	907	120	2535
Barrels and the like. Carrier for	J. Mitchell	809,003	Jan. 2	756	163	120	166
Barrels. Machine for making veneer-stave	G. H. Brown	811,031	Jan. 30	4931	1029	120	1232
Barrette-fastener	G. W. Dover	810,475	Jan. 23	3836	788	120	968
Basement and the like ventilator	P. H. Jackson	809,817	Jan. 9	2043	424	120	481
Basin. Receiving-	A. Lutz	809,201	Jan. 2	1120	237	120	250
Basket. Clothes-pin	S. W. Hurlburt	809,508	Jan. 9	1935	402	120	458
Basket-machine. Automatic	S. L. Casella	813,773	Feb. 27	4480	980–2	120	2610
Baskets or other receptacles. Machine for use in making	J. Eklund and E. L. Walker	810,270	Jan. 16	3363	686–7	120	817
Bat. Base-ball	C. H. Buehler	813,400	Feb. 27	3766	827	120	2450
Batteries. Machine for filling dry	P. P. Nungesser	809,826	Jan. 9	1855	385–6	120	441
Battery: *See* Electrical battery. Storage battery. Primary battery.							
Battery-grids. Machine for making	W. F. Richards	812,295	Feb. 13	1852	349–51	120	1890
Battery plate. Storage-	D. P. Perry	809,742	Jan. 9	2262	472	120	534
Bayonet and telescope. Combined	F. W. Stillwell	812,577	Feb. 27	4307	948	120	2571
Bench-shaking device	G. C. Dwight	810,680	Jan. 23	4143	866	120	1038
Beam. Combined steel and concrete	J. Kahn	812,808	Feb. 27	4646	1026	120	2632
Beam-presser	H. Parsons	812,260	Feb. 13	1886	367	120	1885
Beaming-machine	F. A. Baer	811,268	Jan. 30	5570	1163	120	1360
Bean cleaning and polishing machine	E. E. Wemp	810,609	Jan. 16	2895	579	120	700
Bearing	C. Glover	811,630	Feb. 6	196	43	120	1536
Bearing	E. S. Lea and J. Dagen	812,788	Feb. 13	2471	542	120	2067
Bearing. Antifriction-	V. L. Rice	813,989	Feb. 27	4931	1030	120	2700
Bearing. Automobile-wheel	C. S. Lockwood	813,906	Feb. 27	4761	1051	120	2589
Bearing. Axle-	J. K. Gourdin	813,980	Feb. 27	4714	1043	120	2689

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drg.	Official Gazette. Vol.	Official Gazette. Page.
Bearing. Ball-	S. S. Eveland	811,708	Feb. 6	333	73	120	1560
Bearing for spindles of grinding-machines	Z. R. Tucker	811,339	Jan. 30	5539	1156	120	1362
Bearing. Scale pivot-	J. A. Barclay	811,194	Jan. 30	5260	1101	120	1302
Bearing. Vertical-shaft	E. W. Broomall	809,280	Jan. 9	1349	274	120	331
Bed and cabinet. Folding	N. Lui	809,710	Jan. 9	2226	462	120	521
Bed and similar furniture. Collapsible	F. C. Schofield	810,573	Jan. 23	4029	829	120	1001
Bed. Baby-	A. K. Taylor	812,099	Feb. 6	1134	248	120	1719
Bed-bottom. Adjustable	J. Shepherd	813,458	Feb. 27	3874	849	120	2475
Bed corner-fastening	B. H. Jones	809,447	Jan. 9	1709	352	120	400
Bed. Extension-	J. H. Hannon	811,216	Jan. 30	5300	1106	120	1310
Bed. Folding	J. E. Chatem	810,036	Jan. 16	2874	593	120	715
Bed. Folding	F. J. Hubbard	813,004	Feb. 20	2962	652–3	120	2220
Bed. Invalid-	L. A. Goodson and W. A. Nason	809,051	Jan. 2	846	180	120	187
Bed. Metal	C. J. Widegren	813,471	Feb. 27	3908	857	120	2482
Bed. Sofa-	G. N. Wersel	809,657	Jan. 9	2126	440	120	497
Bed. Spring-	G. C. Locklin	808,667	Jan. 2	88	20	120	21
Bed-spring	B. F. Lindsley	812,939	Feb. 20	2837	626	120	2195
Beds. Crib attachment for	W. R. Clark	810,718	Jan. 23	4297	892	120	1060
Beds. Head-rest for	J. D. Smock	808,700	Jan. 2	148	35	120	35
Beds. Mattress-holder for folding	V. J. Gillett	809,049	Jan. 2	843	179	120	186
Bedstead attachment	W. A. Wright	809,352	Jan. 9	1495	302	120	364
Bedstead end piece. Metallic-	W. F. Bernstein	810,609	Jan. 23	4260	883	120	1052
Bedstead. Folding	H. H. Blaylock	809,167	Jan. 2	1073	223	120	235
Bedstead. Invalid-	L. J. Gronde	811,713	Feb. 6	340	74	120	1561
Bedstead. Metallic	P. P. Oedbauer	808,866	Jan. 2	466	102	120	103
Bedsteads. Mosquito-net-frame attachment for	W. K. McCardell	812,284	Feb. 13	1567	343	120	1883
Bear. Pasteurizing	C. H. Loew	808,668	Jan. 2	89	20	120	21
Beers or malt liquors. Manufacture of English	H. Gronwald	810,745	Jan. 23	4338	902	120	1069
Beet-digging machine	N. H. Claussen	813,199	Feb. 20	3349	.....	120	2305
Beet seeder. Sugar-	A. H. Kramer	813,978	Feb. 27	4891	1082	120	2604
Bell push, pull, &c.	F. Tiemann	809,233	Jan. 2	1226	253	120	299
Bell-ringer	L. S. Wilks	809,596	Jan. 9	2001	415	120	471
Bell-ringer. Pneumatic	R. M. Crosby	810,725	Jan. 23	4308	895	120	1062
Belt	J. Howe	811,400	Jan. 30	5647	1182	120	1385
Belt for supporting catamenial bandages. Self-adjusting	J. Riddell	811,794	Feb. 6	492	106	120	1591
Belt-guide	E. Schiok	813,176	Feb. 20	3312	728	120	2297
Belt-shifter	K. H. Knudsvig	811,302	Jan. 30	5468	1140	120	1347
	F. W. Seyboth and E. K. A. Baumann	809,329	Jan. 9	1445	293	120	352
Belt-shifting for speed-cones	O. Seidemann	811,799	Feb. 6	502	112	120	1593
Belt-tightener	J. J. Thacher	812,899	Feb. 20	2750	606	120	2174
Bending-machine	R. Mobley	808,672	Jan. 2	97	22	120	23
Bending-machine. Automatic	L. H. Brinkman	812,258	Feb. 13	1501	329	120	1867
Beta-ethyltetramethyldiaminoglycerin. Benzoyl chlorid derivative of	F. Hofmann	808,748	Jan. 2	255	.....	120	58
Beta-substituted ester of diaminoglycerin and making same	F. Hofmann	808,747	Jan. 2	253	.....	120	58
Bevel-gage for handsaws	H. Condren	808,971	Jan. 2	703	152	120	155
Beveling-machine	L. H. Rice	811,174	Jan. 30	5215	1089–90	120	1291
Beverage-carbonator	J. H. Fox	813,414	Feb. 27	3789	832	120	2455
Bicycle attachment	A. P. Santini	810,814	Jan. 23	4476	981	120	1098
Bicycle-brake	G. A. Love	813,906	Feb. 27	4763	1052	120	2589
Bicycle-support	G. F. Cook	812,547	Feb. 13	2090	458	120	1993
Bicycles. Electric generator for	F. X. Hofbauer	810,651	Jan. 23	4178	863	120	1034
Billets. Mechanism for feeding tubular	R. C. Stiefel	811,526	Jan. 30	5863	1229–30	120	1429
Billiard and pool tables. Cigar-holder for	E. E. Hanks	809,441	Jan. 9	1697	349	120	408
Billiard-table leg. Adjustable	C. D. Seymour	809,078	Jan. 2	911	191	120	202
Bin: *See* Screen-bin. Tilting bin.							
Bin	C. Cohen	812,019	Feb. 6	993	217	120	1690
Bin	H. M. Praed	813,059	Feb. 20	3051	675	120	2248
Binder	F. A. Cleveland	809,426	Jan. 9	1657	342	120	398
Binder	F. A. Cleveland	809,493	Jan. 9	1796	371	120	426
Binder	F. A. Cleveland	809,494	Jan. 9	1798	371	120	429
Binder	F. A. Cleveland	809,495	Jan. 9	1801	371	120	430
Binder	F. A. Cleveland	809,496	Jan. 9	1804	371	120	431
Binder attachment	C. L. Donohoe	812,731	Feb. 13	2437	531–2	120	2056
Binder. File-	A. Williams	809,577	Jan. 9	2523	523	120	588
Binder-file	C. R. Nelson	813,517	Feb. 27	4570	1010	120	2527
Binder for loose leaves of books	C. R. Nelson	813,518	Feb. 27	4571	1011	120	2527
Binder. Loose-leaf	J. P. Boehner	812,307	Feb. 13	1786	391	120	1929
Binder. Loose-leaf	E. G. Dumas	809,557	Jan. 9	1917	398	120	455
Binder. Loose-leaf	L. Suesman	809,587	Jan. 9	1977	410	120	466
Binder. Loose-leaf	E. A. Trussell	813,752	Feb. 27	4445	981–2	120	2600
Binder. Loose-leaf	E. A. Trussell	813,753	Feb. 27	4446	982	120	2600
Binder. Loose-leaf-ledger	W. J. Schultz	813,919	Feb. 27	4789	1057	120	2574
Binder. Temporary	J. Graves	811,286	Jan. 30	5443	1135	120	1342
Binder. Temporary	C. Whetham	808,793	Jan. 2	340	74	120	76
Binder. Temporary	F. B. Jordan	810,338	Jan. 16	3505	723	120	849
Binder. Temporary	J. B. Barlow	811,360	Jan. 30	5574	1164	120	1370
Binder. Temporary	J. J. Edwards	812,121	Feb. 6	1165	256	120	1725
Binder. Temporary	J. N. Christensen	813,943	Feb. 27	4843	1069	120	2584
Binding-post	G. T. Dalton, Sr	810,919	Jan. 30	4716	984	120	1185
Biscuit-cutting machines. Sprinkling granular substances on dough in	E. C. Henn	813,093	Feb. 20	3138	697	120	2269
Biscuit-pasting machine	T. and J. Vicars, Jr	813,980	Feb. 27	4314	949–50	120	2572
Bismuth dimethylate and making same	A. Magnan	812,221	Feb. 13	1434	312–13	120	1853
Bit: *See* Auger-bit. Molding-bit. Rabbet-bit.	B. R. Seifert	809,583	Jan. 9	1967	.....	120	464
Bit-brace	J. Gessert	812,196	Feb. 13	1388	301–2	120	1842
Bit-brace jaw	R. C. Ehrich	809,936	Jan. 16	2651	548	120	686
Bit-extender	W. B. Swan	810,220	Jan. 16	3260	679	120	799
Blackboard	T. H. Costello	810,628	Jan. 23	4131	853	120	1033

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drg.	Official Gazette. Vol.	Official Gazette. Page.
Blacking machine. Shoe-	F. H. Brewster	811,080	Jan. 30	4928	1028	120	1231
Blast combustion	B. E. Eldred	812,193	Feb. 13	1376	299	120	1840
Bleaching fibers	J. Wakefield	809,899	Jan. 9	2809	.....	120	885
Bleaching liquor. Apparatus for preparing	F. L. Bartelt	813,698	Feb. 27	4230	953	120	2576
Blind slat-fastener. Window-	M. J. Coogan	809,779	Jan. 9	2353	486	120	549
Block: *See* Brake-block. Fire-clay block. Breech-block. Hay-press head-block. Building-block. Head-block. Concrete building-block. Pulley-block. V-block.							
Block	W. F. Roberts	811,440	Jan. 30	5717	1197	120	1396
Block lifter. Hollow-	G. D. Rowell	813,060	Feb. 20	3082	676	120	2249
Block-mold	J. C. Miller	810,494	Jan. 23	3867	794	120	986
Block-molding machine	H. P. Gates	809,367	Jan. 9	1538	310	120	370
Block-molding machine	A. J. Love	811,647	Feb. 6	222	47–8	120	1534
Block or tile making machine	D. I. and J. E. Pettit	810,300	Jan. 16	3435	709	120	833
Block system. Automatic electric	A. M. Mott	813,909	Feb. 27	4773	1053–4	120	2571
Blower. Fireplace and grate	W. F. Lowry	813,506	Feb. 27	3973	872	120	2486
Blower for explosion-engines. Engine-driven	L. A. Frayer and W. J. Miller	813,204	Feb. 20	3360	738	120	2307
Blowpipe	W. M. Bradley	810,257	Jan. 16	3333	692	120	810
Board: *See* Blackboard. Ironing-board. Bulletin-board. Scaffold-board. Game-board. Tablet-board. Glass-cutting board.							
Boat. High-speed motor-	T. H. Wheless	811,887	Feb. 6	678	148–9	120	1628
Boat-launching apparatus. Ship's-	R. H. Robinson	813,915	Feb. 27	4781	1056	120	2572
Boat. Life-	R. A. Brown	812,815	Feb. 20	2586	568	120	2138
Boat. Life-saving	A. Baumgart	811,815	Feb. 6	525	118	120	1597
Boat. Marine	S. Pemberton and J. F. Deadman	811,171	Jan. 30	5206	1088–9	120	1290
Boats. Construction of submarine	T. H. Wheless	811,886	Feb. 6	675	148	120	1628
Bobbin-holder	T. J. Murdock	809,624	Jan. 9	2059	427	120	484
Bobbin-tray	J. Lloyd	809,195	Jan. 2	1127	234–5	120	248
Body-forming machine	A. Kent	811,566	Feb. 6	61	13	120	1498
Boiler: *See* Locomotive-boiler. Tubular boiler. Marine boiler. Vertical boiler. Steam-boiler.							
Boiler	E. Porritt	810,809	Jan. 23	4469	928	120	1097
Boiler	W. N. Rumely	812,529	Feb. 13	2039	447	120	1983
Boiler	S. Hallander	812,844	Feb. 20	2649	579–80	120	2161
Boiler	W. J. Sheetz	812,890	Feb. 20	2736	602	120	2171
Boiler attachment	J. P. Faherty and J. H. M. Blackford	810,632	Jan. 23	4145	856	120	1026
Boiler compound	P. B. Bird	810,528	Jan. 23	4510	.....	120	1106
Boiler construction	J. M. McClellon	813,986	Feb. 27	4916	1066	120	2700
Boiler fire-box. Steam-	C. W. Hullings	811,401	Jan. 30	5649	1182	120	1386
Boiler-flue cleaner	A. Grönvald	808,962	Jan. 2	723	156	120	160
Boiler furnace. Steam-	B. E. Eldred	811,626	Feb. 6	191	41	120	1526
Boiler furnace. Steam-	W. R. Hampden	813,380	Feb. 20	3712	816	120	2380
Boiler-setting and blocks therefor	H. S. Marsh	808,853	Jan. 2	445	98	120	99
Boiler superheater. Steam-	F. J. Cole	810,619	Jan. 23	4123	852	120	1021
Boiler-supporting lug	C. S. Hooper	812,492	Feb. 13	1958	431	120	1985
Boiler-tube	J. Whyte and A. M. Crossley	811,016	Jan. 30	4908	1024	120	1227
Boiler-tube	W. C. Bracken	813,768	Feb. 27	4473	988	120	2606
Boiler-tube cleaners. Guard for	E. Mettler	811,862	Feb. 6	622	136	120	1616
Boilers. Apparatus for maintaining hot-water or steam pressure in portable	C. C. Rich	811,345	Jan. 30	5354	1118	120	1322
Boilers. Tool for holding fire-bricks of water-tube	P. Healy and J. Kears	811,844	Feb. 6	589	129	120	1609
Boilers. Tool for spreading the tubes of water-tube	P. Healy and J. Kears	808,920	Jan. 2	589	120	120	120
Bolster	A. E. Ostrander	809,736	Jan. 9	2272	471	120	532
Bolt: *See* Door-bolt. Stay-bolt. Multiple bolt.							
Bolt-clipper	J. Pulvitt	809,843	Jan. 9	2462	512	120	574
Bolt-clipper and punch	J. L. Painter	812,226	Feb. 13	1444	315	120	1835
Bolt coupling. King-	W. W. Green	811,496	Jan. 30	5806	1216	120	1417
Bolt-locking washer	H. W. Ketcham	813,714	Feb. 27	4378	906	120	2540
Bolt-machine	J. K. Koons	811,411	Jan. 30	5664	1187–8	120	1388
Bolt mechanism. Multiple-	S. S. Hawley	809,184	Jan. 2	1103	229	120	263
Bolt operating and locking mechanism	W. J. Kasselman	812,044	Feb. 6	1029	224–5	120	1608
Bolting-machine	J. M. Case	808,724	Jan. 2	205	44	120	47
Bonding or tying device	W. B. Thines	809,231	Jan. 2	1214	248	120	268
Book and job chase	O. Howard	812,426	Feb. 13	1835	408	120	1939
Book-back. Loose-leaf	W. J. Schults and H. Gerding	812,602	Feb. 13	2190	477	120	2011
Book-holder	J. N. Miller	813,227	Feb. 20	3410	751	120	2316
Book. Loose-leaf	G. H. Manger	811,730	Feb. 6	362	80	120	1546
Book. Note-	J.C. Hackmann and W. H. Palmer	808,682	Jan. 2	66	14	120	17
Book. Sales-check	A. L. McLeish	808,865	Jan. 2	463	102	120	108
Book-strap	M. H. Karibo	813,216	Feb. 20	3304	748	120	2312
Book-support	J. Maccalhum	809,315	Jan. 9	1434	293	120	347
Book-support	R. E. Halsell and A. B. Campbell.	810,141	Jan. 16	3089	636	120	760
Bookbinder's gage	A. Von Auw	809,411	Jan. 9	1638	337	120	396
Bookbinder's plow	J. Hinklein	812,998	Feb. 20	2960	650	120	2215
Bookcase	F. W. Tobey	810,223	Jan. 16	3284	680	120	800
Boom for steam-shovels and the like. Composite	W. Ferris	812,384	Feb. 13	1531	334	120	1874
Boot and shoe	S. Wilde	812,448	Feb. 13	1886	411	120	1946
Boot and shoe cleaning and polishing machine	B. F. Lloyd	813,904	Feb. 27	4799	1051	120	2568
Boot and shoe protector	C. W. Linthicum	808,686	Jan. 2	87	19	120	21
Boot. Hockey-	J. A. McPherson	811,316	Jan. 30	5402	1146	120	1338
Boots and shoes. Cushion-tread and the like for	L. R. Luehrhand and H. W. Newton.	809,964	Jan. 16	2717	589	120	692
Booth. Dressing-	T. A. McGuire	812,661	Feb. 27	4383	942	120	2593
Boring apparatus. Deep-	W. Wlodarczyk	812,541	Feb. 13	2057	461–2	120	1986

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drgs.	Official Gazette. Vol.	Official Gazette. Page.
Boring-machine	P. H. and O. T. X. Adams	811,684	Feb. 6	290	65	120	1549
Boring machine. Cylinder-	J. H. Gouldsberry	810,114	Jan. 16	3032	631	120	752
Boring-tool	C. Baar	810,602	Jan. 23	4086	842	120	1012
Bottle	J. M. Cutler	810,727	Jan. 23	4312	896	120	1064
Bottle-cap and cork-puller. Combined	R. C. Wilson	811,113	Jan. 30	5074	1060	120	1262
Bottle-cap lifter	A. C. Booth	812,267	Feb. 13	1501	320	120	1866
Bottle-capping machine	H. Müller and E. Zipprich	812,086	Feb. 6	1089	233–4	120	1706
Bottle-cleaning machine	C. H. Loew	813,012	Feb. 20	2978	656	120	2224
Bottle-cleaning machine	C. H. Loew	813,100	Feb. 20	3153	690	120	2263
Bottle-closure	C. M. Brodnax and P. F. King	808,629	Jan. 2	18	4	120	6
Bottle-closure	J. Herrington	809,256	Jan. 2	1300	285	120	286
Bottle-closure	J. C. Condo	809,427	Jan. 9	1669	342	120	350
Bottle-closure	F. W. H. Clay	811,524	Feb. 6	542	121	120	1600
Bottle-closure	F. W. H. Clay	811,525	Feb. 6	544	121	120	1601
Bottle-closure	A. and D. Calenza	813,198	Feb. 20	3348	736	120	2205
Bottle-corking machine	R. J. Schlosser and H. R. Fisher	809,850	Jan. 9	2473	515	120	577
Bottle detector and identity-destroyer. Refilled-	E. S. Hayford	810,647	Jan. 23	4170	862	120	1032
Bottle drip attachment	M. Petrie	811,742	Feb. 6	384	84	120	1570
Bottle-filling device	J. E. Wister and G. T. Townsley	813,761	Feb. 27	4459	985–6	120	2603
Bottle-filling machine	F. B. Thatcher	809,407	Jan. 9	1628	331–2	120	391
Bottle holder. Nursing-	P. A. A. Killam	808,848	Jan. 2	434	96	120	96
Bottle-holding rack	O. Eick	808,824	Jan. 2	397	86	120	88
Bottle. Hot-water	E. J. Schuts	809,141	Jan. 2	1028	212	120	226
Bottle. Hot-water	E. J. Schuts	809,142	Jan. 2	1029	213	120	226
Bottle-labeling machine	T. Pankow	811,576	Feb. 6	83	17	120	1503
Bottle. Mucilage-	F. M. Munroe	813,813	Feb. 27	4564	1009	120	2626
Bottle. Non-refillable	F. M. Osgood	809,212	Jan. 2	1164	241	120	256
Bottle. Non-refillable	F. J. Davis	809,249	Jan. 2	1282	261	120	282
Bottle. Non-refillable	W. J. Dolan and F. H. Shoemaker	809,289	Jan. 9	1367	278	120	336
Bottle. Non-refillable	J. F. Connell	809,932	Jan. 16	2546	547	120	667
Bottle. Non-refillable	J. M. Dunkle	810,398	Jan. 23	3678	757	120	921
Bottle. Non-refillable	C. L. E. Wolf	810,452	Jan. 23	3788	779	120	946
Bottle. Non-refillable	J. M. Gambon	810,480	Jan. 23	3843	789	120	960
Bottle. Non-refillable	W. H. Garnett	810,481	Jan. 23	3844	790	120	960
Bottle. Non-refillable	M. F. Hanson	811,217	Jan. 30	5301	1109	120	1310
Bottle. Non-refillable	W. H. Dare	811,387	Jan. 30	5622	1177	120	1381
Bottle. Non-refillable	C. E. Carroll	812,794	Feb. 13	2416	530	120	2055
Bottle. Non-refillable	W. E. Knollenberg and J. A. Frey	812,751	Feb. 13	2462	540	120	2065
Bottle. Non-refillable	A. Bennett	812,804	Feb. 20	2563	564	120	2133
Bottle. Non-refillable	M. Conner	813,038	Feb. 20	3028	667	120	2235
Bottle. Non-refillable	W. J. Higman	813,421	Feb. 27	3808	835	120	2459
Bottle. Non-refillable	C. Fensky	813,547	Feb. 27	4059	889	120	2518
Bottle. Non-refillable	J. M. Kilduff	813,715	Feb. 27	4379	966	120	2586
Bottle. Non-refillable	J. M. Kilduff	813,804	Feb. 27	4548	1005	120	2622
Bottle. Non-refillable	S. F. Ettinger	813,961	Feb. 27	4866	1076	120	2680
Bottle. Nursery-	B. Holladay	813,894	Feb. 27	4740	1048	120	2664
Bottle or jar. Dispensing	R. M. Willis and A. A. Du Mond	809,150	Jan. 2	1059	220	120	232
Bottle-rinser	C. H. Loew	812,940	Feb. 20	2839	626–7	120	2195
Bottle sterilizing and cleansing apparatus	T. C. Bates	812,974	Feb. 20	2910	642	120	2210
Bottle-stopper	H. E. Lazarus	808,934	Jan. 2	613	134	120	135
Bottle-stopper	J. J. Allison	811,811	Feb. 6	520	116	120	1596
Bottle-stopper	W. F. Mahony	812,058	Feb. 6	1053	229	120	1703
Bottle-stopper	W. H. Redington	813,440	Feb. 27	3862	846	120	2473
Bottle stopper. Poison-	L. N. Ritten	810,676	Jan. 23	4218	873	120	1043
Bottle-washing machine	C. H. Loew and H. G. Miller	809,514	Jan. 9	1833	379	120	437
Bottle-wrapper	F. W. R. Bradford	811,689	Feb. 6	299	67	120	1552
Bottles by means of metal capsules. Apparatus for closing	E. Goltstein	812,648	Feb. 13	2275	495	120	2027
Bottles. Frangible cap for the closure of	S. M. Stevens	813,181	Feb. 20	3319	730	120	2299
Bottles, jars, and similar vessels. Closure device for	E. A. Matthias	810,164	Jan. 16	3127	647	120	768
Bottles. Machine for the manufacture of capsules for	E. Watzke	813,604	Feb. 27	4168	915–16	120	2541
Bottles. Making hot-water	E. J. Schuts	809,143	Jan. 2	1030	213	120	226
Bottles non-refillable. Device for rendering	P. Juppet	809,811	Jan. 9	2405	498	120	562
Bottles or other receptacles. Means for corking or closing	C. Schroeder	811,576	Feb. 6	649	142	120	1623
Bottling-machine	E. L. Miller	809,621	Jan. 9	2053	426	120	482
Bottling-machine	E. U. Mack	813,562	Feb. 27	4098	899	120	2527
Bouquet-holder	J. Burdick	809,172	Jan. 2	1061	225	120	238
Bowling-alley	D. Miller	809,715	Jan. 9	2235	464	120	524
Bowling-alley	F. W. Brinkmeyer	811,476	Jan. 30	5771	1208	120	1410
Bowling-alley pin-spotter	C. L. Bastian	812,263	Feb. 13	1495	327	120	1865
Bowling-alley pin spotters or setters. Guiding means for	C. L. Bastian	811,612	Feb. 6	152	33	120	1518
Bowling-alleys. Ball-return mechanism for	F. W. Brinkmeyer	809,245	Jan. 2	1266	257	120	279
Bowling-ball handle attachment	S. H., H. O., and S. H. Law, Jr.	812,214	Feb. 13	1418	309	120	1849
Box:

Box	F. R. Vernon	811,676	Feb. 6	277	62	120	1548
Box and target. Combined	P. R. Warren	812,536	Feb. 13	2060	449	120	1985
Box-corner-trimming machine	J. T. Ledbetter	809,309	Jan. 9	1406	286	120	344

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drgs.	Official Gazette. Vol.	Official Gazette. Page.
Box-covering machine	H. A. Inman	810,414	Jan. 23	3705	763–4	120	927
Box-fastener	H. Stotz	812,308	Feb. 13	1617	355	120	1894
Box-machine	J. P. Wright	813,808	Feb. 27	4181	917–18	120	2544
Box-opener	C. Goldmann	809,050	Jan. 2	845	176	120	187
Box-shook-forming machine	H. A. Gale	808,743	Jan. 2	242	52–3	120	55
Box-tray-forming machine	J. H. and J. H. Birch	809,920	Jan. 16	2641	545–6	120	606
Box trimmer. Cylindrical-	W. H. Stout	811,893	Feb. 6	117	25	120	1511
Brace:							
See Adhesive brace.	Ratchet-brace.						
Bit-brace.							
Bracelet	J. Bagnall	808,805	Jan. 2	363	78	120	81
Bracelet	P. H. Lattré	809,619	Jan. 9	2049	425	120	482
Bracelet	A. H. Bliss	810,183	Jan. 16	3166	656	120	776
Bracelet	E. Drews	811,767	Feb. 6	435	95	120	1581
Bracelet	T. W. Foster	813,697	Feb. 27	4346	957	120	2579
Bracelet	W. Wallenthin	813,755	Feb. 27	4449	983	120	2601
Bracelet-joint	N. C. Wallenthin	809,153	Jan. 2	1047	217	120	230
Bracket:							
See Adjustable bracket.	Scaffold-bracket.

Brake	M. Turner, W. Kernaghan, and C. M. Swinehart.	810,825	Jan. 23	4492	934	120	1102
Brake	S. H. Libby	812,758	Feb. 13	2473	542	120	2066
Brake and track-sanding mechanism	M. A. De France	813,601	Feb. 27	4335	954	120	2577
Brake apparatus. Load-	W. V. Turner	808,703	Jan. 2	153	36	120	36
Brake-band	H. N. Covell	812,827	Feb. 20	2615	573	120	2145
Brake-beam	C. F. Huntoon	813,704	Feb. 27	4364	961	120	2582
Brake-beam	C. F. Huntoon	813,706	Feb. 27	4365	961–2	120	2583
Brake-beam	C. F. Huntoon	813,705	Feb. 27	4366	962	120	2582
Brake-beam	C. H. Williams, Jr.	813,758	Feb. 27	4456	985	120	2602
Brake-beam	C. F. Huntoon	813,708	Feb. 27	4540	1003	120	2620
Brake-beam. Reinforced	H. B. Robischung	813,916	Feb. 27	4783	1056	120	2673
Brake-beams. Adjustable head for	C. E. Bauer	813,512	Feb. 27	4191	919	120	2546
Brake block and shoe	R. L. Ettenger	813,980	Feb. 27	4864	1078	120	2695
Brake-hanger	L. G. Gallup	813,640	Feb. 27	4241	932	120	2558
Brake-hanger. Adjustable	O. W. Wittmer	813,476	Feb. 27	3919	880	120	2486
Brake mechanism	G. M. Brill	813,346	Feb. 20	3647	799	120	2387
Brake mechanism	H. S. Beeney	809,165	Jan. 2	1071	232	120	236
Brake mechanism. Fluid-	B. T. Burchardt	811,198	Jan. 30	5269	1162	120	1303
Brake mechanism. Power-	C. B. Goode	812,989	Feb. 20	2984	646–7	120	2214
Brake-operating mechanism	J. and J. Caley	813,886	Feb. 27	4665	1032	120	2648
Brake-shoe	W. H. Namack	809,627	Jan. 9	2063	426	120	485
Brake-shoe	H. L. Winslow	809,658	Jan. 9	2126	441	120	497
Brake-shoe	J. D. Gallagher	810,405	Jan. 23	3689	788	120	924
Brake system	C. E. Barry	808,716	Jan. 2	188	41	120	62
Brakes and clutches. Friction device for	C. W. Hunt	811,562	Feb. 6	30	11	120	1495
Brazing steel and copper	J. F. Richardson	811,954	Feb. 6	845	186	120	1661
Breast-strap slide	E. M. Wightman	810,014	Jan. 16	2819	593	120	703
Breast-strap slide and attachment	J. S. Anderson	809,927	Jan. 16	2632	544	120	663
Breech-block. Lever-actuated wedge	M. Hernadorf	809,801	Jan. 9	2388	494	120	558
Breeching stay. Harness-	F. X. Schumaker	811,521	Jan. 30	5588	1238	120	1428
Brick-clay-crusher rolls	J. H. Bach	813,273	Feb. 20	3480	769	120	2324
Brick-cutting machine	H. L. Barr and F. Gandert	812,973	Feb. 20	2968	641	120	2209
Brick-machine	O. Nolan	811,518	Jan. 30	5967	1294–5	120	1428
Brick, tile, and various shapes. Producing vitrified	R. Baggaley	810,022	Jan. 16	2824		120	706
Brick-tongs	R. Skov and J. Forberg	809,148	Jan. 2	1036	214	120	227
Bricks. Manufacture of sand-lime	A. Gordon	809,053	Jan. 2	853	181	120	188
Bridge and making the same	J. B. Strauss	811,267	Jan. 30	5360	1122–3	120	1324
Bridge-guard whip	J. H. Donaldson	810,041	Jan. 16	2884	606	120	717
Bridge safety-gate. Draw-	J. B. Lardineis	809,317	Jan. 9	2413	500–1	120	563
Bridge. Truss-	W. J. Humphreys	809,264	Jan. 2	1308	264	120	288
Bridges, &c. Means for supporting the expansion ends of	P. B. Motley	809,071	Jan. 2	878	186–7	120	194
Bridging horizontal and vertical spaces	R. C. Sayer	812,962	Feb. 20	2954	671–3	120	2224
Bridle	H. I. Hansbrough	813,886	Feb. 27	4726	1045	120	2661
Bridle-bit	C. H. Falls	809,264	Jan. 9	1524	320	120	370
Bridle-bit	A. B. Campbell	812,112	Feb. 6	1163	253	120	1726
Bridle-bit and attaching means therefor	F. Weathers	813,337	Feb. 20	3291	707	120	2355
Briquet-machine	H. E. Marsh	813,467	Feb. 27	4371	969–70	120	2585
Briquetting-press	H. E. Marsh	811,880	Feb. 6	814	171	120	1644
Broiler	J. M. Stokes	809,439	Jan. 9	2088	434	120	491
Bronzing-machine	L. Haenlein	812,982	Feb. 13	2114	434	120	1937
Brooder	C. J. Becker	808,893	Jan. 2	557	79	120	91
Brooder	N. Saltcoatsall	809,031	Jan. 9	2369	488–89	120	549
Brooder	P. Coats	811,404	Jan. 30	5788	1211	120	1414
Brooder	H. F. Rau	813,116	Feb. 20	3000	657–8	120	2218
Brooder. Pig-	H. B. Vail	809,543	Jan. 9	2159	447–8	120	508
Broom-handle	T. I. Swagerty	812,880	Feb. 13	1654	363	120	1898
Broom-holder	W. M. Kellogg	813,713	Feb. 27	4376	966	120	2586
Brooms. Dustless attachment for	F. Sheridan	809,691	Jan. 16	2704	558	120	618
Brush	S. H. Bristor	810,768	Jan. 23	4274	885	120	1056
Brush and comb. Combined hair-	A. McKenzie	812,788	Feb. 13	2469	547	120	1871
Brush and mop holder. Combined	E. B. Golden	813,689	Feb. 27	4397	974	120	2589

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drfs.	Official Gazette. Vol.	Official Gazette. Page.
Brush-filling machine	F. C. Curtis	811,831	Feb. 6	551	122	120	1602
Brush. Fountain-	E. C. Davey	810,470	Jan. 23	3825	785	120	966
Brush. Fountain-	G. L. Belcher	811,272	Jan. 30	5411	1128	120	1336
Brush holder and scraper	C. T. Greener	810,640	Jan. 23	4160	860	120	1030
Brush-holder. Electrical	M. St. Clair	811,673	Feb. 6	272	60	120	1548
Brush. Paste-jar	A. N. Bitts	810,436	Jan. 23	3753	773	120	986
Bucket. Clam-shell	J. McMyler	811,946	Feb. 6	824	181	120	1657
Bucket. Clam-shell	J. C. Slocum	813,527	Feb. 27	4023	861	120	2610
Bucket. Clam-shell	J. C. Slocum	813,528	Feb. 27	4026	862	120	2611
Bucket. Dipper-	H. J. Drear	810,730	Jan. 23	4315	898-7	120	1084
Bucket. Grab-	A. E. Brown	808,630	Jan. 2	20	6	120	7
Buckle	F. T. Whitted	809,574	Jan. 9	2515	532	120	867
Buckle	J. J. Creedon	811,548	Feb. 6	23	6	120	1490
Buckle	A. S. Merrill and H. M. Howard	812,862	Feb. 20	2683	592	120	2189
Buckle. Lock-	J. Shaw	812,372	Feb. 13	1726	378	120	1913
Buffing-machine	J. F. Jeeseman	811,504	Jan. 30	5823	1219	120	1421
Buggy-top curtain-holder	C. W. Noble and E. O. McHenry	809,457	Jan. 9	1729	357	120	414
Building-block	F. M. Sawyer	812,369	Feb. 13	1716	377	120	1917
Building-block	J. A. Johnson	812,498	Feb. 13	1989	432	120	1967
Building-block	W. D. Moore	812,867	Feb. 13	2301	501	120	2032
Building-block mold	W. Porten	810,976	Jan. 30	4832	1004-5	120	1210
Building-block mold	H. Noah	811,080	Jan. 30	5009	1047	120	1249
Building-block-molding machine	A. A. Forbes	812,123	Feb. 6	1171	257-8	120	1727
Building block or wall	M. Haas	811,634	Feb. 6	204	43	120	1530
Building construction	J. S. Culley	812,727	Feb. 13	2422	530	120	2057
Building construction	G. F. Fisher	813,548	Feb. 27	4060	890	120	2619
Building construction. Interior	W. D. Mann	810,291	Jan. 16	3403	704	120	836
Building. Dismountable	J. Aradi	809,163	Jan. 2	1063	221	120	233
Building structures, stairs, corners, and the like. Protecting-rail for	M. Rupke	813,226	Feb. 20	3615	793	120	2359
Bulkhead-doors. Automatic cut-out mechanism for electrically-operated	W. B. Cowles	810,915	Jan. 30	4705	982	120	1181
Bulletin-board and rack	E. W. Kingsbury	811,298	Jan. 30	5463	1139	120	1346
Bundle-loader	J. S. Richardson	810,380	Jan. 16	3614	743-4	120	873
Bunsen burner. Gas-regulating	C. E. Wirth	811,989	Feb. 6	925	202	120	1678
Burglar-alarm	F. C. Harriman	812,420	Feb. 13	1828	400-1	120	1937
Burglar-alarm	J. H. Snow	812,892	Feb. 20	2736	602-3	120	2173
Burglar-alarm	J. and G. G. Roderick	813,917	Feb. 27	4784	1057	120	2673
Burial-case	L. V. Rathbun	810,172	Jan. 16	3130	649-50	120	771
Burial-casket	M. S. Leech	809,573	Jan. 9	1950	404	120	461
Burial-casket	J. H. Mills	812,945	Feb. 20	2852	629	120	2189
Burial-casket	J. Blake	813,942	Feb. 27	4835	1067	120	2683
Burner: *See* Alcohol-burner. Bunsen burner. Fluid-fuel burner. Gas-burner. Hydrocarbon-burner. Injector-burner. Lamp-burner. Oil-burner. Petroleum-burner. Vapor-burner.							
Burners. Reservoir for gasolene and other vapor	W. M. Fulton and W. H. Richards.	810,403	Jan. 23	3863	758-9	120	922
Burning buildings. Device for leading animals from	E. E. Higgins	813,496	Feb. 27	3961	866-9	120	2496
Bushing. Bung-	G. H. Ricke	813,990	Feb. 27	4923	1080	120	2701
Bushing. Bung-hole	F. Pfluger and E. Christensen	810,430	Jan. 23	3733	769	120	983
Bushings. Combined expander and flanger for bung-hole	F. Pfluger and E. Christensen	810,431	Jan. 23	3734	769	120	983
Butter-cutter	R. J. Woolley	811,469	Jan. 30	5781	1206	120	1403
Butter-cutting device	H. Schnackenberg	809,532	Jan. 9	1957	396	120	444
Butter, &c. Machine for cutting	E. K. Carter	813,858	Feb. 27	4671	1033-4	120	2549
Butter-mold	J. Mlade	810,695	Jan. 23	4200	886	120	1038
Butter-press	F. Murphy	812,430	Feb. 13	1858	409	120	1945
Button	E. Zeckhauser	809,883	Jan. 9	2631	535	120	880
Button. Collar-	C. F. Rodgers	811,443	Jan. 30	5720	1198	120	1399
Button. Crochet-work	I. Kalliwoda	811,724	Feb. 6	354	78	120	1585
Button guard. Collar-	F. H. Norris	809,730	Jan. 9	2262	469	120	530
Button. Hinged-leaf	H. Case	811,901	Feb. 6	704	154	120	1634
Button-holder	A. M. Hill	810,755	Jan. 23	4384	906	120	1075
Button or cheek	C. J. Franz	810,635	Jan. 23	4151	866	120	1027
Button or stud. Separable	W. N. Kidder	808,988	Jan. 2	733	168	120	162
Buttonhole	H. Walden	809,852	Jan. 9	2120	430	120	496
Cab-runner	J. W. Sorenson	811,453	Jan. 30	5737	1201	120	1403
Cabinet	E. L. Krag	810,544	Jan. 23	3974	818	120	959
Cabinet	H. F. McDonnell	812,074	Feb. 6	1062	236-7	120	1709
Cabinet. Kitchen-	W. M. Henson	811,918	Feb. 6	738	161	120	1641
Cabinet. Metallic	E. L. Krag	810,545	Jan. 23	3975	819	120	959
Cable-hanger	F. W. Sorg	809,993	Jan. 16	2767	569	120	603
Cable-hanger	F. C. Tabler	810,004	Jan. 16	2791	576	120	606
Cableway	T. S. Miller	809,287	Jan. 9	1582	321-2	120	381
Cages. Drinking and feeding appliance for bird-	H. Quittner	811,570	Feb. 6	636	140	120	1620
Caisson air-lock	W. McIlvrid	810,298	Jan. 16	3431	708	120	832
Caisson. Floating	A. C. Cunningham	808,728	Jan. 2	217	46	120	50
Caisson for repairing dry-dock bottoms. Floating	A. C. Cunningham	808,636	Jan. 2	36	8	120	10
Calcium carbid. Apparatus for the production of	E. F. Price, G. E. Cox, and J. G. Marshall.	809,842	Jan. 9	2460	511	120	574
Calculating machine	E. S. Ensign	809,047	Jan. 2	536	178-9	120	186
Calculating machine	J. M. Sharp	810,090	Jan. 16	2982	622	120	740
Calculating machine	A. Reohnitzer	809,075	Jan. 2	886	183-90	120	198
Calculator	S. S. Fry	809,204	Jan. 9	1374	279	120	336
Calculator	F. G. Johnson	809,446	Jan. 9	1705	361-2	120	408
Calculator and recorder. Mechanical	L. S. Crandall	813,281	Feb. 20	3503	773-4	120	2357
Calendar. Perpetual	C. P. Hilden	811,846	Feb. 6	593	128	120	1610
Caliber standard. Desk-	F. A. Hale	813,553	Feb. 27	4079	894	120	2622
Caliper-tool	T. S. Mabie	810,424	Jan. 23	3725	767	120	981
Calipers	L. Schutte and E. Körting	808,693	Jan. 2	128	30	120	31
Calk. Variable	B. Salzer and G. Walther	810,388	Jan. 16	3543	728-9	120	857
Camera	H. A. Farrand	813,623	Feb. 27	4339	950-30	120	2654
Camera attachment	M. I. Loryea	813,995	Feb. 27	4553	1008-7	120	2698

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drfs.	Official Gazette. Vol.	Official Gazette. Page.
Camera. Kinematographic	M. Hansen	812,845	Feb. 20	2852	590	120	2182
Camera-lenses. Screen for photographic	H. S. Miller	809,520	Jan. 9	2434	505-6	120	598
Camera. Panoramic	J. A. Bried	812,163	Feb. 6	1269	262	120	1761
Can: *See* Dental can. Measuring-can. Metallic can. Preserving-can. Sheet-metal can.							
Can	J. F. Roes	809,963	Jan. 16	2750	565	120	689
Can-body forming and soldering apparatus	L. C. Sharp	812,955	Feb. 20	2870	634-5	120	2202
Can-body machine. Locked-seam	J. H. McElroy	812,265	Feb. 13	1569	343-5	120	1863
Can-body-making machine	W. Cameron	813,772	Feb. 27	4484	989-90	120	2609
Can-filling apparatus	A. Cerruti	810,034	Jan. 16	2869	593	120	714
Can heading and crimping machine. Automatic round-	A. Lotz	812,858	Feb. 20	2675	587-9	120	2157
Can heading and crimping machine. Automatic square-	A. Lotz	812,857	Feb. 20	2671	586-7	120	2157
Can-heading machine	B. Adriance and A. Calleson	810,245	Jan. 16	3306	685-6	120	805
Can-heading machine	J. Brenzinger	813,482	Feb. 27	3930	862	120	2488
Can-opener	H. B. Ray	809,527	Jan. 9	1858	386	120	442
Can-opener	J. W. Davis	809,573	Jan. 9	2162	447	120	507
Can-opener	L. Alden, Jr.	811,894	Feb. 6	601	151	120	1631
Can-opener	C. Cochran	812,408	Feb. 13	1803	394	120	1963
Can safety device. Oil-	E. L. Reed	810,566	Jan. 23	4017	827	120	996
Can-testing machine	B. Buccieri	809,281	Jan. 9	1350	274	120	332
Cans. Apparatus for detaching the heads from the bodies of sheet-metal	C. B. McDonald	812,224	Feb. 13	1440	314-15	120	1854
Canceling and postmarking machines. Feed mechanism for stamp-	S. K. Green	809,108	Jan. 2	977	202	120	216
Canceling and postmarking machines. Inking apparatus for stamp-	F. Bjurström	812,780	Feb. 13	2511	552	120	2076
Canceling-machine	F. Bjurström	812,255	Feb. 13	1499	328	120	1866
Candles. Dipping-frame for coating	W. G. Maynard	813,809	Feb. 27	4555	1007-8	120	2624
Candy-dusting machine	P. Panoutlias	809,737	Jan. 9	2273	471	120	533
Candy-holder	P. Haase	809,182	Jan. 2	1100	229	120	242
Candy-machine	G. A. Bissler	812,002	Feb. 6	961	210	120	1685
Candy-making machine	A. Moesbach	813,315	Feb. 20	3591	788-9	120	2354
Candy-screening machine	F. W. Draudt	811,086	Jan. 30	5020	1043	120	1251
Candle	C. A. Spies	813,026	Feb. 27	4213	926-7	120	2550
Candle-holder	L. M. Wilde	808,668	Jan. 2	146	34	120	34
Cane-cutting machine. Sugar-	J. A. Bolden	812,248	Feb. 13	1458	325	120	1854
Cane-loading device. Sugar-	G. D. Luce	813,943	Feb. 27	4837	1067	120	2683
Cane-mill feed-box	J. P. Golden	810,290	Jan. 16	3402	704	120	836
Cane. Repeating torpedo-	R. Bean	809,440	Jan. 9	1696	348	120	406
Canisters, &c. Machine for cutting and pressing	R. Von der Linde	810,286	Jan. 23	3634	748	120	910
Canopy. Folding-	J. A. Poltock	809,512	Jan. 9	1530	378	120	436
Canopy. Portable	A. Voorhies	811,322	Jan. 30	5504	1148	120	1385
Canopy-support and chandelier	J. O. Mick	811,460	Jan. 30	5747	1203	120	1405
Cap	L. Balsam	810,068	Jan. 16	2980	615	120	733
Car	W. A. Caswell. (Reissue)	810,697	Jan. 23	4257	883	120	1052
Car and other like vehicle. Tram-	E. A. Stanley and J. E. Anger	12,447	Feb. 6	1321	287-9	120	1760
Car announcing device. Railway-	A. D. Cloud	812,097	Feb. 6	1131	247-8	120	1719
Car-bodies. Center-stem guide for	B. S. Brown	811,903	Feb. 6	706	154-5	120	1634
Car-body underframe construction	O. S. Pulliam	812,720	Feb. 13	2407	527-8	120	2068
Car-bolster	A. Campbell	813,067	Feb. 27	4290	941-5	120	2667
Car. Box-	F. A. Delano	810,840	Jan. 23	4513	940	120	1107
Car-brake	J. F. Henner	810,472	Jan. 23	3820	786	120	987
Car-brake-operating mechanism	J. O. Neikirk	813,589	Feb. 27	4732	1046	120	2663
Car. Convertible	F. E. Stanley and J. L. Gillmore	813,511	Feb. 27	3991	875	120	2602
Car-coupling	W. W. Gordon	813,249	Feb. 20	3447	760	120	2234
Car-coupling	E. C. Washburn	809,255	Jan. 2	1302	263	120	284
Car-coupling	S. P. Bush	810,008	Jan. 16	2933	578-9	120	700
Car-coupling	L. P. Elliott	810,104	Jan. 16	3011	627	120	747
Car-coupling	C. H. Tomlinson	810,400	Jan. 23	3670	758	120	921
Car-coupling	J. Rooney	810,588	Jan. 23	4061	836	120	1007
Car-coupling	J. K. Vaught	811,329	Jan. 30	5530	1150	120	1388
Car-coupling	S. W. Wibel, W. R. Cunningham, and H. A. Gray.	811,459	Jan. 30	5745	1202	120	1405
Car-coupling	G. A. Hermanson	811,808	Feb. 6	514	115	120	1596
Car-coupling	W. McConway, Jr.	812,927	Feb. 20	2809	619	120	2188
Car-coupling	A. Kelly	813,107	Feb. 20	3166	692-4	120	2386
Car-coupling	W. S. Schroeder	813,650	Feb. 27	4258	925	120	2660
Car-coupling apparatus	O. E. Kelly	813,744	Feb. 27	4429	977	120	2606
Car-coupling. Automatic	D. M. Wilson	811,068	Jan. 30	4987	1041	120	1244
Car-coupling. Auxiliary	G. M. Pennepacker and C. S. Lacon.	812,540	Feb. 13	2055	451	120	1998
Car coupling device	E. Grafstrom	811,434	Jan. 30	5710	1195	120	1397
Car-coupling. Emergency	N. Warner and G. W. Jacobs	808,851	Jan. 2	64	14	120	16
Car-couplings. Operating mechanism for automatic	E. E. Turney	812,460	Feb. 27	3908	859	120	2481
Car-door-actuating mechanism	J. Lovak	812,295	Feb. 13	1780	388	120	1934
Car-door cleat and sealing device	S. C. Sullivan	812,897	Feb. 27	4551	1008	120	2626
Car door. Grain-	C. L. Robbins	810,986	Jan. 30	4987	1013	120	1217
Car door. Grain-	V. Elmquist	811,091	Jan. 30	5028	1050	120	1253
Car-door hanger	E. F. Luce	813,631	Feb. 27	4226	926-9	120	2553
Car-door lock	W. F. Wendt	813,734	Feb. 27	4395	970	120	2599
Car-door-operating mechanism	A. Campbell	808,572	Jan. 2	2612	522	120	826
Car draft appliance. Railway-	J. F. O'Connor	812,783	Feb. 13	2080	564	120	2076
Car draft-gear. Railway-	H. M. Pflager	812,886	Feb. 20	2857	594-5	120	2185
Car draft-rigging mechanism	R. S. Brown	810,805	Jan. 23	4464	927	120	1036
Car. Dump-	T. R. McKnight	812,721	Feb. 13	2409	528	120	2054
Car. Dump-	H. S. Hart and W. Yost	809,822	Jan. 9	1849	389-4	120	449
Car. Dump-	S. Otis	811,717	Feb. 6	344	76	120	1589
Car. Dump-	S. Otis	812,209	Feb. 13	1698	373	120	1912
Car-dump	C. R. Cleghorn	813,723	Feb. 27	4409	975-6	120	2598
Car. Dumping-	F. M. Hubbard and C. E. Taylor	811,139	Jan. 30	5128	1070	120	1271
		808,760	Jan. 2	267	55-6	120	59

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drgs.	Official Gazette. Vol.	Official Gazette. Page.
Car. Dumping	P. Schneider	809,016	Jan. 2	779	168	120	172
Car. Dumping	R. W. and J. V. Ericson	810,324	Jan. 23	3936	810	120	981
Car dust-collector	G. F. Weir	810,331	Jan. 23	4500	936	120	1104
Car. Electric	L. B. Stillwell	811,967	Feb. 6	868	191–2	120	1606
Car-fender	J. B. Connor	810,326	Jan. 16	3481	719	120	842
Car-fender	J. Landau, Jr.	812,571	Feb. 13	2130	466–7	120	2001
Car-fender	A. B. Wilson	813,475	Feb. 27	3917	859	120	2435
Car-fender	M. E. John	813,498	Feb. 27	3955	869–70	120	2497
Car-fender	F. J. Fairchild	813,632	Feb. 27	4227	929	120	2554
Car-fender	C. Bauer	813,938	Feb. 27	4827	1065	120	2852
Car fender and brake	L. A. Devin and F. S. Atkins	812,022	Feb. 6	997	218	120	1691
Car fender. Street	W. Martin	809,829	Jan. 9	2432	505	120	588
Car for preventing side slip. Motor	T. G. Allen	813,694	Feb. 27	4322	951	120	2574
Car-frame	W. R. McKeen, Jr	809,317	Jan. 9	1428	280	120	348
Car frame. Hand	J. Donovan	811,042	Jan. 30	4949	1033	120	1236
Car frames. Post and carline for railway	W. F. Kiesel, Jr.	809,920	Jan. 9	2611	538	120	607
Car. Freight	O. W. Meissner	812,145	Feb. 6	1233	266	120	1742
Car friction draft-rigging. Railway	F. B. Townsend	812,902	Feb. 20	2750	607	120	2176
Car grain-door	M. G. Donehew	806,906	Jan. 2	570	126	120	125
Car grain-door	J. Feuchi	812,538	Feb. 20	2638	576–7	120	2149
Car. Hopper-bottom	J. S. Stevenson	809,538	Jan. 9	2090	453	120	490
Car indicator. Street	D. C. Evans and O. Q. Patterson	813,144	Feb. 20	3258	716–17	120	2286
Car journal-box	J. R. Schrader	809,535	Jan. 9	2080	431–2	120	488
Car-lubricator	J. F. Joy	813,214	Feb. 20	3386	747	120	2311
Car. Motor	F. W. Lanchester	809,909	Jan. 9	1827	377	120	436
Car part	E. I. Dodds	811,208	Jan. 30	5284	1105	120	1307
Car-platform folding gate	H. Witte	810,592	Jan. 23	4067	857	120	1006
Car-platform gate	H. Witte	809,507	Jan. 9	2005	416	120	472
Car. Railway	J. C. Cottrell	808,817	Jan. 2	381	82–4	120	84
Car. Railway	L. A. Hoerr	809,613	Jan. 9	2039	423	120	480
Car. Railway	A. W. Sullivan and W. Renshaw	810,000	Jan. 16	2781	573–4	120	696
Car. Railway motor	C. H. Howard	813,427	Feb. 27	3823	837	120	2462
Car. Railway tank	G. L. Southard	812,096	Feb. 6	1123	247	120	1717
Car-replacer	J. M. Scudder	812,302	Feb. 13	1606	352	120	1892
Car-replacer	W. P. Byrd	813,855	Feb. 27	4064	1032	120	2648
Car roller side bearing. Railway	E. S. Woods	809,509	Jan. 9	2015	418	120	474
Car-roof. Metal	J. C. Campbell	809,907	Jan. 9	2574	533	120	596
Car-seat	F. Bennett and S. A. Walker	809,084	Jan. 2	923	193–4	120	204
Car-seat	A. E. Ostrander	810,558	Jan. 23	4000	824	120	994
Car-seat. Reversible	H. Witte	810,833	Jan. 23	4503	938	120	1105
Car-seat. Reversible	H. Witte	813,267	Feb. 20	3478	767	120	2332
Car-seat. Walk-over	S. M. Curwan	808,906	Jan. 2	569	125	120	125
Car-signal	A. S. Macreadie	806,937	Jan. 2	617	134	120	126
Car sliding door. Railway	F. D. Ackerman	811,115	Jan. 30	5076	1061	120	1262
Car-starter	R. E. Booth and J. Wise	811,123	Jan. 30	5090	1065	120	1265
Car starting and stopping device	R. Maw	808,930	Jan. 2	621	135	120	137
Car-step	D. A. Faut	811,911	Feb. 6	726	158–9	120	1639
Car. Tie-preserving cylinder	E. B. B. Kuckuck	808,761	Jan. 2	274	59	120	63
Car truss-frame	W. R. McKeen, Jr	809,974	Jan. 16	2732	562–3	120	695
Car-wheel	G. D. Springer and F. Lister	810,437	Jan. 23	3754	773	120	933
Car-wheel hub	D. Haslup	813,418	Feb. 27	3801	834	120	2456
Car-wheel. Sectional	G. W. Richards	809,306	Jan. 9	1610	327	120	328
Car-wheels. Producing self-lubricating	J. W. Fuller, Jr.	813,146	Feb. 20	3263	717	120	2287
Cars and other vehicles. Fender for	G. Hipwood	810,762	Jan. 23	4370	907–8	120	1077
Cars and other vehicles. Fender for	G. Hipwood	810,763	Jan. 23	4373	908	120	1077
Cars, automobiles, and the like. Locking device for motor-	I. W. Heysinger	810,206	Jan. 16	3220	667	120	786
Cars. Cable-grip for	J. L. Davis	813,040	Feb. 20	3030	667	120	2235
Cars. Chute for unloading railway	J. E. Brassel	812,009	Feb. 6	972	212	120	1687
Cars. Crane structure for	C. B. Voynow and G. B. Taylor	810,527	Jan. 23	4493	934–5	120	1102
Cars. Spragging device for coal and pit	J. Levak	810,778	Jan. 23	4409	914	120	1086
Cars. Steel side stake for	E. I. Dodds	813,466	Feb. 27	3943	865	130	2492
Cars. Steel underframe for railway	W. F. Kiesel, Jr.	809,921	Jan. 9	2612	538–9	120	608
Cars. Tandem-spring draft-rigging for railway	J. F. O'Connor	812,867	Feb. 20	2863	894	120	2162
Carbonating apparatus. Automatic attachment for	H. W. Van Der Vaart	809,649	Jan. 9	2116	432	120	495
Carbonating apparatus. Liquid	P. C. Haan	813,863	Feb. 27	4720	1044	120	2650
Carburetor	S. P. Sanders	810,087	Jan. 16	2974	621	120	730
Carburetor	J. Melmoth	810,792	Jan. 23	4430	921	120	1091
Carburetor	F. A. Law	813,653	Feb. 27	4283	937	120	2561
Carburetor	E. E. Adams	813,683	Feb. 27	4320	951	120	2573
Carburetor	G. H. Holgate	813,796	Feb. 27	4535	1002–3	120	2619
Carburetor and igniter for hydrocarbon-engines	A. B. Goodspeed	808,915	Jan. 2	553	129	120	126
Carburetor for hydrocarbon-engines	C. H. Claudel	811,618	Feb. 6	163	36–7	120	1621
Carburetor. Hydrocarbon-engine	W. Kopse	812,753	Feb. 13	2465	541	120	2086
Card-cases	W. G. Dunwell	811,499	Jan. 30	5797	1213	120	1415
Card-mounting	C. C. Harper	812,993	Feb. 20	2940	648	120	2216
Card or check receiver	J. C. Tutt	813,468	Feb. 27	3902	855	120	2481
Cards. Cutter	R. W. Bailey	813,764	Feb. 27	4465	986	120	2604
Cards. Piano machine-head for punching jacquard	V. E. Royle	811,176	Jan. 30	5220	1091–2	120	1292
Carpet. Chain-machine for the manufacture of	C. Thibbaut	810,891	Jan. 23	4641	967–8	120	1133
Carpet-lining, sheet metal, wood, &c., with paper, &c.	F. E. Jagenberg	813,708	Feb. 27	4368	963	120	2584
Carpet-sweepers for covering	J. J. Rae	810,171	Jan. 16	3138	649	120	770
Carriage-driving mechanism	P. L. McBride	812,883	Feb. 20	2894	862	120	2180
Carriage-top bow-head	A. D. Leblanc	811,305	Jan. 30	5473	1141	120	1348
Carriage-top	G. W. Voelkle	813,845	Feb. 27	4646	1027–8	120	2644
Carriage-top	S. J. Wever	809,545	Jan. 9	1890	393	120	449
Carriage-top cradle. Folding baby	E. S. Carothers	812,405	Feb. 13	1802	394	120	1982
Carriage-top corner construction	I. Andrews	810,247	Jan. 16	3311	686–7	120	804
Carriage. Child's	J. P. Johnson	812 207	Feb. 13	1405	305	120	1946
Carriage. Child's	M. and C. R. Piercy	812,447	Feb. 13	1576	413	120	1948
Carriage-curtain fastener	W. H. Barter	812,323	Feb. 13	1641	361	120	1899
Carriage-lamp	L. J. Lankhaupt	812,661	Feb. 13	2292	499	120	2081
	C. M. Gill	810,932	Jan. 30	4743	989	120	1190

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drgs.	Official Gazette. Vol.	Official Gazette. Page.
Carrier: *See* Automatic carrier. Cash-carrier. Draft-rigging carrier. Egg-carrier. Electric carrier. Feed and litter carrier. Fruit-carrier. Hay-carrier. Log-carrier. Photographic-plate carrier. Pneumatic-tube carrier. Rope-carrier. Shaft-carrier. Trace-carrier. Wire-carrier.							
Carrier	D. G. Lyman	813,160	Feb. 20	3278	721	120	2300
Carrier mechanism	L. C. Kahl	808,758	Jan. 2	370	58	120	62
Cart. Logging	M. E. Spears	808,881	Jan. 2	507	110	120	114
Cart. Self-loading	R. C. Menzies	810,547	Jan. 23	3978	820	120	990
Cart. Street-sweeper's	G. Focht	808,739	Jan. 2	333	61	120	54
Cartridge	A. H. Emery	811,910	Feb. 6	722	157–8	120	1637
Cartridge. Blank smokeless-powder	F. Sperre	812,156	Feb. 6	1268	278	120	1748
Cartridge-clip	O. M. Lissak	810,161	Jan. 16	3123	646	120	767
Cartridge-clip-assembling machine	O. M. Lissak	810,055	Jan. 16	2943	613–14	120	732
Cartridge-extracting implement	W. W. Pierce	812,088	Feb. 6	1108	244	120	1714
Cartridge. Firearm	F. E. Clots	811,379	Jan. 30	5813	1174	120	1379
Cartridge-loading machine	S. B. Kimber	813,495	Feb. 27	3838	840–1	120	2465
Case: *See* Bookcase. Burial-case. Card-case. Display-case. Eyeglass-case. Filing-case. Map-case. Packing-case. Sectional case. Show-case. Show or display case.							
Casein-picker	A. B. Ireland	810,655	Jan. 23	4184	864	120	1035
Cash-carrier. Pneumatic-tube	D. S. Hager	811,915	Feb. 6	734	160	120	1640
Cash indicator and recorder	J. H. McCormick and J. D. Morrison.	810,376	Jan. 16	3586	738–40	120	867
Cash-register	W. F. Bockhoff	811,761	Feb. 6	417	92–3	120	1577
Cash register and indicator	J. H. McCormick and J. D. Morrison.	810,377	Jan. 16	3589	740–2	120	870
Cashiers, registers, and recorders. Keyboard-locking mechanism for mechanical	I. S. Dement and F. J. Hull	813,360	Feb. 20	3674	805–6	120	2373
Casing-spear. Trip	W. H. Kesselman	812,569	Feb. 13	2125	466	120	2000
Cask or vessel for ignitible or explosive liquids or gases	W. Dreyer	813,265	Feb. 20	3669	810	120	2375
Casket-handle	E. R. Sargent	810,088	Jan. 16	2977	621	120	730
Caskets. Canopy-frame for	C. E. Richards	810,569	Jan. 23	4022	838	120	999
Caster. Ball-	J. Wolfe and G. F. Frech	811,467	Jan. 30	5759	1205	120	1408
Caster. Ball-bearing	O. C. Knipe	811,152	Jan. 30	5168	1079	120	1261
Caster. Stove-leg	H. Landis	813,438	Feb. 27	3847	842	120	2468
Casting hollow ware. Mold for	F. D. Cook and G. A. Conrath	813,405	Feb. 27	3775	826	120	2452
Casting machine. Ingot-	J. Illingworth	810,654	Jan. 23	4182	864	120	1035
Casting purposes. Forming molds for	J. G. Weyer	813,605	Feb. 27	4172	.....	120	2642
Catafalque	W. J. Gabryszek	811,495	Jan. 30	5805	1215	120	1417
Catamenial bandage	E. S. Dix	811,704	Feb. 6	327	72	120	1558
Catamenial sack	W. M. Longstreth	813,221	Feb. 20	3401	749	120	2315
Catch. Safety	O. Lamacchia	813,436	Feb. 27	3845	842	120	2468
Catheter. Embalming	H. M. Crippen	812,020	Feb. 6	995	218	120	1691
Cattle-guard	W. D. Linscott	810,064	Jan. 16	2943	613–13	120	731
Cattle-guard	A. Devan	810,326	Jan. 16	3483	720	120	843
Cattle-guard	J. L. Friedman and J. Graham	811,049	Jan. 30	4987	1035	120	1233
Cattle-guard	W. E. Dement	812,984	Feb. 20	2886	644	120	2213
Cattle or stock guard	W. H. Kennedy	813,713	Feb. 27	4376	998–6	120	2585
Cellulose acetate	A. Eichengrün and T. Becker	809,935	Jan. 16	2880	.....	120	667
Cellulose compound and making the same	R. W. Strehlenart and F. Reubold	812,098	Feb. 6	1123	.....	120	1719
Cellulose products. Treatment of maize for the manufacture of	F. L. Stewart	811,534	Jan. 30	5881	.....	120	1439
Cellulose solution	E. W. Friedrich	813,878	Feb. 27	4709	.....	120	2656
Cement and cement construction. Treating	M. Toch	813,841	Feb. 27	4641	.....	120	2643
Cement and making the same. Hydraulic	C. D. Clark	811,902	Feb. 6	705	.....	120	1634
Cement-block machine	M. Eckley	808,643	Jan. 2	45	10	120	12
Cement-block machine	F. B. Dysart	809,262	Jan. 2	1265	262	120	262
Cement-block machine	G. J. Apgar	810,019	Jan. 16	2930	595	120	705
Cement-block machines. Core-cutter for	J. W. Stuart	812,702	Feb. 13	2270	519	120	2040
Cement-block-making machine	B. Poulson	813,112	Feb. 20	3183	698	120	2271
Cement-block-molding machine	R. E. Testa	812,615	Feb. 13	2205	481	120	2015
Cement-brick machine	F. B. Dysart	809,260	Jan. 2	1263	261	120	262
Cement-brick press	H. B. Murdock	809,534	Jan. 9	2041	507–9	120	589
Cement-burning process and apparatus therefor	B. E. Eldred	813,827	Feb. 27	4215	927	120	2551
Cement-construction-block mold	M. M. Robertson	810,362	Jan. 16	3621	745	120	875
Cement-fence-post mold	G. H. Terry	811,875	Feb. 6	270	61	120	1546
Cement-fence-post-molding machine	B. H. McMillan, W. C. Johnson, and F. M. Collord.	812,767	Feb. 13	2491	547–9	120	2071
Cement-kiln	T. A. Edison	812,890	Feb. 27	3946	885	120	2482
Cement-kiln heat-recuperator	C. Ellis	812,788	Feb. 13	2528	555	120	2080
Cement-kiln heat-regenerator	C. Ellis	812,680	Feb. 27	4223	926	120	2563
Cement-kiln. Oscillating	B. E. Eldred	812,824	Feb. 20	2883	878	120	2148
Cement or plastic block molding press	C. A. Meyers	811,623	Jan. 30	5691	1191–2	120	1393
Cement-post truss	L. Clark	810,717	Jan. 23	4388	883	120	1089
Cement. Production of	B. Grau	813,986	Feb. 27	4574	.....	120	2601
Cement-tile machine	F. B. Dysart	809,261	Jan. 2	1264	261	120	262
Cementing-machine	W. F. Lautenschlager	810,878	Jan. 16	3589	736–7	120	865
Centerless engine	W. H. Blodgett and W. E. Miller	811,669	Feb. 6	297	63	120	1641
Centrifugal machine	E. H. Dutcher	813,282	Feb. 20	3511	774	120	2329
Centrifugal machine	A. Freitag	813,993	Feb. 27	4699	1077	120	2609
Centrifugal machines. Means for hanging overdriven	G. Dinkel	812,824	Feb. 6	1020	239	120	1722
Centrifugal machines. Speed-controlling mechanism for	E. H. Dutcher	813,283	Feb. 20	3513	775	120	2330
Ceramic ware. Burning	B. E. Eldred	810,044	Jan. 16	2929	595	120	716
Chain	S. Schlegall	809,015	Jan. 2	778	168	120	171

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drs.	Official Gazette. Vol.	Official Gazette. Page.
Chain	J. M. Joyce	809,113	Jan. 2	984	203	120	217
Chain. Detachable-link	A. D. Morris	813 229	Feb. 20	3412	752	120	2317
Chain. Drive-	W. H. Gates	811,701	Jan. 30	5627	1178	120	1351
Chain. Extensible	E. C. Gipe	811,054	Jan. 30	4986	1037	120	1240
Chain-hook	F. Krämer	813,386	Feb. 20	3725	819	120	2383
Chain-links. Forming helices for	I. D. Weaver	809,412	Jan. 9	1641	337	120	304
Chain-links. Manufacture of helices for	I. D. Weaver	809,413	Jan. 9	1642	337–8	120	304
Chain sling and trip	W. E. Cage	813,277	Feb. 20	3495	770	120	2335
Chair:							
See Motor-chair. Revolving and reclining chair. Rail-joint chair. Stair-chair. Reclining-chair.							
Chair	H. H. Hoover	809,061	Jan. 2	863	183	120	191
Chair	J. E. Hanger	809,944	Jan. 16	2674	552	120	673
Chair adjusting-screw. Revolving	H. G. Hunn	808,927	Jan. 2	603	132	120	133
Chair attachment	V. M. Hollyday	810,277	Jan. 16	3379	699	120	821
Chair attachment. Reclining	M. Faas	811,138	Jan. 30	5141	1074	120	1275
Chair-legs for rockers. Machine for shaping	H. L. Staley	812,461	Feb. 13	1893	417–18	120	1952
Chair-seat	V. A. Taylor	811,259	Jan. 30	5386	1123	120	1330
Chair tip. Rocking	T. Lynch	810,957	Jan. 30	4796	997	120	1202
Chairs. Protective attachment for infants' high	J. Kugel	811,933	Feb. 6	798	176	120	1651
Chandelier	W. J. Peterson	810,429	Jan. 23	3732	769	120	933
Chandelier. Extension gas-	W. E. Cotton and L. C. Moor	812,549	Feb. 13	2093	459	120	1993
Change-making machine	T. S. Wilkes	812,160	Feb. 6	1275	279–81	120	1749
Charging-machine	A. L. J Queneau	813,022	Feb. 20	2908	660	120	2229
Check-loop	W. C. Ladd	808,850	Jan. 2	437	96	120	97
Checkrein	W. Williamson	808,961	Jan. 2	686	149	120	152
Checkrein attachment	P. J. Higgins	810,336	Jan. 16	3503	722	120	848
Cheese-cutter	J. A. McCombs	810,214	Jan. 16	3242	671	120	791
Cheese-cutter. Computing	F. P. Dunn	810,043	Jan. 16	2887	596	120	718
Cheroot-machine	G. P. Louise and C. H. Hensley	812,260	Feb. 13	1562	341	120	1882
Chess-recorder	J. R. Schmitt	809,460	Jan. 9	1760	361	120	418
Chimney-cap	L. R. Babu	810,899	Jan. 30	4664	971–3	120	1172
Chimney-holder	A. E. Colegrove and S. Reed	811,764	Feb. 6	427	94	120	1579
Chlorate-powder	A. R. Cooper	809,780	Jan. 9	2354	486	120	550
Chlorid. Making stannic	C. E. Mathews	811,941	Feb. 6	817		120	1655
Chlorid. Making stannous	C. E. Acker	810,454	Jan. 23	3794	780	120	948
Chopper:	C. E. Acker	810,455	Jan. 23	3797	780	120	949
See Cotton-chopper.							
Chronometer-escapement	A. Brown	808,631	Jan. 2	21	5–6	120	7
Chuck	W. Mason	810,782	Jan. 23	4421	917–18	120	1087
Chuck. Drill-	C. Gordon	809,205	Jan. 9	1378	280	120	339
Chuck. Drill-	F. J. Hoenscheid	811,722	Feb. 6	352	78	120	1564
Chuck. Drill-	T. James	813,151	Feb. 20	3209	718	120	2288
Churn	H. L. Colt	813,864	Feb. 27	4685	1035	120	2652
Churn	F. Swallow	809,031	Jan. 2	800	173	120	177
Churn	D. Ayers and J. D. Sloan	809,889	Jan. 9	2540	527	120	592
Churn	E. W. Turner	810,688	Jan. 23	4238	878	120	1047
Churn	J. G. Smith	811,102	Jan. 30	5045	1055	120	1256
Churn	J. W. Dowden	812,190	Feb. 13	1374	298–9	120	1839
Churn	W. L. Pool	812,592	Feb. 13	2172	475	120	2008
Churn	J. F. Mangan	813,563	Feb. 27	4100	899	120	2527
Churn and cream-whipper. Combination	S. S. Hitchcock	813,497	Feb. 27	3954	869	120	2496
Churn. Butter-	C. M. Runyan	813,326	Feb. 20	3613	792	120	2350
Churn-cover	J. C. Hogue	812,586	Feb. 13	2122	465	120	1999
Churn-dasher	W. L. Hart	808,742	Jan. 2	247	53	120	57
Churn-operating mechanism	H. L. Busch	812,819	Feb. 20	2595	570	120	2140
Churns, pumps, &c. Motor for	J. H. Skinner	812,489	Feb. 13	1891	417	120	1952
Churning apparatus	C. Y. McCardle and S. N. Davis	813,732	Feb. 27	4407	972	120	2592
Cigar	C. F. Zenker	809,182	Jan. 2	1063	231	120	233
Cigar-branding machine	B. Liberman	811,071	Jan. 30	4904	1042	120	1245
Cigar-bunching device	N. Thisen	809,758	Jan. 9	2306	478	120	540
Cigar-bunching machine	B. N. Berman and A. Harris	813,706	Feb. 27	4469	987	120	2605
Cigar-clipper and match-safe	V. H. Paradis and J. B. Putrow	810,801	Jan. 23	4457	926	120	1094
Cigar cutter and lighter. Combined	W. H. Crawford	809,782	Jan. 9	2357	487	120	551
Cigar for asthma	A. Mendelsohn	811,942	Feb. 6	817	179	120	1656
Cigar-machine	W. S. Luckett	809,384	Jan. 9	1571	320	120	378
Cigar-machines. Wrapper-support for	O. Tyberg	811,108	Jan. 30	5081	1059	120	1259
Cigar retainer and cutter	S. P. Miller	812,064	Feb. 6	1062	231	120	1705
Cigars, cigarettes, cigar-fillers, &c. Machine for the manufacture of	M. Van Gilpen	809,410	Jan. 9	1635	333–6	120	308
Cigarette-holder	W. Durand	813,366	Feb. 20	3920	811	120	2376
Cigarette-machine	F. F. Anderson	811,118	Jan. 30	5081	1062	120	1263
Cigarettes. Appliance for cutting off and creasing	F. J. Ludington	808,851	Jan. 2	437	97	120	97
Cigarettes. Machine for making all-tobacco	A. H. Randall, Jr	812,153	Feb. 6	1250	271–5	120	1745
Cinder or slag. Chilling	F. K. Hoover and A. J. Mason	810,865	Jan. 23	4574	962	120	1120
Cinder or slag chilling apparatus	F. K. Hoover and A. J. Mason	810,864	Jan. 23	4572	961	120	1119
Circuit-controller	R. Varley	808,967	Jan. 2	678	147–8	120	160
Circuits. Switch or circuit-breaker for high-potential	E. W. Rice, Jr	812,880	Feb. 20	2717	598–9	120	2167
Clamp:							
See Cord-clamp. Rope-clamp. Dental clamp. Set-clamp. Eaves-trough clamp. Tent-clamp. Hose-clamp. Tool-clamp. Insulator-clamp. Trolley-wire clamp. Pipe-clamp.							
Clamp	E. R. Wingate	808,708	Jan. 2	163	37	120	37
Clamp	P. F. Deming	808,731	Jan. 2	223	47	120	51
Clamp	J. Wrigley	809,883	Jan. 9	2530	525	120	590
Clamp	H. A. Krohn	810,542	Jan. 23	3971	818	120	988
Clamp	J. J. Stevens	812,009	Feb. 13	2206	518	120	2045
Clasp.							
See Garment-clasp. Tag-clasp. Rethand-clasp.							
Clasp	I. Steinberg	813,898	Feb. 27	4687	1035	120	2642

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drs.	Official Gazette. Vol.	Official Gazette. Page.
Clay-bin-emptying apparatus	C. W. Raymond	812,230	Feb. 13	1453	317–18	120	1857
Clay products. System and means for drying and burning	R. W. Lyle	812,509	Feb. 13	1987	436–7	120	1971
Cleaner:							
See Boiler-flue cleaner. Pipe-cleaner. Finger-nail cleaner. Sewer-cleaner. Flue-cleaner. Window-cleaner. Household-cleaner.							
Cleaning compound	J. Callahan	810,105	Jan. 16	2012		120	747
Cleaning device	A. P. Trimm	811,001	Jan. 30	4878	1015	120	1220
Cleat and socket	C. M. Waite and C. F. Fralick	811,186	Jan. 30	5238	1096	120	1297
Clevis. Interlocking	N. M. Lien	809,511	Jan. 9	1829	378	120	436
Clevis-irons. Making	W. S. Ward	810,007	Jan. 16	2802	578	120	700
Climbing apparatus	H. Borneman	810,264	Jan. 16	3328	691	120	809
Clinometer	B. Kern, Jr	809,699	Jan. 9	2205	457	120	517
Clip:							
See Cartridge-clip. Rail-clip. Paper-clip. Tube-clip.							
Clock	W. F. Porter	811,324	Jan. 30	5510	1148	120	1356
Clock and money-box. Coin-controlled	H. Giller	812,300	Feb. 13	1393	302–3	120	1843
Clock-movement	S. Golombek	813,644	Feb. 27	4246	933–4	120	2558
Clock. Repeating alarm-	W. E. Porter	809,133	Jan. 2	1017	210	120	224
Clock. Self-winding electric	M. Menkin	813,161	Feb. 20	3281	721–2	120	2291
Clock. Shadow-	R. B. Smith	813,836	Feb. 27	4634	1024–5	120	2642
Closet:							
See Earth-closet. Water-closet. Wall-closet.							
Closet and sink fitting. Combined	J. L. Fruin	809,938	Jan. 16	2654	548	120	668
Closet-bowl seat	J. M. Bryant and J. B. Allen	812,480	Feb. 13	1932	426	120	1960
Closet-tank	F. H. Lindenberg	811,937	Feb. 6	806	177	120	1654
Cloth-cutting machines. Circular knife and retaining-gear for	H. A. Meyer	813,313	Feb. 20	3588	788	120	2354
Cloth-folding machine	W. H. Hacking	813,552	Feb. 27	4076	893	120	2522
Cloth-pressing machine	D. Gessner	810,638	Jan. 23	4158	859	120	1029
Cloth-steaming machine	G. B. Gerlach	810,271	Jan. 16	3372	698	120	819
Cloth winding and measuring machine	J. J. Schofield	813,743	Feb. 27	4427	976–7	120	2596
Clothes-drainer	F. P. Sager	812,884	Feb. 20	2726	600	120	2169
Clothes-frame	C. W. Brode	812,011	Feb. 6	975	213	120	1688
Clothes-line prop	A. J. Campbell	813,947	Feb. 27	4842	1068	120	2684
Clothes-line support	P. J. Sloan	809,094	Jan. 2	790	170	120	174
Clothes-line support	C. F. Miethke and F. J. Mach	812,583	Feb. 13	2154	471	120	2005
Clothes-marking apparatus	J. D. Caldwell and N. A. Sorenson	812,723	Feb. 13	2413	530	120	2055
Clothes-pin	D. R. Rosebrough	808,687	Jan. 2	122	28	120	29
Clothes-pin	A. G. Borneman	810,704	Jan. 23	4267	885	120	1054
Clothes-pin	H. I. Rumfeld and J. R. Donaho	813,589	Feb. 27	4141	907–8	120	2535
Clothes-tongs	F. L. Blomquist	809,244	Jan. 2	1266	257	120	279
Clover-huller feeder	H. Guderian	810,937	Jan. 30	4757	990–1	120	1193
Clutch	R. L. Woodard	808,965	Jan. 2	693	150	120	153
Clutch	J. E. Dobson	811,041	Jan. 30	4947	1033	120	1236
Clutch	I. H. Spencer	812,694	Feb. 13	2350	514	120	2042
Clutch	A. H. Eble and J. H. Nice	813,369	Feb. 20	3695	812	120	2377
Clutch and governor. Friction-	C. Christiansen	811,374	Jan. 30	5600	1170	120	1375
Clutch. Friction-	F. H. Ball	808,622	Jan. 2	9	2	120	4
Clutch. Friction-	H. G. Dittbenner	808,975	Jan. 2	707	153	120	156
Clutch. Friction-	J. F. Wilson	810,516	Jan. 23	3923	806	120	978
Clutch. Friction-	J. D. Maxwell	810,783	Jan. 23	4424	918	120	1087
Clutch. Friction-	A. C. Menges	811,422	Jan. 30	5690	1191	120	1393
Clutch. Friction-	S. C. Anker-Holth	813,706	Feb. 27	3780	826	120	2449
Clutch mechanism	M. G. de Simone	809,331	Jan. 9	1447	293–4	120	352
Clutch mechanism	J. H. B. Bryan	812,817	Feb. 20	2592	569	120	2139
Clutch-operating mechanism	C. L. Reed	810,509	Jan. 23	3902	802	120	974
Clutch. Self-governing	R. E. Wynn	811,352	Jan. 30	5563	1180	120	1387
Clutch. Shaft-	M. Deller	813,969	Feb. 27	4697	1039	120	2654
Coal and like washer	W. E. Winn	811,608	Feb. 6	142	31	120	1516
Coal and like washer	W. E. Winn	811,609	Feb. 6	144	32	120	1516
Coal-cutting-machine feed	F. Eckersley	809,700	Jan. 9	2371	489–90	120	554
Coal-handling plant	W. J. Patterson and L. J. Robb	812,084	Feb. 6	1101	243–3	120	1713
Coal-screen	F. R. Dickey	810,922	Jan. 30	4722	988	120	1185
Coal-washer	G. S. Ramsay	811,871	Feb. 6	639	140	120	1620
Coating device. Moving-train	C. M. Miller	811,425	Jan. 30	5695	1193–5	120	1394
Coat and hat hook	H. E. Collins	811,380	Jan. 30	5614	1174	120	1379
Coated strip and making the same	H. S. Chapman and W. M. Stone	813,618	Feb. 27	4199	922	120	2548
Coatings upon metals. Electrolytic production of lustrous metallic	A. Classen	809,492	Jan. 9	1763		120	438
Cock. Basin-	P. Mueller	809,720	Jan. 9	2346	486	120	536
Cock. Basin-	P. Mueller	810,168	Jan. 16	3123	648	120	709
Coffee-cooler	H. Hager	810,140	Jan. 16	3098	637	120	700
Coffee cooler and stoner	W. Dean	813,955	Feb. 27	4832	1072	120	2686
Coffee, malt, &c. Roasting apparatus for	M. Boof	813,374	Feb. 20	3401	769	120	2384
Coffee-pot	M. M. De Grody	808,720	Jan. 2	222	47	120	51
Coffee-pot attachment	R. F. Randall and E. V. Peirson	812,227	Feb. 20	2488	755	120	2220
Coffee-roasting machine	F. T. Holmes	812,288	Feb. 13	1540	335–6	120	1877
Coffin drop-handle	G. A. Schehr	809,467	Jan. 9	1747	361	120	418
Coil-spring	E. Hogan	810,149	Jan. 16	3097	630	120	702
Coiling-machine	M. C. Lovejoy	809,269	Jan. 2	1221	249	120	291
Coin collecting and carrying device	M. Kohn	810,849	Jan. 23	4185	865	120	1036
Coin-controlled apparatus	A. T. Hallock	810,856	Jan. 23	4546	947	120	1115
Coin-controlled apparatus	F. J. Dole	812,331	Feb. 13	1988	384	120	1988
Coin-holding box	R. H. Forsyth	810,742	Jan. 23	4330	900	120	1088
Coin separating, counting, and stacking device	C. F. Hess	811,589	Feb. 6	41	9–10	120	1493
Coin sorting or separating apparatus	B. Cranner	812,337	Feb. 13	1949	383	120	1991
Coin-tray	E. J. Brandt	811,197	Jan. 30	5357	1102	120	1328
Coins and the like. Apparatus for delivering or counting	L. Weinreb and L. A. Rabinowitch	812,634	Feb. 13	2230	495	120	2038
Coke-drawing machine	D. A. Ramage	812,264	Feb. 13	1708	375	120	1915
Coke-handling apparatus	G. G. Fryer	808,741	Jan. 2	289	52	120	54

Invention.	Name.	No.	Date.	Monthly volume.		Official Gazette.	
				Spec.	Drg.	Vol.	Page.
Coke-oven cover	A. H. Walstrom	809,344	Jan. 9	1476	289	120	361
Collapsible box	W. N. Sewell	810,574	Jan. 23	4081	830	120	1001
Collapsible reel	A. Billstein	811,898	Feb. 6	701	153	120	1633
Collapsible reel	A. Billstein	811,899	Feb. 6	701	153	120	1633
Collapsible table	W. L. Broadwell	809,170	Jan. 2	1077	234-5	120	236
Collar	F. W. Parsons	809,009	Jan. 2	767	165	120	169
Collar and cuff shaper	G. E. Norris	810,076	Jan. 16	2358	617	120	735
Collar-blank-assembling machine	W. M. Barnes	811,130	Jan. 30	3026	1063	120	1294
Collar fastener. Horse-	H. C. Miller	813,908	Feb. 27	4798	1082-3	120	2070
Collar fastening. Horse-	J. C. Clausen	813,863	Feb. 27	4684	1085	120	2052
Collar for draft-animals	P. Guindollet	811,714	Feb. 6	341	75	120	1502
Collar-foundation	F. Leinen	812,430	Feb. 13	1843	404	120	1941
Collar. Horse-	D. Potts	812,576	Feb. 20	2709	597	120	2165
Collar. Horse-	G. W. Hahn	809,208	Jan. 9	1281	280	120	330
Collar-protector	C. L. Allen	809,886	Jan. 9	2535	526	120	591
Collar-supporter	J. F. Connell	808,816	Jan. 2	380	82	120	84
Collar-supporter. Adjustable	O. G. and B. L. Goodman	812,127	Feb. 6	1181	259	120	1730
Collecter-ring	F. S. Reynolds	811,326	Jan. 30	5513	1140	120	1357
Colter standard and fork attachment. Rolling-	H. G. Reist	809,220	Jan. 2	1191	244	120	283
Column	P. A. Shanklin	811,447	Jan. 30	5724	1199	120	1400
Column	A. H. Flowers	812,023	Feb. 6	1015	221	120	1695

Coupling device. Wire and Manila rope	H. Downs and W. C. Wally	813,412	Feb. 13	1818	397	120	1936
Covered box	J. Bergoff	810,801	Jan. 30	4670	972-4	120	1179
Covering. Figured	L. W. Beaver	812,531	Feb. 13	2040	.....	120	1989
Crane	W. B. Erskine	809,474	Jan. 9	2169	447	120	507
Crane-locking device	J. R. Whittemore	809,683	Jan. 9	1781	367-8	120	625
Crane-locking mechanism	J. R. Whittemore	809,682	Jan. 9	1779	367	120	624
Crane mechanism	J. R. Whittemore	809,681	Jan. 9	1778	366-7	120	624
Crane. Window-	T. E. French	809,104	Jan. 2	980	201	120	214
Cranes. Safety locking device for	C. E. Hinchman	812,888	Feb. 13	2110	464-5	120	1988
Crank	W. R. Kahlenberg	812,208	Feb. 13	1668	368	120	1949
Crank-dish. Adjustable	L. G. Mitstedt	811,436	Jan. 30	5660	1182	120	1386
Crank. Variable-stroke	J. G. Callan	812,636	Feb. 13	2262	489	120	2026
Crate	W. H. Richmond	809,226	Jan. 9	1441	295	120	321
Crate	D. Gibbs	810,373	Jan. 16	3372	695	120	859
Crate. Banana-	H. Ross	812,689	Feb. 6	1111	249	120	1715
Crate. Bottle-	R. M. Harrower	813,699	Feb. 27	4253	943	120	2550
Crate. Folding egg-	A. D. Imrie	810,383	Jan. 16	3391	701-2	120	874

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Crate for transporting poultry	F. M. Gault	809,559	Jan. 9	1919	308–9	120	455
Crate. Fruit-	J. Shellenberger	811,449	Jan. 30	5729	1200	120	1401
Crate. Knockdown	J. M. Divan	810,369	Jan. 16	3573	734–5	120	864
Crate-nailing-up form	J. Shellenberger	811,448	Jan. 30	5726	1199	120	1401
Crate. Shipping-	F. Sochurek, Sr.	809,854	Jan. 9	2483	516	120	580
Crate. Shipping-	J. H. Bubar	813,944	Feb. 27	4838	1068	120	2683
Crate. Slatted	H. N. Backus	811,023	Jan. 30	4916	1025	120	1226
Cream cooler and aerator	M. Mortensen	809,125	Jan. 2	1000	206	120	220
Cream-separator	J. W. Hinkley	809,442	Jan. 9	1697	349	120	406
Cream-separator. Centrifugal	E. W. Broomall	809,355	Jan. 9	1499	304	120	365
Croquet apparatus	G. W. Griswold	810,853	Jan. 23	4542	946	120	1114
Cross-bearer	A. E. Ostrander	809,732	Jan. 9	2265	469–70	120	530
Cross-bearer	A. E. Ostrander	809,733	Jan. 9	2266	470	120	530
Cross-bearer	A. E. Ostrander	809,734	Jan. 9	2268	470	120	531
Cross-bearer	A. E. Ostrander	809,735	Jan. 9	2270	470	120	532
Cross-head and cross-head guide	J. E. Hooley	812,745	Feb. 13	2449	537	120	2053
Cross-tie and means for holding track-rails thereon	E. A. Gilchrist	813,205	Feb. 20	3361	739	120	2307
Crucible-furnace	E. Hausmann	811,219	Jan. 30	5306	1109	120	1312
Crucible-shaker	W. S. Mather	813,658	Feb. 27	4277	940–1	120	2564
Crusher: *See* Ice-crusher.							
Crusher	P. L. Simpson	811,671	Feb. 6	267	58–9	120	1543
Crushers and pulverizers. Cage for	M. F. Williams	811,679	Feb. 6	282	63	120	1547
Cuff-fastening	H. C. Shepherd	812,603	Feb. 13	2193	478	120	2012
Cuff-holder	H. C. Frank	811,210	Jan. 30	5289	1106	120	1308
Culinary vessel	A. W. Obermann	812,590	Feb. 13	2168	474	120	2006
Culinary-vessel attachment	W. Sowerby	810,817	Jan. 23	4479	931	120	1099
Cultivator	H. S. Swanson	809,335	Jan. 9	1457	295	120	354
Cultivator	J. J. Green	809,942	Jan. 16	2666	550	120	672
Cultivator	J. M. Donaldson	811,133	Jan. 30	5133	1072–3	120	1274
Cultivator	S. E. Ballor	811,897	Feb. 6	696	152–3	120	1632
Cultivator	C. Pressler	812,678	Feb. 13	2325	507	120	2037
Cultivator and seed-drill. Interchangeable	J. B. Smiley	809,025	Jan. 2	792	171	120	175
Cultivator attachment	W. H. Mitchell	812,945	Feb. 20	2854	629	120	2199
Cultivator replanting attachment	W. J. Scherer	812,239	Feb. 13	1466	321–2	120	1860
Cultivator shield attachment	H. H. Dennis	810,628	Jan. 23	4140	855	120	1025
Cultivator. Single-row	H. S. Swanson	809,336	Jan. 9	1460	295–6	120	356
Culvert. Road-	W. Isham and F. E. Miller	809,304	Jan. 9	1393	283	120	342
Cup: *See* Oil-cup.							
Curette. Finger-	M. J. C. Leuchs	809,119	Jan. 2	993	205	120	219
Current machine. Alternating-	M. C. A. Latour	811,304	Jan. 30	5471	1141	120	1348
Current machine. Electric alternating-	K. A. Lindström	809,706	Jan. 9	2216	460	120	519
Current machinery. Alternating-	A. S. McAllister	809,835	Jan. 9	2448	509	120	570
Current-motor	J. Rauscher	810,083	Jan. 16	2969	619–20	120	737
Current-motor	A. Wiebke and R. E. Gruwell	810,314	Jan. 16	3459	714–15	120	888
Current motor. Alternating-	M. Déri	809,787	Jan. 9	2367	488	120	553
Current motor. Alternating-	B. G. Lamme	811,231	Jan. 30	5330	1113–14	120	1317
Current motor. Single-phase alternating-	B. G. Lamme	811,644	Feb. 6	218	46	120	1533
Current motors. Starting-compensator for alternating-	E. F. Gehrkens	809,677	Jan. 9	2167	448	120	508
Curtain-fastener	J. Schneider	809,140	Jan. 2	1027	212	120	225
Curtain-fixture	C. E. Dunn	810,268	Jan. 16	3358	696	120	816
Curtain-fixture	C. L. Hopkins	810,278	Jan. 16	3380	700	120	821
Curtain-fixture	F. A. Houghtaling	810,281	Jan. 16	3387	701	120	822
Curtain-fixture	J. Cramer	813,865	Feb. 27	4586	1036	120	2552
Curtain-hanger	R. J. Cummings	810,726	Jan. 23	4311	895	120	1063
Curtain hook. Vestibule-	H. Springer	809,904	Jan. 16	2768	569	120	698
Curtain-pole and shade-roller support. Combined	E. B. French	811,629	Feb. 6	197	42	120	1528
Curtain-stretcher	F. M. Haynes	809,684	Jan. 9	2180	451	120	512
Cushion: *See* Air-cushion. Seat-cushion.							
Cushion-spring	W. R. Smith	813,244	Feb. 20	3437	757	120	2323
Cushion-stuffing machine	A. L. and F. C. Roop	811,095	Jan. 30	5093	1051–2	120	1254
Cut-off. Automatic	E. G. and J. R. Rose	809,749	Jan. 9	2293	475	120	537
Cut-off socket	D. H. Haywood	808,656	Jan. 2	72	15	120	18
Cut-off socket	O. Saugstad	808,689	Jan. 2	123	29	120	30
Cut-out. Transformer	J. P. Hetherington	809,302	Jan. 9	1367	281–3	120	341
Cutter: *See* Band-cutter. Butter-cutter. Cheese-cutter. Cigar-cutter. Corn-cutter. Dado-cutter. Fodder-cutter. Kraut-cutter. Meat-cutter. Pipe-cutter. Potato-cutter. Rope-cutter. Rotary cutter. Sewing-machine thread-cutter. Weed-cutter.							
Cutter-head for wood-shapers	E. Wismar	811,662	Feb. 6	286	64	120	1548
Cutter-head gage	E. A. Walker	809,087	Jan. 2	810	175	120	179
Cutting and measuring machine	A. P. Sweeny	811,338	Jan. 30	5534	1154–5	120	1361
Cutting and running knife	W. Brower	812,325	Feb. 13	1647	362	120	1901
Cutting and slotting apparatus	S. H. Richardson	810,510	Jan. 23	4470	929	120	1097
Cutting mechanism	F. E. Strasburg	810,993	Jan. 30	4992	1012–13	120	1216
Cutting mechanism	W. A. Sylvester	813,266	Feb. 27	4156	911	120	2538
Cyanid-solution agitator	H. P. Smith and F. J. Hobson	812,460	Feb. 13	1992	417	120	1952
Cycle-fork	K. Ballod	813,937	Feb. 27	4628	1065	120	2681
Cycle transmission mechanism. Motor-	L. C. G. Rivière	811,327	Jan. 30	5514	1149	120	1357
Cycles and other vehicles. Cushion-fork for motor-	W. G. Schaeffler	811,250	Jan. 30	5370	1121	120	1327
Cycles. Brake for the hubs of	W. and A. Chamberlain	811,617	Feb. 6	162	36	120	1530
Cylinder-lapper	L. P. Pederson	813,579	Feb. 27	4128	904	120	2532
Cylinder-reamer	E. Wismar	811,661	Feb. 6	285	63	120	1548
Dairy products. Suction apparatus for	C. M. Taylor, Jr.	809,861	Jan. 9	2496	519	120	582
Dam, retaining-wall, or breakwater	J. S. Fielding	813,695	Feb. 27	4343	986	120	2578
Dampener for sheet feeds or separators	C. G. Harris	811,843	Feb. 6	566	126	120	1609
Damper. Automatic	W. H. H. Morelock	813,238	Feb. 20	3411	752	120	2317
Damper-operating mechanism	C. McPherson	810,071	Jan. 16	2983	615	120	784

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Damper. Pipe-	H. Whitham	813,188	Feb. 20	3332	733	120	2302
Damper-regulator	E. B. Rayner	813,669	Feb. 27	4292	945	120	2568
Damper. Time-controlled	S. B. Brown	808,806	Jan. 2	548	121	120	121
Dandy-roll	J. R. Sinclair	813,835	Feb. 27	4632	1024	120	2641
Danger-signal	W. C. Creveling	811,037	Jan. 30	4940	1031	120	1234
Davenport and bed. Combined	A. M. Padmore	813,233	Feb. 20	3419	753–4	120	2319
Davit. Ship's	J. W. Groff	810,854	Jan. 23	4543	946	120	1114
Davits. Attachment for boat-	N. Murchison	812,089	Feb. 6	1071	234	120	1707
Decorating device	J. Gruber	811,393	Jan. 30	5630	1179	120	1382
Decorative process	A. Kummerow	813,720	Feb. 27	4389	968	120	2588
Decorticator	F. Holtzhausen	812,041	Feb. 6	1023	223	120	1696
Decoy	W. W. Cram	811,036	Jan. 30	4939	1031	120	1234
Decoy	C. A. Samuell	811,587	Feb. 6	106	23	120	1508
Decoy	F. J. Johnston	812,499	Feb. 13	1970	433	120	1967
Decoy-duck-tethering device	C. A. Samuell	811,586	Feb. 6	106	23	120	1508
Degreasing substances. Apparatus for	H. Roseke	810,223	Jan. 16	3259	675–6	120	795
Dental and surgical lamp	C. F. Rodgers	811,442	Jan. 30	5719	1196	120	1399
Dental and surgical obtunder	W. L. Moore and E. L. Hutchinson.	811,864	Feb. 6	629	137	120	1618
Dental can	W. Brush	811,370	Jan. 30	5593	1168	120	1374
Dental clamp	E. L. Hutchinson	811,848	Feb. 6	596	130	120	1610
Dental compress	N. L. Burke	811,479	Jan. 30	5776	1209	120	1411
Dental-flask handle	T. G. Lewis	808,935	Jan. 2	614	134	120	136
Dental furnace. Portable	F. S. Belyea	812,395	Feb. 13	1782	390	120	1929
Dental handpieces. Slip-joint connection for	E. E. Smith and H. F. Jones	813,178	Feb. 20	3315	729	120	2298
Dental-instrument holder	J. W. Ivory	812,567	Feb. 13	2122	465	120	1999
Dental matrix	W. Crenshaw	812,328	Feb. 13	1651	363	120	1902
Dental obtunder	W. F. Blasingame	810,611	Jan. 23	4113	849	120	1019
Dental-silk box	O. C. Schulz	808,690	Jan. 2	125	29	120	30
Dental tool	A. W. Feltmann	809,365	Jan. 9	1525	309	120	370
Dental tool for removing crown-pins	G. T. Carpenter	812,976	Feb. 20	2913	642	120	2210
Dentistry. Grinding stone and disk employed in mechanical and operative	H. Sanford-Burton	813,348	Feb. 20	3651	800	120	2367
Denture. Artificial	J. M. Card	810,712	Jan. 23	4285	890–1	120	1058
Denture. Artificial	J. M. Card	810,713	Jan. 23	4287	891	120	1058
Denture. Artificial	J. M. Card	810,842	Jan. 23	4519	941	120	1108
Derrick	W. J. Newman	810,556	Jan. 23	3997	823	120	994
Derrick	J. S. Allen, Jr.	810,691	Jan. 23	4241	878–9	120	1048
Derrick and concrete-mixer. Combined	J. L. Parsons, Jr.	811,243	Jan. 30	5351	1117	120	1322
Derrick. Log-	H. Combs	813,352	Feb. 20	3660	802	120	2369
Derrick-table. Self-feeding	V. Winn	812,106	Feb. 6	1143	251	120	1721
Designs on bricks, &c. Apparatus for the production of line	C. W. Schou	813,592	Feb. 27	4145	908–9	120	2536
Desk appurtenance	A. Kayser	812,501	Feb. 13	1974	433	120	1968
Desk-pad	I. Smigel	811,334	Jan. 30	5528	1152	120	1360
Desk-table	H. Johnson	809,376	Jan. 9	1545	314	120	374
Developing-machine	W. M. Towers and H. S. Harrington.	810,234	Jan. 16	3286	680	120	801
Dial-lock	L. A. Druehl	809,556	Jan. 9	1916	398	120	454
Dial-transmitter	C. F. Pearce	811,950	Feb. 6	528	182–4	120	1658
Diamond	E. G. H. Schenck	809,531	Jan. 9	1866	387	120	444
Diamond-drill	J. H. O'Donnell	810,503	Jan. 23	3889	799	120	971
Diamond-drill and burnishing-lathe	J. H. O'Donnell	810,504	Jan. 23	3891	799	120	972
Diaper. Infant's	W. R. Way	810,689	Jan. 23	4239	878	120	1047
Die: *See* Screw-connecting die.							
Die-press	C. L. McBride	812,263	Feb. 13	1566	343	120	1883
Die-stock	H. W. Oster	812,870	Feb. 20	2700	595	120	2164
Die-stock. Adjustable	B. Borden	812,398	Feb. 13	1787	391	120	1930
Dies for die-stocks. Machine for cutting	H. W. Oster	809,007	Jan. 2	764	165	120	168
Digger: *See* Potato-digger.							
Dilator	G. F. Richter	810,675	Jan. 23	4215	872	120	1042
Dioxypyrimidin. Making 4-imino-2-6-	M. Conrad and W. Beckh	811,826	Feb. 6	546		120	1601
Disappearing seat	C. K. Pickles	808,679	Jan. 2	108	25	120	26
Diseased tissues. Apparatus for treating	A. Cioli and R. A. Case	808,535	Jan. 2	29	7	120	9
Dish-washing machine	J. D. McElroy	811,735	Feb. 6	374	82	120	1568
Disinfecting-apparatus dropper	W. H. Rose	809,014	Jan. 2	777	167	120	171
Disinfecting compound	M. J. Manix	811,074	Jan. 30	5000		120	1246
Disinfecting device for sink-drains	A. and A. B. Pattenden	810,973	Jan. 30	4826	1008	120	1208
Disintegrating-machine	M. F. Williams	813,190	Feb. 20	3334	738	120	2302
Disintegrating-machine	J. W. Hyatt	813,200	Feb. 20	3547	782	120	2346
Disk drill	H. C. Ham	810,858	Jan. 23	4551	947–8	120	1115
Dispensing apparatus	E. Talbert	813,037	Feb. 20	3010	663	120	2221
Dispensing-cabinet	S. Wheeler	810,100	Jan. 16	3004	626	120	746
Dispensing device	G. L. Belcher	809,419	Jan. 9	1656	340	120	396
Display box. Fruit-	G. F. Miller	811,551	Feb. 6	327	69	120	1535
Display case. Sample-	A. Jelliffe	809,445	Jan. 9	1704	351	120	408
Display case. Sample-	G. F. Biggs	810,026	Jan. 16	2844	587	120	706
Display device for millinery articles	H. Silberman	809,780	Jan. 9	2309	478	120	540
Display device. Jewelry-	M. Herz	812,208	Feb. 13	1307	304	120	1844
Display-easel. Magazine	J. H. Howe	813,426	Feb. 27	3824	837	120	2462
Display fixture. Shoe-	F. Minor	810,425	Jan. 23	3726	768	120	932
Display-form	G. Galland	812,988	Feb. 20	2920	645	120	2214
Display-hanger	G. D. Dial	809,389	Jan. 9	1507	305	120	367
Display-mirror	W. V. D. Kelley	809,698	Jan. 9	2203	456	120	516
Display-rack	C. G. Herder	811,720	Feb. 6	349	77	120	1564
Display-rack	F. E. Bowyer	812,396	Feb. 13	1783	380	120	1929
Display-rack carriage	W. Catlin and M. McMillan	810,909	Jan. 30	4683	977	120	1175
Display rack. Hat-	C. Koehler	810,421	Jan. 23	3721	767	120	930
Display rack or stand	H. M. Willis	808,962	Jan. 2	686	149	120	182
Display-stand	P. M. Ward	810,239	Jan. 23	4406	905	120	1138
Display-tray	J. J. Hoffmann	812,989	Feb. 20	2951	650	120	2218
Display trunk. Couch-	T. E. O'Brien	811,667	Feb. 6	240	52	120	1537
Displaying advertising bills, pictures, &c. Frame and board for	A. Emett	812,415	Feb. 13	1819	398	120	1936
Distilling and condensing	J. S. Forbes	808,649	Jan. 2	56	12	120	15

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Distilling benzin and the like. Apparatus for continuously	A. H. L. Gerhardt	810,637	Jan. 23	4155	886	120	1036
Distilling wood and obtaining therefrom the different by-products. Apparatus for	W. W. and T. L. James	813,202	Feb. 20	3554	788	120	2347
Distributer for finely-divided substances	A. Cohenctus	810,107	Jan. 16	3014	628	120	747
Ditcher and road-grader	J. D. Martin	810,874	Jan. 23	4591	965-6	120	1123
Dividers. Self-centering	C. Amendt	809,887	Jan. 9	2636	526	120	591
Diving apparatus	T. Iwanami and M. R. Woodward	812,431	Feb. 27	3830	838-9	120	2463
Dolly. Pneumatic	J. A. Shepard	813,921	Feb. 27	4792	1058	120	2675
Door	N. P. Sjobring	809,145	Jan. 2	1094	214	120	227
Door	J. D. Dobelman	810,926	Jan. 30	4724	988	120	1186
Door-bolt	E. W. Cunningham	810,918	Jan. 30	4715	984	120	1184
Door-bolt and means for operating the same	W. B. Morewood	808,672	Jan. 2	98	22	120	24
Door boltwork. Circular-	J. E. Casserly	811,695	Feb. 6	320	69	120	1556
Door boltwork. Circular-	J. E. Casserly	811,696	Feb. 6	321	70	120	1556
Door boltwork. Circular-	J. E. Casserly	811,697	Feb. 6	321	70	120	1557
Door boltwork. Circular-	J. E. Casserly	811,698	Feb. 6	322	70	120	1557
Door boltwork. Circular-	J. E. Casserly	811,699	Feb. 6	323	70	120	1557
Door boltwork. Circular-	J. E. Casserly	811,700	Feb. 6	323	71	120	1557
Door boltwork. Circular-	J. E. Casserly	811,701	Feb. 6	324	71	120	1558
Door-check	L. Audrieth	810,021	Jan. 16	2833	586	120	706
Door-check	C. I. Parker and P. Papenfoth	813,111	Feb. 20	3182	698	120	2271
Door check and closer	W. K. Henry	810,411	Jan. 23	3700	762	120	926
Door check and closer	N. W. Crandall	812,829	Feb. 20	2620	573-4	120	2146
Door check and closer	E. L. Eldridge	813,693	Feb. 27	4330	955	120	2577
Door check or fastener	C. N. P. Ingalls	809,062	Jan. 2	864	183	120	191
Door. Combined storm and screen	J. Abrim	813,271	Feb. 20	3487	660	120	2234
Door-frame, door, and adjunctive mechanism for air-tight compartments	S. P. Stevenson	812,377	Feb. 13	1738	381	120	1921
Door. Grain-	J. E. Drake	810,287	Jan. 16	3357	696	120	815
Door. Grain-	R. R. Tichenor	810,893	Jan. 23	4644	966	120	1133
Door-hanger	M. Cossey	809,781	Jan. 9	2355	486	120	550
Door-hanger	J. H. Lawrence	812,346	Feb. 13	1680	369	120	1908
Door-hanger	J. H. Lawrence	812,347	Feb. 13	1682	370	120	1909
Door-hanger	R. B. Browne	813,309	Feb. 27	3765	827	120	2450
Door-holder	J. Becker	812,476	Feb. 13	1921	423	120	1958
Door-jamb. Adjustable	J. R. Corbin	813,690	Feb. 27	4334	953	120	2576
Door-lock	C. F. Fringer	809,610	Jan. 9	2083	421	120	478
Door-lock	T. Weisser	811,013	Jan. 30	4903	1022	120	1228
Door lock. Grain-	J. Feuchet	812,839	Feb. 20	2840	577	120	2150
Door-locking mechanism. Prison-	G. J. Carter	812,637	Feb. 13	2263	489-90	120	2023
Door or shutter and means for operating the same. Rolling	J. Cahill	812,722	Feb. 13	2411	528-9	120	2064
Door-releasing mechanism	E. Kauntze	812,300	Feb. 13	1973	433	120	1968
Door-securer	K. Anderson and L. Pederson	810,692	Jan. 23	4244	879	120	1049
Door. Sliding hinged grain-	K. Oesl	810,557	Jan. 23	3998	823-4	120	994
Door stop and retainer	D. J. Taylor	813,927	Feb. 27	4805	1060	120	2677
Door support. Sliding-	L. Holmer	808,749	Jan. 2	256	55	120	59
Door wings. Device for hanging revolving-	J. Wendler	812,907	Feb. 20	2767	609	120	2178
Doors, &c. Device for securing	C. G. Taylor	811,594	Feb. 6	118	26	120	1511
Doors. Metallic frame for revolving	T. Van Kannel	813,602	Feb. 27	4162	913-14	120	2540
Doors. Pneumatic lifting means for grain-	T. E. Branson	811,690	Feb. 6	301	67	120	1552
Dop	P. H. Farrell	812,836	Feb. 20	2636	576	120	2149
Doubletree and whiffletree coupling	G. E. Rumrill	812,093	Feb. 6	1116	246	120	1716
Doubletree-hitch	J. H. Cook	813,080	Feb. 20	3030	667	120	2225
Dough dividing and sealing machine	R. Hohnbach, Jr., and W. Leitel	809,443	Jan. 9	1699	349	120	406
Dough-raiser	W. H. Hollander	811,781	Feb. 6	456	99	120	1585
Dowel	P. L. E. Drolshagen	809,177	Jan. 2	1081	227	120	240
Doweling-machine	J. L. Lovett	809,069	Jan. 2	878	186	120	193
Draft appliance	A. McNeil	809,318	Jan. 9	1431	289	120	349
Draft-equaliser	N. N. Egge	808,823	Jan. 2	396	86	120	88
Draft-equaliser	G. T. Nicholas	810,797	Jan. 23	4452	924	120	1094
Draft-equaliser	S. E. Davis	811,703	Feb. 6	326	72	120	1558
Draft-equaliser	A. Krahn	813,302	Feb. 27	3950	871	120	2497
Draft-equaliser	W. E. Kent	813,973	Feb. 27	4928	1080	120	2693
Draft-equaliser	M. Addy	813,984	Feb. 27	4930	1091	120	2708
Draft-forcing mechanism	J. J. Durage	811,624	Feb. 6	180	40	120	1525
Draft-opener. Automatic	J. H. Thompson	810,821	Jan. 23	4498	933	120	1101
Draft-rigging carrier and body-bolster	O. S. Pulliam	813,666	Feb. 27	4280	944	120	2567
Drafting instrument	G. Ring	813,827	Feb. 27	4612	1020	120	2635
Draper	W. T. Gordon	808,916	Jan. 2	585	120	120	128
Draw-bar-centering device	M. A. Garrett	809,181	Jan. 2	1097	228	120	241
Draw-bars. Slack-adjuster for	E. Ryan	812,682	Feb. 13	2330	509	120	2038
Draw-knife	A. B. Jennings	813,152	Feb. 20	3270	719	120	2288
Drawing models and the like. Adjustable holder for	G. J. Därrschmidt	809,432	Jan. 9	1661	345	120	402
Drawings and documents transparent and waterproof. Apparatus for rendering	C. L. Crabb	808,901	Jan. 2	557	123	120	122
Dredge	A. J. Burcham	810,710	Jan. 23	4276	887	120	1056
Dredge	F. Yeoman	811,683	Feb. 6	287	64-5	120	1548
Dredge	J. F. Loreman	813,222	Feb. 20	3403	750	120	2315
Dredge-bucket coupling	H. G. Peake and J. Henderson	812,518	Feb. 13	2011	441	120	1977
Dredge. Levee-building suction-	F. V. Wright	808,800	Jan. 2	364	76-7	120	79
Dredge. Steam-	G. E. Turner	812,245	Feb. 13	1481	324	120	1882
Dredge. Submarine	T. Avery, Jr.	813,935	Feb. 27	4832	1064	120	2680
Dredges, excavators, and the like. Dipper for	W. Ferris	809,426	Jan. 9	1666	347	120	408
Dredging [illegible]	V. A. Strom	812,263	Feb. 20	3452	761	120	2330
Dredging [illegible] side brace or anchor	J. P. Karr	812,043	Feb. 6	1026	224	120	1697
Dredging [illegible]	W. F. Bowers	809,908	Jan. 9	2560	532	120	597
Dredging apparatus	J. P. Cole	811,278	Jan. 30	5417	1129	120	1336
[illegible]	C. Leamar	813,688	Feb. 27	4288	987	120	2551
[illegible] or [illegible] gage	I. M. Rouse	809,404	Jan. 9	1743	368	120	417
[illegible]. Printed	W. Freeman	811,770	Feb. 6	429	95-6	120	1582
[illegible], chair, and trunk. Combined	F. L. Bradley	811,475	Jan. 30	5769	1208	120	1170
Drier: See Hair-drier. Steam-drier. Sand-drier. Veneer-drier.							
Drier	H. B. Camp	811,821	Feb. 6	537	120	120	1599

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Dry meter for gas, air, and like fluids	D. Maris	812,312	Feb. 20	3507	787	120	2308
Drying and conditioning machine	J. H. Lorimer	811,307	Jan. 30	5473	1141	120	1349
Drying and ironing apparatus. Electric	G. W. Richardson	811,565	Jan. 30	4895	1069	120	1223
Drying apparatus	C. M. Davison	812,368	Feb. 20	3666	805	120	2371
Drying-kiln	E. E. Perkins	810,874	Jan. 30	4685	1604	120	1209
Drying-machine	J. H. Lorimer	811,306	Jan. 30	5474	1141	120	1348
Drill: See Diamond-drill. Miner's drill. Disk drill. Rock-drill. Electric drill. Rock and coal drill. Electrically-operated portable drill.							
Drill holder and gage	A. La Francis	811,414	Jan. 30	5673	1180	120	1390
Drill-operating means	O. S. Proctor	811,791	Feb. 6	485	105	120	1589
Drill-press	A. E. Newton	811,317	Jan. 30	5493	1145	120	1352
Drills for rock-boring and other purposes. Appliance for lifting and turning	C. Simmons	808,576	Jan. 2	406	107-8	120	112
Drilling-machine	J. P. Jacobs	813,211	Feb. 20	3379	744-5	120	2310
Drilling-machine	A. Walker	813,335	Feb. 20	3620	796	120	2363
Drilling-machine	F. W. Clough	813,351	Feb. 20	3657	801-2	120	2369
Drinking-fountain. Poultry	T. A. Davis	813,954	Feb. 27	4851	1071	120	2686
Driving and reversing mechanism. Automatic	W. B. Yates	812,318	Feb. 13	1632	359	120	1896
Driving mechanism	A. J. Allison	810,317	Jan. 16	3466	716	120	840
Driving mechanism	H. John	810,765	Jan. 23	4379	909-10	120	1079
Driving mechanism	F. B. Wildman and E. G. Loomis	811,981	Feb. 6	901	199-200	120	1672
Dropper: See Disinfecting-apparatus dropper.							
Druggist's label-holder	N. W. McCourt and T. N. Barnsdall, 2nd.	810,791	Jan. 23	4436	921	120	1090
Druggist's prescription-file	R. E. King	810,772	Jan. 23	4398	912	120	1083
Drum-mill	R. Beneke	813,076	Feb. 20	3110	681	120	2254
Dumb-bell	A. W. Mackenzie and J. Ross	812,144	Feb. 6	1232	267-8	120	1742
Dumb-bell and Indian club	S. C. Villadrouin	808,706	Jan. 2	160	37	120	37
Dumping mechanism	F. J. Sleezer	812,957	Feb. 20	2881	636-7	120	2204
Duplicating apparatus	A. B. Dick	809,287	Jan. 9	1362	277	120	335
Duplicating apparatus	A. B. Dick	809,288	Jan. 9	1365	277	120	335
Duplicating apparatus	L. C. Neff	809,725	Jan. 9	2253	468	120	528
Duplicating-machine	C. E. Steere	811,674	Feb. 6	273	60-1	120	1545
Dust and scrap bag and holder	E. Dyett	810,329	Jan. 16	3488	720	120	843
Dust-collector	J. S. Thurman	809,408	Jan. 9	1632	332	120	392
Dust-collector	J. V. O. Palm	810,559	Jan. 23	4001	824	120	996
Dust-collector	B. Kern, Jr	810,771	Jan. 23	4396	912	120	1082
Dust-guard	E. Denegre	810,038	Jan. 16	2877	594	120	716
Dust-guard	E. Denegre	810,039	Jan. 16	2879	594-5	120	716
Dye and making same. Anthracene	O. Bally and H. Wolff	811,471	Jan. 30	5764		120	1409
Dye and making same. Orange-yellow sulfur	R. Gley	813,643	Feb. 27	4245		120	2558
Dye and making same. Red azo	J. Heggenbach	808,919	Jan. 2	588		120	129
Dye and making same. Red azo	G. Kalischer	813,155	Feb. 20	3273		120	2289
Dye and making same. Violet	O. Bally and M. H. Isler	809,802	Jan. 9	2548		120	594
Dye. Green anthraquinone	R. E. Schmidt	812,684	Feb. 13	2335		120	2039
Dye. Yellow anthracene	M. Kugel	808,762	Jan. 2	276		120	63
Dye. Yellow-green anthraquinone	R. E. Schmidt and K. Thun	812,590	Feb. 13	2186		120	2011
Dyeing apparatus	E. Zillessen	813,478	Feb. 27	3922	860	120	2486
Dyeing apparatus	E. Zillessen	813,479	Feb. 27	3924	861	120	2487
Dynamometer	H. Ruddick	813,324	Feb. 20	3611	792	120	2350
Earth closet. Outside dry-	J. R. Koons	811,412	Jan. 30	5670	1128	120	1380
Easel	G. L. R. Dahlberg	809,795	Jan. 9	2383	498	120	552
Eaves-trough clamp	G. M. Butler and C. G. Ehringer	812,404	Feb. 13	1800	394	120	1932
Eaves-trough hanger	W. G. Rau	813,826	Feb. 27	4611	1020	120	2635
Educational apparatus	F. E. Parrish	811,169	Jan. 30	5208	1087	120	1289
Efflorescence. Apparatus for producing	K. Tsuji	811,002	Jan. 30	4880	1016	120	1220
Egg-carrier	N. H. and R. L. Clark	810,324	Jan. 16	3478	719	120	842
Egg-carrier	J. O. Maddux	811,158	Jan. 30	5187	1083	120	1285
Ejector	C. A. Dryer	812,026	Feb. 6	1005	220	120	1693
Electric carrier. Overhead	H. M. Harding	809,790	Jan. 9	2385	492-4	120	557
Electric carriers. Means for controlling overhead	H. M. Harding	809,798	Jan. 9	2384	493	120	557
Electric cell	K. Tsukamoto	809,647	Jan. 9	2114	438	120	494
Electric-circuit breaker	F. O. Hartman	810,751	Jan. 23	4350	904-5	120	1072
[illegible] ground connection	J. B. Simpson	813,526	Feb. 27	4022	881	120	2510
[illegible] coil	I. Kitsee	812,657	Feb. 13	2288	498	120	2030
[illegible]. Attachment device for	D. B. Mills	810,684	Jan. 23	4198	868	120	1038
[illegible]. Branch coupling for	J. J. Dossert	811,907	Feb. 6	718	156	120	1637
[illegible] attachment	F. Volk	811,340	Jan. 30	5541	1155	120	1363
[illegible] coupling	J. J. Dossert	811,906	Feb. 6	716	156	120	1636
[illegible] currents which feed electric arcs. Regulator of	J. Hamberger	812,036	Feb. 6	1020	228	120	1696
[illegible] drill	C. W. Thell	810,444	Jan. 23	3766	775	120	940
[illegible] fan. Centrifugal attachment for	W. L. Moore	811,865	Feb. 6	631	136	120	1619
[illegible] furnace	J. E. Ober	812,601	Feb. 13	2534	562	120	2086
[illegible]	B. P. and F. I. Remy	808,779	Jan. 2	322	69	120	73
[illegible]	A. A. Pratt	813,113	Feb. 20	3186	697	120	2271
[illegible]	J. F. Barrett and N. C. Collins	[illegible]	Jan. 23	4298	[illegible]	120	1168
[illegible] arrangement for theaters and similar [illegible]. Emergency	F. Brand	809,904	Jan. 9	2570	532	120	597
[illegible]. Turning switch with lighted handle for	H. Heisey	[illegible]	Jan. 23	[illegible]	[illegible]	120	[illegible]
[illegible]	E. J. Wills	813,472	Feb. 27	3911	[illegible]	120	[illegible]
[illegible]. Dynamo-	P. A. J. Lapeyrade	811,164	Jan. 30	[illegible]	[illegible]	120	[illegible]
[illegible]. Dynamo-	H. G. [illegible]	811,792	Feb. 6	[illegible]	[illegible]	120	[illegible]
[illegible]. Dynamo-	J. [illegible]	811,312	Jan. 30	[illegible]	[illegible]	120	[illegible]
[illegible]	W. [illegible] Lloyd	[illegible]	Jan. [illegible]	[illegible]	[illegible]	120	[illegible]
[illegible]	W. [illegible]	[illegible]	Jan. 16	[illegible]	[illegible]	120	[illegible]
[illegible]	[illegible] and [illegible] Carder	[illegible]	Jan. [illegible]	[illegible]	[illegible]	120	[illegible]
[illegible]	[illegible] ([illegible])	[illegible]	Feb. [illegible]	[illegible]	[illegible]	120	[illegible]
[illegible]	F. [illegible]	[illegible]	Jan. [illegible]	[illegible]	[illegible]	120	[illegible]
[illegible]	M. [illegible]	[illegible]	Jan. 2	[illegible]	[illegible]	120	[illegible]
[illegible]	C. [illegible]	[illegible]	Feb. 27	[illegible]	[illegible]	120	[illegible]
[illegible]	A. [illegible]	[illegible]	Feb. 6	[illegible]	[illegible]	120	[illegible]
[illegible]	G. [illegible]	[illegible]	Jan. [illegible]	[illegible]	[illegible]	120	703

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Electric switch. Rotary	J. Dugdill	809,433	Jan. 9	1682	345-6	120	402
Electric time-switch	C. O. Shatto and L. S. Denison	811,580	Feb. 6	100	23-4	120	1509
Electric transformer and connections	H. F. Provandie	812,080	Feb. 6	1100	244	120	1714
Electric-wave detector	T. J. Murphy	811,664	Feb. 6	230	50	120	1535
Electric waves. Wireless transmitting and receiving mechanism for	C. Hülsmeyer	810,150	Jan. 16	3102	640-1	120	763
Electrical battery	C. Jäger	808,755	Jan. 2	265	57	120	61
Electrical conductor. Flexible	G. E. Schmidmer	809,466	Jan. 9	1740	361	120	418
Electrical conductors. Connector for	F. J. Troll	813,538	Feb. 27	4042	885	120	2515
Electrical control system	R. E. Bates	811,530	Feb. 6	10	3	120	1487
Electrical control system. Distant	J. Gomborow	811,773	Feb. 6	446	97	120	1583
Electrical devices. Adjustable suspender for	A. Berry	808,894	Jan. 2	545	121	120	120
Electrical-distribution system	C. P. Steinmetz	809,906	Jan. 16	2772	570	120	694
Electrical heater	E. L. Vaughn	812,956	Feb. 20	2895	628	120	2206
Electrical rosette	J. A. Mebane	812,760	Feb. 13	2477	543	120	2089
Electrical safety apparatus	E. B. Hosmer and W. N. Dietrich	813,297	Feb. 20	3542	780-1	120	2345
Electrical switch	J. F. George	810,537	Jan. 23	3042	811	120	982
Electrically-operated controlling mechanism	G. H. Fretts	813,638	Feb. 27	4238	931	120	2557
Electrically-operated portable drill	A. Pedersen	809,294	Jan. 9	1602	325	120	355
Electricity-meter	H. Aron	813,665	Feb. 27	4294	951-2	120	2574
Electricity-meter. Clockwork	H. Aron	813,610	Feb. 27	4188	910	120	2545
Electricity-meter. Electrolytic	C. O. Bastian	811,538	Feb. 6	8	2-3	120	1486
Electrodeposition	W. C. Arsem	811,759	Feb. 6	415	91	120	1577
Electrolytic apparatus	H. S. Blackmore	809,085	Jan. 2	926	194	120	205
Electrolytic apparatus	L. Van Scoyoc	813,844	Feb. 27	4645	1027	120	2644
Electrolytic processes. Producing circulation in	H. Koller and P. Askenasy	809,116	Jan. 2	986	204	120	218
Electromagnet	F. B. Corey	811,277	Jan. 30	5420	1130	120	1337
Electromagnet	E. H. Miller	812,511	Feb. 13	1907	428	120	1973
Electromagnet. Multipolar	H. G. Pape	812,445	Feb. 13	1872	412	120	1947
Electromagnetic motor	M. Cheever	813,775	Feb. 27	4496	993	120	2611
Electroplating apparatus	A. W. L'Hommedieu	809,309	Jan. 9	1410	286	120	345
Electroresponsive device	E. A. Terpening	810,311	Jan. 16	3452	713-14	120	837
Electrostatic influence-machine	E. Thomson	809,761	Jan. 9	2310	479	120	540
Elevating device	J. C. Stirling	811,968	Feb. 6	871	192	120	1666
Elevating device	E. Robidoux	813,830	Feb. 27	4615	1021	120	2636
Elevator: *See* Floating elevator. Fodder-elevator. Grain-elevator. Hay-elevator.							
Elevator	G. R. Layman	809,117	Jan. 2	989	204	120	218
Elevator	H. S. MacKaye	811,513	Jan. 30	5620	1223	120	1424
Elevator	D. Blackstone	813,941	Feb. 27	4533	1066-7	120	2682
Elevator and conveyer	M. B. Brewster	812,478	Feb. 13	1927	424	120	1959
Elevator-cage. Automatic-dumping	W. J. Newman	809,456	Jan. 9	1727	356	120	416
Elevator-cage-door opener	E. and W. B. Murray	810,160	Jan. 16	3134	648-9	120	770
Elevator-gate	G. D. Thompson	809,644	Jan. 9	2109	436	120	483
Elevator-gate. Automatic	P. F. Bliss	810,830	Jan. 23	4511	930	120	1106
Elevator-locking mechanism	J. S. Muckle	811,427	Jan. 30	5700	1188	120	1395
Elevator mechanism	W. Crossley	808,637	Jan. 2	35	8	120	10
Elevator or jack	G. Wenzelmann and E. H. Overholt	810,448	Jan. 23	3772	777-8	120	942
Elevator safety-brake	B. S. Bowman	810,256	Jan. 16	3331	691	120	809
Elevator safety-catch	A. Fleisher	811,046	Jan. 30	4053	1084	120	1287
Elevator safety device	I. B. Ritter	809,076	Jan. 2	905	190-1	120	200
Elevator safety device	J. R. Conley	809,265	Jan. 9	1309	276	120	334
Elevator safety device	F. S. Payne	809,220	Jan. 9	1423	290	120	349
Elevator safety device	F. A. Weigel	811,604	Feb. 6	133	29	120	1514
Elevator-shaft gates. Cushioning apparatus for	W. Bardsley	812,302	Feb. 13	1774	389	120	1927
Elevators and carriers. Suspended track for	J. M. Boyd	812,477	Feb. 13	1922	424	120	1958
Elevators. Retarding device for plunger-	F. C. Furlow	810,404	Jan. 23	3685	759	120	928
Embossing-machine	J. F. Lowenhaupt	812,859	Feb. 20	2678	590-91	120	2138
Embroidering-machines. Fabric-moving mechanism for	M. Trautmann	813,122	Feb. 20	3208	701	120	2276
Enameled ornament	O. L. Heintz	808,744	Jan. 2	245	54	120	57
End-cell switch	J. Bijur	810,369	Jan. 23	3646	739	120	914
End-cell switch	L. Lyndon	810,958	Jan. 30	4798	988	120	1162
End-gate fastening device. Vehicle-	J. W. Hird	812,341	Feb. 13	1672	365	120	1906
End-gate latch. Wagon-	C. W. Stark	810,663	Jan. 23	4226	875-6	120	1045
End-gate lock	J. A. Nicholas	810,072	Jan. 16	2954	616	120	734
Energy. Protection against reversal of	L. Wilson	811,285	Jan. 30	5306	1126	120	1331
Engine: *See* Air-compressing engine. Caterless engine. Combustion-engine. Compound engine. Explosion-engine. Explosive-engine. Fluid-operated engine. Gas-engine. Hot-air engine. Internal-combustion engine. Locomotive-engine. Rotary engine. Rotary explosion-engine. Rotary explosive-engine. Steam-engine. Surgical operating-engine. Traction-engine. Turbine-engine. Recision-engine.							
[illegible]	H. A. Swanton	811,184	Jan. 30	[illegible]	[illegible]	120	[illegible]
[illegible]	F. W. Salmon	809,466	Jan. 9	1746	[illegible]	120	416
[illegible]	J. Stuart	810,894	Jan. 30	[illegible]	[illegible]	120	[illegible]
[illegible] mechanism. Blowing-	J. V. Symons	812,064	Feb. 20	[illegible]	677	120	[illegible]
[illegible] Cooling means for explosive-	S. Ham	810,843	Jan. 23	4165	[illegible]	120	[illegible]
[illegible] brake. Turbine-	H. Lentz	811,[illegible]	Feb. 6	609	[illegible]	120	[illegible]
[illegible] mechanism. Explosive-	E. B. Robertson	811,955	Feb. 6	847	187	120	[illegible]
[illegible] starting device. Gas-	A. S. Johnson	811,[illegible]	Feb. 6	786	179	120	[illegible]
[illegible] combined. Gas-	D. F. Graham and F. A. Fox	809,[illegible]	Jan. 9	1621	[illegible]	120	[illegible]
[illegible] Gas-	A. P. Talmadge	813,926	Feb. 27	[illegible]	[illegible]	120	[illegible]
[illegible]	J. E. Worth and W. B. Eton	811,470	Jan. 30	[illegible]	[illegible]	120	[illegible]
[illegible] igniter. Explosive-	G. Cormack, Jr., and F. C. Zumdahl	813,[illegible]	Feb. 20	3119	[illegible]	120	[illegible]
Engine sparking igniter. Internal-combustion-	A. R. Bellamy	811,122	Jan. 30	[illegible]	1094	120	[illegible]

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Engine speed-regulator. Explosive-	J. A. Secor	812,871	Feb. 13	1718	377-8	120	1917
Engine starting-crank	G. B. Selden, Jr	812,094	Feb. 6	1118	246	120	1716
Engine-starting device. Explosion-	V. Erdmenger	813,969	Feb. 27	4893	1075-6	120	2688
Engine starting means. Gas or similar	F. L. Orr	809,211	Jan. 2	1161	240	120	298
Engine-starting mechanism. Explosive-	H. J. Wiegand	813,085	Feb. 20	3090	679	120	2262
Engine starting mechanism. Gas-	V. B. Miller	812,584	Feb. 13	2155	473	120	2005
Engine steering-gear. Traction-	P. L. Cantelou	810,261	Jan. 16	3340	693-4	120	811
Engine-stop. Automatic	N. C. Locke	812,379	Feb. 13	1861	341	120	1921
Engine tender. Traction-	C. T. Hixson	810,145	Jan. 16	3094	639	120	761
Engine tender. Traction-	H. Hamann	811,060	Jan. 30	4975	1058-9	120	1262
Engine wheel. Traction-	I. O. Hotaling	810,487	Jan. 23	3855	792	120	968
Engines. Automatic cut-off for explosive-	M. Münsel	813,316	Feb. 20	3583	789-90	120	2355
Engines. Automatic speed-regulator for internal-combustion	J. G. Callan	809,771	Jan. 9	2334	483	120	545
Engines. Controller for sparking devices of gas-	D. B. Willix	811,680	Feb. 6	283	63	120	1547
Engines. Electrical igniter for internal-combustion	W. H. Walter	812,622	Feb. 13	2225	494	120	2017
Engines. High-tension current-distributer for internal-combustion	L. J. Le Pontois	809,453	Jan. 9	1721	355	120	411
Engines. Incandescent igniter for use with internal-combustion	J. W. Seal	813,456	Feb. 27	3872	849	120	2474
Engines. Nozzle for turbine-	H. Lentz	813,808	Feb. 27	4550	1006	120	2623
Engines. Spark-ignition system for explosion-	R. Varley	808,958	Jan. 2	680	148	120	151
Engraving apparatus	J. P. Stevens	810,990	Jan. 30	4857	1011	120	1215
Envelop and letter-paper. Combined	A. B. Magoun	810,658	Jan. 23	4180	866	120	1036
Envelop and letter-paper. Combined	A. B. Magoun	813,726	Feb. 27	4396	970	120	2590
Envelop. Safety-	J. Pellerin	810,804	Jan. 23	4462	927	120	1095
Envelop. Safety-	H. P. Roberts	811,092	Jan. 30	5020	1060	120	1262
Envelop. Two-compartment	L. R. Swett	810,585	Jan. 23	4056	835	120	1006
Envelops. Manufacture of bottle-	C. B. E. Henke and G. A. H. Schulte	809,390	Jan. 9	1363	281	120	340
Equalizer. Four-horse	C. H. Matlock	813,867	Feb. 27	4108	900	120	2530
Eraser-holder	F. W. Hayes	809,056	Jan. 2	856	181	120	189
Ether mixture for disinfecting	T. Bargiela, J. P. Mislowsky, A. Caricchia, and L. E. Odio	812,631	Feb. 13	2243	....	120	2021
Evaporating-pan	J. P. Golden	813,080	Feb. 20	3131	686	120	2258
Excavating-machine	A. F. Huber	809,689	Jan. 9	2190	453-4	120	512
Excavating-machine	C. C. Jacobs. (Reissue)	12,441	Jan. 30	5882	1283-4	120	1494
Excavating-machine	T. H. Walker	813,393	Feb. 20	3723	830	120	2394
Excavator	F. F. Collath	808,636	Jan. 2	32	7	120	9
Excavator	W. R. Martin	813,566	Feb. 27	4104	900	120	2526
Excavator-dippers. Latching mechanism for	M. O'Connor	809,209	Jan. 2	1156	240	120	254
Exercising apparatus. Handle or grip of dumb-bells or other	H. Fairbrother	808,737	Jan. 2	283	50	120	55
Exhauster. Rotary	J. Sharp	812,886	Feb. 13	2242	512	120	2040
Exhibiting apparatus. Lace-curtain-	J. F. Mumford	813,165	Feb. 20	3291	723-4	120	2298
Expansion-controlled apparatus	S. W. Boughton	810,255	Jan. 16	3329	691	120	809
Expansion cramp device	F. de Morsier	811,168	Jan. 30	5195	1086	120	1287
Explosion-engine	G. Petsel	809,841	Jan. 9	2480	510-11	120	578
Explosion-engine	H. Heinrich	810,535	Jan. 23	3953	813-14	120	985
Explosive	F. Sparre	812,958	Feb. 20	2583	....	120	2204
Explosive	F. Sparre	812,959	Feb. 20	2585	....	120	2205
Explosive compound	R. Escales	812,195	Feb. 13	1382	....	120	1841
Explosive-engine	J. F. Johnson	809,126	Jan. 2	1104	230	120	243
Explosive-engine	J. A. Williams	811,809	Feb. 6	517	115	120	1605
Explosive-engine	J. A. Williams	811,858	Feb. 6	679	149	120	1629
Explosive-engine	G. Pendleton	813,736	Feb. 27	4415	973	120	2594
Explosive-engine	H. K. Shanck	813,746	Feb. 27	4433	978-9	120	2598
Explosive-engine. Cam-movement	P. K. Stern	809,333	Jan. 9	1462	294	120	362
Explosive-engine. Double-acting	J. W. Kyle and J. W. Hicks	809,451	Jan. 9	1714	353-4	120	409
Explosive-engine. Multiple-piston	C. T. Hildebrandt	811,220	Jan. 30	5307	1110	120	1312
Extensible handle	D. Lawson	808,892	Jan. 2	740	160	120	163
Extensometer	W. Cantelo	812,181	Feb. 13	1352	295	120	1833
Extinguisher	A. Haslinger	809,055	Jan. 2	855	181	120	189
Extractor: *See* Cork-extractor. Oil-extractor. Piano-hammer extractor. Spoke-extractor.							
Extractor support. Centrifugal-	G. Binder	811,383	Jan. 30	5580	1165	120	1371
Eyeglass-case. Waterproof	M. Davidson	811,487	Jan. 30	5790	1212	120	1414
Eyeglass-guard	C. Goodwin	809,388	Jan. 9	1530	311	120	371
Eyeglass-mounting	G. W. Wells	809,156	Jan. 2	1054	218	120	231
Eyeglass-mounting	H. A. Seddel	811,960	Feb. 6	880	189	120	1664
Eyeglass-mounting	E. M. Card	812,113	Feb. 6	1154	253	120	1728
Eyeglasses	E. B. Meyrowitz	809,091	Jan. 2	753	165	120	166
Eyeglasses	W. E. Cawood	810,265	Jan. 16	3372	724	120	864
Eyeglasses	J. C. Wells	812,980	Feb. 20	2854	634	120	2203
Eyeglasses and spectacles	J. Kovacs	809,782	Jan. 9	2390	497	120	516
Eyelet	A. C. Nichols	813,575	Feb. 27	4122	903	120	2531
Fabric: *See* Air-goods fabric. Feather fabric. Fence fabric. Mattress or couch fabric. Pile fabric. Woven fabric.							
Fabric containing haircloth	G. Goldman	810,983	Jan. 30	4744	980	120	1190
Fabric containing haircloth. Making	G. Goldman	810,984	Jan. 30	4746	....	120	1190
Fabrics. Aging dyed	P. F. Vogel	810,212	Jan. 16	3456	714	120	836
Fabrics. Oxidizing	B. Cleff	810,904	Jan. 23	3665	753-6	120	929
Fabrics with finely-comminuted materials. Machine for coating	H. Markus	813,984	Feb. 27	4101	899	120	2527
Face-plate. Adjustable	F. A. Borst	812,946	Feb. 20	2785	[illegible]	120	[illegible]
Fan and score-card. Combined	W. Steel	809,535	Jan. 9	1871	[illegible]	120	445
Fan. Oscillating electric	H. S. Brown	809,[illegible]	Jan. 9	[illegible]	[illegible]	120	[illegible]
Fan. Oscillating electric	G. [illegible]	810,174	Jan. 16	3143	[illegible]	120	771
Fare-receipt register. Conductor's cash-	W. W. Kay	809,377	Jan. 9	1546	316-16	120	[illegible]
Fare-recorder	J. F. Ohmer	812,917	Feb. 20	[illegible]	[illegible]	120	[illegible]
Fare-register	W. W. Kay	809,378	Jan. 9	[illegible]	316-18	120	376

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drt.	Official Gazette. Vol.	Official Gazette. Page.
[illegible]	C. R. Price	812,889	Jan. 2	4[illegible]	[illegible]5	138	3[illegible]
[illegible]	J. A. Myers	810,512	Jan. 16	2[illegible]	[illegible]71	138	731
[illegible]	T. Kee	812,789	Feb. 13	2[illegible]	[illegible]6	138	[illegible]
[illegible]	H. F. Kellner	812,868	Feb. 13	2[illegible]	[illegible]8	138	[illegible]
[illegible] and Holder. Detachable	J. Pierce	811,865	Feb. 6	1[illegible]	[illegible]8	138	[illegible]
[illegible]	R. Wetzel	809,351	Jan. 2	1[illegible]	[illegible]4	138	[illegible]
[illegible]	F. A. Freeman	811,484	Jan. 30	[illegible]	[illegible]4	138	[illegible]
[illegible]	L. Jackson	811,885	Feb. 6	7[illegible]	172[illegible]	138	1417
[illegible]	C. D. Rice	813,570	Feb. 20	2[illegible]	17[illegible]	138	[illegible]
[illegible]	F. A. Denham	809,918	Jan. 2	2[illegible]	[illegible]8	138	[illegible]
[illegible]	J. C. Beasley	809,365	Jan. 2	8[illegible]	[illegible]7	138	[illegible]
[illegible]	G. A. Olson	812,865	Jan. 9	2[illegible]	[illegible]8	138	[illegible]
[illegible]	W. T. Dahl	812,661	Feb. 6	1[illegible]	24[illegible]	138	1722
[illegible]	E. K. Warren and J. H. Holden	808,701	Jan. 2	1[illegible]	[illegible]6	138	[illegible]
[illegible]	E. K. Warren and J. H. Holden	808,702	Jan. 2	1[illegible]	[illegible]3	138	73
[illegible]	E. K. Warren and J. H. Holden	808,703	Jan. 2	1[illegible]	[illegible]3	138	73
[illegible] and fitter carrier	J. W. Frowan	812,369	Feb. 13	1[illegible]	[illegible]3	138	73
[illegible] attachment	J. A. and J. C. Doran	812,532	Feb. 20	1[illegible]	[illegible]8	138	[illegible]
[illegible]	J. A. Skinner	811,490	Jan. 30	5[illegible]	1[illegible]8	138	[illegible]
[illegible]	J. F. McIntyre	811,573	Feb. 6	1[illegible]	[illegible]5	138	[illegible]
[illegible]	J. S. H. and C. D. Stonesburner	811,892	Feb. 6	1[illegible]	[illegible]6	138	[illegible]
[illegible]	L. R. Tait	808,888	Jan. 2	1[illegible]	[illegible]6	138	[illegible]
[illegible]	J. J. Thacher	812,888	Feb. 20	2[illegible]	[illegible]6	138	[illegible]
[illegible]	O. L. Stump	810,441	Jan. 23	2[illegible]	[illegible]8	138	[illegible]
[illegible]	G. A., R. and H. Erickson	810,782	Jan. 23	2[illegible]	[illegible]8	138	[illegible]
[illegible]	H. G. Miller	813,944	Feb. 20	2[illegible]	[illegible]8	138	[illegible]
[illegible]	W. Loudon and J. J. Hendricks	813,889	Feb. 6	2[illegible]	[illegible]8	138	[illegible]
[illegible]	W. G. Maynard	813,810	Feb. 27	2[illegible]	[illegible]8	138	[illegible]
[illegible]	V. A. Crosbier	811,882	Jan. 30	2[illegible]	[illegible]8	138	[illegible]
[illegible]	W. H. Fahs	811,681	Jan. 30	2[illegible]	[illegible]8	138	[illegible]

Fire-escape apparatus	G. B. Price	812,980	Feb. 20	2888	888	138	2188
Fire-extinguisher automatic valve	J. H. Derby	810,889	Jan. 16	2888	888	138	708
Fire-extinguisher. Automatically-operating	H. W. Hildebrand	811,221	Jan. 30	8888	1118	138	1818
Fire-extinguishing device	W. G. Bills	812,001	Feb. 6	880	888	138	1884
Fire insulator and extinguisher	O. T. Weiser	813,587	Feb. 13	2050	448	138	1885
Fire-lighting apparatus	C. E. Jackson	813,458	Feb. 27	3888	888	138	2074
Fire-lighting device	M. L. Martin	812,720	Feb. 27	4488	971	138	2044
Fire-pail. Chemical	C. C. Gillespie	812,888	Feb. 13	2271	884	138	2088
Fire-pot and grate	S. Knapp	809,701	Jan. 9	2208	887	138	617
Fire-pot and grate therefor	A. R. Hubbard and R. Flay	812,767	Feb. 13	2402	888	138	2044
Fire-resisting cabinet	W. V. Dick	809,497	Jan. 9	1207	872	138	421
Fire-window. Automatic	G. Yunker and G. Schwing	810,886	Jan. 23	4073	888	138	1919
Firearm	A. J. Savage	810,571	Jan. 23	4025	888	138	1880
Firearm	J. H. Wesson	811,897	Feb. 6	812	114	138	1886
Firearm	T. C. Johnson	812,891	Feb. 27	4544	1084	138	2031
Firearm	T. C. Johnson	812,892	Feb. 27	4545	1085	138	2032
Firearm firing mechanism	G. E. Witherell	808,984	Jan. 2	888	188	138	188
Firearm-handle	M. Bye	812,088	Feb. 6	1887	888	138	1888
Firearms. Recoil-operated	M. Bye	812,018	Feb. 6	1888	214-8	138	1888
Firearms. Gas-operated mechanism for	C. H. Taylor	811,886	Feb. 6	1888	88	138	1872
Firearms. Single-trigger mechanism for	G. E. Witherell	808,980	Jan. 2	888	188	138	118
Fireman's protective dress	C. W. Wood	811,081	Jan. 30	2814	1088	138	1288
Fireplace. Open	H. C. Cleaver	810,719	Jan. 23	2888	884-8	138	1888
Fireproof blind or curtain roller	E. H. McCloud	810,896	Jan. 30	2818	1088	138	1888
Fireproof blind or curtain roller	E. H. McCloud	810,897	Jan. 30	2818	1088	138	1888
Fireproof column and column-cap	J. J. Trueblider	813,188	Feb. 20	2888	781	138	2188
Fireproof conductors. Making	A. M. Lesage	809,812	Jan. 9	1416	887	138	648
Fireproof metal window	R. C. Lieb	811,872	Jan. 30	2888	1088	138	1888
Fireproof sash structure	F. Dutcher	813,782	Feb. 13	2650	888	138	2188
Fireproof vault. Portable	W. H. Hodges	810,881	Jan. 23	4887	888	138	1117
Fireproof window	S. H. Pomeroy	810,884	Jan. 23	4911	888	138	1888
Fireproof window. Sheet-metal	W. H. Miller	810,888	Jan. 23	4888	888	138	1888
Fireproof wire	A. M. Lesage	809,811	Jan. 9	1416	887	138	648
Fish. Apparatus for dry-curing	V. Whitman	813,284	Feb. 20	2472	788	138	2188
Fish. Dry-curing	V. Whitman	813,288	Feb. 20	2472	788	138	2188
Fish-net-lifting machine	K. Paulson	812,977	Feb. 13	1888	888-8	138	2188
Fish-trap	A. L. Schoppach	812,888	Feb. 13	1888	888	138	2188
Fishing device	A. O. Lyons	809,888	Jan. 23	2788	888	138	2188
Fishing device	W. L. Mogg	810,788	Jan. 23	4484	888	138	2188
Fishing device	W. S. Pyne	811,888	Feb. 6	88	8	138	2188
Fishing-float	L. M. Johnson	808,188	Jan. 2	1888	888	138	2188
Fishing-reel	F. L. Dickson	812,888	Feb. 6	1888	778	138	2188
Fishing-rod	J. S. Hunter	812,488	Feb. 27	4888	888	138	2188
Fishing-tackle	B. Waldberg	808,888	Jan. 9	1888	888	138	2188
Fitting stand for dressmakers, &c	J. J. Keir	811,888	Jan. 30	2888	1188	138	2188
Flash-light apparatus. Automatic	S. Barnes and A. N. Gatsert	813,877	Feb. 27	2111	888	138	2188
Flash-light cartridge	G. H. Stevenson	811,889	Feb. 6	888	88	138	2188
Flash-light composition	A. Rinbergen	812,888	Feb. 6	888	88	138	2188
Flash-light device	T. Aspeg	812,848	Feb. 27	4888	1888	138	2188
Flask: See Concrete-block-molding flask.							
Flexible coupling	T. A. Weldridge and E. A. Ward	809,889	Jan. 9	2888	888	138	888
Flexible pipe	A. O'Brien	809,877	Jan. 16	2888	888	138	888
Floating elevator or lighter	M. S. Iverson	812,888	Feb. 13	2888	888	138	2188
Flood-gate	L. W. Travis	812,888	Feb. 13	2888	888	138	2188
Floor-cleaning means	F. F. Anderson	812,888	Feb. 13	2888	888	138	2188
Floor-damper	E. Erikson	812,888	Jan. 23	2888	888	138	2188

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drfs.	Official Gazette. Vol.	Official Gazette. Page.
Floor-sweeper	S. A. M. Linville	812,055	Feb. 6	1042	228	120	1702
Floor structure	J. Kraft	811,491	Jan. 30	5709	1214	120	1416
Floor waxing, polishing, and cleaning machine	F. B. Reichenbach	810,580	Jan. 9	1980	407	120	663
Flours. Machine for dressing and finishing surfaces of	J. J. Kelly	810,770	Jan. 23	4308	911	120	1089
Fluid-pressure. Parquet-	S. A. Alexander	812,230	Feb. 13	1638	280	120	1899
Fluid-pressure feed pavilion	R. I. Agner	812,130	Feb. 6	1149	232	120	1722
Fluid-pressure. Tilting device for	C. Dawson	810,627	Jan. 23	4138	1056	120	1058
Fluid-pressure. Trunking	J. E. Mitchell	812,764	Feb. 13	2408	546	120	2070
Fluid-pressure. Trunking	E. E. Werner	812,777	Feb. 13	2207	551	120	2074
Fluid-pressure pot stand. Adjustable	A. Grasse	811,712	Feb. 6	327	74	120	1561
Fluid-pressure. Stove and range	W. Jaques	811,508	Jan. 30	5881	1318	120	1420
Fluid-pressure for evaporators, boilers, and the like	T. Suzuki	810,986	Jan. 30	4988	1013-14	120	1218
Fluid-pressure governing means	F. L. McGehan and E. G. Flager	811,079	Jan. 30	5005	1045-6	120	1247
Fluid-pressure governing means	J. B. Waring	811,188	Jan. 30	5240	1086-7	120	1297
Fluid-pressure motor	B. V. Nordberg	812,151	Feb. 6	1248	271	120	1745
Fluid-pressure regulator	W. V. Turner and J. S. Custer	810,514	Jan. 23	3917	805-6	120	977
Fluid-pressure generator	A. Baudin	813,075	Feb. 20	3109	681	120	2254
Fluid-pressure motor	F. Sage	811,855	Feb. 6	257	56-7	120	1541
Fly	A. J. Barr	809,608	Jan. 9	2022	419	120	475
Fly-paper	J. H. Bien	813,198	Feb. 20	3345	736	120	2304
Fly-paper holder	J. W. Hixson	813,251	Jan. 16	2987	654	120	676
Fly-screen	W. E. Hart	810,234	Jan. 23	3963	813	120	984
Fly-screen. Adjustable	J. A. Marquardt	813,727	Feb. 27	4400	970	120	2301
Fly-trap	W. H. Grasser	812,109	Feb. 6	1200	264	120	1734
Fly-trap. Mechanical	T. W. Thornton	810,094	Jan. 16	3393	694	120	743
Fodder-cutter	J. Grill, Jr.	813,645	Feb. 27	4252	934	120	2589
Fodder elevator and loader. Corn-	F. G. Harrison and A. C. Jacoby	810,304	Jan. 16	3218	698	120	788
Fodder loader and hauler	F. A. R., H. C., and O. L. Fiebach	810,730	Jan. 23	4328	939	120	1067
Fodder and binding	M. Plackard	809,228	Jan. 9	1496	320	120	350
Folding box	E. J. Meisenheimer	812,798	Feb. 13	2580	581	120	2035
Folding box	P. O'Riley	811,689	Feb. 6	943	52	120	1538
Folding-machines. Paper-slitting device for	E. G. Brown	813,347	Feb. 20	3640	800	120	2367
Folding table	W. A. La Sor and C. M. Smith. (Reissue.)	12,456	Feb. 20	3751	823-4	120	2389
Food compound and preparing the same	H. Buyten	810,616	Jan. 23	4120	850-1	120	1030
Foot-arch supporter	E. T. Williams	811,466	Jan. 30	5757	.....	120	1407
Footwear. Anatomical	F. B. Lee	811,513	Jan. 30	5838	1222	120	1424
Footwear. Apparatus for binding in the toes of	H. P. Cole	812,980	Feb. 20	2790	614	120	2183
Forging and welding machine	G. Kron	810,773	Jan. 23	4400	912-13	120	1083
Fork:	C. Reinhart	812,174	Feb. 20	3310	728	120	2207
See Grapple-fork. Hay-fork.							
Fork	W. A. Reddick	812,771	Feb. 13	2499	550	120	2072
Formaldehyde-generator	A. R. Dieterich	813,262	Feb. 20	3663	809	120	2275
Formaldehyde hydrosulfite and making same	E. A. Fourneaux	812,124	Feb. 6	1176	.....	120	1729
Formic-aldehyde compound. Making a	A. Stephan	812,606	Feb. 13	2300	.....	120	2013
Foundries. Powder for dusting patterns in	E. Brühl	811,477	Jan. 30	5776	.....	120	1411
Fountain:

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drfs.	Official Gazette. Vol.	Official Gazette. Page.
Furnaces. Apparatus for producing perfect combustion in	H. Luckenbach	810,160	Jan. 16	3126	647	120	767
Furnaces. Gas-relief valve for blast-	E. L. Messler	813,442	Feb. 27	3983	844	120	2470
Furnaces. Preserving the inner walls of	F. C. W. Timm	813,819	Feb. 13	2218	481	120	2110
Furniture. Convertible	C. W. Dunn	809,522	Jan. 2	380	85-6	120	87
Furniture pad. Upholstered-	F. D. Boyle	813,616	Feb. 27	4195	921	120	2547
Fuse. Electric safety-	E. L. Ogle	809,978	Jan. 16	2720	584	120	937
Fuse. Electric safety-	C. W. Elliott	809,982	Jan. 16	2749	592	120	939
Fuse. Impact-	L. Abendroth	809,595	Jan. 9	2532	539	120	580
Fuse-plug	H. T. Paiste	809,527	Jan. 9	2482	529	120	572
Fuse plug. Electric multiple-	A. Hepke and K. Diener	809,901	Jan. 9	1295	261	120	340
Fuse. Projectile-	H. C. Seddon	811,262	Jan. 30	5372	1151	120	1337
Fuse. Projectile-	H. C. Seddon	811,267	Feb. 6	268	57	120	1543
Fuse. Projectile-	H. C. Seddon	811,268	Feb. 6	263	57	120	1543
Fuse. Shell-	W. M. Kershaw	812,048	Feb. 6	1023	226	120	1660
Fuses for electrical installations. Inclosed safety device for	W. Fellenberg	813,545	Feb. 27	4057	869	120	2518
Gage:							
See Bevel-gage. Bookbinder's gage. Combination-gage. Cutter-head gage. Dress or skirt gage. Feed-gage. Pile-gage. Rafter-gage. Railway-track gage. Saw-gage. Saw-table cutting-gage. Water-gage. Weather-board gage.							
Gage attachment. Safety	I. W. Houston, H. C. Burns, and A. Van Voorhees.	809,110	Jan. 2	960	202	120	216
Gage for use of carpenters and joiners in fitting doors	J. A. Johnson	810,489	Jan. 23	3856	792	120	962
Gage-reading device	G. F. Doern	812,411	Feb. 13	1814	397	120	1985
Gages. Base attachment for center-	J. L. Baltzer and L. S. Starrett	813,907	Feb. 27	4985	1081	120	2703
Galvanometer	P. H. Wynne	813,369	Feb. 20	3483	678	120	2333
Game	S. F. Enos	810,631	Jan. 23	4144	886	120	1035
Game apparatus	E. B. Vinson and B. F. Robinson	808,989	Jan. 2	063	146	120	151
Game apparatus	A. Friedenthal	809,203	Jan. 9	1374	279	120	338
Game apparatus	F. W. Burns	809,809	Jan. 9	2088	420	120	477
Game apparatus	F. L. Sackett	810,294	Jan. 16	3261	676	120	795
Game apparatus	O. E. Pettes	810,320	Jan. 16	3433	708	120	823
Game apparatus	R. D. Martin	810,751	Jan. 23	4419	947	120	1088
Game apparatus	G. F. Kirby	812,048	Feb. 6	1022	226	120	1700
Game apparatus. Base-ball-	E. Fahl. (Reissue)	12,451	Feb. 27	4068	1020	120	2709
Game apparatus. Indoor-golf	J. P. Magenis	811,189	Jan. 30	5188	1084	120	1388
Game-board	M. Whitlatch	811,347	Jan. 30	5555	1139	120	1396
Game-board	N. T. Hale	809,502	Jan. 9	1816	374	120	494
Game. Card	L. Silvernail	809,853	Jan. 9	2481	516	120	579
Game-piece	L. C. Paul	812,676	Feb. 13	2232	468	120	2088
Game-recording device	F. L. Sackett	810,262	Jan. 16	3541	726	120	857
Game-register	A. S. Nichols	812,884	Feb. 20	2957	598	120	2160
Game-table	G. F. Goss and J. E. Parker	813,551	Feb. 27	4098	863-4	120	2521
Garden rake and cultivator	M. M. Johnson	811,149	Jan. 30	5157	1078	120	1270
Garment	B. J. H. Culos	813,277	Feb. 20	3708	818	120	2280
Garment. Back-protection	W. J. Reid	813,588	Feb. 27	4134	888	120	2534
Garment-clasp	S. F. Swantess	812,613	Feb. 13	2204	480	120	2014
Garment-clasp	S. Rubin	810,678	Jan. 23	4210	973	120	1043
Garment-fastener	O. Kemper	810,948	Jan. 30	4776	994	120	1188
Garment-fastener	H. A. Hopkins	810,527	Jan. 23	3957	814	120	988
Garment-hanger	W. H. Unks	811,698	Jan. 30	6089	1019	120	1523
Garment-hook	W. F. Hall and W. Donaldson	809,088	Jan. 2	14	14	120	17
Garment-pads. Making	W. H. Hippisley. (Reissue)	12,451	Feb. 13	2568	563	120	2057
Garment-rack. Individual safety	G. Goldman	810,986	Jan. 30	4747	989	120	1161
Garment-supporter	H. J. Bonball	813,917	Feb. 20	3788	833	120	2162
Garment-supporter	H. F. Niles	809,074	Jan. 2	885	189	120	228
Garment-supporter	B. F. Crowther	809,310	Jan. 2	1188	249	120	288
Garment-supporter	B. Ortell	810,805	Jan. 23	3988	790-799	120	972
Garment-supporter	I. J. Johnson	811,805	Jan. 30	6026	1319	120	1481
Garment-supporter	R. H. Emery	811,853	Feb. 6	30	7	120	1481
Garments and the like. Rotary hook-support for	V. H. Rea	812,126	Feb. 13	2036	445	120	1980
Gas apparatus. Acetylene-	J. C. Smith	812,601	Feb. 13	2246	513	120	2041
Gas apparatus. Power-	P. H. Widman	812,366	Feb. 13	1764	386	120	1935
Gas-burner	G. M. S. Tait	810,695	Jan. 23	4231	970	120	1048
Gas-burner	S. W. Hyatt	810,613	Jan. 23	4131	884	120	1034
Gas-burner	W. C. Holman and F. T. Williams	811,308	Jan. 30	5648	1161	120	1385
Gas-burner	E. Swinnerr and E. B. Neelen	811,970	Feb. 6	276	59-4	120	1555
Gas-burner	S. Berabeim	812,675	Feb. 20	3811	848	120	2316
Gas-burner	E. M. Buckman	811,329	Jan. 30	5975	1288	120	1431
Gas-burner. High-pressure	W. Kirkwood	810,570	Jan. 23	4085	994	120	1132
Gas-burner. Incandescent	E. E. Wilner	813,469	Feb. 13	1936	426	120	1966
Gas-burner inspirator and mixer	J. W. McKnight	813,440	Jan. 30	6057	1309	120	1507
Gas-burner. Inverted incandescent	H. Farnell	813,048	Feb. 20	3625	806	120	2253
Gas-burner. Safety	S. W. Ekroos	809,606	Jan. 9	2085	57	120	57
Gas-burners. Chimney for incandescent	L. Stoess	813,639	Feb. 13	2036	445	120	2124
Gas-burners. Electric lighter and extinguisher for	O. and C. Candi	812,998	Feb. 20	2807	618	120	2184
Gas-burning apparatus	L. Moreno and A. D'Antony	813,438	Feb. 13	2036	445	120	1980
Gas-compressor	L. Sterne	811,811	Feb. 6	1	1	120	1481
Gas-conduit-controlling apparatus	E. F. Dehman	811,811	Feb. 6	1	1	120	1481
Gas-controller for flash-lights and the like	P. C. Reid	811,811	Feb. 6	1	1	120	1481
Gas-controlling device	W. T. Donnelly	811,811	Feb. 6	1	1	120	1481
Gas-controlling device. Automatic	H. Schaefer	811,811	Feb. 6	1	1	120	1481
Gas-engine	F. A. Kettering	811,811	Feb. 6	1	1	120	1481
Gas-engine	J. Crane	811,811	Feb. 6	1	1	120	1481
Gas-engine	W. F. Lee	811,811	Feb. 6	1	1	120	1481
Gas-engine	J. P. Taylor and W. R. Whiting	811,811	Feb. 6	1	1	120	1481
Gas-engine	J. G. Turner	811,811	Feb. 6	1	1	120	1481
Gas-engine	J. P. Taylor and W. R. Whiting	811,811	Feb. 6	1	1	120	1481
Gas-engine	V. O. Apple	811,811	Feb. 6	1	1	120	1481
Gas-engine. Compound	J. W. Underhill	811,811	Feb. 6	1	1	120	1481
Gas-engine. Explosive-	E. G. Ehartt	811,811	Feb. 13	2036	445	120	1980

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Gas-fixture	P. J. Nevins	809,727	Jan. 9	2268	468	120	539
Gas for railway-traffic-controlling apparatus. Utilizing liquefied	C. W. Coleman	810,263	Jan. 16	2249	604	120	814
Gas. Generating	C. Ellis	814,001	Feb. 27	4049	1094	120	2706
Gas-generating apparatus	B. E. Eldred and C. Ellis	811,706	Feb. 6	339	72	120	1539
Gas-generator	N. Goodyear	808,680	Jan. 2	38	12-13	120	15
Gas-generator	C. L. Parsons	811,787	Feb. 6	377	82	120	1580
Gas-generator. Hydrocarbon-	L. Henderson	811,845	Feb. 6	502	120	120	1610
Gas-light switch	T. A. Davis	812,857	Feb. 20	3687	804	120	2371
Gas-lights. Antivibrator burner for incandescent	C. P. Ehmann	812,107	Feb. 6	1296	283	120	1753
Gas lighting and extinguishing apparatus	R. N. Oakman	813,576	Feb. 27	4123	906	120	2532
Gas-meter	K. R. Howard	813,097	Feb. 20	3144	689	120	2281
Gas plant. Acetylene-	W. J. Stinson	809,473	Jan. 9	1760	388	120	430
Gas-producer	O. C. Skinner and J. E. Sheaffer	809,026	Jan. 2	790	170	120	174
Gas-producer	J. R. George	809,296	Jan. 9	1375	279	120	336
Gas-producer	E. Sandner	809,649	Jan. 9	2472	574	120	577
Gas-producer	C. Ellis	811,290	Jan. 30	5287	1106	120	1307
Gas-producer	E. N. Trump	[illegible]	Feb. 27	4158	912-13	120	2530
Gas-producer valve	C. Ellis	813,620	Feb. 27	4210	927	120	2552
Gas-producers. Fluid-sealing device for	F. G. Hobart	[illegible]	Jan. 2	1304	265	120	287
Gas-producers. Governor for suction	G. M. S. Tait	[illegible]	Jan. 9	1468	297	120	358
Gas-producers. Operating	E. Sandner	[illegible]	Jan. 9	2471	514	120	576
Gas-producers. Preventing the formation of clinker in	B. E. Eldred	[illegible]	Feb. 27	4217	927	120	2551
[illegible]	J. E. Sheaffer	809,021	Jan. 2	786	169	120	173
Gas producing and consuming apparatus. Power-	C. Ellis	812,194	Feb. 13	1370	300	120	1840
Gas-producing apparatus	G. Marconnet	813,728	Feb. 27	4307	970	120	2600
Gas-purifier	E. C. Woodworth	809,689	Jan. 9	2120	441	120	498
Gas-purifier	L. P. Lowe	812,218	Feb. 13	1434	310	120	1850
Gas-purifying apparatus	P. Plantinga	810,863	Jan. 23	4010	886	120	997
Gas-regulating device	C. E. Wirth and W. W. Bradley	812,627	Feb. 13	2232	486	120	2019
Gas-regulator	B. H. Petley	810,862	Jan. 23	4008	886	120	996
Gas-retort-discharging apparatus	J. W. Broadhead and F. W. Ordish	812,479	Feb. 13	1929	425-6	120	1960
Gas-retorts. Stand-pipe and connection for	S. J. Fowler	808,831	Jan. 2	408	89-90	120	90
Gas-valve	J. Sweeney	810,443	Jan. 23	3764	775	120	940
Gas washer and scrubber. Combined	L. P. Lowe	812,217	Feb. 13	1429	310	120	1850
Gases. Apparatus for analysis of	A. Schlatter and L. Deutsch	813,671	Feb. 27	4299	946	120	2599
Gases. Apparatus for dehydrating compressed	R. P. Pictet	809,219	Jan. 2	1188	244	120	263
Gases. Cleaning manufactured	L. P. Lowe	809,283	Jan. 9	1370	319	120	378
Gases from their mixtures. Apparatus for the separation of	R. P. Pictet	809,218	Jan. 2	1173	243-3	120	266
Gasket	V. Tompkins	811,000	Jan. 30	4877	1015	120	1220
Gasket-making machine	J. W. Guillott	809,286	Jan. 2	1204	263-4	120	265
Gasoline lighting system	J. B. Christian	811,833	Feb. 6	541	121	120	1600
Gate: *See* Bridge safety-gate. Car-platform gate. Car-platform folding gate. Elevator-gate. Farm-gate. Fence-gate. Flood-gate. Race-course starting-gate. Shaft-gate. Water head-gate.							
Gate	B. H. Martin	809,987	Jan. 16	2720	580	120	682
Gate	J. J. Willaman	811,019	Jan. 30	4912	1094	120	1228
Gate	I. R. Burkholder	811,371	Jan. 30	5506	1168	120	1374
Gate	E. E. Hanken	811,588	Feb. 6	87	9	120	1468
Gate	G. W. Thompson	812,904	Feb. 20	2802	638	120	2206
Gate	W. C. Boyd	813,615	Feb. 27	4194	920	120	2547
Gear-casing	F. H. Lincoln	808,905	Jan. 2	744	161	120	164
Gear for feeder-aprons. Changeable-speed	W. T. S. Gushee	810,842	Jan. 23	4163	880	120	1030
Gear. [illegible]	H. A. Tuttle	812,533	Feb. 13	2043	448	120	1984
Gear. [illegible]	E. A. Hoefer	809,272	Jan. 9	1537	313	120	372
Gear. [illegible]	M. C. Talcott	809,406	Jan. 9	1636	351	120	390
Gear. [illegible]	P. W. Kane	[illegible]	Jan. 16	2834	611	120	730
[illegible] machine	F. M. Stambaugh	811,296	Jan. 30	5530	1153-4	120	1320
[illegible]	C. R. Gabriel	809,365	Jan. 9	2608	536	120	606
[illegible]	H. F. James	811,147	Jan. 30	5157	1078	120	1278
[illegible]	F. M. Stambaugh	811,751	Feb. 6	402	87	120	1574
[illegible]	B. Tropp	812,968	Feb. 20	2781	607	120	2177
[illegible]	E. Wighton	813,189	Feb. 20	3323	733	120	2308
[illegible]	C. M. A. Diesinger	808,738	Jan. 2	225	47-8	120	[illegible]
[illegible]	H. R. Stacks	813,481	Feb. 27	3935	851	120	2477
[illegible]	E. M. Burr	813,770	Feb. 27	4477	988-9	120	2607
[illegible]	J. Murray	811,164	Jan. 30	5196	1085	120	1287

[illegible]	J. A. Chambers	[illegible]	Jan. 16	[illegible]	[illegible]	120	718
[illegible]	J. R. Spear and G. H. Harvey	[illegible]	Feb. 20	[illegible]	788-9	120	[illegible]

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Glass-drawing machine	G. H. Harvey	812,880	Feb. 20	3680	778	120	2242
Glass-drawing machine	G. H. Harvey	812,881	Feb. 20	3681	779	120	2242
Glass-flattening apparatus	J. Craig and R. E. Rowan	810,728	Jan. 23	4308	894	120	[illegible]
Glass forming apparatus. Sheet and plate	H. J. Hays	813,794	Feb. 27	4527	1000	120	2615
Glass-furnace	W. M. Anderson	808,804	Jan. 2	368	78	120	80
Glass-furnace	H. M. Brookfield	808,810	Jan. 2	371	80	120	82
Glass-furnace	S. O. Richardson, Jr.	[illegible]	Jan. 9	[illegible]	542	120	619
Glass. Machine for automatically segregating, measuring, and delivering molten	W. D. Morrison	810,167	Jan. 16	3131	648	120	[illegible]
Glass-making apparatus. Wire-	J. Heidenkamp	812,964	Feb. 20	2942	648	120	2216
Glass-making machine. Wired-	R. A. B. Walsh	810,446	Jan. 23	3769	776	120	942
Glass-making machine. Wired-plate-	R. A. B. Walsh	810,447	Jan. 23	3770	777	120	942
Glass. Manufacture of	J. R. Spear and G. H. Harvey	812,884	Feb. 20	2741	608	120	2172
Glass. Manufacture of silica	J. F. Bottomley, R. S. Hutton, and A. Paget	812,280	Feb. 13	1780	391-2	120	1881
Glass. Manufacturing	J. R. Spear	813,247	Feb. 20	3441	758	120	[illegible]
Glass-manufacturing apparatus	M. Myers	810,375	Jan. 16	[illegible]	737	120	[illegible]
Glass. Manufacturing window-	L. Appert	809,418	Jan. 9	[illegible]	339-40	120	[illegible]
Glass-molding apparatus	M. Myers	[illegible]	Jan. 16	[illegible]	[illegible]	120	[illegible]
Glass-molding machine	C. W. Sages	810,576	Jan. 23	4034	[illegible]	120	1000
Glass ornaments. Making	J. True	813,128	Feb. 20	[illegible]	701	120	2277
Glass-perforating machine	S. E. Doane	810,474	Jan. 23	3832	787	120	[illegible]
Glass-plate-grinding tool	F. Franz	[illegible]	Jan. 9	1813	373	120	[illegible]
Glass-press	W. I. Permar	811,230	Jan. 30	5400	1146-7	120	1354
Glass-rolling apparatus	A. Meyer	810,786	Jan. 23	4428	919	120	[illegible]
Glass-tank furnace	J. Proeger	811,962	Feb. 6	842	185-6	120	1680
Glass-tanks. Refractory wall for	L. J. Houze	[illegible]	Jan. 30	5315	1111	120	1314
Glass-working furnace	I. A. Milliron	812,085	Feb. 6	1063	231-2	120	1705
Glass-working machine	J. North	810,312	Jan. 16	3247	673	120	782
Glassware. Apparatus for making air-hole	F. H. Blackburn	810,462	Jan. 23	3810	783	120	[illegible]
Glassware. Apparatus for making air-hole	F. H. Blackburn	810,465	Jan. 23	3816	784	120	954
Glassware. Machine for glazing air-hole	F. H. Blackburn	810,461	Jan. 23	3808	782	120	951
Glassware. Machine for making air-hole	F. H. Blackburn	810,460	Jan. 23	3806	782	120	951
Glassware. Machine for making air-hole	F. H. Blackburn	810,464	Jan. 23	3815	784	120	953
Glassware. Machine for the manufacture of	C. E. Blue	[illegible]	Jan. 9	[illegible]	581	120	[illegible]
Glassware. Making air-hole	F. H. Blackburn	810,463	Jan. 23	3814	783	120	[illegible]
Glaziers. Sash-supporting platform for	F. J. Peters	809,321	Jan. 9	1434	290	120	[illegible]
Glove. Base-ball	E. H. Decker	812,981	Feb. 20	2791	614	120	2183
Glue-applying mechanism	J. P. Wright	[illegible]	Feb. 27	[illegible]	1090	120	2702
Gold-saving apparatus	O. H. Bagley	812,474	Feb. 13	1916	422-3	120	1957
Gold-separator	E. J. Sterling	809,586	Jan. 9	1875	409-10	120	465
Gold, silver, &c. Extracting	J. A. Comer	[illegible]	Feb. 27	4285	944	120	[illegible]
Golf-ball	F. H. Richards	[illegible]	Jan. 2	115	27	120	28
Golf-ball	W. I. Thomas	809,084	Jan. 2	806	174	120	178
Golf-ball	W. I. Thomas	809,085	Jan. 2	807	174	120	178
Gong attachment	J. T. Duff	808,908	Jan. 2	572	127	120	125
Goods-receptacle. Paneled	J. I. McVoy	809,005	Jan. 2	750	164	120	167
Governing device for gasoline-engines. Automatic	D. C. McCarroll	811,734	Feb. 6	370	81	120	1568
Governor. Emergency-	J. G. Callan and F. R. C. Boyd	[illegible]	Jan. 9	2336	484	120	546
Governor in fly-wheels. Automatic friction-	T. L. Cummings	[illegible]	Jan. 9	2262	467	120	553
Governor mechanism	H. T. Ballard	812,630	Feb. 13	2241	487	120	2021
Governor. Pressure-	R. Conrader	810,108	Jan. 16	3015	628	120	748
Governor. Pumping-engine	C. P. McMullen	810,606	Jan. 23	4201	880	120	[illegible]
Governor. Throttling-	H. C. Clay	813,087	Feb. 20	[illegible]	[illegible]	120	[illegible]
Governor. Vacuum-	R. Conrader	810,109	Jan. 16	3017	628	120	748
Grab	J. A. Thornton	812,617	Feb. 13	2213	[illegible]	120	2015
Grab-hook	F. J. Morrison	808,880	Jan. 2	454	100	120	[illegible]
Grabot-machine	J. D. Brazier and D. O. Sullivan	810,707	Jan. 23	4272	[illegible]	120	[illegible]
Grader and ditcher. Road	C. D. Edwards	810,477	Jan. 23	[illegible]	788-9	120	[illegible]
Grader. Road-	F. B. Drewes	808,820	Jan. 2	391	86	120	87
Grader. Road-	J. W. Langfitt	813,010	Feb. 20	2973	[illegible]	120	[illegible]
Grader. Road-	C. Morsing	[illegible]	Feb. 20	3072	673	120	[illegible]
Grain-binder knotter mechanism	P. Hanson	812,606	Feb. 27	4348	957-8	120	[illegible]
Grain-cleaning apparatus	H. C. Miller	812,790	Feb. 13	2551	561	120	[illegible]
Grain-conveyer	J. B. Schuman	808,470	Jan. 9	1752	[illegible]	120	419
Grain-drill seedbox	C. L. Fowle	808,979	Jan. 2	718	155	120	158
Grain-drills. Adjustable feed for	A. F. Mills	812,054	Feb. 20	3071	[illegible]	120	[illegible]
Grain elevator and conveyer. Portable	G. Wenzelmann and E. H. Overbolt	810,010	Jan. 16	2807	[illegible]	120	[illegible]
Grain-elevator. Pneumatic	W. C. Allen	812,677	Feb. 20	[illegible]	[illegible]	120	[illegible]
Grain-elevator. Portable	D. C. Hof and C. F. Ladwig	[illegible]	Jan. 9	1836	[illegible]	120	[illegible]
Grain-handling apparatus	E. E. Logan	[illegible]	Feb. 6	809	176	120	1654
Grain-shock and hay loader	M. J. Rodney, J. J. Ford, F. M. Conroy, A. Burson, and F. W. Fitch	[illegible]	Jan. 23	[illegible]	[illegible]	120	976
Grains. Cleaning	H. C. Miller	810,980	Jan. 30	4808	[illegible]	120	[illegible]
Gramophone	H. S. Mills	[illegible]	Feb. 13	[illegible]	[illegible]	[illegible]	[illegible]
Graphophone-reproducer	G. A. Manwaring	[illegible]	Feb. 6	[illegible]	[illegible]	[illegible]	1460
Grapple-fork	A. Mellquist and O. A. Westerson	[illegible]	Feb. 6	1057	[illegible]	[illegible]	1704
Grate-bar	H. B. Sperry	[illegible]	Jan. 30	[illegible]	[illegible]	[illegible]	[illegible]
Grate-bar. Sectional	W. McClave	812,071	Feb. 6	[illegible]	[illegible]	[illegible]	[illegible]
Greenhouse and other glazed structure	P. M. Pierson	[illegible]	Feb. 6	[illegible]	[illegible]	[illegible]	[illegible]
Greenhouses. Sash-lifting apparatus for	W. O. Johnston and P. J. Foley	[illegible]	Jan. 30	[illegible]	[illegible]	[illegible]	[illegible]
[illegible]	W. S. Tuttle	[illegible]	Feb. 6	1371	[illegible]	[illegible]	[illegible]
[illegible]	G. W. Golden	[illegible]	Jan. 2	[illegible]	[illegible]	[illegible]	[illegible]
[illegible] apparatus	L. H. Olmsted	[illegible]	Feb. 20	[illegible]	[illegible]	[illegible]	[illegible]
[illegible] apparatus. Shears or scissors	E. F. Davis	[illegible]	Jan. 30	[illegible]	[illegible]	[illegible]	[illegible]
[illegible] and the like. Machine for	T. [illegible]	[illegible]	Feb. 27	[illegible]	[illegible]	[illegible]	[illegible]
[illegible] device. Tool-	J. [illegible] and C. C. M. Mortensen	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]
[illegible]	[illegible] and J. N. Heald	[illegible]	Jan. 30	[illegible]	[illegible]	[illegible]	[illegible]
[illegible]	[illegible]	[illegible]	Jan. 30	[illegible]	[illegible]	[illegible]	[illegible]
[illegible]	[illegible]	[illegible]	Feb. 6	[illegible]	[illegible]	[illegible]	[illegible]
[illegible]	[illegible]	[illegible]	Feb. 6	[illegible]	[illegible]	[illegible]	[illegible]
[illegible]	[illegible]	[illegible]	Feb. 13	[illegible]	[illegible]	[illegible]	[illegible]
[illegible]	[illegible]	[illegible]	Feb. 13	[illegible]	[illegible]	[illegible]	[illegible]
[illegible]	F. T. [illegible]	[illegible]	Feb. 27	[illegible]	[illegible]	[illegible]	[illegible]

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drfs.	Official Gazette. Vol.	Official Gazette. Page.
Guide-bar frame	G. Wideman	809,549	Jan. 9	1481	200	120	223
Guy for ropes and the like	G. W. Seebach	812,457	Feb. 27	3573	848	120	2415
Gyro-pilot	S. F. McGown	809,973	Jan. 16	2720	268	120	894
Gun. Article of clothing	B. A. Lowe	810,240	Jan. 16	2324	697	120	770
Gun-barrel. Carved	W. Brendlent	810,154	Jan. 16	2147	698	120	770
Gun. Air-	A. H. Boyer	809,649	Jan. 9	2204	424	120	891
Gun. Air-	D. F. Fobley	808,889	Jan. 2	109	25	120	25
Gun attachment	A. T. Wight	809,020	Jan. 2	915	122	120	209
Gun balancing mechanism	J. F. Meigs, H. G. Jakobeson, and F. A. Sullivan.	810,033	Jan. 23	4194	388	120	1057
Gun-barrel for pistols, rifles, and ordnance	P. E. Kent	813,140	Feb. 6	1302	204	120	1784
Gun barrel-locking device. Breakdown-	A. H. Fox	810,046	Jan. 16	2263	597	120	719
Gun-barrels or the cradles of portable guns in the traveling position. Device for securing the	O. Lauber and K. Thiele	809,819	Jan. 9	2416	302	120	844
Gun-bearing	J. J. Bayne	811,540	Feb. 6	12	2-4	120	1467
Gun-carriage	S. N. McClean	813,106	Feb. 20	3166	892	120	2267
Gun-cleaning device	J. D. Coleman	810,913	Jan. 30	4088	861	120	1179
Gun. Electric	S. T. Foster, Jr	811,913	Feb. 6	731	180	120	1630
Gun elevating and sighting attachment	O. Lauber and F. Stock	809,818	Jan. 9	2414	301	120	844
Gun-elevating mechanism and sighting device	O. Lauber and F. Stock	812,979	Feb. 27	4503	1082-3	120	2295
Gun firing mechanism	J. F. Meigs and H. G. Jakobeson	812,431	Feb. 13	1843	406	120	1941
Gun firing mechanism	J. F. Meigs and H. G. Jakobeson	812,432	Feb. 13	1847	406-4	120	1942
Gun. Hammerless drop-down	C. Lobee	810,102	Jan. 16	3124	645-7	120	767
Gun-mount	J. F. Meigs and S. A. S. Hammar	810,030	Jan. 23	4192	386-7	120	1057
Gun-mount	J. F. Meigs and S. A. S. Hammar	810,031	Jan. 23	4193	387	120	1057
Gun. Recoil-	O. Lauber	809,821	Jan. 9	2419	303	120	895
Gun. Salute-	W. D. Ryan	809,782	Jan. 9	2297	476	120	837
Gun-shield	R. A. Hadfield and A. G. M. Jack	811,715	Feb. 6	342	75	120	1502
Gun-sight	J. Klingenberg	810,156	Jan. 16	3115	643	120	765
Gun-sight	W. Braithwaite	810,256	Jan. 16	3334	692	120	810
Gun-sight	G. L. Black	810,702	Jan. 23	4265	894	120	1053
Gun-sight	G. L. Black	810,703	Jan. 23	4266	895	120	1053
Gun-sight	L. Hillabrandt	810,761	Jan. 23	4369	907	120	1076
Gun-sight	H. B. Andrus	811,267	Jan. 30	5401	1127	120	1332
Gun sighting attachment	R. P. Stout and F. G. Hughes	810,381	Jan. 23	4051	833-4	120	1005
Guns. Firing mechanism for breech-loading	G. Gerdom	808,107	Jan. 2	974	201	120	215
Guns from cover. Sighting	W. Youlten	813,322	Feb. 27	4817	1002-3	120	2360
Guns in turrets, &c. Apparatus for loading	C. P. E. Schneider	811,767	Feb. 6	496	107-12	120	1508
Guns. Means for securing shields to portable	O. Lauber	809,820	Jan. 9	2418	302	120	895
Guns. Recoil-brake for automatic	J. M. Browning	812,289	Feb. 13	1648	362	120	1901
Guns. Single-trigger mechanism for	G. B. Osterhout	813,513	Feb. 27	3995	870	120	2302
Guns. Single-trigger mechanism for double-barrel	C. F. and D. M. Lefever	810,371	Jan. 23	4284	954	120	1122
Hackwaving-machine	J. Hampton, Sr	810,749	Jan. 23	4340	952	120	1071
Hair. Apparatus for promoting the growth of	N. W. Dible	810,320	Jan. 9	1508	305	120	307
Hair-drier	F. S. Emmons	808,646	Jan. 2	48	10	120	13
Hair-pin	C. E. Foresight	811,528	Feb. 6	197	42	120	1526
Hair-pin	J. M. Hartley	812,741	Feb. 13	2445	536	120	2008
Hair-pin	L. H. Flory	813,787	Feb. 27	4520	998	120	2316
Hair-pins. Mold for the manufacturing of	T. Roos	808,949	Jan. 2	947	141	120	143
Halter	M. M. Stokes	813,088	Feb. 20	3088	676	120	2260
Hame	J. A. Alexander	810,382	Jan. 23	3827	747	120	959
Hame	H. N. Kempton	812,159	Feb. 6	1201	264	120	1734
Hame	W. H. Hill	813,284	Feb. 20	3338	780	120	2344
Hame and trace connector	F. F. Hodges	808,849	Jan. 2	421	92	120	98
Hame fastener	J. Stage	812,488	Feb. 13	1588	418	120	1963
Hammer and spike-puller. Claw-	G. G. Greene	812,682	Feb. 13	2377	626	120	2038
Hammer. Tack-	C. F. Filer	812,983	Feb. 20	3038	645	120	2213
Hammer for forging leaf metal	E. S. Brett	811,788	Jan. 30	5350	1167-8	120	1573
Hammer for forging tapered work. Power-	H. E. Graban	814,088	Feb. 27	4961	1086	120	2705
Hammer. Forging-	W. E. Sheehy	811,589	Feb. 6	289	68	120	1549
Hammer. Power-	R. A. Norting	813,169	Feb. 20	3178	694-5	120	2269
Hammer. Power-	M. T. Weston	809,969	Jan. 9	1489	300	120	880
Hammer. Power-	A. Bragg	810,095	Jan. 30	4676	975	120	1174
Hammer-handle	H. L. Hohlfeld	810,953	Jan. 30	4770	993	120	1192
Hammer-handle	H. L. Hohlfeld	811,889	Feb. 6	777	189	120	1627
Hammer. Pneumatic	G. J. Nyssen	811,169	Jan. 30	5169	1088	120	1328
Hammer. Riveting	M. N. Werts	813,327	Feb. 13	1763	388	120	1955
Hand. Artificial	A. Gregan	808,797	Jan. 9	2283	469-5	120	886
Hand-bag handle.	Flexible handle.						
Hand-bag handle.	Flexible handle.						
Hand-bag handle.	Rod-bend shifter han- dle.						
Hand-bag handle.	Tool-handle.						
Hand-bag.	Lidless bag.						
Hand-bag.	Slipper and flapper bag-						
Hand-bag.	Spring-slot-screen bag-						
Hand-bag.	Tie-fastener.						
Hand-bag hanger.	Type-bar hanger.						
Hand-cart	W. E. Nicherson	813,443	Feb. 13	1885	410-11	120	1946
Hand-cart	G. E. Bennett	813,513	Feb. 20	3281	812	120	2341
Hand-cart	J. J. Crandon	813,553	Feb. 27	4383	1	120	2317
Hand-cart	T. [illegible]	[illegible]	Feb. 6	[illegible]	[illegible]	120	[illegible]
Hand-cart	[illegible]	[illegible]	Jan. 9	[illegible]	[illegible]	[illegible]	[illegible]
Hand-cart	[illegible]	[illegible]	Jan. 9	[illegible]	[illegible]	[illegible]	[illegible]
Hand-cart	[illegible]	[illegible]	Jan. 9	[illegible]	[illegible]	[illegible]	[illegible]
Hand-cart	J. [illegible]	[illegible]	Jan. 16	[illegible]	[illegible]	[illegible]	[illegible]
Hand-cart	W. [illegible]	[illegible]	Jan. 23	[illegible]	[illegible]	[illegible]	[illegible]
Hand-cart	G. [illegible]	[illegible]	Jan. 30	[illegible]	[illegible]	[illegible]	[illegible]
Hand-cart	M. [illegible]	[illegible]	Jan. 30	[illegible]	[illegible]	[illegible]	[illegible]
Hand-cart	A. C. [illegible]	[illegible]	Jan. 30	[illegible]	[illegible]	[illegible]	[illegible]

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drfs.	Official Gazette. Vol.	Official Gazette. Page.
Harrow	W. L. Oran	811,575	Feb. 6	53	15	120	1502
Harrow	W. H. Bond	813,282	Feb. 27	4589	1083	120	2347
Harrow-tooth	J. M. Ulah	811,783	Feb. 6	684	82	120	1574
Harvester and husker. Corn	T. Gledish	812,738	Feb. 13	2438	524-5	120	2009
Harvester. Bean-	C. Rushle	808,761	Jan. 9	2288	472-5	120	887
Harvester. Beet-	C. L. Jolly	809,694	Jan. 9	2197	455	120	845
Harvester-binders. Shocking attachment for	J. Calder	810,139	Jan. 16	3170	657-9	120	776
Harvester. Corn-	D. E. Anthony	810,699	Jan. 23	4048	879-80	120	1049
Harvester. Corn-	J. F. Lemper	813,218	Feb. 13	1450	338	120	1783
Harvester. Corn-	D. T. Lowe	812,574	Feb. 13	2186	482-3	120	2023
Harvester platform-adjusting means. Seed-	T. J. Campbell	812,240	Feb. 20	3033	630-1	120	2218
Harvester-reel	J. Pearce	809,316	Jan. 2	1170	243	120	1217
Harvester. Seed-	T. J. Campbell	811,694	Feb. 6	317	69-9	120	1510
Hasp-fastener	J. H. Lawrence	812,348	Feb. 13	1968	370	120	1939
Hat	G. D. Lorsch	812,680	Feb. 13	2380	492	120	2037
Hat and coat rack	A. W. Good	811,711	Feb. 6	538	78	120	1561
Hat. Bathing-	F. E. Herndon	809,947	Jan. 16	2800	534	120	874
Hat-crown protector	M. Olldort	813,819	Feb. 20	3304	809	120	2328
Hat-fastener	J. C. Morrison	808,674	Jan. 2	99	28	120	24
Hat-fastening device	B. Leeser	813,903	Feb. 27	4785	1089	120	2688
Hat. Lady's automobile-	E. Duplessis	811,063	Jan. 30	4880	1004	120	1257
Hat-sizing machine	H. A. Saks	811,178	Jan. 30	5334	1082	120	1308
Hat-tip-rubbing machine	W. H. Lyons	813,666	Feb. 27	4270	938-9	120	2288
Hatband-clasp	W. H. Lum	811,309	Jan. 30	5479	1142	120	1349
Hatchet. Shingling-	E. A. Burt and H. Harris	811,138	Jan. 30	5096	1068	120	1266
Hatchet. Shingling-	R. B. Allison	810,897	Jan. 23	4076	849	120	1019
Hatchway cover. Ship's-	W. V. Brown	813,408	Feb. 13	1799	394	120	1951
Haulage system	E. Edge	810,126	Jan. 16	3168	656-7	120	776
Hay and manure gatherer and loader	J. Peterson	810,731	Jan. 23	4317	897	120	1045
Hay-carrier	P. A. Myers	808,678	Jan. 2	106	24-5	120	25
Hay-carrier	R. Miller	810,492	Jan. 23	3879	795-7	120	940
Hay-elevator	D. E. Rowland and P. Bacher	811,572	Feb. 6	74	15	120	1501
Hay elevator and conveyer	A. Maliquist and O. A. Westerson	808,964	Jan. 16	2761	585-6	120	889
Hay-fork	A. Anderson and W. E. Palmer	812,060	Feb. 6	1055	230	120	1704
Hay-fork. Tilting	H. O. Sparks	811,398	Jan. 30	4389	1126	120	1332
Hay-loader	S. M. Wilmot	810,925	Jan. 30	4949	1020	120	1218
Hay-loader	J. W. Latimer	809,998	Jan. 9	2008	416-18	120	872
Hay-loader	F. A. Johnston	812,313	Feb. 13	1414	307-8	120	1942
Hay-loader	S. V. Ptice	812,783	Feb. 13	2543	550	120	2033
Hay-net	M. H. Allwardt	813,581	Feb. 27	4126	906	120	2332
Hay-press	T. R. Hackworth	812,262	Feb. 13	1483	328-7	120	1895
Hay-press	A. Lorens	810,275	Jan. 16	3275	680	120	830
Hay-press head-block	E. E. Drake	812,013	Feb. 20	2961	636	120	2235
Hay-press power	W. S. Bryant	813,409	Feb. 27	3781	830	120	2453
Hay-racks or the like from or to their running-gear. Device for removing or replacing	G. P. Finch	808,633	Jan. 2	27	6	120	8
Hay rake and loader. Side-delivery	M. Rew	808,913	Jan. 2	580	126	120	127
Hay-rake attachment	J. H. Sutherland	811,745	Feb. 6	390	85	120	1571
Head-block	H. C. Lindsly	812,827	Feb. 20	2745	604	120	2175
Head-coupling. Separable	W. Prellwitz	808,665	Jan. 2	85	19	120	21
Header connection	J. P. Sneddon	810,471	Jan. 23	4210	371	120	1042
Heading-machine	E. C. Meyer	812,248	Feb. 20	3049	796	120	2220
Headlight-cover	H. M. Davenport	809,529	Jan. 9	1944	381-3	120	868
Headlights of locomotives. Operating	E. A. Edwards	812,889	Feb. 20	2981	644	120	2215
Headstone and grave-marker	W. H. Donaldson	812,682	Feb. 13	1376	329	120	1787
Headwear	A. H. Howard	809,516	Jan. 9	2049	424	120	879
Heat-cartridge and protective apparatus. Self-soldering	F. and A. Taylor	813,467	Feb. 27	3801	831	120	2340
Heat-controlling apparatus	F. B. Cook	812,989	Feb. 20	2917	643	120	2211
Heat-non-conducting material	G. Clements and J. M. Hostler	811,468	Jan. 30	5794	1211	120	1413
Heat-storing compound	G. H. Miller and E. Jarek	810,243	Jan. 16	3513	734	120	889
Heater:	F. O. Spieske	811,730	Feb. 6	388		120	1574
See Electric heater. Electrical heater. Feed-water heater. Iron-heater. Liquid-heater. Steam-heater. Tank-heater. Tire-heater. Water-heater.							
Heater	J. L. Klemme	809,807	Jan. 9	1891	338	120	858
Heater	J. Silverberg	809,888	Jan. 9	1781	320	120	858
Heater	A. W. Banks	810,027	Jan. 23	4186	864	120	1057
Heater	W. H. and W. G. Calhoun	811,189	Jan. 30	5236	1051	120	1308
Heater	W. H. Brown	811,223	Jan. 30	5258	1060	120	1308
Heater	W. H. Ramsley and W. E. Lamerton	811,338	Jan. 30	5322	1076	120	1332
Heater	A. O'Hare and C. B. Weston	812,889	Feb. 20	2988	650	120	2222
Heater and folding furniture. Combined	W. C. Jaques	812,988	Feb. 20	3028	658	120	2222
Heating and illuminating device. Combined	S. S. St. Hoor	811,992	Feb. 20	2788	618	120	2222
Heating apparatus	W. S. Washburn	809,184	Jan. 2	1	1	120	1
Heating apparatus	O. S. McCurdy	809,187	Jan. 2	1	817-18	120	1
Heating apparatus. Hot-water	W. M. Bonner and H. Walton	809,188	Jan. 2	1	1	120	1
Heating by steam	F. A. Gorton	811,530	Feb. 6	1	1	120	1
Heating system. Electrical	A. D. Norton	811,731	Feb. 6	1	1	120	1
Heating system. Hot-air	W. H. Baker	811,732	Feb. 6	1	1	120	1
Heating system. Hot-water	W. J. Keith	811,733	Feb. 6	1	1	120	1
Heating system. Low-pressure	A. [illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]
Heel-compressing machine	F. [illegible] and J. Nicholls	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]
Heel-nailing machine for operating for wire	F. [illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]
Heel-nailing machine	H. [illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]
Heel-nailing machine	W. W. [illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]
Heels and soles. Machine for finishing and working	W. H. [illegible] and J. F. Leary	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]
Helm. Treating	G. W. [illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]
Hinge	F. B. Hinkens	810,144	Jan. 16	3183	660	120	777
Hinge	J. [illegible]	[illegible]	Jan. 2	[illegible]	[illegible]	[illegible]	[illegible]

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
[illegible]	E. C. Hall	[illegible]	Jan. 16	[illegible]	608	120	737
[illegible]	M. L. Peter and W. J. Searist	811,740	Feb. 6	[illegible]	[illegible]	120	1570
[illegible]. Tool for marking and twisting	W. J. McIntyre	[illegible]	Feb. 20	[illegible]	790-1	120	[illegible]
[illegible]	T. F. Saling	[illegible]	Jan. 2	[illegible]	222	120	225
[illegible] for step-ladders	C. Tuttenborn	[illegible]	Feb. 27	[illegible]	[illegible]	120	2613
[illegible] Gate-	J. A. Jones	808,757	Jan. 2	[illegible]	58	120	62
[illegible] Wire-	C. D. Reese and F. T. Austin	809,124	Jan. 2	1020	211	120	224
[illegible] device	G. W. Hazlewood and H. C. Robinson	[illegible]	Feb. 20	[illegible]	[illegible]	120	[illegible]
[illegible]	W. H. Luquire	[illegible]	Jan. 2	781	162	120	165
[illegible]	A. Auchly	[illegible]	Feb. 13	1771	387-8	120	1927
[illegible]	E. Y. Moore	811,077	Jan. 30	[illegible]	1044-5	120	1347
[illegible] Hydraulic	U. Harvey	808,655	Jan. 2	60	15	120	17
[illegible] or elevator	C. A. Juhl	809,086	Jan. 2	[illegible]	186	120	192

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Hot-water-circulating apparatus	A. B. Reck	809,013	Jan. 2	775	167	120	171
Household-cleaner	J. Wolff	813,320	Feb. 20	[illegible]	787	120	[illegible]
Hub	J. C. Hawkins	810,754	Jan. 23	[illegible]	905	120	1074
Hub	L. S. Lachman	811,308	Jan. 30	5460	1149	120	1347
Hub and spindle	J. Boatright	811,541	Feb. 6	14	4	120	1487
Hub and spindle. Vehicle	S. Sterling	812,775	Feb. 13	[illegible]	551	120	2074
Hub for vehicles. Spring-	W. M. Lefort	812,143	Feb. 6	1230	267	120	1741
Hub. Two-speed	C. W. Svenson	813,464	Feb. 27	[illegible]	853	120	2479
Hub. Two-speed	C. W. Svenson	813,465	Feb. 27	[illegible]	854	120	2479
Hub. Wheel-	C. C. Brabant and W. C. Beaufore	809,666	Jan. 9	2142	444	120	501
Hub. Wheel-	S. P. Mills	813,650	Feb. 27	4279	941	120	[illegible]
Hub-wrench	M. F. Edwards	812,334	Feb. 13	[illegible]	365	120	1904
Hydrant	V. H. Mills	808,859	Jan. 2	453	100	120	101
Hydrant	E. Cronstedt	812,407	Feb. 13	1806	396	120	[illegible]
Hydraulic intensifier. Steam	T. E. Holmes	813,209	Feb. 20	3374	743-4	120	[illegible]
Hydraulic lubricator	R. Thompson and J. A. Sharman	810,990	Jan. 30	4875	1015	120	1219
Hydrocarbon-burner	J. R. Boone	810,253	Jan. 16	3326	690-1	120	[illegible]
Hydrocarbon-burner	F. J. Woodhead	812,712	Feb. 13	2368	524	120	2049
Hydrocarbon-motor	A. A. Low	812,860	Feb. 20	[illegible]	591	120	[illegible]
Hydrometer test-jar	F. Storm	810,361	Jan. 16	[illegible]	732	120	[illegible]
Hygrometer. Automatic indicating and regulating	S. W. Cramer	809,672	Jan. 9	2161	447	120	507
Hygrometer for regulating humidifying and heating systems	S. W. Cramer	811,383	Jan. 30	5617	1175-6	120	1379
Ice-bags, helmets, and the like. Stopper for	C. W. Meinecke	810,784	Jan. 23	4426	918	120	[illegible]
Ice-box	P. H. Wolfram	810,015	Jan. 16	2819	583	120	703
Ice-can filler	G. S. Bowling	808,809	Jan. 2	369	80	120	82
Ice-cream machine	J. J. Glauser	813,375	Feb. 20	3705	814	120	[illegible]
Ice-cream mold and dipper	A. E. Bennett	809,663	Jan. 9	2138	443	120	500
Ice-creeper	J. M. Gray	810,464	Jan. 23	[illegible]	790	120	961
Ice-crusher	O. Harsch	812,149	Feb. 20	[illegible]	718	120	[illegible]
Ice-crusher. Portable	J. A. Rickabaugh	812,453	Feb. 13	1885	415	120	[illegible]
Ice-machine	R. S. Cates	808,898	Jan. 2	551	122	120	121
Icing cake and other pastry. Machine for	C. W Carter	813,857	Feb. 27	4667	1032-3	120	[illegible]
Igniter. Electric	H. N. Motsinger	810,963	Jan. 30	4811	1000	120	1205
Illuminant	J. Lewy	809,121	Jan. 2	906	......	120	219
Incandescent mantles. Apparatus for firing	H. Heidorn	812,743	Feb. 13	2447	537	120	2063
Incubator-alarm	W. S. Freeman	810,931	Jan. 30	4741	989	120	1190
Index. Book-	L. R. Smith	813,748	Feb. 27	4437	979	120	[illegible]
Index. Cabinet-	C. H. Payne	809,741	Jan. 9	2280	472	120	534
Index-card	J. S. Duncan and O. N. Tevander	808,909	Jan. 2	574	127	120	126
Index drawer. Card-	W. Lumley	809,314	Jan. 9	1423	298	120	347
Index. Station-meter	D. McDonald and L. M. Scofield	809,127	Jan. 2	1003	207	120	221
Indicating and recording device	W. H. Bristol	813,689	Feb. 27	4332	953	120	2576
Indicator:							
See Car-indicator. Cash-indicator. Lathe-indicator. Letter-box time-indicator. Liquid-indicator. Oil-tank indicator. Speed-indicator. Station-indicator. Street and station indicator. Tank-indicator.							
Indicator	P. S. Buckminster	811,542	Feb. 6	15	4	120	1488
Indicator	J. P. Murphy	812,354	Feb. 13	1691	372	120	1911
Indigo. Chlorinating	A. Schmidt and E. Kronholz	812,506	Feb. 13	2185	......	120	2011
Induction-apparatus contact device	R. O. Hood	809,262	Jan. 2	1305	286	120	287
Induction-coil	J. Splitdorf	812,607	Feb. 13	2190	479	120	2013
Induction-coil vibrator	R. Varley	809,235	Jan. 2	1220	264	120	270
Induction-motor	A. L. Cushman. (Reissue)	12,431	Jan. 2	[illegible]	273	120	[illegible]
Ingots. Producing compound	M. Weiss	809,871	Jan. 9	2511	521	120	[illegible]
Inhaler	J. Barnes	809,662	Jan. 9	2137	442	120	500
Inhaler	E. C. Jones	810,769	Jan. 23	[illegible]	911	120	1081
Inhaler	C. S. Birt	812,344	Feb. 20	[illegible]	[illegible]	120	[illegible]
Inhaler and exhaler	J. L. Hill	813,426	Feb. 27	3815	[illegible]	120	2461
Initiating apparatus	L. D. Cook	811,702	Feb. 6	225	71	120	[illegible]
Injector	L. Rhodes	812,232	Feb. 13	1456	319	120	[illegible]
Injector-burner	L. K. Leahy	811,935	Feb. 6	801	176	120	[illegible]
Injector connection. Locomotive-boiler	J. McKeown	810,877	Jan. 23	[illegible]	967	120	1128
Ink-well	S. G. Baldwin	[illegible]	Jan. 9	2547	[illegible]	120	[illegible]
Inking mechanism for presses	C. Williams	813,125	Feb. 20	3217	704-5	120	[illegible]
Inkstand	E. J. Osgood	811,420	Jan. 30	5705	1194	120	[illegible]
Inkstand	F. M. Ashley	811,536	Feb. 6	5	1-2	120	[illegible]
Inner soles and the like. Making	A. Thoma	812,363	Feb. 13	1755	[illegible]	120	[illegible]
Inner soles. Reinforcing fabric for	A. Thoma	812,364	Feb. 13	1758	[illegible]	120	[illegible]
Insect-catcher	J. Samuels	811,875	Feb. 6	[illegible]	142	120	[illegible]
Insole	A. R. Tirrell	811,360	Jan. 30	[illegible]	1124	120	[illegible]
Instruction. Method of	H. R. Fuller	812,197	Feb. 13	[illegible]	301	120	1842
Instruments. Self-playing mechanism for	F. W. Hedgeland	[illegible]	Jan. 9	[illegible]	[illegible]	120	457
Insulated rail-joint	M. W. Thomson	813,840	Feb. 27	[illegible]	[illegible]	120	[illegible]
Insulated rail-joint	B. G. Braine	[illegible]	Feb. 27	[illegible]	[illegible]	120	[illegible]
Insulated receptacle for panel and switch boards	W. C. Tregoning	[illegible]	Jan. 9	[illegible]	[illegible]	120	[illegible]
Insulating attachment for electric fixtures	A. A. Knudson	[illegible]	Feb. 13	[illegible]	[illegible]	120	[illegible]
Insulating material	C. C. Hall	811,778	Feb. 6	[illegible]	......	120	[illegible]
Insulating material. Composite	G. Kelly	811,227	Jan. 30	[illegible]	......	120	[illegible]
Insulating pipes. Flanged-joint casing for heat-	M. J. Loughman	[illegible]	Jan. 16	2715	[illegible]	[illegible]	[illegible]
Insulator	H. B. Crouse	[illegible]	Feb. 20	[illegible]	[illegible]	[illegible]	[illegible]
Insulator-clamp	W. G. Clark	810,818	Jan. 23	[illegible]	[illegible]	[illegible]	[illegible]
Insulator. Electric-light-fixture	L. McCarthy	[illegible]	Jan. 2	[illegible]	[illegible]	[illegible]	[illegible]
Internal-combustion engine	S. S. Williams	[illegible]	Jan. 2	[illegible]	[illegible]	[illegible]	[illegible]
Internal-combustion engine	T. Wright	[illegible]	Jan. 2	[illegible]	[illegible]	[illegible]	[illegible]
Internal-combustion engine	H. C. Holloway	[illegible]	Jan. 9	[illegible]	[illegible]	[illegible]	[illegible]
Internal-combustion engine	C. M. Steele	[illegible]	Feb. 20	[illegible]	[illegible]	[illegible]	[illegible]
Invalid-lift	O. B. Thompson	[illegible]	Jan. 2	[illegible]	[illegible]	[illegible]	[illegible]
[illegible]-machine	J. Q. Wimer	[illegible]	Feb. 20	2771	[illegible]	[illegible]	[illegible]
Iron:							
See Laundry-iron. Soldering-iron.							
Iron-bending machine. Cast-	B. S. Cowles	813,141	Feb. 20	[illegible]	715	120	[illegible]
Iron compounds. Making stable non-alcoholic	K. Dieterich	[illegible]	Jan. 2	[illegible]	......	120	[illegible]

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drfg.	Official Gazette. Vol.	Official Gazette. Page.
Iron-heater	M. G. Hendley	810,650	Jan. 23	4177	863	120	1034
Iron or steel. Manufacturing	E. Fleischer	809,291	Jan. 9	1389	278	120	337
Iron sponge. Manufacturing	G. Grondal	812,174	Feb. 6	1307	285–6	120	1756
Ironing-board	D. Messer	810,196	Jan. 16	3129	646	120	768
Ironing-board. Knockdown	E. E. Tarr	813,257	Feb. 20	3462	763	120	2228
Ironing board. Sleeve	J. F. McArthur	810,964	Jan. 30	4614	1000	120	1206
Jack:							
See Lifting-jack. Pump-jack. Pressure and moving jack. Rail-jack. Railway-track jack.							
Jack-cord distributer	B. Salzmann	812,236	Feb. 13	1461	320	120	1858
Jack for lifting and transporting motor-cars, &c	H. Adams	811,116	Jan. 30	5077	1061	120	1263
Jack for steam-dredges, &c	J. G. Fairbanks and G. L. Sauer	811,709	Feb. 6	334	73	120	1560
Jack-spools, warp-beams, or the like. Head for	S. T. Packard	810,506	Jan. 23	3895	800	120	973
Jar:							
See Hydrometer test-jar.							
Jar-closure	E. C. Hill	810,760	Jan. 23	4368	907	120	1076
Jar-closure	F. G. Burley	813,276	Feb. 20	3493	770	120	2335
Jar-cover	F. Canfield	810,106	Jan. 16	3013	628	120	747
Jar-cover. Tool for operating upon	W. C. Smith	810,984	Jan. 30	4848	1009	120	1213
Jar-holder	A. Fox	813,789	Feb. 27	4522	906	120	2617
Jars and other vessels. Closure device for glass	W. B. Fenn	810,736	Jan. 23	4323	898	120	1066
Jars, glasses, &c. Cover for	A. W. Ziegler	810,834	Jan. 23	4505	938	120	1106
Jewelry-catch	R. Kollmar	808,760	Jan. 2	273	59	120	62
Joint:							
See Bracelet-joint. Rail-joint. Insulated rail-joint. Railway-joint. Pipe-joint. Railway-rail joint. Pipe-section coupling-joint.							
Joint connection. Bottless	J. E. Beaver	811,473	Jan. 30	5766	1207	120	1409
Joint for sheet metal and the like	E. P. Lehmann	808,766	Jan. 2	281	61	120	64
Journal-bearing	A. Lipschutz	809,708	Jan. 9	2223	461	120	521
Journal-box dust-guard	E. Posson	812,523	Feb. 13	2024	443–4	120	1980
Journal-box lid	A. Lipschutz	813,504	Feb. 27	3972	871–2	120	2408
Journal-box oil-collar	J. F. Hill	811,637	Feb. 6	207	44	120	1530
Journal-lubricator	A. Berry	812,015	Feb. 20	2783	612	120	2182
Jumping and vaulting apparatus	O. M. Lissak	811,417	Jan. 30	5681	1190	120	1301
Kadonas. Making	H. S. Blackmore	809,900	Jan. 9	2561	530	120	595
Kettle	A. T. Keene	813,899	Feb. 27	4750	1049	120	2666
Kettle and lid securing and operating means therefor	C. S. Pierce	809,461	Jan. 9	1737	359	120	415
Kettle. Plaster	S. W. Womack	813,192	Feb. 20	3838	734	120	2208
Kettle. Warming	H. Stange	810,229	Jan. 16	3278	679	120	799
Key:							
See Telegraph-key.							
Key-holder	R. H. Piper	810,081	Jan. 16	2966	619	120	737
Key-lock	A. N. Massie	812,663	Feb. 13	2294	469	120	2081
Key-ring	J. Calvo	811,693	Feb. 6	316	68	120	1566
Key-ring	A. R. See	812,458	Feb. 13	1890	416	120	1951
Keyboard-machine attachment	E. V. Beals	812,542	Feb. 13	2059	452–5	120	1987
Keyless lock. Combination	J. W. Wachter and B. H. Prendergast.	813,992	Feb. 27	4927	1090	120	2701
Kiln:							
See Cement-kiln. Updraft-kiln. Drying-kiln.							
Kiln	H. T. Epperson	812,029	Feb. 6	1008	220	120	1693
Kiln-door	N. R. Deppe	812,728	Feb. 13	2423	531	120	2057
Kilns. Preventing the formation of seaffolds in	T. C. King	810,059	Jan. 16	2936		120	720
Kinetoscope for advertising	W. D. Carter	813,880	Feb. 27	4680	1034	120	2651
Kite. Bird-	P. Weles	810,690	Jan. 23	4240	878	120	1048
Kneading-tray	W. C. Black	810,101	Jan. 16	3006	626	120	746
Knife:							
See Auger-bit knife. Draw-knife. Cutting and reaming knife. Pocket-knife.							
Knife	R. Kny	812,009	Feb. 20	2972	655	120	2222
Knife-[illegible] machine	C. H. J. Dilg	812,142	Feb. 20	3254	715–16	120	2386
Knife, fork, can-opener, and saw. Combined	C. Hellmuth	812,424	Feb. 13	1834	402	120	1939
Knife-[illegible] machine	F. Frieg	812,489	Feb. 13	1952	430	120	1964
[illegible] machine	B. T. Steber	808,784	Jan. 2	320	71	120	73
[illegible] machine	B. T. Steber	810,578	Jan. 23	4044	892–3	120	1008
[illegible] machine	J. McNamee	810,794	Jan. 23	4445	922–3	120	1092
[illegible] machine	C. H. Whitcher	812,314	Feb. 13	1626	357	120	1808
[illegible] machine. Circular	H. Stoll, Jr	813,351	Feb. 20	3482	761	120	2325
[illegible] machine stop-motion	J. B. Parton and E. I. O'Neill	811,577	Feb. 6	84	17–18	120	1504
[illegible] machine stop-motion	E. Tompkins	808,284	Jan. 2	1228	264	120	270
[illegible] support	G. W. Ruth	813,240	Feb. 20	3430	756	120	2221
[illegible] Automatic	K. Booth	808,627	Jan. 2	15	4	120	6
[illegible]	J. H. Farrell	811,209	Jan. 30	5288	1106	120	1308
[illegible]	N. Warner and G. W. Jacobs	813,980	Feb. 27	4813	1062	120	2679
[illegible]	O. E. Thompson. (Reissue)	12,436	Jan. 16	2832	748–6	120	578
[illegible] and the like to bottles and other articles. Ma- [illegible] for applying	D. G. Brown	812,634	Feb. 13	2245	488	120	2022
[illegible]	B. W. Tucker	808,955	Jan. 2	665	143–5	120	145
[illegible]	D. W. Knisely	812,986	Feb. 20	2837	624–5	120	2193
[illegible]	W. H. Cling	813,949	Feb. 27	4844	1039	120	2664
[illegible]	M. Ries	811,572	Feb. 6	642	141	120	1621
[illegible] or studs. Machine for setting	F. R. Glass	811,898	Feb. 6	571	125–6	120	1606
[illegible] Machine for inserting	F. R. Glass	811,899	Feb. 6	567	126	120	1605
[illegible] or varnish	J. P. Ibart	811,883	Feb. 6	53		120	1499
[illegible] Combined stop-	R. C. Laynor	813,921	Feb. 27	4889	1085	120	2695
[illegible]	A. J. Alspeah	809,888	Jan. 16	2881	644	120	698
[illegible]	M. Potter	810,170	Jan. 16	3136	689	120	770
[illegible]	J. K. Hasker	809,857	Jan. 2	857	188	120	199
[illegible]	F. Van Alstine	813,620	Feb. 13	2220	494	120	2017
[illegible]	J. V. Collins	809,778	Jan. 9	2822	492	120	549
[illegible]	G. W. Bass	811,616	Feb. 6	169	36	120	1529

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drfg.	Official Gazette. Vol.	Official Gazette. Page.
Lamp bracket. Electric	G. C. Wright	810,244	Jan. 16	2904	685	120	804
Lamp-burner	W. M. Merchant	808,770	Jan. 2	268	64	120	68
Lamp-burner	D. Joyal	809,112	Jan. 2	983	208	120	217
Lamp-burner	M. O. Amundson	810,457	Jan. 23	3802	781	120	960
Lamp-burner	W. G. Rankin	813,172	Feb. 20	3306	727	120	2397
Lamp-burner	F. W. Dressel	813,302	Feb. 20	3357	738	120	2307
Lamp for burning oil, &c	G. Bentote	813,940	Feb. 27	4831	1066	120	2662
Lamp. Gas-	R. M. Dixon	813,487	Feb. 27	3939	865	120	2491
Lamp-guard	E. C. Dickinson	810,206	Jan. 16	3356	696	120	815
Lamp-guard	M. M. Wood	811,810	Feb. 6	519	116	120	1586
Lamp. Incandescent electric	H. C. Parker	812,872	Feb. 20	2703	606	120	2164
Lamp. Incandescent gas-	J. F. W. Jost	809,810	Jan. 9	2403	498	120	561
Lamp. Incandescent gas-	L. C. Fuller	811,080	Jan. 30	4939	1035	120	1238
Lamp. Inverted incandescent gas-	T. Steinicke	812,961	Feb. 20	2857	637	120	2205
Lamp. Kerosene-	J. Wilentz	812,249	Feb. 13	1490	325–6	120	1864
Lamp. Magnesium flash-	E. F. Harrison	813,148	Feb. 20	3295	717	120	2287
Lamp. Oil-	T. S. Tarling	813,331	Feb. 20	3623	794–5	120	2281
Lamp outfit. Portable electric-	A. Wilson	812,710	Feb. 13	2385	524	120	2040
Lamp. Pendent gas and other	F. A. Andrews	812,111	Feb. 6	1151	253	120	1732
Lamp regulator. Gas-	O. M. J. Olsen and W. Gates	811,084	Jan. 30	5016	1048	120	1240
Lamp remover, replacer, and cleaner. Incandescent-electric-	C. J. Rundberg	809,985	Jan. 16	2753	566	120	660
Lamp safety-shield. Miner's-	R. I. Jenkins	809,111	Jan. 2	981	208	120	217
Lamp. Signal-	J. Heinisch	813,700	Feb. 27	4354	958	120	2580
Lamp. Signal-	A. H. Handlan, Jr	813,985	Feb. 27	4724	1044	120	2661
Lamp socket. Incandescent-	N. Marshall	811,161	Jan. 30	5191	1084	120	1286
Lamp socket. Incandescent-	R. R. Miller	813,568	Feb. 27	4109	901	120	2529
Lamp socket. Incandescent-electric-	A. P. Seymour	811,253	Jan. 30	5375	1121	120	1237
Lamp sockets. Adapter for incandescent-	S. E. Doane	810,473	Jan. 23	3831	786	120	957
Lamp support. Incandescent-	E. R. Gill	811,837	Feb. 6	565	125	120	1605
Lamp. Vapor-	E. Seitz	810,226	Jan. 16	3271	678	120	797
Lamps and lanterns. Apparatus for supplying liquid fuel to burners of	T. C. Purdy	813,286	Feb. 20	3425	754	120	2230
Lamps. Apparatus for automatically lighting gas-	W. Kissel	809,814	Jan. 9	2409	499	120	562
Lamps, &c. Electric switch for street arc-	P. H. F. Spies	810,357	Jan. 16	3549	730	120	858
Lamps. Making incandescent	F. H. Blackburn	810,466	Jan. 23	3818	784	120	954
Lamps. Means for controlling mercury-vapor electric	P. H. Thomas	809,643	Jan. 9	2107	436	120	498
Lamps of motor road-vehicles. Mounting and automatically adjusting the	L. Girardot	812,201	Feb. 13	1395	303	120	1843
Lamps. Thermostatic switch for incandescent electric	J. V. A. Kimmey, Jr	809,700	Jan. 9	2207	457	120	517
Lamplighter. Electric	P. W. and A. A. Arduino	810,284	Jan. 23	3626	747	120	909
Land-clearing machine	C. H. McNally	809,523	Jan. 9	1851	384	120	440
Land-roller	J. H. Wolf	810,453	Jan. 23	3792	780	120	948
Land-roller	W. J. Dunham	811,909	Feb. 6	721	157	120	1637
Landside-wheel	C. D. Edwards	810,478	Jan. 23	3841	789	120	959
Lantern	A. R. Pritchard	809,462	Jan. 9	1730	399	120	416
Lantern	D. C. Kline	809,605	Jan. 9	1826	376	120	435
Lantern burner device. Tubular-	D. C. Kline	808,030	Jan. 2	607	133	120	134
Lantern-globe rack	C. F. Bowmaster	809,622	Jan. 9	1660	341	120	397
Lantern. Signal-	C. H. Dressel	813,781	Feb. 27	4511	996	120	2614
Lap-robe	L. S. Stroock	811,237	Jan. 30	5532	1154	120	1261
Last-thimble	E. S. Morton	813,812	Feb. 27	4562	1009	120	2625
Lasts. Heel-aligning means for	E. C. Wright	810,204	Jan. 23	4071	836–9	120	1009
Latch	A. Shepard	809,534	Jan. 9	1869	388	120	445
Latch	J. O. Steensland and W. Weaver	811,880	Feb. 6	667	146	120	1626
Latch	J. L. Greenwood	813,376	Feb. 20	3707	815	120	2370
Latch and lock. Sliding-door	G. C. Emmert	810,927	Jan. 30	4731	967–8	120	1188
Latch device	C. C. Shive	813,906	Feb. 27	4151	910	120	2537
Latch. Door-	E. H. Roy	812,092	Feb. 6	1115	248	120	1715
Latch. Gate-	G. Warner	809,544	Jan. 9	1886	392	120	449
Latch. Gate-	J. S. Drennan	809,606	Jan. 9	2031	421	120	478
Latch. Refrigerator-door	E. J. Wirfs	812,107	Feb. 6	1144	251	120	1722
Lathe attachment	M. C. Zange	809,353	Jan. 9	1497	302–3	120	365
Lathe attachment	G. H. Mong	809,717	Jan. 9	2288	495	120	524
Lathe-dog	T. C. Patterson	813,445	Feb. 27	3956	845	120	2471
Lathe follower-rest	W. Lodge and N. D. Chard	809,512	Jan. 9	1832	378–9	120	437
Lathe-indicator	G. E. Peterson	811,544	Jan. 30	5382	1118	120	1322
Lathe. Screw-making and metal-turning	H. P. Trueman and E. D. Cleghorn.	808,987	Jan. 2	537	116–18	120	117
Lathe work-rest	W. F. Parsons	808,676	Jan. 2	108	23	120	25
Lathes. Change-speed gearing for engine-	H. L. Flather	810,634	Jan. 23	4147	857–8	120	1027
Lathes. Knife-holder for veneer-	M. H. Norton	813,078	Feb. 6	1091	229	120	1711
Laundries and the like. Garment-marker for	D. C. Voss	808,788	Jan. 2	285	73	120	76
Laundry-iron. Electric	E. H. Richardson	809,830	Jan. 9	1861	387	120	442
Lavatory-fixture	A. P. Creque	812,832	Feb. 20	2824	574–5	120	2147
Lawn-edger	G. Vincent	813,530	Feb. 27	4044	886	120	2515
Lawn-trimmer	E. Pierce and E. Laux	810,944	Jan. 16	3514	735	120	851
Leaching apparatus. Potash	E. F. Barnhardt	813,076	Feb. 20	3113	663–3	120	2264
Leaching-tank	A. B. Mouck	808,675	Jan. 2	101	23	120	25
Lead compounds. Dry method of preparing	J. P. Neville	812,257	Feb. 13	1694	373	120	1911
Lead. Making hydrated oxid of	J. H. Bridge and C. Ellis	811,552	Feb. 6	26		120	1491
Leader and pipe. Tar-lined	F. Greenthaler	811,288	Jan. 30	5446	1136	120	1243
Leaf-flecing machine	H. S. and W. G. Jones	810,649	Jan. 23	3982	815–17	120	998
Leaf-holder for use in transferring entries	J. M. D. McGregor	808,138	Jan. 2	1007	228	120	232
Leaf-turner	G. Hubert	811,295	Jan. 30	5330	1113	120	1215
Leak-stop	A. T. Herriek	812,891	Feb. 27	4736	1047	120	2664
Leather-seasoning machine	W. H. Moore	808,718	Jan. 9	2249	466–8	120	524
Leather-staking-machine attachment	E. F. Fife	813,570	Feb. 27	4705	1041–2	120	2689
Leather-stretching clamp	C. B. Rathbun. (Reissue)	12,437	Feb. 20	2784	624	120	2220
Leather-working machine	F. J. Perkins	809,010	Jan. 9	703	162	120	189
Ledger	F. J. and C. B. Rosenberg	810,977	Jan. 30	4913	973	120	1042
Ledger. Loose-leaf	B. J. Frank	809,914	Jan. 9	2393	497	120	555
Ledger. Self-indexing loose-leaf	S. B. Kirtley. (Reissue)	12,443	Feb. 6	1216	267	120	1720
Lee	W. M. Anderson	813,194	Feb. 20	3941	778	120	2324
Legging	M. Rosenwasser	810,822	Jan. 30	4948	1020	120	1312

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drfs.	Official Gazette. Vol.	Official Gazette. Page.
Lens-cutting machine	W. W. Slade and H. F. Bower	813,459	Feb. 27	3876	849–50	120	2478
Lens-mounting for eyeglasses	J. R. Van Tassel	808,888	Jan. 2	531	119	120	113
Letter-box. Street	A. J. Arsenault	811,611	Feb. 6	150	33	120	1518
Letter-box time-indicator	J. C. Smith and J. S. Davis	812,662	Feb. 13	2347	514	120	2041
Levee	F. V. Wright	813,069	Feb. 20	3101	679	120	2262
Level	J. T. Rider	811,175	Jan. 30	5219	1091	120	1393
Level	T. Alexander	812,251	Feb. 13	1492	326	120	1885
Level	W. Potter	812,449	Feb. 13	1878	413	120	1949
Level	R. Leonhart	813,561	Feb. 27	4097	896	120	2529
Level. Grade-	D. W. Pelfrey and W. S. Biddle	811,739	Feb. 6	361	83	120	1570
Level. Spirit-	J. A. McCain	808,862	Jan. 2	459	101	120	102
Level. Spirit-	C. S. Brown and J. N. Clouse	809,275	Jan. 2	1230	270	120	288
Lever. Power-controlling	G. W. Lorimer	812,216	Feb. 13	1422	310	120	1850
Life-saving appliance	F. W. Ziegler	813,609	Feb. 27	4187	918	120	2545
Lift-door	W. E. S. Mackay	810,873	Jan. 23	4589	955	120	1123
Lift-plate	E. C. Cole	810,721	Jan. 23	4301	893	120	1061
Lift-separator. Automatic	S. W. Sinsheimer	809,022	Jan. 2	787	170	120	173
Lifter: *See* Block-lifter. Wagon-box and hay-rack lifter. Bottle-cap lifter.							
Lifting and separating wheel	A. Maguin	810,066	Jan. 16	2946	614	120	723
Lifting apparatus	J. Neubauer	812,356	Feb. 13	1693	372	120	1911
Lifting device	J. C. Wands	811,344	Jan. 30	5552	1158	120	1365
Lifting device	K. Kiefer	813,384	Feb. 20	3721	818	120	2382
Lifting-jack	J. J. Shannon	809,594	Jan. 9	1998	408	120	464
Lifting-jack	G. H. Gilman	810,482	Jan. 23	3845	790	120	961
Lifting-jack	S. S. Eveland	811,126	Jan. 30	5130	1074	120	1275
Lifting-jack	H. M. Marsh	811,731	Feb. 6	364	80	120	1567
Lifting-jack	W. H. Griffith	812,128	Feb. 6	1182	259	120	1720
Lifting-jack	H. M. Marsh	812,580	Feb. 13	2150	471	120	2004
Lifting-jack. Double-screw swivel	W. C. Morris	810,374	Jan. 16	3582	737	120	896
Light hanger. Incandescent-	R. D. McIntyre	812,355	Feb. 13	1692	372	120	1911
Light-projector	E. L. P. Turenne	812,103	Feb. 6	1140	250	120	1721
Lighter	A. F. Caughey	808,726	Jan. 2	209	45	120	48
Lightning-arrester	F. A. Stafford	808,882	Jan. 2	508	110	120	114
Lightning-arrester	W. C. Jones	811,226	Jan. 30	5322	1112	120	1316
Lightning-arrester	W. Gifford	812,126	Feb. 6	1179	258	120	1720
Lightning-conductor	T. H. Miner	813,660	Feb. 27	4281	941	120	2566
Limb. Artificial	G. E. Wilkins	809,875	Jan. 9	2616	522–3	120	587
Limb. Artificial	G. E. Wilkins	809,876	Jan. 9	2620	523	120	587
Limb. Artificial	H. C. Wintermute	810,180	Jan. 16	3163	655	120	775
Limb. Artificial	W. M. Kespohl	812,275	Feb. 13	1554	339	120	1880
Limb. Artificial	J. F. Rowley	813,740	Feb. 27	4421	975	120	2595
Line-fastener	D. W. Robbins	810,206	Jan. 16	3444	712	120	826
Line-holder	C. Straesser	809,403	Jan. 9	1621	329	120	369
Link. Fusible	A. W. Storey	811,256	Jan. 30	5370	1122	120	1328
Linotype-knife wiper	F. A. Pettit	810,079	Jan. 16	2964	618	120	736
Linotype-machine	M. W. Morehouse	808,772	Jan. 2	302	65	120	60
Linotype-machine	J. R. Rogers	808,873	Jan. 2	476	104–5	120	108
Linotype-machine	D. S. Kennedy	810,153	Jan. 16	3109	642	120	764
Linotype-machine	J. E. Saffery	810,173	Jan. 16	3141	650	120	771
Linotype-machine	R. M. Bedell	811,362	Jan. 30	5578	1164	120	1371
Linotype-machine	C. Muehleisen	812,586	Feb. 13	2161	473	120	2006
Linotype-machine attachment	J. H. W. Knoop	808,931	Jan. 2	608	133	120	134
Lip-turner	F. F. Smith	809,332	Jan. 9	1448	294	120	353
Liquid combustibles. Apparatus for vaporizing	J. Lühne	809,200	Jan. 2	1137	236	120	250
Liquid-cooling apparatus	G. F. Black	812,256	Feb. 13	1500	328	120	1886
Liquid-filling apparatus	R. C. White	809,764	Jan. 9	2317	480–1	120	542
Liquid forcing or pumping device	L. J. C. Larsen	812,052	Feb. 6	1044	227	120	1701
Liquid fuel. Mechanism for automatically distributing	H. Galopin	809,436	Jan. 9	1691	348	120	404
Liquid-heater. Electric	G. E. Stevens	812,609	Feb. 13	2200	479	120	2013
Liquid-indicator	H. A. House	812,006	Feb. 20	3143	668	120	2261
Liquid-separator. Centrifugal	A. L. Christenson	813,544	Feb. 13	2082	456	120	1990
Liquid-separator liner. Centrifugal-	C. D. Hellström	809,685	Jan. 9	2181	451–2	120	512
Liquid-weighing machine	C. J. Hedemann	812,946	Feb. 20	3653	780–1	120	2182
Liquids in vacuo. Apparatus for discharging	J. W. Lytton	809,385	Jan. 9	1574	320	120	370
Liquids. Means for controlling the level of	W. Wadsworth	810,237	Jan. 16	2269	482	120	802
Liquors. Ascertaining the origin of coloring-matters present in distilled	C. T. Marsh	813,728	Feb. 27	4401	.....	120	2591
Lithographic purposes. Electrolytically preparing metals or alloys for	O. C. Strecker	810,889	Jan. 23	4605	986–7	120	1132
Lithographic stones. Composition for cleaning	J. James	813,709	Feb. 27	4369	.....	120	2584
Load-binder	C. W. Baker	812,032	Feb. 20	3018	664	120	2222
Loader and unloader	O. J. Travis	811,973	Feb. 6	883	194	120	1699
Loading and unloading device	A. W. Keech	809,618	Jan. 9	2045	426	120	481
Loading apparatus	H. T. Rainwater	813,448	Feb. 27	3961	846	120	2472
Loading, conveying, and dumping device	E. Howland	811,923	Feb. 6	779	170	120	1647
Loading device for dirt, manure, &c	G. H. Young	813,198	Feb. 20	3339	736	120	2308
Lock: *See* Coleman air-lock. Keyless lock. One-door lock. Nut-lock. Grain-lock. Oar-lock. Hub-lock. Rock-lock. Door-lock. Seat-lock. Seat-gate lock. Stenographer's lock. Sewer-lock. Spool-lock. Stable-lock. Window-lock. Toy-lock. White lock.							
Lock	C. J. Caley and H. G. Voight	809,434	Jan. 9	1663	341	120	397
Lock	W. S. Sutton	810,894	Jan. 23	4055	834	120	1133
Lock	A. N. Manson	810,786	Jan. 23	4427	918–19	120	1338
Lock	E. H. F. Krahn	811,511	Jan. 30	5537	1232	120	1498
Lock and latch	P. Fagnoloth	812,571	Feb. 20	3703	866	120	2264
Lock and latch	C. J. Caley	809,435	Jan. 9	1665	342	120	398
Lock and latch mechanism	H. G. Voight	809,342	Jan. 9	1473	288	120	339

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drfs.	Official Gazette. Vol.	Official Gazette. Page.
Lock and latch mechanism	N. W. Crandall	812,898	Feb. 20	3617	573	120	2145
Lock and latch mechanism	H. G. Voight	812,904	Feb. 20	3702	608	120	2177
Lock and latch mechanism	H. G. Voight	812,905	Feb. 20	3704	608	120	2177
Lock mechanism	C. J. Caley and H. G. Voight	812,821	Feb. 20	3697	570	120	2141
Lock-seam pipe	H. P. G. Norstrand	812,268	Feb. 13	1868	347	120	1897
Lock-strike. Electric	H. F. Smith	813,119	Feb. 20	3308	700	120	2375
Lockers. Locking device for metal	R. W. Jefferis	810,415	Jan. 23	3709	764–5	120	998
Lockers. Panel for metal	R. W. Jefferis	810,947	Jan. 30	4777	994	120	1197
Locomotive	C. Hagans	810,948	Jan. 30	4776	993–4	120	1197
Locomotive ash-pit and blower	H. E. Parson	813,379	Feb. 20	3711	815–16	120	2389
Locomotive-boiler. Water-tube	J. Robert	809,215	Jan. 2	1168	241–2	120	287
Locomotive. Electric	A. F. Batchelder	812,681	Feb. 13	2327	508–9	120	2087
Locomotive-engine	J. E. Roberts	808,717	Jan. 2	186	41	120	48
Locomotive fire-boxes. Air-admission device for	C. B. Clark	808,688	Jan. 2	118	27	120	29
Locomotive-pedestal	F. H. Ramsdell	813,582	Feb. 27	4683	1036	120	2652
Locomotive-tender frame	C. H. Howard	809,744	Jan. 9	2286	473	120	535
Locomotive. Turbine-driven	H. Lentz	811,561	Feb. 6	49	11	120	1496
Locomotive wheel. Plow-	H. Schnell	812,277	Feb. 13	1556	340	120	1881
Log-carrier	W. E. Sinclair	812,600	Feb. 13	2187	477	120	2011
Log-dog	C. W. Willett	812,589	Feb. 13	2243	513	120	2041
Log-hook	J. D. Vaughan	812,389	Feb. 13	1767	387	120	1926
Log-turner	F. W. Beitner	810,826	Jan. 23	4492	984	120	1103
Loom	H. W. Davis	811,026	Jan. 30	4926	1026	120	1261
Loom	F. Voland, L. Diederichs, and J. B. Monnet	810,471	Jan. 23	3826	786	120	969
Loom	W. J. Lutton	811,597	Feb. 6	123	27	120	1512
Loom	A. S. Cowan	812,508	Feb. 13	1985	436	120	1971
Loom brake mechanism	A. A. Gordon, Jr	814,000	Feb. 27	4930	1082–4	120	2704
Loom for making pile fabrics	A. A. Gordon, Jr	810,113	Jan. 16	3029	630	120	788
Loom for weaving pile fabric	A. Heald	811,842	Feb. 6	586	128	120	1608
Loom harness mechanism	R. Crompton	813,958	Feb. 27	4578	1078	120	2691
Loom harness-motion	H. Cyr	809,932	Jan. 16	2648	547	120	667
Loom jacquard-machine	J. Verdol	812,166	Feb. 6	1206	263	120	1753
Loom lay-motion	A. B. Weissenborn	812,246	Feb. 13	1483	324	120	1863
Loom lay-motion	S. D. Kelley	811,012	Jan. 30	4906	1021–2	120	1226
Loom picking mechanism	H. A. Davis	811,408	Jan. 30	5658	1186	120	1388
Loom picking-motion	J. D. Crowther and A. Sykes	812,485	Feb. 13	1945	420	120	1962
Loom pinion-guard. Circular-	V. Royle	810,191	Jan. 16	3187	661	120	780
Loom reversing mechanism	E. H. Ryon	811,177	Jan. 30	5222	1092	120	1293
Loom-shuttle	C. E. Nutting	810,680	Jan. 23	4222	874	120	1044
Loom-shuttle check	H. Garnett	811,242	Jan. 30	5350	1117	120	1321
Loom shuttle-motion	M. L. Christian and E. E. Reynolds	811,139	Jan. 30	5143	1075	120	1276
Loom shuttle. Ribbon-	W. Hausmann	809,776	Jan. 9	2349	485	120	549
Loom-shuttle spindles. Pivot-bolt for	C. F. Thompson	809,564	Jan. 9	1929	401	120	457
Loom-shuttle tension device	P. L. Peterson	808,885	Jan. 2	524	116	120	117
Loom-shuttles. Bobbin-holding means for	R. L. Cumnock	810,669	Jan. 23	4207	870	120	1040
Loom tension device	E. Herzig	811,620	Feb. 6	167	37	120	1522
Loom. Terry-	H. S. Griffith	808,658	Jan. 2	76	16	120	19
Loom warp stop-motion	A. A. Johnson	812,788	Feb. 13	2531	556	120	2051
Loom warp stop-motion	F. E. Kip and F. M. Armstrong	813,304	Feb. 20	3557	782	120	2348
Loom warp stop-motion	F. E. Kip and E. Greenwood	813,307	Feb. 20	3565	784–5	120	2350
Loom warp stop-motion	F. E. Kip and E. C. Smith	813,308	Feb. 20	3572	785	120	2351
Loom warp stop-motion	H. G. Baker	813,309	Feb. 20	3577	786	120	2352
Loom. Weft-replenishing	H. W. Wyman	813,765	Feb. 27	4466	987	120	2605
Loom. Weft-replenishing	C. Whalley	808,906	Jan. 2	696	151	120	154
Loom. Weft-replenishing	H. Wyman and J. T. Cyr	809,158	Jan. 2	1057	219	120	232
Loom weft-replenishing mechanism	J. M. Grey	811,869	Feb. 6	682	149	120	1639
Loom weft-replenishing mechanism	H. Zwicky	810,406	Jan. 23	3991	759–61	120	924
Looms. Cloth-tension device for take-up mechanism for	C. S. Andem	812,970	Feb. 20	2902	640	120	2206
Looms. Crank-shaft support for	A. J. O'Reilly	809,220	Jan. 2	1254	265	120	276
Looms. False reed for	W. E. Wingate	809,262	Jan. 9	1600	324	120	386
Looms. Give-way connection for box-motions of	W. Wattie	812,216	Feb. 13	1539	356	120	1897
Looms. Means for regulating the tension upon warp-threads of	W. H. Ryder	812,402	Feb. 13	1907	431	120	1954
Looms. Needle-operating mechanism for	N. Smarup	812,853	Feb. 27	4628	1094	120	2640
Looms. Shuttle-clearing means for filling-replenishing	J. Northrop	811,890	Feb. 6	111	24	120	1609
Loop-shield	A. F. Warele	812,516	Feb. 13	2005	440	120	1975
Low-water alarm. Steam-boiler	C. G. Gilldard	812,104	Feb. 6	1141	260	120	1721
Low-water alarm. Steam-boiler	C. G. Gilldard	811,213	Jan. 30	5303	1107	120	1309
Lubricating device. Wheel and axle	G. A. Bronder	811,214	Jan. 30	5296	1108	120	1309
Lubricating vehicle-wheels. Means for	W. M. Boyd	812,402	Feb. 13	1798	398	120	1951
Lubricating-wheel	O. O. Sellers	811,615	Feb. 6	158	35	120	1539
Lubricating wheels. Means for	G. W. Lovejoy	812,587	Feb. 20	2731	600	120	2170
Lubrication-pipe	J. Mühlrad	811,886	Feb. 6	611	138	120	1612
Lubricator: *See* Axle-lubricator. Piston-rod lubricator. Car-lubricator. Plunger-lubricator. Hydraulic lubricator. Shaft-lubricator. Journal-lubricator.		812,252	Feb. 13	1667	371	120	1919
Lubricator	W. S. Patterson	809,368	Jan. 9	1691	324	120	386
Lubricator	E. Dietz	810,194	Jan. 16	3122	649	120	781
Lubricator	L. O. Crawford	810,944	Jan. 23	4639	941	120	1135
Lubricator	E. W. Baird and J. F. Durkin	811,624	Jan. 30	4917	1025	120	1230
Lubricator	J. Haasen	811,917	Feb. 6	726	161	120	1640
Lubricator	J. C. Fiske	812,622	Feb. 6	2022	455	120	1970
Lubricator	C. C. Dodge	812,321	Feb. 13	1838	383	120	1924
Lubricator	C. C. Dodge	812,322	Feb. 13	1854	383	120	1924
Lubricator	O. O. Kittleson	812,428	Feb. 13	1899	404	120	1943
Lubricator	J. Maloy and A. White	812,573	Feb. 13	2146	453	120	1988
Lubricator	E. H. Dehne	812,644	Feb. 13	2287	492	120	2015
Lubricator	C. E. and F. W. Hodges. (Reissue)	12,464	Feb. 13	2740	601–2	120	2167
Lug-strap attachment	J. F. Harrington	813,417	Feb. 27	3798	822	120	2457

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drg.	Official Gazette. Vol.	Official Gazette. Page.
Lumber-feeding machine	C. E. Cleveland	811,377	Jan. 30	5805	1172-3	120	1377
Luna for holding the hoof	H. F. Nehr	810,217	Jan. 16	3246	672	120	782
Lure for use with trolling-hooks	G. W. Tinkess	810,822	Jan. 23	4457	933	120	1101
Macaroni. Machine for making flat	A. De Vito	812,704	Feb. 13	2373	520	120	2049
Machine-tool. Combination	J. W. Myers	813,056	Feb. 20	3073	673-4	120	2247
Magazine	W. A. Sparks	810,310	Jan. 16	3451	713	120	837
Magnetic needle	G. N. Saegmuller	811,243	Jan. 30	5365	1120	120	1325
Magnetic separator	H. F. Campbell	810,841	Jan. 23	4515	940	120	1108
Mail-bag catcher	L. J. Evans	808,646	Jan. 2	50	10-11	120	13
Mail-bag catcher	J. F. Chester	810,322	Jan. 16	3474	718	120	841
Mail-bag catcher	J. C. Elliff	812,835	Feb. 20	2635	576	120	2149
Mail-bag catcher and deliverer	H. H. Akers	812,471	Feb. 13	1911	431-2	120	1955
Mail-bag catcher for railways. Automatic	H. G. and B. C. W. Dix	811,122	Jan. 30	5131	1072	120	1273
Mail-bag device. Railway	C. A. Garber	811,710	Feb. 6	335	74	120	1560
Mail-bag receiving and delivering apparatus	T. Cross	809,430	Jan. 9	1677	344	120	401
Mail-box	E. M. Raymond and W. S. Stoughton	808,872	Jan. 2	475	104	120	108
Mail-box	T. J. R. Turner	809,866	Jan. 9	2505	520	120	584
Mail-box	E. G. Seasholtz	810,099	Jan. 16	2978	621	120	739
Mail-box	H. L. Pier	810,905	Jan. 23	4466	928	120	1086
Mail-box	D. W. Morrow	812,514	Feb. 13	2002	439	120	1974
Mail-box	E. T. Marsh	812,662	Feb. 13	2293	499	120	2031
Mail-box bulletin	J. M. Larsh	808,764	Jan. 2	279	61	120	64
Mail-crane	J. L. Athey	810,600	Jan. 23	4080	841	120	1011
Mail-deliverer	H. L. Kimmons	809,187	Jan. 2	1111	231	120	245
Mail-marking machine. Hand	H. E. Waite	811,976	Feb. 6	890	196	120	1670
Mail-pouch fastener	L. H. Hinaman	809,058	Jan. 2	858	182	120	190
Mail-transferring device	C. Kreps	808,932	Jan. 2	609	133	120	134
Mailing-tube	A. L. Gray	811,556	Feb. 6	35	8	120	1462
Mailing-tube sheet and wrapper	H. Del Mar	812,187	Feb. 13	1369	298	120	1838
Malt-transporting device. Green	C. Steinert	810,980	Jan. 30	4856	1011	120	1215
Mandrel-bars. Device for operating	P. C. Patterson	812,226	Feb. 13	1446	315-16	120	1855
Manhole cover and frame	M. H. O'Donnell	810,969	Jan. 30	4819	1002	120	1207
Manhole for conduits and the like	W. A. Haller and J. W. Billingsley.	810,855	Jan. 23	4545	946	120	1114
Manicuring appliance	A. A. Angus and D. B. Cameron	811,992	Feb. 6	932	204	120	1679
Mantle holder. Incandescing	O. Wiederhold	811,018	Jan. 30	4910	1024	120	1227
Mantle-support	T. Stites	810,991	Jan. 30	4859	1012	120	1215
Mantles. Making	O. Wiederhold	811,017	Jan. 30	4909	1024	120	1227
Manure-spreader	F. W. Hovey	810,413	Jan. 23	3704	763	120	927
Manure-spreader	J. M. Beringer	810,459	Jan. 23	3804	782	120	960
Manure-spreader feed mechanism	C. W. West	810,449	Jan. 23	3776	778	120	943
Map-case	J. Dawson and C. O. Rosen	809,175	Jan. 2	1065	226	120	230
Marine boiler	G. Marshall	809,518	Jan. 9	1842	381	120	439
Marine navigation	S. A. Reeve	811 743	Feb. 6	385	84	120	1571
Marking apparatus	W. J. Dix	810,629	Jan. 23	4141	856	120	1025
Marking-machine	G. W. Coffman	810,468	Jan. 23	3820	785	120	955
Marking-machine	F. H. Richards	810,979	Jan. 30	4838	1007-8	120	1211
Marking monument. Land	J. H. Downs	813,872	Feb. 27	4700	1040	120	2656
Martingale and connection	F. E. Vickery	809,868	Jan. 9	2508	521	120	585
Massage-applicator	E. S. Salghman	810,885	Jan. 23	4622	963-4	120	1129
Match	A. Swoboda	810,363	Jan. 16	3561	.....	120	862
Match-box	R. E. King	812,047	Feb. 6	1037	226	120	1700
Match-box	W. Alpert	812,714	Feb. 13	2390	525	120	2050
Match-box	H. E. Lindner and H. J. Kallinich	813,503	Feb. 27	3971	871	120	2498
Match box holder	J. Berryman	809,665	Jan. 9	2140	444	120	501
Match box. Safety	J. Karpen	809,506	Jan. 9	1823	376	120	435
Match-boxes. Automatic igniter for	J. S. Urban	811,458	Jan. 30	5744	1203	120	1404
Match-lighter	A. B. Troupa	813,751	Feb. 27	4444	961	120	2600
Match-making machine	E. J. Prindle	808,945	Jan. 2	638	139-40	120	140
Match-making machine. Automatic	G. P. Loomis	808,767	Jan. 2	283	62-3	120	64
Match-safe. Self-igniting	J. W. Hart	813,967	Feb. 27	4876	1078	120	2691
Matrices. Producing folding	G. H. Vining	813,261	Feb. 20	3466	765	120	2329
Matrix and punch cutting machine	L. B. Benton	809,548	Jan. 9	1893	393-4	120	450
Matte. Converting	C. M. Allen	808,618	Jan. 2	1	1	120	3
Matte. Treating molten	W. E. Koch	808,849	Jan. 2	436	96	120	97
Mattress	W. Robertson	811,094	Jan. 30	5031	1051	120	1253
Mattress-aerating device	J. Murmans	813,731	Feb. 27	4406	971	120	2592
Mattress-making machine	C. W. White	813,470	Feb. 27	3904	856-7	120	2481
Mattress or couch fabric	J. Hoey	811,222	Jan. 30	5314	1111	120	1314
Mattress. Wire	W. Bills	810,519	Jan. 23	3926	808	120	979
Measure. Foot	C. Shiverick	812,203	Feb. 13	1607	353	120	1893
Measure. Tailor's	F. Nordstrom	809,536	Jan. 9	2451	509	120	571
Measure. Tailor's	I. Geraci	813,415	Feb. 27	3793	822	120	2456
Measure. Tape	J. McLean	812,150	Feb. 6	1247	271	120	1744
Measuring and cutting off lengths of fabric. Machine for	J. B. O'Bryan, Jr., and O. H. Rudolph.	812,672	Feb. 13	2316	504	120	2035
Measuring and marking machine. Cloth	J. F. Boggs	813,767	Feb. 27	4471	967	120	2608
Measuring and marking the distance from the ground of shirts, &c. Apparatus for	S. D. Cheyne	809,609	Jan. 9	2156	446	120	505
Measuring appliance and compressor for liquids	E. O. Linton. (Reissue)	12,429	Jan. 23	4656	970	120	1136
Measuring-can. Portable	J. L. Chase	813,402	Feb. 27	3769	827	120	2451
Measuring device	H. Raab and J. M. Wolfson	810,052	Jan. 16	3967	619	120	737
Measuring device	J. W. Page	810,799	Jan. 23	4455	924	120	1094
Measuring device. Liquid	F. S. Turner, S. Pease, and W. B. Martin.	809,273	Jan. 2	1327	270	120	292
Measuring electric resistances. Apparatus for	S. Evershed	810,330	Jan. 16	3488	720-1	120	844
Measuring electric resistances. Apparatus for	S. Evershed	812,196	Feb. 13	1882	390-1	120	1841
Measuring instrument	V. Osborne	812,674	Feb. 13	2319	505	120	2036
Measuring instrument. Angle	A. König	811,777	Feb. 6	451	98	120	1594
Measuring instrument. Electrical	T. W. Varley	810,295	Jan. 16	3267	680-1	120	801
Measuring instrument. Electrical	E. E. Lehr	811,645	Feb. 6	219	47	120	1528
Measuring instrument. Electrical	M. C. Rypinski	811,998	Feb. 6	880	187	120	1682
Measuring rule	E. L. Sarton	809,139	Jan. 2	1029	219	120	328
Measuring vessel. Computing	W. S. Cain	809,091	Jan. 2	945	198	120	322
Measuring watts in electrical circuits. Apparatus for	E. Wilson	810,179	Jan. 16	3186	663-5	120	774

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drg.	Official Gazette. Vol.	Official Gazette. Page.
Meat-cutter	A. W. Johnson	810,767	Jan. 23	4383	910-11	120	1089
Meat-hook. Pendent or trolley-carrier	G. W. Martin	812,881	Feb. 20	2961	691	120	2189
Meat products. Apparatus for smoking and curing	W. Eppinger	812,922	Feb. 20	2760	645	120	2134
Mechanical movement	A. W. Hutchins	808,926	Jan. 2	604	133	120	133
Mechanical movement	R. T. Wingo	809,160	Jan. 2	1060	230	120	232
Mechanical movement	G. W. Johnston	809,693	Jan. 9	2195	455	120	515
Mechanical movement	H. J. Paarmann	811,868	Feb. 6	634	139	120	1620
Mechanical movement	C. Williams	813,126	Feb. 20	3221	706-7	120	2279
Mechanical movement	R. T. Wingo	813,129	Feb. 20	3229	709	120	2281
Mechanical movement	L. R. Tulloch	813,601	Feb. 27	4160	913	120	2530
Medicated tampon	E. M. Pond	812,768	Feb. 13	2495	549	120	2072
Medicated tampon	E. M. Pond	812,769	Feb. 13	2496	549	120	2072
Medicated tampon	E. M. Pond	812,770	Feb. 13	2498	549	120	2072
Medicine-glass	C. W. Hoffa	809,952	Jan. 16	2668	585	120	676
Melting and heating apparatus. Portable	H. B. Nichols	810,073	Jan. 16	2955	616	120	734
Merchandise-hook	J. A. A. Rouleau	812,235	Feb. 13	1460	320	120	1858
Meridian-transfer apparatus	G. C. McFarlane	812,587	Feb. 13	2163	473-4	120	2007
Merry-go-round	C. F. Weidner. (Reissue)	12,435	Jan. 9	2628	543	120	611
Metal. Apparatus for treating molten	T. Long	813,150	Feb. 20	3278	720	120	2260
Metal-bar-bending machine	J. S. Seaman	811,097	Jan. 30	5038	1053	120	1265
Metal bars, &c. Machine for bending	T. Stevenson	810,818	Jan. 23	4480	932	120	1089
Metal bars. Machine for shaping the ends of	N. S. Arthur	808,619	Jan. 2	3	1	120	3
Metal bars. Shaping	H. Geisenhöner	811,771	Feb. 6	441	96	120	1582
Metal beams. Metal clip for uniting	E. Einfeldt	808,736	Jan. 2	231	50	120	53
Metal box	H. A. Streeter	810,819	Jan. 23	4481	932	120	1100
Metal box-beam	G. Klenk	813,976	Feb. 27	4899	1061	120	2694
Metal-coiling drum	A. W. Sullivan and W. Renshaw	810,001	Jan. 16	2786	575	120	697
Metal-cutting machine	W. R. Webster	812,709	Feb. 13	2383	523-4	120	2048
Metal. Cylinder for treating heated	J. Abbott	813,071	Feb. 20	3103	680	120	2253
Metal. Cylinder for treating heated	G. H. Benjamin	811,196	Jan. 30	5266	1102	120	1303
Metal object. Wood-veneered	J F. Ellis	811,707	Feb. 6	331	73	120	1559
Metal. Planishing sheets of	L. Coburn	812,824	Feb. 20	2602	571	120	2142
Metal sheets. Feed mechanism for	A. Ridd	808,601	Jan. 2	125	29	120	30
Metal. Skimming slag from molten	O. J. Johnson	810,152	Jan. 16	3106	641-2	120	764
Metal storing and conveying apparatus. Liquid	M. M. Suppes	809,405	Jan. 9	1626	331	120	390
Metal treating and amalgamating apparatus	C. von Philp	810,301	Jan. 16	3437	709-10	120	834
Metal. Treating molten	G. P. Tyars	808,787	Jan. 2	334	72	120	74
Metal-turning apparatus	J. S. Seaman	811,522	Jan. 30	5858	1228-9	120	1428
Metal. Upsetting	R. H. Stevens	809,997	Jan. 16	2776	570-1	120	695
Metal-wheel-making machine	H. V. Loss	812,856	Feb. 20	2670	585	120	2156
Metal wheels. Making	E. Einfeldt	810,197	Jan. 16	3199	663-4	120	782
Metal-working machine. Fluid-pressure	E. Einfeldt	810,198	Jan. 16	3208	665	120	784
Metal-working tools. Adjustable support for	C. von Philp	812,228	Feb. 13	1448	316-17	120	1856
Metals. Apparatus for the agitation of solutions used in electrodeposition of	B. M. W. Hanson	813,381	Feb. 20	3714	816-17	120	2381
Metals of the earthy alkalies. Electrolytic production of	W. C. Wood and B. Oaksford	808,798	Jan. 2	351	75	120	78
Metals. Treating	C. Suter and B. Redlich	813,532	Feb. 27	4034	864	120	2513
Metals. Working rolled	H. H. Goodsell	813,206	Feb. 20	3363	739	120	2306
Metallic can	J. V. Culliney	809,934	Jan. 16	2649	547	120	667
Metallic hoop	W. B. Fenn	810,737	Jan. 23	4324	899	120	1057
Metallic salts and oxids. Densifying and eliminating air and gas from masses of pulverulent	G. L. Meade	809,519	Jan. 9	1843	381	120	439
	E. O. Bartlett and W. F. Gordon	809,354	Jan. 9	1490	308	120	305
Meter: *See* Dry meter. Electric meter. Electricity-meter. Gas-meter.							
Meters. System of calibrating recording watt-hour	D. P. Morrison	812,436	Feb. 13	1855	408	120	1944
Micrometer. Quick-adjusting	L. S. Starrett and J. A. Adell	809,272	Jan. 2	1326	289	120	292
Milk aerating, purifying, and cooling apparatus	D. N. Gifford and J. Hall	811,053	Jan. 30	4955	1032	120	1230
Milk-aerator	B. H. Thomas	810,892	Jan. 23	4645	988	120	1132
Milk-preparations. Manufacturing	S. Székely and E. Kovács	811,971	Feb. 6	878	.....	120	1666
Milk-preserve and making same	L. Sarason	809,138	Jan. 2	1025	.....	120	225
Milk products and recovering milk fluids. Means for making	C. M. Taylor, Jr	809,880	Jan. 9	2495	518	120	582
Milking apparatus	E. E. Good	812,942	Feb. 20	2940	679	120	2180
Milking device	L. G. Harper	810,750	Jan. 23	4348	904	120	1071
Milking-machine	F. Ljungström	812,855	Feb. 20	2668	585	120	2156
Mill: *See* Drum-mill. Grinding-mill. Pan-and-roller mill. Peat-mill. Reduction-mill. Resawing band-mill. Roller-mill. Sawmill. Windmill.							
Mill	H. A. Howard	809,667	Jan. 9	2138	488	120	513
Mill-pick	R. Johnson	813,312	Feb. 20	3380	745	120	2310
Mills, &c. Feed-governor for	C. H. and A. J. Richards	810,973	Jan. 30	4825	1005	120	1210
Mine and elevator shafts. Cage for	W. Black	809,880	Jan. 9	6800	820-21	120	295
Mine-cage safety device	I. M. Adams	811,892	Feb. 6	699	151	120	1651
Mine-door opener and closer	F. Zoerkler	811,990	Feb. 6	930	195	120	1680
Mine-elevator safety device	I. M. Adams	811,892	Feb. 6	699	151	120	1651
Mine-harness	J. P. and R. S. Stratton	810,430	Jan. 23	3757	778	120	1090
Mine-shaft door	I. Whitney	813,067	Feb. 20	3098	672	120	2252
Mine-ventilating apparatus	M. J. Ward	809,653	Jan. 9	2121	430	120	494
Miner's drill	H. Todd	810,513	Jan. 23	3915	825	120	977
Mining and other debris. Device for removing	S. W. Wible	809,998	Jan. 9	1980	418	120	469
Mining-cage landing-chair	G. H. Dunton	809,176	Jan. 2	1057	228-7	120	230
Mining-machine	D. R. Murphy	809,308	Jan. 2	1147	250	120	262
Mining-machine	E. R. Merrill	813,893	Feb. 27	3980	874	120	2490
Mining machine. Coal	C. Wiesenann	809,980	Jan. 9	1462	301-2	120	364
Mining. Submarine	E. F. Schelbe	809,883	Jan. 9	2073	430	120	457
Minerals. Separating	E. B. Kirby	809,889	Jan. 16	2769	547	120	676
Mirror-support. Adjustable	T. G. Lovegrove	813,960	Feb. 13	2291	493	120	2031
Miter-box and saw-guide	J. M. Smith	810,178	Jan. 16	3165	661-2	120	772
Mitt. Ball-player's	A. C. Ferry	811,289	Jan. 30	5394	1170	120	1331
Mitt. Base-ball-catcher's	J. Gamble	808,993	Jan. 2	721	156	120	159

Mixer:							
See Automatic mixer. Fiber-mixer.							
Mixer and kneader	D. Kadel	810,417	Jan. 23	3713	765	120	939
Mixing and measuring apparatus	R. C. Smith	809,585	Jan. 9	1999	409	120	464
Mixing apparatus	C. S. Higgins	811,145	Jan. 30	5183	1077	120	1378
Mixing machine	C. Jaquet	812,849	Feb. 20	2857	852	120	2183
Mixing-machine. Envelop-	E. S. Buckland	811,478	Jan. 30	5775	1309	120	1411
Moistening and warming rooms or apartments. Apparatus for	A. Schmidt	812,328	Feb. 20	3618	793	120	2260
Moistening device	P. A. Peterson	812,087	Feb. 6	1108	344	120	1714
Mold:							
See Block-mold. Concrete-block mold. Building-block mold. Concrete-wall mold. Butter-mold. Ice-cream mold. Cement-construction-block mold. Pipe-mold. Cement-fence-post mold. Plastic-material mold. Concrete-mold. Vault-mold. Wall-mold.							
Mold	J. H. Johnson and H. Meyer	808,846	Jan. 2	429	95	120	95
Mold	W. H. Lucas	809,190	Jan. 2	1135	236	120	260
Mold	G. A. Byor	811,082	Jan. 30	4934	1029–30	120	1232
Mold	E. L. Maag	811,310	Jan. 30	5481	1142–3	120	1350
Mold	W. H. Benson	811,474	Jan. 30	5769	1207	120	1410
Mold	J. H. Sullivan	812,263	Feb. 20	3645	761	120	2236
Mold-charging apparatus	C. A. Landon	813,439	Feb. 27	3948	843	120	2468
Mold-forming mechanism	P. Bonvillain	812,614	Feb. 27	4193	920	120	2646
Molding apparatus	G. Henningsen	809,504	Jan. 9	1820	375	120	434
Molding apparatus	C. J. Kielberg	811,297	Jan. 30	5480	1138	120	1345
Molding-bit	W. H. McDowell	813,572	Feb. 27	4118	902	120	2531
Molding-box. Universal	J. Boyd	811,124	Jan. 30	5091	1065	120	1286
Molding-machine	J. L. Gleason	811,772	Feb. 6	443	96	120	1583
Molding-machine	H. Besser	810,700	Jan. 23	4281	884	120	1062
Molding-machine	H. C. Steele, W. Stenson, and F. J. Trout	810,968	Jan. 30	4954	1010	120	1214
Molding-machine	J. Rogers	811,273	Feb. 6	643	141	120	1621
Molding-machine	P. Bonvillain	812,604	Feb. 6	965	210	120	1665
Molding-machine	L. M. Pratt and E. H. Van Natta	812,201	Feb. 13	1557	348	120	1988
Molding-machine	C. J. Caley	812,520	Feb. 20	2595	570	120	2140
Molding-machine	A. Choiniere	812,979	Feb. 20	2915	643	120	2211
Molding-machine	C. M. Runyan	813,117	Feb. 20	3196	699	120	2274
Molding materials which set by the addition of water thereto. Apparatus for	P. G. Leming, F. Eiklor, and C. W. Grant	813,901	Feb. 27	4753	1050	120	2667
Money-box	J. A. McConnell	812,147	Feb. 6	1240	269–70	120	1743
Money-changing machine	R. H. Bishop and W. Down	811,813	Feb. 6	583	119	120	1599
Monkey-wrench. Quick-acting	D. Peterson	810,806	Jan. 23	3998	800–2	120	972
Monoliths	J. L. Smith	813,180	Feb. 20	3318	730	120	2200
Mooring device	F. G. Rantzau	812,293	Feb. 13	1591	349	120	1889
Mop-holder	W. D. Duncan	810,042	Jan. 16	2886	595	120	718
Mop-wringer	H. Bitner	809,243	Jan. 2	1264	257	120	279
Mortising machine. Folio-	F. B. Smith	813,170	Feb. 20	3316	729–30	120	2298
Mortising-tool	F. Wesel	812,786	Feb. 27	4451	963–4	120	2601
Mother-of-pearl. Manufacture of artificial	F. K. Huber	809,884	Jan. 16	2691	555	120	676
Motion-converting means	P. C. D. Castle	808,809	Jan. 9	2302		120	603
Motion. Means for converting constant oscillatory into rectilinear	C. J. Klein	811,410	Jan. 30	5661	1157	120	1366
Motor:	B. Salzer and G. Walther	810,308	Jan. 16	3446	712	120	836
See Current-motor. Induction-motor. Electric motor. Pneumatic motor. Electromagnetic motor. Rotary motor. Water-motor. Fluid-pressure motor. Wave-motor. Hydrocarbon-motor.							
Motor	C. W. Cramer and H. C. Haak	810,306	Jan. 23	3671	756–7	120	919
Motor-circuit	J. A. Himburg	812,987	Feb. 20	2949	649	120	2218
Motor control	C. A. Eck	813,410	Feb. 27	3782	820	120	2454
Motor control. Induction-	A. H. Armstrong	811,788	Feb. 6	414	91	120	1576
Motor-control system	W. B. Potter	808,778	Jan. 2	318	69	120	71
Motor-control system	F. B. Corey	811,706	Feb. 6	431	94	120	1660
Motor-generator	A. Pederson	809,460	Jan. 9	1734	385	120	414
Motor regulator. Electric-	W. E. Houston	812,791	Feb. 13	2539	546	120	2082
Motor-starting apparatus. Stopping and starting device	P. A. Weyand	810,240	Jan. 16	3288	688	120	808
Motor vehicle. Power-	W. B. Manny	809,986	Jan. 16	2719	580	120	662
Motor-vehicle. Alternating-current-	A. Necke	812,444	Feb. 27	3986	845	120	2470
Motor-vehicle mechanism. Rotary-	J. G. V. Lang	811,415	Jan. 30	5574	1189	120	1360
Motor-vehicle device. Electric-	E. H. Porter and B. Currier	808,944	Jan. 2	435	132–9	120	140
Motor-vehicle, the. Cylinder for internal-combustion-	A. H. Taylor	810,880	Jan. 23	4030	867	120	1122
Mounting washer for spring-	H. B. Wilcox	809,878	Jan. 9	2004	428	120	588
Movement, Automatic-	I. J. Turner	811,880	Feb. 6	137	28	120	1513
Mowing-machine. Automatic-	M. Thier	813,536	Feb. 27	4038	865	120	2514
Mowing-machine. Lawn-	C. Pfeiffer	809,130	Jan. 2	1010	208–9	120	222
Mowing-machine. Rotary-	R. Siegfried	813,891	Feb. 20	2737	603	120	2171
Mowing-machine. Sickle-	A. C. Eastwood	810,289	Jan. 16	3361	686	120	817
Mowing-machine. Vertical-	F. L. Seastone	813,823	Feb. 27	4013	882	120	2500
Mowing-machine. Weed-	F. L. Harmon	814,004	Feb. 27	4652	1005–7	120	2700
Mowing-machine. Automatic	G. E. Franquist	813,328	Feb. 20	3320	728	120	2297
Mowing-machine. Lawn-	L. T. Wiles	808,824	Jan. 9	2122	439	120	592
Mowing-machine. Rotary-	W. R. Kahlenberg	810,542	Jan. 23	3970	818	120	988
Mowing-machine. Self-acting-	J. C. Scott	811,088	Jan. 30	5037	1062	120	1264
Mowing-machine. Sickle-	R. S. Heap and G. Grey	813,969	Feb. 27	4699	1072–9	120	2668
Mowing-machine. Vertical-	C. Williams	813,124	Feb. 20	3210	704–4	120	2277

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Dr'g.	Official Gazette. Vol.	Official Gazette. Page.
Multiple bolt	J. H. Pretsman	809,626	Jan. 9	2064	426	120	495
Multispindle-machine. Self-acting	E. Widmer-Abegg	808,894	Jan. 9	1901	412–14	120	469
Music-leaf turner	F. O. Moore	810,467	Jan. 23	3875	788	120	989
Music-leaf turner	F. J. Holoubek	810,943	Jan. 30	4772	985	120	1186
Music-leaf turner	J. and J. C. Bahl	811,988	Feb. 6	984	204–5	120	1679
Music-leaf turner	W. L. Caywood and E. M. Steele	813,617	Feb. 27	4197	921	120	2547
Music-roll and adjustable driving-support therefor	H. P. Ball	810,608	Jan. 23	4086	846	120	1035
Music-sheets. Take-up roll for perforated	F. L. Wood	813,607	Feb. 27	4179	916	120	2543
Musical instrument	H. Stoakmeir	809,539	Jan. 9	1881	390	120	447
Musical instrument	W. B. Fleming	811,912	Feb. 6	726	159–60	120	1689
Musical instrument	A. M. Krueger	812,049	Feb. 6	1040	226	120	1709
Musical-instrument attachment	J. O. Houser	811,205	Jan. 30	5456	1137	120	1345
Musical instrument. Autopneumatic	W. Crippen	808,903	Jan. 2	564	124–5	120	124
Musical-instrument bridge. Stringed-	R. H. Payne	809,459	Jan. 9	1733	358	120	414
Musical instrument. Electrically actuated and controlled self-playing	G. H. Davis	812,117	Feb. 6	1157	255	120	1734
Musical-instrument player. Mechanical	L. U. Jobes	810,057	Jan. 16	2982	610–11	120	729
Musical instrument. String	F. P. Alexander	808,802	Jan. 2	358	77	120	80
Musical-instrument transposer	T. W. Kloman	810,949	Jan. 30	4779	986	120	1189
Musical instruments. Action for mechanical	A. Zollinger	813,480	Feb. 27	3926	861	120	2457
Musical instruments. Pneumatic-action of	M. S. Wright	809,039	Jan. 2	814	175	120	179
Nail:							
See Scaffold-nail.							
Nail and rivet delivering machine	J. A. Milliken	813,162	Feb. 20	3286	722–3	120	2282
Nail cleaner. Pocket finger-	W. F. Gilbert	810,744	Jan. 23	4337	902	120	1059
Nail-clipper	A. H. Friese	810,402	Jan. 23	3862	786	120	982
Nail-puller	W. F. Hobbs	809,808	Jan. 9	2202	485	120	589
Nail. Secret	W. J. Boda	808,988	Jan. 2	700	151	120	154
Napkin. Sanitary	P. S. Bauer	808,624	Jan. 2	12	3	120	5
Napping-machine	H. S. Greene	810,273	Jan. 16	2874	603	120	819
Nasal shield	T. Carence	810,617	Jan. 23	4120	851	120	1031
Necktie-fastener	A. Swanson	811,455	Jan. 30	5740	1202	120	1404
Nest. Automatic hen's-	A. J. Abshier	811,891	Feb. 6	687	150	120	1680
Nest for laying hens. Trap-	C. B. Williams	809,036	Jan. 2	811	175	120	179
Nest. Hen's-	C. T. Reid	809,526	Jan. 9	1859	395	120	442
Nest. Hen's-	F. Lieske	811,156	Jan. 30	5176	1081	120	1263
Net. Horse fly-	A. Hobt	812,267	Feb. 13	1539	336	120	1877
Net-making machine	A. O. and G. Hammer	809,611	Jan. 9	2025	422–3	120	479
Nozzles. Hydraulic support for deflecting	G. J. Henry, Jr.	810,756	Jan. 23	4361	908	120	1078
Numbering streets in irregular cities. Plan for	F. E. Cudell	811,385	Jan. 30	5620	1176	120	1360
Nut-lock	H. R. Romberger	810,084	Jan. 16	2970	620	120	728
Nut-lock	H. H. Edgerly	810,528	Jan. 23	3936	809	120	981
Nut-lock	J. C. Weems	811,011	Jan. 30	4957	1021	120	1234
Nut-lock	L. A. Hall	811,916	Feb. 6	735	161	120	1640
Nut-lock	J. W. Franklin	812,095	Feb. 6	1017	222	120	1698
Nut-lock	J. Schmitt	812,290	Feb. 13	1602	352	120	1891
Nut-lock	J. W. Koch	812,620	Feb. 13	1842	404	120	1941
Nut-lock	R. G. Jahnke	812,697	Feb. 13	1969	433	120	1967
Nut-lock	M. Omalia	812,891	Feb. 13	2170	475	120	2008
Nut-lock	A. B. Allen	813,051	Feb. 20	3017	664	120	2223
Nut-lock	J. Peters	813,168	Feb. 20	3295	725	120	2294
Nut-lock	H. Seeger	813,242	Feb. 20	3434	757	120	2322
Nut. Lock-	W. L. Roberts	811,098	Jan. 30	5030	1051	120	1263
Nut. Lock-	C. Rystrom	811,967	Feb. 6	853	188	120	1692
Nut. Lock-	H. H. Crawford	812,185	Feb. 13	1364	298	120	1837
Nut-lock. Automatic	J. T. Clark	808,044	Jan. 2	839	177	120	183
Nut-tapping machine	S. H. Hinthian	810,084	Jan. 16	2936	609	120	727
Nut-tapping machine	J. J. Harris and A. A. Prior	812,422	Feb. 13	1631	401–3	120	1936
Nut. Wing-	A. S. Reed	812,204	Feb. 13	1591	349	120	1889
Oar. Bow-facing	F. L. Buff	808,720	Jan. 2	197	43	120	46
Oar-lock	A. Anderson	813,782	Feb. 27	4462	988	120	2604
Oar-lock	G. Holt	813,898	Feb. 27	4744	1048	120	2693
Obstetrical instrument	F. Ledgerwood	812,540	Feb. 13	1824	370	120	1939
Odometer	B. Volkmar	813,846	Feb. 27	4547	1003	120	2644
Oil and feed-water separator	G. R. Davidson	812,831	Feb. 20	2928	676	120	2146
Oil burner. Crude-	S. E. McKnight	811,629	Jan. 30	5704	1194	120	1398
Oil-cup	N. Smith	811,801	Feb. 6	804	113	120	1693
Oil-cup	G. C. Schoenborn	813,591	Feb. 27	4144	908	120	2536
Oil-cups. Construction of	J. Powell	813,382	Feb. 13	1703	374	120	1914
Oil-extracting machines. Lubricating device for centrifugal	E. H. Dutcher	813,367	Feb. 20	3692	811	120	2276
Oil-extractor	H. E. Moffat	813,314	Feb. 20	3689	788	120	2264
Oil-feeding device	T. J. Kehoe	811,640	Feb. 6	211	45	120	1631
Oil-press heating device	J. W. Winfrey	809,547	Jan. 9	1892	393	120	449
Oil system	H. C. Marmon	810,999	Jan. 30	4803	993	120	1203
Oil-tank indicator	W. Torst, Jr.	809,542	Jan. 9	1894	391	120	448
Oiler. Automatic	J. Cooper	810,631	Jan. 23	4126	853	120	1033
Oiler. Automatic	A. H. Taylor	810,686	Jan. 23	4262	877	120	1046
Oilers. Filling attachment for sight-feed	F. B. Garretson	811,051	Jan. 30	4989	1035	120	1238
Operating-table	J. Schoettl, C. Jaeger, and P. Waleisten	812,340	Feb. 13	1498	322	120	1880
Optical instrument	A. Swasey and G. L. Fuller	812,464	Feb. 13	1898	419	120	1933
Ordnance breech mechanism	A. T. Dawson and G. T. Buckham	812,643	Feb. 13	2026	462–3	120	1953
Ordnance sight	S. A. S. Hammar	810,644	Jan. 23	4140	860	120	1051
Ore. Apparatus for magnetic separation of iron	G. Grondal	812,170	Feb. 6	1301	271	120	1734
Ore-concentrator	G. M. Whitney	809,795	Jan. 9	2054	424	120	542
Ore-concentrator	E. Deister	810,947	Jan. 30	4939	983	120	1159
Ore-concentrator	J. W. Pinder	812,580	Feb. 13	2017	448	120	1979
Ore-crushers. Stamp-actuating mechanism for	W. S. McKinney	811,079	Jan. 30	5058	1056	120	1248
Ore. Magnetic separation of iron	G. Grondal	812,172	Feb. 6	1304	286	120	1735
Ore or flue dust. Burning comminuted	G. L. Davison	811,849	Jan. 30	4965		120	1239
Ore. Reducing iron	G. M. Westman	812,247	Feb. 13	1495	321	120	1888
Ore-separator. Magnetic	G. Grondal	812,171	Feb. 6	1303	285	120	1735
Ore-separator. Magnetic	G. Grondal	812,173	Feb. 6	1305	287	120	1735
Ore-sorting belt	F. W. Jacques	812,370	Feb. 13	11545	334–5	120	1675
Ore-washing plant	F. Eggers	810,196	Jan. 16	3197	695	120	788

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drf'g.	Official Gazette. Vol.	Official Gazette. Page.
Ores and metalliferous sands. Applying heat for the treatment of	W. J. Jackson	808,784	Jan. 2	264	.....	120	61
Ores. Recovering values from sulfid	E. C. Pohlé	811,085	Jan. 30	5018	.....	120	1251
Ores. Treating	J. H. Haynes and W. D. Engle	808,839	Jan. 2	420	.....	120	98
Ores. Treating	J. Savelsberg	810,572	Jan. 23	4038	.....	120	1000
Organs. Reed-	E. W. Arnold	812,473	Feb. 13	1915	422	120	1909
Organs and pianos. Foot-release valve for pneumatic actions for	F. C. Preston	811,087	Jan. 30	5028	1049	120	1252
Ornamental comb	O. Herrmann	812,906	Feb. 20	2944	648	120	2217
Orthopedic appliance for curing knock-knees, &c.	W. J. Metcalf and J. W. Pickering	809,574	Jan. 9	1951	405	120	461
Overhead line	O. Semeleder	810,355	Jan. 16	3546	720	120	887
Overlay	E. Giraud	812,561	Feb. 13	2114	463	120	1907
Overshoe	C. W. Combe	809,096	Jan. 2	964	198	120	211
Overshoe-fastener	A. E. Roberts	808,948	Jan. 2	645	141	120	142
Overshoe-retainer	W. O. Brockway	809,805	Jan. 9	2571	532	120	586
Oxids. Apparatus for the preparation of metallic	O. E. Hubbell	813,897	Feb. 27	4745	1049	120	2665
Oxids. Producing metallic	L. Fink-Huguenot	813,785	Feb. 27	4517	997	120	2616
Ozone-generator	L. Fink-Huguenot	813,786	Feb. 27	4519	997	120	2616
Package	C. F. Birtman	811,364	Jan. 30	5581	1165–6	120	1372
Package and letter delivering and collecting system	J. Herr	809,948	Jan. 16	3881	853	120	676
Packing	J. M. Case	813,542	Feb. 27	4048	886–8	120	2516
Packing	J. Ostrander	808,775	Jan. 2	312	67	120	70
Packing	C. Restein	809,581	Jan. 9	1961	407	120	463
Packing	H. E. Longwell and F. Hodgkinson	813,723	Feb. 27	4393	969	120	2589
Packing. Automatic	E. S. Lea and J. Degen	811,934	Feb. 6	799	176	120	1662
Packing-case	G. H. Leathers	810,060	Jan. 16	3036	611	120	730
Packing-case. Partitioned	A. R. Speer	813,246	Feb. 20	3440	758	120	2328
Packing for the end faces of pairs of rollers. Lateral	F. E. F. Neumann	813,320	Feb. 20	3601	791	120	2356
Packing. Metallic	E. M. Cook	812,114	Feb. 6	1155	254	120	1723
Packing. Piston-rod	P. H. Weaver	811,603	Feb. 6	132	29	120	1514
Pad: *See* Desk-pad. Furniture-pad. Harness-pad. Horseshoe-pad. Therapeutic pad.							
Pad-holder	L. J. Hopkins	809,615	Jan. 9	2042	424	120	480
Paddle-wheel	J. Best	812,805	Feb. 20	2565	564	120	2133
Paging-machine	G. Stahl	810,577	Jan. 23	4042	831	120	1003
Pail and strainer. Milk	A. T. Gunderson	810,408	Jan. 23	3896	761	120	925
Paint and varnish remover	C. Ellis	811,044	Jan. 30	4951	.....	120	1237
Paint-remover	G. Michaelis	812,582	Feb. 13	2153	.....	120	2005
Pan: *See* Evaporating-pan. Cook and frying pan.							
Pan-and-roller mill for crushing and grinding	J. C. Wegerif	810,830	Jan. 23	4497	936	120	1103
Panel cut-out and receptacle	F. T. Wheeler	809,873	Jan. 9	2513	522	120	586
Pantograph	N. H. Brown	809,246	Jan. 2	1267	257–8	120	280
Pantograph	A. Shaker	811,333	Jan. 30	5526	1152	120	1359
Paper-bag machine	F. E. Strasburg	809,230	Jan. 2	1208	246–7	120	266
Paper-bag machine	F. E. Strasburg	812,378	Feb. 13	1740	351–3	120	1921
Paper-bag machine	E. E. Claussen	813,280	Feb. 20	3499	771–2	120	2336
Paper-bag machine	W. Liddell	814,006	Feb. 27	4958	1096–9	120	2707
Paper-bag machines. Conveying mechanism for	O. Hesser	813,206	Feb. 20	3373	743	120	2309
Paper-bag-making machine	O. Hesser	813,207	Feb. 20	3366	740–2	120	2308
Paper-bag rack	X. C. Halbert	811,142	Jan. 30	5146	1075–6	120	1276
Paper bottle, cup, or other container	J. C. Kimsey	809,812	Jan. 9	2406	499	120	562
Paper bottles, cups, &c. Manufacture of	J. C. Kimsey and H. R. Heyl	809,813	Jan. 9	2408	499	120	562
Paper-box-blank-stripping machine	L. C. Palmer	810,971	Jan. 30	4821	1002–3	120	1207
Paper box or carton	T. J. Landrum	812,212	Feb. 13	1413	307	120	1848
Paper-cabinet	J. W. Meaker	810,293	Jan. 16	3407	705	120	827
Paper-cabinet	J. W. Meaker	810,294	Jan. 16	3410	705	120	827
Paper-cabinet	J. W. Meaker	810,295	Jan. 16	3414	706	120	828
Paper-clip	J. McLean	812,800	Feb. 13	2553	562	120	2086
Paper. Device for measuring the thickness of	B. S. Hudson	812,042	Feb. 6	1023	223–4	120	1697
Paper-feeding machine	C. B. Stilwell	808,953	Jan. 2	510	110–15	120	114
Paper-feeding machine	H. Bradshaw	810,391	Jan. 23	3851	751–3	120	915
Paper-feeding mechanism	C. Williams	813,127	Feb. 20	3226	707–8	120	2280
Paper-fixture	H. J. Williams	813,128	Feb. 20	3228	708	120	2280
Paper-folding machine	A. E. Sexton	813,563	Feb. 27	4147	909–10	120	2537
Paper-hanger's handy device	A. C. Harris and E. C. Jarman	812,740	Feb. 13	2444	536	120	2002
Paper-holder	J. Sim	809,330	Jan. 9	1445	293	120	352
Paper-holder	A. E. Sexton	813,564	Feb. 27	4149	910	120	2537
Paper-machine	J. W. Packer	813,820	Feb. 27	4578	1011–13	120	2629
Paper-machine head-box	W. McNaught	809,073	Jan. 2	882	187–8	120	195
Paper-machines. Felt-regulating device for	T. Hancock	813,268	Feb. 20	3524	777	120	2342
Paper-making apparatus for separating sand, metal, and other impurities from pulp	J. Macnaughton	813 964	Feb. 27	4904	1086	120	2697
Paper-making machine	J. W. Moore and J. A. White	809,532	Jan. 9	2436	505	120	569
Paper-making machine	A. Aldrich	811,527	Jan. 30	5867	1230	120	1430
Paper. Manufacturing lined or enveloped tubes of	G. H. Sachsenröder	809,846	Jan. 9	2467	513	120	576
Paper-perforating machine. Automatic	H. L. Davis	811,621	Feb. 6	168	37–8	120	1522
Paper pulp-asorting apparatus	B. Kihlgren	811,880	Feb. 6	700	173	120	1660
Paper receptacles. Making	J. C. Kimsey	811,409	Jan. 30	5680	1188	120	1393
Paper-roll core	S. H. Smart	812,205	Feb. 13	1613	364	120	1894
Patent. Device for fastening folded	W. R. Coon	812,115	Feb. 6	1156	254	120	1724
Patent. Potato-	H. A. Mitchell and T. D. Singleton	811,852	Feb. 6	226	49	120	1536
Paste-pot	R. P. Frist	813,096	Feb. 20	3135	695	120	2267
Pasteurizer or cooler	D. W. Payne	811,170	Jan. 30	5004	1083	120	1289
Pastry-bag	F. Dieper	809,160	Jan. 2	994	209	120	313
Patchwork coverlet requiring a sitting position	D. G. Sterns	810,289	Jan. 23	4388	883	120	1004
Patchwork implement for	C. W. Gregory, Jr.	810,290	Jan. 23	3945	813	120	988
Patent. Device for preventing packing for wood-block roadway	W. Schumacher	813,236	Jan. 2	1160	.....	120	285
Patent. Means for covering artificial	J. T. Dell	808,827	Jan. 2	357	100	120	112
Patent. Potato-	F. A. Pritchett	813,289	Feb. 27	4913	870–80	120	2688

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drf'g.	Official Gazette. Vol.	Official Gazette. Page.
Pedestal-table	G. A. Davis	810,395	Jan. 16	3364	686	120	815
Pedestal-table	T. C. Beech	812,304	Feb. 13	1780	360	120	1933
Peeling machine. Vegetable-	H. Robinson	809,569	Jan. 9	1962	402	120	462
Pen. Fountain-	J. A. L. Snyder	808,980	Jan. 2	554	110	120	113
Pen. Fountain-	F. M. Kegrise	810,324	Jan. 16	3382	702	120	824
Pen. Fountain-	M. R. Crossman	810,327	Jan. 16	3402	704	120	842
Pen. Fountain-	G. Swester	812,854	Feb. 27	4066	874	120	2513
Pen. Knocking-	G. Schmidt and F. Schmidgall	811,068	Feb. 6	888	188	120	1662
Pen-rack and inkstand-holder. Combined	L. Tripodi	809,646	Jan. 9	2112	437	120	494
Pen. Reservoir-	P. Orywall	809,719	Jan. 9	1433	289	120	349
Pen. Reservoir-	R. T. Gillespie	812,647	Feb. 13	2272	486	120	2027
Penholder	O. Johnson	809,892	Jan. 9	2194	454–5	120	514
Pencil	F. L. Rousseau	813,522	Feb. 27	4017	880	120	2509
Pencil and pen holder	L. Milliron	812,763	Feb. 13	2483	545	120	2070
Pencil-holder	I. C. Resnor	809,135	Jan. 2	1021	211	120	234
Pencil-sharpener	H. H. A. Schwarz	811,798	Feb. 6	801	112	120	1582
Pencil-tip	F. McIntyre	813,108	Feb. 20	3173	694	120	2260
Perforating-machine	H. D. Jacobson	808,661	Jan. 2	79	17	120	19
Perforating-machine	H. S. Bergen	811,816	Feb. 6	827	118	120	1588
Perforating-machine	B. J. Lindgren	813,049	Feb. 20	3043	670–1	120	2238
Petroleum-burner	G. Carl and A. Sohns	810,908	Jan. 30	4983	976	120	1175
Petroleum. Eliminating sulfur from the sulfur-containing constituents of	H. S. Blackmore	809,087	Jan. 2	932	194	120	208
Petroleum. Extracting sulfur from the sulfur-containing constituents of	H. S. Blackmore	809,086	Jan. 2	929	194	120	208
Phonograph	E. M. Robinson	813,670	Feb. 27	4396	945–6	120	2589
Phonograph attachment	Z. T. Grover	811,633	Feb. 6	202	43	120	1529
Phonograph-horn	C. A. Senné	811,577	Feb. 6	651	142–3	120	1623
Phonograph-horn	J. T. Brown	813,909	Feb. 27	4937	1092	120	2704
Phonograph-horn. Folding	J. T. Brown	811,900	Feb. 6	703	154	120	1624
Phonograph-records. Apparatus for applying pigment to engraved ends of	J. F. Ott	813,514	Feb. 27	3997	876–7	120	2503
Phonograph repeating attachment	E. L. Aiken	810,018	Jan. 16	2826	584–5	120	704
Phonograph speed-indicator	P. Weber	811,010	Jan. 30	4896	1021	120	1224
Phonographs, ear-trumpets, &c. Horn for	G. H. Villy. (Reissue)	12,442	Jan. 30	5688	1235	120	1435
Phonographic horn. Folding	M. L. Munson	813,814	Feb. 27	4565	1009	120	2626
Photo-holder	J. Wallick	811,008	Jan. 30	4893	1020	120	1223
Photograph-printing apparatus	E. I. Brown	810,907	Jan. 30	4681	976	120	1175
Photographs. Apparatus for permitting the successive exhibition of	C. Fougerat	808,830	Jan. 2	405	89	120	90
Photographic developing-cabinet	E. O. Kepler	810,413	Jan. 23	3714	786	120	929
Photographic-film exposing and developing machine	G. C. Beidler	810,388	Jan. 23	3637	749–50	120	911
Photographic mask	P. A. Hillhouse	810,143	Jan. 16	3092	638	120	761
Photographic papers. Manufacturing	I. Hoffedimmer	812,204	Feb. 13	1390	.....	120	1844
Photographic plate and film lifter	J. J. Lintz	808,936	Jan. 2	615	134	120	136
Photographic-plate carrier	E. L. Hall	811,496	Jan. 30	5810	1216	120	1418
Photographic-printing device	W. H. Brown	812,816	Feb. 20	2588	540	120	2130
Photographic-printing frame	J. R. Spencer	813,531	Feb. 27	4063	884	120	2513
Photographic proofs. Producing multicolored	S. Vathis	809,651	Jan. 9	2118	.....	120	495
Photographic purposes. Automatic device for	W. H. Greene	809,389	Jan. 9	1531	311	120	371
Photographic shutters. Automatic tripping device for	A. E. Watts	809,346	Jan. 9	1483	300	120	362
Photography	J. W. Ippers	812,748	Feb. 13	2453	538–9	120	2064
Piano-action	J. W. Darley, Jr.	810,920	Jan. 30	4717	984–5	120	1185
Piano-action	W. C. Vogel and H. K. Snell	812,705	Feb. 13	2375	520	120	2047
Piano-action	E. Werner	813,263	Feb. 20	3470	766	120	2330
Piano-action flange	F. C. Billings	810,701	Jan. 23	4264	884	120	1053
Piano-actions. Damper-lever flange for	W. W. McCall	809,970	Jan. 16	3728	831	120	684
Piano-actions. Hammer-supporting flange for	C. P. Blinn	809,042	Jan. 2	825	177	120	182
Piano attachment	W. C. Creighton and C. M. Banker	811,279	Jan. 30	5424	1130–1	120	1338
Piano attachment. Self-playing	J. W. Darley, Jr.	813,256	Feb. 20	3065	804	120	2370
Piano-bridge	F. Meyer	812,510	Feb. 13	1994	427	120	1973
Piano-hammer extractor	C. H. Lang	812,806	Feb. 13	1976	434	120	1993
Piano pedal-guard	M. E. Clements	810,225	Jan. 16	3420	719	120	842
Piano-player. Electrical	P. B. Kehoe	809,305	Jan. 9	1393	282–4	120	343
Piano-player. Mechanical	J. O'Connor	811,082	Jan. 30	5011	1047	120	1240
Piano-playing attachment	H. McPhail	808,774	Jan. 2	304	66–7	120	69
Piano-repairer a tool	S. M. King	810,285	Jan. 16	3395	703	120	834
Piano. Self-playing	J. W. Darley, Jr.	813,355	Feb. 20	3664	809–4	120	2370
Piano swinging frames. Regulating-hinge for	L. E. Bretzfelder and R. K. Thumler.	809,043	Jan. 2	827	177	120	182
Piano-tone-modulating device	J. Sampere	812,237	Feb. 13	1402	320–1	120	1899
Pianoforte	J. W. Galloway	813,791	Feb. 27	4524	999	120	2617
Picker: *See* Cassia-picker. Cotton-picker.							
Picture apparatus. Moving-	R. C. Wagner	811,341	Jan. 30	5544	1154–7	120	1363
Picture-displaying apparatus	S. Zecnik and E. O. Gottlieb	811,610	Feb. 6	146	33–3	120	1617
Picture-exhibiting apparatus. Moving-	N. Bowes	809,981	Jan. 16	3748	864–5	120	693
Picture-frame	E. G. Anthony	811,365	Jan. 30	5566	1161	120	1366
Pictures and the like. Means for displaying	A. E. Pauls	811,422	Jan. 30	5707	1196	120	1396
Pigments. Producing carbonaceous	D. J. Ogilvy	813,911	Feb. 27	4778	.....	120	2672
Pile-driver	A. Bishop	809 342	Jan. 2	1209	266	120	276
Pile fabric. Tufted	T. Cooper	813,561	Feb. 27	4047	1070	120	2662
Pile fabric. Woven	M. J. Whitsell	810,012	Jan. 16	2814	683	120	702
Pile fabric. Woven	M. J. Whitsell	810,013	Jan. 16	2817	684	120	703
Pile fabric. Woven	A. G. Robertson	813,898	Feb. 27	4870	978	120	2688
Pile fabric. Woven	J. Zimmerman	813,130	Feb. 20	3224	709	120	2280
Pile-fabric	J. Zimmerman	813,131	Feb. 20	3225	709–10	120	2280
Pile-fabric	J. Zimmerman	813,132	Feb. 20	3226	710	120	2280
Piling. Metal	J. McGrew	810,851	Jan. 23	3989	881	120	1003
Piling. Metal	J. J. Russell	808,958	Jan. 2	520	98	120	98
Pin: *See* Clothes-pin. Hair-pin. Horse-blanket pin. Spinning-pin.	J. J. Russell	808,959	Jan. 2	726	157	120	161
Pin holding and delivery device	D. A. Lawton and L. L. Withey	810,922	Jan. 30	4767	988	120	1200

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drs.	Official Gazette. Vol.	Official Gazette. Page.
Pin-making machine. Safety-	W. D. Middlebrook	812,762	Feb. 13	2480	544-5	120	2089
Pin-retainer	W. C. Maynard	811,421	Jan. 30	5688	1191	120	1393
Pinking-machine	P. H. Sweet	812,466	Feb. 13	1901	419	120	1954
Pipe:							
See Flexible pipe. Lock-seam pipe. Lubrication-pipe. Railway stand-pipe. Stovepipe. Tobacco-pipe. Water-closet flush-pipe.							
Pipe-bending machine	J. H. Mull	811,516	Jan. 30	5845	1224	120	1426
Pipe-bracket. Adjustable	J. E. Rollins	813,588	Feb. 27	4140	907	120	2535
Pipe-clamp	E. L. Rieske	809,327	Jan. 9	1442	292	120	351
Pipe-cleaner	F. A. Falt	808,526	Jan. 2	400	87	120	89
Pipe-coupling	A. T. Herrick	808,922	Jan. 2	594	130	120	130
Pipe-coupling	A. T. Herrick	808,923	Jan. 2	595	131	120	130
Pipe-coupling	J. P. Eustis	809,792	Jan. 9	2375	490	120	555
Pipe-coupling	A. W. Graham	811,631	Feb. 6	199	42-3	120	1526
Pipe-coupling	A. W. Graham	811,632	Feb. 6	201	43	120	1529
Pipe-coupling	D. Landau	813,437	Feb. 27	3846	842	120	2468
Pipe coupling. Automatic air-	P. Settino and P. Hoover	812,532	Feb. 13	2042	447	120	1983
Pipe coupling. Steam-	W. J. Pine and L. P. Hynes	813,235	Feb. 20	3423	754	120	2319
Pipe coupling. Train-	J. A. Frenzel	813,637	Feb. 27	4237	931	120	2656
Pipe-cutter	E. H. Hollingshead and C. P. Jennings.	810,784	Jan. 23	4375	908	120	1078
Pipe-cutter	A. Kovacs	812,210	Feb. 13	1409	306-7	120	1847
Pipe-dressing tool	W. Ritschard	812,366	Feb. 13	1712	376	120	1916
Pipe guard. Vent-	C. M. Brean	809,667	Jan. 9	2144	444	120	501
Pipe-joint. Flexible	W. A. Greenlaw	812,202	Feb. 13	1396	303	120	1843
Pipe-laying device	C. De Lay	809,910	Jan. 9	2563	534	120	608
Pipe-line. Fluid	J. B. Speed	808,782	Jan. 2	327	70	120	72
Pipe-line. Helically-ribbed fluid	D. J. Isaacs and J. B. Speed	808,752	Jan. 2	262	57	120	60
Pipe mold. Drain or sewer	J. B. Hill	810,276	Jan. 16	3378	699	120	820
Pipe return-bend. Double-	F. H. Niles	811,318	Jan. 30	5496	1145	120	1353
Pipe-section coupling-joint	I. Schaad	813,454	Feb. 27	3870	848	120	2474
Pipe tongs or wrench	E. Duggins	809,102	Jan. 2	966	200	120	213
Pipe-wrench	R. Adams	808,801	Jan. 2	357	77	120	79
Pipe-wrench	G. W. Waitt	809,152	Jan. 2	1046	217	120	230
Pipe-wrench	J. H. Vinton	810,096	Jan. 16	2907	624	120	744
Pipe-wrench	L. V. Remion	810,304	Jan. 16	3441	711	120	834
Pipe-wrench	H. C. Barlow	810,366	Jan. 16	3596	733	120	863
Pipe-wrench	S. A. Feeler	810,726	Jan. 23	4326	899	120	1057
Pipe-wrench	E. Fisher. (Reissue)	12,438	Jun. 23	4652	970	120	1135
Pipe-wrench	W. Gormley	813,645	Feb. 27	4251	934	120	2580
Pipes. Apparatus for holding, turning, threading, and cutting	M. H. Spear	813,530	Feb. 27	4031	883	120	2513
Pipes of artificial stone. Making	J. Hall	809 680	Jan. 9	2172	449-50	120	510
Pipette	S.-I. Takaki	813,256	Feb. 20	3461	763	120	2328
Pistol and revolver sight	E. M. Canto	811,033	Jan. 30	4936	1030	120	1233
Piston	G. H. Stallman	811,255	Jan. 30	5379	1122	120	1328
Piston-rod lubricator	J. B. Barnes	813,398	Feb. 27	3763	826	120	2480
Piston-rod-moving device	H. Linke	813,158	Feb. 20	3277	720	120	2290
Pitman connection	W. V. Miller	810,981	Jan. 30	4808	989	120	1204
Pitman-rod. Extensible	W. R. O'Neill	810,798	Jan. 23	4453	934	120	1094
Pitometers. Street connection for	A. J. Cole	811,763	Feb. 6	425	94	120	1579
Pivot-gaging machine	D. H. Church	809,248	Jan. 2	1272	259-61	120	261
Placket fastener. Dress-	G. Burrows	813,945	Feb. 27	4630	1008	120	2663
Planer-head	J. B. Forbes	811,769	Feb. 6	438	96	120	1581
Planer-head and cutter	J. B. Forbes	811,768	Feb. 6	437	96	120	1581
Plant-excavator	R. D. Kline	813,717	Feb. 27	4284	937	120	2667
Plant-support	C. Lund	812,942	Feb. 20	2845	623	120	2186
Planter	W. S. Graham	812,925	Feb. 20	2804	617-18	120	2186
Planter and fertilizer-distributer. Combined corn-	J. D. Davis	812,983	Feb. 20	2923	644	120	2212
Planter. Check-row corn-	J. L. Miller	812,606	Feb. 13	2360	500	120	2062
Planter. Corn-	A. J. Brown	810,103	Jan. 16	3099	637	120	746
Planter. Corn-	E. E. Englund	811,554	Feb. 6	30	7-8	120	1491
Planter. Corn-	I. A. Weaver	811,977	Feb. 6	892	196-8	120	1670
Planter. Corn-	C. W. Lanham	812,755	Feb. 13	2468	541-2	120	2098
Planter. Potato-	H. J. Springer	812,695	Feb. 13	2382	515	120	2042
Planter. Seed-	J. W. Little	812,057	Feb. 6	1080	230	120	1708
Planter. Seed-	P. Le Sueur	812,278	Feb. 13	1557	340	120	1821
Planter-wheel	G. C. Avery	809,886	Jan. 9	2638	538	120	591
Plaster. Wall-	J. W. Chase	812,978	Feb. 20	2915		120	2211
Plaster composition	G. C. Wyatt	812,109	Feb. 6	1145		120	1722
Plastic-material mold	A. S. Watts	811,602	Feb. 6	121	30	120	1514
Plastic-material-molding apparatus	J. A. McConnell	812,148	Feb. 6	1242	270	120	1744
Plastic materials. Machine for molding articles from	H. W. N. Cole	809,564	Jan. 9	1913	397	120	494
Plate-guard	R. Turner and B. R. Corley	809,026	Jan. 2	909	174	120	178
Plating and dipping rack. Wire-	J. P. Clark	811,375	Jan. 30	5092	1170	120	1376
Plow	W. Connor	808,727	Jan. 2	213	46-4	120	49
Plow	S. H. Steele	809,757	Jan. 9	2305	477	120	535
Plow	S. S. Weaver	809,870	Jan. 9	2510	521	120	585
Plow	J. H. Baker	811,514	Feb. 6	394	117	120	1487
Plow	C. H. Little	812,056	Feb. 6	1080	228	120	1708
Plow	L. N. Schultz	813,118	Feb. 20	3301	703	120	2275
Plow	J. J. McManmon	813,988	Feb. 27	4680	1018	120	2709
Plow	R. B. Lassiter	813,722	Feb. 27	4281	933	120	2668
Plow	A. Shearer	676,576	Jan. 23	4323	898	120	1057
Plow	W. H. Williams	811,608	Feb. 6	136	30-1	120	1515
Plow	S. H. Clark	808,437	Jan. 23	3619	752	120	885
Plow	W. J. Payette	813,283	Feb. 6	1164	245	120	1713
Plow	A. Thiesen	810,280	Feb. 13	1723	364	120	1885
Plow-attachment	W. S. Cook	810,220	Jan. 23	4158	864	120	1033
Plow-beam	P. R. Thorne and R. D. Walton	809,477	Jan. 9	1793	378	120	479
Plow-coulter	J. F. Mikolasek	811,494	Jan. 30	5322	1115	120	1321
Plow-handle	S. F. Piper	812,445	Feb. 27	4630	1008	120	2671
Plow-handle	H. J. Kyle	809,304	Jan. 9	2213	464-5	120	515
Plow-share	A. C. Lindgren	810,779	Jan. 23	4436	914-15	120	1085

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drs.	Official Gazette. Vol.	Official Gazette. Page.
Plows. Lifting device for gang and sulky	F. J. Kelly	812,273	Feb. 13	1851	398-9	120	1879
Plows. Sod-turner for disk	J. J. Travis	813,086	Feb. 20	3094	678	120	2351
Plumber's trap	J. F. McCartney	810,971	Jan. 16	3729	801	120	994
Plumbing system	J. L. Frain	810,047	Jan. 16	3288	707	120	750
Plunger-lubricator	L. A. B. Johnson	809,809	Jan. 9	2469	497-8	120	569
Pneumatic-cushion wheel	C. A. Lee	810,081	Jan. 16	3268	612	120	720
Pneumatic-despatch-tube apparatus	E. A. Fordyce	813,439	Feb. 27	4224	920	120	2655
Pneumatic-despatch-tube system	J. S. Jacques	812,271	Feb. 13	1548	337-8	120	1872
Pneumatic-despatch-tube system	J. S. Jacques	812,702	Feb. 13	2540	539-9	120	2092
Pneumatic-despatch tubes. Clamping-sleeve for	J. F. Skirrow	813,674	Feb. 27	4303	947	120	2670
Pneumatic hoist	J. L. Pilling	810,884	Jan. 23	4622	963	120	1139
Pneumatic motor	L. U. Jobes	809,919	Jan. 9	2609	537-8	120	607
Pneumatic-tube carrier	B. C. Batcheller	808,628	Jan. 2	11	3	120	5
Pneumatic tube for store service	T. Bemis	812,162	Feb. 6	1266	282	120	1751
Pneumatic tubes. Combined door, lock, and indicator for carriers used in	P. J. Madigan	808,768	Jan. 2	291	66	120	66
Pocket-box. Sheet-metal	I. J. Marcuse	812,175	Feb. 6	1309	286	120	1766
Pocket-filling machine	T. A. Edison	813,491	Feb. 27	3947	866-7	120	2498
Pocket-knife	G. Schrade	812,601	Feb. 13	2189	477	120	2011
Pocket. Safety-	A. M. Fitzkee	811,045	Jan. 30	4952	1084	120	1237
Pocket. Safety-	M. C. Dexter	813,262	Feb. 20	3082	800	120	2374
Pol-machine	E. Kopke	809,571	Jan. 9	1948	429-4	120	480
Poles. Water-brake for	E. E. P. Petery and J. O. Jackson	810,880	Jan. 23	4603	999	120	1136
Polishing-machine	J. Nelson	810,454	Jan. 23	3904	823-3	120	988
Polishing-machine	J. A. Stowell	811,454	Jan. 30	5789	1301	120	1408
Polishing-machine	F. Terramorse	813,829	Feb. 27	4637	1026	120	2642
Pool-table register	G. C. Beck	811,195	Jan. 30	5262	1101-2	120	1302
Portable table	J. D. Camfield	811,480	Jan. 30	5777	1209-10	120	1411
Post:							
See Anchor-post. Binding-post. Concrete fence-post. Concrete or cement post. Fence-post. Hitching-post.							
Post	J. D. Morse	811,313	Jan. 30	5486	1144	120	1350
Post	W. W. Wilcox	813,336	Feb. 20	3532	797	120	2368
Post and wire-stretcher. Combined	G. W. Thomas	810,282	Jan. 16	3263	679	120	800
Post-card. Pictorial	K. Münster	812,515	Feb. 13	2004	439	120	1975
Pot:							
See Coffee-pot. Fire-pot. Paste-pot. Sewing-machine wax-pot.							
Pot-rack	E. B. Cloninger	812,546	Feb. 13	2089	456	120	1902
Potato cutter and planter. Automatic	J. J. Putney	809,290	Jan. 9	1606	325-6	120	396
Potato-digger	J. Hist	808,748	Jan. 2	282	54	120	58
Potato-digger	J. Hist	809,220	Jan. 2	1302	265	120	268
Potato-digger	J. Hist	809,282	Jan. 2	1302	265	120	267
Potato-digger	J. Johansen and E. A. Fedick	810,702	Jan. 23	4377	889	120	1078
Potato-digger	D O Bowman	812,007	Feb. 6	971	211-12	120	1687
Potato-digger	T. N. Oium	812,673	Feb. 13	2318	504-5	120	2086
Potato-digger attachment	G. E. Chute	810,716	Jan. 23	4394	893	120	1080
Poultry-fountain	G. F. Gillenwaters	811,914	Feb. 6	783	160	120	1649
Powder and making same. Gun-	F. I. Du Pont	813,020	Feb. 20	2905		120	2239
Powder to the person. Device for applying	O. H. Huebel	811,924	Feb. 6	781	170-1	120	1648
Power:							
See Horse-power. Tide power.							
Power-carrying lines. Support for	J. Reid	812,912	Feb. 27	4778	1054-5	120	2672
Power-generator. Electromagnetic	J. L. Potter	812,949	Feb. 20	2957	630	120	2300
Power mechanism	J. W. Wihlborg	813,767	Feb. 27	4465	984	120	2602
Power plant	R. Moran	812,666	Feb. 13	2302	501	120	2083
Power-press	J. E. Dobson	810,796	Jan. 16	3194	683	120	731
Power shears. Hand-	F. A. Richards	812,422	Feb. 13	1894	415	120	1950
Power-transmission device	G. W. Marble	808,709	Jan. 2	268	60-4	120	63
Power-transmission device	F. de Coligny	812,482	Feb. 13	1942	426	120	1962
Power-transmission mechanism	J. H. Thompson	810,178	Jan. 16	3148	692	120	773
Power-transmitter	W. and V. Lorenz	810,720	Jan. 23	4414	898	120	1082
Power-transmitting apparatus	W. L. Wilson	812,628	Feb. 13	2352	495	120	2010
Power-transmitting mechanism	J. B. King	810,809	Jan. 23	4681	864	120	1121
Power-transmitting mechanism	H. H. Taylor	811,368	Jan. 30	5388	1193	120	1339
Power-transmitting mechanism	J. Petrelli	812,519	Feb. 13	2012	441-2	120	1977
Precious metals. Apparatus for recovering	E. J. Garvin	809,899	Jan. 16	2605	549	120	603
Precious metals. Apparatus for treating slimes, &c., for the recovery of the	C. Gluyas	812,418	Feb. 13	1838	399-400	120	1947
Preserving-can. Vacuum-sealing	H. B. Williams	812,908	Feb. 20	2906	629	120	2297
Press:							
See Baling-press. Barrel-heading press. Briqueting-press. Butter-press. Cement-brick press. Cement or plastic block molding press. Concrete-building-block press. Copying-press. Die-press. Drill-press. Filter-press. Glass-press. Hay-press. Multicolor-press. Plate-press. Power-press. Printing-press. Printing and embossing press. Seal-press. Shingle-press. Stamping-press. Transfer-press. Trousers-press.							
Press	O. Smith	808,804	Jan. 2	354	71-2	120	73
Press-operating device	H. Thurston	812,901	Feb. 20	2897	620	120	2295
Presses. Belt-feed for ink-table distributing-	J. L. Haverfield	813,788	Feb. 27	4485	988	120	2605
Presser-foot and mechanism for operating the same	J. C. Bermingham	812,914	Feb. 20	2887	618	120	2291
Pressing machine. Clothes-	J. H. Whipple	812,156	Feb. 6	1257	280	120	1750
Pressure and moving look	F. G. Norton	811,911	Feb. 6	1257	280	120	1750
Pressure and suction device	F. Dumble	811,155	Jan. 30	5159	1151	120	1298
Pressure-regulator	E. Roth	811,980	Jan. 30	5881	1310-1	120	1488
	A. B. Carmichael	812,017	Feb. 6	989	210	120	1688

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drg.	Official Gazette. Vol.	Official Gazette. Page.
Pressure-retainer. Automatic	J. W. Brown	808,811	Jan. 2	372	80	120	82
Primary battery	C. E. Lockwood and G. A. Lutz	812,804	Feb. 13	1978	434	120	1999
Primary battery	C. E. Lockwood and G. A. Lutz	812,805	Feb. 13	1979	434	120	1999
Primer and protector. Check	A. J. Ware and W. Zoller	812,707	Feb. 13	2378	821	120	2047
Printer's composing-stick	F. M. Barker	808,715	Jan. 2	184	40	120	62
Printers' leads. Machine for manufacturing	C. C. Webster	812,708	Feb. 13	2381	521-3	120	2048
Printer's register-hook	J. E. Lee	808,663	Jan. 2	51	13	120	20
Printing and addressing machine. Envelop	M. P. Kenna	809,957	Jan. 16	2009	556	120	677
Printing and delivery mechanism	W. H. Bunce	812,180	Feb. 13	1380	204	120	1831
Printing and embossing press	W. Scott	810,891	Jan. 23	4088	984	120	1130
Printing and folding machine	C. Hawkins	813,228	Feb. 27	4728	1045-6	120	2662
Printing and folding machine. Combined rotary web	W. Scott	810,228	Jan. 16	2283	676-7	120	795
Printing and numbering machines. Numbering arrangement for use in connection with	H. A. W. Wood	810,803	Jan. 23	4089	838	120	1009
Printing apparatus	D. Sr. and Jr., A. L., and J. W. Carlaw	811,372	Jan. 30	5896	1169	120	1274
Printing books in type for the blind. Apparatus for	G. H. Gihon	810,742	Jan. 23	4332	900-2	120	1068
Printing fabrics	R. Monske	811,787	Feb. 6	481	104	120	1538
Printing-frame	P. Jeanmaire and H. Schmid	808,987	Jan. 2	730		120	161
Printing-machine	A. J. Jarman	812,426	Feb. 13	1837	403	120	1940
Printing-machine feeding mechanism	B. B. Hough	813,702	Feb. 27	4359	959-60	120	2562
Printing machine. Oil-cloth	H. C. Gammeter	812,736	Feb. 13	2434	533	120	2060
Printing-machines. Impression mechanism of cylinder	W. H. Waldron	811,342	Jan. 30	5547	1157	120	1264
Printing mechanism	H. A. W. Wood	810,016	Jan. 16	2821	583-4	120	703
Printing. Photomechanical	J. C. Barclay	811,995	Feb. 6	946	207	120	1681
Printing. Photomechanical	J. W. Ippers	809,955	Jan. 16	2003	555	120	677
Printing. Photomechanical	H. L. Reckard	810,434	Jan. 23	3742	771	120	935
Printing. Photomechanical multicolor	J. W. Ippers	812,405	Feb. 13	1952	431	120	1966
Printing-plate holder	M. N. Weyl	809,157	Jan. 2	1055	219	120	282
Printing-plate holder	E. R. Storm	809,239	Jan. 2	1204	246	120	295
Printing-press	C. F. Rockstroh	811,226	Jan. 30	5516	1149-50	120	1257
Printing-press	T. B. Dooley	811,488	Jan. 30	5792	1213	120	1415
Printing-press	T. B. Dooley	811,515	Jan. 30	5841	1223	120	1424
Printing-press	T. G. Claridge and T. A. Randall	812,545	Feb. 13	2084	456-8	120	1991
Printing-press	C. B. Swink	813,466	Feb. 27	3900	855	120	2480
Printing-press attachment	E. M. Couch	813,778	Feb. 27	4501	994-5	120	2612
Printing-press automatic sheet-adjusting device	C. R. Clare	813,279	Feb. 20	3496	771	120	2336
Printing-press bed and cylinder motion	F. H. Tibbetts	812,901	Feb. 20	2757	607	120	2176
Printing-press delivery apparatus	M. J. Barnett	808,806	Jan. 2	364	79	120	81
Printing-press delivery mechanism	S. G. Goss	812,923	Feb. 20	2795	615-16	120	2184
Printing press. Flat-bed web	C. B. Swink	810,231	Jan. 16	2281	679	120	799
Printing-press ink-distributer	H. F. Beehman	809,241	Jan. 2	1257	268	120	277
Printing-press ink-roller-driving mechanism	J. S. McKinley	809,531	Jan. 9	1847	383	120	440
Printing-press mechanism	B. Hall	810,051	Jan. 16	2820	582	120	726
Printing-press numbering mechanism	J. J. Mosher	809,004	Jan. 2	757	164	120	167
Printing-press plate-holder	G. H. Kendall	811,806	Jan. 30	5820	1220-1	120	1422
Printing press. Power plate	H. A. Maley	810,067	Jan. 16	2848	614	120	722
Printing-press. Two-revolution cylinder	H. J. Schoen	813,241	Feb. 20	3423	786-7	120	2322
Printing-press. Web-perfecting	B. F. Berry	812,652	Feb. 13	2244	487	120	2021
Printing-presses. Pressure-controlling device for the air-springs of	E. J. Barker	810,926	Jan. 23	4102	845-7	120	1017
Printing-presses. Safety device for two-revolution	C. P. Cottrell	810,624	Jan. 23	4123	854	120	1028
Printing-presses. Tympan-offset paper for	M. Rockstroh	809,748	Jan. 9	2282	474	120	536
Printing upon metal. Press for	A. E. Dubéy	812,563	Feb. 13	2100	440	120	1904
Profiling-machine driving mechanism	G. Kreiling	810,960	Jan. 30	4781	995	120	1188
Projectiles for small-arms. Apparatus for casting	E. W. Bullard	813,818	Feb. 20	2988	569-70	120	2140
Projectiles for small-arms. Apparatus for casting	F. Wicks	810,891	Jan. 23	4086	837	120	1008
Projectiles. Indicating the trajectory of	F. Wicks	810,892	Jan. 23	4901	987	120	1009
Propagating-beds. Apparatus for heating	J. B. Semple	809,988	Jan. 16	2789	557	120	1104
Propeller	H. Austin	810,826	Jan. 23	4806	988	120	1105
Propeller	A. T. Brown	810,083	Jan. 16	2988	591-2	120	712
Propeller	W. F. Hunter	813,430	Feb. 27	3820	836	120	2463
Propeller attachment for rowboats	E. G. Wallof	812,534	Feb. 13	2046	448-9	120	1984
Propeller. Boat	C. E. Barber	812,473	Feb. 13	1919	423	120	1957
Propeller. Boat	C. E. Barber	813,074	Feb. 20	3107	681	120	2264
Propeller for boats. Endless	G. R. Horton	813,648	Feb. 27	4264	934-5	120	2589
Propeller. Reversible	F. Gray	811,267	Jan. 30	5445	1135	120	1242
Propeller shafts. Protecting-sleeve for screw-	F. R. Cedervall	810,187	Jan. 16	3180	699	120	779
Propeller-wheel	F. Chimzar	808,814	Jan. 2	378	81	120	84
Propelling device. Vessel	P. Carleon	808,894	Jan. 2	38	7	120	9
Propelling mechanism. Universal	D. W. Rantine	812,480	Feb. 13	1880	414	120	1949
Protective apparatus	F. B. Cook	810,914	Jan. 30	4998	981-2	120	1179
Pruning implement	J. S. Rohrer	812,838	Feb. 13	2087	447	120	1963
Puller:							
See Bottle-cap and cork-puller.

Pulley	H. T. Hallowell	811,260	Jan. 30	5480	1126	120	1243
Pulley-block	F. P. Whiteside	811,192	Jan. 30	5249	1089	120	1200
Pulley. Clothes-line	H. Koorie	808,815	Jan. 9	2411	500	120	563
Pulley. Expansible	J. P. Brennan	808,268	Jan. 2	1075	224	120	295
Pulley-mounting	W. T. McDermott and W. F. Betsel	809,260	Jan. 9	1891	388	120	353
Pulley. Sash	C. J. Caley	809,469	Jan. 9	1780	370	120	427
Pulp-screen. Centrifugal	J. H. Baker, G. F. Shevlin, and F. H. Baker	809,041	Jan. 2	821	176	120	181
Pulp-screening machine. Centrifugal	C. W. Thomas	809,642	Jan. 9	2104	432-4	120	482
Pulp-screening machine. Centrifugal cylindrical	H. Sesamstatti	810,813	Jan. 23	4474	892-3	120	1066
Pulp-screening machine. Centrifugal	H. Parker	811,489	Feb. 6	244	58-4	120	1592
Pulverizer material. Pressing and press for pressing	G. Raymond and J. H. Finley	812,921	Feb. 13	1484	318-19	120	1957
Pump	C. von Falkenstein and J. Thümmel	808,776	Jan. 2	313	68	120	70
Pump	A. K. Miller	809,827	Jan. 9	1911	391	120	439
Pump	P. A. Myers	809,389	Jan. 9	1239	252	120	288
Pump	H. Bean	810,189	Jan. 16	3165	698	120	778

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drg.	Official Gazette. Vol.	Official Gazette. Page.
Pump	P. H. Lynch	813,051	Feb. 20	3092	671	120	2341
Pump. Air	D. Mills	809,002	Jan. 2	754	162	120	166
Pump and measure. Combined oil	W. B. Haines	810,832	Jan. 23	3949	812	120	998
Pump. Balanced suction and force	P. H. J. Paindavoine and P. A. Paindavoine-Dufour	813,821	Feb. 27	4581	1013	120	2630
Pump. Centrifugal	J. H. C. Petersen	810,975	Jan. 30	4830	1004	120	1209
Pump. Centrifugal turbine or similar	F. Ray	808,662	Jan. 2	114	26	120	27
Pump for atomizers. Door-operated air-	W. H. Ross	812,863	Feb. 20	2726	590	120	2189
Pump-jack	F. M. York	811,114	Jan. 30	5074	1061	120	1222
Pump-regulator	J. P. Watson and F. L. Jahn	809,500	Jan. 9	1982	411	120	457
Pump-rod coupling	J. R. Boals	813,613	Feb. 27	4192	919	120	2546
Pump-rod ejector	W. Hoekstra	812,131	Feb. 6	1187	260	120	1731
Pump. Self-regulating air-	M. Lowenstein	813,962	Feb. 27	4900	1065	120	2696
Pump spring attachment	J. O. Bean	812,716	Feb. 13	2304	536	120	2040
Pump valve-operating means. Hydraulic-	B. Obear	812,444	Feb. 13	1899	411-12	120	1946
Pumps with air. Means to replenish the air-chambers of	H. T. Hazard	812,423	Feb. 13	1833	402	120	1940
Pumping apparatus	C. C. Hill	812,206	Feb. 13	1534	334-5	120	1875
Pumping apparatus	H. W. Kimes	813,008	Feb. 20	2971	654	120	2222
Pumping apparatus. Liquid-	G. L. Waterhouse	811,110	Jan. 30	5088	1059	120	1220
Pumping-power frame	W. Hurd and W. Wright	810,945	Jan. 30	4776	993	120	1197
Pumping system. Oil-well-	R. J. Hoffman	809,806	Jan. 9	2394	494	120	549
Punch	E. D. Tucker	813,843	Feb. 27	4843	1027	120	2643
Punch and shears. Combined	E. E. Gardner	812,645	Feb. 13	2260	494	120	2026
Punch and time-stamp. Combined	W. L. Lee	808,984	Jan. 2	742	160-1	120	194
Punch. Automatic prick-	G. T. Gilbert	813,641	Feb. 27	4242	932	120	2586
Punch. Container	W. F. Hobbs	809,804	Jan. 9	2368	495	120	549
Punch or shears	C. E. Macbeth	812,576	Feb. 13	2141	469	120	2008
Punch. Typographic paper	T. E. Melvin	813,907	Feb. 27	4766	1052	120	2670
Punching-bag	P. J. Conroy	811,546	Feb. 6	21	5	120	1469
Punching-machine	J. Nelson	810,796	Jan. 23	4451	923-4	120	1068
Punching-machine	J. A. Bell	813,930	Feb. 27	4839	1056	120	2663
Punching machine. Metal-	G. C. Andrews	808,712	Jan. 2	173	39	120	39
Push-rake	W. W. Miller	813,560	Feb. 27	4111	901	120	2620
Puzzle	J. Bigham	809,898	Jan. 9	2557	529	120	595
Puzzle	E. C. Pfeiffer	811,321	Jan. 30	5503	1147	120	1264
Pyrimidin derivatives. Making	M. Conrad and W. Beckh	811,827	Feb. 6	547		120	1601
Pyrimidin derivatives. Making	M. Conrad and W. Beckh	811,828	Feb. 6	548		120	1601
Pyrimidin derivatives. Making	M. Conrad and W. Beckh	811,829	Feb. 6	548		120	1602
Quill-treating machines. Feed mechanism for	R. K. Warren	811,363	Jan. 30	5392	1126	120	1261
Quilting-frame	D. Massey	811,650	Feb. 6	236	48-9	120	1526
Quilting-frame	H. H. Jackson	813,707	Feb. 27	4367	962	120	2624
Race-course starting-gate. Portable	M. Cassidy	808,813	Jan. 2	376	81	120	85
Race-track. Electric	T. F. Gaynor	811,284	Jan. 30	5433	1133	120	1240

Racking apparatus	H. G. Miller and G. R. Lawrence	808,941	Jan. 2	627	137	120	136
Radiator	W. H. Wyant	809,498	Jan. 9	1786	389	120	433
Radiator	I. Brooks	813,275	Feb. 20	3402	670	120	2333
Radiator air-valve	F. W. Leuthesser	813,011	Feb. 20	2976	655	120	2224
Radiator. Independent steam-heat	W. Holstein	808,925	Jan. 2	600	131	120	133
Radiator, steam-condenser, &c	F. Lamplough	811,853	Feb. 6	603	131-2	120	1612
Rafter-gage	E. H. Horton	808,988	Jan. 2	2185	433	120	512
Rail and tie fastener	A. S. Dreibelbis	809,535	Jan. 9	1915	397	120	454
Rail and tie fastener. Combination	F. M. Crossley	808,904	Jan. 2	567	126	120	134
Rail-bond	E. G. Thomas	812,900	Feb. 20	2752	606	120	2174
Rail-bonding tool	F. C. Arey	812,808	Feb. 20	2561	564	120	2123
Rail-brake. Emergency	P. O. Adams	810,316	Jan. 16	3464	715-16	120	839
Rail. Cast manganese-steel	W. Brinton	812,810	Feb. 20	2578	567	120	2136
Rail-clip	L. E. Rodgers	813,738	Feb. 27	4417	974	120	2594
Rail-crossing	F. A. Lehmann	813,387	Feb. 20	3726	819	120	2353
Rail fastening and support	S. J. Scott	813,673	Feb. 27	4302	947	120	2670
Rail frog and switch. Continuous-	F. H. Shakespeare	812,667	Feb. 13	2337	511-12	120	2030
Rail-jack and the like	F. Obelhardt	812,080	Feb. 6	1095	240	120	1712
Rail-joint	C. D. Peters	809,217	Jan. 2	1171	242	120	263
Rail-joint	R. L. Alexander	809,288	Jan. 2	1252	255	120	276
Rail-joint	A. W. Obermann and L. L. Combs	809,304	Jan. 9	1268	276	120	284
Rail-joint	C. H. Stephens	809,536	Jan. 9	1975	399	120	446
Rail-joint	W. M. Horner and B. F. Landis	810,203	Jan. 16	3239	668	120	788
Rail-joint	W. W. Anglin	810,269	Jan. 23	4077	840	120	1030
Rail-joint	J. B. Hensley	810,787	Jan. 23	4389	908	120	1075
Rail-joint	S. T. Coverstone	811,120	Jan. 30	5128	1071	120	1273
Rail-joint	J. W. Tracy	811,281	Jan. 30	5382	1124	120	1259
Rail-joint	C. C. Brown	811,289	Jan. 30	5393	1126	120	1274
Rail-joint	P. E. Harper	811,770	Feb. 6	454	98	120	1594
Rail-joint	D. Hewitt	812,030	Feb. 6	1021	228	120	1695
Rail-joint	U. G. Marucci	812,039	Feb. 6	1054	229	120	1703
Rail-joint	L. J. Robichaux, N. Caillouet, and H. F. Delhaye	812,396	Feb. 13	1896	351	120	1980
Rail-joint	C. M. Rhodes	812,494	Feb. 13	2178	475	120	2000
Rail-joint	T. W. Mayo	812,524	Feb. 20	2406	739	120	2215
Rail-joint	A. T. Rowlands	813,681	Feb. 27	4617	1008	120	2603
Rail-joint	C. E. Chrisman	813,681	Feb. 27	4681	1015	120	2621
Rail-joint	B. G. Brazee	813,781	Feb. 13	2013	433	120	1970
Rail-joint	W. J. Williams	809,417	Jan. 9	1625	353	120	411
Rail-joint	D. M. Hughes	809,454	Jan. 9	1694	365	120	423
Rail-joint	D. and W. L. Mendsider	810,888	Jan. 23	3982	794	120	1023
Rail-joints. Device for use in the manufacture of	H. B. Nichols	810,094	Jan. 16	2988	616	120	734

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drf.	Official Gazette. Vol.	Official Gazette. Page.
Rail-joints. Device for use in the manufacture of	H. B. Nichols	810,075	Jan. 16	2957	617	120	735
Rail-splicing device. T-	W. B. Knight	813,1a/	Feb. 20	3776	720	120	2290
Rail-support	F. C. Painter	809,214	Jan. 2	1167	241	120	267
Rail-tie	S. B. Ferguson and C. Calhoun	810,833	Jan. 23	4146	857	120	1026
Rail-tie and rail-joint combined	R. P. Cook	812,648	Feb. 13	2093	439	120	1093
Rails. Anticreeping device for	J. J. O. Fischer	808,648	Jan. 2	54	12	120	14
Railway	F. English and A. G. Quimby	810,479	Jan. 23	3941	789	120	960
Railway	G. A. Le Fevre	811,855	Feb. 6	607	133	120	1613
Railway	L. Ginger	812,416	Feb. 27	3795	833	120	2467
Railway. Amusement	A. E. W. Fraser	811,211	Jan. 30	5290	1107	120	1308
Railway appliances. Electrofluid pressure mechanism for operating	W. J. Bell	810,609	Jan. 23	4110	846	120	1018
Railway automatic switch. Electric	V. Joksch and J. Petřík	813,154	Feb. 20	3272	710	120	2269
Railway ballast-plow	O. W. Meissner	812,222	Feb. 13	1437	313–14	120	1853
Railway block-signal system. Electric	A. L. Bower	810,705	Jan. 23	4268	885	120	1054
Railway-crossing	R. N. Walton	810,178	Jan. 16	3136	653	120	774
Railway-crossing. Automatic safety	G. W. Lancaster	813,311	Feb. 20	3584	787	120	2383
Railway-crossing. Movable-point	T. Squires	809,028	Jan. 2	706	172	120	175
Railway draw-head and air coupling. Combined	F. L. Kelm	812,794	Feb. 13	2546	560	120	2084
Railway. Electric	L. Lecompte	809,706	Jan. 9	2214	469–60	120	518
Railway. Electric surface and elevated trolley	C. Levinson	809,120	Jan. 2	993	206	120	219
Railway electric switch. Street	C. D. Smith	811,101	Jan. 30	5044	1064–5	120	1266
Railway-frog	J. A. Posey	811,419	Jan. 30	5951	1226	120	1427
Railway-frog for turn-ins and turnouts	T. L. Brennan	809,487	Jan. 9	1757	389	120	438
Railway-joint	E. M. Rankin	812,877	Feb. 20	2710	597	120	2166
Railway journal-boxes. Means for preventing theft of brasses from	G. M. McClure	813,057	Feb. 20	30'9	674–5	120	2248
Railway. Observation-trolley-car	E. J. Noblett	812,866	Feb. 20	2992	663	120	2161
Railway-rail	L. J. Harris	810,646	Jan. 23	4168	861	120	1032
Railway-rail	C. F. Graft	811,055	Jan. 30	4968	1037	120	1240
Railway-rail	E. C. Geneux	812,988	Feb. 20	2933	646	120	2214
Railway rail-bond. Steam and electric	F. C. Hoffman	812,040	Feb. 6	1022	223	120	1606
Railway-rail joint	E. B. Verneuil	808,705	Jan. 2	158	37	120	36
Railway-rail joint	E. T. Forrester	812,417	Feb. 13	1822	399	120	1986
Railway-rail stay	H. F. Barber	812,717	Feb. 13	2305	526	120	2051
Railway-rail stay	T. D. Henderson	808,921	Jan. 2	502	130	120	130
Railway-rails and the like. Means for electrically connecting	J. Donovan	811,550	Feb. 6	25	7	120	1490
Railway rails and ties. Appliance and fixture for	J. M. Atkinson	813,906	Feb. 27	4033	1091	120	2703
Railway-rails. Means for muting vibrations in	F. W. Fick and P. S. Van Wie	813,875	Feb. 27	4704	1041	120	2656
Railway safety system	J. Anderson	811,535	Feb. 6	4	1	120	1465
Railway-signal	G. Laurenzo	812,572	Feb. 13	2132	467	120	2001
Railway-signal	M. W. Beans	810,387	Jan. 23	3636	749	120	910
Railway-signal	N. Erschens	812,555	Feb. 13	2101	461	120	1994
Railway-signal	W. Loos	812,941	Feb. 20	2842	627	120	2196
Railway-signal. Electric	H. W. Parker and S. L. Vincent	810,560	Jan. 23	4004	825	120	996
Railway-signal. Electrical	A. W. Nelson	813,662	Feb. 27	4283	942	120	2566
Railway signaling	S. D. Strohm	809,999	Jan. 16	2778	571–3	120	695
Railway signaling	S. D. Strohm	811,108	Jan. 30	5060	1059–7	120	1267
Railway signaling apparatus	J. Wheatley	810,011	Jan. 16	2811	580–2	120	702
Railway signaling apparatus. Acoustic	E. Coen-Cagli	813,619	Feb. 27	4201	922–4	120	2548
Railway signaling system. Electrical	M. H. Loudon	809,515	Jan. 9	1836	379	120	437
Railway signaling system. Electrical	C. Mitchell and H. Millingar	812,423	Feb. 13	1849	405–7	120	1942
Railway-spike	R. Anderson	810,455	Jan. 23	3803	781	120	950
Railway stand-pipe	E. V. Anderson	811,813	Feb. 6	521	116–17	120	1599
Railway stock-guard	L. Liesmann	813,220	Feb. 20	3400	749	120	2314
Railway. Surface-contact electric	G. H. McFeaters	808,773	Jan. 2	303	65	120	69
Railway-switch	C. B. Brinker	810,906	Jan. 30	4678	978	120	1174
Railway-switch	C. A. Mann	811,160	Jan. 30	5190	1084	120	1288
Railway-switch	W. P. O'Brien	811,919	Jan. 30	5498	1146	120	1353
Railway-switch	L. R. Parsons	811,738	Feb. 6	379	83	120	1589
Railway-switch	F. A. Howarth and J. J. McKinlay	813,205	Feb. 13	1400	304	120	1844
Railway-switch	F. Vogel	813,754	Feb. 27	4447	982–3	120	2600
Railway switch and crossing frog	J. E. Conley	812,840	Feb. 13	2258	490	120	2024
Railway switch and signal mechanism	C. M. Hurst	810,267	Jan. 23	4578	963	120	1121
Railway-switch. Automatic	J. M. Faulk	808,527	Jan. 2	401	87–8	120	89
Railway-switch. Automatic	R. K. Floetar	811,627	Feb. 6	194	41	120	1557
Railway-switch-operating apparatus	C. J. Coleman	812,226	Feb. 20	2004	572	120	2142
Railway-switch stand	E. L. Morgan	809,719	Jan. 9	2343	492	120	538
Railway-switches. Wear-plate for	W. H. Elliot and J. J. Townsend	813,574	Feb. 27	4702	1041	120	2656
Railway system	H. C. Ford	809,794	Jan. 9	2377	491	120	555
Railway system. Electric	W. N. Haring	813,790	Feb. 13	2535	557–8	120	2051
Railway system. Contact-box for electric	G. L. Campbell	812,164	Feb. 6	1382	293	120	1733
Rain-guide	F. Seyhers	809,491	Jan. 9	1619	338	120	379
Rain-guide	T. R. Hasley	809,663	Jan. 9	2176	450	120	510
Rain-guide	J. P. Lancaster	808,961	Jan. 16	2712	568	120	680
Rain-guide	E. T. Forrester	810,200	Jan. 16	3211	665	120	784
Rain-guide	R. B. Campbell	810,398	Jan. 23	3986	754	120	918
Rain-guide	J. Barry	810,498	Jan. 23	4369	852	120	1032
Rain-guide	E. Murray	810,576	Jan. 23	4963	966	120	1134
Rain-guide	J. E. Walting	811,823	Jan. 30	5380	1124–5	120	1230
Rain-guide	Z. T. Booth and J. F. Bittle	813,577	Feb. 20	2968	595	120	2134
Rain-guide	S. N. Griffith	812,991	Feb. 20	2937	647	120	2215
Rain-guide	J. B. Johnson	813,009	Feb. 20	2957	654	120	2222
Rain-guide	C. E. Shannon	813,249	Feb. 20	3435	757	120	2323
Rail-joint and means for securing rails thereto	F. G. Metcalf	809,020	Jan. 2	783	163	120	186
Railway	W. H. Pruyn, Jr	812,894	Feb. 13	2026	444	120	1939
Railway. Conservio	O. H. Prindle	813,894	Feb. 27	4123	903	120	2539
Railway-switch	S. T. Carroll	810,371	Jan. 16	3473	718	120	941
Railway-switch	P. T. Largo	811,783	Feb. 6	457	99	120	1555
Railway-switch	A. W. Bascom	813,611	Feb. 27	4190	919	120	2545
Railway-switch	O. S. Pullman	813,666	Feb. 27	4391	965	120	2603
Railway-track construction. Method of and means	E. E. Clement	812,618	Feb. 6	980	217	120	1659
Railway-track crossings. Automatic bell-signal for	L. Gaskins	810,112	Jan. 16	3687	680	120	762

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drf.	Official Gazette. Vol.	Official Gazette. Page.
Railway-track gage and brace	J. H. Crowley	811,394	Jan. 30	5319	1176	120	1260
Railway-track-grading machine	E. M. Jones	811,989	Feb. 6	787	173–3	120	1649
Railway-track jack	J. Stewart	810,358	Jan. 16	3561	730	120	889
Railway-traffic-control system	W. Rowe	812,897	Feb. 13	2170	476	120	2010
Railway-traffic-controlling apparatus	C. W. Coleman	810,302	Jan. 16	3341	694	120	811
Railway-train-stopping device	S. L. Crawford	810,916	Jan. 30	4711	982	120	1184
Railways. Anticreeper for	J. G. Sullivan	808,052	Jan. 2	822	142	120	144
Railways. Automatic block-signal system for electric	G. W. Johnston and A. H. Ackermann	813,898	Feb. 27	4746	1040	120	2688
Railways. Closed conduit for electric	A. W. Lohmann, Sr., and J. Pruis	813,101	Feb. 20	3139	691	120	2285
Railways. Ice-cutter for surface	W. H. Perry	812,873	Feb. 20	2705	598	120	2164
Railways. System of automatic signaling for electric	F. Townsend	810,667	Jan. 23	4284	877	120	1046
Railways. Take-up device for overhead-cable	J. G. Walls	812,621	Feb. 13	2223	484	120	2017
Raisins to remove cap-stems. Treating	F. C. Adams	812,971	Feb. 20	2905	641	120	2369
Rake: *See* Garden-rake. Hay-rake. Push-rake.							
Rake	F. A. Rugg	812,457	Feb. 13	1889	416	120	1981
Rake attachment	F. X. Beerle, Jr	811,760	Feb. 6	716	91	120	1577
Range construction	W. H. Conover	813,950	Feb. 27	4845	1069–70	120	2695
Range. Cooking	M. F. Allen	809,705	Jan. 9	2228	481–2	120	544
Ratchet-brace	A. R. Hubbard and R. Flay	812,746	Feb. 13	2451	538	120	2064
Ratchet mechanism	G. M. D. Heard	810,400	Jan. 23	3897	761	120	935
Ratchet mechanism for tools	M. Reisch	808,946	Jan. 2	641	140	120	141
Razor	H. P. Richards	813,588	Feb. 27	4137	906	120	2534
Razor-blade holder	J. W. Offutt	813,232	Feb. 20	3419	753	120	2318
Razor-guard	J. H. Hunt	809,690	Jan. 9	2102	454	120	514
Razor holder and handle. Safety	E. A. Schreiber and J. G. Klier	809,224	Jan. 2	1106	245	120	265
Razor. Safety	C. L. Holland	808,659	Jan. 2	78	17	120	19
Razor. Safety	S. G. Broslus	809,604	Jan. 9	2022	419	120	478
Razor. Safety	S. G. Broslus	810,709	Jan. 23	4275	885	120	1009
Razor-strop	P. A. Benet	811,999	Feb. 6	956	209	120	1694
Razor-strop	O. and F. Kampfe	809,114	Jan. 2	965	203	120	218
Razor-strop	G. W. Collins	809,777	Jan. 9	2351	485	120	549
Ready-reference device	F. Kampfe	812,668	Feb. 13	2124	466	120	1999
Receptacle-holder	H. W. Pope	813,447	Feb. 27	3860	846	120	2472
Receptacle or holder. Pocket	H. P. Townsend	813,537	Feb. 27	4039	885	120	2514
Recision-engine	P. Seller	813,991	Feb. 27	4925	1090	120	2701
Reclining-chair	F. D. Althauses	812,176	Feb. 13	1341	291–2	120	1831
Reclining-chair	H. J. Lanagan	812,051	Feb. 6	1042	227	120	1701
Reclining-chair	L. Kipp	813,156	Feb. 20	3274	719–20	120	2289
Recorder: *See* Chess-recorder. Fare-recorder. Vehicle-recorder.	G. Hunzinger	813,799	Feb. 27	4541	1004	120	2621

Roll-removing device	C. W. Bray	808,719	Jan. 2	196	42	120	45
Roller:							
See Land-roller. Spring-roller. Skate-roller.							
Roller-compress	S. J. Webb	809,415	Jan. 9	1645	338–9	120	394
Roller-mill	J. M. Nikolai	811,574	Feb. 6	80	16	120	1502
Roller-table	H. J. Bubenheim	811,820	Feb. 6	536	119	120	1599
Rolling-machine	A. Masion	812,281	Feb. 13	1563	342	120	1882
Rolling tubes and tubular bodies. Apparatus for	R. C. Stiefel	813,597	Feb. 27	4154	911	120	2538
Roof-caring	A. Lipschuts	811,073	Jan. 30	4999	1044	120	1246
Roofing material. Sheet	H. R. Wardell	813,336	Feb. 20	3630	796	120	2361
Roofing. Ready-made	W. J. Moeller	813,163	Feb. 20	3289	723	120	2292
Rope	C. H. Billman	808,895	Jan. 2	547	121	120	120
Rope	E. D. Metcalf	809,396	Jan. 9	1580	321	120	361
Rope carrier. Fall-	E. K. Young	808,710	Jan. 2	167	38–9	120	38
Rope-clamp	J. J. Clark	808,970	Jan. 2	702	152	120	155
Rope-cutter	B. D. Tillinghast and H. B. Porterfield.	810,587	Jan. 23	4089	835	120	1009
Rope-drive-adjusting mechanism	R. H. Stevens	808,899	Jan. 2	147	35	120	34
Rope-drum	T. S. Miller	809,958	Jan. 16	2722	560	120	662
Rope-rack	T. Winterbottom	813,780	Feb. 27	4458	995	120	2602
Rope. Woven-pile-fabric	A. E. Neff and C. G. Boldenweck	810,458	Jan. 23	3892	822	120	993
Ropes from their pulleys. Device for unshipping endless traveling	G. Lenz	809,223	Jan. 9	2423	503	120	988
Rotary cutter and topper	F. Densmoor	810,397	Jan. 23	3676	757	120	921
Rotary engine	A. Hager	809,054	Jan. 2	853	181	120	189
Rotary engine	D. B. Stalker	809,149	Jan. 2	1041	215–16	120	228
Rotary engine	H. A. Fredlund	809,180	Jan. 2	1095	226	120	241
Rotary engine	A. O. Laglund	809,363	Jan. 9	1516	307–8	120	368
Rotary engine	G. A. L. Lind	810,062	Jan. 16	2940	612	120	731
Rotary engine	B. F. Augustine	810,601	Jan. 23	4082	841–2	120	1011
Rotary engine	A. E. Stevens	811,108	Jan. 30	5047	1065	120	1296
Rotary engine	P. J. Decker	811,204	Jan. 30	5278	1104–5	120	1308
Rotary engine	W. H. Bates, R. C. Douglass, and W. G. Nourse.	811,513	Feb. 6	153	33–4	120	1518
Rotary engine	W. J. Rowe and A. L. Witbeck	811,747	Feb. 6	394	85–6	120	1572
Rotary engine	C. A. Sandborg	812,398	Feb. 13	1714	376–7	120	1916
Rotary engine	F. Egersdörfer	812,414	Feb. 13	1818	398	120	1926
Rotary engine	R. C. McLean	812,488	Feb. 13	2165	474	120	2007
Rotary engine	J. H. Rehner	813,024	Feb. 20	3003	661	120	2229
Rotary engine	G. E. Ecklor	813,284	Feb. 20	3515	775	120	2349
Rotary engine	R. S. McIntosh	813,815	Feb. 27	4606	1010	120	2626
Rotary engine	H. Burlich	813,854	Feb. 27	4661	1031	120	2647
Rotary engine and motor	M. S. Okun	813,018	Feb. 20	2990	659	120	2227
Rotary engine. Multiple-expansion	A. I. Ostrander	813,819	Feb. 27	4572	1011	120	2626
Rotary engine. Reciprocating	F. W. Reeves	813,527	Feb. 13	2029	446–6	120	1981
Rotary engine. Twin-head	H. A. King	813,974	Feb. 27	4667	1060	120	2602
Rotary explosion-engine	P. Bartoletti	810,366	Jan. 16	3567	733–4	120	883
Rotary explosive-engine	F. Reynolds	810,435	Jan. 23	3748	771–2	120	937
Rotary motor	I. H. Spencer	809,637	Jan. 9	2069	433	120	499
Rotary rounding and channeling machine	W. S. Brainerd	808,628	Jan. 2	16	4	120	6
Rotary valve	E. Donaldson	813,623	Feb. 27	4210	925–6	120	2509
Rubber balls. Making hard	M. E. Fisher	810,740	Jan. 23	4328		120	1068
Rubber heels to boots and shoes. Device for detaching	N. P. Bolin	811,365	Jan. 30	5586	1166	120	1372
Rubber shoe sole and heel	F. C. Connor	812,484	Feb. 13	1943	439	120	1963
Rudder	G. T. Arnold	812,161	Feb. 6	1257	281–2	120	1751
Rule. Parallel-designing curve	J. Kralund	811,070	Jan. 30	4998	1043	120	1245
Rule. Ruler	E. L. Phelps	812,874	Feb. 20	2707	606	120	2105
Rule. Spacing	D. J. Brennan	812,010	Feb. 6	974	213	120	1657
Rule. Spacing	B. D. Coppage	813,495	Feb. 27	3895	864	120	2482
Rule. Spacing	G. W. MacKenzie	811,311	Jan. 30	5488	1143	120	1360
Rule. Spacing	D. P. Shankwiler	810,358	Jan. 16	3547	730	120	883
Rule. Spacing	F. E. Rudolph	811,331	Jan. 30	5522	1151	120	1363
Rule. Spacing	F. D. Lingenfelter	810,160	Jan. 16	3122	646	120	767
Rule. Spacing	H. E. Moseley	811,853	Feb. 6	230	49	120	1536
Rule-dividing machine	J. J. Ferguson and S. P. Oswald	812,336	Feb. 13	1989	366–6	120	1904

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drgs.	Official Gazette. Vol.	Official Gazette. Page.
Sad-iron handle	C. Winter	811,020	Jan. 30	4913	1026	120	1236
Sad-iron-polishing machine	O. Tverdahl	808,785	Jan. 2	333	71–2	120	74
Saddle. Riding	P. H. Fontaine	809,179	Jan. 2	1093	227	120	240
Saddle tree or frame	R. Guillaume	809,370	Jan. 9	1534	311	120	372
Safes or vaults. Making	W. Brinton	813,304	Feb. 20	3734	821	120	2285
Safety device	W. Hanke	810,938	Jan. 30	4760	991	120	1193
Safety-hook	G. Falk and W. H. Parker	810,926	Jan. 30	4737	986	120	1189
Sails. Device for bending fore-and-aft	J. H. Mitchell	810,787	Jan. 23	4431	930	120	1069
Salse-pad holder	A. E. Landon	812,656	Feb. 13	2289	488	120	2089
Salver or tray	R. R. Kintz	811,209	Jan. 30	5464	1139	120	1349
Sand, &c. Apparatus for grinding or crushing foundry-	P. Bonvillain	810,904	Jan. 30	4675	974–5	120	1174
Sand-drier	S. A. Wilson and E. A. Bronson	813,191	Feb. 20	3336	734	120	2302
Sand-making apparatus. Artificial	G. K. Hamfeldt and D. Cubbage	812,650	Feb. 13	2278	495	120	2088
Sand or clay screen	L. P. Shafer and C. Devis	810,682	Jan. 23	4226	875	120	1045
Sand-reel	J. C. Knapp and J. G. Greene	810,490	Jan. 23	3956	788	120	964
Sand-washing machine	R. O. Bidwell	810,251	Jan. 16	3322	689	120	807
Sander	S. T. Simmons and W. T. Moore	810,309	Jan. 16	3449	713	120	836
Sanding and polishing machine	D. T. Clemons	810,037	Jan. 16	2875	594	120	716
Sandpapering-machine	A. B. Denson	812,119	Feb. 6	1162	266	120	1726
Sash adjuster. Window	H. Bowers	812,808	Feb. 20	2560	565	120	2134
Sash-balance	H. A. Crommett	809,783	Jan. 9	2360	487	120	553
Sash-balance and lock. Combined	J. H. Corcoran	811,382	Jan. 30	5616	1175	120	1376
Sash-fastener	J. W. Staton	811,803	Feb. 6	507	113	120	1594
Sash-holder	A. A. Quick	810,302	Jan. 16	3438	710	120	834
Sash-holder	A. A. Jones	812,136	Feb. 6	1196	262	120	1723
Sash holder. Window	E. A. Hyde	811,402	Jan. 30	5551	1183	120	1398
Sash-lock	C. B. Conant	808,815	Jan. 2	378	82	120	84
Sash-lock	C. M. Evans	810,110	Jan. 16	3025	630	120	751
Sash-lock	J. Power	812,229	Feb. 13	1452	317	120	1857
Sash lock and fastener	F. M. Straube	810,440	Jan. 23	3757	774	120	939
Sash-operating mechanism	A. Q. Wolf	810,242	Jan. 16	3300	684–5	120	804
Sash pivot. Window	F. J. Cachat	811,531	Jan. 30	5577	1233	120	1432
Sash. Sheet-metal window	J. W. Watkins	812,467	Feb. 13	1904	430	120	1964
Sash-weights. Mold for casting center-hung	L. H. Knapp	812,935	Feb. 20	2826	623	120	2192
Sash. Window	H. W. J. Edbrooke and F. Lindquist.	809,600	Jan. 9	2032	421	120	478
Sash. Window	J. H. Shepherd	809,990	Jan. 16	2763	568	120	692
Sashes. Glass-retaining device for	C. C. Chancey	811,544	Feb. 6	19	5	120	1489
Saw	F. A. Wuest	809,435	Jan. 9	1784	369	120	438
Saw	J. Guedel	810,530	Jan. 23	3946	812	120	983
Saw-blades from sagging. Device for preventing the shafts or arbors of	T. B. Rice, Jr.	813,238	Feb. 20	3427	755	120	2321
Saw-clamp	C. W. Cardwell	813,096	Feb. 20	3024	666	120	2234
Saw-dressing machine	E. L. Bishop	810,610	Jan. 23	4111	848–9	120	1019
Saw-dressing machine	L. L. Filstrup	811,835	Feb. 6	557	123–4	120	1604
Saw-drive	W. Lewis	812,853	Feb. 20	2681	583	120	2154
Saw for manufacturing lumber. Gang	G. B. Miller	808,671	Jan. 2	95	22	120	23
Saw-gage	J. S. Linton	812,574	Feb. 13	2135	468	120	2002
Saw gage and jointer	L. W. Parkhurst	810,802	Jan. 23	4489	926	120	1095
Saw-handle. Detachable	J. L. Sheets	811,099	Jan. 30	5041	1054	120	1266
Sawmill	G. W. Stinebring	813,463	Feb. 27	3800	852	120	2478
Sawmill-carriage	C. G. Bonn	810,220	Jan. 16	3471	717	120	841
Sawmill-carriage dog	M. S. Eby	813,143	Feb. 20	3257	716	120	2286
Sawmill feed-device	H. C. Clay	812,823	Feb. 20	2801	571	120	2142
Saw mill. Gang	W. M. Wilkin	812,530	Feb. 13	2063	480	120	1986
Saw rounding and jointing attachment	J. R. McClellan	813,910	Feb. 27	4778	1054	120	2672
Saw-set	P. A. Glaser	811,302	Jan. 30	5428	1176	120	1362
Saw-set	A. H. Pence	812,066	Feb. 6	1105	243	120	1714
Saw-table cutting-gage	C. Von Cuhn	808,859	Jan. 2	534	119	120	118
Saw-tool	C. Ritts	811,439	Jan. 30	5716	1197	120	1388
Saw-tooth	C. C. Fleming	813,371	Feb. 20	3660	812	120	2378
Saws. Gage for ivory-nut	J. Hormby	813,002	Feb. 20	3069	651–2	120	2220
Saws. Resawing attachment for band	M. Garland	812,267	Feb. 20	2990	648–9	120	2214
Sawing machine. Block	H. Ruffi	811,323	Jan. 30	5426	1151–2	120	1359
Sawing-machine numerator	F. L. Krell	813,099	Feb. 20	3146	690	120	2253
Scaffold and step-ladder. Combined	J. H. Rose	812,081	Feb. 6	1112	245	120	1715
Scaffold-board. Extensible	C. Schwedt	812,301	Feb. 13	1936	382	120	1892
Scaffold-bracket. Folding	J. McIntyre	809,973	Jan. 16	2731	563	120	685
Scaffold-nail	C. E. Springer	809,402	Jan. 9	1621	329	120	489
Scaffold-support. Safety	P. Caporale	809,460	Jan. 9	1791	370	120	437
Scale	A. Jobborn	810,539	Jan. 23	3939	815	120	985
Scale. Automatic recording ice	C. E. Crane	809,439	Jan. 9	1673	342–4	120	400
Scale. Coke-controlled	J. Lorentsen	809,198	Jan. 2	1122	235–6	120	249
Scale for accurate lard-weighing. Electric	C. E. Snypp	809,026	Jan. 2	798	171	120	175
Scale-markings for rules, &c	I. W. Heysinger and A. Latshaw	809,960	Jan. 16	2684	554	120	675
Scale. Mechanical recording	E. McGarvey	812,296	Feb. 13	1876	345–6	120	1888
Scale. Portable	E. E. Barakat	809,602	Jan. 9	2031	419	120	478
Scale. Price	O. O. Ozias	812,280	Feb. 13	1886	347	120	1888
Scale. Spring	O. C. Wiese	811,979	Feb. 6	888	188–9	120	1671
Scale. Spring	O. C. Wiese	811,980	Feb. 6	900	190	120	1672
Scale. Spring	J. B. Paquette	813,726	Feb. 27	4414	973	120	2588
Scale. Weighing	J. Lorentsen	809,826	Jan. 9	2426	504	120	507
Scarf-pin safety device	M. E. Rosenblum	809,720	Jan. 9	2285	475	120	457
Scissors	R. Theis	809,541	Jan. 9	1894	395	120	447
Scouring machine. Garment, fabric, &c	A. F. Bornot	812,005	Feb. 6	966	210	120	1653
Scraper and shovel-plow. Combined	N. McLaughlin	809,828	Jan. 9	2432	507	120	494
Scraper. Self-dumping	J. F. Mendenhall	810,165	Jan. 16	3138	647	120	768
Scraper. Self-loading	H. F. Purdum	808,870	Jan. 2	479	105–6	120	104

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drgs.	Official Gazette. Vol.	Official Gazette. Page.
Screw-connecting die and stock	W. J. McKimmey	812,075	Feb. 6	1084	237	120	1709
Screw. Temper-	C. W. Fanton	812,487	Feb. 13	1949	430	120	1963
Screw. Temper-	B. C. Hagan	813,278	Feb. 20	3710	815	120	2380
Screw-wrench	V. Eiselt	810,850	Jan. 23	4536	944	120	1112
Scrubbing-machine for removing foreign matter from the surfaces of globular objects	P. Preuss	813,114	Feb. 20	3186	697	120	2272
Seal. Bottle-	A. Taplin	812,466	Feb. 13	1908	420	120	1954
Seal. Bottle-	A. E. Prier	809,011	Jan. 2	773	167	120	170
Seal-lock	A. L. Green	810,334	Jan. 16	3463	722	120	845
Seal-press	P. S. Clauser	809,357	Jan. 9	1504	304	120	366
Seal-press	L. A. Foote	811,283	Jan. 30	5431	1132	120	1339
Seal. Self-locking	E. J. Brooks	813,079	Feb. 20	3115	683	120	2255
Sealer. Envelop-	F. Laporte	813,219	Feb. 20	3399	749	120	2314
Sealing and stamping envelops. Machine for	L. O. Staesart	810,093	Jan. 16	2992	623	120	743
Sealing bottles. Means for	C. A. Madsen	813,985	Feb. 27	4905	1086-7	120	2697
Sealing machine. Envelop-	F. M. Osgood	809,213	Jan. 2	1166	241	120	256
Sealing mechanism. Bottle-	C. J. Fancher and H. S. Parmelee	812,263	Feb. 13	1524	332-3	120	1872
Seaming-machine	E. Goltstein	808,833	Jan. 2	411	90-1	120	91
Seat:	O. S. Beyer	813,034	Feb. 20	3020	665	120	2233
See Car-seat. Disappearing seat. Chair-seat. Vehicle-seat. Closet-bowl seat. Water-closet seat.							
Seat-cushion	H. S. Hale	811,289	Jan. 30	5448	1135	120	1343
Sectional case	C. P. Byrnes	810,033	Jan. 16	2986	592	120	713
Seed from clover and alfalfa seed. Separating buckhorn and plantain	S. P. Glunt	813,495	Feb. 27	3959	868	120	2496
Seed-recleaning process. Clover-	S. Herr	813,990	Feb. 27	4735	1047	120	2663
Seeds from clover and other smooth seeds. Removing rough and irregular foreign	D. S. Cook	813,404	Feb. 27	3774	828	120	2452
Seeders and other machines. Yielding link for	S. E. Davis	811,280	Jan. 30	5425	1131	120	1338
Seeders or drills. Feeding device for	S. E. Davis	811,203	Jan. 30	5277	1104	120	1305
Seeding and manure-spreading machine. Combined	D. Toscani	809,863	Jan. 9	2498	519	120	583
Seeding-machine speed device	F. R. Packham and G. P. Oates	813,734	Feb. 27	4413	973	120	2593
Self-lubricating wheel	T. G. Aultman	811,356	Jan. 30	5367	1162	120	1368
Semaphore	C. Hansel	811,292	Jan. 30	5452	1136	120	1344
Semaphore mechanism	B. O. Wagner	809,237	Jan. 2	1247	255	120	275
Separating-machine	H. Baldwin	812,972	Feb. 20	2906	641	120	2209
Separating substances of different dielectric capacities	H. M. Sutton, W. L. and E. G. Steele.	813,063	Feb. 20	3087	676	120	2250
Separator: *See* Cream-separator. Ore-separator. Gold-separator. Sewing-machine loop-separator. Lift-separator. Liquid-separator. Steam-separator. Magnetic separator. Stitch-separator. Oil and feed-water separator. Teeth-separator.							
Separator	J. D. Crane	810,625	Jan. 23	4135	854	120	1024
Separator	F. R. Willson, Jr.	811,192	Jan. 30	5254	1099-1100	120	1301
Separator	H. M. Hardgrove	812,340	Feb. 13	1671	367-8	120	1906
Separator-tooth	H. R. Robinson	811,441	Jan. 30	5719	1197	120	1399
Setting	G. W. Dover	813,084	Feb. 20	3123	684	120	2257
Sewed-article seam	L. Onderdonk	811,750	Feb. 6	484	104-5	120	1589
Sewed-article seam	L. Onderdonk	811,700	Feb. 6	484	105	120	1589
Sewed-article seam	J. L. Patterson	812,802	Feb. 13	2546	562	120	2086
Sewing and cutting machine	J. Diehl	812,408	Feb. 13	1809	396	120	1934
Sewing-machine	W. M. Ammerman	809,600	Jan. 9	2017	418	120	474
Sewing-machine	O. D. Shaw	809,989	Jan. 16	2761	566	120	691
Sewing-machine	C. Pedersen	811,578	Feb. 6	90	18-19	120	1505
Sewing-machine	G. L. Corcoran and G. A. Dobyne	812,641	Feb. 13	2239	491-2	120	2024
Sewing-machine	J. Vannette	813,929	Feb. 27	4606	1061-2	120	2677
Sewing-machine	C. B. Johnsen	809,265	Jan. 2	1310	266	120	298
Sewing-machine bobbin-winder	G. M. Eames and J. S. Finch	809,911	Jan. 9	2594	534	120	603
Sewing-machine buttonhole	H. C. Miller	810,297	Jan. 16	3419	707-8	120	828
Sewing-machine buttonhole attachment	F. J. Freda	808,914	Jan. 2	582	128	120	127
Sewing-machine cabinet	G. Baurmann	809,240	Jan. 2	1265	266	120	277
Sewing-machine embroidering attachment	J. S. Jacobs	811,146	Jan. 30	5155	1078	120	1278
Sewing-machine fan attachment	L. Weinstein and J. Perlstein	809,416	Jan. 9	1650	339	120	395
Sewing-machine feed and loop-taker actuating mechanism	M. Hemleb	809,896	Jan. 9	1982	401	120	458
Sewing-machine feed-regulating device	M. Hemleb	809,945	Jan. 16	2676	552	120	673
Sewing-machine feeding mechanism	W. M. Ammerman	809,681	Jan. 9	2135	443-3	120	499
Sewing-machine heating device	C. Pedersen	811,581	Feb. 6	94	20	120	1506
Sewing-machine implement holder	M. J. Davis	808,632	Jan. 2	38	8	120	11
Sewing-machine. Interchangeable lock and chain stitch	W. M. Ammerman	809,680	Jan. 9	2132	442	120	499
Sewing-machine loop-spreader	C. Pedersen	811,579	Feb. 6	92	19	120	1505
Sewing machine. Looped-fabric-	H. Starr and F. L. Nichols	809,265	Jan. 9	2458	517	120	580
Sewing-machine. Mattress-	C. N. Phelps	810,362	Jan. 23	4606	980-2	120	1126
Sewing-machine needle-guide	C. Pedersen	811,580	Feb. 6	93	20	120	1505
Sewing-machine needle-threader	S. Blumenthal	813,136	Feb. 20	3260	714	120	2265
Sewing-machine rotary loop-taker	G. H. Dimond and W. F. Dial	812,419	Feb. 13	1813	397	120	1955
Sewing-machine ruffling mechanism	A. Laubecher	809,922	Jan. 9	2617	540-1	120	609
Sewing-machine shuttle holder and driver	P. J. Hanley	811,480	Jan. 30	5511	1216	120	1418
Sewing-machine tables. Cabinet-work for	T. Kundts	809,980	Jan. 16	2708	558	120	679
Sewing-machine thread-cutter	S. Mendel	813,811	Feb. 27	4561	1009	120	2625
Sewing-machine thread-measurer	C. Pedersen	811,583	Feb. 6	97	21-2	120	1506
Sewing-machine trimming attachement	W. E. Rink	812,183	Feb. 6	1262	276	120	1746
Sewing-machine tuck-guide	S. Friedman	812,588	Feb. 13	2108	462	120	1988
Sewing-machine wax-pot	O. L. Corcoran and G. A. Dobyne	809,626	Jan. 9	1672	342	120	389
Sewing-machines. Mechanism for adjusting the lengths of stitches in	C. Pedersen	811,582	Feb. 6	96	20-1	120	1506
Sewer and other pipe ventilator	G. W. Evans	810,723	Jan. 23	4320	896	120	1088
Sewer and similar pipes. Device for cutting vegetable and other growths from the inner surfaces of	C. W. Ross	813,739	Feb. 27	4419	974-5	120	2594
Sewer-cleaner	J. M. Thompson	813,028	Feb. 20	3012	663	120	2231

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drgs.	Official Gazette. Vol.	Official Gazette. Page.
Sewer-pipe back-pressure trap	P. J. Bode	810,980	Jan. 23	3680	780-1	120	915
Shade bracket. Window-	E. M. Ruff	811,874	Feb. 6	647	143	120	1622
Shade bracket. Window-	A. B. Dunkle	812,262	Feb. 13	1522	332	120	1872
Shade-fixture	C. L. Hopkins	810,270	Jan. 16	3383	700	120	821
Shade-fixture	S. L. Skinner	812,342	Feb. 13	1477	322	120	1851
Shade goods. Machine for trimming and applying	E. O. Eagberg. (Reissue)	12,445	Feb. 6	1311	285-7	120	1737
Shade holder. Window-	J. Renner	809,221	Jan. 2	1152	244	120	254
Shade-roller	L. T. Bulley	808,722	Jan. 2	200	43	120	46
Shade-roller	W. D. Janes	812,184	Feb. 6	1192	261	120	1732
Shade-roller and curtain-pole support	J. Herr	810,142	Jan. 16	3091	638	120	780
Shade-supporting device	A. Wesselock	811,455	Jan. 30	5786	1205	120	1407
Shades. Spring-roller for window-	H. R. Derby	809,098	Jan. 2	962	199	120	212
Shaft and clutch mechanism	J. O. Hobbs	810,412	Jan. 23	3701	783	120	928
Shaft and pole coupling for wagons	R. Gruner	810,641	Jan. 23	4162	859	120	1089
Shaft and pole coupling. Vehicle	W. Hullerman	813,703	Feb. 27	4362	961	120	2562
Shaft carrier and tug	W. M. Johnson	811,850	Feb. 6	598	130	120	1611
Shaft-coupling	A. J. L. Lembeck and N. B. Hart	810,777	Jan. 23	4406	914	120	1085
Shaft-gate	G. Brown and G. Taylor	812,814	Feb. 20	2585	566	120	2136
Shaft lubricator. Crank and similar	T. S. Patterson	809,740	Jan. 9	2279	473	120	534
Shafting and for like purposes. Apparatus for ascertaining errors in the alinement of	A. E. Horsfall	813,003	Feb. 20	2960	652	120	2220
Shaping-tool	C. Fichtner	813,784	Feb. 27	4516	997	120	2616
Sharpener. Disk-	C. M. Strain	809,334	Jan. 9	1455	294-5	120	354
Sharpener, shaper, and gager. Drill	J. T. Thompson	808,686	Jan. 2	525	116	120	117
Sharpening disks. Machine for	W. F. Hampy	811,716	Feb. 6	343	73	120	1582
Sharpening rock-drilling-machine bits. Apparatus for	J. A. G. Kirsten	812,570	Feb. 13	2127	466	120	2000
Shaving-stick holder	R. L. Warner	812,906	Feb. 20	2766	606	120	2178
Shear-table	J. C. Cromwell	810,845	Jan. 23	4534	942	120	1109
Shears: *See* Animal-shears. Power-shears.							
Sheave	W. C. Fischer	812,488	Feb. 13	1951	430	120	1994
Sheep-shearing table	A. Barth	810,181	Jan. 16	3165	655	120	775
Sheet-cutting machine	C. H. Marston and A. P. Holden	811,940	Feb. 6	814	178-9	120	1655
Sheet-feeding machine	F. L. Cross	812,260	Feb. 13	1506	330-2	120	1868
Sheet metal. Apparatus for removing superfluous metallic coating from	O. S. Fellows and A. E. Hopkins	810,851	Jan. 23	4537	944-5	120	1112
Sheet-metal building structure	T. Lee	808,664	Jan. 2	84	19	120	20
Sheet-metal can	I. J. Marcuse	810,211	Jan. 16	3234	669	120	789
Sheet-metal can	H. Macarthy	811,648	Feb. 6	223	48	120	1534
Sheet-metal can	I. J. Marcuse	811,649	Feb. 6	225	48	120	1534
Sheet-metal elbows. Manufacture of	W. H. Klauer	810,155	Jan. 16	3114	642	120	765
Sheet-metal humidor	H. Macarthy	811,720	Feb. 6	360	80	120	1586
Sheet-metal receptacle	D. R. Levin and G. E. Sundstrom.	811,728	Feb. 6	359	79	120	1586
Sheet-registering machine	H. Bradshaw	810,302	Jan. 23	3661	753-4	120	917
Shelf	F. W. Tobey	810,894	Jan. 23	4491	924	120	1102
Shelves. Apparatus for removing articles from	G. Ward	813,029	Feb. 20	3013	663-4	120	2231
Shell	A. H. Friedel	811,048	Jan. 30	4956	1035	120	1236
Shell for torpedoes or similar purposes	T. F. Rowland	810,983	Jan. 30	4848	1009	120	1213
Shell. Welded-	T. F. Rowland	810,812	Jan. 23	4473	929	120	1098
Shingle-edging machine	C. Provost	812,961	Feb. 20	2962	631	120	2201
Shingle-fastening device	M. M. Schuller	811,445	Jan. 30	5722	1195	120	1400
Shingle-press	J. W. Thurston	811,456	Jan. 30	5741	1202	120	1404
Shingle-trimming machine	J. D. Caldwell and I. Bushong	812,946	Feb. 27	4841	1023	120	2654
Ship's pe bulls. Construction of	J. B. I. A. Julhe	812,666	Feb. 13	2267	497	120	2000
Ships' models. Experimental tank for testing	J. M. Ford	813,413	Feb. 27	3788	831-2	120	2461
Shirt	A. F. Chase	813,774	Feb. 27	4405	902-3	120	2611
Shirt-sleeve	T. Puryear	811,662	Feb. 6	247	54	120	1539
Shock-compressor	J. M. Schebler	812,297	Feb. 13	1889	351	120	1891
Shock-loader	S. M. Nelson and N. Nielsen	811,165	Jan. 30	5197	1088	120	1288
Shoe	J. N. Moulton	809,622	Jan. 9	2055	426	120	488
Shoe	F. X. Brodeur	812,812	Feb. 20	2583	567	120	2137
Shoe	J. G. Marshand	813,053	Feb. 20	3070	672	120	2246
Shoe and slipper hanger	C. Ackroyd	813,072	Feb. 20	3105	680	120	2263
Shoe-form	C. B. Corbin	812,116	Feb. 6	1156	254	120	1724
Shoe-nailing machines. Nail-supplying device for	W. Knecht	813,310	Feb. 20	3362	736	120	2353
Shoe-polishing stand	P. H. Hixon	808,986	Jan. 2	728	158	120	161
Shoe-rack	E. F. White	808,794	Jan. 2	342	74	120	76
Shoe. Running-	B. F. Rhodes	811,428	Jan. 30	5715	1196	120	1398
Shoe-spike protector	W. O. Hatfield	810,753	Jan. 23	4368	905	120	1074
Shoe-tree	W. D. Wilder	812,315	Feb. 13	1628	388	120	1897
Shoe. Waterproof-	P. G. Mayhew	808,713	Jan. 9	2222	468	120	523
Shooting-gallery	W. J. Bowerman. (Reissue)	12,440	Jan. 30	5681	1233	120	1433
Shot-making machine	P. F. Cowling	809,871	Jan. 9	2153	446	120	508
Shoulder and sleeve form	A. M. Grean	810,333	Jan. 16	3402	722	120	844
Shoulder-form	A. M. Grean	810,332	Jan. 16	3401	721	120	844
Shovel: *See* Snow-shovel. Steam-shovel.							
Shovel	F. S. C. Pulsher	809,840	Jan. 9	2088	510	120	573
Shovel	J. E. Newton	813,196	Feb. 20	3208	724	120	2288
Shovel-guard	G. W. Jarvis	810,488	Jan. 23	3888	788	120	988
Shovel support. Steam-	L. P. Martin	810,575	Jan. 23	4362	906	120	1124
Show-case	G. C. Wright	810,343	Jan. 16	3308	685	120	804
Show-case	A. T. Hallock	810,887	Jan. 23	4549	947	120	1115
Show-case	R. G. Luthe	810,966	Jan. 30	4796	997	120	1208
Show-case	A. W. Zeigler	812,712	Feb. 13	2289	485	120	2009
Show-case corner	J. A. Henderson	810,410	Jan. 23	3699	782	120	985
Show or display case	G. E. Clapp	808,726	Jan. 2	211	46	120	48
Show-window	S. Feust	812,624	Feb. 27	4221	880	120	2585
Shrapnel	R. P. Stout	810,888	Jan. 23	4063	831	120	1075
Shredder-feeder	G. W. Crane	809,972	Jan. 9	704	159-3	120	135
Shutter	J. G. Wilson	811,627	Feb. 6	141	31	120	1582
Shutter-bower	J. L. Guyce	812,660	Feb. 6	1068	223	120	1868
Shutter bower and fastener	L. C. F. and H. C. Zimmerman	809,894	Jan. 9	2092	496	120	573
Shutter-fastener	A. D. Bartlett	812,343	Feb. 20	3040	705	120	2235

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drfs.	Official Gazette. Vol.	Official Gazette. Page.
Shuttle	E. Herzig	811,721	Feb. 6	351	78	120	1564
Shuttle-brake	J. Laforêt. (Reissue)	12,426	Jan. 2	1333	271	120	266
Shuttle-operating mechanism	E. H. Ryon	810,681	Jan. 23	4226	875	120	1044
Sickle	P. E. Fletcher	809,676	Jan. 9	2186	448	120	808
Sickle-bar-removing tool	S. M. Hill	811,208	Jan. 30	5454	1157	120	1344
Siding. Manufacturing	C. Loetscher	808,988	Jan. 2	749	162	120	165
Sieve	W. H. Hoyt and W. J. Gaven	810,652	Jan. 23	4120	853	120	1034
Sieve	A. W. Edstrom	812,333	Feb. 13	1680	365	120	1909
Sifter	A. O. Atkinson	813,763	Feb. 27	4464	989	120	2604
Sifter and screen hanger	J. T. Leonard	811,857	Feb. 6	610	129	120	1612
Sifter. Ash-	C. H. Dow	813,625	Feb. 27	4213	928	120	2580
Sifter. Flour-	E. T. Farmer	809,178	Jan. 2	1082	227	120	240
Sifter. Flour-	W. M. Viser	810,894	Jan. 23	4645	988	120	1133
Sight-feed. Fountain	H. J. Carle	811,543	Feb. 6	16	4–5	120	1488
Sign	L. C. Hamel	813,554	Feb. 27	4080	894	120	2523
Sign	C. A. Peterson	813,580	Feb. 27	4127	905	120	2532
Sign-changing letter. Automatic	E. C. Thomas and C. F. Jenkins	808,884	Jan. 2	524	115	120	117
Sign. Electric	C. Haller	811,057	Jan. 30	4970	1088	120	1240
Sign. Electric	C. Haller	811,058	Jan. 30	4972	1088	120	1241
Sign-holder	C. Haller	811,059	Jan. 30	4974	1088	120	1241
Sign. Illuminating	H. A. Waterhouse	811,264	Jan. 30	5305	1126	120	1331
Sign. Transparent	A. N. Gatzert and S. Berens	813,087	Feb. 20	3126	685	120	2258
Signal: *See* Car-signal. Danger-signal. Electric signal. Gas danger-signal. Railway-signal.	J. M. Rathsam	812,525	Feb. 13	2027	444	120	1980
Signal	R. Stanford and P. R. Colpitt	809,029	Jan. 2	798	172	120	176
Signal	K. Möller	811,238	Jan. 30	5344	1116	120	1320
Signal attachment. Semaphore	C. R. Dowler	812,025	Feb. 6	1003	219	120	1694
Signal-lights. Intensifying the colors of	C. H. Gill	809,678	Jan. 9	2189	449	120	809
Signals. Rain-guard for	W. Churchill	810,715	Jan. 23	4292	891	120	1059
Signaling	R. Herman	809,800	Jan. 9	2387	494	120	857
Signaling apparatus	W. Churchill	810,714	Jan. 23	4289	891	120	1058
Signaling apparatus. Electrical hose-	J. T. Hambay	806,984	Jan. 2	727	157	120	161
Signaling apparatus. Police	W. Fowler	811,836	Feb. 6	559	124–5	120	1604
Signaling system	C. L. Foster and P. K. Higgins	812,733	Feb. 13	2430	532	120	2059
Signaling system. Party-line	H. O. Holderness and C. G. Hawley.	813,426	Feb. 27	3816	837	120	2461
Signaling system. Selective	A. F. Poole and F. B. Hall	810,346	Jan. 16	3525	726	120	852
Signaling system. Wireless electric	C. G. Hawley and H. O. Holderness.	813,419	Feb. 27	3802	834–5	120	2458
Signature-gatherer	R. H. Rendahl	813,914	Feb. 27	4779	1055–6	120	2672
Silk fibroin peptone. Making	G. M. Kent and C. L. Smith	811,509	Jan. 30	5832	1221–2	120	1422
Silo	J. Altachul	813,272	Feb. 20	3488	.....	120	2334
Silver salt. Producing solutions containing pure	D. A. Schlichter	812,386	Feb. 13	1801	351	120	1891
Silvering-machine	W. Bölsterli	809,378	Jan. 9	1348	.....	120	331
Skate	C. C. Laval	813,980	Feb. 27	4595	1084–5	120	2695
Skate. Roller-	W. H. Dunne	809,108	Jan. 2	967	200	120	214
Skin-stretching machine	E. Petrini	809,980	Jan. 16	2744	564	120	988
Skirt-fastener	A. A. Hellwig	813,202	Feb. 20	3534	779	120	2344
Skirt-protecting garment	W. D. and E. H. Roy	809,465	Jan. 9	1745	360	120	417
Skirt-supporter	H. C. Deane	812,496	Feb. 13	1948	429	120	1983
Skirt-supporter	P. W. Hoffman	810,720	Jan. 23	4314	896	120	1064
Skiving-machine	G. W. Emerson	811,538	Feb. 6	209	44	120	1530
Skylight	J. Degenhardt. (Reissue)	813,958	Feb. 27	4860	1075	120	2688
Slag. Saving metal values from	C. M. Allen	12,432	Jan. 2	1339	272	120	265
Slaughter-house travelers. Tracking device for	C. E. De Moss	810,364	Jan. 16	3563	733	120	863
Sled-brake. Automatic	B. M. Weberg	808,819	Jan. 2	389	84	120	88
Sled. Logging-	A. Swanson	809,155	Jan. 2	1052	218	120	231
Sledge. Power-	F. C. Mors	812,310	Feb. 13	1619	356	120	1895
Sleeve connector. Split-	J. J. Dossert	809,575	Jan. 9	1962	405	120	662
Sleigh. Bob-	P. W. Hibbard	811,908	Feb. 6	719	157	120	1637
Sleighs. Truck attachment for	J. M. Closson	813,420	Feb. 27	3808	835	120	2459
Sliding-machine	E. F. Smith	811,545	Feb. 6	19	5	120	1489
Small-arm	G. Daninger	811,452	Jan. 30	5734	1200–1	120	1402
Small-arm magazine	P. Manser	810,192	Jan. 16	3189	681	120	780
Smelting and converting apparatus. Ore-	A. M. Day	808,938	Jan. 2	618	135	120	156
Smelting and converting ores	A. M. Day	812,186	Feb. 13	1385	307	120	1857
Smelting and refining	A. M. Day	812,786	Feb. 13	2824	555	120	2079
Smelting and refining apparatus	E. C. Pollard	813,824	Feb. 27	4600	1019	120	2633
Smelting-furnace	E. C. Pollard	813,825	Feb. 27	4606	1020	120	2634
Smelting-furnace. Duplex	A. R. Partridge	812,083	Feb. 6	1100	241	120	1718
Smoke-consumer	R. Lindemann	810,093	Jan. 16	3041	612	120	731
Smoke-consumer	J. R. and J. Gormley and P. Conley.	808,917	Jan. 2	586	120	120	128
Smoke-consuming furnace	G. M. Boone	808,168	Jan. 2	1074	222	120	226
Smoke-flue and ventilating device. Combined	W. T. Fling and J. E. Nichols	810,741	Jan. 23	4239	902	120	1066
Smoldering furnace	W. T. Paxson	809,458	Jan. 9	1731	367	120	414
Smoothing and polishing machine	C. C. Roth	808,228	Jan. 2	1197	263	120	255
Snap-switch	F. D. Shepherd	811,745	Feb. 6	396	86–7	120	1573
Snow-removing apparatus	L. A. Berry	809,420	Jan. 9	1653	340	120	398
Snow-shovel	H. R. Sargent	811,796	Feb. 6	494	107	120	1591
Soap holder. Liquid-	H. Maine	813,050	Feb. 20	3060	671	120	2240
Soap-melting machine	W. D. Luney	813,983	Feb. 27	4908	1085	120	2697
Soda-water-bottling machine	E. A. Bender	808,896	Jan. 9	2555	539	120	826
Solar furnace	F. Daum	810,193	Jan. 16	3190	681	120	781
Solder to sheet-metal can-caps, &c. Apparatus for	W. C. Wood	813,940	Feb. 20	3635	797	120	2264
Soldering machine. Means for	A. Carter	811,574	Jan. 30	5414	1139	120	1336
Solder-compound	W. G. Daugherty	812,359	Feb. 13	1662	383	120	1908
Solder-furnace	A. W. King	811,725	Feb. 6	355	.....	120	1585
Solder-furnace	A. R. Hussey	812,494	Feb. 13	1980	.....	120	1948
Solder-iron	O. J. Landgan	808,281	Jan. 9	1068	.....	120	278
Sole-blacker. Shoe-	P. Gilbert	813,274	Feb. 20	3703	814	120	2279
	W. Beck	808,807	Jan. 2	366	79	120	81

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drfs.	Official Gazette. Vol.	Official Gazette. Page.
Sole-molding machine	J. J. Heys	810,940	Jan. 30	4782	981–3	120	1194
Sole. Waterproof	J. N. Moulton	809,628	Jan. 9	2097	427	120	633
Soles and heels of shoes. Plate for	M. M. West	811,805	Feb. 6	126	29	120	1615
Sound-record tablet	W. H. Hoyt and W. J. Gaven	808,283	Jan. 2	1287	288	120	288
Sound-records. Manufacture of	W. H. Hoyt and W. J. Gaven	808,842	Jan. 2	426	94	120	94
Sound-records. Manufacture of	W. H. Hoyt and W. J. Gaven	808,843	Jan. 2	427	94	120	95
Sound-vibrations in water. Means for producing	H. B. Gale and F. M. Dewing	812,954	Feb. 27	4570	1077	120	2660
Sounding device	S. Earle	811,207	Jan. 30	4995	1103	120	1297
Spacing mechanism	W. L. Haynes	810,648	Jan. 23	4171	883	120	1023
Spade	E. C. Jewett	809,207	Jan. 9	1997	434	120	689
Spade and similar handle	F. Parkes	812,675	Feb. 13	2231	502–4	120	2103
Spark-arrester	G. Forquer and A. R. Musick	813,493	Feb. 27	3995	885	120	2493
Spark-coil	C. P. L. Noxon	811,686	Feb. 6	238	51–2	120	1597
Sparking device	H. A. Miller	812,104	Feb. 20	3163	692	120	2266
Sparking ignition system	L. J. Le Pontois	809,266	Jan. 2	1317	287–8	120	300
Sparking plug	W. Ottaway	809,578	Jan. 9	1957	407	120	662
Spatula and cork-extractor	E. B. Jelks	810,538	Jan. 23	3953	815	120	995
Spectacle-frames. Manufacturing	W. A. Coates	808,580	Jan. 2	553	122	120	122
Spectacles. Attachment to	J. P. Jackson	811,584	Feb. 6	54	11	120	1496
Spectacles. Protector for	C. E. Linnig	809,194	Jan. 2	1126	234	120	246
Speed-changing mechanism	P. Shannon	812,888	Feb. 20	3732	801	120	2170
Speed-controlling system	A. L. De Leeuw	813,201	Feb. 20	3354	737–8	120	2303
Speed device. Variable-	J. A. De Vito	812,720	Feb. 13	2424	531	120	2057
Speed-indicator	S. Schulhoff	811,686	Feb. 6	260	57	120	1562
Speed-indicator	B. Volkmar	813,185	Feb. 20	3326	731	120	2300
Speed mechanism. Variable-	S. L. Heywood	809,802	Jan. 9	2389	494–5	120	858
Speed mechanism. Variable-	R. E. Roosevarne	809,845	Jan. 9	2455	512–13	120	875
Speed-regulating device	T. L. Mansfield	812,579	Feb. 13	2146	470	120	2004
Speed-varying mechanism	J. B. Ladd	813,651	Feb. 27	4259	935–6	120	2580
Spike	J. E. Pittman	810,908	Jan. 23	4468	938	120	1097
Spike-puller	L. A. Milligan	809,122	Jan. 2	996	205–6	120	219
Spike-puller	J. F. Loreman	813,223	Feb. 20	3403	750	120	2315
Spindle: *See* Wagon-spindle.							
Spinning and twisting fibrous materials. Machine for	G. O. Haddeld	813,984	Feb. 27	4721	1044	120	2680
Spinning-frame tension device	R. G. Carle	812,919	Feb. 20	2789	613	120	2183
Spinning mechanism	J. J. Buckley, T. P. McGinn, and J. A. Rogan.	811,528	Jan. 30	5869	1230–1	120	1436
Spinning or twisting machine thread-guide mechanism	O. L. Owen and J. F. Snelling	810,668	Jan. 23	4205	870	120	1040
Spittoon	F. Reinschmidt	810,567	Jan. 23	4018	827	120	998
Splicing-pin	J. L. McSpadden, H. L. Wilkie, and W. H. Lewis.	811,788	Feb. 6	483	104	120	1589
Spoke-extractor	G. Ratthel	809,207	Jan. 9	1998	336	120	387
Spool-cabinet	J. A. Epley	809,274	Jan. 2	1320	270	120	293
Spool-holder	J. W. Meaker	810,202	Jan. 16	3404	705	120	836
Spool-holder	L. W. Near	812,670	Feb. 13	2210	498	120	2094
Spools and sewing-machine bobbins. Means for holding	F. A. Holt	809,208	Jan. 9	1992	283	120	341
Spoon. Covered	H. D. Ward	812,212	Feb. 13	1623	357	120	1888
Spoon. Measuring-	W. H. Arrowsmith	808,967	Jan. 2	600	151	120	154
Spoon. Medicine-	W. L. Jenkins	808,545	Jan. 2	122	24	120	98
Spout. Delivery-	J. F. McDermott	811,240	Jan. 30	5349	1117	120	1321
Spout for receptacles containing volatile inflammable liquids. Safety-	L. Schön	809,634	Jan. 9	2079	431	120	427
Spray	J. M. Sweeney	813,254	Feb. 20	3486	762	120	2326
Spraying apparatus	A. M. Cobb	809,045	Jan. 2	830	177–8	120	183
Spring: *See* Bed-spring. Coil-spring. Cushion-spring. Regulating-spring. Vehicle-spring.							
Spring end	G. H. Channell	809,173	Jan. 2	1082	226	120	236
Spring-making machine. Coil-	J. F. Gall	810,048	Jan. 16	2898	597–607	120	720
Spring-roller. Extensible	L. J. Dirand	813,570	Feb. 27	4698	1089	120	2655
Spring-wheel	F. A. Born	813,085	Feb. 20	3023	665–6	120	2232
Springs. Utilizing worn-out railway or like spiral steel	J. Bergmann	809,664	Jan. 9	2130	443	120	800
Springless lock	H. K. Meis	810,240	Jan. 16	3510	724	120	860
Springwork	R. C. Manson	811,224	Jan. 30	5238	1115	120	1319
Springwork	J. A. Staples	813,923	Feb. 27	4706	1089	120	2676
Springwork	J. A. Staples	813,924	Feb. 27	4709	1089	120	2676
Sprinkler: *See* Automatic sprinkler.							
Sprinkling lawns, gardens, greenhouses, parks, &c. System for	F. H. Paradice	810,972	Jan. 30	4934	1008	120	1208
Sprinkling-machine	W. A. Collins	809,046	Jan. 2	834	178	120	184
Sprocket. Expansible	A. W. Boon	809,431	Jan. 9	1699	341	120	398
Sprocket-wheel	A. Q. Dufour	811,124	Jan. 30	5128	1072	120	1274
Spur	B. G. Gilbough	810,049	Jan. 16	3015	627	120	72
Square. Folding	E. L. Cook	810,186	Jan. 16	3181	680	120	779
Square. Mechanic's	J. M. Realing	813,173	Feb. 20	3307	726	120	2297
Square. Take-down	C. K. Sitton and J. H. Williams	813,922	Feb. 27	4705	1088	120	2675
Stack shaper. Straw-	T. S. Pearson and G. B. Lindsay	812,446	Feb. 13	1874	418	120	1948
Stacker for grain or the like	J. H. Bulleck	812,014	Feb. 6	982	214	120	1690
Stacker. Hay-	A. M. and G. E. Stevens	809,838	Jan. 9	1879	388	120	647
Stacker. Hay-	C. Koehler	813,719	Feb. 27	4367	948	120	2667
Stacker. Hay-	D. E. Summers	813,908	Feb. 27	4691	1086	120	2668
Stacker. Pneumatic	H. J. Daws	811,822	Jan. 30	5570	1189–9	120	1423
Stacker. Pneumatic straw-	J. W. Nethery	811,728	Feb. 6	373	80	120	1585
Stacking method and apparatus. Straw-	J. A. Gunn and J. J. McBride	810,488	Jan. 23	3988	771	120	1000
Staging. Portable	T. H. Kingston	808,989	Jan. 2	724	159	120	170
Stair-chair. Folding	B. C. Brewer and J. D. H. Schuls	813,952	Feb. 27	4778	219–56	120	2688
Stair-marking tool	M. Lebiane	811,328	Jan. 30	5258	1114	120	1312
Stair structure	M. Plotkin	811,466	Jan. 30	5713	1196	120	1397
Stair-tread	C. W. Engbeiser	811,894	Feb. 6	698	152	120	1633
Stall floor-rack	J. H. Murray	813,217	Feb. 20	3466	760	120	2295

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drg.	Official Gazette. Vol.	Official Gazette. Page
Stall for calves. Retaining-	A. A. Lewis	809,922	Jan. 9	2621	541	120	610
Stamp	T. S. Buck	808,812	Jan. 2	374	80	120	53
Stamp	H. H. Norrington	811,949	Feb. 6	828	182	120	1655
Stamp. Adjustable time-limit	W. L. Lee	808,933	Jan. 2	741	160	120	164
Stamp-affixing machine	O. W. Johnson	809,589	Jan. 9	1936	402-3	120	458
Stamp-book cabinet. Postage	J. P. McDonald	812,072	Feb. 6	1082	236	120	1709
Stamp damping and affixing apparatus. Adhesive-	B. C. A. Vorster	810,236	Jan. 16	3289	681	120	801
Stamp. Hand dating	W. I. Follett	813,635	Feb. 27	4233	930	120	2555
Stamp-affix. Automatic safety attachment for	J. C. H. Vaught	810,006	Jan. 16	2790	578	120	699
Stamping device. Roller	W. Scott	809,018	Jan. 2	782	160	120	172
Stamping device. Tag	C. C. King	809,188	Jan. 2	1113	231	120	245
Stamping or impressing machine. Blank	G. W. Hesne	809,591	Jan. 9	1983	412	120	467
Stamping-press	H. C. Lavery	811,783	Feb. 6	459	99-102	120	1585
Stanchion	J. Foster	813,788	Feb. 27	4521	998	120	2616
Stand:							
See Barrel-stand. Display-stand. Fitting-stand. Flower-pot stand. Inkstand. Railway-switch stand. Shoe-polishing stand.							
Stand or table	J. W. Meaker	810,296	Jan. 16	3417	706	120	828
Standard	G. W. Du Bes	808,907	Jan. 2	572	126	120	125
Standard. Adjustable clutch-controlled	F. W. Coy	811,378	Jan. 30	5423	1130	120	1336
Standard. Pocketless	G. W. Du Bes	808,733	Jan. 2	226	48	120	52
Stapling-machine	C. A. Juengst	813,215	Feb. 20	3390	747-8	120	2312
Starch. Making	W. F. Rudel	810,096	Jan. 16	2973	.....	120	738
Starch. Preparing soluble	A. F. J. S. and H. A. R. A. Haake	813,647	Feb. 27	4253	.....	120	2559
Starting device. Automatic	H. A. Warden, F. Manns, and W. H. Decker.	813,262	Feb. 20	3468	765	120	2329
Station-indicator	R. F. Le Brocq	809,267	Jan. 2	1315	267	120	289
Stay-bolt	J. B. Tate	813,120	Feb. 20	3204	700	120	2276
Stay-release. Automatic	L. P. Chute	812,182	Feb. 13	1358	288	120	1834
Steam-boiler	C. W. Hawkes	809,303	Jan. 9	1817	374	120	494
Steam-boiler	G. Marshall	809,517	Jan. 9	1840	380	120	458
Steam-boiler	A. Parfitt	810,078	Jan. 16	2961	617-18	120	736
Steam-boiler	M. Janowitz	811,066	Jan. 30	4964	1040	120	1243
Steam-boiler	G. Marshall	811,236	Jan. 30	5341	1115-16	120	1320
Steam-boiler	P. Meurisse	811,785	Feb. 6	478	103	120	1583
Steam-boiler	J. C. Schneider	812,686	Feb. 13	2536	510-11	120	2039
Steam, &c. Device for circulating	P. Wigert	812,908	Feb. 20	2768	609	120	2178
Steam-discharging apparatus. Condensed-	P. C. Goff	809,253	Jan. 2	1296	262-3	120	263
Steam-drier	E. Mondt	811,162	Jan. 30	5193	1084-5	120	1286
Steam-engine	S. Thurstensen	813,750	Feb. 27	4440	980-1	120	2599
Steam-engine	E. Reynolds	811,520	Jan. 30	5853	1225-6	120	1427
Steam-engine	J. F. Murphy	813,353	Feb. 13	1686	371	120	1910
Steam-engine. Compound	F. S. Hyde	813,301	Feb. 20	3549	782	120	2347
Steam-engine. Turbine	R. P. Gibbons	813,199	Feb. 13	1301	302	120	1842
Steam from hot slag. Apparatus for generating	T. S. Tincher	811,457	Jan. 30	5742	1202	120	1404
Steam-generator	G. Mitchell	809,122	Jan. 2	907	206	120	219
Steam-generator	T. R. Butman	809,332	Jan. 9	1351	274-5	120	332
Steam-generator	D. Fitzgibbons	809,396	Jan. 9	1827	310	120	370
Steam-generator	J. W. Payne	809,539	Jan. 9	2456	510	120	573
Steam-generator	W. S. Johnson	813,096	Feb. 20	3146	689	120	2261
Steam generator and superheater	C. P. Altmann	813,133	Feb. 20	3239	710	120	2283
Steam-generator. Slag	F. A. Haughton	809,683	Jan. 9	2177	451	120	510
Steam-heater for warming and moistening foods	G. Mitchell	809,204	Jan. 2	1144	238	120	252
Steam. Means for superheating	C. J. Monfort	810,496	Jan. 23	3874	796	120	966
Steam-separator and automatic shut-off	F. A. Haughton	809,512	Jan. 9	2037	423	120	479
	D. H. Streeper and J. W. Oelenschlager.	808,701	Jan. 2	150	35	120	35
Steam shovel and dredge	G. R. Turner	812,344	Feb. 13	1480	333	120	1862
Steam systems. Drip device for	W. J. Clark	810,911	Jan. 30	4668	979	120	1177
Steam-trap	T. Marcotte	810,423	Jan. 23	3724	767	120	931
Steam-trap	E. A. Marsh	811,620	Jan. 30	5667	1190	120	1392
Steam-trap	J. H. Taylor	813,332	Feb. 20	3026	795	120	2362
Steel. Hardening	R. A. Hadfield	810,531	Jan. 23	3947	.....	120	983
Steel in conical molds. Compressing	H. Harmet	811,143	Jan. 30	5148	1076	120	1277
Steel. Melt or bath for hardening	S. N. Brayshaw	813,178	Feb. 13	1348	.....	120	1832
Steel. Treating manganese	W. Brinton	812,811	Feb. 20	2580	.....	120	2137
Steering device	A. T. Brown	808,171	Jan. 2	1078	225	120	237
Steering device. Boat-	A. B. McCoy	809,072	Jan. 2	881	187	120	195
Steering submarine and submergible boats. Means for	L. Y. Spear	812,206	Feb. 13	1614	354-5	120	1894
Stencil-cutting attachment	G. L. Hilliker	813,094	Feb. 20	3140	688	120	2260
Stereotype	G. Kleine	810,330	Jan. 16	3507	723	120	840
Stereotype-casting machines. Trimming mechanism for	P. D. Fenn	810,401	Jan. 23	3681	758	120	922
Stereotype-plate holder	T. M. North	809,524	Jan. 9	1863	395	120	441
Stereotyping apparatus	C. F. Rockstroh	809,369	Jan. 9	1611	337	120	388
Stirrup. Valve mechanism for	S. G. Goss	812,824	Feb. 20	2601	616-17	120	2185
Stoking apparatus. Liquid-	J. E. Hall	810,533	Jan. 23	3960	813-13	120	984
Stopper held by heat under pressure. Apparatus for	J. C. Miller. (Reissue)	12,448	Feb. 6	1339	289	120	1702
Stopping material. Making	C. F. V. Morel	812,765	Feb. 13	3428	849	120	2070
Storage-battery	C. H. Cheesman	812,639	Feb. 13	2357	.....	120	2024
Storage-battery and printing-up machine	J. Thomson	809,892	Jan. 9	2497	519	120	583
Storage battery. Motorcycle	F. T. Shipton	811,100	Jan. 30	5042	1054	120	1256
Storage-battery plate	T. D. Barry	811,997	Feb. 6	942	208	120	1662
Storage-battery separator	W. B. Goodyear	809,083	Jan. 2	849	190	120	188
Storage-battery terminal	P. Kennedy	809,958	Jan. 16	2703	557	120	678
Storage-battery terminal	J. H. Feldman	812,168	Feb. 6	1299	284	120	1754
Storage-battery terminal	M. Thee	810,095	Jan. 16	2985	624	120	743
Storage-battery terminal	A. K. Mansfield and S. M. Felton.	809,302	Jan. 9	1141	237	120	261
Storage-battery terminal	J. A. Caldwell	812,686	Feb. 13	2363	491-2	120	2038
Storage-battery terminal	H. and R. Hughes	813,210	Feb. 20	3277	744	120	2310
Storage-battery terminal	H. S. Kline	811,360	Jan. 30	5495	1139-40	120	1346

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drg.	Official Gazette. Vol.	Official Gazette. Page
Stone plates. Production of artificial-	C. Pohl	813,171	Feb. 20	3304	727	120	2296
Stone-saw	J. D. Clevenger	813,484	Feb. 27	3934	864	120	2480
Stone walks. Tool for making artificial-	P. F. Connelly	808,980	Jan. 2	585	128	120	122
Stopper:							
See Bottle-stopper.							
Stopper retaining and extracting device	W. L. Gallagher	810,231	Jan. 16	3490	721	120	844
Storage battery	W. Fennell and W. P. Perry	810,929	Jan. 30	4730	988	120	1189
Storage battery	W. Fennell and W. P. Perry	810,930	Jan. 30	4730	989	120	1190
Storage battery	A. Müller	813,730	Feb. 27	4405	971	120	2562
Storage battery. Electric	H. H. Porter	813,582	Feb. 27	4130	905	120	2533
Store-service apparatus	C. J. Miller	809,714	Jan. 9	2234	463	120	533
Store-service apparatus	G. Staib	810,092	Jan. 16	2989	633	120	742
Store-service. Carrier-cover for pneumatic	J. S. Palmer	810,970	Jan. 30	4830	1002	120	1207
Storm-top	W. A. Hunter	810,151	Jan. 16	3108	641	120	763
Stove	C. T. Taylor and G. L. Clark	812,614	Feb. 13	2207	480-1	120	2014
Stove attachment. Cooking	G. F. Green	811,026	Jan. 30	4969	1027	120	1240
Stove. Combined heating and cooking	J. W. Tatum	812,261	Feb. 13	1781	384	120	1892
Stove. Folding	P. Hiller	811,394	Jan. 30	5485	1137	120	1345
Stove. Heating	A. T. Nye	812,070	Feb. 6	1092	229-40	120	1711
Stove. Oil	W. P. Harrison	811,635	Feb. 6	206	44	120	1530
Stove or furnace	A. W. Woodward	811,249	Jan. 30	5556	1159	120	1296
Stove-polish. Production of	A. N. Braun	809,279	Jan. 9	1949	.....	120	321
Stove rack attachment	J. Terry	813,749	Feb. 27	4439	960	120	2599
Stoves. Automatic controlling device for gas-	W. B. Schofield and M. P. Osbourn.	811,969	Feb. 6	856	188	120	1663
Stoves. Heater attachment to	E. Bell	813,137	Feb. 20	3249	714	120	2284
Stovepipe	C. A. Boyer and D. C. Peck	810,706	Jan. 23	4271	885	120	1055
Stovepipe-thimble	H. R. Awbrey	811,537	Feb. 6	7	2	120	1496
Straightening-table	S. V. Huber	808,751	Jan. 2	261	56	120	80
Strainer	A. L. West	811,784	Feb. 6	406	88-9	120	1575
Strainer	L. W. Jones	813,434	Feb. 27	3887	840	120	2465
Strainer and cut-off. Combined	A. W. Weber	810,515	Jan. 23	3921	806	120	978
Strainer holder. Tea-	A. Chumdelah	809,807	Jan. 9	2080	431	120	478
Strainer. Milk-	A. A. C. Klint	809,115	Jan. 2	987	204	120	218
Strap:							
See Book-strap.							
Strap-loop	H. Hart	809,681	Jan. 9	2175	450	120	510
Street and station indicator	D. A. Holsberg	813,295	Feb. 27	4745	1046	120	2665
Street-cleaning apparatus	N. St. Peter, Jr.	810,302	Jan. 16	3560	732-3	120	892
Street-sweeper	C. M. Eaves, J. W. Slaven, and G. W. Wade.	813,544	Feb. 27	4054	888-9	120	2517
Stretching-frames. Locking mechanism for	J. A. Connelly	811,904	Feb. 6	712	155	120	1636
Studding. Metallic	F. Voss	808,780	Jan. 2	226	78	120	78
Stump-extractor winding mechanism	G. B. Merchant	812,063	Feb. 6	1060	231	120	1705
Stump-puller	W. Smith	808,879	Jan. 2	502	109	120	113
Stump-puller	J. K. Flynn	813,896	Feb. 27	4845	986	120	2579
Submerged objects. Apparatus for raising	C. Pino	812,521	Feb. 13	2021	443-5	120	1979
Sugar-machine	O. B. Barth	810,260	Jan. 16	3280	689	120	807
Sugar. Making maize-	F. L. Stewart	811,523	Jan. 30	5660	.....	120	1403
Sulfuric anhydrid. Making	R. Knietsch	809,480	Jan. 9	1712	362	120	409
Sulky. Pneumatic	S. E. Jerald	811,723	Feb. 6	363	78	120	1585
Superheater	W. Plats	812,448	Feb. 13	1877	413	120	1946
Support. Adjustable	B. H. Howser	812,344	Feb. 13	1675	369	120	1907
Suppository	H. Roberts	813,220	Feb. 27	4515	1021	120	2536
Surface-cleaning machine	R. B. Hutchison	813,567	Feb. 27	4026	886	120	2524
Surgical appliance	M. Rehmanns	812,679	Feb. 13	2236	507	120	2037
Surgical, dental, and like uses. Mirror for	R. Walker	811,206	Feb. 6	511	114	120	1586
Surgical operating-engine	W. H. Ludewig	812,207	Feb. 13	1923	426-6	120	1970
Surgical table	J. L. Suddarth	810,520	Jan. 23	4468	983	120	1160
Surgical table	E. B. Dill and S. F. Du Bois	810,948	Jan. 23	4394	944	120	1111
Surgical table	T. J. James, R. McAllister, and W. S. Byram.	812,133	Feb. 6	1191	261	120	1782
Suspender attachment. Garment-	W. F. Rowell	812,267	Feb. 13	1714	376	120	1916
Suspender-end	W. W. Hoopes	813,296	Feb. 20	3341	789	120	2345
Suspender-hook	F. A. Ritchie	811,090	Jan. 30	5027	1080	120	1253
Suspenders	F. B. Norris	811,081	Jan. 30	5010	1047	120	1249
Suspension-bracket	F. E. Walden	813,286	Feb. 13	1761	395	120	1895
Swing. Giant	T. G. Hill	812,906	Feb. 20	2947	649	120	2217
Swing. Lawn-	H. W. Watson	808,480	Jan. 9	1776	395	120	494
Swingletree	J. A. Buchanan	809,789	Jan. 9	2283	493	120	545
Switch:

Tea-kettle	H. B. Robde	812,486	Feb. 13	1988	416	130	1951
Teaching device. Penmanship	R. W. Manuel	809,712	Jan. 9	2220	462	130	523
Teaching spherics. Educational device for	R. E. Dickerson	812,403	Feb. 13	1806	395	130	1983
Teeth-separator	E. L. Hutchinson	811,849	Feb. 6	807	180	130	1611
Telautographic and other electric circuits	G. S. Tiffany	809,762	Jan. 9	2512	479	130	541
Telegraph and telephone system. Combined	C. Turchi	809,895	Jan. 9	2652	520	130	583
Telegraph. Facsimile	E. E. Kleinschmidt	813,142	Feb. 6	1206	265-7	130	1735
Telegraph instrument	C. J. Schwarze	812,773	Feb. 13	2801	580	130	2073
Telegraph-key	A. E. Peterman	808,777	Jan. 2	316	68-9	130	71
Telegraph-key	W. O. Coffe	812,183	Feb. 13	1386	295-6	130	1835
Telegraph-keys. Circuit-closer for	H. R. Nevens	813,512	Feb. 27	3993	875	130	2502
Telegraph or telephone pole	J. M. Perdue	811,435	Jan. 30	5711	1195	130	1397
Telegraph-poles, &c. Cross-arm construction for	O. C. Allen	811,896	Feb. 6	693	151	130	1631
Telegraph-transmitter	J. C. Barclay	811,994	Feb. 6	988	205-7	130	1680
Telegraphic keyboard apparatus	F. B. Delany	808,642	Jan. 2	43	9	130	1
Telegraphic signals. Receiving	S. D. Field	812,557	Feb. 13	2105	462	130	1995
Telegraphy and telegraph apparatus	J. Burry	811,127	Jan. 30	5097	1067-8	130	1266
Telegraphy. Wireless	P. B. Delany	808,641	Jan. 2	40	9	130	11
Telegraphy. Wireless	J. F. King	813,975	Feb. 27	4868	1081	130	2694
Telemeter	A. Joors and A. Mercenier	810,541	Jan. 23	3980	817	130	987
Telephone	C. G. Burke	809,423	Jan. 9	1981	341	130	397
Telephone-call	P. T. Geyerman	811,062	Jan. 30	4962	1086	130	1320
Telephone-exchange system. Semi-automatic	A. T. M. Thomson	808,252	Jan. 2	1216	245-52	130	220
Telephone-exchanges. Service-meter for	F. R. McBerty and E. B. Craft	813,220	Feb. 20	3414	752-3	130	2217
Telephone for ships, mines, &c	A. F. Boardman	811,029	Jan. 30	4927	1088	130	1281
Telephone-holder	L. S. Hallowell	808,988	Jan. 2	724	156	130	180
Telephone-line. Party	E. A. Buell	811,691	Feb. 6	308	67	130	1552
Telephone-line. Party	E. A. Buell	811,692	Feb. 6	311	68	130	1554
Telephone memorandum attachment	F. B. Gilbert	812,841	Feb. 20	2645	570	130	2150
Telephone or other booth	E. P. Garney	811,140	Jan. 30	5144	1075	130	1276
Telephone party-line system	F. B. Hall and A. F. Poole	810,335	Jan. 16	3494	752	130	845
Telephone party-line system	A. F. Poole and F. B. Hall	810,345	Jan. 16	3518	726-6	130	851
Telephone signaling apparatus	K. H. Poyas	808,998	Jan. 2	498	108	130	104
Telephone-switching mechanism	A. C. Gilgan	812,491	Feb. 13	1954	421	130	1964
Telephone-switchboards. Lamp-jack for	S. A. Beyland	810,307	Jan. 16	3989	734	130	824
Telephone system	H. A. Judge	808,126	Jan. 2	1109	239	130	245
Telephone system	E. A. Terpening	811,972	Feb. 6	980	194	130	1668
Telephone system	R. Shaver	813,330	Feb. 20	3620	794	130	2351
Telephone system for central stations	G. Lambert	813,360	Feb. 27	4035	896	130	2535
Telephone system. Intercommunication	R. M. Beard	808,929	Jan. 16	2634	545	130	663
Telephone toll apparatus	G. A. Long	810,491	Jan. 23	3930	788	130	954
Telephone transmitter	J. Z. Miller	809,851	Jan. 9	2436	503	130	555
Telephone transmitter arm	M. Setter	811,858	Jan. 30	5049	1053	130	1295
Telephone. Adjustable support for	W. D. Ghazky	813,135	Feb. 6	1178	253	130	1729
Telephone and telegraph. Selective call for	H. L. Knight and B. W. Sweet	809,579	Jan. 9	1895	389	130	377
Telephone and the like. Hanger for	W. Palmer, Jr.	810,573	Jan. 23	4088	867-8	130	1125
Telephone repeating system	E. R. Hobbs	809,980	Jan. 2	691	152	130	101
Telephone. Toll-	A. J. P. Bertashy	813,718	Feb. 13	2289	526-7	130	2031
Telephone-repeating system	F. L. Smith	812,976	Feb. 13	1728	399	130	1921
Telephone dial spelling system	W. Wadsworth	808,707	Jan. 2	161	37	130	57
Telephony	J. C. Rankine	808,990	Jan. 9	2641	577-8	130	632
Telescope	J. Good	811,141	Jan. 30	5145	1076	130	1276
Telescope	E. R. Mann	808,616	Jan. 9	1897	370-80	130	488
Telescope	T. Engel	812,957	Feb. 13	1880	345	130	1858
Telescope-holder. Combined camera	F. H. Thompson	812,157	Feb. 6	1270	276	130	1748

Tire. Pneumatic	J. M. Elder	811,460	Jan. 30	5706	1213	130	1410
Tire-protecting device. Pneumatic	E. Lapisse	813,900	Feb. 27	4732	1049	130	2667
Tire-protector	H. Waxman	811,345	Jan. 30	5553	1158	130	1346
Tire-protector	J. E. Cape	812,920	Feb. 13	1858	339	130	1837
Tire protector. Pneumatic	H. David	808,974	Jan. 2	706	158	130	156
Tire protector. Pneumatic	L. L. Sidwell	812,273	Feb. 13	1727	378	130	1918
Tire-tightener	L. W. Benson	813,264	Feb. 13	1497	328	130	1888
Tire. Vehicle	J. A. Swinehart	809,841	Jan. 9	2103	435	130	491
Tire. Vehicle	C. Stein	810,988	Jan. 23	4035	866	130	1133
Tire. Vehicle	J. Lang and A. Fischer	811,323	Jan. 30	5332	1114	130	1316
Tire. Vehicle	H. R. Auld	812,831	Feb. 13	1837	340	130	1899
Tire. Vehicle	G. M. Stadelman	813,676	Feb. 27	4305	948	130	2571
Tire. Vehicle-wheel	A. Dewes	810,921	Jan. 30	4721	986	130	1188
Tire. Vehicle-wheel	J. H. Lorimer	811,646	Feb. 6	221	47	130	1533
Tire. Vehicle-wheel	C. C. Worthington	813,477	Feb. 27	3980	869	130	2488
Tire. Wheel	W. A. London	813,789	Feb. 13	2475	543	130	2096
Tire. Wheel	E. F. Sobers	812,893	Feb. 20	2720	608	130	2172
Tires. Non-skidding device for	C. R. Bullard	808,721	Jan. 2	189	43	130	73
Tires. Protective cover for pneumatic	J. Albers	813,894	Feb. 27	4831	1064	130	2660
Tires to wheels. Apparatus for applying	A. R. Le Moon	811,986	Feb. 6	894	177	130	1655
Titanium with other metals. Combining	F. E. Canda	812,278	Feb. 20	2498	770	130	2205
Titration apparatus	R. König	813,977	Feb. 27	4883	1082	130	2694
Tobacco-box. Pocket	I. Z. Cohen	810,729	Jan. 23	4020	889	130	1081
Tobacco-moistening apparatus	H. J. Murphy	809,676	Jan. 9	1894	393	130	501
Tobacco-pipe	I. Mahoney	812,261	Feb. 13	1708	388	130	1910
Tobacco-pipe, cigar-holder, and cigarette-holder	L. Probyn	809,844	Jan. 9	1898	391	130	501
Tobacco-stripper	M. Dellar	813,698	Feb. 27	4888	1057-9	130	2654
Tobacco-stripping machine	J. M. Malntosh	809,724	Jan. 9	2251	487-8	130	527
Toilet article	H. A. Dorr	812,189	Feb. 13	1573	365	130	1880
Tongs	G. Kamin	812,939	Feb. 20	2613	623	130	2188
Tongue-counterbalancing device	J. E. Pardee	811,148	Jan. 30	5201	1102	130	1280
Tongue-switch	E. B. Prior	810,423	Jan. 23	3760	770	130	940
Tool	H. A. Smith and W. F. Frank	808,725	Jan. 2	1109	237	130	249
Tool	D. Morris	811,837	Feb. 6	2665	585	130	1733
Tool	R. Fobes	812,413	Feb. 27	4265	931	130	2545
Tool-stamp. Hydraulic	E. D. Fiske	808,647	Jan. 2	98	11	130	14
Tool. Combination	E. J. La Dake and I. G. O'Harra	809,191	Jan. 2	1151	255	130	267

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drfs.	Official Gazette. Vol.	Official Gazette. Page.
Tool. Combination-	J. R. Spicer	810,827	Jan. 30	4852	1010	120	1214
Tool. Combination-	J. D. Karry	813,342	Feb. 20	3539	796	120	2264
Tool. Combination-	R. A. Baggett. (Reissue)	12,488	Feb. 20	3736	825	120	2280
Tool-handle	S. E. Foreman	811,380	Jan. 30	5629	1178	120	1301
Tool-holder	C. L. Goodrich	808,861	Jan. 2	721	126	120	189
Tool-holder	B. M. W. Hanson	809,357	Jan. 3	1288	294	120	288
Tool-holder	P. H. Robinson	810,207	Jan. 16	3445	712	120	625
Tool-holder	P. P. Miller	811,786	Feb. 6	479	103	120	1602
Tool-holder	F. W. Waite	810,286	Jan. 16	3283	682	120	632
Tool holding and adjusting device	H. E. E. Molbenthin	812,947	Feb. 20	2886	620	120	2199
Tool of the hammer type. Combination-	C. H. Lawton	809,822	Jan. 9	2620	808	120	895
Tool-operating machines. Holder for rotary	W. E. Badger	810,608	Jan. 23	4057	842	120	1012
Tool. Pneumatic	W. Loewen	810,954	Jan. 30	4791	998	120	1201
Toothpick-holder	H. S. Hopper	808,941	Jan. 2	428	93	120	94
Toothpicks. Apparatus for the manufacture of	G. P. Stanley	812,895	Feb. 20	2743	604	120	2173
Toothpicks from veneer strips. Cutter for cutting	J. W. Grattan	808,918	Jan. 2	587	130	120	129
Top	G. L. Pierce	812,575	Feb. 20	2708	597	120	2165
Top-roll saddle	F. Dutcher	812,087	Feb. 6	1006	220	120	1603
Torpedo. Fibrous plastic railway-	J. Neumaier	808,942	Jan. 2	631	137-8	120	139
Torpedo guard. Marine-	H. A. Beale	811,472	Jan. 30	5765	1207	120	1409
Torpedo-setting device	F. W. Carpenter	809,082	Jan. 2	945	196-7	120	209
Toy	I. N. Phippe	809,270	Jan. 3	1322	289	120	201
Toy	R. E. King	811,510	Jan. 30	5836	1222	120	1423
Toy	I. Kinman	813,306	Feb. 20	3564	784	120	2250
Toy. Flying	J. E. Weaver	808,414	Jan. 9	1642	338	120	304
Toy for baby or doll carriages. Rotary	L. B. Matteson	811,786	Feb. 6	477	102	120	1588
Toy guns and similar toys. Box for holding	W. Saxon	813,391	Feb. 20	3731	820	120	2264
Toy-hanger. Flexible	P. R. Warren	813,536	Feb. 13	2049	449	120	1985
Toy. Mechanical and magnetic	H. F. Bartlett	810,900	Jan. 30	4670	973	120	1178
Toy or display device	H. Cottrell	813,082	Feb. 20	3120	664	120	2256
Toy or educational device	R. H. Hartley	812,651	Feb. 13	2279	496	120	2028
Toy pistol	F. Hornby	810,148	Jan. 16	3089	640	120	782
Toy pistol	F. M. Ball	808,621	Jan. 2	8	2	120	4
Toy pistol	L. H. Hinaman	809,060	Jan. 2	880	182	120	190
Toy whip	C. Tait	812,613	Feb. 13	2206	480	120	2014
Trace-carrier	W. F. Simon	811,984	Feb. 6	895	190	120	1665
Trace-tightener	H. Wilson	812,909	Feb. 20	2770	610	120	2179
Track or trolley wire. Adjustable	G. S. Davey	813,866	Feb. 27	4057	1036	120	2653
Track or way	W. Hills	813,295	Feb. 20	3540	780	120	2245
Track-sanding apparatus	H. F. Kail	809,027	Jan. 9	2202	456	120	516
Traction apparatus	F. W. Wittkowski	809,797	Jan. 2	349	78	120	78
Traction-engine	N. Hiss and H. G. De Buren	810,941	Jan. 30	4760	992	120	1195
Traction-engine	L. O. and F. B. Smith	809,678	Jan. 2	500	109	120	113
Traction-engine	M. W. Koons	808,139	Jan. 2	1115	252-3	120	246
Traction-engine	A. G. Kern	811,641	Feb. 6	213	45	120	1531
Traction system. Electric-	W. S. Kelley	813,137	Feb. 6	1196	262-3	120	1732
Traction-wheel	J. P. Gorman, Jr.	813,267	Feb. 20	3522	776	120	2241
Traction-wheel	M. Lefever and W. Gregory	809,236	Jan. 2	1212	267	120	269
Trailing fender	F. E. Knight	813,802	Feb. 13	1975	433-4	120	1968
Train air-pipes. Coupling-section for	E. G. Solomon	808,783	Jan. 2	326	70	120	73
Train-control system. Pneumatic	W. J. Hofstatter	810,863	Jan. 23	4965	980	120	1118
Train-controlling device	J. B. Linn	809,707	Jan. 9	2218	490-1	120	519
Trains. Sewerage system for	J. C. Hardenbergh	813,857	Feb. 27	4726	1045	120	2661
Trammel	J. H. Mettenheimer and W. L. Herblin	809,070	Jan. 2	876	186	120	194
Tramway. Aerial	J. F. Hottman	813,095	Feb. 20	3142	688	120	2200
Tramway-switch	R. C. Self	813,746	Feb. 27	4433	977-8	120	2597
Transfer-press	O. C. N. Gundersen	813,091	Feb. 20	3126	687	120	2259
Transfer-press and attachments therefor	J. R. Hill	813,795	Feb. 27	4530	1000-2	120	2618
Transferring apparatus	B. Smith	811,672	Feb. 6	370	80-81	120	1544
Transformer	A. M. Cathey	812,888	Feb. 13	2205	480	120	2023
Transformer. Regulating-	J. J. Frank	808,740	Jan. 2	387	81	120	84
Transplanter	H. J. Blakeslee	808,715	Jan. 2	194	43	120	45
Trap:	W. Fetzer	812,886	Feb. 13	2108	461	120	1995
See Animal-trap. Bird-trap. Fly-trap. Hog-trap. Plumber's trap. Roach-trap. Sewer-pipe back-pressure trap. Steam-trap. Vacuum-trap.							
Trap	C. Spinler	809,142	Jan. 2	1040	215	120	228
Trap	J. E. Pittman	812,623	Feb. 13	2088	443	120	1979
Trap or valve for draining heating systems. Automatic	J. H. Davis	809,788	Jan. 9	2065	488	120	553
Traversing mechanism	W. E. Magie	809,454	Jan. 9	1739	365	120	413
Traversing mechanism	S. L. G. Knox	811,280	Jan. 30	5520	1113	120	1317
Tree fastener. Shoe-tree.							
Trench	J. M. Normand	808,729	Jan. 9	2020	468	120	529
Trench	H. M. Lay	810,776	Jan. 23	4485	912-14	120	1084
Trigger and safety-guard. Instrument for graphic	J. W. Meisel	809,940	Jan. 2	695	126	120	133
Trigger-mechanism for small-arms	H. H. Edmonds	811,686	Feb. 6	188	41	120	1556
Trimmer. Vine-trimmer.	S. Turudija	810,177	Jan. 16	3154	662	120	774
Trolley-arm	A. R. Watts	809,242	Jan. 9	1479	328	120	361
Trolley-base	W. J. Norman	812,858	Jan. 23	3992	828	120	2065
Trolley-catch	H. A. Knight	812,859	Feb. 13	1973	432	120	1968
Trolley-fender	J. A. Brandt	811,818	Jan. 9	2217	488	120	548
Trolley-guard	J. A. Brandt	811,819	Jan. 9	2217	488	120	548
Trolley-harp	J. A. Brandt	811,820	Jan. 9	2217	488	120	548
Trolley-pole	J. A. Brandt	811,821	Jan. 9	2217	488	120	548
Trolley-pole-carrying device for electric railways. Overhead	J. Hess, Jr.	811,822	Jan. 9	2218	488	120	548
Trolley-supporting device	A. Palmros	812,515	Feb. 27	3999	877	120	2604
Trolley-wheel	J. Hensley	812,947	Feb. 20	2654	581	120	2152
Trolley-wheel bushing. Ball-bearing	M. Sheaber	808,882	Jan. 9	2480	516	120	579
Trolley-wheel. Self-lubricating	A. R. Kramer and O. P. Britt	810,157	Jan. 16	3117	644	120	766
Trolley-wire clamp	E. L. Baker	809,801	Jan. 9	2019	419	120	478
Trolley-wire systems for electric traction. Automatic circuit-breaking safety appliance for use in	J. Carter, G. Hall, and A. Parsons	811,522	Feb. 6	539	120	120	1600
Trolley-wires. Hanger or ear for overhead electric	A. Richardson and T. S. Jones	809,747	Jan. 9	2201	474	120	536
Trolley-wires. Hanger or ear for overhead electric	A. Richardson	812,861	Feb. 20	2728	599	120	2189
Trolling-spoon	C. Kausch	813,500	Feb. 27	3987	870	120	2497
Trolling-spoon	S. E. Knowles	813,718	Feb. 27	4395	967	120	2657
Troposcope	S. W. Baleh	813,126	Feb. 20	3247	714	120	2284
Trousers-press	M. H. Straus	810,583	Jan. 23	4053	894	120	1005
Trousers-press	J. L. Hattery	812,742	Feb. 13	2446	537	120	2033
Trousers-rack	M. Rosenberg	813,239	Feb. 20	3429	755	120	2231
Truck	H. Weber. (Reissue)	12,480	Jan. 2	1337	271	120	294
Truck	P. Twomey	809,478	Jan. 9	1771	385	120	433
Truck	J. D. Smith	811,965	Feb. 6	866	190	120	1665
Truck-bolster	H. W. Moore	812,086	Feb. 6	1064	232	120	1706
Truck bolster. Car-	J. C. Barber	809,768	Jan. 9	2231	482-3	120	544
Truck bolster. Car-	G. C. Murray	809,625	Jan. 9	2060	427	120	484
Truck-bolster. Cast	T. Fowler	811,493	Jan. 30	5802	1215	120	1416
Truck. Car-	E. C. Washburn	812,313	Feb. 13	1624	357	120	1896
Truck. Collapsible	J. M. Hopkins	809,505	Jan. 9	1823	375	120	435
Truck. Locomotive-	C. E. Fleshen	808,738	Jan. 2	234	51	120	53
Truck. Railway-car	W. E. Symons	813,255	Feb. 20	3457	762-3	120	2327
Truck. Railway-car	W. Ferris	809,435	Jan. 9	1685	346-7	120	402
Truck. Railway-car	F. F. Shaffer	810,815	Jan. 23	4477	931	120	1099
Truck. Railway-car	J. M. Hopkins	811,062	Jan. 30	4979	1039	120	1242
Truck. Self-propelled vehicle	J. M. Hopkins	813,797	Feb. 27	4538	1003	120	2620
Truck. Vehicle	H. H. Taylor	810,997	Jan. 30	4971	1014	120	1218
Truck-wheel	W. N. Springer	810,001	Jan. 16	2987	629-3	120	741
Trucks. Lateral-motion device for car-	F. W. Sickle	810,438	Jan. 23	3755	773	120	938
Trunk	E. C. Washburn	811,677	Feb. 6	379	62	120	1546
Trunk	M. E. Morgan	809,124	Jan. 2	999	206	120	220
Trunk	H. Davis	809,386	Jan. 9	1280	277	120	334
Trunk	T. J. Livas	809,709	Jan. 9	2226	461	120	521
Trunk-corder	C. C. Wigington	812,967	Feb. 20	2897	629	120	2307
Trunk-lock	W. L. Keesee	811,150	Jan. 30	5162	1079	120	1260
Trunk. Wardrobe-	J. A. Horne	810,147	Jan. 16	3096	640	120	762
Truss	T. J. Hamilton	810,203	Jan. 16	3216	666	120	785
Truss	M. B. Smyth	808,697	Jan. 2	145	34	120	34
Tub	G. M. Farleigh	812,031	Feb. 6	1011	221	120	1604
Tube:	F. Connolly	812,826	Feb. 20	2613	572	120	2144
See Boiler-tube. Pneumatic tube. Mailing-tube. Water or fluid gaging tube. Pile-tube.							
Tube-clip	F. A. Bellamy	813,033	Feb. 20	3019	668	120	2282
Tube, conduit, and pipe cleaner	A. Pickles and P. R. Sewell	812,261	Feb. 13	1702	374	120	1914
Tube-drawing apparatus	G. Baehr	808,620	Jan. 2	6	2	120	4
Tube-making machine	G. B. Mellinger	811,951	Feb. 6	616	135	120	1615
Tubes and armoring flexible hose or other tubes. Mechanism for constructing flexible metal	E. T. Greenfield	809,561	Jan. 9	1923	399-400	120	456
Tubes. Apparatus for reducing the ends of	M. Wikstrom	810,241	Jan. 16	3299	684	120	803
Tubes from pulp, paper, or similar material. Machine for making	W. B. Hope	813,701	Feb. 27	4356	950	120	2581
Tubes. Helically grooving	R. C. Montesgle	812,435	Feb. 13	1854	408	120	1944
Tubes. Machine for helically grooving	R. C. Montesgle	812,434	Feb. 13	1862	407	120	1944
Tubes. Producing	G. B. Mellinger	812,146	Feb. 6	1235	269-0	120	1742
Tubes, single or compound, with longitudinal ribs	A. Schmitz	813,918	Feb. 27	4786	1057	120	2674
Tubular boiler	F. P. Cooper	811,547	Feb. 6	22	6	120	1489
Tufting-machine	W. E. Latimer	809,572	Jan. 9	1947	404	120	461
Tug. Harness-	J. S. McKenzie	809,577	Jan. 9	1966	406	120	462
Tuning instrument	N. Bryant	813,709	Feb. 27	4475	988	120	2607
Tunnel-erecting apparatus	H. Japp	811,404	Jan. 30	5683	1183-4	120	1396
Tunnel-shield	C. L. Parmelee and E. G. Williams	810,426	Jan. 23	3729	769	120	932
Turbine	C. E. Smith	809,147	Jan. 2	1038	214-15	120	227
Turbine	J. H. Barker	809,377	Jan. 9	1347	274	120	331
Turbine	E. Maier	809,711	Jan. 9	2220	462	120	522
Turbine	F. W. Reeves	811,053	Feb. 6	240	55-6	120	1539
Turbine-bucket	H. Keller	812,795	Feb. 13	2547	520	120	2084
Turbine bucket-wheel	J. Wilkinson	811,995	Feb. 6	915	201	120	1675
Turbine. Combined impulse and reaction	C. Pfenninger	813,169	Feb. 20	3297	726	120	2294
Turbine-controller	F. Samuelson	809,847	Jan. 9	2469	513-14	120	570
Turbine controller mechanism	J. Wilkinson	811,992	Feb. 6	904	200	120	1673
Turbine-driven machinery	A. C. E. Rateau and G. Sautter	812,878	Feb. 20	2712	597-8	120	2168
Turbine. Elastic-fluid	A. H. Krusi	809,636	Jan. 9	2411	503	120	568
Turbine. Elastic-fluid	P. C. Ossanyan	810,667	Jan. 23	4288	889	120	1089
Turbine. Elastic-fluid	O. O. Storlo	810,992	Jan. 30	4990	1012	120	1236
Turbine-engine	J. Wilkinson	811,994	Feb. 6	912	201	120	1674
Turbine-engine	E. J. Wood	808,709	Jan. 2	164	38	120	38
Turbine-engine	H. Schoele	808,989	Jan. 2	648	141	120	143
Turbine-engine	G. C. E. de Bonneshose	810,382	Jan. 16	3284	680	120	808
Turbine gate mechanism	P. F. Holmgren	811,689	Feb. 6	218	45	120	1550
Turbine. Marine-	N. Lombard	812,828	Feb. 13	1969	425	120	1968
Turbine. Marine-	J. Wilkinson	811,993	Feb. 6	917	202	120	1675
Turbine-regulating means	J. Wilkinson	811,997	Feb. 6	919	202	120	1676
Turbine. Steam-	A. Lund	810,665	Jan. 23	4701	963-4	120	1221
Turbine. Steam-	J. Stumpf	811,825	Feb. 6	809	174	120	1624
Turbine. Steam-	W. E. Sheppard	811,878	Feb. 6	888	142-3	120	1634
Turbine. Steam or gas	N. R. Smith	812,883	Feb. 13	2048	454	120	2041
Turbine. Governing mechanism for elastic-fluid	J. Stumpf	811,726	Feb. 6	488	98	120	1574
Turbines. Hydraulic shaft-packing for	F. Samuelson	811,249	Jan. 30	5367	1150	120	1338
	J. P. Kay	811,662	Feb. 6	314	68	120	1581

Alphabetical list of inventions for January and February—Continued.

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drs.	Official Gazette. Vol.	Official Gazette. Page.
Turbines. Packing for elastic-fluid	W. L. R. Emmet	811,533	Feb. 6	554	122-3	120	1603
Turnbuckle	J. A. Steinmetz	809,080	Jan. 2	799	173	120	176
Turning, shaping, and finishing machine. Automatic	A. R. Weiss	813,187	Feb. 20	3230	732-3	120	2301
Turning-tool	G. D. Barlow	811,027	Jan. 30	4926	1027	120	1230
Turnstile registering or indicating device	A. Marsh	809,836	Jan. 9	2421	805	120	566
Turpentine-box-cutting machine	R. L. Ivey and R. D. McDonald	809,444	Jan. 9	1700	349-51	120	407
Turpentine-collecting spout. Crude-	J. I. Hatfield	810,782	Jan. 23	4356	905	120	1074
Turpentine-gathering spout	J. I. Hatfield	812,682	Feb. 13	2261	495	120	2026
Turpentine. Refining	J. W. Kennedy	811,089	Jan. 30	4992	1041	120	1245
Tweezers, needle, and eye-gurette. Combined	G. O. Gilmer	813,086	Feb. 20	3128	685	120	2258
Twine. Waterproofing	E. Pastore	809,579	Jan. 9	1989	497	120	468
Type	H. Feder	812,837	Feb. 20	2627		120	2149
Type and cylinder. Adjustable curved	K. U. Whitted	813,848	Feb. 27	4552	1039	120	2845
Type and plate. Interchangeable curved	H. L. Koehler	811,727	Feb. 6	356	79	120	1495
Type-bar hanger	H. L. Koehler	811,776	Feb. 6	450	97	120	1504
Type-distributing mechanism	W. H. Pike, Jr.	813,654	Feb. 27	4287	944	120	2567
Type-form leveler	H. C. Hensel	810,205	Jan. 16	3219	667	120	786
Type-setter's machine	A. S. Allen	811,254	Jan. 30	5565	1161	120	1368
Type-setting machine	J. G. Gosselin	811,265	Jan. 30	5440	1134	120	1241
Type. Space for justifying lines of	J. S. Duncan	811,622	Feb. 6	174	38-40	120	1524
Type-wheel alinement	D. B. Ray	813,912	Feb. 27	4777	1054	120	2672
Type-writer cabinet	C. A. Bennett	810,024	Jan. 16	2539	557	120	707
Type-writer. Electrically-operated	W. W. Johnston and W. T. Watts	810,416	Jan. 23	3712	765	120	926
Type-writer roller	W. J. Roussel	811,247	Jan. 30	5350	1119	120	1324
Type-writer work-holder. Flat-platen	W. A. Small	811,800	Feb. 6	508	112	120	1503
Type-writers. Paper-movement indicator for	G. W. Donning	813,489	Feb. 27	3944	865	120	2492
Type-writers. Paper-movement indicator for	C. C. Poole	811,172	Jan. 30	5307	1089	120	1200
Type-writing machine	C. C. Poole	811,173	Jan. 30	5211	1089	120	1201
Type-writing machine	H. L. Arnold	808,714	Jan. 2	176	40	120	30
Type-writing machine	H. W. Merritt	808,771	Jan. 2	299	65	120	68
Type-writing machine	C. H. Shepard	808,878	Jan. 2	492	108-7	120	110
Type-writing machine	L. C. Neff	809,391	Jan. 9	1503	334	120	364
Type-writing machine	J. Felbel	809,678	Jan. 9	2164	448	120	507
Type-writing machine	C. E. Peterson	809,979	Jan. 16	2740	564	120	627
Type-writing machine	J. A. Hagerstrom	810,202	Jan. 16	3214	666	120	785
Type-writing machine	B. C. Stickney	810,259	Jan. 16	3552	730-1	120	859
Type-writing machine	B. C. Stickney	810,260	Jan. 16	3555	731-2	120	860
Type-writing machine	B. C. Stickney	811,182	Jan. 30	5230	1095	120	1204
Type-writing machine	G. W. Campbell	811,183	Jan 30	5232	1095	120	1205
Type-writing machine	E. J. Barker	811,481	Jan. 30	5779	1210	120	1412
Type-writing machine	B. A. Brooks	812,177	Feb. 13	1344	292-3	120	1531
Type-writing machine	A. J. Briggs	812,782	Feb. 13	2514	553	120	2076
Type-writing machine	J. E. Molle	813,245	Feb. 20	3643	799	120	2366
Type-writing-machine attachment	E. F. Elmberg	813,570	Feb. 27	4113	901-2	120	2530
Type-writing-machine back-spacing attachment	G. A. Rine	810,896	Jan. 23	4046	909	120	1134
Type-writing-machine cyclometer attachment	G. W. Simmons	812,669	Feb. 13	2228	507	120	2037
Type-writing machine. Stenographic	C. E. Keel	812,626	Feb. 27	4021	881	120	2510
Type-writing-machine type-cleaning device	S. E. Halsey	810,209	Jan. 16	3220	666-9	120	786
Typographic machine	C. Muehleisen	811,304	Jan. 30	5631	1179	120	1562
Umbrella	M. G. McGuire	812,585	Feb. 13	2157	472	120	2006
Umbrella attachment	M. A. Brunner	808,863	Jan. 2	459	101	120	102
Umbrella. Folding	J. H. Nevin	809,551	Jan. 9	1904	395	120	451
Undercreaser	F. W. Jones	811,948	Feb. 6	837	182	120	1658
Union	W. Cooper	809,570	Jan. 9	1942	405	120	459
Union-coupling	H. S. Crombie	810,190	Jan. 16	3195	660	120	780
Unloading mechanism	G. Ward	812,642	Feb. 13	2252	492	120	2025
Upright-file	E. A. King	812,823	Feb. 13	2227	488	120	2018
Upsetting apparatus	M. Tauber	808,947	Jan. 2	631	96-6	120	96
Upsetting apparatus	P. Boller	811,383	Feb. 6	670	147	120	1527
Upsetting-springs. Means for supporting	G. E. Bigelow	810,902	Jan. 30	5687	1166-7	120	1373
Uptake	R. Bland	810,319	Jan. 16	3470	717	120	1173
Vacuum-brake. Automatic	J. W. Cloud	812,461	Feb. 13	1983	428-7	120	1990
Vacuum-trap	G. M. Hilger	812,120	Feb. 6	1184	269-60	120	1730
Valve	E. F. Hargrave	808,884	Jan. 2	66	15	120	17
Valve	W. R. Whitehead	810,500	Jan. 23	4064	857	120	1008
Valve	M. D. Larkin	810,951	Jan. 30	4783	995	120	1199
Valve	H. W. Beach	811,361	Jan. 30	5578	1164	120	1370
Valve	G. Habegger	811,497	Jan. 30	5808	1216	120	1418
Valve	E. V. Anderson	811,513	Feb. 6	323	117	120	1507
Valve	M. Hochwald	811,586	Feb. 27	4739	1047	120	2664
Valve. Air-	W. J. Rice	812,451	Feb. 13	1982	414	120	1960
Valve. Air-	T. Wheatley	813,606	Feb. 27	4174	916	120	2642
Valve and faucet reseating device	A. Eberlein	808,912	Jan. 2	573	128	120	127
Valve-bag	A. M. Bates	810,318	Jan. 16	3467	717	120	840
Valve-bag	J. Rogers	810,340	Jan. 16	3540	727	120	856
Valve-bag	J. Rogers	812,464	Feb. 13	1957	415	120	1951
Valve. Blowing-engine	J. Kennedy	811,226	Jan. 30	5326	1112	120	1216
Valve. Check-	J. H. Nolan and M. L. Sanborn	810,803	Jan. 23	3957	709	120	971
Valve. Check-	F. E. Ten Eyck	811,185	Jan. 30	5226	1088	120	1205
Valve. Check-	M. L. Sanborn	812,885	Feb. 20	2727	600	120	2170
Valve-controlling mechanism for explosive-engines	D. F. Graham and F. A. Fox	813,043	Feb. 20	3036	668	120	2226
Valve. Engine-	R. C. Holman	810,055	Jan. 16	3227	669	120	728
Valve. Gate-	G. Lane	810,422	Jan. 23	3723	767	120	931
Valve. Gate-	T. M. Andrews	811,117	Jan. 30	5073	1081-2	120	1263
Valve. Hydraulic tank	W. Gray	812,237	Feb. 13	1695	366	120	1905
Valve for automatic sprinkler systems. Dry-pipe	C. F. Whaler	811,998	Feb. 6	924	203	120	1677
Valve for blowing-engines, &c.	J. E. Ericson	812,080	Feb. 6	1009	220	120	1804
Valve for air-compressors	G. Knorr	813,722	Feb. 13	2463	540-1	120	2066
Valve for air-compressors. Discharge-	E. S. Clayton	813,260	Feb. 20	3653	801	120	2368
	M. A. Neuland	810,216	Jan. 16	3245	672	120	792
	E. Hill	810,720	Jan. 23	4265	927	120	1076
	M. W. Crandall	811,220	Feb. 6	849	121	120	1603
	W. Prellwitz	810,672	Jan. 23	4211	871	120	1041

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drs.	Official Gazette. Vol.	Official Gazette. Page.
Valve for gas-generators	R. Schenck	812,083	Feb. 13	2231	509-10	120	2023
Valve for gas or oil burners. Cut-off	A. Ashcraft	812,715	Feb. 13	2391	535	120	2050
Valve for hoisting-engines. Reversing	J. L. Pilling	810,883	Jan. 23	4618	982	120	1139
Valve for humidifying and heating systems. Electrically-controlled regulating	S. W. Cramer	813,083	Feb. 20	3131	694	120	2257
Valve for hydrant-pipes. Drain-	F. A. Jacobs	809,063	Jan. 2	806	184	120	191
Valve for water-gages. Check-	B. Hadley and B. Moylan	810,746	Jan. 23	4340	968	120	1070
Valve-gear	F. G. Johnson	813,433	Feb. 27	3836	849	120	2465
Valve-gear for explosion-engines	H. Richter	813,116	Feb. 20	3194	698	120	2273
Valve. Hydraulic distributing-	W. H. Wood	812,636	Feb. 13	2226	486-7	120	2020
Valve mechanism	J. M. and E. W. Ralkes	809,013	Jan. 2	773	167	120	170
Valve mechanism for fluid-motors	J. Wilkinson	811,983	Feb. 6	908	200	120	1674
Valve mechanism for internal-combustion engines	W. H. Schoonmaker	809,400	Jan. 9	1617	338	120	388
Valve mechanism for motors. Supply and exhaust	W. H. Johnson	813,305	Feb. 20	3562	784	120	2340
Valve mechanism. Measuring-	R. W. Goeb	809,490	Jan. 9	1698	345	120	405
Valve. Pop safety-	J. W. Grant	810,201	Jan. 16	3213	665	120	785
Valve-removing apparatus	M. A. Neeland	810,215	Jan. 16	3243	671-2	120	791
Valve. Reversing-	W. A. Field, B. B. Clark, 2nd, and F. Wilson.	812,840	Feb. 20	3641	577-8	120	2150
Valve. Rotary	C. W. Manzel	811,235	Jan. 30	5339	1115	120	1319
Valve. Safety-	C. J. Fancher	813,145	Feb. 20	3261	717	120	2287
Valve. Slide-gate	A. Stenwall	809,857	Jan. 9	2489	517	120	580
Valve. Spring-disk	J. T. Hayden	813,555	Feb. 27	4062	894	120	2532
Valve. Steam-	J. D. and E. N. Austin	810,348	Jan. 16	3518	687	120	808
Valve. Stopper-	A. T. Duncan	808,789	Jan. 2	2370	489	120	554
Valve. Tank-	D. D. Casey	811,084	Jan. 30	4936	1030	120	1233
Valve. Throttle-	R. A. Norling	813,110	Feb. 20	3180	695	120	2270
Valve. Triple-	R. E. Chapman	809,491	Jan. 9	1702	370	120	427
Valve. Wicket-	J. F. Bush	813,771	Feb. 27	4463	989	120	2609
Vamp-marking machine	J. F. Rogers	811,246	Jan. 30	5357	1118	120	1322
Vapor-burner	E. A. Franklin	813,494	Feb. 27	3957	866	120	2495
Vapor electric apparatus	A. M. Jackson	808,753	Jan. 2	263	57	120	60
Vapor-generator	A. Harrison	810,486	Jan. 23	3862	792	120	962
Vaporizer	C. and W. Hibbard	811,307	Jan. 30	5642	1181	120	1364
Vault. Burial-	J. P. Bending	809,897	Jan. 9	2556	530	120	595
Vault-lights, floors, &c. Bracing for	J. Jacobs	808,680	Jan. 2	78	17	120	19
Vault mold. Burial-	J. M. Pruett and J. C. Simpson	809,820	Jan. 9	2068	428	120	495
Vegetable-disintegrator	N. J. Shimmel	810,816	Jan. 23	4478	931	120	1089
Vegetable strips. Manufacture of	F. Stoffel	812,462	Feb. 13	1957	419	120	1953
Vegetable-washer	L. Meyer	810,549	Jan. 23	3960	820	120	961
Vegetables, &c. Cutting-machine for	A. W. Thomas	810,926	Jan. 30	4873	1014-15	120	1210
Vegetation-destroyer	W. R. McKeen, Jr., and A. H. Fetters.	810,793	Jan. 23	4442	921-2	120	1092
Vehicle	J. T. Furchtbar	809,048	Jan. 2	842	179	120	186
Vehicle	R. N. Marts	810,492	Jan. 23	3962	798-4	120	965
Vehicle antivibration device	J. H. Hanson and J. J. Petraborg	812,037	Feb. 6	1019	222	120	1606
Vehicle attachment	G. Grillier	809,501	Jan. 9	1615	374	120	422
Vehicle-body construction	H. F. Cook	810,722	Jan. 23	4302	894	120	1061
Vehicle-body construction	S. J. Dowling	809,786	Jan. 9	2260	489	120	553
Vehicle-body. Metal	E. Demsky	812,956	Feb. 27	4855	1072	120	2687
Vehicle-brake	H. and A. P. Smith	813,460	Feb. 27	3980	850-1	120	2476
Vehicle-brake	B. Viola	809,341	Jan. 9	1470	327-8	120	359
Vehicle-brake	J. L. Brewton	810,612	Jan. 23	4114	849	120	1019
Vehicle-brake	J. G. Ebken	813,545	Feb. 27	4057	889	120	2518
Vehicle-brake. Electric	J. N. Mahoney	813,062	Feb. 20	3065	672	120	2241
Vehicle-controlling device. Motor-	J. C. Gallagher	809,916	Jan. 9	2008	550-7	120	603
Vehicle-cover	W. Findlay	808,826	Jan. 2	403	88	120	89
Vehicle draft attachment	J. H. Fritz	813,630	Feb. 27	4260	963	120	2557
Vehicle draft-gear	C. Searer	809,295	Jan. 9	1443	289	120	351
Vehicle-driving mechanism. Motor-	G. E. Muff	811,314	Jan. 30	5497	1144	120	1351
Vehicle. Dumping-	S. C. Lancaster	808,991	Jan. 2	726	159-60	120	163
Vehicle. Dumping-	J. Cronin	810,204	Jan. 16	3263	664	120	814
Vehicle. Electrically-propelled	R. Thayer. (Reissue)	12,449	Feb. 6	1234	269-60	120	1763
Vehicle. Laterally-movable dumping-	J. W. King	811,851	Feb. 6	880	130-1	120	1611
Vehicle. Motor-	T. L. and T. J. Sturtevant	809,475	Jan. 9	1764	384	120	431
Vehicle. Motor-	A. Nemesaker	809,535	Jan. 9	1854	393	120	441
Vehicle. Motor-	H. M. Pope	810,370	Jan. 16	3611	763	120	872
Vehicle. Motor-	L. S. Picaits	810,881	Jan. 23	4604	989	120	1126
Vehicle. Motor-	A. Ingis	811,403	Jan. 30	5853	1133	120	1388
Vehicle. Motor-driven	P. E. Hanson	813,044	Feb. 20	3036	668	120	2237
Vehicle. Motor-propelled	H. T. Hansen	813,238	Feb. 13	1995	387	120	1995
Vehicle-motor-suspension mechanism	W. S. Johnson	813,513	Feb. 20	3251	745-7	120	2311
Vehicle-platform	F. B. Rae	810,674	Jan. 23	4214	872	120	1042
Vehicle power-transmitting mechanism. Motor-	W. E. Reynolds and W. F. Gronau.	810,222	Jan. 16	3257	676	120	794
Vehicle power-transmitting mechanism. Motor-	R. Symmonds, Jr.	809,337	Jan. 9	1462	326	120	354
Vehicle recoil-check	R. Symmonds, Jr.	809,338	Jan. 9	1463	326-7	120	355
Vehicle-recorder	H. A. Mouse	810,362	Jan. 16	3589	776	120	866
Vehicle-repairing device	J. T. Whalen	811,015	Jan. 30	4905	1026	120	1228
Vehicle running-gear	C. W. Levers	809,198	Jan. 2	1122	264	120	248
Vehicle-seat. Auxiliary	G. McHenry	811,944	Feb. 6	833	179-80	120	1658
Vehicle. Self-propelled	T. W. Parks	812,360	Feb. 13	1701	372-4	120	1813
Vehicle. Somersaulting-	H. Hill	813,422	Feb. 27	3913	852	120	2480
Vehicle-spring	J. and E. Ravel	810,208	Jan. 16	3488	710-11	120	824
Vehicle spring-gear	J. W. Sutton	813,678	Feb. 27	4289	940	120	2572
Vehicle-springs. Pneumatic	C. A. Hemstehe	809,946	Jan. 16	2573	533	120	674
Vehicle spring-wheel	M. M. Howland	811,380	Jan. 30	5452	1152	120	1345
Vehicle-springs. Equalizing device for	J. G. Babio	813,397	Feb. 27	3761	825	120	2446
Vehicle-steering device	J. A. Roth	813,368	Feb. 20	3727	755	120	2353
Vehicle steering-knuckle	G. K. Rudert	810,578	Jan. 23	4389	874	120	1046
Vehicle-steering mechanism	J. O. Haas	810,572	Jan. 16	3578	730	120	858
Vehicle-steering mechanism. Motor-	F. B. Rae	810,673	Jan. 23	4213	872	120	1042
Vehicle-stop	F. P. Maishard	809,939	Jan. 9	2081	444-5	120	525
Vehicle-top storm-front	J. Ernst	810,199	Jan. 16	3211	666	120	784
Vehicle transmission-gear. Motor-	C. C. Daugherty	811,299	Jan. 30	5485	1133	120	1339
	T. P. Maishard	812,884	Feb. 13	2286	499-500	120	2031

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drgs.	Official Gazette. Vol.	Official Gazette. Page.
Vehicle. Two-wheeled	F. M. Harrington	812,421	Feb. 13	1829	401	120	1026
Vehicle weighing device	E. T. Zeidler	810,517	Jan. 23	3023	808-7	120	978
Vehicle-wheel	M. G. Babio	809,040	Jan. 2	816	176	120	180
Vehicle-wheel	G. D. Munsing	809,206	Jan. 2	1146	238	120	252
Vehicle-wheel	W. Wright	809,681	Jan. 9	2889	854	120	589
Vehicle-wheel	T. Gare	810,356	Jan. 23	3041	811	120	982
Vehicle-wheel	M. G. Helts-Boyer	812,863	Feb. 13	2115	463-4	120	1207
Vehicle-wheel	M. G. Babio	812,629	Feb. 13	2237	457	120	2020
Vehicle-wrench	A. Desmbaugh	811,549	Feb. 6	34	6	120	1490
Vehicles. Frictional retarding means for spring-	J. M. M. Trumault. (Reissue)	12,437	Jan. 16	3024	746	120	875
Vehicles. Hanging-strap for passenger-	J. S. Collins	810,305	Jan. 23	3570	736	120	919
Vehicles. Wind-shield for	G. W. Kerr	812,930	Feb. 20	2614	620	120	2189
Velocipede	C. A. Rudbeck	812,741	Feb. 27	4423	975	120	2606
Velocipede	C. A. Rudbeck	812,742	Feb. 27	4426	976	120	2606
Velocipede. Foldable railway-	H. Barry	811,389	Jan. 30	5403	1127-8	120	1232
Velocipede. Ice-	H. Schnackloth	813,025	Feb. 20	3005	662	120	2220
Vender. Peanut-	J. C. Simering	813,026	Feb. 20	3006	662	120	2221
Vending-machine	H. K. Hansen	809,863	Jan. 9	1989	400	120	457
Vending-machine	A. Merckens	811,571	Feb. 6	71	15	120	1500
Vending-machine. Automatic	G. C. Yocum	811,756	Feb. 6	408	89	120	1575
Vending-machine. Automatic	A. E. Wyatt	812,778	Feb. 13	2508	551	120	2075
Vending-machine. Coin-controlled	E. F. Spaulding	810,576	Jan. 23	4096	830-1	120	1002
Vending-machine. Coin-controlled	F. E. Hall and A. MacLeod	810,747	Jan. 23	4341	908	120	1070
Vending-machine. Coin-controlled	J. Heinrich, J. Schmidt, and C. L. Etheridge	811,501	Jan. 30	5815	1217-18	120	1419
Vending machines. Fraud-preventive mechanism for cigar-	J. Heinrich, J. Schmidt, and C. L. Etheridge.	811,395	Jan. 30	5633	1179	120	1383
Vending-machines. Mechanism for feeding cigars in	J. Heinrich, J. Schmidt, and C. L. Etheridge.	811,396	Jan. 30	5637	1180	120	1383
Veneer-bending machine	H. O. Little	812,854	Feb. 20	2963	584	120	2154
Veneer-cutting machine	J. J. Russell	809,136	Jan. 2	1022	211	120	225
Veneer-drier	W. M. Schwartz	811,446	Jan. 30	5722	1199	120	1400
Ventilating apparatus	C. H. Treat	809,645	Jan. 9	2110	436-7	120	493
Ventilating apparatus	H. De Wallace	811,832	Feb. 6	582	122	120	1602
Ventilator: *See* Sewer and other pipe ventilator. Window-ventilator.							
Vertical boiler	T. Susuki	810,002	Jan 16	2787	575	120	697
Vessel	Z. Scott	813,177	Feb. 20	3314	729	120	2206
Vessel and mechanism connected therewith. Submarine	G. Simpson	812,950	Feb. 20	2879	636	120	2204
Vessel. Marine	J. E. Johnson	809,084	Jan. 2	867	184	120	192
Vessel. Marine	J. J. Sitzler	812,604	Feb. 13	2194	478	120	2012
Veterinary-surgeon's table	L. L. Conkey	809,358	Jan. 9	1305	325	120	366
Veterinary surgical instrument	W. B. Compton	813,080	Feb. 20	3117	683	120	2256
View-holder. Folding	P. M. O'Connor	811,658	Feb. 6	242	52	120	1538
Vinasses. Treatment of	C. Sudre	810,442	Jan. 23	3762	775	120	940
Vine trimmer. Strawberry-	N. A. Weigen	811,978	Feb. 6	897	198	120	1671
Violin-bridge	T. L. Davis	809,174	Jan. 2	1064	226	120	239
Vise	F. M. Stambaugh	809,271	Jan. 2	1324	289	120	291
Vise	T. W. Vare	813,260	Feb. 20	3465	764	120	2329
Vise-slide	E. M. Walker	808,980	Jan. 2	685	149	120	152
Voltmeter. Electrostatic	J. Ferguson	809,788	Jan. 9	2376	491	120	555
Voltmeter-switch	G. N. Eastman	810,522	Jan. 23	3683	809	120	980
Voting-machine	C. F. Harrington	809,371	Jan. 9	1535	313	120	372
Voting-machine	G. M. Warner	809,479	Jan. 9	1773	365-6	120	423
Voting-machine	S. D. Layton	812,988	Feb. 20	2834	625-6	120	2194
Voting-machine	C. E. Kimbrough	813,007	Feb. 20	2968	654	120	2222
Voting-machine	C. F. Harrington	810,648	Jan. 23	4167	861	120	1031
Voting-machine	F. A. Glidden	810,483	Jan. 23	3547	790	120	961
Voting-machine	H. L. Ferris	809,915	Jan. 9	2267	534-5	120	604
Voting-machine	H. L. Ferris	809,913	Jan. 9	2260	535	120	605
Voting-machine	W. Leppert	810,872	Jan. 23	4587	955	120	1122
Voting-machine	W. W. Cain	809,486	Jan. 9	1788	370	120	426
Wagon-body	D. Stevens	811,104	Jan. 30	5049	1055-6	120	1257
Wagon-body	C. Leavitt	811,158	Jan. 30	5173	1080	120	1282
Wagon-body	H. E. Martin	811,888	Feb. 6	67	14	120	1500
Wagon-bolster	G. McMurtrie	810,500	Jan. 23	3885	798	120	970
Wagon-box. Adjustable	M. Lambart	812,064	Feb. 6	1046	228	120	1702
Wagon-box and hay-rack. Convertible	G. B. Mills	809,388	Jan. 9	1586	329-3	120	382
Wagon-box and hay-rack lifter	M. J. Saxgen	810,812	Jan. 23	3914	804-5	120	976
Wagon-brake	J. Happel	812,239	Feb. 13	1699	367	120	1906
Wagon-brake. Automatic	E. P. Veatch	809,181	Jan. 2	1045	216	120	229
Wagon. Dumping	G. W. Crane	808,973	Jan. 2	706	153	120	155
Wagon. Dumping	F. Bloomingdale	810,088	Jan. 16	2851	586	120	709
Wagon. Dumping	D. M. Rowe	810,089	Jan. 16	2872	620	120	738
Wagon. Dumping	G. R. Starnes	810,894	Jan. 23	4260	876	120	1045
Wagon. Dumping	J. Haberling	811,770	Feb. 6	347	77	120	1563
Wagon. Dumping	G. H. Thomas	812,100	Feb. 6	1126	248	120	1720
Wagon. Dumping	H. J. Frank	812,734	Feb. 13	2432	532-3	120	2059
Wagon. Dumping	M. Haries	812,739	Feb. 13	2443	539	120	2062
Wagon. Dumping	J. E. Briggs	812,918	Feb. 20	2787	612	120	2182
Wagon-dumping apparatus	D. E. Barnes, W. O. Blackmun, and A. Miller.	812,667	Feb. 27	4320	952	120	2575
Wagon. Dumping coal-	W. Leonhardt	810,963	Jan. 30	4790	996	120	1200
Wagon-gear	E. Ehrhidt	813,286	Feb. 20	3619	776	120	2240
Wagon-gear	E. Ehrhidt	813,286	Feb. 20	3621	776	120	2241
Wagon-jack	J. L. Riddle	810,990	Jan. 30	4843	1008	120	1212
Wagon-jack	A. J. Bellel	809,146	Jan. 2	1072	228	120	236
Wagon. Front bolster and body-support for chil-	O. P. Erard	808,977	Jan. 2	715	154	120	156
Wagon. Metallic	D. H. Watts, Jr.	809,892	Jan. 9	1998	423-12	120	468
Wagon-running. Building-	W. M. Akers and B. F. Huston	811,894	Feb. 6	3	1	120	1486
Wagon-running. Motor-	J. M. Gehr	808,108	Jan. 2	972	201	120	215
Wagon-tongue	L. A. Landis	809,488	Jan. 9	1719	364-5	120	411
Wagon-tongue	E. B. Sargent	813,788	Feb. 6	488	103	120	1691

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drgs.	Official Gazette. Vol.	Official Gazette. Page.
Wall-register	E. P. Corby	813,963	Feb. 27	4048	1070	120	2685
Walls. Apparatus for the construction of plastic	D. W. Boves	812,008	Feb. 6	988	211	120	1688
Wardrobe	P. Dowd	812,571	Feb. 27	4030	1040	120	2665
Wardrobe-hook	B. Z. Schreyer	809,017	Jan. 2	781	168	120	172
Wardrobe. Portable	N. Ryan	812,453	Feb. 27	3957	847-8	120	2573
Wardrobe-rack	G. R. Thies	813,248	Feb. 20	3463	768	120	2328
Warp stop-motion	T. A. B. Carver	811,373	Jan. 30	5098	1140	120	1375
Warp-tension	E. Renz	810,305	Jan. 16	3443	711-12	120	895
Warp-twisting-in machine	A. Calleson, A. D. Adriance, and A. Duppler.	810,711	Jan. 23	4378	887-89	120	1057
Washer: *See* Adjustable washer. Bolt-locking washer. Coal-washer. Coal and like washer. Gas-washer. Vegetable-washer.							
Washing apparatus. Automatic discharge for	C. Küns	812,211	Feb. 13	1413	307	120	1868
Washing-machine	A. L. Owens	810,427	Jan. 23	3728	798	120	952
Washing-machine	A. G. Moeckel	810,549	Jan. 23	3957	821	120	994
Washing-machine	F. H. Halstein	811,291	Jan. 30	5451	1186	120	1344
Washing-machine	W. I. Walker	811,801	Feb. 6	139	28	120	1613
Washing-machine	J. W. Stroh	811,804	Feb. 6	808	114	120	1894
Washing-machine	C. L. Kelly	812,126	Feb. 6	1190	263-4	120	1734
Washing-machine	T. C. Purves	812,302	Feb. 13	1589	346	120	1989
Washing-machine	S. K. Rice	812,772	Feb. 13	2500	550	120	2073
Washing-machine gearing	H. H. Munson	813,015	Feb. 20	2983	657	120	2226
Washing-machines. Mechanical movement for	W. Sweet	813,302	Feb. 20	3732	820	120	2284
Washbowl-valve	D. W. York	809,161	Jan. 2	1061	220	120	223
Washtub attachment	M. W. Story	808,702	Jan. 2	152	35	120	36
Waste materials. Apparatus for treating and roasting	F. W. Koons	813,285	Feb. 20	3722	818	120	2262
Watch	A. Felicke	809,290	Jan. 9	1268	278	120	326
Watch	H. Roost	812,234	Feb. 13	1459	320	120	1856
Watch	S. Janner	813,432	Feb. 27	3834	830	120	2464
Watch-pendant attachment	C. D. Eaton	811,705	Feb. 6	328	72	120	1558
Watch. Stop-	A. C. Loker	809,196	Jan. 2	1129	235	120	249
Water and chemicals. Rendering materials or articles resistant to	C. Kochmann and J. Kaufmann	813,218	Feb. 20	3308	.....	120	2314
Water by electrolysis. Decomposing	W. F. M. McCarty	813,105	Feb. 20	3164	602	120	2267
Water-closet	C. H. Rollins	809,222	Jan. 2	1195	244	120	264
Water-closet	F. Schuh	811,444	Jan. 30	5721	1196	120	1399
Water-closet	C. A. Sullivan	811,882	Feb. 6	670	140	120	1627
Water-closet bowls. Floor-flange for	A. Buchanan, Jr.	812,543	Feb. 13	2081	455	120	1950
Water-closet flush-pipe	C. H. Moore	810,070	Jan. 16	2952	615	120	722
Water-closet flush-tank	G. S. Thompson	813,500	Feb. 27	4157	911-12	120	2539
Water-closet flushing apparatus	W. U. Griffiths	812,902	Feb. 20	2938	647	120	2215
Water-closet flushing apparatus. Outdoor-	W. U. Griffiths	810,936	Jan. 30	4755	990	120	1182
Water-closet seat. Adjustable	W. L. Doud	811,551	Feb. 6	27	7	120	1490
Water-closet valve. Automatic	J. C. McCarl	809,722	Jan. 9	2248	467	120	537
Water-conductor	G. Glöckler	809,941	Jan. 16	2665	550	120	671
Water-control system	A. J. Collar	812,482	Feb. 13	1939	426	120	1961
Water-cooler	G. E. Savage	808,692	Jan. 2	127	30	120	30
Water-cooler	G. E. Savage	808,781	Jan. 2	325	70	120	72
Water elevating and storage apparatus	W. W. Douglass	809,351	Jan. 9	1510	306-7	120	367
Water-escape	B. F. Perry	810,579	Jan. 23	4002	988	120	1135
Water-gage	F. J. Stulp	809,850	Jan. 9	2403	518	120	581
Water-gage mechanism	T. Stringer	809,474	Jan. 9	1763	384	120	421
Water head-gate	F. D. Gliddings	811,212	Jan. 30	5292	1107	120	1309
Water-heater	J. W. Denmead	811,386	Jan. 30	5623	1177	120	1381
Water-heater and pressure-reservoir. Combined	F. L. Rice	808,947	Jan. 2	643	140	120	142
Water-level-gaging instrument	R. E. Horton	812,269	Feb. 13	1542	338	120	1877
Water-level regulator	W. J. and G. Lane	809,510	Jan. 9	1838	377	120	438
Water-motor	R. K. Parkerson	810,307	Jan. 23	3580	820	120	973
Water or fluid gaging tube	G. T. Seabury	809,471	Jan. 9	1756	363-3	120	420
Water purifying and regulating means	D. Cochrane	811,485	Jan. 30	5787	1211	120	1414
Water-purifying apparatus	C. L. Kennicott	811,229	Jan. 30	5328	1113	120	1316
Water-supply system. Automatic	J. Johnson	808,662	Jan. 2	80	18	120	20
Water-supply system. Automatic	J. Johnson	813,558	Feb. 27	4090	897	120	2535
Water-wheel	D. Hug	813,209	Feb. 20	3546	781	120	2246
Water-wheel	J. Schulte, Jr.	813,672	Feb. 27	4301	946	120	2570
Water-wheel casings. Cushion device for gates of	C. E. Parsons	810,808	Jan. 23	4080	988	120	1085
Water-wheel construction. Turbine-	A. Giesler	814,002	Feb. 27	4950	1085	120	2705
Water-wheel nozzle. Impact-	W. A. Dobie. (Reissue)	12,480	Feb. 27	4096	1109	120	2709
Water-wheels. Bucket for impulse	W. S. Smith	811,802	Feb. 6	505	118	120	1589
Watering apparatus. Stock-	W. O. Garrett	810,111	Jan. 16	3025	629-30	120	751
Watering tank. Stock-	W. Barbour	809,923	Jan. 16	2033	544	120	603
Waterproof compound	O. H. Nowak	809,721	Jan. 9	2263	.....	120	539
Wave-motor	C. A. Sahlberg	808,982	Jan. 2	122	28	120	30
Weaner. Calf-	W. E. Chandler	809,779	Jan. 9	2248	485	120	548
Weaner. Cow, calf, and colt	W. T. Horne	812,243	Feb. 13	1673	368	120	1937
Weather-board gage	L. C. Anderson	810,240	Jan. 16	2900	630	120	688
Weather-strip	L. W. Woodburn	813,288	Feb. 20	3470	767	120	2330
Weather-strip	C. M. Eveleth	812,411	Feb. 27	3784	830-1	120	2454
Weather-strip	J. H. Fiser	813,518	Feb. 27	4010	879	120	2502
Weaving	L. Lemieux	809,118	Jan. 2	991	202	120	210
Web-looping mechanism	H. F. Beckman	811,370	Jan. 30	5408	1139	120	1294
Web-looping mechanism	H. F. Beckman	811,371	Jan. 30	5410	1139	120	1295
Web-manipulating mechanism	H. F. Beckman	811,121	Jan. 30	5057	1061	120	1261
Wedge. Spring-jack	G. A. Zundel	810,886	Jan. 23	4076	949	120	1060
Weed-cutter	J. Kiliefer	813,276	Feb. 13	1885	349	120	1880
Weed-exterminator	H. Thoesl	813,616	Feb. 13	2811	492	120	2515
Weed-puller	P. M. Thayer	809,476	Jan. 9	1767	364	120	422
Weeder and harrow. Combined	A. J. King	810,154	Jan. 16	3111	648	120	788
Weeder, orchard-cultivator, and fallow-plow. Combined	W. Turner	811,899	Feb. 6	126	28	120	1630
Weeder-tooth	S. A. McCune	811,517	Jan. 30	5047	1254	120	1405
Weighing device	H. E. Dahlman	812,699	Feb. 20	2922	674	120	2148
Weighing-machine	H. B. Hixson	812,973	Feb. 27	4304	1003	120	2666

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drf's.	Official Gazette. Vol.	Official Gazette. Page.
Weighing-machine. Automatic	E. C. Arnett	810,604	Jan. 23	4248	880–1	120	1049
Welding apparatus. Socket-	D. Heggie	808,557	Jan. 2	74	16	120	18
Welding-machine. Electric	W. C. Winfield	812,999	Feb. 20	2930	639–40	120	2207
Well-boring apparatus	A. K. Wallen, Sr	810,097	Jan. 16	2999	624–5	120	744
Well device. Oil-	H. Wilson	812,711	Feb. 13	2398	524	120	2049
Well-drilling apparatus	A. Craig and E. Double	811,906	Feb. 6	715	155–6	120	1636
Well-drilling apparatus	I. L. Neely	811,947	Feb. 6	825	181	120	1658
Well-drilling machine	D. L. Baugher	812,303	Feb. 13	1777	389	120	1929
Well-pulling machine	O. D. Kraft and L. W. Fetzer	809,190	Jan. 2	1118	233	120	247
Well-sinking apparatus	M. T. Chapman	810,910	Jan. 20	4685	977–8	120	1176
Well-underreamer	C. Peters	811,584	Feb. 6	99	22	120	1507
Wells and making same. Electric heater for oil-	B. F. Gardner	809,917	Jan. 9	2806	537	120	606
Wells. Device for raising liquids from	W. Richards	813,322	Feb. 20	3606	721	120	2358
Wells. Device for recovering articles from deep	E. A. Stubler	812,379	Feb. 13	1746	383	120	1922
Wells. Fishing-tool for oil-	A. W. Wolf	811,348	Jan. 30	5556	1159	120	1306
Wells. Producing oil from oil-	R. J. Hoffman	809,806	Jan. 9	2396	496	120	580
Wells. Rotary for oil-	H. D. Bernard	812,000	Feb. 6	958	209	120	1684
Welt-making machine	G. E. Rollins. (Reissue)	12,429	Jan. 2	1334	271	120	293
Welts. Making waterproof	J. R. Reynolds	811,793	Feb. 6	490	106	120	1591
Wharf or landing-stage	A. Janssens	813,046	Feb. 20	3040	669	120	2237
Wheel: *See* Automobile-wheel. Car-wheel. Engine-wheel. Fifth-wheel. Free-running wheel. Landside-wheel. Lifting and separating wheel. Locomotive-wheel. Lubricating-wheel. Motor-wheel. Paddle-wheel. Planter-wheel. Pneumatic-cushion wheel. Propeller-wheel. Self-lubricating wheel. Spring-wheel. Sprocket-wheel. Traction-wheel. Trolley-wheel. Truck-wheel. Vehicle-wheel. Vehicle spring-wheel. Water-wheel. Wind-wheel.							
Wheel	G. L. Hinsch	810,337	Jan. 16	3504	723	120	849
Wheel	C. Heart	810,649	Jan. 23	4175	862	120	1033
Wheel	C. A. Brinley	812,179	Feb. 13	1349	293	120	1833
Wheel	C. P. Melvin	813,225	Feb. 20	3406	751	120	2315
Wheel	C. F. Marohn	813,565	Feb. 27	4102	899	120	2527
Wheel attachment. Vehicle-	G. W. Kirkpatrick	810,419	Jan. 23	3717	766	120	929
Wheel attachment. Vehicle-	G. W. Kirkpatrick	810,420	Jan. 23	3719	766	120	930
Wheel-cutting machine. Worm-	W. B. McLean	812,441	Feb. 13	1864	410	120	1946
Wheel-rim	C. S. Scott	809,533	Jan. 9	1868	388	120	444
Wheel rim. Rubber-tired-	O. L. Pickard. (Reissue)	12,450	Feb. 13	2557	562	120	2067
Wheel rim. Vehicle-	I. Hodgson	813,382	Feb. 20	3717	817	120	2381
Wheel structure	J. Ledwinka	808,765	Jan. 2	280	61	120	64
Wheels, &c., and track therefor. Casing for	H. F. Kell	809,095	Jan. 9	2200	456	120	516
Wheels, &c., and track therefor. Casing for	H. F. Kell	809,096	Jan. 9	2201	456	120	516
Wheels. Apparatus for the production of globoidal worm-	G. Mothes	809,533	Jan. 9	2496	507	120	569
Wheels. Construction of	T. R. Beaumont	808,625	Jan. 2	13	3	120	5
Wheels. Snow-shoe for	F. W. Nightingale	813,231	Feb. 20	3417	753	120	2318
Wheels to axles. Mechanism for connecting vehicle-	H. Ellil	812,423	Feb. 27	3813	836	120	2460
Wheels. Toe or grouter attachment for traction-	J. McDonald	813,571	Feb. 27	4117	902	120	2530
Wheelbarrow	W. Tasker	809,240	Jan. 9	1469	297	120	359
Wheelbarrow	W. Gossett	812,090	Feb. 20	2936	647	120	2215
Whiffletree connection	O. C. Dickerman	812,189	Feb. 13	1370	298	120	1838
Whiffletree-hook	G. W. Wilson	812,300	Feb. 13	1769	387	120	1926
Whip-holder	T. and H. Ludewick	811,308	Jan. 30	5478	1142	120	1349
Whip-operating device	A. Burrows	813,401	Feb. 27	3767	827	120	2450
Whirl	W. F Oliver	812,948	Feb. 20	2856	630	120	2200
Whisking in lengths and bundling the same. Machine for cutting cotton-	H. Marsh	813,441	Feb. 27	3851	844	120	2469
Wind-wheel	C. R. Cutting	809,431	Jan. 9	1679	344–5	120	401
Windmill	M. S. Newcomer	809,208	Jan. 2	1152	239	120	253
Windmill	B. R. Harrington	811,218	Jan. 30	5302	1109	120	1311
Windmill-regulating mechanism	M. S. Newcomer	812,671	Feb. 13	2311	503–4	120	2034
Winding-machine	A. B. McCauley	811,855	Feb. 6	231	50–1	120	1536
Winding-machine	G. W. Bromley	813,012	Feb. 6	977	213	120	1668
Winding machine. Thread-	G. W. Foster	813,372	Feb. 20	3608	813	120	2378
Winding mechanism for cotton-laps	C. Bernard	811,514	Feb. 6	157	34–5	120	1519
Winding-reel	G. Poure	810,977	Jan. 30	4834	1005–6	120	1210
Windlass	T. F. Mason	808,670	Jan. 2	93	21	120	22
Window	R. O. Scheel	813,455	Feb. 27	3871	848	120	2474
Window	W. J. Klemm	813,716	Feb. 27	4381	966–7	120	2566
Window attachment	C. H. Faulkner	810,733	Jan. 23	4322	898	120	1088
Window-box for flowers. Metal	E. E. Bixler	811,805	Feb. 20	2566	565	120	2133
Window-cleaner	A. M. Johnson and D. H. Rowe	813,800	Feb. 27	4543	1004	120	2621
Window-fixture	C. A. Cribbs and H. E. McCoy	810,489	Jan. 23	3524	795	120	956
Window-frame	H. C. Smith	810,287	Jan. 23	4631	965–6	120	1131
Window-hook	E. Etsenhouser and R. L. Morse	810,045	Jan. 16	2892	598	120	719
Window-locking means	N. A. Kunzler	812,060	Feb. 6	1041	227	120	1701
Window-shutter. Collapsible	T. Lee	809,382	Jan. 9	1509	319	120	378
Window-ventilator	E. O. Raf	808,681	Jan. 2	110	26	120	27
Window-ventilator	O. Baier	810,804	Jan. 23	4083	842	120	1014
Window-ventilator	S. McAfee	812,070	Feb. 6	1073	234–5	120	1707
Window-ventilator	S. F. Smith and S. S. Sweet	808,695	Jan. 2	137	32	120	32
Window-ventilator	R. D. Segar	809,753	Jan. 9	2300	476	120	538
Window-ventilator	E. E. Morrow	811,733	Feb. 6	389	81	120	1585
Window-ventilator	H. W. Tuthill	811,974	Feb. 6	884	186	120	1669
Window-ventilator	S. H. Garrett	812,490	Feb. 13	1922	430	120	1964
Window-ventilator	C. C. Hirsch	812,864	Feb. 13	2283	496–7	120	2089
Window-ventilator	E. T. Brown	812,913	Feb. 20	2694	567	120	2128
Window-ventilator	D. W. Keith	812,980	Feb. 20	2857	603	120	2183
Window-ventilator bracing	B. C. Rockwell	808,668	Jan. 2	120	28	120	29
Window-ventilator frame	H. E. Pallady	813,394	Feb. 20	3421	754	120	2319

Alphabetical list of inventions for January and February—Continued.

Invention.	Name.	No.	Date.	Monthly volume. Spec.	Monthly volume. Drf's.	Official Gazette. Vol.	Official Gazette. Page.
Window-screen. Metal	A. H. Mix	810,962	Jan. 30	4810	1000	120	1205
Window-screen. Rolling	H. E. and W. H. Gilland	813,642	Feb. 27	4344	952	120	2558
Window-ventilator	A. A. Stephens	809,228	Jan. 2	1202	246	120	208
Window-ventilator	G. W. Frohlich	809,500	Jan. 9	1513	370	120	433
Window-ventilator	D. Schafer	812,228	Feb. 13	1464	331	120	1839
Window-ventilator	W. A. Ralston	813,737	Feb. 27	4416	974	120	2594
Windows. Air-stop for	W. A. Davis and W. H. Samelius	808,640	Jan. 2	39	9	120	11
Wire basket	M. E. Johnson	813,490	Feb. 27	3966	870	120	2497
Wire bending and twisting machine	A. Kent and R. Orr	811,565	Feb. 6	55	12	120	1496
Wire-bending machine	R. E. Ackley	812,779	Feb. 13	2510	533	120	2075
Wire-carrier	F. L. Sessions	809,226	Jan. 2	1200	245	120	205
Wire-drawing devices. Gripping means for	H. L. Thompson	811,107	Jan. 30	5060	1058	120	1289
Wire fabrics or gauze. Loom for	E. Hollingworth	811,847	Feb. 6	594	130	120	1610
Wire-finishing tool	E. M. Lang, Jr	812,754	Feb. 13	2466	541	120	2068
Wire-goods-making machine	J. C. Perry	813,823	Feb. 27	4585	1014–19	120	2630
Wire lock	A. M. Keeney	812,926	Feb. 20	2812	619	120	2189
Wire receptacles. Apparatus for making open-work	C. von Azary	811,357	Jan. 30	5569	1162	120	1366
Wire-rope protector	H. Downs and W. C. Wally	812,413	Feb. 13	1816	398	120	1985
Wire-stay	L. G. Lease	812,053	Feb. 6	1045	226	120	1702
Wire straightening and cutting-off machine	F. B. Shuster	809,636	Jan. 9	2063	423–3	120	488
Wire-stretcher	D. K. Kirkland	808,750	Jan. 2	272	59	120	62
Wire-stretcher	Z. A. Curtis	809,006	Jan. 2	955	196–9	120	211
Wire-stretcher	S. Armes	809,767	Jan. 9	2330	482	120	544
Wire-stretcher	J. Herrmann and C. Schwaner	809,949	Jan. 16	2683	554	120	675
Wire-stretcher	L. Swank	810,003	Jan. 16	2790	576	120	698
Wire-stretcher	B. Markey	810,650	Jan. 23	4191	866	120	1057
Wire-stretcher	C. E. Crosby	810,724	Jan. 23	4307	895	120	1062
Wire-stretcher	C. R. McPherson	810,795	Jan. 23	4440	923	120	1098
Wire-stretcher	A. A. Smith	811,254	Jan. 30	5376	1122	120	1328
Wire-stretcher	K. Cunningham	812,961	Feb. 20	2921	643	120	2212
Wire-stretcher	W. McNames	813,574	Feb. 27	4121	903	120	2531
Wire-stretcher	J. S. and R. A. Snyder	813,837	Feb. 27	4635	1025	120	2642
Wire-stretcher	F. H. Carter	813,850	Feb. 27	4679	1034	120	2651
Wire stretcher and stringer	W. F. Myers	809,721	Jan. 9	2247	466	120	526
Wire-stretching device	W. Broad	812,401	Feb. 13	1796	393	120	1981
Wire-working tool	T. J. Baugh	810,837	Jan. 23	4509	989	120	1106
Wire-working tool	G. S. Majors	811,567	Feb. 6	64	13	120	1489
Wires. Cross-arm for carrying high-tension	E. E. P. Petery	809,743	Jan. 9	2284	473	120	535
Wires. Lock for crossed	E. T. Pocklington	809,396	Jan. 9	1605	325	120	388
Wireless and other transmissions. Receiver and recorder for	F. E. Gallagher	808,832	Jan. 2	409	90	120	91
Wiring or beading. Collapsible die for	L. Bauroth	810,023	Jan. 16	2836	586	120	706
Wood-boring braces. Attachment for	D. B. Yoder	813,070	Feb. 20	3102	679–80	120	2252
Wood-conveyer	G. G. Hughs	808,926	Jan. 2	601	133	120	132
Wood-decorating implement	R. A. Culver	811,396	Jan. 30	5621	1176	120	1380
Wood-grinder	T. H. Savery	813,834	Feb. 27	4630	1024	120	2641
Wood spools, cores, &c. Machine for roughing	H. J. Duncan	811,281	Jan. 30	5427	1131–2	120	1330
Wooden dishes. Machine for cutting	J. E. Tuttle and J. MacLean	811,004	Jan. 30	4883	1017–19	120	1221
Wooden handles. Straightening	J. W. Maxey	812,350	Feb. 13	1665	.....	120	1910
Woodworking-machine	J. Buffalen	809,552	Jan. 9	1905	395–6	120	451
Woodworking-machine	O. C. Wysong	812,217	Feb. 13	1630	368–9	120	1897
Work-holder	J. W. Spence	812,980	Feb. 20	2886	637	120	2205
Woven fabric	T. B. Dornan	808,976	Jan. 2	709	154	120	156
Wrapper-transferring mechanism	F. L. Herrington and H. Knight	808,745	Jan. 2	249	54	120	57
Wrappers to magazines, books, and the like. Machine for applying	B. W. Tucker	808,966	Jan. 2	689	145–7	120	148
Wrapping-machine	M. H. Ballard	812,912	Feb. 20	2774	610–11	120	2180
Wrapping machine. Package-	E. J. Tierney and P. Funck	810,005	Jan. 16	2792	576–8	120	698
Wrench: *See* Adjustable wrench. Hub-wrench. Monkey-wrench. Pipe-wrench. Screw-wrench. Vehicle-wrench.							
Wrench	H. T. Thompson	808,954	Jan. 2	654	143	120	144
Wrench	A. W. Parfitt	809,536	Jan. 9	2464	510	120	572
Wrench	F. M. Straube	809,855	Jan. 9	2491	518	120	581
Wrench	M. M. Le May	810,388	Jan. 16	2998	708	120	835
Wrench	E. K. Ansorge	810,590	Jan. 23	4078	840	120	1011
Wrench	P. Kones	810,657	Jan. 23	4188	865	120	1066
Wrench	M. M. Howland	811,234	Jan. 30	5313	1111	120	1315
Wrench	B. R. Wagy	811,451	Jan. 30	5749	1204	120	1405
Wrench	P. T. Petersson	811,741	Feb. 6	382	84	120	1579
Wrench	W. Webb and W. W. Hildreth	811,895	Feb. 6	674	147	120	1628
Wrench	D. Braxton	812,008	Feb. 6	971	212	120	1697
Wrench	I. Weisnak	812,526	Feb. 13	2051	450	120	1985
Wrench	N. Deilsle	812,551	Feb. 13	2097	460	120	1994
Wrench	E. Axford	813,096	Feb. 27	4327	952	120	2573
